## C997 Retribution

They were very surprised that Boss Wu would do such a thing. They never would have thought that this guy who was very cunning and only had money in his eyes would do such a thing.

Nangong Ying didn't know what to do. He had never seen such a scene.

"We can't guarantee anything about that ..."

Boss Wu immediately cried loudly. His tears came.

"I'm begging you, I'm begging you!"

Nangong Ying and the others looked at each other. In the end, they could only nod and agree to this matter first.

"Alright, I promise you this. Within five years, this company will definitely survive."

Nangong Ying didn't dare guarantee anything else, but five years was nothing for Wu Group Corporation.

"Great, thank you, thank you."

After getting such a reply, Boss Wu finally felt relieved. That way, he wouldn't have to worry about anything anymore.

Niu Tengyun looked at Boss Wu, and his expression started to relax. The two of them even looked at each other and smiled.

If Boss Wu got the money, he would be able to separate himself from the company.

After getting the legal person representatives and other documents, Nangong Ying and the others also excitedly prepared to return to the company.

However, what Boss Wu didn't notice was that before he left, one of the women gently sprinkled something on his body.

Of course, these small movements of hers were very slight. If one didn't pay attention, no one would notice.

"This matter is finally over. He wants to play with us, he is truly too inexperienced. If I were to tell him, we shouldn't have given him the antidote."

Nangong Ying was still blabbering on on on the way back.

"That's enough, President Wu also had his own considerations. Since he didn't seem like a complete bad guy in the end, then we don't have to be so ruthless with this matter."

Su Cancan slowly let out her voice. Earlier, she was among these people. This time, her mission was to cure the poison in his body.

The reason why Boss Wu's body was itchy was because he was poisoned by Su Wenxin and the others. Since the hospital could not find this poison, they naturally would not have the antidote.

And this poison that was specifically used to interrogate people, when used on Boss Wu, it really made him suffer a lot.

He had even lost several kilograms in the past few days. The effect of losing weight could be said to be exceptionally strong.

"But I haven't seen him suffer from an illness. Is it really that tragic?"

Nangong Ying was very curious about this. He only regretted one thing, and that was that he left too early.

Su Cancan looked coldly at Nangong Ying. She snorted from her nose ...

"If you want to try, I can get you some."

"No, there's no need."

Nangong Ying saw the torn clothes on Boss Wu's body. To be able to do this, it already showed how powerful this medicine was.

He had only looked at his symptoms, and he felt a lingering fear.

He went back and reported this to Wu Tian. This time, Wu Tian finally laughed.

"Very good, you have done well in this matter."

Wu Tian patted Nangong Ying's shoulder and praised him loudly.

Su Cancan rolled her eyes at Wu Tian and said snappily, "Well, what you did was not a good thing! If there is reincarnation in the Heavenly Dao, I think you will meet with calamity sooner or later! "

"Hee hee, you don't know about this. I am a man of good fortune and have never been taken revenge by the heavens. I want to know what is called retribution!"

Wu Tian was quite proud of what he heard.

As soon as she finished speaking, Loong Yun hurried over.

"President Wu, something bad happened ..."

The smile on Wu Tian's face instantly disappeared, while Su Cancan couldn't help but snicker.

"What bad thing? Don't speak carelessly ..."

"It's Xia Kejun. She's brought someone over."

Hearing this name, Wu Tian thought for a moment and suddenly remembered that valiant and valiant woman in military uniform.

It's her, but what's she doing here?

After a brief moment of thinking, Wu Tian froze. He remembered that he didn't seem to have gotten the metal back.

It should still be in Boss Wu's hands right now.

"Bad, bad ..."

Wu Tian frowned as he knew he had caused a disaster. However, he didn't tell anyone about this, so why would Xia Kejun know about it?

"That what? Loong Yun, send someone to investigate the location of that metal. Go and check if it's in Boss Wu's hands!"

Wu Tian quickly gave the orders and at the same time, he prepared to receive Xia Kejun.

This time, when Xia Kejun came, her expression was very serious. It was obvious that she was angry.

When she saw Wu Tian, she immediately walked over with large strides.

"I didn't even know you were here, how come you didn't say anything in advance ..."

Wu Tian had a smile on his face. Although he felt guilty, on the surface, he pretended that nothing had happened.

"Enough, Boss Wu. You don't have to say such words in front of me."

