

Hidden Billionaire Chapter 945 - Special Forces Brigade

C945 Special Forces Brigade

Tian Wei and Tian Jue pressed on. Even if Wu Tian knew the terrain here, it would be hard for him to escape their line of sight.

When he took the wrong step, Wu Tian took the wrong step. The two people behind him immediately followed up and slapped towards Wu Tian's back.

Although Wu Tian felt a strong gust of wind from behind him, it was very difficult for him to move his body anymore. He could only use his body to forcefully receive the slap.

The huge impact shook Wu Tian's internal organs. He immediately felt something sweet at the back of his throat. Then, he coughed and spat out blood.

"Slow down! Don't kill him! "

Tian Jue was slightly unhappy, as if he didn't want to see Wu Tian die so happily.

Tian Wei glared at him in displeasure, which made Tian Jue immediately shrink back his gaze.

"Completing the mission is important... Completing the task is important... I know that! You don't have to look at me like that. "

It was probably because everyone was scared of Tian Wei, so when he spoke, no one would refute him.

Since they were arguing here, Wu Tian's brain wasn't stupid. He had to think of a way to stall for time, otherwise, before Luo Huaicheng and the others' Special Team arrived, he would be skinned alive.

He took advantage of the moment when the two of them were not paying attention to him, and slowly crawled on the ground, trying his best to escape their line of sight.

However, Wu Tian's small plan was easily seen through.

Tian Jue strode forward and stepped on Wu Tian's clothes.

"Where do you want to go? You can't escape! "

At this moment, Wu Tian was in despair. He realized that he couldn't resist at all in front of these two people.

"I'll kill you!"

Wu Tian secretly took a deep breath and jumped up from the ground like a carp. He swung his fist and punched Tian Jue.

Tian Jue and Wu Tian were very close. This happened in a split-second, and even he couldn't react in time.

Wu Tian fiercely punched Tian Jue in the face, and there were only two cracking sounds before he saw something white with bloodstains fly out from his mouth.

The punch stunned Tian Jue. He took two steps back and shook his head and covered his mouth. He looked at Wu Tian with disbelief in his eyes.

He originally thought that Wu Tian was an ordinary person who was powerless, but he didn't expect that he still had the ability to resist.

"Interesting!"

Tian Jue didn't get angry because of this, on the contrary, he started to look forward to it.

He clenched his fist and lightly clenched it, causing it to emit a cracking sound.

The threat was already extremely serious, but Wu Tian didn't have any intentions of retreating.

Since he could only run and be beaten up by these two, he might as well fight them.

They looked at each other for a moment, then fiercely charged at each other.

For a moment, it seemed as if the surrounding air began to emit a translucent shockwave that shattered all the windows in the nearby houses.

And all of this was only a result of the punches of Wu Tian and Tian Jue.

The situation of the battle became abnormally desperate. Both sides even gave up on defending. They punched and kicked each other with all their might.

He wanted to see who would not be able to last longer. Within a dozen punches, some wounds were already appearing on Wu Tian's body.

The other side's appearance was not much better than Wu Tian. The two of them looked as if they were both injured.

However, Wu Tian was very clear that there was still someone on the other side who was coldly watching the situation. He had no intention of taking any action at all.

If he were to fight one on two, he definitely wouldn't have any chance of winning.

It was at this moment, a strange thing flew over from behind Wu Tian, dragging a long smoke behind it.

When this thing touched the ground, it suddenly exploded. The huge fireball instantly engulfed the surrounding space.

Tian Wei was not able to dodge in time and was knocked to the ground by the explosion.

Wu Tian looked at everything and immediately felt that he was included in the explosion. His eyes were filled with despair.

However, at this moment, a figure appeared in front of him, blocking the flames from the explosion for Wu Tian.

"Are you alright?"

A voice filled with energy and determination sounded beside Wu Tian's ear.

This voice was what Wu Tian was looking forward to the most. Luo Huaicheng, whom he had been looking forward to, finally arrived.

"You're finally here!"

Wu Tian finally felt a little relieved inside. The tension he had from the battle had eased up.

"You should go back and rest first. I'll take care of the situation here."

Luo Huaicheng lightly patted on Wu Tian's shoulder. The corner of his mouth tilted to the side as he smiled. This gave Wu Tian a sense of security. He was way too confident.

