## C985 Opening the Curtain

"Alright, do whatever you want." Su Cancan was too lazy to argue with Wu Tian. As long as this guy didn't go to the frontlines, it would be fine as long as their movements were not affected.

In a short moment, dozens of helicopters started to rise from the Flower Island. This time, the Security Team was dispatched by the entire army, and it was their biggest battle.

Not only that, but there were also some extremely powerful experts following them, such as Su Cancan's Sect Leader and her four Senior Sisters.

Although he didn't know how strong they were, Wu Tian estimated that they shouldn't be any weaker than Su Cancan. At the very least, they had to be at the same level.

"President Wu, the police are rushing towards our designated area. This person is about to arrive at the factory." Loong Yun was in the monitoring hall, giving Wu Tian a live report.

That person's speed was extremely fast. In fact, the police couldn't even catch up with him. However, this person seemed to have suffered some sort of shock. When he escaped, he seemed to be panicking.

"Alright, tell me where he is at any time!" Wu Tian was eager to give it a try.

He was dressed in a exoskeleton Battle Mecha, waving his fists and arms.

The four beauties seemed to be very interested in Wu Tian's outfit. They stared at him curiously, which made Wu Tian a little embarrassed.

"Cancan, what are you all wearing?" Although they were curious, they didn't want to talk directly with Wu Tian. They seemed to be shy and timid.

"Oh, that's what you're talking about."

Su Cancan pointed at her exoskeleton Battle Mecha as she squeezed her senior sister's body.

"How about it? Am I very strong? If I wear this, my body will be greatly improved."

When Su Cancan said this, she was no longer as cold as she was when she was with Wu Tian.

"Is it really that amazing? If we knew earlier, you would have let us experience it as well."

The four beauties chattered on. It was obvious that they wanted to feel these things as well, but they were too embarrassed to say it.

After all, they were guests outside, and they didn't know Wu Tian.

"We are cultivators, how can we rely on these extraordinary techniques? The most important thing is to raise our level of training."

The Sect Leader heard their conversation and she frowned.

"Senior sister, you don't need to be so pedantic. Don't look at how dignified your words are. Of course I understand you. What you did in our valley ..."

At this time, Su Wenxin started to complain but before she could finish her sentence, the Sect Leader hurriedly opened his eyes and flew over, covering Su Wenxin's mouth.

"Hurry up and shut up ..."

Only after the two of them had gone through all this did they realize that there were still many other people around them watching them, especially their disciples ...

The Sect Leader also realized that she had lost her composure. She quickly let go of Su Wenxin and straightened her expression.

"She's talking nonsense. You should know that."

The Sect Leader didn't change his expression at all and calmly threw the pot at Su Wenxin.

Wu Tian felt it was funny. This Sect Leader's character was not too far off from Su Wenxin's. She only looked serious, but in her heart, she loved to play.

"Seniors, we are about to arrive. Because this is your first time here, I'm worried that you guys aren't familiar with the terrain, so if you have any worries, then stand at the back. If anything happens, just ask our Security Team personnel."

Wu Tian actually said this out of good intentions because this Sect Leader and the four beauties were guests, moreover they were all Su Cancan's fellow disciples. If something were to happen to them, it would be hard to explain to Wu Tian.

"Young man, you don't have to worry about this. You might not know the power of our Sect Leader."

Su Wenxin gasped for breath after breath. Just now, she almost had trouble breathing due to the Sect Leader.

While they were talking, the helicopter slowly landed. Wu Tian ran to the airport entrance and looked down. Not far away from there was that factory.

The place they had chosen for this operation was a factory. Just as they had expected, the mysterious man was chased to this place by the police to hide.

In order to numb this person's attention, Wu Tian had already evacuated all the police officers. Without the siren of the police car, he probably wouldn't think about escaping anymore.

After all, with his speed, escaping was too easy. In order to fight him, he needed to reduce the space to a certain extent. Only then would he be able to minimize the effects of his ability.

"Are you ready? According to our plan, let's hurry up and go up! "

At this time, Su Cancan also began to direct the Security Team to carry out the plan.

The ordinary team members had already begun surrounding the factory. At the same time, they had also brought over a large amount of supplies from the plane. They opened them and saw that it was filled with fine metal webs. They spread it over the walls and roofs of the factory.

"Let's go in as well!"

Wu Tian moved his body a bit and counted with his fingers. It had been a long time since he last fought. At this time, his body couldn't help but begin to secrete adrenaline, which made his heart beat faster and faster.

"There is no need for you to say this. Lord Sect Leader, it is better for you to stay outside ..."

Su Cancan ignored Wu Tian's words and turned to look at her Sect Leader and Senior Sister.

The Sect Leader didn't say anything and just walked up. She followed closely behind Wu Tian.

"I came here this time to see this legendary person and to learn a few moves from him. How can I stay outside?!"

"We have to protect the Sect Leader!"

At this time, the four beauties also came forward. Their attitude was completely unshakable.

"Alright, but the situation inside is more complicated. No one knows what will happen, so everyone must be careful."

After Su Cancan gave her instructions, she gave a meaningful look to the Security Team personnel and they immediately and carefully opened a door.

The few of them entered one after another, and they finally opened the curtain on the hunt.

The interior of the factory was a mess. There were machines to process the raw materials everywhere, scattered about and filling the entire factory.

It was very difficult for them to find a foothold while walking, and it was very difficult for them to advance every step of the way, not to mention advancing quickly here.

