

When His Eyes Opened by Simple Silence Chapter 1706

Elliot calculated by time, Avery has now arrived in Bridgedale.

–Why is her phone still not working?

–Shut it down, or block him?

“Mom...” On the stretcher, Layla burned in a daze, muttering in a low voice, “Mom brother...don’t go...don’t leave me...woo woo...”

Elliot looked at his daughter’s painful little face and whispered, and tightened his fingers on the phone.

–Why is Avery so cruel?

–She was just cruel to him, how could she be so cruel to the child?

–Does she plan to cut the child off?

–She suddenly became so unfamiliar to him!

–He couldn’t help but wonder, did he really make a big mistake?

Elliot dialed Avery’s number again, and got the same response just now.

It seemed that she didn’t plan to contact them again.

When the ambulance arrived at the hospital, Layla was pushed out of the car and had her temperature taken.

At home, her body temperature did not exceed 38.5 degrees but now, her temperature has exceeded 40 degrees!

The doctor immediately prescribed Layla’s fever-reducing medication.

Elliot went to buy medicine for Layla to take, and then the doctor handed him two lists.

“Go get the medicine, infusion.”

The bodyguard took the order and went to pay the bill.

Elliot took Layla into his arms.

Layla's body was shaking, sweat was all over her forehead.

She was like a fireball, blazing brightly.

After the bodyguard brought the medicine and the nurse gave Layla an injection, Elliot's tense heart relaxed.

This was the first time in his memory that Layla had a high fever.

Before Avery was there, the child was by her side, and she was well taken care of. Even if there was a minor illness or pain, she could help the child heal without going to the hospital.

Now as soon as Avery left, the child was sick, as if it was God's punishment for Elliot.

After about half an hour, Layla started to sweat like crazy.

Her hair was wet and her clothes were soaking wet.

Elliot went out in a hurry and did not bring clean clothes and tissues for the child.

After a while, Layla's fever subsided, and she was a little cold from sweating too much.

It's four in the morning.

Elliot asked the bodyguard to buy tissues and water nearby.

After Layla's fever subsided, she fell asleep peacefully in his arms.

Although the daughter is not noisy now, her brows are still wrinkled.

Elliot was very afraid, if his daughter woke up and found that he had not contacted Avery, and found that she still had to stay by his side, would she continue to make trouble.

–Can her body stand up to such a commotion?

Elliot held his daughter in one hand, opened his mobile phone with the other, and sent Avery a message: Avery, Layla has a fever. Just took a temperature of 40.5 degrees. I didn't take good care of her. Maybe she's following you. She already has her own thoughts and opinions, and she needs you and Hayden. Avery, can you not be so cruel for the sake of the child? D*mn me, but the child is innocent. You said before that you will raise the children with me."

After sending the message, he knew Avery would not reply, but he still turned on his phone from time to time to see if there were any new messages.

Before Elliot knew Avery, he had never been so humble. But now, doing such a thing, he doesn't feel unaccustomed at all.

Because he and Avery have known each other for all these years, he has confessed, repented, apologized, and begged her to forgive her more than once.

Sometimes Elliot begs Avery, she will be soft-hearted, sometimes she won't.

He had a very strong premonition in his heart that Avery would ignore him this time and would not come back. Even, the two of them will never meet again in the future.

When His Eyes Opened by Simple Silence Chapter 1707

After Layla's general check-up was finished, the doctor prescribed some medicine to eat.

When they got home, it was 4:40 in the morning.

The door of the villa was open, and the lights in the living room were bright as day.

After Mrs. Cooper coaxed Robert to sleep, she kept waiting in the living room.

Seeing Elliot coming back with Layla in his arms, Mrs. Cooper immediately greeted him.

"Layla's fever has subsided. I need to wipe her body and change her clothes." Elliot hugged Layla and went back to the room.

Mrs. Cooper replied, "Sir, go back to your room to rest. I'll take care of Layla. Otherwise, when Layla wakes up and sees you, she might cry again."

Elliot looked at his daughter's pale and haggard sleeping face, murmured in a hoarse voice: "Should I not want Layla's custody?"

