

Hidden Billionaire Chapter 913 - Find a Helper

C913 Find a Helper

Luo Huaicheng came this time because he just got off from the practice field. The reason he was so happy was because he reported his new training method to the Leader.

He didn't think that the Leader would be so interested in the simulation of a battlefield using brainwave devices. He immediately asked him to contact Wu Tian and purchase a large number of items for large-scale training.

"Don't worry, this time we have to order military Kaleidoscope. We might need tens of thousands of them!" Luo Huaicheng said happily to Wu Tian. Just this matter alone was not enough to make him excited. There was one more thing that he cared a lot about.

"Also, the exoskeleton Battle Mecha that you sent last time, we, the military, need you to produce it in large quantities!"

Wu Tian did not think about this point. They needed a lot of Kaleidoscope and Wu Tian felt that it was normal. After all, that thing could adapt to a lot of things.

However, this exoskeleton Battle Mecha was completely different. This was a brand-new piece of equipment that could assist the human body.

Wu Tian did not have a clear idea on how to use this exoskeleton Battle Mecha.

"Are you sure about this?" Wu Tian still couldn't believe it, this thing was the real money making machine. If the military factory could start producing this thing in full scale, the production and profit would be terrifying.

"Yes, we are certain that the ordinary troops are temporarily out of use, but the higher-ups have decided to let us, the special forces brigade, test it out first."

Luo Huaicheng's excited expression was probably due to him using the exoskeleton Battle Mecha for the drills. If it wasn't for the good results, he definitely wouldn't have made the request so quickly.

"There's no problem with that, it's just that the money ..." The production of exoskeleton Battle Mechas was not without costs. The materials and manpower inside were a huge expense.

Luo Huaicheng immediately knew what Wu Tian was talking about. He waved his hand and said straightforwardly: "This money is not a problem, we can pay for it first! Of course, if you have already started selling this product to foreign countries, then we must lead them! "

This was easy to understand. After all, they were all people of the China, there was no need to give good things to outsiders.

"Don't worry about that. We only provided the normal version, or civilian version. We are also selling this kind of product. We have a specially developed military version to supply the army!" Wu Tian said with a mischievous smile. He had told the factory manager of the military factory to produce two versions of this when he first developed this thing.

Luo Huaicheng was even more happy when he heard that. As for how much this military version would cost, he didn't really care.

Not only were their special forces more powerful in combat, they were also among the top in terms of military equipment. Some of the equipment still being tested would sometimes be used by their Special Forces.

Therefore, once this kind of dark technology was used in the military, it would be able to be used in the military very quickly.

"Happy cooperation!" Luo Huaicheng and Wu Tian smiled as they shook hands. This was the result that everyone was very satisfied with.

"You need to hurry up and produce. We still need the goods for training."

After chatting for a while, Luo Huaicheng didn't forget to urge Wu Tian before he left.

After sending this guy off, Wu Tian finally felt a little relieved.

He finally had a steady backer.

It wasn't really right to say that this order was from a backer. The main thing was that this order would be very stable in the future. With an army order, Wu Tian wouldn't starve to death.

Moreover, his company and his arsenal could not be closed.

If they failed, who would the army find to develop such a product?

This time, Wu Tian was able to see the huge profits and broad prospects of the military industry.

In this area, the price was not sensitive. As long as the product was excellent and the price was reasonable, there was no need to worry about people buying it.

Even if the army of China didn't like it, Wu Tian could still sell it to other countries. Strictly speaking, this thing was a very stable and rigid demand.

No country would be unarmed.

For the time being, this matter should be brought to an end. Wu Tian had good news, but he didn't let down his guard.

He quickly trotted all the way to the Security Team Base on the top floor.

He saw that it was about time for him to get a face recognition result.

On the opposite side of the current security, other than the former Security Team personnel, most of them were people from the police station.

Sunn Hongsheng basically brought a bunch of elites to stay here for a long time.

"How is the situation?"

When Wu Tian came in, he asked the person in charge of this matter.

The large screen in the middle already showed the number and percentage of people selected.

"Right now, we only have seven or eight people, which means that there are still three or four people that we have yet to find."

This was already a pretty good result. In fact, the reason they found six of them was because those six had appeared.

Adding Tian Zui who helped him before, it meant that there were still four people who did not appear.

"As long as we find these four people, are we going to start collecting nets?"

Wu Tian looked at Sunn Hongsheng. Regarding this matter, the policemen had more say in it.

