

Hidden Billionaire Chapter 987 - A Struggle in a Desperate Situation

C987 A Struggle in a Desperate Situation

Seemingly feeling that she couldn't continue like this, the Sect Leader finally couldn't take it anymore. She took a few steps forward and started to prepare to make her move.

Wu Tian looked curiously at the Sect Leader, wondering what she would do.

The Sect Leader took off her outer layer of clothing, revealing her two pure white arms. However, there seemed to be some sort of pattern on her arms, making them look like tattoos, but it was too bright.

The Sect Leader stood with his hands on the ground and closed his eyes as he began to mutter to himself. She was most likely operating her technique, and at the same time, the black patterns on her arm began to emit a visible black gas.

Like an octopus spitting ink from the depths of the sea, with the Sect Leader at the center, it quickly turned into a huge cloud of black mist.

This fog was like a huge monster in the dark, engulfing everything in this factory.

Su Wenxin turned her head and saw the Sect Leader. She smiled inwardly and the two of them came together.

"I didn't think that it would take so long for the two of us to have a chance to fight."

The Sect Leader also smiled, as if he had returned to the time when the two of them were still brothers.

"You're right. How many years has it been? It seems that our trip this time has not been in vain."

As the two of them spoke, their hands did not stop moving. It was as if the entire factory had been enveloped by the black fog.

When Wu Tian smelled the fog, he was deeply aware that this problem had anesthetic effects and even had some other toxins, so he immediately covered his mouth and nose and brought Su Cancanran behind him.

At this moment, Fourth Mi walked up and gave Su Cancan and Wu Tian each a pill.

"Eat this! It's an antidote! "

Wu Tian didn't waste any time and quickly swallowed the pill down.

Su Cancan did not eat it. She was also from the Wudu Sect, so she naturally had some preparations.

"I don't need to. You guys pay more attention to the fight between Master and the others. If anything happens to them, go and assist them!"

Su Cancan's gaze was fixated on her master and the Sect Leader. She had just experienced how powerful this mysterious man was, so she didn't want her master and the others to be harmed like this.

"Don't worry about that!"

Wu Tian nodded and put her flat on the ground. Then, he jogged into Su Wenxin's and her life.

"Can you locate them?"

The Sect Leader asked his Junior Martial Sister if she knew that Su Wenxin had displayed this ability.

"Of course, my moth is already scattered everywhere. As long as he passes it, I can immediately feel it."

Of course, Su Wenxin's moths were not useless. They were like small reconnaissance aircraft, all of which were Su Wenxin's eyes and ears.

With so many little moths, no matter where that mysterious man appeared, Su Wenxin would be able to quickly find out and change the direction of their battle.

"Alright, please support me here!"

As he said that, the Sect Leader leaped out. Although they did not specialize in battles, in reality, they only said that Wudu Sect's methods were far inferior to poison. It did not mean that they were powerless.

"Ten meters to your right!" At this time, Su Wenxin shouted at the Sect Leader.

The Sect Leader followed her command and directly rushed towards that direction. However, she stopped halfway and fiercely punched towards the air.

Wu Tian didn't see any shadow and thought that his punch missed. But then, a dong sound rang out. Wu Tian looked again and saw a person's figure slowly falling to the ground.

The Sect Leader gently shook her arm, showing a relaxed and effortless look.

"It doesn't seem to be that powerful." The Sect Leader said in a somewhat relaxed manner. It seemed that the move she had performed just now had not expended much effort.

"Senior Sister, it's better to be careful. This guy might have other methods!" Su Wenxin didn't start to become arrogant because of the Sect Leader's strength, but remained as alert as ever.

"Don't be afraid, he must have lost a lot of strength." The Sect Leader was very confident. Although she didn't make any moves, she was quite confident in the power of her attacks.

However, the mysterious man didn't seem to want to give them any face at all, immediately jumping up and down.

He immediately flew into the air, but this time, he didn't choose to escape.

Instead, he directly rushed towards the Sect Leader and the others.

Wu Tian exclaimed in surprise. Fortunately, it was Wu Tian who reminded them, so the two of them reacted at the last moment and dodged away.

However, they weren't so lucky when they were standing where they were earlier. That place had already been blasted into smithereens.

If he was fast, it would be very easy for him to obtain great strength.

"Why is he suddenly so powerful!" Su Wenxin's face was full of surprise, but she still hurried over. She threw out a few black objects to force the mysterious man away while simultaneously standing beside the Sect Leader.

"I don't know. Interesting. It seems like we haven't figured out his true strength yet." The Sect Leader smiled. She stretched her body to show that there was nothing wrong with it.

At this moment, the black fog in the factory had started to dissipate. Wu Tian and the others had the antidote so they were naturally safe. However, the mysterious person seemed to have something wrong.

At the start, he looked like he was losing his breath. If this carried on, he probably wouldn't need Wu Tian and the others to help him anymore. He would probably not be able to withstand it himself.

"Hey, who the hell are you?"

The Sect Leader looked at the mysterious person in front of him. His clothes were completely black and even his head was completely covered. He was simply a black mummy.

Right now, she really wanted to know who this person was. She had never heard of anyone who could practice Qing Gong to such an extent.

The mysterious person did not seem to plan to answer and instead stared intently at the Sect Leader. After which, he did not slow down at all. He knew how powerful these two were and thus, he did not plan to directly clash head on with them.

"You're not answering? If that's the case, then don't blame me."

The Sect Leader sneered and suddenly jumped up from the ground. A colorful butterfly suddenly flew out from somewhere and resonated with the Sect Leader.