"You must be careful of these two people!"

Wu Tian reminded him in a low voice. He also knew that his body could not handle the rest of the battle, so he made a path for himself.

At this time, Special Team had already entered the stage one after another. With guns in their hands and exoskeletons on their bodies, they looked just like soldiers from a future war movie.

He looked very powerful, and gave off a feeling that they shouldn't be provoked.

Of course, Tian Jue and Tian Wei weren't killed by the explosion. After the smoke from the explosion passed, they stood up again.

"I really made a mistake. I actually let you wait for your companion."

Tian Jue's attitude was clearly not good. He was no fool. No matter how good he was, it would not be easy for two people to face dozens of people.

Moreover, the fighting strength of these Special Team should not be underestimated.

"Tian Jue, let's go!"

Tian Wei was still calm and composed. Even though such a thing had happened, he did not panic.

The two of them didn't say a word and immediately ran backwards after coming to a consensus.

Luo Huaicheng looked at the two of them and laughed. He waved his hand and a few soldiers immediately walked over.

The guns in their hands looked strange, not like bullets.

"Get those two down!"

Luo Huaicheng had already given the order, the guns in the hands of the two soldiers immediately shot out a light green beam. The light beams struck Tian Wei and Tian Jue respectively.

The two of them were like pigeons whose wings had suddenly been broken, falling down from the sky in a straight line.

Hidden Billionaire Chapter 946 - Clearing the Broken Enemy

C946 Clearing the Broken Enemy

This alone was not enough. One round of grenades and bullets, like rain, shot towards the place where the two of them had landed with all their might.

If Luo Huaicheng was capable of long-range combat, he would definitely not go close combat. This was a rule that Luo Huaicheng had always adhered to. Only by doing this could they avoid most of the casualties among the special forces.

Wu Tian watched the battle from afar with great interest. Although it caused some damage to his Flower Island, this small amount of money was nothing to Wu Tian.

The key thing was to be able to defeat this 11 Devils.

As Wu Tian watched the battle, he suddenly realized that the alarm on his body had started to vibrate.

This meant that there were probably other 11 Devils personnel nearby.

Wu Tian quickly ran in that direction. If there was no surprise, these two people were definitely Tian Ling and Tian Zui.

Putting aside Tian Ling, Wu Tian was acquainted with Tian Zui and even had a good relationship with him.

Therefore, Wu Tian's attitude towards Tian Zui had always been ambiguous. He felt that this person probably had never done anything bad and did not want to kill Tian Zui.

Tian Ling and Tian Zui were originally looking for traces of Wu Tian, but after the explosion just now, they immediately realized that they would never have another chance.

Thus, they simply abandoned Tian Wei and Tian Jue, and prepared to find a place to break through.

It was just that they did not expect them to accidentally run over to Wu Tian's side.

The two panicked and didn't know where to go. They were blocked by Wu Tian in a narrow alley.

Tian Ling saw Wu Tian and was about to attack, but she was stopped by Tian Zui beside her.

"What are you doing?"

Tian Ling had a strange expression on her face. She didn't know why Tian Zui didn't let her do anything.

"Don't kill him!"

Tian Zui didn't say much, but every word he said was resolute and decisive.

"Long time no see."

Wu Tian greeted Tian Zui with a smile. Honestly speaking, meeting at this place made people feel awkward. How do you think we're going to be friends?

"What are you going to do?"

Tian Zui did not waste time with words. When he first arrived, he already knew that it was unlikely for the two of them to have a good ending.

"I'm not going to do anything. If the two of you didn't kill my employees, then I can let you go."

Wu Tian was surprisingly open-minded. Tian Ling beside him was surprised that he could give such a condition.

"You ... What kind of heart are you in? "

She felt that it was impossible. It wasn't the first time that Tian Ling had caused trouble for Wu Tian, but the other party completely ignored these things.

Tian Zui, who was beside him, actually knew Wu Tian. From the way they talked, their relationship seemed to be pretty good.

This seemed to have refreshed Tian Ling's knowledge, as she realized how she had never known about these things.

"Good!" I promise you. "

Tian Zui thought for a while and agreed without hesitation. To the two of them, having such an opportunity was simply a gift from the heavens.

Luckily, Wu Tian was a generous person. If it was another person, Tian Zui and Tian Ling might not have been able to get away with it.