"Logically speaking, it would be better to investigate everything thoroughly. However, our wild guesses outside have a bit of an effect." Sunn Hongsheng was also troubled by this matter. If he acted rashly, he would definitely alert the enemy.

At that time, if he wanted to capture the remaining people, it would be hard for him to do so.

Wu Tian was silent for a moment. Sunn Hongsheng's words gave him a bold idea.

They had a way. Tian Zui, who had saved Wu Tian, could become a special agent.

Wu Tian thought of this person almost immediately. If he was willing to help, this matter could be solved immediately.

It didn't take much effort or time.

"Do you have any ideas?" Sunn Hongsheng looked at Wu Tian's silent appearance as if he had an idea.

"I might have an idea. Wait a moment, I'll be heading out!"

Wu Tian stood up and immediately wanted to go out and find Tian Zui. He remembered the place he went last time quite clearly.

Hidden Billionaire Chapter 914 - Was Discovered by Someone

C914 Was Discovered by Someone

Due to Wu Tian's quick movements, only Loong Yun followed beside him.

At this time, the two of them weren't afraid of being found out, so they just drove away in their cars.

Right now, Security Team could easily reach any corner of their S City within five minutes. Moreover, if something were to happen this time, the police would come along as well.

At that time, no matter how powerful the enemy was, they would have to consider whether they should take the risk of being chased by the police.

The place that Tian Zui lived in was actually not very good. It could even be described as shabby.

The outside walls had fallen off long ago, leaving only the bricks exposed.

Wu Tian searched according to his memory. It was a very old and worn out door. It looked like it would be damaged if he pushed it. If he moved even a little, it would fall apart immediately.

"Is anyone here?" Wu Tian shouted into the room. He really didn't dare to knock on the door, afraid that if he used too much strength, he would be able to get a hole through the door.

However, there was no sound coming from inside. Wu Tian turned around and looked at Loong Yun. The two of them looked at each other, and Loong Yun immediately understood what he meant.

Loong Yun pointed her tablet at the house and the screen immediately displayed the infrared light.

Although this method might not be appropriate to be honest, Wu Tian was in a hurry and couldn't care less.

Finding Tian Zui was the most important matter at hand.

"There's no one inside." Loong Yun saw that there was no sign of any high energy levels, so she was pretty sure that they were in the wrong this time.

"Then let's wait nearby. Maybe he went out." Wu Tian didn't plan to leave immediately, so he planned to wait for a while.

After about half an hour, they saw two figures slowly walking over.

They were talking and laughing, and one of them seemed to be a woman.

It wasn't until the two of them walked in that Wu Tian saw clearly that they were Tian Zui and Tian Ling.

Wu Tian originally wanted to go out and talk to Tian Zui, but when he saw the woman's face, he stopped.

Wu Tian and Loong Yun hid in the dark, not saying a word. They looked at each other, not knowing what to do.

It might not be good if Wu Tian went to see him, but if he doesn't see him, then this trip will be a waste.

"Why are the two of them together!?" Wu Tian was really worried because Tian Zui and Tian Ling's relationship looked a little different.

"President Wu, this is a good opportunity. If we can cooperate with this man, we can certainly subdue this Tian Ling."

Loong Yun began to advise Wu Tian. She really felt that such an opportunity was extremely rare. If he just gave up like that, it would be a waste.

"This won't do ..." Wu Tian immediately rejected this idea. Although it seemed very profitable, what if she didn't cooperate?

This way, not only would they lose a potential helper, they would also have to face the embarrassing situation of having two enemies at the same time.

"Let's go back first and wait in the car. If that woman leaves, we'll come back."

Wu Tian felt the only thing that could be done was this. It was impossible for the two of them to always be together.

Just when the two of them were ready to leave, a figure sneaked up from behind and put his hand on Wu Tian and Loong Yun's shoulders.

This happened too suddenly that Wu Tian and Loong Yun didn't notice that someone was behind them.

"Where are you guys going?" A sound that made people's hair stand on end came from behind them. It was not Tian Zui!

Wu Tian immediately stood up and turned around to grab him. His goal was to attract the guy's attention to him. Loong Yun was just an ordinary person, she couldn't be dragged into this.

He seemed to have seen through Wu Tian's thoughts. He grabbed Loong Yun behind him and blocked Wu Tian with his other hand.

Only then did Wu Tian see the man in front of him clearly.

