

Chapter 264 Break Up

Chu Xiaoxiao was smiling and giggling, pretending to be happy as she checked in and dragged me upstairs.

We entered the quiet room one after the other. When I saw the big bed, I could not help but hope that something would happen.

This was human nature. No man would not have such thoughts.

I was afraid of overthinking everything and set to preparing the sofa as my bed. Eventually, Chu Xiaoxiao grabbed me by the collar and sniffed. "You stink, go and shower."

When she leaned in, I felt overcome with nerves and the hair on my arms stood on end. I scampered off into the bathroom, worried that if I moved any slower, I would not be able to control myself and ravage her against the wall.

When I exited the bathroom after my shower, I heard Chu Xiaoxiao grumble, "Damn, no change of underwear. Forget it, I'll go without."

Oh. My brain seemed to have exploded, leaving me bright red and dazed. The splashing sounds of Chu Xiaoxiao in the shower filled my brain with thoughts of her smooth skin and shapely body.

No, this line of thought was going to give me a nosebleed. I had to find something else to distract me.

I did not know what my brain was thinking when I fished out the condom in my pocket.

To be honest, I only wanted to see how to use it. I had never used one before. Even if I did not use it tonight, I would one day.

I flipped it over to read the instructions on the back. The information was interesting. I learned that the contraceptive success rate was only ninety-seven percent, not a hundred...

"What are you looking at?"

I was so distracted that Chu Xiaoxiao's question took me by surprise. I wanted to hide the condom, but it was too late.

Because when I raised my head and saw her, I dropped the condom.

Chu Xiaoxiao was only wrapped in a towel. The towel was very short, just about covering her breasts to the tops of her thighs. Her assets threatened to overflow on top, and down below, a slight movement and she would expose herself.

I recalled that she was not wearing anything underneath.

"Hey, what are you looking at? You rogue."

Chu Xiaoxiao came over in her towel and bent down to pick it up, smiling.

My brain was buzzing. Who could resist?

I did not seem to be in control of myself, but just then, my nose itched and two lines of blood dripped out of it.

Chu Xiaoxiao was shocked and helped me stop the bleeding with a tissue.

I was not unfamiliar with nosebleeds, and looked up, pressing the backs of my ears with my hands. In no time at all, the bleeding had stopped. I looked at the bloody tissue in my hand uneasily. I had not imagined that I would be the one bleeding tonight.

After the commotion, the earlier atmosphere had mostly dissipated. I reminded myself once again not to take advantage of the situation. This was not the time to mess around. I had to respect the woman I liked.

I said, "Let's sleep. Today has been tiring. Don't worry, I won't touch you."

Chu Xiaoxiao looked stunned, then she frowned and turned away from me. She lay down in the bed and switched off the light.

It was pitch-black in the room. I lay on the sofa and fidgeted, unable to sleep. I kept wondering if I was an idiot.

What if Chu Xiaoxiao was in a bad mood and wanted to do something relaxing? Besides, she looked like she was disappointed, so it seemed that she wanted to.

The sofa was short and my legs did not fit. It was uncomfortable to sleep on. I really wanted to lay on the bed. Even if we did not do anything, holding her to sleep would be good. But because of what I had said earlier, it would be very awkward of me to crawl into the bed right now.

It was very quiet in the darkness and there was only the sound of our breathing. I listened to the sound and breathed in her scent. The desire in my heart grew and I tensed, wanting to vent on something.

"Are you asleep?" Chu Xiaoxiao asked all of a sudden.

"I... No."

Chu Xiaoxiao hesitated, then huffed impatiently. "Idiot."

"What?"

The word had only just left my mouth when I heard her get out of the bed and come onto the sofa, sitting on me. My brain went into overdrive, and I unthinkingly grabbed hold of her.

Chu Xiaoxiao's hands were all over my neck and face. She pressed her body against my palms and leaned toward my ear making the most inviting sounds.

I lost control and flipped her around, holding her down onto the sofa as I loomed over her.

Chu Xiaoxiao had only been wearing a dressing gown with a belt at the waist. I undid it in two shakes of a cat's tail.

At this point, I wanted release. My eyes and face were both red. Chu Xiaoxiao hugged me tightly and trembled.

"Come on," she whispered in my ear, "Make me your woman."

No man could resist such words. I kissed her repeatedly on the face and neck, soothing her nerves.

Her face was damp with what seemed like tears, and she whispered half to herself, "Even if we can't be together in the future, you're going to be my first."

I stopped moving and the fire in my heart rapidly quenched itself. Why was she suddenly saying this?

"What's wrong? Xiaoxiao, tell me what's going on. I can help you. Whether it's investments for your father or anything else. I'll pay any price."

I was frantic. How could I be in the mood for anything else? Chu Xiaoxiao was obviously getting ready to break up with me.

My teeth ached as I grit them. I had never felt so anxious before, even in life and death situations on the battlefield.

Chu Xiaoxiao sobbed harder, covering her face with her hands. "Don't ask. I don't know how to tell you. You can't help me. Just don't forget me when we break up in the future."

I was almost panicking. "What are you talking about? What break up? Chu Xiaoxiao, you're different from Lin Fang, I'm not going to break up with you. Don't think you can just dump me and run away. If you break up with me, I'll follow you everywhere you go."

I could see a red tinge color my vision as I spoke.

I really meant it. She was different from Lin Fang. When Lin Fang left me, I felt bad, but I could still wish her all the best in her future. Not for Chu Xiaoxiao. If she were to leave me and be with another man, I did not know how I could bear it. I could hardly bear the thought of someone else having her.

I sat up in the bed and switched on the light. Then, I bundled Chu Xiaoxiao up in the blanket, wiping her tears and coaxing her.

"What's going on? Please tell me. Even if you want to break up with me, at least give me a reason."

Chu Xiaoxiao wept. "I don't want to break up with you. But my father will use my mother to force me."

"What happened to your mother? You never mentioned her to me."

"She's ill." Chu Xiaoxiao bent her head sadly.

"I can spend money to cure her," I said, "I can get the best doctors in the world."

"It's no use. Only my father can cure her. If you really want to know, I'll bring you to see her next weekend."
