## C993 A Good Gift

As the saying goes, a man has no choice but to lower his head. At this point, no matter what request he made, Wu Tian could only accept.

After leaving the company, Loong Yun asked worriedly, "President Wu, are we going to continue doing this?"

"Of course, things have already reached this stage ..." Wu Tian sighed. He didn't think that Ye Mo would give him such a difficult problem.

I mean, if he wants more money, it's no big deal for Wu Tian. But if he wants the only thing he has, then Wu Tian doesn't know where to go to find it.

Besides, he didn't say what he wanted. The range of this choice was too big.

In fact, the larger the area, the harder it was to choose.

"What does he mean? What does he want?"

Loong Yun had a puzzled expression on her face. After thinking about it for a long time, she still couldn't come up with an answer. She only felt that he was creating obstacles for them.

Wu Tian leaned against the back seat of the car and rubbed his temples with his eyes closed. He began to think hard.

If it was those antiques, most of the unique items were in the national museum. Even if Wu Tian had money, he wouldn't be able to get it.

The things that he could get his hands on were usually not that important.

Suddenly, something flashed through Wu Tian's mind. Wu Tian immediately realized that there was indeed something in his hand, something that was unique to all of the world.

It was the metal that was stripped off the meteorite mine. That metal was definitely unique in the world and was something that no one else had access to.

His Wu Group company's biggest reliance was on this. You have to know that the very first thing he did was to develop this material, and then use it on some of the key technologies.

"I have an idea!"

Wu Tian felt that this could work. He just needed to secretly give some of this material to this person.

He didn't know what the characteristics of this metal was anyway, as long as he could show it to the man, the anti-gravitational force would be enough to surprise him.

After making up his mind, Wu Tian immediately began to study this matter to see if he could actually do this.

The main reason was that there was a huge resistance here, and that was the military.

Because according to the agreement between Wu Tian and the military, all meteorites belonged to the country. Even if Wu Tian wanted to take a batch, he must get the military's approval and it was limited.

Therefore, Wu Tian actually couldn't control this miraculous metal at will.

However, now that things had come to this, Wu Tian decided that he had to break the rules.

After he returned to the company, he quietly left a little bit of the metal from the research lab. It was about the size of a glass ball.

He then placed the item inside a specially crafted box. As long as the metal ball was inside the box, he would be able to float in the air without anything supporting him.

If he showed this to the Boss Wu, he would definitely feel satisfied.

After finishing all this, Wu Tian and Loong Yun headed straight for the company.

This time, he had brought this mysterious metal, as well as a sum of money. It was all in boxes filled with cash.

"President Wu came again, could it be ..."

When Boss Wu saw that Wu Tian had arrived, he immediately showed a hospitable attitude.

Although Wu Tian was a bit angry, he was begging someone else at this moment, so he had nothing else to say.

"It's like this. I've already prepared the item for you. It should be able to make you feel satisfied. If even this can't make you satisfied, then I have no other choice."

After saying that, Wu Tian nodded at Loong Yun, telling her to close the door and then deliver the gift that she had meticulously prepared.

He opened the box and Boss Wu's expression immediately changed. This was the first time Boss Wu saw a metal ball floating in the air.

"W-what's going on ..."

"I won't tell you what's going on, these are all secrets. Just tell me if you like this thing or not. If you still don't want to, then I can't do anything about it. "

Hearing Wu Tian's words, Boss Wu quickly hugged the box tightly. He was afraid that Wu Tian would take it back.

"The items are not bad!"

Boss Wu nodded. The more he looked at it, the more he liked it. He immediately realized that what he did in this business deal was worth it.

"That's good. Then what we were talking about before?"

Wu Tian rubbed his hands together in excitement. He had already paid the price. Then, Boss Wu should fulfill his promise.

"But if our company doesn't have him, then we won't be able to carry on with the business. Why don't you give us some financial support ..."

Boss Wu rolled his eyes and immediately showed a begging expression.

Wu Tian knew this person wouldn't be satisfied easily, but he was prepared.

As he spoke, he brought another box over and threw it in front of the boss.

"There's 100 million in cash in here, I used it to buy Niu Tengyun."

Wu Tian didn't say anything. He was generous with his money, so he reckoned that even if this company was sold out, it would only cost tens of millions.

He immediately took out a hundred million yuan. To put it bluntly, he wanted to let him know what it meant to be sincere.

"Good, President Wu is indeed straightforward. As expected of the big boss, he is generous!"

Without saying anything else, Boss Wu hurriedly packed these two items and led them to Niu Tengyun.

This time, Wu Tian felt a lot more refreshed. Although the cost was not small, but at least he could get Niu Tengyun.

Next, he could investigate what secrets this mysterious man had.

If he could find out where he came from and who he was related to, then Wu Tian would be more confident in dealing with Zhang Zerui.

If these things were to go smoothly, it would only cost a hundred million, which was nothing for Wu Tian.

"Supervisor Niu, you should have met this President Wu yesterday. He said that he wants you to work at his company."

Boss Wu called Niu Tengyun out, pointed at Wu Tian and said.

"Boss, what's going on? Are you trying to chase me away?"

Niu Tengyun looked at Wu Tian and then at the boss and said in disbelief.

"Well, no matter what, that's the way it is. You decide it for yourself."

Niu Tengyun didn't know what Boss Wu was trying to say, but due to careful consideration, he still shook his head at Wu Tian.

"I won't leave this company ..."