"You like Layla, and if Layla lives by your side, you will definitely treat her very well. She is not used to it now, so she will get used to it. That's good. But it will take some time to adjust." Mrs. Cooper said, "When Robert is older and can play with her, she will feel more attributable."

"But if my daughter keeps crying like this, I will definitely suffer. No." After what happened tonight, Elliot was exhausted, and his inner persistence was completely destroyed.

If he can contact Avery now, he may send Layla directly to Avery.

It's a pity that Avery's phone can't get through, and sending messages is also in vain.

In fact, he can call Mike and let Mike convey his meaning, but he is unwilling to do so.

This is a matter between him and Avery. If Avery keeps avoiding him, he will not contact her through others.

Elliot wanted to see how hard her heart was!

"Sir, why don't you go back to your place for a few days first! You can meet again when Layla's mood calms down a little." Mrs. Cooper suggested.

Elliot hesitated again and again, and said, "We'll see how Layla is doing in the morning."

Mrs. Cooper: "Okay. You go to rest first."

Putting Layla on the bed, Elliot came out of the room and returned to the master bedroom. He kept his eyes open until dawn. He tried to close his eyes and force himself to sleep, but he had a splitting headache and couldn't sleep.

There was clearly Avery's breath in the room. He couldn't sleep, so he got out of bed and opened the closet.

Her clothes, bags, shoes, and all kinds of jewelry were still there.

Except for her people gone, she didn't move anything else at all. It's as if she's just going on a trip, not saying goodbye.

If it weren't for the intense heartache reminding him that she was gone, he would really suspect that everything was a nightmare.

At 6:30 in the morning, he went to the bathroom to wash up.

After a little sober, he picked up the phone and turned it on.

Avery didn't call him back or reply to his messages.

He read the message he sent last night in his mind.

....

Bridgedale.

Ten hours after Avery's operation, she couldn't sleep because of the pain.

Mike stayed by the bedside the whole time. It was really painful to see her tossing and turning, so she made up her own mind and asked the nurse to add painkillers to her anti-inflammatory medicine.

When the painkillers entered her body, the pain sensation quickly subsided.

She suddenly felt light, and drowsiness followed. After she breathed evenly, Mike breathed a sigh of relief.

Mike was going to rest for a while in the escort bed next to him.

At this moment, the phone she put on the cabinet rang.

Mike picked up her phone and saw a system alert: The phone battery is low.

He took out his charger and charged her phone.

Out of curiosity, he turned off her phone's airplane mode. Suddenly, Elliot's missed calls and messages came out.

When His Eyes Opened by Simple Silence Chapter 1708

Mike read the text message he sent several times, but didn't understand what he meant.

Does he want to give Layla's custody to Avery, or does he want Avery to go back and live with him again?

What he meant between the lines was ambiguous and puzzling.

Mike lay down on the escort bed holding Avery's mobile phone. After hesitating for a while, he texted him back: [Are you willing to give me the custody of Layla?]

After the message was sent, Mike kept an eye on his phone, waiting for a reply.

If Elliot is willing to give Layla's custody to Avery, Mike can promise not to scold him in the future.

About ten minutes later, Elliot's message came back: [your daughter is ill, you don't care about her current situation at all, you only care about her custody.]

Seeing this reply, Mike was so angry that blood rushed to his head, and his fingers quickly typed on the screen: [Whose fault is Layla being sick? It's you! You didn't take good care of her, what right do you have to accuse me?]

After typing this string of text, Mike took a deep breath and pressed the send button.

If Avery hadn't seen things now, he wouldn't have dared to impersonate her with her mobile phone.

Elliot saw 'her' reply and was heartbroken.

He wanted to have a good talk with her, but she didn't mean it.

Still, he wanted to have a good chat with her about Layla.

He was afraid that she would not answer the phone, so he sent her a message: [Let's talk on the phone about Layla!]

When Elliot edited the text message and was about to send it, Mike yawned sleepily. Because he didn't receive his reply immediately, Mike turned off Avery's phone.

Before Avery's eyes returned to light, she couldn't use her mobile phone.

The doctor said she was going to recuperate, so her phone didn't need to be turned on.

Elliot sent the text message, and after about two minutes, he dialed her number.

——Sorry, the user you dialed has been turned off, please try again later.

His face suddenly turned ashen!

