Chapter 2385

Afternoon.

The news of Elliot's recruitment of assistants had become a hot search. Generally, people of such worth as Elliot would not recruit externally.

He needed assistants, he could be promoted from the inside, or he could dig his favorite talents in the circle. But he didn't.

The reason why the news of his recruitment of assistants was on the hot search was related to the treatment he offered to the assistants.

It is written on the recruitment notice that once hired, the annual salary starts at one million, and there is

no ceiling. If you perform well, you will have the opportunity to acquire Sterling Group shares.

With such favorable conditions, who could not be moved by seeing it?

Although the hard requirements for Elliot's assistant were not low, there were still many qualified people.

As Avery said, the salary was good, and there were naturally countless talents to submit resumes.

"Elliot is hiring an assistant." After seeing the news, Norah raised a smile on the corner of her mouth.

"Didn't we know about this two days ago?" Sasha responded flatly, "Have you found the right person?"

"Well, I've talked a few times in the past two days, and there is one person who is quite suitable. I'll

contact him now.” Norah opened the address book and said to Sasha, “Elliot is recruiting assistants, and they must only be men. I’ll see him. The male priority written on the request is the same as I thought. Just look for it according to the appearance and ability of his former assistant, which is right.”

Sasha stood at the door of the kitchen because soup was being stewed inside.

Sasha: “If only all went well.”

“Even if it doesn’t go well, it’s fine. His company has other positions to recruit.

With my connections, it’s not difficult to put someone in. It’s just that it’s more convenient if someone can be installed by his side.”

Norah said calmly. .

“Norah, you said you are such a smart person, even if you do something else, you will definitely make a

lot of money. Why do you have to lick Elliot and Avery?” Sasha was a little puzzled.

The reason why Sasha looked for Haze was because there was no other way for Sasha to be a new person.

But Norah was different.

“Sasha, before I contacted Elliot, I did a good job. But no matter how good I do my job, I just make money for the boss, and I can only get a fixed income. That is absolutely not proportional to my efforts. What’s so good about part-time work, I don’t want to work anymore at all.” Norah saw it through, “Being a good person, in the end, it’s just a servant. It’s better to take the risk and give it a shot.”

Sasha: “Okay! Let’s be more cautious this time. Even if we can’t make money, we must not risk our lives.”

It's better to die than live!"

Norah: "Well. I'm measured."

The other side.

The Miss also saw the news that Elliot was recruiting assistants.

After seeing the news, she immediately clicked on the recruitment APP, found the recruitment information of Sterling Group's recruitment of assistant president, and carefully checked the recruitment requirements listed by the other party.

Bachelor degree or above.

The first rule directly rejected her from the door.

A layer of sweat broke out on her palms, if she submitted her resume, she would definitely be in vain, right?

If she didn't try it, how did she know it won't work?

Thinking of this, she bravely clicked on her resume, intending to optimize her resume.

An hour later, she checked the revised resume several times. After confirming that there was no way to change it, she took a deep breath and delivered the resume.

“Miss, Siena woke up. Did you take her to the kindergarten, or should I take her?”

The mother-in-law pushed open the study door and asked from the door.

“I’ll take her there!” The Miss closed the computer and walked out of the study.

“Miss, if the school accepts her, why don’t you let her go to school! She promised me that she would never tear the scar off her face, and she can definitely do it.” The mother-in-law pleaded softly, “In this state, no

one will doubt that Siena is Elliot's daughter."