Xia Kejun wasn't an idiot, how could Wu Tian's little trick fool her eyes?

She took out a document and held it in front of her. She stared at Wu Tian with her bright eyes, making him feel scared.

"Explain it to me. The amount on it doesn't match up."

Wu Tian instantly broke out in a cold sweat. It really did look like what Su Cancan said it was. He had been punished by the heavens.

"This, is actually the case. We will inevitably lose a little bit during the transportation ..."

Wu Tian didn't know how he should explain this, so he could only casually lie.

"Is that so? But my statistics here, when the goods were delivered to your company, it was exactly the same as when we left the mine. That is to say, if it was to be lost, it could only be lost in your company. "

Xia Kejun was not a fool, and she was not so easily fooled. She had come here to investigate everything.

Wu Tian knew he wouldn't be able to escape this calamity, so he told her everything that happened.

That included what he had planned to do, who he had given it to, and now he was rushing to get it back.

Xia Kejun didn't express her opinion of Wu Tian's actions, but her expression was still very serious.

"If you bring this thing back and make up for our losses, I won't hold you accountable for this matter. If you fail, you will suffer the consequences!"

## **Hidden Billionaire Chapter 998 - Another Murder**

### **C998 Another Murder**

Speaking of which, the most annoying thing about Wu Tian since he was young was that he was responsible for the consequences.

Because he always felt that the person who said those words was using his power to bully others.

Wu Tian felt the same way now, but he couldn't say anything. Xia Kejun had the entire military behind her.

What could Wu Tian do in front of the military? However, what the other side did was not wrong. Wu Tian shouldn't have just given it away.

According to their previous agreement, every single piece of metal had a specific target and plan for its usage and usage, and needed to be approved by Xia Kejun and the military.

If Wu Tian wanted such a thing, regardless of his purpose, he should have received an application for it.

Only by doing this can he be used, but Wu Tian didn't do so. He broke the rules first, so he can't blame others for punishing him with the rules.

"I'm sending people to chase them right now!" He swallowed his saliva. Now, all he could do was to place all his hopes on Loong Yun.

And on Loong Yun's side, she had already brought the Security Team personnel on a helicopter to their destination.

At this moment, they didn't care that their actions were too overbearing. The most important thing was to get this metal back.

"They have a live broadcast. Come and watch it with me!"

Wu Tian continuously expressed his goodwill towards Xia Kejun because he hoped that she could temporarily stabilize his emotions.

Seeing Wu Tian like that, Xia Kejun no longer said anything and nervously looked at the big screen, because what was displayed on the screen was the recorder that the security guards were carrying around with them.

At this time, they seemed to have arrived at Boss Wu's residence and were searching inside.

However, logically speaking, Boss Wu should be home at this time, but none of them saw this person.

"How strange ..." Wu Tian muttered on the side. He had a bad feeling about this.

"Why haven't we found it yet?"

Xia Kejun started to become a little anxious because half an hour had already passed since their operation started. All of the Security Team s were rummaging through their boxes, but they couldn't find anything.

"That shouldn't be the case. I'll hurry them up! "

Wu Tian quickly called Loong Yun, but the answer he got was that their progress was still slow.

It was at this time that a Security Team member suddenly ran over from afar, panting as he said to Loong Yun: "Secretary Loong, we discovered something amiss over there."

The moment he said this, not only Loong Yun, who was at the scene, but also Wu Tian and the others who were watching the fight from here, all became very nervous.

"What's going on? Bring me there quickly!"

Hao and a group of people rushed to the abnormal scene that the Security Team attendant mentioned, and discovered that this was a storage room that had not been opened in a long time.

"There seems to be some blood smell inside. My sense of smell is quite sensitive. I feel that there must be something inside ..."

Before the Security Team Enforcer finished speaking, everyone started to become nervous.

Wu Tian looked at Xia Kejun and noticed that she was frowning. She knew that what happened next would probably cause a lot of trouble.

"Quick, open it and take a look!"

The order Wu Tian gave them, the few of them easily opened the door. However, they didn't expect everyone to look at it and were instantly stunned.

In this storage room, there was a corpse directly opposite the door, and blood was flowing all over the floor.

Loong Yun walked up to take a look and realized that the dead person was the target she was looking for, Boss Wu.

She went up to check his pulse. Boss Wu was dead but his body was still warm.

It should only be an hour since the death of Boss Wu. In other words, before the arrival of Security Team, Boss Wu was just killed.

