

Hidden Billionaire Chapter 918 - If the Tree Is too Big the Wind will Blow

C918 If the Tree Is too Big the Wind will Blow

When all the employees finished their meeting, Wu Tian's heart was still thumping non-stop.

He didn't expect that he would be so excited. He cheered along with the employees at the venue, making Wu Tian feel overjoyed.

However, this scene looked really strange. Those who didn't know of it would think that this was a distribution meeting.

Such a meeting was not only troublesome but also tiring. Wu Tian was covered in sweat right now.

He was so anxious that he wanted to return to his room to take a bath and rest.

"President Wu!"

Loong Yun's voice sounded from behind him. Wu Tian acknowledged and turned around to look at where the voice came from. He saw Loong Yun standing by the wall with a tablet in her hands, looking at Wu Tian with a complicated expression.

"What's wrong?"

"Thank you for everything you've done for the company."

Hearing this from Loong Yun's mouth, Wu Tian's face instantly blushed. He didn't know why, but he felt embarrassed all of a sudden.

"Why are you saying this? Go and do your thing."

Embarrassed, Wu Tian ran away. But since then, the cohesion of the company has increased by more than one level.

After showering, Wu Tian felt a little hungry, so he decided to go to the cafeteria to see if there was anything to eat.

He hadn't thought that he would run into Zhao Yaqian, who was looking for food alone, just like him.

Wu Tian ordered a plate of food and sat opposite Zhao Yaqian.

Her figure looked lonely. Wu Tian couldn't bear to see her at all.

"Why are you eating alone here ..."

Zhao Yaqian also felt helpless towards Wu Tian's question.

"People always have to eat. What's the difference between eating by yourself and eating by a few people?"

Wu Tian was speechless and didn't know what to say next.

Originally, he wanted to strike up a conversation, but in the end, he couldn't get anything out of it. Why don't they talk about their work?

"Oh yeah, during this period of time, the company hasn't invested much resources in you guys. Now the company realizes that if you need anything, you can just say it directly."

Wu Tian actually wanted to interact more with his employees. He was not that old, nor was he that aloof and haughty. He could definitely become an amiable leader.

"The servers you previously purchased have arrived. Although they didn't meet our expectations, they are still usable. It won't be a problem to use it for a while, but I suggest you quickly develop a supercomputer. "

Zhao Yaqian expressed her thoughts while eating, and neither side held back.

"This supercomputer ..."

Wu Tian didn't have a clear idea about this thing. No one had ever told him about this before, and he never cared about it either.

"What's the use of it?"

"What's the use?"

Suddenly, a man's voice came from the side. There was another person on their table.

Wu Tian turned around and saw Cheng Gui, whom he hadn't seen for a long time.

"Cheng Gui, where have you been all this time? I feel like I haven't seen you in months ..."

Saying a few months wasn't exactly accurate, it should be said that ever since he came to Wu Group Company, Wu Tian had never seen him again. It was as if they had never seen this person before ...

"Of course it's to research our company's virtual currency ..."

Wu Tian might have almost forgotten about this matter. Back then, he recruited Cheng Gui in hopes of gaining control of the virtual currency.

"Are you interested in this supercomputer as well?"

"Of course! Don't forget that our FTC is also built on the computer's computing power. I have mentioned to you before that building a large-scale computer platform is absolutely helpful to our company. "

Hearing this, Wu Tian felt like his ears were about to get cocooned.

These people were always talking about a large-scale project. If it were placed in another company's hands, this thing would definitely become their pillar of support.

However, within Wu Group Companies, there were countless plans to set up projects like this.

"This... Although our company has recently made some money, the amount of money we can spend is not much ... Good steel has to be used on the blade. "

Wu Tian wanted to reject Cheng Gui's idea in such a tactful manner.

"I don't think I need to say more about the importance of FTC."

"The server I need, this is something you promised me!"

Now, not only Cheng Gui, even Zhao Yaqian had joined the demand for funds. Wu Tian instantly felt as if he was being asked for money.

"This, let's do it like this. Make me a document about your thoughts and then I'll publish it at the company meeting to see if there's any solution. If we can develop our own strength, then I'll allocate some funds to you."

