

When His Eyes Opened Chapter 2682

Chapter 2682

“How can this be troublesome! I often go to Bridgedale.” Layla laughed, “The traffic is so convenient, if you want to go there, just go there. I will go to see your house, and I will also go to see my brother!”

“Oh... good! It's a pity that I can't run around before the winter vacation.”

“Isn't there a long holiday on New Year's Day?” Layla said, “You can go to play on New Year's Day! Then your house Pretend it too.”

“New Year's Day is only a few days away, right?”

“You can ask for a few more days off.”

Hazel shook her head: “I'll go to see Big Brother again during the winter vacation. Anyway, the winter vacation will not be long after New Year's Day.”

“That's okay too! I'll take a video for you then.” Layla smiled, “Are you sure you won't let our parents send you to university tomorrow?”

During dinner, they chatted about this topic.

Hazel said that it would be good to let the driver take her to university tomorrow.

She would not be staying on campus for the time being, and after reporting, she would probably be able to go home.

“If Mom and Dad go, what if someone recognizes them?” Hazel smiled awkwardly, “I don't want to become a famous person in university before I go to university. There are not many people in Avonsville who don't know Dad's face!”

“Hahaha! Mom is much more low-key, you can ask Mom to take you there!” Layla said, “Or let them both wear masks so that others can't recognize. The two of them really want to send you to University.”

“Sister, when you were in University, were your parents also sending you there?” Hazel asked.

“That's right! I didn't live on campus. If I didn't live on campus, I would actually save a lot of things... I remember when I went to report at the University, I walked around the University and came back.” Layla laughed.

“Don't you have to pay tuition or something?” Hazel asked.

“When I received the admission notice, there was a card in it. If you recharge it in advance, the University will automatically deduct the tuition fee.” Layla recalled the situation at that time, “There are also some miscellaneous procedures, such as applying for a campus card. Yes, it was my father’s assistant who helped me run the errands. I didn’t do anything anyway. If you don’t want your parents to wear masks, you can wear a mask yourself. Then others won’t recognize who you are.”

Hazel couldn’t help laughing : “What a good way.”

The next day.

Elliot and Avery accompanied Hazel to the university to report.

Nantah(N) University was a key university in Avonsville, and the broadcasting and hosting major of this university was relatively strong.

This was also the main reason why Hazel chose this University.

Knowing that her daughter didn’t want to be too high-profile, Avery prepared masks for herself and Elliot.

After the car arrived at the University, Avery and Elliot put on masks consciously.

Hazel didn’t ask her parents to wear masks. Because she prepared the mask herself.

Now that her Mom and Dad were wearing masks, she felt a little embarrassed.

“Hazel, I discussed it with your father last night. Because your University is indeed a bit far away from home. If you sometimes have classes at night, or there are activities at University at night, it may be troublesome to go home, so Your father and I want to buy you a house outside the University.”

Avery held Hazel’s hand and told Hazel what they thought.

Hazel was stunned for a moment.

Buy house?

Others started University to pay tuition fees, but she started University to buy a house?

“Let’s go to the University first to get familiar with the University environment.” Seeing Hazel in a daze, Elliot said softly, “Next time, you will come to University by yourself. If you have anything to do, you must tell us.”

Hazel nodded, “Dad, have you paid the tuition?”

Elliot: "Yeah. It's all done. We're here today to get acquainted with the University."

Hazel remembered what Layla said last night.

It was exactly as Layla said.

Immediately after entering the University, a strange male trotted towards them.

When His Eyes Opened Chapter 2683

Chapter 2683

"Mr. Foster, the tour bus is here. There are a lot of people in the University today, so it may take a little longer to finish the tour."

"It's okay. Safety first." Elliot took Avery and Hazel on the tour bus.

Hazel: "..."

Looking at the busy students of the same age on campus, but sitting in the tour bus, it seemed that she was here for sightseeing.

The man driving the tour bus should be a staff member on campus.

While driving, he explained to them.

Hazel listened carefully, after all, this was where she would spend the next three years.

After about half an hour, they finished a rough tour of the University. The staff asked if they wanted to take them for a walk.

Hazel immediately said, "Uncle, we can go shopping by ourselves. Thank you for your hard work."

Seeing Hazel say that, Elliot asked the staff to leave.

"Mom, there are cold drinks sold there." Hazel was a little thirsty.

Today the temperature was quite high and the sun was quite bright. At this point, the temperature was high.

Avery looked towards the beverage store, and there were many students buying cold drinks there.

"If you want to drink, go buy it!" Avery said.

“Mom, do you want to drink?”

“Mom just drinks water.” Avery had a bottle of water in his hand.

“I actually want to eat ice cream more.” Hazel smiled and said what was in her heart, “Mom, do you want to eat it?”

Avery glanced at Elliot, then took Hazel’s hand and walked towards the cold drink shop.

Elliot definitely wouldn’t eat ice cream.

Avery didn’t like eating ice much either. But she saw Hazel was interested, so she ate with her.

After a while, Avery and Hazel walked up to Elliot with an ice cream.

“It’s almost time to see the University. It’s a little early for lunch now. How about we go and see the house?” Avery said to her daughter, “Your father saw a few houses near your University last night, and made an appointment to see the house today.”

