C989 Bring Back a Fool?

But since the result had come out, it meant that the truth had been placed in front of them. They could only believe it.

After hearing this news, the few people from Wudu Sect also rushed over.

This was especially true for the Sect Leader. Even though he was the leader of the Wudu Sect, he wasn't the kind of stubborn old fogey that left the modern world.

On the contrary, Wu Tian had discovered that this Sect Leader was not much different from ordinary people.

Furthermore, she was dressed very beautifully. She was definitely the kind of person who would cause others to be unable to shift their gaze away after a single glance at her.

It had to be said that there were truly many beauties within the Wudu Sect!

Everyone gathered around this mysterious man. He was currently stuck on an experiment table, and his hands and feet were tightly bound. He absolutely could not move.

Therefore, they could rest assured and chattered on the side.

"You mean this person has been genetically modified?" When the Sect Leader heard this news, his face also showed a different expression. At least they had some scientific knowledge and knew how difficult it was to achieve such a thing.

"That's right. Although I couldn't believe it in the beginning, the result of the sequencing wouldn't be a lie."

He was the most famous doctor in the entire S City. If he said that he wasn't sure about this, then there was probably no one else who knew better than him.

"Is the world like this already ..."

The Sect Leader could not help but sigh. They had painstakingly cultivated in order to obtain their current strength. And these genetically modified people, they were all born like this.

His speed was initially considered kung fu by everyone, but now it seemed that it was just a gift from his body.

"We can't tell anyone about this... Otherwise, I think the country will certainly step in at the first possible moment. "

Wu Tian frowned. He didn't want to blow this matter up, so he could just drop the matter before anyone else knew about it.

Once they found out, it wouldn't be too late to share this matter.

"This is for sure. If this news were to spread out, it would definitely cause a huge uproar."

Su Wenxin also nodded. They all agreed on this point.

"But, why is he unable to wake up?"

The Sect Leader curiously looked at this mysterious person. At the beginning, she thought that this guy was sleeping, but upon closer inspection, she realized that he had fainted.

"I don't know either. I tried a lot of things for him, but he couldn't wake up."

Loong Zaian shook his head. Right now, this was the only thing he couldn't do.

"Do you have any good ideas? I still have a lot of things I want to ask."

Wu Tian also looked at Loong Zaian in anticipation. The information that this mysterious person brought along was very useful to them.

"That won't do. The solutions I have here won't be able to do anything." Loong Zaian still shook his head and sighed helplessly.

At this time, the Sect Leader seemed to have thought of something. She felt around her body and took out a small medicine bottle.

It was a small white porcelain bottle with a wooden stopper wrapped in a red cloth. It looked very exquisite.

"He's unconscious and unconscious. If nothing goes wrong, he should have been poisoned by my poison. It's normal for you all to fail to wake him up. Only my antidote can solve this problem ..."

The Sect Leader said somewhat embarrassedly. Everyone had forgotten about this matter, and now that they thought about it, it seemed to be true.

"Really? Then quickly come and take a look."

Wu Tian hurriedly opened up a path, hoping that the Sect Leader would bring him good results.

The Sect Leader didn't say anything else and pulled out the cork from the bottle. She moved closer to the mysterious person's nose and allowed him to breathe in the aroma of the medicine.

In the end, this thing was really useful. She only swayed it a few times under his nose. The mysterious man began to cough violently and slowly opened his eyes.

However, when this guy saw Wu Tian and the others surround him, he immediately wanted to struggle violently.

However, his hands and feet were firmly fixed, so he could only twist his body on this table.

Sensing that the other party did not do anything dangerous to him, the mysterious man slowly calmed down and started to observe these people vigilantly.

Both parties looked at each other. No one spoke much.

In the end, Wu Tian coughed and was prepared to break the awkward situation.

"That... You understand the language of China, right? "

"..."

The mysterious man did not say anything, he just stared at Wu Tian.

Seeing him like this, Wu Tian turned his head to Loong Zaian's side.

"Is there something wrong with his ears ...?"

"There's definitely no problem with that. You can rest assured that his body is healthy everywhere!"

Loong Zaian quickly gave Wu Tian a satisfactory answer.

"Could he not understand the language of China?"

This question stumped everyone. Who knew, but since this mysterious person had a white face, it was normal for him to not understand China.