Every time it flapped its wings, there would be a colorful cloud of smoke diffusing in the air. It looked really beautiful.

Hidden Billionaire Chapter 988 - Gene Modification

C988 Gene Modification

No one could have predicted that this thing would be so powerful.

The mysterious person fell to the ground in pain, unable to get up for a long time.

His body was already completely immobilized, constantly twisting on the ground.

Wu Tian looked at everything that happened in front of him in shock. Up till now, he still could not understand what exactly happened.

He only saw that person charge over, then he fell to the ground powerlessly.

The colorful butterfly disappeared in a flash, but Wu Tian still etched her beautiful appearance deeply in his mind.

Although the development of the situation was somewhat unexpected, but no matter what, the result was still good.

The Sect Leader walked over step by step. He looked down at the mysterious man on the ground.

She reached out and beckoned to the four beauties, calling them over.

"Tear off those things he's wearing, I want to see who this guy is!"

The more mysterious he was, the more curious the Sect Leader was. How could she not be interested in something like this?

Without another word, the four of them quickly walked over. Their movements were extremely quick, and in a few movements, they had ripped apart the mysterious person's disguise.

At this time, Wu Tian and Su Cancan also walked over. They wanted to see what kind of background this mysterious person had.

However, after taking off the strips of cloth on his body, the few of them were dumbfounded.

This was because this person's skin was already completely red. His skin looked like it had been scalded by boiling water. Su Wenxin used her hand to touch his skin and quickly reached her hand back.

"So hot ..." This fellow's body temperature was exceptionally high, as if his entire body was burning.

At this time, they also saw the face of this mysterious person. They looked at each other, not knowing what to say.

All this while, everyone had thought that this mysterious person was someone from a certain China sect.

However, when they saw this face, all their expectations immediately vanished.

Because this mysterious person clearly had a white face, blond hair, blue eyes, a high nose bridge, coarse pores, and a small freckle on his face.

All of these clearly proved that he was white, and not someone from the China.

"This ..." Wu Tian's mouth was wide open. He didn't know what to say. No one had expected the situation to turn out like this.

"Within our sects... Have you accepted any foreign disciples before? "

Su Wenxin asked as she scratched her head. Even she could not have predicted this would happen.

The Sect Leader shook his head. Others may not be clear about this, but she was clear that this sort of thing could not possibly exist.

"Absolutely impossible. Even if it's Tianying Sect s, they shouldn't be able to do such a thing."

If that was the case, then they could conclude that this person did not belong to any of the sects with China, but rather came from the outside.

Just this alone was not enough to explain, so they quickly checked the person's body. Wu Tian found that the muscles on his four limbs were exceptionally well-developed, especially the legs.

It was so thick that it didn't seem like a human being could grow out. Moreover, his body was quite stiff to the touch. His muscles were as firm as a piece of stone.

But he didn't look old enough or old enough to have been trained by himself.

"We have to quickly take this person away and keep it a secret!" Wu Tian instinctively felt that there must be something that he did not know about. Perhaps there were many secrets on this person.

"Of course!"

Su Cancan nodded. She agreed with him.

"So boring ..." The Sect Leader stretched his back. Originally, she was looking forward to come over, but this result made her very unhappy.

"About that, I'll go back first. Su Cancan, come with us as well. I'll get some medicine for you to heal your injuries." The Sect Leader took two steps forward before turning back to look at Su Cancan.

Hearing that the Sect Leader was so concerned about her, Su Cancan also felt very happy in her heart, so she quickly followed him.

Soon, Wu Tian was the only one left in the factory. He didn't know whether to laugh or cry. He had prepared so many tricks, but none of them worked.

This guy was in a panic. He had already lost his ability to calm down and think. At this moment, all he wanted to do was to escape.

He had met people like the Sect Leader and Su Wenxin, and he was defeated in front of them.

But honestly speaking, this man wasn't at a disadvantage. To be able to be defeated by Su Wenxin and the Sect Leader, that was definitely something to brag about. To be able to fight with them was already quite rare.

This matter came to an end very quickly. Wu Tian and the others were so silent, it was as if they had never been here before.

As for this mysterious person, he had already been sent to an extremely strictly guarded helicopter, and was sent to Flower Island at the first possible moment.

A large jail was built under Flower Island and this place was actually made up from Su Cancan's little black house.

And this mysterious person was fortunate enough to be one of them. Not only was he imprisoned here, they even had to investigate his body's condition.

No matter what, Wu Tian finally let out a sigh of relief. Next, he had to find the whereabouts of the corpse. After finding this thing, Wu Tian would have a way to deal with Zhang Zerui.

Of course, this matter was not that simple as the mysterious person had been in a coma ever since he was sent back.

Wu Tian went to see him a few times. In the end, he could only invite Loong Zaian over to let him see what this person looked like.

After doing a detailed investigation on the mysterious person, Loong Zaian nervously looked for Wu Tian.

"President Wu, this is the report. There are some things. Forget it, it's better for you to take a look for yourself."

Seeing Wu Zhi An's hesitant manner, Wu Tian didn't know what he had found.

After taking a look at the report, Wu Tian was also a bit confused, because it was clearly written that this mysterious person seemed to have been genetically modified.

"Are you sure?"

Wu Tian looked at Loong Zaian in disbelief.

"When have I ever lied? I've already tested his genes. There's a huge difference between his genes and us ordinary people. It seems that some animal genes have been added to modify his genes ..."

The reason Loong Zaian was so shocked was because this kind of thing shouldn't be used on people.