"Be careful, we still don't know where that person is in this factory." Wu Tian said in a low voice as he walked in front.

### **C986 Su Zhenchuan's Wound**

The interior of the factory was a mess. There were machines to process the raw materials everywhere, scattered about and filling the entire factory.

Walking and finding a foothold was very troublesome. Every step they took forward was very difficult, not to mention wanting to advance quickly here.

"You guys be careful, we still don't know where that person is in this factory." Wu Tian said in a low voice as he walked in front.

The Security Team practitioners outside had already covered the entire factory with metal webs. This way, no matter how fast the mysterious man was, it was useless because it was impossible for him to fly at such a fast speed in a cage.

"Where is this person?" Su Wenxin couldn't control her excitement any longer. She looked around and was eager to give it a try.

They all wanted to know who this person was and how he managed to train his martial arts to such a level.

"Wait a moment, Loong Yun's infrared scanning results will be sent over." Wu Tian told them not to be impatient. Now that they have the advantage, there was no need to be in such a hurry.

"How can we use so much effort!" Su Wenxin followed Wu Tian and said. Then, she stretched out her hand to release a small moth and disappeared into the factory.

Although this little thing didn't seem big, it was still flying very fast. In a short while, it disappeared without a trace.

But not long after that, Su Wenxin suddenly pointed in one direction and shouted, "Over there! Over there! " After saying that, she rushed out by herself.

"Master, be careful!" Su Cancan quickly followed behind her. Su Cancan did not expect her master to be so enthusiastic, but this was understandable.

Su Wenxin hadn't gone to many nightclubs or similar places to play during this period of time, so she seemed to be on the verge of going crazy. Now that she finally had something to do, she naturally couldn't help but want to waste some of her energy.

Actually, the guy they were capturing was much more nervous than Su Wenxin. When Su Wenxin heard the commotion coming from this direction, he immediately flashed and jumped out from a corner, heading in the other direction.

His speed was indeed fast. Almost in just an instant, they saw his figure. When they looked again, he was already gone.

The Sect Leader and Wu Tian were standing at the back and were immediately surprised when they saw this scene.

However, she was somewhat happy as the situation didn't go the way she thought it would. This made the Sect Leader ecstatic. She wasn't the least bit inferior to Su Wenxin.

"You still want to run?" Su Wenxin saw that the mysterious man had come out, so her chance had come. She quickly rushed up. Her speed wasn't that great, so she wouldn't have any advantage in competing with this mysterious man.

However, Su Wenxin wasn't an idiot. She wasn't in a hurry. Instead, she dashed forward while spreading out many of the little moths that she had brought along with her.

These little fellows were small in size, but there were quite a few of them. They soon began to settle in the factory.

However, they were simply too inconspicuous. If one did not pay careful attention, one might not even be able to discover traces of them.

His opponent disappeared in a flash. Inside the factory, it was pitch black. There were many places to hide.

However, this question did not seem to be a problem to Su Wenxin. Every time that mysterious person changed her position, she could immediately change her direction.

She seemed as if she could find out where this mysterious person was at any time.

"Master, where is he now?"

Su Cancan wasn't as strong as Su Wenxin, but once she ran away, she was at her wit's end.

"He's twenty meters in front of you!"

Su Wenxin commanded from behind as she spread out her bugs. The way their Wudu Sect fought was always using the terrain to create an environment suitable for them to fight in.

No matter how strong the opponent was, there was no way he could guarantee that he wouldn't be poisoned.

With the command given, Su Cancan pressed closer towards the mysterious man step by step. The mysterious man seemed to be in a panic and didn't even make any signs of resisting.

He was only running for his life, but this factory was only so big, and there was nowhere for him to hide.

The more the other side panicked, the more they didn't pay attention to where they were going. His speed was too fast, to the point that there was no way to use it in this factory.

Su Cancan chased after him. With a bang, this mysterious person's figure suddenly appeared on a wall. Previously, he didn't seem to see the direction clearly and directly crashed into it.

He fell to the ground with a thump. Seeing this scene, Wu Tian and the others were stunned. No one expected it to be such an opening ...

"This ..."

The Sect Leader didn't expect that the formidable opponent she had always desired would end up in such a state.

Su Cancan didn't stop her steps when she saw this scene. She rushed forward at the first possible moment.

She was just about to reach this person when she saw him suddenly jump up from the ground and charge towards Su Cancan.

He was so fast that Su Cancan had no way to dodge. Su Cancan was knocked to the ground as a black shadow flashed past.

She didn't even get hit by a punch or a kick on purpose. Instead, when the black shadow passed by her, she bumped into Su Cancan.

However, the damage caused by this attack was extremely great.

"Come and save me!"

Su Cancan fell to the ground, gritted her teeth and shouted towards Wu Tian. Just as she wanted to get up, she found that her arm was broken.

Just now, this place had made contact with the enemy, so much so that she didn't even feel it. It was only when she landed on the ground that she noticed the pain in her arm.

She didn't even have time to react. If this enemy really wanted to focus on attacking, then they would have given it all for nothing.

Hearing Su Cancan's voice, Wu Tian did not dare to delay any longer. He rushed up immediately and did not have the time to check carefully. He picked up two sticks from the side, secured Su Cancan's arm and dragged her back.

The Sect Leader looked at her disciple with concern. Fortunately, Su Cancan's arm was only fractured, and she didn't sustain any injuries.

However, she was unable to participate in the following battles.