"How about I give it a try ..." Su Cancan saw that Wu Tian was helpless and didn't know what to do, so she walked forward. Although she was wounded, she didn't lie down peacefully on the bed. Instead, she followed her master and ran all over the place.

Wu Tian looked at Su Cancan and was very grateful.

"I'm truly sorry ..."

"Nothing."

Su Cancan didn't express much to Wu Tian for his gratitude. Her attention was more on this mysterious man.

Subsequently, Su Cancan repeated the question Wu Tian wanted to ask again in several languages, but in the end, the mysterious person still didn't say a word.

"I finally understand, he doesn't want to talk at all, it's not that he doesn't understand!"

Although she usually had a good temper, but that didn't mean that she could be looked down upon by others.

"What should I do ..."

Wu Tian frowned. He started to feel that this mysterious person wasn't that easy to deal with. However, he was unlucky and ended up in Wu Tian's hands.

Out of the few people with Wudu Sect beside Wu Tian, which one of them wasn't an expert capable of torture?

In their hands, there was no one who could grasp the secret in their own mouths. The life force of a human was always in front of them, like a piece of paper that could be easily shattered with a poke.

After that, Wu Tian didn't stay in that place anymore.

He was willing to use this method, but it did not mean that he could continue watching.

The way Su Cancan and the others used torture to force their confession wasn't something that an ordinary person could accept.

However, the effect was not bad. Soon, Su Cancan and the others came out. However, from their expressions, it seemed that they did not get the result they wanted.

"What's wrong? "What's the situation?"

Wu Tian quickly went up to ask, but even these people shook their heads.

Finally, he asked about Su Cancan and found out the exact information.

"That fellow must have some mental problems. "It's not that he doesn't want to talk ..."

Wu Tian was stunned when he heard this news ... What kind of reason was this? Was this what he had been looking forward to?

"No, if that's the case, then I'll never know what I want ..."

Wu Tian began to despair. He never thought that he would actually break a fool.

"We can't do anything about that. We've already done our best, but he really can't say anything. We've been asking him for a long time, and he's just chattering nonstop ..."

Su Wenxin was also helpless, but they would not be so disappointed if they had gotten even a little bit of results.

"Since things have come to this, you might as well accept it. Since the other party is purposefully targeting you, naturally, they will not leave you with any weakness. "

The Sect Leader had a clear understanding of the situation. Hearing her words, Wu Tian felt relieved. Truthfully, he could not treat others as fools either.

As soon as the matter was settled, Loong Yun ran over to him in a hurry.

"President Wu, Sunn Hongsheng is here."

Wu Tian almost forgot about this person, but Sunn Hongsheng didn't forget about it.

"Why is he here? Quickly pack up this place and don't let him find out."

Wu Tian quickly ordered the people beside him to close the door of the underground facility tightly.

"It should be related to the previous operation. Didn't they also participate? He heard that we brought that suspect back, so he came to take a look."

Loong Yun guessed that if it was really as she had expected, Sunn Hongsheng would probably want to take this person away this time.

Not long after, when Wu Tian just walked out of the building, he met Sunn Hongsheng outside. He was accompanied by two or three policemen. They walked over excitedly the moment they saw Wu Tian.

"Your results are quite good!"

The moment Sunn Hongsheng arrived, he immediately put a big hat on Wu Tian. He praised the actions of Wu Tian and the others fiercely, even though he didn't know the actual situation at the scene.

However, Wu Tian did not report the failure to them. Naturally, Wu Tian had already succeeded.

In other words, the person who stole the body was captured.

"Don't mention it. By the way, why did you come this time?"

Wu Tian wanted to change the topic. He did not want to answer Sunn Hongsheng's question directly.

"President Wu, what are you saying? I already said it very clearly. The last time we did it, it was approved by the Bureau. If we didn't bring the suspect back, then we didn't get anything. "

Sunn Hongsheng said in a low voice. It wasn't that easy on their side, and there was a lot of pressure on them.

"Don't worry, I'll give you an explanation. The main thing is that you can't take this person with you right now."

Wu Tian didn't know what to say anymore. If he lied, he didn't know what kind of lie he could come up with to convince him.

"Come on, come on. What's going on?"

Sunn Hongsheng was not an idiot. He clearly felt that Wu Tian was hiding something.

However, Wu Tian just bit his lips and didn't say anything. No matter how much he asked, Wu Tian didn't say anything.