“Ah? Already have an appointment?” Hazel didn’t expect them to act so fast.

“Yeah! It’s just outside the University, very close. Let’s go and have a look before we decide whether to buy it or not.” Avery added, “It’s good for you to live here once in a while, so you don’t get too tired from running back and forth.”

“I think it’s too waste of money.” Hazel said shyly.

“The location of your University is a bit remote, and the housing prices here are quite cheap.” Avery said, “I also checked last night, and it’s not expensive. You don’t have to worry about money. It’s more important than anything else for you to go to University with peace of mind.”

“Mom and Dad, you are so kind to me. I always feel like I am dreaming.” Hazel held Avery’s arm, sniffed, and then took a bite of the ice cream.

The ice was cold and had a sweet taste, filling the whole body.

“You are our daughter, of course we want to love you.”

The three came out of University and drove to see the house.

Elliot took a fancy to three houses last night.

The first house was the closest and the newest community to the University.

He took a fancy to a well-decorated 110-square-meter apartment inside.

The second house was a little farther away from the University. It was a townhouse with a slightly better living environment.

The third house was the farthest from the University, but it was a detached villa, very close to the sea, with the best environment. The biggest disadvantage was that it was far from the University.

Avery felt that her daughter would probably choose the first one.

When His Eyes Opened Chapter 2684

Chapter 2684

Sure enough, after they looked at the first house, Hazel already had a satisfied expression on her face.

“Mom, how much is this house? I think it’s a bit big. I can’t live in such a big house alone. It would be great if I had a smaller house.”

Elliot listened to Hazel’s words, embarrassed and at a loss.

“Hahaha, this house is not too big. The housing price here is cheap, and the area of the house is generally larger. There are more than 130 square meters in this community, and more than 150 square meters! The one I chose for you is already smallest.” Avery said.

The agent didn’t seem to understand the meaning of Avery’s words, and immediately said: “There are still 56 square meters of apartment in this community. This apartment is usually rented to students from Nantah University.”

After the agent said this, Avery, Elliot and Hazel had completely different expressions on their faces.

“Mom, the agent said that there is a 56-square-meter apartment! Let’s go and see the 56-square-meter apartment!” Hazel said excitedly.

Avery didn’t have time to speak, but Elliot spoke first: “Baby, 56-square-meter is too small. If mom and dad come here to see you one day, there’s not even a place to stay. Don’t you think so?”

Hazel was stunned for a moment.

Since Elliot said so, it was indeed not good to buy a place that was too small. But a 56-square-meter house didn’t mean that parents didn’t even have a place to stay, right?

Hazel secretly took a look at Elliot. Her father was different from other people's fathers.

Maybe the area of 56-square-meter would make Dad feel uncomfortable, right?

In this case, it was better to listen to Dad.

"Then let's go and see the second set!" Hazel wanted to see what the second set was like.

Seeing that Hazel thought 110 square meter was too big, Avery felt that there was really no need to watch the next two sets.

"The other two houses your father chose for you are both villas. And they are farther away from the University." Avery explained the advantages and disadvantages to Hazel first.

When Hazel heard that it was a villa, she stopped immediately.

"Then let's do this!" Hazel didn't even think about it, and directly decided to want this 110 square meter.

It was too big just now, compared with the villa, it must be smaller.

"Don't you really want to take a look?" Elliot wanted to take Hazel to have a look. "It doesn't matter the size of the house, it mainly depends on how the living environment is. That single-family house can see the sea when you go out. Although it is a little far from your University, but I can provide you with a driver. The distance is not a problem at all."

Hazel shook her head and refused without thinking: "I bought a house near the University, just to live here occasionally. It really doesn't have to be so troublesome. I can go home and live at home."

Elliot was particularly moved by Hazel's words.

Hazel said that if she could go home, she still wanted to go home.

Elliot immediately took out his card and decided to buy this 110-square-meter house.

Before 12 o'clock at noon, they paid the money, signed the purchase contract, and got the keys to the house.

After doing all this, Elliot took Avery and Hazel to lunch.

Because Avery said she was hungry, they chose a restaurant near the University for lunch.

After ordering, Hazel sent a message to Layla: [Sister, you must have never imagined that Dad bought me a house near the University.]

Layla: [Hahaha! Because your University is too far away from home. I'm afraid you come home too late sometimes, aren't you?]

Hazel: [Yes! I feel that mom and dad buy a house as casually as others buy cabbage.]

Layla: [Just get used to it. What is the difference between making money and not spending it and waste paper? Spend more money to boost GDP.]

Hazel: [Sister, are you used to living outside now?]

Layla: [I'm used to it. The first week is much better.]

Hazel: [Mmmm! After dinner, we will go home. Report today, a lot of people! I feel the most relaxed.]

Layla: [Do you want to come to my company? I send you a drone. You haven't played it yet, have you?]

Hazel: [No. But I still won't go to your company. Afraid of disturbing your work. If you want to send me a drone, bring it back on Friday night!]

Layla: [I can get the driver to drive you home right now.]

Hazel: [Thank you sister!]

Layla: [In fact, there are drones at home, but they are all old models. I will send you the latest model. You can let our parents teach you how to use it.]