Wu Tian nodded. Since that was the case, he didn't want to stand in the way anymore.

However, he wasn't without intentions. When Tian Zui and Tian Ling passed by him, Wu Tian quietly threw a tracking device at Tian Ling.

If these two people were to leave, they would definitely return to their 11 Devils headquarters.

At that time, Wu Tian could just follow the tracking device and surround their hometown.

On the other side, Luo Huaicheng's battle ended very quickly.

Even though Tian Wei and Tian Jue seemed very arrogant, they had no power to resist Luo Huaicheng's powerful weapon.

After being shot down from the sky, the two of them had been lying on the ground. Luo Huaicheng and the others poured out grenades and bullets for a long time.

When Wu Tian heard the result, he didn't know whether to laugh or cry.

They had painstakingly cultivated for such a long period of time, yet in the end, they were targeted by a circle of people holding all sorts of weapons.

Luo Huaicheng also knew that these people were people that they wanted to get rid of since a long time ago.

Therefore, after taking care of these two people, he didn't immediately leave the team. Instead, he went to Wu Tian to discuss what to do next.

"If I had to say, since we've already alerted them, we should just stop at nothing!"

Luo Huaicheng didn't know where he heard that two people were running away, so he wanted to chase after them.

Right now, Wu Tian was truly in a difficult position. On one hand, he didn't want Tian Zui to die, and on the other hand, he also wanted to catch the mastermind behind this, especially Zhang Zerui.

Wu Tian had always suspected that he had a very close relationship with 11 Devils, but he didn't manage to find any clues.

"About this, let's let him escape for a while before we surround him."

Wu Tian told Luo Huaicheng about his tracking device, and the two of them burst out laughing. Since that was the case, there was nothing to worry about.

They ran to the middle control room and saw the escape routes of Tian Zui and Tian Ling. After leaving Flower Island, they ran towards the vicinity of Zhang Zerui's Pulitzer consortium.

Of course, this didn't prove anything, but it made Wu Tian and his guess get closer and closer.

"We still don't know how many people they have left, so we have to be careful ..."

Seeing that the opponents had started to stop their steps, Wu Tian immediately prepared for them to take action. He couldn't give them a chance to catch their breath.

Special Team began to move, taking advantage of the night sky, and quietly surrounded an apartment building.

Since it wasn't inside the Flower Island this time, Luo Huaicheng didn't dare to carelessly use any kind of weapon.

There were also some ordinary citizens nearby. If they were to offend them, it would be a big problem.

Following the order, several special forces soldiers in front fiercely smashed open the door. They just didn't expect that when the door opened, there would suddenly be an explosion.

On the contrary, they blew up these special forces.

Neither Luo Huaicheng nor Wu Tian had expected such a thing to happen ... For a moment, the excitement was unbearable.

"What's going on!?"

Luo Huaicheng quickly went to the front line and was pulled back by a few soldiers beside him.

"Captain, there seems to be some explosives inside ..."

One of the injured soldiers said that they had just been about to go in when the problem occurred.

C947 One Wave Is Flat One Wave Rises Again

His actions quickly received Luo Huaicheng's revenge.

Most of the situations that Special Team practiced were related to the actions of the terrorists, so they had a very clear set of battle tactics long ago.

Seeing that it turned out to be like this, Luo Huaicheng didn't hold back anymore.

The special forces began to attack from all over the apartment building. For a moment, the people inside panicked.

Tian Zui and Tian Ling didn't expect their hiding place to be discovered so quickly.

Tian Ling's face was full of regret. She knew it was going to be like this, so she kept proposing not to come to this place. However, Tian Zui was very insistent, and Tian Ling had no other choice.

As expected, the enemy had also come.

"Let's run!"

Tian Ling shouted to Tian Zui. Since the other four were going to fight against the enemy, it was reasonable to say that the two of them should be helping from the side. However, they had actually slipped away in an instant.

The resistance soon caught Luo Huaicheng's attention. Wu Tian was still watching from the outside as usual. He couldn't get involved in this kind of thing.

However, the meticulous Wu Tian found one or two figures sneaking out from the bushes not far away.

He looked at the tracking device and found that the two figures were indeed Tian Ling and Tian Zui.

Wu Tian quickly followed and greeted Tian Zui.