Both sides were very important, so it couldn't be said that whoever was given the money would not be given the other one. So the question of how to spend the money or whether everyone should spend it together was better to discuss it.

Before they could finish their meal, Zhao Yaqian's cell phone rang.

She picked up the phone, but after a few words, she suddenly put down her food, turned around, and ran away.

Wu Tian and Cheng Gui looked at each other in dismay. Seeing that something was wrong with Zhao Yaqian's current condition, the two of them did not care about eating anymore and quickly followed her.

He saw Zhao Yaqian run straight back to their department. Song Junyao was already waiting there. She quickly called Zhao Yaqian over.

"Not good, quickly take a look!"

Without a word, Zhao Yaqian rushed to the monitor screen and saw the red screen reporting the errors. Immediately, she frowned.

Wu Tian and Cheng Gui didn't know what had happened. They followed behind Ye Xiao and didn't dare to talk to Zhao Yaqian directly. They went to ask Song Junyao instead.

"What's going on?"

Song Junyao shook her head. Her face was serious as well, as if something important had happened.

"Our game server has been attacked. Many players are unable to log into the game, and many of their accounts are also being deleted ..."

This was a fatal blow to a gaming company. No wonder Zhao Yaqian's reaction was so intense.

Wu Tian immediately realized how serious this matter was. He quickly called Wu Zaibin and told him to send some technical elites to support Zhao Yaqian's department.

"How could this be ..."

Wu Tian looked at the screen worriedly. He finally managed to make the game look better. Why did something like this suddenly happen?

"We can't say for sure either. The recent reviews have always been pretty good, and there has never been a situation like this before."

Song Junyao also had a look of helplessness on her face. They usually paid a lot of attention to safety as well, so Zhao Yaqian had to check all the security systems herself.

"Can you find out who attacked us?"

"Maybe we can. We can trace the attacker's network address!"

Wu Tian immediately thought of a famous phrase. Their game was so popular right now, it would definitely arouse the jealousy and disgust of others.

Hidden Billionaire Chapter 919 - Subject to Human Control

C919 Subject to Human Control

If this was the case, then their motive for launching an attack would naturally be understandable.

However, Wu Tian didn't plan on letting it go like this.

Their Wu Group company was not someone that could be easily bullied.

Faced with Wu Tian's question, Song Junyao shook her head with a wry smile.

"This, I'm afraid we'll have to wait for Little Zhao's situation ..."

Song Junyao didn't know much about technology either, she only focused on planning.

Zhao Yaqian busied herself with jumping up and down. Wu Tian didn't understand these things, so he could only watch anxiously from the side.

This situation lasted for more than half a day. Only when Wu Zaibin came in with his men and forcibly took over the server did the attacks on the outside stop.

However, just this half day alone was enough to cause the legendary players to complain about it. News about the complaints continued to spread.

"I need to quickly send out a statement! "Calm down the players!"

Song Junyao knew that this was the most crucial moment. If they did not do anything, the players would definitely be furious. When that happened, they would vent their anger on Wu Group Corporation.

Wu Tian also frowned. Since what had happened had already happened, there was no mistake in finding a way to deal with it.

However, he still wanted to know who had come to cause trouble for them at this time. Wu Tian would absolutely not be taken advantage of.

"Wu Zaibin, hurry up and find out who is the source of this attack!"

"Yes!" Wu Zaibin replied. Everyone held their breaths. This was a matter that concerned their company's reputation.

The dignified Wu Group company was known as the number one technology company in China, yet it was taken over by someone in the end. If this matter were to spread, people would probably laugh their teeth off.

"Don't worry, President Wu. I will never forgive them!"

With Wu Zaibin's affirmation, Wu Tian nodded his head in relief. What was left was the issue of time.

Since they wanted to take the initiative, Wu Group company had to show them what true technical strength was.

Very soon, with their superb technology, the staff found the real address of the attack and checked the map one by one. Their target was a company called the Nine Net Network.

Almost all the IP addresses corresponded to this place, which meant that the computer that issued the attack must have come from this company.

This company wasn't very famous, Wu Tian and the others had never even heard of it.

When she saw the name, Song Junyao suddenly thought of something.