He had a sharp mouth and monkey cheeks, a smile that was not a smile, and a pale face. With his voice, it made people think that he would be perfect if he went to the haunted house to find a job.

Wu Tian saw that Loong Yun was caught, and he was very worried. This secretary had been with him for so long, and she had become very important to Wu Tian.

Even if it meant risking his life, Wu Tian would never let anyone hurt her.

He was greeting someone, but he didn't seem to be in a hurry at all.

Wu Tian wanted to attack over and over again, but he didn't dare to move too much. This place was very close to Tian Zui's room. If there was too much noise, it would be disadvantageous for them.

With things having gotten to this point, there was no other way around it. Wu Tian could only quietly summon the Security Team within the company to come and support them.

Since he couldn't take care of them all at once, he could only try his best to take care of the enemy in front of him.

Wu Tian had to think of a way to delay the rest of the matters for a few minutes.

"You're quite beautiful, woman!" The man licked his lips at Loong Yun with a lecherous expression.

Although Loong Yun was a woman, she wasn't weak. She used all her strength to fight with this man, but her attacks were useless against him.

Wu Tian didn't have time to worry about that. He took out an electric shock device that was used to defend himself and was about to charge over.

At this moment, Tian Zui's door suddenly opened and a figure flew out.

Wu Tian's attack was immediately interrupted when one of his hands was grabbed by someone. The pale-faced man was also kicked to the side.

"Diyuv, are you courting death?" The one who came out to save the young man was none other than Tian Zui.

The man called Diyu was subdued by Tian Zui with a single move, but he didn't show any expression of unhappiness on his face. He still had a mischievous smile on his face.

This made people feel even more disgusted with him.

"Big brother Tian Zui, long time no see." At this moment, Diyu greeted Tian Zui seriously.

Tian Zui's expression was very serious, but he couldn't not pay attention to this guy.

"What are you doing here?"

"There's a mission coming down from the higher ups. We have to do it now." Diyu didn't seem to care that these words were heard by Wu Tian and Loong Yun, so he just said it directly.

Hidden Billionaire Chapter 915 - Failure to Persuade

C915 Failure to Persuade

Tian Zui nodded silently. They were all members of 11 Devils, and theoretically, they had to listen to their leader, Tiangaang Disha.

However, in general, Tiangaang Disha wouldn't casually send out a mission. This must have happened due to something very important.

"Alright, the two of us will come right away." Tian Zui could only nod in agreement. Tian Ling, who had already fallen asleep in the room, would naturally go with them.

Diyuv seemed to be satisfied with Tian Zui's attitude. He stood up and patted the dirt off his body. He walked over with interest and looked at Loong Yun carefully.

It seemed that he still harbored great fantasies towards Loong Yun.

"What on earth are these two people doing?"

Speaking of this matter, Wu Tian and Long Yu immediately relaxed a little. This guy had been messing around for so long, but he still didn't know the identities of the two of them.

However, this was also a good thing. Wu Tian and the others might have a way to get out of this.

"These are my two friends, it has nothing to do with you!" Tian Zui didn't wait for Wu Tian and the others to speak and hurriedly explained.

Diyuv's eyes lingered on Tian Zui's face for a while. He smiled without saying anything. He just waved his hand a few times and disappeared from the alley.

Seeing that that person had left, Wu Tian quickly cancelled his Security Team and let out a long breath of relief along with Loong Yun.

They really thought that this matter would be exposed just now, but they never expected things to take a turn for the worse.

"What's going on with you two!?" Tian Zui glared at Wu Tian. If it wasn't for him, the two of them wouldn't have been able to survive.

Even if Wu Tian had some ability, he probably wouldn't be able to take care of Loong Yun's safety.

"Sorry ..." Wu Tian scratched the back of his head. He didn't know when this person popped out. And how he himself had been discovered by this man.

"Alright, you guys hurry up and leave. In the future, don't appear in front of me again." Tian Zui also couldn't be bothered to listen to Wu Tian's explanation. He waved his hand and told him to leave quickly.

Wu Tian obviously wouldn't listen, he quickly walked up.

"Brother Tian Zui, this time, we want to have a good chat with you."

How could Wu Tian let this person go? This was a great opportunity to destroy the 11 Devils from the inside.

"You and I are enemies, what's there to talk about. Or did you forget that our Tianying Sect is still placing bounty on your head?"

Tian Zui looked at Wu Tian coldly. Although he didn't have any expression on his face and even looked a bit fierce, Wu Tian still felt a sense of intimacy with him.