When Sunn Hongsheng saw this, he simply took Wu Tian aside for a secret meeting between the two of them.

"Tell me clearly what happened. Otherwise, even if I wanted to help you, I would not have the opportunity to do so."

To this suspect, Sunn Hongsheng knew that he wasn't of any importance to Wu Tian.

However, due to the spirit of the rule of law, Sunn Hongsheng still hoped that Wu Tian could hand this person over to him.

"It's good that you understand, but I can't tell you anything about this person. There are too many secrets involved, so I'm afraid something might go wrong if I tell you."

Wu Tian was also very honest. When he saw Sunn Hongsheng say that, he could only say it.

"What else is there that I can't know ..." Sunn Hongsheng suddenly felt that he was not trusted. Even though he already cooperated with Wu Tian like this, the other party still refused to tell him about this.

That clearly showed that he was an outsider.

"This involves secrets, and it might even involve diplomacy, so I suggest you really not know about it. It's better if you don't, I'll give you guys some compensation from the police, I definitely won't let you guys act in vain."

Wu Tian sighed. Honestly speaking, he didn't even know how to deal with this matter about genetically modified people.

If he wasn't sure, this could very well be a huge trap for him, or even the country.

"Since you've already said this, I won't pursue this matter any further. But there's one thing I have to tell you, because you have to solve anything else that comes along with this. "

Sunn Hongsheng could feel that Wu Tian had already made up his mind, so he didn't force him.

However, since the police didn't know about the sequence of events, there was no reason for them to cooperate with Wu Tian anymore.

"Thank you for your help. I will definitely not let you suffer a loss for nothing."

Wu Tian had nothing else to say. After sending Sunn Hongsheng away, he quickly gathered the scientists under his command to carry out the research on the genetic modification man.

To be honest, Wu Tian's previous research direction had always been digital. For this kind of medical research, he didn't have any technical reserves.

As a result, a large group of experts came to the institute. They were not in the biomedical field, so Wu Tian could only send these experts back.

If he just kept people locked up like this, it wouldn't be a good idea. Wu Tian was so anxious that he was about to lose his appetite.

C991 Find Talent

As he was not a professional, Wu Tian had no opinions on the work of this research.

There were very few people in the field of biomedicine, and those in Wu Tian's hands were even rarer. Most people liked to go to the fast money and brilliant electronics and technology field.

And the more traditional, yet unprofitable, biomedical stuff is out of the question.

Seeing Wu Tian so anxious, Loong Yun tried many different ways, but none of them could meet their requirements.

In the end, Loong Yun had no choice but to turn to her own father. Perhaps he knew what to do.

"If you ask me that, I think I do know a doctor. I've seen a lot of his research in medical journals in the last few years, and it's all very advanced, very sophisticated. "

Loong Zaian didn't let his daughter down at all. As expected, he quickly gave her a good goal.

"Give me his name and some information. I'll think of something!" Loong Yun hurriedly took out her notebook and prepared to write it down.

"His name is Niu Tengyun. I've met this person a few times and he's very honest. If we can really invite him over, then we can continue this research."

After receiving her father's message, Loong Yun immediately went to prepare.

According to the investigation, this Niu Tengyun was a doctor who came back from studying abroad. He wasn't very famous, but his professional level was very good. What made people not understand was that he worked for a medical company that looked like a fraud.

In reality, most of these companies were fake, because the new drugs that could be developed had long been monopolized by the big foreign companies, while some of China companies could only produce things that didn't have much technical content.

So when Loong Yun saw the news about Niu Tengyun, even she herself was a little stunned. If her own father didn't tell her, she probably wouldn't have believed that there was such a powerful expert in a company that sold Mighty Y Medicine.

However, there were some directions. After Loong Yun investigated this information, she rushed over to Wu Tian at the first possible moment.

"President Wu, I've investigated a very powerful biomedical expert. Do you think we should invite him over?"

Wu Tian, who was holding onto his forehead, had no idea what to do when he heard the news. He was overjoyed and said, "Good, good. With this kind of talent, of course we have to take it! Tell me, who exactly is this person? "

Seeing Wu Tian's interest, Loong Yun let out a sigh of relief. She knew that she didn't have to worry about anything anymore, so she quickly passed Niu Tengyun's message to him, ready to let him have a look.

In the end, Wu Tian looked at Loong Yun with suspicion. He waved the folder in his hand and asked in disbelief, "All of this is true?"