He had made it so clear in the text message that he called her for Layla's business, but not only did she not reply to his messages, she even turned off the phone to avoid his calls.

Avery almost said: don't bother me!

Although she didn't say this, her actions deeply hurt him.

Layla slept until noon and woke up.

After she woke up, Mrs. Cooper immediately poured medicine for her to drink.

Layla sat on the bed and looked around.

Seeing herself in the room, she remembered the scene when her mother and brother left.

“Layla, do you remember your high fever at night?” Mrs. Cooper saw that Layla was a little confused, so she said, “Your fever reached 40 degrees, and your father took you to the hospital. You still have needles.”

Layla was not impressed. All she knew was that she was powerless and uncomfortable.

“He promised to take me to my mother’s place.” Layla vaguely remembered that her father had agreed to her request.

“You drink the medicine first, your father is resting. When you finish the medicine, I will call him.” Mrs. Cooper said calmly, “Layla, no matter where you live in the future, I hope you are healthy. How uncomfortable it is to be sick. Not only you are suffering, but your parents are also suffering.”

“I have been living with my mother and brother since I was born, and I can’t be separated from them.” Layla opened her bright apricot eyes and said seriously.

Mrs. Cooper frowned, “Well, tell your father well, don’t quarrel with him. You don’t know how sad he was when you said you didn’t want him last night. It’s hard to say who is right and who is wrong about their affairs. You’ll know when you’re older.”

Layla finished drinking the medicine, and Mrs. Cooper went out with an empty bowl.

After a while, Elliot entered the room. He closed the door and walked over to Layla’s bed, looking at his daughter’s weak face.

“Layla, I called your mother, but she didn’t answer.” Elliot explained the matter to his daughter truthfully, “I sent her a message, but she replied.”

Layla looked at him intently.

“I told her, let’s talk about you on the phone, but she turned off her phone again.”

In order to make her daughter believe what she said, Elliot handed the phone to Layla.

When His Eyes Opened by Simple Silence Chapter 1709

Layla took his mobile phone, opened it skillfully, and saw the messages they exchanged.

“Layla, your mother refuses to talk to me now, including about you.”

When Elliot said this, Layla's finger dialed Avery's number.

In an instant, an icy system prompt sounded.

"Mom doesn't answer your call, she will definitely answer my call!" Layla returned his mobile phone to him, then found her own and dialed Avery.

she listened same system prompt tone.

Layla burst into tears.

Elliot took her into his arms: "Layla, don't cry. Dad will take good care of you and your brother. Dad will work harder to be a good dad."

Layla instinctively wanted to push him away, but she knew clearly that now There is no one else to rely on except her father.

So she didn't exert much effort.

The summer vacation has not yet started, although Layla is sad, but staying at home makes it easier for her to think wildly.

So she went back to school after a day off at home.

As for Robert, the departure of Avery and Hayden did not have much impact on the little guy's life.

As long as there is an acquaintance around to take care of him, he can live in peace.

After all, there are some food, some drink, and some people to play with every day, that's enough.

After Layla went to school, Elliot took a day off at home.

After regaining some energy, he reconsidered his thoughts in his heart.

Avery and Hayden left. Probably won't come back in the future.

Layla and Robert stayed by Elliot side. According to the current situation, as long as Avery didn't take the initiative to come to Layla, Layla should be able to live by his side with peace of mind.

As long as he completely crossed out Avery's name in his heart, his life could get back on track.

It's just that some things are easier said than done.

In order to match the living habits of Layla and Robert, he now accompanies the children to live in the Starry River Villa.

And this is Avery's villa.

In this house, there is Avery's shadow inside and out.

No matter what Elliot does here, he can always think of Avery's face.

After coming out of the villa, Elliot went to the Third Hospital.

He feels like he hasn't visited Shea's child for a while, and he doesn't know how that little guy is doing now.

In the laboratory, Wesley and Shea were both there.

Seeing Elliot coming over, the two of them were a little surprised.

"Brother." Shea walked to Elliot and pulled his arm.

After he and Avery divorced, Shea wanted to see him very much, but Wesley told her not to go.

Wesley was afraid that if she went, not only would she not be able to help, but instead it would make the chaotic home more and more chaotic.