"Quick, take a look and see if that Uncle Jin is still around!"

At this time, Wu Tian hurriedly reminded Boss Wu. Although Boss Wu's death surprised him, more importantly, the metal could not fall into other people's hands.

Boss Wu's sudden death clearly showed that there were people still staring at this thing.

However, there was no way to find out who was monitoring them.

"What exactly is going on? You better explain it to me tomorrow!"

Xia Kejun felt that she didn't need to watch those videos anymore, so she set her gaze on Wu Tian.

"I've already said it, it really wasn't intentional."

Wu Tian also felt wronged. He did not expect Boss Wu to be killed by someone. Could it be that from the very beginning, someone had already set their eyes on their actions?

Xia Kejun knew that there was no point in blaming him. She turned around and said to her guards, "All of you, go back quickly and bring back this news! I'll stay here and see if I can find it. "

The two soldiers behind nodded and turned around to leave. What was left was Xia Kejun and Wu Tian.

"Let me think carefully. Recently, no one came into contact with us. "How do they know about this? You know that I made this gift in top secret ..."

The existence of this metal within Wu Group company was something that not many people knew.

"You must quickly investigate this matter for me! If there's a big problem, we won't be able to handle it. "

With Xia Kejun's reminder, Wu Tian's attitude was no longer unclear. He also knew that the most important thing for him to do now was to investigate.

Loong Yun and the others immediately started to investigate the area, while Wu Tian was investigating the area to see if he could find any clues.

Because the small box containing the metal was missing, it meant that the other party must have taken it away.

Then, Wu Tian wasn't too sure what kind of person did it either.

Wu Tian didn't even have a clue. However, when he thought about the disappearance of the body, he immediately had a thought. Were these two matters related?

Thinking of this, he quickly turned on the satellite footage and started searching for the records.

As expected, a figure that was almost the same size as the mysterious man appeared near Boss Wu's home. From the video, the mysterious man's speed was obviously no slower than the mysterious man's.

"I might know." Wu Tian immediately noticed something and stood up.

Seeing him like that, Xia Kejun also followed closely behind him, wanting to see what Wu Tian had learned.

### **C999 Beginning of Cooperation**

Seeing Wu Tian so excited, Xia Kejun did not know what had happened to her. She actually hoped that Wu Tian could find some clues.

Wu Tian hurried to the underground area. Before, Wu Tian only built three floors and was ready to use it as a warehouse.

It had now been completely transformed. The bottom floor was now as tight as a prison because of the captive mysterious man. Now, Wu Tian and the others had given this person a name, "Number One".

There was a sense of scientific research here. This project was personally decided by Wu Tian.

After getting on the elevator, Wu Tian realized that he seemed to have forgotten something. He looked around and realized that he didn't seem to have blocked Xia Kejun's path.

Wu Tian didn't report what had happened. The military didn't know, but now that Xia Kejun was in the elevator, it was impossible for Wu Tian to kick her out.

"What's wrong with you? You look very nervous!" Xia Kejun looked at Wu Tian. She felt that he was a bit strange. His body seemed to be trembling slightly.

"Nothing, nothing, I'm just a little cold!" Wu Tian Qiang wanted to hide his nervousness, but in the end, his voice started to tremble.

The more Xia Kejun looked at Wu Tian, the more suspicious she felt him. However, she didn't have any evidence so she could only turn a blind eye.

"Where are you going ..."

Wu Tian swallowed his saliva. He knew that he could only let her know the truth. He looked at Xia Kejun with a serious expression.

"In a while, you might encounter a very confidential matter, so I hope you won't be surprised!"

Xia Kejun was not at all scared or surprised by Wu Tian's words. She was completely indifferent.

"No need, I'm a soldier!"

Wu Tian didn't say anything after hearing her words. After they got off from the elevator, they directly arrived at an extremely heavily guarded place.

This place was tightly guarded, and in a short corridor, there were actually dozens of Security Team practitioners arranged.

They all had weapons in their hands, and not the non-lethal ones, but the real guns.

When Xia Kejun saw this scene, she glared fiercely at Wu Tian.

"You are just a company, you are not allowed to hold weapons, you are breaking the law!"

Wu Tian seemed to know that she would say that, so he smiled bitterly, "When you understand the situation, you'll know why I did it."