"Absolutely!"

Although Wu Tian didn't want to suspect Loong Yun intentionally, but the company on his resume really made him a little dazed. It clearly stated that it was S City Cultivator Drug Development Co., Ltd ...

"A pharmacist?"

"Yes."

Loong Yun herself was a little displeased, but this matter was also the truth, and she had no way to refute it.

Wu Tian was silent for a while, clenched his teeth, and still put the resume away.

"Forget it, let's invite this person over first. It doesn't matter whether the price is higher or not!"

We'll think about it after that. If others were to see a person who studies medicine being able to enter Wu Group company, wouldn't that mean that there would be a lot of people who would be able to join their own company?

Wu Tian didn't hesitate to leave with Loong Yun. He was prepared to pay a visit to Niu Tengyun immediately.

When they arrived at this drug company, Wu Tian almost felt embarrassed to get off the car.

Because the moment he appeared, a group of people immediately ran over and started to sell to Wu Tian along with bags and bags of all kinds of medicines.

"Big Brother, it's especially useful to buy some medicine!"

"I'm not here to buy medicine from you guys, I don't need it either!" Wu Tian was almost going to die from anger. When did he become an incompetent person?

Loong Yun actually felt more embarrassed than Wu Tian because those who appeared near the company were usually boys. A beauty like her attracted the attention of almost everyone.

These gazes made Loong Yun feel uncomfortable, as if she wasn't wearing anything at all. However, she still followed Wu Tian into the company with a sullen face.

The company's scale was not that big. There was a small workshop and one or two office buildings. The exterior walls were beginning to peel off, making it seem like they had been there for quite some time.

"We came to find Niu Tengyun." Wu Tian said directly to their waiter, and didn't say much more nonsense.

"Supervisor Niu is currently developing a new drug at the back. Our boss has instructed me to take you to see him first."

Hearing her words, Wu Tian didn't say anything else. He waved his hand and told her to lead the way.

Wu Tian walked upstairs. When he pushed the door open, he saw a greasy looking middle-aged man sitting inside.

However, when he saw Wu Tian, he immediately ran over with a flattering look on his face. He pulled Wu Tian's hand as if they were old friends.

"I never thought that the chairman of our S City's big shot, Wu Tian, would actually come to my company!"

He wasn't a fool. He knew Wu Tian's identity the moment he entered the company, so he quickly smiled.

"Yes, it's me." Wu Tian said coldly. There were too many people who wanted to get close to him, so he just ignored all of them.

"So, President Wu, you came to my place?"

"Actually, I want to talk to Niu Tengyun." Wu Tian decided not to hide it anymore. He was no fool. He must have taken a fancy to someone when he came here alone.

Otherwise, what else could Wu Tian possibly pay attention to in a drug company like this?

This point, the Basic Mountain was similar to the owner's prediction.

"President Wu, let me introduce myself. My surname is Wu too. We were still a family 500 years ago." Boss Wu smiled, but then changed the subject.

"But this Dr. Niu Tengyun is a mainstay of our company. I can't hand him over to you!"

C992 Trader

As far as merchants were concerned, this was not a bad thing. If a merchant is not treacherous, he will not make money. Then his business would naturally not be able to continue any further.

Wu Tian was not surprised by Boss Wu's suggestion. On the contrary, it was all within his expectations.

He would definitely come to bargain with him over this matter. This was probably the price he had to pay.

But now, Wu Tian would rather spend more money. He also hoped that he could get this Niu Tengyun under his control.

"Give me a price."

Wu Tian said plainly. He was too lazy to say those useless words, it was just a matter of money. He was the one who was the least sensitive to money.

"Good, President Wu is indeed straightforward. This Supervisor Niu, he is the cornerstone of my company, so it can be said that all the drugs in my company cannot leave his development. If you want me to give him to you, that's fine, but the price..."

Boss Wu smiled and acted like a cunning businessman.

He was like a lion with its mouth wide open, wanting to swallow Wu Tian at any moment.

"What's the point of saying all this? Give me your price. If I think it's suitable, then we'll make a deal. If it's not, then forget it."

Wu Tian still didn't give this person any face. He slowly said that and played with his phone, showing that he didn't really care.

However, in Boss Wu's eyes, what he did was like taking off his pants to fart; it had no meaning.