"Well, how is the child?" Elliot asked Wesley.

"Everything is normal now." Wesley replied.

Elliot: "That's good."

"Is Layla okay?" Wesley asked, "You can send her to our house and let Shea stay with her for a few days."

Elliot: "I'll ask her on the weekend."

Wesley: "Well."

"Wesley, Avery stayed in the hospital until she left. You two meet every day. Did she tell you anything?" Elliot asked unwillingly.

When His Eyes Opened by Simple Silence Chapter 1710

Wesley looked at his face, hesitated for a few seconds, and said, "She asked me to take care of Shea."

Elliot: "Besides that, did she say anything else? Did she say anything about me?"

"No." Wesley's answer made Elliot cut off all thoughts.

After Elliot left, Shea looked at Wesley and stared at his face.

"You have a bad attitude towards my brother." Shea expressed her feelings.

Wesley was usually a gentleman and polite, but he was a little cold to Elliot just now.

Wesley didn't argue: "Elliot obviously knows everything. If it wasn't for him who hurt Avery's feelings, how could Avery divorce him? He can't find Haze now, and wants to make up for Avery, it's too late."

Shea: "There's something wrong with my brother, Avery can blame him, but don't say that about him. He's one of the best people in the world to me."

"Well, I'll pay attention to my attitude next time." Wesley said.

Bridgedale.

After Avery stayed in the ward for three days, he really couldn't stay, so she asked Mike to help her out of the ward and walk outside.

She was getting used to seeing nothing now, and she had gradually overcome that fear.

"The sun is so good."

After Mike helped her downstairs, she was bathed in the sun and stretched out a hand, as if she could hold the warmth in her palm.

"I can take you out for a walk every day. When the sun is out, let's bask in the sun. When it's raining, we can walk in the rain." Mike looked at the smile on her mouth and spoke to her.

Avery: "Forget it if it rains."

Mike: "When it rains lightly!"

"Um... Mike, is Hayden still getting used to school? Have you contacted Layla? How is Layla? Where's Robert?" Avery hasn't contacted her children these days.

She also wanted to contact the child, but after the operation, her eyes were sore, and she used to contact her child through video call every time.

She looks like this now, and doesn't know how to communicate with the child through video call.

"Hayden is okay. As for Layla, I plan to contact Layla when you are discharged from the hospital." Mike explained the reason, "I'm afraid that Layla will get emotional and you will feel uneasy. Avery, put the child aside for now, you should take good care of your illness first. When you are healed, you can do everything you want to do."

Avery gritted her teeth silently, swallowing all her thoughts and reluctance.

"By the way, there is something I want to ask you," Mike took her to a stone bench to sit down and rest in the shade. "What do you plan to do with your domestic company? When you divorced Elliot, you talked about it. Do you have this problem?"

Avery: "No. What Elliot and I care about most is child custody. In terms of property, I am mine and he is his."

Mike asked, "Oh, then do you want to transfer your equity? If you don't quit, you and Elliot will inevitably have the possibility of entanglement again in the future."

Avery hadn't thought about this issue. But this was indeed a problem.

Now that Mike mentioned it, she started to think.

"I'll quit!" After thinking for a while, Avery said, "My equity is given to him. Treat it as child support."

Mike couldn't help laughing: "Yes! But if Elliot heard you say that, he would definitely pissed."

"I don't care what Elliot thinks." Avery looked cold, "I used to care about the Tate Industries, and I thought that by defending the company, I was defending the Tate family in my heart. So he thought that if he controlled my company, he could control me. In fact, when you're really frustrated, you can give up anything."

Mike comforted her, "It's okay, without the Tate Industries, you still have an Technology. Without Layla and Robert, you still have Hayden and me. And, you will not lose Layla. When Layla becomes an adult, she can choose to come back to you."

The next day.

Shaun Locklyn, the vice president of Tate Industries came to Sterling Group to find Elliot.

Elliot saw him.

"Vice President Locklyn, what's the matter?"

"Well," Shaun looked complicated, took out a document and handed it to Elliot, "Avery asked me to hand it over to you. I just found out about your divorce."

Elliot raised his eyebrows and took the document. he glanced briefly at the contents of the document.