Xia Kejun had no idea what Wu Tian was talking about, but she started to get nervous. Who knew what kind of disaster this guy had caused?

"Open it, I want to go in." Wu Tian said to the Security Team s who were guarding the gate. The door in front of them was extremely heavy. It didn't look like it was meant to hold people, even a blue whale would be enough.

When she really had to go in, Xia Kejun started to hold her breath. This atmosphere made her feel a little heavy, but she was still relatively calm.

To Xia Kejun, such a small scene was nothing.

As the heavy door closed behind her, Xia Kejun could clearly see a structure inside. What was different from what she had expected was that the inside of the cell was not a prison, but more like a bird's cage.

The outside layer was a huge metal cage made of metal. However, inside the cage was a bed, cabinet, television and other similar facilities.

"This is?"

Xia Kejun didn't see the prisoners. She didn't know who this place was for.

"Number 1, are you there?" Wu Tian shouted towards the inside. At this moment, a young man, who looked a bit shy, stood up from the inside.

"Hi ..." Number 1 was still not familiar with Chinese, but Wu Tian's English was still pretty good.

"Foreigners?" Xia Kejun was even more confused now. She couldn't figure out what Wu Tian was doing.

"Yes and no, he is not an ordinary person." Wu Tian smiled at this # 1 and waved at him. Previously, when they asked, they realized that this guy was only 12 years old.

However, his body was already as strong as it was in his twenties. Wu Tian immediately realized that he could communicate better with this # 1, so he stopped all the harmful research and started to bring him these life and entertainment items. He tried to befriend # 1.

"Come on, show this sister your abilities!" After hearing Xia Kejun's words, Number One was reluctant to move, but he teleported right in front of Xia Kejun and took her hat.

Xia Kejun was shocked by this move. Although her expression didn't change, her eyes betrayed her feelings.

"You know what? Our # 1 is a very fast person. From the preliminary analysis of our research, he is a genetically modified human." Wu Tian explained with a hint of sadness in his voice. To be honest, he felt pity for Number One. This was because he didn't know anything at all, but someone else had decided his entire life for him.

He wasn't a resource that could be used as a tool by those bad people.

"I will report this matter to the military." After a moment of shock, Xia Kejun immediately took out her phone to record the recording.

"I know, the reason I didn't inform you guys about this is because I'm worried that you guys would do something too extreme. But now, there should be some people outside who are his companions, and I don't think I can do it alone."

At this time, Wu Tian stopped hiding. He didn't come here to play with this Number One.

"Do you know these people?" Wu Tian showed the video he got to Number 1.

"This, my companion ..." Number 1 gestured arduously, but it was already a huge improvement for Wu Tian to get the news.

"Things have started to get serious, I need your help this time!" Wu Tian looked at Xia Kejun with a grave expression. He suddenly felt that it was the right decision for Xia Kejun to come.

This time, it would definitely not be easy to capture the rest of the genetically modified humans. Therefore, it was impossible to rely on Wu Tian's own strength alone.

## **Hidden Billionaire Chapter 1000 - Transfer**

### **C1000 Transfer**

Xia Kejun was no fool. She immediately realized the seriousness of the situation and ran out to tell her superior.

Very soon, this matter received a lot of attention from the military. A large group of helicopters began to descend from the Flower Island. In the sea, so people are already used to planes landing here.

Wu Tian's face was full of worry. He didn't know what to do in this situation. Would it be a good choice for him to involve the military?

But now, Wu Tian couldn't do anything against these mysterious people.

Just one or two people. Maybe he could catch them.

However, based on the current situation, their numbers were still an unknown number.

He looked over to where a group of uniformed soldiers were busying themselves. They had already taken over the entire underground facility of the 3rd floor.

Wu Tian withdrew his Security Team. Of course, at this time, he couldn't let the army see the weapons in his hands.

Wu Tian continued to communicate with Loong Yun's side. He waited for them to come up with something.

After searching for a long time, they still couldn't find any direct evidence. They had now completely sealed off Boss Wu's residence, searching for any possible clues.

In short, the most important thing right now was to find these people and prevent them from causing even more damage.

The military seemed to have made a quick decision. Xia Kejun quickly found Wu Tian and told him the military's decision.

"We decided to transfer this person. "It's not safe here, and ..." At this point, Xia Kejun started to stutter.

"What, and what?"

"It's like this. If the military wants to lure the enemy out, we have to take the initiative."

