### Chapter 976

“Avery, what are you looking at?” A blush appeared on Elliot’s handsome face.

Although the two of them have been reconciled and are as close as ever, she rarely stares directly at him without quarreling.

Elliot couldn’t guess what was in her heart.

This is why he is obsessed with her.

“Mr. I found that you are very handsome today.” Avery pulled him to sit down on the sofa, and patted his hair with a small hand, “Is hairspray applied? It’s not good for your hair to use hairspray often. You are also handsome without hairspray. “

Elliot remained silent.

He suspected that Avery had taken the wrong medicine today, otherwise why would it be so strange.

“Have you had breakfast? Would you like a glass of milk?” Avery said, without waiting for him to answer, he went to the kitchen to get a glass of milk and handed it to him, “Drink it!”

Elliot Holding the milk glass and looked at her suspiciously: “Avery, you...”

“Don’t move! I seem to see a white hair on your head!” Avery turned his face back, Then she carefully pulled two hairs on his head.

This pain is nothing to him, but the mental blow is enough.

Why does Elliot have white hair?

“Show me.” Elliot wanted to see his white hair.

A flash of panic flashed in her eyes, and her face was slightly red:

“What’s so good about white hair, I just plucked it and threw it on the ground. Why don’t you go to the ground and look for it?”

After she finished speaking, she yawned.

Of course Elliot wouldn’t go to the ground to find his white hair. He felt that Avery’s attitude towards him seemed to be normal after pulling out the gray hair.

“You didn’t say yesterday that you’re coming this morning? What’s the matter with you coming so early?” Avery said, walking towards the bedroom, “I’m going to change, and you’ll wait for me in the living room.”

Elliot held a milk glass and get up from the sofa.

Mrs. Cooper came over with Robert in her arms to show him.

Mrs. Cooper smiled and said, “Robert woke up at 5 o’clock this morning, and got tired from playing until 7 o’clock, so he slept very well now. He is very good at turning over now, and it is estimated that he will be in two months. I can slowly learn to walk.”

Elliot looked at his son’s chubby little face softly, and asked, “Did you think Avery was a little strange just now?”

Mrs. Cooper was stunned for a moment: “No! She brought you milk. Maybe it’s because you’re hungry!”

Elliot said, “She also praised me for being handsome.”

Avery is not such a straightforward person.

She hardly complimented him like that.

So he was flattered and overjoyed.

Mrs. Cooper laughed: “Now that the two of you are reconciled. Avery must think you are more handsome.”

Elliot took the milk cup and took a sip.

“Sir, have you had breakfast yet?” Mrs. Cooper asked.

“I didn’t eat. Let’s eat together.”

“Oh, then I’ll put Robert on the bed first.” Mrs. Cooper put Robert in the crib and walked towards the kitchen.

Avery quickly changed her clothes and walked out.

“Elliot, did you come here?” Avery teased, “you just came when the child went to school.”

“I’m afraid Hayden will be unhappy when he sees me.” Elliot walked with her towards the dining room, “Designer sent me the pattern of the wedding ring and I’ll show it to you. By the way, let’s discuss the issue of living together in the future.”

“The pattern was designed so quickly?” Avery was a little surprised.

“Yesterday you always emphasized that the style should be simple and not fancy. I can do such a simple request.”

“Haha, then you can design it and show it to me.” Avery teased, “If you design better than other professional designers It’s okay, I’ll use yours.”

“Okay. Eat breakfast first. Look at it later.”

### Chapter 977

“Well, about living together, do you have special requirements?” Avery sat down on the dining chair and looked up at him.

Elliot shook his head: “I’m afraid that I will move here and make Hayden feel restrained.”

“Anyway, I definitely can’t move to your place to live with you! The child won’t move to your place, and I can’t be separated from the child.” Avery didn’t even think about it. Think, pick out, “I don’t want to make you sad but in my heart, the three children are ahead of you.”

Elliot was speechless. Even if Avery didn’t say this, he knew the fact. Saying it would only upset him.

Elliot couldn’t think of a way to get the best of both worlds, so he fell silent.

Avery thought that what she said just now was too much, which made him sad.

“Or else, don’t think about this problem first. You can come to live with me or I can live with you. You don’t need to think that this is a problem, it won’t trouble us.” Avery comforted him.

“I thought about it carefully. Before our wedding, I gave my children a little more time to let them accept the fact that the two of us have reconciled. So before the wedding, I will not move in.” Elliot expressed his thoughts.

Avery couldn’t help boasting: “If you were so mature and thoughtful before, we wouldn’t have taken so many detours.”

Elliot laughed at himself: “I have gray hair, can I be immature?”

“Don’t worry, I just Seeing one. It’s not a big problem.” Avery comforted him, “As long as you keep the habit of exercising, others will definitely not regard you as my father.”

Elliot was silent.

After breakfast, Elliot will show the design picture to Avery.

One is a drawing by the designer, and the other is a drawing by Elliot.

Avery looked at the two pictures separately and chose Elliot’s.

