

Hidden Billionaire Chapter 917 - Benefits of the Company

C917 Benefits of the Company

Developing a single building wasn't an easy task, not to mention developing several buildings at the same time. Baili Zhenlin had almost used up all of his Baili Family, which was why he was able to complete the Flower Island Project together with them.

Baili Zhenlin originally thought that this building would sell very well. He never expected Wu Tian to make such a request at this time.

"I really don't do real estate. This building, I'm planning to buy it from you as a benefit for the company."

Wu Tian quickly explained, afraid that Baili Zhenlin would misunderstand and think that he was going to resume his old business.

"An entire building will be treated as a company's welfare?" Even if it was the rich and overbearing Nanhe Securities Corporation, they would not have the strength to do such a thing.

All of a sudden, Baili Zhenlin could not believe his ears.

Loong Yun was also a little surprised. One must know that the value of a building was not a small amount ... Even if it was bought at a cost, it would cost at least a few hundred million.

Wu Tian's eyes were staring straight at Baili Zhenlin, almost making him angry.

"Give me an idea, do you agree or not!"

Baili Zhenlin was forced into a corner by Wu Tian. It's not like he didn't want to say anything, he was too shocked to speak.

"This ..." Baili Zhenlin brought the tea cup to his lips, but he had forgotten to drink it.

"In terms of price, I hope you can lower it a bit. I am willing to pay directly with cash."

Wu Tian was going all out this time. He couldn't care that much anymore, as the most important thing for him to do now was to solve the employees' worries. Only by doing this would he be able to make everyone move to Flower Island happily.

After pondering for a while, Baili Zhenlin seemed to have gone through an intense mental struggle. In the end, he still let out a long sigh.

"Alright, I'll listen to you. I'll give you a building! I can also lower the price a bit, which is 120% of the cost! "

Even though the price was higher than the price, it was definitely cheaper than buying a set of house.

Wu Tian's mood suddenly became as happy as the sun after the rain. He put down the cup in his hand and excitedly rushed over to hold Baili Zhenlin's hand. He was so excited that he burst into tears.

"Two men, don't be like this ..."

Baili Zhenlin felt that his hands were about to be pinched red by Wu Tian. If he didn't know, maybe someone would suspect that the two of them had some illicit relationship. Otherwise, how could they be so intimate?

The moment the Nanhe Securities Corporation came out, the dark clouds outside also dissipated without a trace, and the bright sunlight shined on Wu Tian's happy face.

Loong Yun didn't interrupt their meeting just now. It didn't mean that she fully approved of this matter. She chatted impatiently beside Wu Tian.

"President Wu, what we're doing is too stressful for the company. We really don't need to do this ... We have already done very well with the obligations imposed by the state ... "

Buying a building was not a small matter. The investment and maintenance later on would be an astronomical expenditure.

With their company's current weak revenue, this undoubtedly gave them a Tightening Curse.

"You don't understand. The foundation of the company is the employees. If the employees can't work properly, how can our company reap any good benefits?"

"But President Wu, if we go on like this, the cash flow might break and we'll be in deep trouble again!"

Loong Yun was still unrelenting. From her point of view, it was impossible for her to understand the significance of her actions.

Wu Tian suddenly stopped and turned around to look at Loong Yun. His eyes seemed to have a light that could pierce into a person's heart.

"They're my employees, and you're my employees, so why can't they enjoy the benefits? If you don't want them to share the company's dividends, then why should the company enjoy the value they bring?"

This question seemed to penetrate deep into her soul. Loong Yun didn't know what to say after that.

On the way back, Loong Yun never mentioned this again.

When they arrived at the company, the first thing Wu Tian did was to convene a meeting of all the employees.

He looked at the thousands of employees on the ground and suddenly felt the responsibility of being the leader. So many people were pointing their fingers at him to provide for them. He really couldn't neglect these employees.

"Everyone, compared to you all, I have already received my notification. In the next few days, we will be moving out of this building, heading to a better place, Flower Island."