### **C994 Breach of Commitment**

Wu Tian couldn't believe his ears. He gave Niu Tengyun a gift and money, but Niu Tengyun still didn't want to come to his company.

"No ..."

Wu Tian was immediately flustered and exasperated. He immediately walked over to Boss Wu and whispered in his ear, "The two of us agreed to it, what is going on?"

"There's nothing I can do about that ..." Boss Wu showed indifference at this time and was determined not to let go.

"What do you mean you can't be helped, aren't you his boss!?"

Boss Wu heard that Wu Tian's mood started to collapse, but he felt that it was funny.

"It's like this ... Although Niu Tengyun is my supervisor, he's still a person. I can't interfere with whatever decision he makes. "

This guy was breaking his previous promise. This was clearly not how he had said it from the start.

Plus, no matter how you look at it, this Niu Tengyun seems to listen to this boss.

However, in the mouth of Boss Wu, it seemed like it had nothing to do with him at all.

"Are you saying that my luck is bad? Then give me back the things I gave you! "

Wu Tian wasn't an idiot, he knew that he seemed to have been tricked by someone.

"President Wu, I don't have any other skills, but I do have that kind of ability. Once it enters my stomach, I won't be able to come out. I can't give you this money. If you don't want to, you can go to court and sue me. I've already recorded the situation. "

Since Boss Wu was so arrogant, he couldn't care so much anymore.

Wu Tie was so angry that he was at a loss for words. He gritted his teeth while looking at Boss Wu and nodded.

"Alright, alright!"

After saying that, he turned around and left. Loong Yun glared at Boss Wu and followed closely behind Wu Tian.

Boss Wu was ecstatic. Not only did he get such a rare gift for nothing, he even got a hundred million in cash. He didn't lose anything.

This method of going back on one's word could even be introduced into a textbook.

"President Wu ..."

Loong Yun was furious as she watched Wu Tian leave. She wanted to go and persuade him.

"Investigate carefully for me. This matter can't just end like this!"

Wu Tian really didn't think that he would be bullied one day. The key point was that the person who bullied him was the boss of a company that sold male health products.

If it were in the past, Wu Tian would never have thought highly of such a company. Now that they were holding Niu Tengyun in their hands, how could they let Wu Tian suffer such a huge loss?

"President Wu, don't worry. I will definitely investigate everything that happened to them!"

This could be considered as a form of enmity between the two companies. Wu Tian was determined to give this company a huge blow.

On the way back, Wu Tian had already thought of a great plan.

This time, he took the initiative to look for Su Wenxin.

However, he didn't expect that when he knocked on the door, the Sect Leader would still be standing in Su Wenxin's room. He felt a little embarrassed to share his thoughts with Su Wenxin.

"What's wrong?"

Su Wenxin looked at Wu Tian, not knowing what he wanted to say.

"Um, Master Song, the two of us can go to the side ..."

Wu Tian tilted his head slightly and signaled Su Wenxin to talk to him.

Seeing this scene, the Sect Leader also understood.

"What kind of whispers do you two have for you to whisper behind my back? Are you afraid that I would hear it?"

"No, no, no. Sect Leader, please don't misunderstand ..."

Wu Tian quickly explained that he really didn't have any objections to this Sect Leader.

"Then you can say it here. My senior sister has a very good relationship with me, so you don't need to be afraid of her knowing what I have on me."

Since Su Wenxin had already said so, Wu Tian naturally could not insist on anything else.

"Well, actually, I hope you can do me a favor."

Wu Tian then gave a simple introduction of what had happened to Boss Wu and told her his plan.

After Su Wenxin finished listening, she nodded with a trace of disdain on her face.

"That's it? "Not a single bit of technology!"

The Sect Leader also responded from the side. Who knew what they did when they were young?

"That's right. Ten-odd years ago, we played much better than this ..."

Wu Tian wiped off the cold sweat on his forehead. He had thought that the guy would scold him. After all, using such a despicable method wasn't really suitable no matter how he looked at it.

But who would've thought that Su Wenxin and the Sect Leader didn't treat this as a challenge at all? They even felt that this matter was too simple.

"It's good as long as there are results. Thank you for your hard work!"

Wu Tian cupped his hands. The rest would depend on the two of them.

That night, a guest arrived at the bar which was the most luxurious in S City. Although he was dressed extravagantly, it was still impossible to conceal the oily, oily, and oily style of his body.

And this person was none other than the boss of the Wu family, who had just received a huge sum of money.

"I've been wanting to come here to play since a long time ago. I didn't have money in the past, but now I can finally use it to my heart's content!"

He had long since lost patience in his heart. Today, he could finally indulge in it. It could be said that he was extremely happy in his heart.

As expected, as soon as he entered the bar, two beauties immediately came to welcome him.

"Handsome, where are you going? Shall we both have a drink? "

Boss Wu looked at the two beauties snuggling beside him and immediately felt very satisfied. He waved his hand and called the bartender over without saying anything else.

"Bring me your best wine!"

He was quite magnanimous, ordering quite a few bottles in a row.

He wanted to show off in front of these two women.

"Hey hey, handsome brother, you're so magnanimous. I really like you."

The two girls kept stroking his body. Looking at this scene, it really made one feel as if their blood was boiling.

However, Boss Wu didn't know that the two beauties didn't come because of his charm. They had already been staring at Boss Wu from the beginning.

These two people were the Sect Leader and Su Wenxin. The two of them were dressed in the uniform of the nightclub and didn't look out of place. Furthermore, they had a unique air to them.