This guy is too great. If it wasn't a good person, how could he have saved Wu Tian and the others twice?

"Aiya, Brother Tian Zui, don't say it so quickly. The two of us haven't said anything yet."

Wu Tian intended to stabilize the situation first, but he didn't expect Tian Zui to be too lazy to listen to him.

"Brother Tian Zui, don't go. I said, I came this time hoping to get your help!"

Wu Tian said as he saw the man turn around to leave. He didn't have time to hide it anymore.

Hearing that, Tian Zui stopped his steps and turned around to look at Wu Tian with a stern expression.

"You mean, you want me to betray a friend I've known for more than ten years just for someone I don't know?"

These words made Wu Tian speechless. It seemed to make sense.

No matter what, he is still a comrade that was born together and died together. Why would he turn around and betray his comrades just because he saved you twice out of good intentions?

"Are you really willing to do so many bad things? Let me tell you the truth, you are already being watched by the police, not just me, but the police force of S City. Maybe there will be more troops in the future. Do you think that's something we can fight against? "

Wu Tian looked at Tian Zui's back and shouted in a low voice. Although his voice was not loud, the content of his words were very heavy.

After Tian Zui heard this, although he didn't stop, every step he took became very heavy.

"Don't you want to live like an ordinary person? To live and enjoy life with the people you like, not as you are now. "

Wu Tian continued to speak with great power.

Tian Zui, who thought his heart was like an iron plate, suddenly felt like something had seeped in.

It was as if the ice had started to melt. He felt a warm current begin to flow out from his heart and cover his entire body.

In his mind, he saw images of himself with his family, their smiles, and all the things that had happened in the past.

Even Tian Ling who was in his own room. He could still see her in his mind. The two of them were by the sea, leisurely enjoying the sea breeze.

This scene was like a virus, crazily occupying Tian Zui's brain. He immediately realized something was wrong, so he quickly sunk his heart and suppressed all these emotions.

"Stop talking. If you don't leave now, you won't be able to escape." Tian Zui closed the door to his room, preventing Wu Tian and the other two from entering.

Wu Tian and Loong Yun saw that the persuasion seemed to have no effect at all. They both sighed, but there was nothing they could do about it.

"Let's go back first." Wu Tian shook his head helplessly at Loong Yun. At this moment, he felt that he had really thought too simply.

Wu Tian didn't understand this Tian Zui at all. Why did he think that Tian Zui would definitely come and help him?

This was a very selfish way of thinking.

After going back and looking at Wu Tian's gloomy expression, Sunn Hongsheng knew that the two of them didn't have much progress.

When Wu Tian called for their support just now, everyone was shocked. They were afraid that something happened, but the alarm was lifted on the way.

No one knew what was going on, but seeing that the two of them had returned, they decided to ask.

"What's going on? What happened? " Sunn Hongsheng looked at Wu Tian and asked, but Wu Tian didn't give him any response.

In the end, Loong Yun still told him everything that had happened.

"In other words, they might have to carry out an important matter. Does that mean they will leave the S City for a period of time?"

Sunn Hongsheng immediately realized that this might be a good opportunity for them.

When these people returned, the police might be able to take advantage of this opportunity to catch them all in one fell swoop.

Hidden Billionaire Chapter 916 - Employee's Complaints

C916 Employee's Complaints

Sunn Hongsheng's idea was not bad. However, it was hard to know how feasible it was.

It was a good opportunity for Wu Tian to take advantage of the 11 Devils being out, so he decided to make some good preparations.

The Flower Island project that had been prepared for a long time was finally about to be completed, and everyone in Wu Group Company felt very excited.

This news was personally reported by Liu Yueyao herself, which was a rare good news for Wu Tian recently.

"Great, I'll arrange a move for the company right now!"

Wu Tian shouted excitedly on the phone, causing Liu Yueyao to laugh incessantly.

"You're really anxious. Our company has so many people. If you want to move here all at once, then that building will be empty."

Liu Yueyao being in charge of the Flower Island Project this time could be said to be very effective. Although she was a woman, she had put the entire project in perspective.

"The ones that can be used for movies, Seafood TV, or whatever. They're still renting office buildings outside right now."

Regarding these, Wu Tian had already planned out what would happen next.

After hanging up, Wu Tian quickly put his decision into the company through Loong Yun.

He thought everyone in the company would be as excited as he was, but when Wu Tian went out to eat, he heard a lot of people complaining in the cafeteria.