The news had spread throughout the company, but it did not make employees feel excited.

At this moment, the employees who were talking in the cafeteria started to get nervous, afraid that they would be expelled by Wu Tian as a typical example.

Noticing the silence below, Wu Tian paused for a moment. Then, he took out a file and pulled out a contract from it.

He held up the contract so that everyone could see it.

"I know, my decision this time was a bit too hasty. I didn't consider the issue of our employees' lives. This is my fault. I apologize to you all here."

With that, Wu Tian bowed deeply towards the platform.

"President Wu, what are you doing? Ping Corporation usually treats us quite well!"

A staff member who was closer to Wu Tian started to cry tears of gratitude when he saw Wu Tian do this. He started to feel sorry for Wu Tian.

Wu Tian looked at the employee gratefully. Although he didn't know this person's name and job, he was still able to understand the company. He was indeed a good employee.

"I've always said that everything in the company is based on your establishment. As the owners of the company, of course you have the right to enjoy the benefits the company brings you! I've heard that many of our employees are worried that they won't have a

place to stay after moving over. Now, I can assure you that you all don't have to worry about that! "

As he spoke, Wu Tian's tone of voice became higher and higher. His mood also became agitated.

"I have already signed an agreement with Nanhe Securities Corporation and bought a building for them. These houses will be provided for the employees to live in for free as your welfare!"

Wu Tian's words were not a joke, because the contract he waved around was the one that was transferred.

After a moment of silence, a burst of intense applause suddenly erupted from below the stage. It was like an unending stream of thunder that never stopped.

The employees who were still complaining about the company before were now crying like they were on the verge of tears. None of them thought that Wu Tian would really think of a way to solve this problem just because he heard their complaints in the cafeteria.

Many people had already made up their minds to work even harder to make the company more outstanding and powerful.

Hidden Billionaire Chapter 918 - If the Tree Is too Big the Wind will Blow

C918 If the Tree Is too Big the Wind will Blow

When all the employees finished their meeting, Wu Tian's heart was still thumping non-stop.

He didn't expect that he would be so excited. He cheered along with the employees at the venue, making Wu Tian feel overjoyed.

However, this scene looked really strange. Those who didn't know of it would think that this was a distribution meeting.

Such a meeting was not only troublesome but also tiring. Wu Tian was covered in sweat right now.

He was so anxious that he wanted to return to his room to take a bath and rest.

"President Wu!"

Loong Yun's voice sounded from behind him. Wu Tian acknowledged and turned around to look at where the voice came from. He saw Loong Yun standing by the wall with a tablet in her hands, looking at Wu Tian with a complicated expression.

"What's wrong?"

"Thank you for everything you've done for the company."

Hearing this from Loong Yun's mouth, Wu Tian's face instantly blushed. He didn't know why, but he felt embarrassed all of a sudden.

"Why are you saying this? Go and do your thing."

Embarrassed, Wu Tian ran away. But since then, the cohesion of the company has increased by more than one level.

After showering, Wu Tian felt a little hungry, so he decided to go to the cafeteria to see if there was anything to eat.

He hadn't thought that he would run into Zhao Yaqian, who was looking for food alone, just like him.

Wu Tian ordered a plate of food and sat opposite Zhao Yaqian.

Her figure looked lonely. Wu Tian couldn't bear to see her at all.

"Why are you eating alone here ..."

Zhao Yaqian also felt helpless towards Wu Tian's question.

"People always have to eat. What's the difference between eating by yourself and eating by a few people?"

Wu Tian was speechless and didn't know what to say next.

Originally, he wanted to strike up a conversation, but in the end, he couldn't get anything out of it. Why don't they talk about their work?

"Oh yeah, during this period of time, the company hasn't invested much resources in you guys. Now the company realizes that if you need anything, you can just say it directly."

Wu Tian actually wanted to interact more with his employees. He was not that old, nor was he that aloof and haughty. He could definitely become an amiable leader.