"The two of you actually escaped."

When Tian Ling heard Wu Tian's voice, she immediately turned around and wanted to kill him.

However, she was slapped hard by Tian Zui.

"What are you doing!"

Tian Ling found it hard to believe. Tian Zui had never hit her before, so why would he do such a thing for an outsider?

"What are you trying to do?"

Tian Zui's face was cold. Seeing the two of them acting like this, Wu Tian felt a little awkward and quickly came over to persuade them.

"I'm not trying to stop you guys, but there's something you have to return to me."

With that, Wu Tian walked to Tian Ling's side and took off a tracking device from her clothes. Then, he smiled apologetically at the two of them.

"You can leave, don't come back!"

Wu Tian said with an indifferent expression. Then, he lightly clenched his fist and crushed the tracking device.

Only then did Tian Ling realize what had happened. The reason why they were found was not because of anything else but because Wu Tian had placed a tracker on her.

Tian Zui had always been expressionless, but at this moment, he actually nodded to show his thanks to Wu Tian.

The two of them did not speak much and directly turned around to leave.

The battle at the apartment ended very quickly. However, Luo Huaicheng and the others were met with a fierce resistance.

A few of them were injured, but fortunately no one died. Luo Huaicheng was able to accept such an outcome.

He quickly found Wu Tian and wanted to ask him about the tracking device.

"We only found four people inside! Two more have escaped! "

Wu Tian obviously knew what was going on with the other two, but it was impossible for him to say anything about it.

"That's good, there's something wrong with my tracker, I'm afraid those two found it."

Wu Tian pretended to be surprised as he looked at his tracking device. Actually, this thing was destroyed by him, but his acting skills weren't very good.

Luo Huaicheng narrowed his eyes and looked at Wu Tian. His expression clearly showed that he suspected Wu Tian of doing something bad.

However, he did not say these words out loud. Instead, after thinking for a while, he sighed.

"Alright, then let's just forget about it. I don't think those two will be able to do much either. "

Luo Huaicheng began to organize and pack up the team. In just one night, they had already gathered six corpses.

The result of this battle could be said to be exceptionally bountiful.

After this battle, only three people remained from 11 Devils.

Two of them were Tian Ling and Tian Zui, so Wu Tian was quite at ease.

However, Wu Tian didn't know who the other one was.

There was only one person left, Wu Tian guessed that he wouldn't be able to create any big incidents.

Thinking of this, Wu Tian wasn't worried anymore. He could finally focus all of his energy on dealing with Zhang Zerui.

The disturbance that happened that night was quickly dealt with in a low-key manner, and many citizens of S City did not even know that something like this had happened.

On the other side, Zhang Zerui could be said to have not slept for the entire night.

He did not expect Wu Tian to have such great power, destroying all the people he sent out.

All of a sudden, the 11 Devils that Zhang Zerui was so proud of, was almost completely wiped out.

How could this make him feel good?

Since he had failed step by step, Zhang Zerui had no choice but to show his true skills.

"You forced me to do this!"

Zhang Zerui muttered to himself. Then he typed out a message on his laptop and sent it out.

All of a sudden, the world began to change.

Many large enterprises of Britain had announced that they would file a patent complaint against the companies of China.

The Pritt Consortium also had a lot of patents, but they didn't pay much attention to this issue.

Now, Pulitzer Corporation has started to send out a large number of people. In all parts of the China, patent fees were levied on those large enterprises.

He had lost 200 billion, and in less than a week, he had earned it back.

These companies can be said to be stuck on the neck by these patents, and some things do not mean that you can do them just because you know what to do.

There is no way to produce without a patent.

In a short moment, grief filled every corner of China, but it was reasonable for Pulitzer consortium to do such a thing, and they even had sufficient reasons to do so.

After all, the patent was in someone else's hands. Since you wanted to use someone else's patent, you should pay for it.

This point could be said that no one had any objections, so everyone could only silently endure.

Zhixing Technology Company, which had been silent for a while, suddenly launched a rocket. It was said that it had received an order from a foreign company, and helped them carry out a commercial launch.

Wu Tian was very angry. Originally, he monopolized the entire rocket launcher business market, but all of a sudden, this competitor popped up again.

He immediately realized that Zhang Zerui was looking for trouble for him again.