"Our company is going to move out this time, but I just rented that house, so wouldn't my money be wasted ..."

A staff member said with a frown. Many of the people in the company were like him, renting their own houses near the company.

This expense is not a small one. The Wu Group Building was located in the middle of the S City and was located in the golden area.

The man's complaints were immediately acknowledged by the others, and they all started to make fun of him.

"That's right, I just checked, there's basically nothing near that Flower Island, it's a desolate place, there's not even a village within a few kilometers ..."

"It can't be, is it really that tragic?"

"I'm telling you, don't believe me. There are pictures of Flower Island on the company's website. Let me tell you, when we go over, there won't even be a place to stay!"

With that said, many people began to feel worried. They began to talk back and forth, and began to make sounds of unwillingness to move.

Wu Tian heard all of this. The employees never expected their boss to be sitting next to them and listening to their conversation.

"Loong Yun, are they telling the truth?" Wu Tian looked at Loong Yun beside him with a serious expression. He had rarely paid attention to these things before.

Wu Tian had always left logistics work for others to handle, so he basically didn't know anything about the employees' treatment.

Loong Yun pushed her eyes open and cleared her throat, "All the benefits in our company are in accordance with the national standards, not a single bit less. President Wu, don't worry about this. "

The moment they spoke, the staff at the table behind found out that Wu Tian was nearby. Immediately, they became frightened, afraid that what they had just said would anger Wu Tian, so they fired themselves.

Wu Tian didn't change his serious expression because of Loong Yun's words. Just because of this, his company wasn't any different from other companies.

Back then, when Wu Tian was still working, he already felt that most of the companies in the world only knew how to exploit and was unwilling to offer a little bit of profit to improve the lives of their employees.

Looking at it now, it seemed that he did the same thing, the same people he hated.

Thinking about this, Wu Tian looked at the dishes in front of him and suddenly lost his appetite.

"Come with me. Let's go out to talk about something."

Loong Yun answered and followed behind Wu Tian. However, she couldn't guess what Wu Tian was planning to do right now.

She drove Wu Tian directly to Nan He Tower.

When Nangong Ying heard the news of Wu Tian's arrival, he immediately ran out to welcome him.

"What brings you here?" Nangong Ying's face lit up, as if something good had happened to him. He was happy to see anyone.

"Of course it's Dong Feng. I came to find Baili Zhenlin, is he here?" Wu Tian said very straightforwardly to Nangong Ying. From the start, he had no intention of wasting any more time on nonsense, so he went straight to the point.

"I'm here, I'll take you there." Nangong Ying saw that Wu Tian seemed to have something on his mind, and looking a little anxious, he curiously asked: "What's wrong with you, why do you look so unhappy with the completion of the Flower Island?"

Outside in the sky, a cloud had drifted over, completely blocking the sun. Although it was a sunny day, the sky had already begun to darken.

This was very similar to Wu Tian's current mood. Hearing Nangong Ying's words, Wu Tian helplessly smiled bitterly.

"I've been too busy thinking about myself and haven't considered other people's thoughts at all."

Wu Tian's ambiguous words made Nangong Ying puzzled, but he was too lazy to think about it. He just took them to Baili Zhenlin's office and left.

Seeing that it was Wu Tian, Baili Zhenlin quickly let him sit on the sofa. Then he personally served them both with tea.

"Why is President Wu here today? Isn't the cutting ceremony for the Flower Island project tomorrow?"

There was a faint fragrance in the air. This was the fragrance of Baili Zhenlin's favorite tea. Just the smell of it alone was enough to calm a person down.

Wu Tian was originally leaning against the sofa, but in order to speak, he sat up straight and leaned towards Baili Zhenlin with a solemn expression.

"It's like this. Didn't you set up a few buildings? Give me one."

Hearing Wu Tian's words, Baili Zhenlin's mouth was wide open. He could not believe what he had heard in his ears. The teapot in his hand that was still pouring water had already been filled with water.

When the water splashed onto the tea table, Baili Zhenlin finally came back to his senses. He quickly put down the teapot in his hand and looked at Wu Tian in surprise.

"President Wu, what do you want this for? Didn't Wu Group Corporation stop doing real estate work?"

Baili Zhenlin originally saw that the Wu Group company did not know how to do real estate, so he decided to enter the game. Without a strong competitor like Wu Tian, with his strength, he naturally wouldn't have any opponents at S City.