"This company seems to have launched an online game. It's very similar to our game, but because of their poor management, most of their players are in our game now."

"So they hold a grudge?"

Wu Tian felt that it was funny. Couldn't these people compete in normal businesses? How much could they improve their company with these despicable methods?

"I think it might be... After all, we stole their business ... "

Song Junyao didn't feel guilty about it at all. On the contrary, the eyes of players were bright. If it wasn't because their game wasn't good, how could they have turned to face their legendary world?

"Collect all the evidence for me! They could not let this matter go just like that! Call the police! "

Wu Tian was also very direct. Since they attacked him with such a despicable method, he also wouldn't have any sympathy for this small company.

The normal way was to call the police. A notice was posted online. Wu Tian didn't miss any of these steps.

The data on the accounts lost by players was also restored through the backup server. After busily working for an entire day, the attack this time came to an end.

Since the Wu Group company's reaction was relatively fast, the players did not complain too much about it.

Everyone thought that this matter was over, but what they didn't expect was that two days later, an even larger scale network attack instantly paralyzed the legendary world's servers.

Moreover, this time, they came in full fury. Not only did they delete the players' accounts, they also affected the players' logons. They even tried to take over the server and delete some of the legendary world's game data.

That night, Wu Tian didn't know what had happened. When he woke up the next morning, the internet had already changed.

Everyone was talking about the legendary world's large-scale outage, and rumors were flying all over the place. No one knew what was going on behind the scenes.

When Wu Tian arrived at the game's operation department, Wu Zaibin was already there, leading his men to put out the fire, even without his arrangements.

However, because of their previous experience, they quickly came up with a countermeasure. They successfully blocked their attacks and regained control of the game.

However, this lasted for an entire night, and the impact was extremely severe. Quite a few players began to post on the internet, questioning whether or not the Wu Group company's ability was reliable.

The fact that this had happened twice in a row was a huge blow to the reputation of a gaming company.

"What happened this time?"

Wu Tian was very angry. Generally, this kind of situation shouldn't happen. Last time, Wu Zaibin brought some people to take precautions against it.

However, this time, they discovered that all their previous preventive measures had failed after a round of attacks.

Wu Zaibin's face was burning. This was equivalent to slapping him, the person in charge of network security, in the face.

"We are not very clear on that ... The investigation is now under way. "

Wu Tian took a deep breath and forcefully suppressed his anger. He looked at Wu Zaibin and stopped talking about this matter.

"I know what's wrong." Zhao Yaqian suddenly interjected from the side, immediately attracting everyone's attention.

"Speak!" This time, not only Wu Tian was worried, even Wu Zaibin and the others were also worried.

If they couldn't figure out where the problem lay, then they would still be unable to defend against their attacks the next time.

Zhao Yaqian brought a few people to their server and pointed at the nameplate.

"These are all high-end servers imported from the Britain. I've discovered that these few attacks all came from these servers' unknown ports. That is, they know where the weakness of our servers lies. "

Wu Tian took a deep breath when he heard Zhao Yaqian's words.

Hidden Billionaire Chapter 920 - Breakthrough from Weakness

C920 Breakthrough from Weakness

This was how it happened when a high-end equipment was controlled by others.

Since it was not the products of Wu Tian and the others, such a thing happened. Wu Tian and the others did not have any good solutions. It would be best if they could produce it. It was the safest way.

"Bastard, why did we meet with such a matter!" When Wu Zaibin saw this, he punched the wall on the side in annoyance.

Wu Tian didn't say anything but sunk into deep thought.

Was the enemy doing it on purpose this time? How did they know about these loopholes? Could they have been provided by the Britain people as well?

"Are you sure this is the Nine Net Technology Company?"

Wu Tian suddenly asked. The two people beside him were stunned for a moment before quickly nodding their heads.

"From the IP address, this is their final floor. This city can't be wrong."

Wu Zaibin said with certainty as he patted his chest.

"Alright, follow me." With that, Wu Tian pointed at Wu Zaibin and the two of them left the game center together.

Wu Zaibin knew that Wu Tian must have had an idea. After staying by Wu Tian's side for such a long time, he had a very unique understanding of Wu Tian's temperament.