“It’s not that your designs are better than others, but that I wear the ring you designed and I can show off to others and saying, it was designed by my husband. This is not a ring, this is love.”

Elliot was flattered by her Eager to shoot.

“Are you going to work or resting at home today?” Elliot asked her.

Avery was stunned for a moment and asked, “How about you?”

“If you want to come with me, I’ll go to the company first, and then ask the wedding company to talk.”

“I’m going to the company today. The wedding company Over there, let’s talk!” Avery didn’t want to bother.

With Elliot’s personality of pursuing perfection in everything, she will definitely give her a satisfactory wedding.

“Then I’ll take you to the company,” Elliot said.

“No need. I’m not in a hurry to go out, you go first!” Avery sent him to the door.

After Elliot left, Avery immediately went back to the room and took out Elliot’s hair sample to take a look.

She plucked two hairs from his head at the time, not white hair. She said it was white hair, because she didn’t want him to worry. She doubted his identity. So she wanted to secretly verify to see if he was really Shea’s twin brother.

Mainly, Shea’s twin brother had the same disease as Shea when Elliot was a child, but was miraculously cured in an era when medical care was not developed.

In this world, there are people with such powerful medical skills that they cannot hide.

So she wanted to confirm Elliot’s identity. “Now that I have Elliot’s sample. I just need to find another sample from the Foster family and send it for inspection.”

Shea was gone, and Henry was hard to approach, so she could only find Cole.

After she went out with her bag, she dialed Cole.

“Cole, come out and meet! I have good news to tell you.” No matter what, she wanted to invite Cole out.

### Chapter 978

“Good news? If you don’t kill me, it’s good news.” Cole sneered and teased.

Avery was silent for a few seconds, and then used the aggressive method: “You’re only good at this? If your uncle invites you, wouldn’t you be scared to death?”

Cole said, “Avery! Why are you chasing after me? I have nothing left. Why are you looking for me? I don’t want to hear about you and my uncle, and I don’t care. When you get married, it doesn’t matter to me! My uncle will never invite me!”

After Cole finished speaking, Avery calmly said: “I am indeed getting married to your uncle. I will decide whether to invite you or not. Your uncle listens to me.”

Cole was stunned.

“Cole, come out and meet! I have something to say to you face to face.” In order to let him out, Avery used Elliot as bait, “Actually, your uncle is not so heartless. Let’s talk more after you come out. Let’s chat.”

Cole let out a sigh of relief and agreed to meet.

About 40 minutes later, the two met in a cafe.

After sitting down by the window, Avery ordered a latte.

“Avery, are you really going to marry my uncle?” Cole asked, staring at her face.

Avery said, “How can I lie to you about this kind of thing. You sold your old house with your dad, where do you live now? If you want to come to our wedding, I will have someone send you an invitation. “

Cole was a little flattered: “Did you really invite me?”

“Otherwise? You come to the wedding banquet with your father, and you only have two mouths and two meals. Can you beat Elliot? Where do you live now?” Avery asked.

“Right now, I’m renting a house and I haven’t picked a new one yet. My dad wanted to leave here but I didn’t agree. So I’m still arguing about this.” Cole talked about this, he felt a little depressed about the incident, “I admit that I was unfilial and hurt my dad. I want to be nice to him in the future.”

“It’s good that you have this kind of heart.” Avery’s eyes were fixed on his hair unconsciously, “By the way, what are your plans in the future?”

“I want to start my own business.” Cole said bitterly, “I have never worked, so I can’t stand the anger. It is impossible for me to work for others in my life.”

“Oh.” Avery expected this answer.

Cole was a young master who was born with a golden key. In addition, the elders in the family spoiled him since he was a child, so he couldn't bear hardships.

Although Elliot is also a young master, because of Shea, his life environment and mental journey are completely different from Cole.

"Is it true that you say my uncle doesn't hate me that much?" Cole regretted it every day and wanted to go back and hug his uncle's thigh again.

At this time, the waiter came over with two cups of coffee.

After Avery took a sip of coffee, she looked at Cole's hair again: "Why do you have white hair?"

He was stunned for a moment: "No way?"

Avery immediately got up and walked to his side, "Don't move, I'll pull it out for you. Otherwise, it will grow more and more. You haven't started a family yet, if you worry about gray hair first, you'll be afraid to find a girlfriend in the future."

After she finished, she quickly ran over his head. She neatly pulled out a few strands of hair.

"Ah! Ahh!" Cole hugged his head and screamed, "Avery! What are you doing?! Where are you pulling one, you pulled a pinch?! How can it hurt so much!"

Avery quickly put his hair into the prepared small bag while feeling the strange eyes from around him.

At the same time, she murmured in her heart: Cole can't do it! When she pulled Elliot's hair, Elliot didn't say a word!

Avery dared to say that if she plucked the hair of other adults, even if it was really a pinch, others would never yell like Cole.

"I didn't say you only have one white hair." Avery returned to her seat and sat down.

Cole eased from the pain just now, and put down the hand holding his head, but his expression was very sad: "Where's my white hair? Show me!"