"President Wu, what I want to say is that Niu Tengyun is a priceless treasure. However, I am only his boss. I can't decide for him whether he wants to leave or stay. You have to ask him yourself. "

Wu Tian originally thought that he would say a particularly high price to ruthlessly rob him. However, he didn't expect Wu Tian to actually take the initiative to make contact with Niu Tengyun.

This was something he did not expect. Wu Tian immediately stood up and asked again in disbelief: "Is what you said true?"

"Of course it's true. Otherwise, do you really think that I would sell my own employees?"

Boss Wu was still smiling, but in Wu Tian's eyes, he looked so cute.

"Great, I'll go see him now!"

At this time, Wu Tian couldn't hide the excitement in his heart. He was really looking forward to meeting this legendary capable person.

Boss Wu remained silent with a smile. He just looked at Wu Tian's back from his room.

Loong Yun glanced over and frowned slightly. She felt that this Boss Wu might not be that kind.

These days, no one would help others without benefits. It was impossible for this person to do such a good deed.

Wu Tian couldn't care less. He ran straight to the back of the R & D building, found Niu Tengyun, and told him exactly what he thought.

Niu Tengyun frowned. He was not in a hurry to speak, but his expression looked somewhat restrained.

"Dr. Niu, if you have any ideas, just say it directly. I will try my best to satisfy them. Whether it's equipment, personnel, research and development funds, I will definitely comply with your request!"

Wu Tian said confidently. During this period of time, he had already figured out a few of their tricks when interacting with the researchers.

For these people, whatever material conditions you offered them as rewards was actually not that attractive. The key point was still the conditions for his research. That was the key factor that could truly move those who engaged in scientific research.

Therefore, Wu Tian was very confident in his offer. Niu Tengyun would never be able to get this in this company, so he had a powerful appeal.

"This... Thank you for your kind intentions... But I can't leave this company. "

Niu Tengyun said apologetically, but Wu Tian was completely stunned.

"No ..." Wu Tian looked at Niu Tengyun in disbelief. Then, he hurriedly said, "You probably didn't hear it clearly. Do you want me to say it again?"

"There's no need ..."

Niu Tengyun's tone was very firm, it seemed like he couldn't change his mind.

At this time, Boss Wu also came to the side of Wu Tian and the others. Seeing that the negotiation between Wu Tian and Ox-Head had reached a deadlock, he couldn't help but laugh.

"Actually, I didn't tell you about something. Niu Tengyun and I are very good friends. He is a person who repays kindness with kindness. Back then, I saved his life, so he won't go with you."

The Wu family's boss proudly said. However, Niu Tengyun also lowered his head to the side. He lightly nodded his head in acknowledgement of his boss's words.

Wu Tian swallowed his saliva with difficulty. He didn't think that things would become so troublesome.

However, he had to get Niu Tengyun into his hands. Wu Tian knew it would be useless for him to talk to Niu Tengyun directly. In order to solve this problem, the key factor must be discussed with Boss Wu.

Thus, he returned to Boss Wu's office and the two of them decided to have a good chat.

However, this time, the one who took the initiative was Boss Wu, while Wu Tian was the one who asked for help.

"President Wu, you should have asked this question already. I don't have any other way."

Boss Wu was still pretending. How could this matter be related to them? No wonder he let Wu Tian contact him so confidently at the beginning. Perhaps he knew Niu Tengyun wouldn't agree to let him leave.

In other words, Niu Tengyun could not leave the company without the approval of the boss.

Who knows what kind of things could have happened behind their backs? Maybe this Niu Tengyun had some weakness that could even fall into the hands of Boss Wu.

Wu Tian looked at this person with displeasure. However, he could only suppress all of his feelings at this moment as the overall situation was more important.

"Please state a condition."

Wu Tian took a deep breath. What followed next was the most important, he wanted to see what kind of harsh requirements would be put forward.

"It's very simple. I heard that Wu Group Corporation always has some strange things, and as a person, I like things that ordinary people cannot see. If you can show your sincerity, I think this matter can still be discussed. "

The Wu family's boss said with a smile. Money was no longer important to him, so what he wanted the most was something unique in the world.

As for what this thing was, Wu Tian had to consider the problem.

"You mean you want some rare ones?"

"That's right. A person will live his entire life hoping to obtain something that others cannot."

Wu Tian gritted his teeth and finally nodded in agreement.