"Are we going to look for him?"

Wu Zaibin excitedly said. He had wanted to experience something like this for a long time, the feeling of going to refute others must be very satisfying.

"No, no, no, you go and investigate who the boss behind Nine Net is. See if he is related to Pulitzer consortium. Oh yes, check all the computers in our company!"

It was still too late for them to fix it. If they quickly fixed their loopholes, they could avoid a greater crisis in the future.

After arranging Wu Zaibin's affairs, Wu Tian hurriedly returned to his room and changed into a set of rather spirited clothes.

He already had a feeling that he knew who was behind this, so he might as well think of a way to test it and prove that his judgement was correct.

When he was ready. Loong Yun walked in just in time. She was going to report this matter to him. However, she saw that Wu Tian was wearing a suit and leather shoes. She looked at him with a slightly different expression and actually forgot about the matter.

Don't look at how Wu Tian normally didn't seem like he had a lot of secrets, but in reality, if he wore a suit, he would be a completely different person. His entire demeanor started to rise sharply.

"You... "What is this?" Loong Yun had never seen Wu Tian dress so formally in many important occasions, so when she saw him suddenly act like this, she couldn't understand.

"I have something to do, so you don't have to follow me." Wu Tian said plainly as he quickly tied his tie.

With that, Wu Tian walked out with big strides. He took a car keys and left in a hurry.

Loong Yun looked at his back, her face still full of doubt. Luckily, Wu Tian had the locator on him. If Loong Yun and the others wanted to find Wu Tian, they could confirm his location at any time.

In order to bring his temperament to the end, Wu Tian drove a super luxurious sports car when he went out.

It had to be said that Wu Tian could be considered as someone rich.

Everything was ready. Wu Tian quickly opened the phone book in his phone and found Jessica's phone number.

The phone call came quickly. When Jessica answered the phone, there was a burst of noise coming from inside. It was probably some kind of bar or disco.

"Who are you?" Jessica had never seen this phone number before and her voice sounded cautious.

"Don't you know who I am? The last time you used me as a shield, did you forget about it? " Wu Tian's voice was very gentle, like the spring water, bringing with it warmth.

Jessica, who originally had no interest, immediately became interested when she heard this pleasant voice.

"Are you a handsome guy? Listen well to your voice, but I still don't understand what you meant just now. Have we met before?"

Jessica did not take Wu Tian's incident seriously and had long forgotten about it.

Wu Tian chuckled. He thought for a while and said, "Of course we've met before. And you have a good impression of me, so I was wondering if I could invite you out for a meal."

Since she had already forgotten about that, Wu Tian might as well start making things up.

In any case, Jessica had no way of judging whether Wu Tian was right or wrong.

"Sure, sure!" Jessica agreed without hesitation.

She was really impressed by the voice from Wu Tian's phone. Just by relying on the voice, she constructed a handsome face in her mind.

Because of that, Jessica felt that she had to make a trip, or else she would be at a disadvantage.

After hanging up the phone, Wu Tian felt that it was funny. This woman was actually so dumb, she could be tricked out with just a few casual words.

He also really did not know what she had learned from growing up in the Britain.

Not long later, two limousines appeared in Wu Tian's field of vision and stopped in the parking lot. First, there were a few powerful black bodyguards, and then there was that foppish Jessica.

Although she was from the China, she did it in accordance with the aesthetic standards of the West.

Her hair was a golden wave, and she wore navel baring clothing. Her chest was very high, and with every step she took, she would attract the attention of countless nearby men.

When Wu Tian saw the person he was looking for, he quickly went up to greet him.

Although Jessica was usually carefree and carefree, she was still a little shy when it really came to meeting other people.

This was a personality that she could not shake off no matter how she decorated her appearance.

"Hello, Miss Jessica." Wu Tian extended his hand towards Jessica gracefully, as if he was inviting her partner at a ball.

"Are you the one who just spoke to me?" Jessica almost suffocated when she glanced at Wu Tian.

In her imagination, Wu Tian was very handsome. However, she never would have thought that she would actually see him. He had already far surpassed her expectations. He was truly unbearably handsome.