Xia Kejun said slowly. She didn't seem to plan to discuss this matter with Wu Tian, but just told him their decision.

Wu Tian thought about it for a while. This wasn't a bad thing for him. The military's way of doing things was understandable.

From their point of view, they definitely would not allow such a powerful enemy to appear in their homeland. So finding them and eliminating them was the most important thing in the first place.

"No problem, I will do everything I can, but I have a request. You all must treat Number One as a human being, even though it is a little special ..." But he is also human! "

Wu Tian thought about it, but he still told her about it. Xia Kejun didn't expect Wu Tian to say something like that. She was stunned for a moment, but she still nodded and agreed.

"Don't you worry about that. Don't you know the style of our army?"

With that, Xia Kejun turned around and left. Soon, two cars drove out from the underground facility.

Although they say that we are going to move, we shouldn't make such a big fuss, because that would be like telling the enemy what we are doing.

When the two cars arrived in front of Wu Tian, Xia Kejun rolled down the window and waved at him.

"Do you want to come up and join us? After all, this is one of yours. "

Wu Tian looked at Xia Kejun, then looked at number 1 on the back seat of the car. He nodded, opened the car door, and jumped in.

"Is that really going to work? Aren't you going to arrange for other people to protect these two cars? If something happens, it'll be troublesome. "

The strength of the enemy had shocked Wu Tian. He was very clear that they were too weak compared to those who had undergone genetic modification.

"Don't worry, everything is ready. We will just have to wait patiently."

Xia Kejun seemed to have been prepared. Her expression was subtle, as if she had already thought of something.

Seeing her like this, Wu Tian didn't say anything more. Their car quickly drove away from the Flower Island, and their goal was a military base in the outskirts of the S City.

They would pass through most of the areas within the S City. It could be said that it was quite dangerous.

But in Xia Kejun's words, it was easier to hide in the city. The more careful they were, the easier it would be for others to find them on those remote paths.

On the contrary, there are so many cars in the big cities. It was extremely difficult for the enemy to lock onto their position.

Wu Tian also felt that what she said made sense, so he turned around and looked at his condition, which was pretty stable.

He was enjoying himself in the back seat. No matter what, this 1.8m tall boy had some simple children's toys in his hands, which made people feel funny.

However, there was a bloody truth behind this. This was a person who was forced to undergo transformation. It was not necessarily a good thing.

At least, other than Wu Tian, there was no one else who treated it as their own. Perhaps he was still too young to understand these things, but when he grew up, he would realize what a terrible estrangement this was.

"Our team is not limited to just these two cars. At the same time, there are also several disguised teams that are in the same configuration as us. They are moving along other roads."

Xia Kejun spoke to him with a smile after she busied herself with the walkie-talkie for a long time. It seemed like she was very confident.

Suddenly, the car came to a screeching halt. The screeching sound of the brake disc pulled everyone's thoughts back to reality.

"What's the matter?"

Wu Tian shouted nervously. He thought he was attacked by the enemy, but after waiting for a while, he found that it was very quiet.

"It seems that someone fell down in front of our car."

Xia Kejun was extremely calm and collected at this moment. Her expression didn't change at all, nor did her heart skip a beat.

She didn't get out of the car but asked the driver to come down and have a look. It was only when she was in the car with Wu Tian that she realized someone had fallen down in front of the car.

The driver went over and helped him up. This person was even a white man. He politely nodded to the driver.

At this moment, Wu Tian's phone rang. He picked it up and saw that it was Loong Yun.

"What happened? Did you get any results from your side?"

"President Wu, I just investigated our S City's entry and exit information and found the information about Number 1. At the same time, we captured a scene like this."

With that, Loong Yun sent a picture to Wu Tian.

Wu Tian opened it and took a look. It was a scene of a few people appearing in the airport, and one of them was # 1.

Beside him were a few guys with similar white faces, although they all looked kind. However, Wu Tian and these people definitely didn't think that the white man's appearance was meaningless.

"Why does this person look so familiar ..."

Wu Tian looked at the photo. He always had the feeling that there was someone in the picture that he seemed to have seen here.

But he couldn't remember, so he showed the photo to Xia Kejun. Xia Kejun glanced at it and suddenly raised her eyes to look at the person who was talking to the driver in front of the car.

That person was a white man, and he matched up with one of the faces in the photo!

Shit, they're going to rob the car!
