

## When His Eyes Opened Read Novel Chapter 3090

**Novel Chapter 3090** -Aaron: “???”

How could this work?

“You are so good, what if he recruits you?” Aaron asked doubts, “Do you really want to stay here to work? Didn’t we say stay here for half a month and leave?”

Hazel: “I’ll just talk casually! When the time comes, I’ll adjust accordingly. Even if he recruits me, I can leave at any time!”

Aaron said ‘Oh’: “Yes.”

After the two had dinner in the restaurant, they were going to visit Lucas’s company.

After getting into the car, Aaron asked, “What’s the name of his company?”

Hazel: “Night Technology.”

Aaron: “The name of this company doesn’t sound good.”

Hazel: “Carrots and vegetables have their own preferences. You don’t like to hear it, but he likes to hear it.”

Aaron: “Miss, your parents won’t agree with you marrying to Thopiavelle. So it’s okay for you to see that man, but don’t fall in love with him.”

Hazel told the truth: “When I met him, I never had any contact with other opposite s-e-x. He was the first opposite s-e-x who treated me well. So I have a special feeling for him. It is undeniable that I like him. But I don’t know if there will be any result with him.”

Aaron: “That kid is really lucky! He was actually spotted by you.”

Hazel: “Aaron, you can’t say that. I was so ugly back then, but he didn’t dislike me, and he took good care of me, which shows that he has a heart of truth, kindness and beauty. This is not something everyone has. It has passed the most rigorous test.”

Aaron: “Maybe he just sympathizes with you!”

Hazel: “I know, but why is he the only one who sympathizes with me? This can also explain the problem.”

Aaron: “Okay! What you said makes sense. This man treated you well before, it must be because he has a good character. There is nothing wrong with you coming to see him this time. Even if you let your parents know, your parents can understand.”

Hazel: "I'm afraid my parents are thinking wildly, so I don't want to tell them."

Aaron: "Let's go and see the situation first!"

The two ate lunch and walked outside.

At noon, the people in the company were also resting, so they decided to go to Night Technology in the afternoon.

Hazel went to buy ice cream, "Aaron, do you want to eat?"

Aaron: "I don't like to eat that stuff."

Hazel bought ice cream and ate it standing under the sun.

The bodyguard was smoking beside her and looked at her: "Aren't you afraid of getting tanned?"

Hazel: "Ice cream tastes best when eaten under the sun. If you get tanned in winter, it will come back for nothing."

After the two hung out for an hour, they drove to Night Technology.

After about an hour's drive, the car arrived at the office building where Night Technology is located.

Hazel and Aaron entered the office building one after the other.

Night Technology was on the fifth floor.

They took the elevator and quickly came to the fifth floor.

Aaron held Hazel down: "You just wait here, I'll go in and see what's going on."

Hazel: "Well, then you go! Don't talk nonsense."

Aaron: "I have a sense of proportion!"

Aaron finished speaking confidently, and walked towards Night Technology.

After entering Night Technology, the person at the front desk was stunned for a moment.

Usually the front desk recruited women, but the front desk of Night Technology was a man.

“Hello, brother, is Lucas there?”

The front desk glanced at Aaron: “Who are you? What do you want from my boss?”

Aaron: “Does your company recruit people?”

“Recruitment! What do you want to apply for? I’ll call our personnel manager to talk to you!” the guy at the front desk said.

Seeing that the bodyguards couldn’t handle it, Hazel walked over by herself.