"The servers you previously purchased have arrived. Although they didn't meet our expectations, they are still usable. It won't be a problem to use it for a while, but I suggest you quickly develop a supercomputer. "

Zhao Yaqian expressed her thoughts while eating, and neither side held back.

"This supercomputer ..."

Wu Tian didn't have a clear idea about this thing. No one had ever told him about this before, and he never cared about it either.

"What's the use of it?"

"What's the use?"

Suddenly, a man's voice came from the side. There was another person on their table.

Wu Tian turned around and saw Cheng Gui, whom he hadn't seen for a long time.

"Cheng Gui, where have you been all this time? I feel like I haven't seen you in months ..."

Saying a few months wasn't exactly accurate, it should be said that ever since he came to Wu Group Company, Wu Tian had never seen him again. It was as if they had never seen this person before ...

"Of course it's to research our company's virtual currency ..."

Wu Tian might have almost forgotten about this matter. Back then, he recruited Cheng Gui in hopes of gaining control of the virtual currency.

"Are you interested in this supercomputer as well?"

"Of course! Don't forget that our FTC is also built on the computer's computing power. I have mentioned to you before that building a large-scale computer platform is absolutely helpful to our company. "

Hearing this, Wu Tian felt like his ears were about to get cocooned.

These people were always talking about a large-scale project. If it were placed in another company's hands, this thing would definitely become their pillar of support.

However, within Wu Group Companies, there were countless plans to set up projects like this.

"This... Although our company has recently made some money, the amount of money we can spend is not much ... Good steel has to be used on the blade. "

Wu Tian wanted to reject Cheng Gui's idea in such a tactful manner.

"I don't think I need to say more about the importance of FTC."

"The server I need, this is something you promised me!"

Now, not only Cheng Gui, even Zhao Yaqian had joined the demand for funds. Wu Tian instantly felt as if he was being asked for money.

"This, let's do it like this. Make me a document about your thoughts and then I'll publish it at the company meeting to see if there's any solution. If we can develop our own strength, then I'll allocate some funds to you."

Both sides were very important, so it couldn't be said that whoever was given the money would not be given the other one. So the question of how to spend the money or whether everyone should spend it together was better to discuss it.

Before they could finish their meal, Zhao Yaqian's cell phone rang.

She picked up the phone, but after a few words, she suddenly put down her food, turned around, and ran away.

Wu Tian and Cheng Gui looked at each other in dismay. Seeing that something was wrong with Zhao Yaqian's current condition, the two of them did not care about eating anymore and quickly followed her.

He saw Zhao Yaqian run straight back to their department. Song Junyao was already waiting there. She quickly called Zhao Yaqian over.

"Not good, quickly take a look!"

Without a word, Zhao Yaqian rushed to the monitor screen and saw the red screen reporting the errors. Immediately, she frowned.

Wu Tian and Cheng Gui didn't know what had happened. They followed behind Ye Xiao and didn't dare to talk to Zhao Yaqian directly. They went to ask Song Junyao instead.

"What's going on?"

Song Junyao shook her head. Her face was serious as well, as if something important had happened.

"Our game server has been attacked. Many players are unable to log into the game, and many of their accounts are also being deleted ..."

This was a fatal blow to a gaming company. No wonder Zhao Yaqian's reaction was so intense.

Wu Tian immediately realized how serious this matter was. He quickly called Wu Zaibin and told him to send some technical elites to support Zhao Yaqian's department.

"How could this be ..."

Wu Tian looked at the screen worriedly. He finally managed to make the game look better. Why did something like this suddenly happen?

"We can't say for sure either. The recent reviews have always been pretty good, and there has never been a situation like this before."

Song Junyao also had a look of helplessness on her face. They usually paid a lot of attention to safety as well, so Zhao Yaqian had to check all the security systems herself.

"Can you find out who attacked us?"

"Maybe we can. We can trace the attacker's network address!"

Wu Tian immediately thought of a famous phrase. Their game was so popular right now, it would definitely arouse the jealousy and disgust of others.