## When His Eyes Opened Chapter 979 | Simple Silence

### Chapter 979

"What's so good about white hair, it's white hair. Can't you imagine it in your mind?" Avery's answer left Cole speechless.

"Why do I feel that you are deliberately trolling me?" Cole muttered.

"I don't think your hair is oily, but you actually said that I would fix you. If I really want to fix you, just let your uncle do it. He won't pull out your hair, he will only pull out your head."

Cole face turned black with fright, "Didn't you say that my uncle wasn't so cruel to me?"

"Yes, otherwise why are you still alive? If you weren't his nephew, you would have died a long time ago." Avery said, "This cup After the coffee is finished, I'm leaving."

Cole was stunned: “Didn’t you say you want to chat with me? What do you want to chat with me?”

“It’s over!” Avery took a sip of coffee and looked at him, “I just want to know your current situation. Now that I know how poor you have been, I find that I can’t speak.”

“Why?” Cole asked.

“Because I’ve had a great time, I just tell you something, it’s like showing off to you. I don’t think it’s immoral.” Avery finished drinking coffee and got up with her bag, “you’ll take your coffee, drink it slowly.”

Cole looked at her leaving back and stunned.

They seemed to speak no more than ten sentences before and after. And these words can be said on the phone.

The only thing that can’t be done on the phone is that she pulls a lock of his hair.

He insisted that she plucked out a lock of his hair, not one.

If it wasn’t for the pain in his scalp, he would have thought it was a dream.

Avery came out of the cafe, got into the car, and drove the car to the DNA identification center.

Her mood was up and down, and she was even a little nervous. She didn’t know what the DNA results would be this time, she couldn’t guess at all.

If the DNA results of Elliot and Cole's uncle and nephew can match, then life will continue on the current track.

It just subverted her traditional thinking. She would believe that it turns out that in this world, there are really hidden masters.

If their DNA results don't match... she sighed heavily! If it doesn't match, it means that Elliot is not from the Foster family.

Because the bones of Henry and Cole are almost carved out of the same mold. They don't need to do DNA test to know that they are father and son.

She couldn't imagine how much impact this incident would have had if Elliot was not from the Foster family.

In addition to the outside influence, there is also the influence on Elliot.

Elliot loves Shea so much. Even for Shea, he did not hesitate to kill Master Foster. If let him know that he and Shea are not brothers and sisters, how will she accept this result!

Thinking of this, she parked the car uncomfortably.

For some reason, her sixth sense told her strongly that the truth was what she thought.

Because the more she think about it, the more clearly she discover that Elliot and the Foster family are completely different.

She doesn't want to do this appraisal anymore.

She was afraid to face such a result!

### Chapter 980

Sterling Group.

Ben Schaffer sat in Elliot's office chair and looked at Elliot who pushed in the door with a cynical smile.

"Elliot, you are too fast!" Ben Schaffer knew that no matter how he teased him now, he would not be angry, so he was very presumptuous, "I only left for two days, you took Avery down, and you even start planning for the wedding. If Chad didn't call me, do you plan to notify me after the wedding?"

Elliot walked to the table and asked, "Is the relationship between the Tierney family and the Kenny family not bad?"

"Which Kenny family?"

Hallstatt Kenny's family. After Leonel Kenny died, his son Hudson Kenny is now in charge." Elliot was brooding about what happened in Hallstatt, "If I hadn't bought one of the staff in advance, I would have it may have turned into a pile of bones."

Ben Schaffer snorted and got up from his chair in shock: "Chad didn't tell me this. He only said that you and Avery are going to get married. I don't know the Tierney family very well also I'm not familiar with the Kenny family, because Chelsea rarely mentions her family's affairs in front of me."

"I remember that one year, Chelsea asked for leave because she was going to the Kenny family for a banquet." Elliot said, "You may not remember. Now, it's been a long time."

“In this case, she and the Kenny family know each other. You wouldn’t suspect that she wanted to kill you, right?” Ben Schaffer felt unbelievable, “Elliot, do you think it’s possible? Chelsea can die for you, you know. How could she kill you?”

“Chelsea is no longer used to be.” Elliot’s eagle eyes flashed with a gloomy chill, “She didn’t want to kill me alone, but the villa at that time. She wants to kill everyone here. Her heart has been twisted.”

Ben Schaffer was speechless for a long time.

“I can’t keep her anymore.” Elliot looked at Ben Schaffer, “You take the time to help me send her a wedding invitation. By the way, I need a definite result.”

All the frivolity on Ben Schaffer’s face faded, “What if she said she didn’t do it?”

“If Chelsea says she didn’t do it, then let her hand over her phone. I will use technical means to investigate whether she talked to Hudson Kenny on the phone the night before.” Elliot said.

Ben Schaffer heard the words and nodded: “Okay. If she really did it, what should I do? Are you really going to kill her?”

“Don’t kill her, wait for her to kill me?” Elliot tightened his fingers and clenched, “I’m going to marry Avery. We have three children. I can’t die, and Avery and the children can’t have an accident.”

Ben Schaffer sighed: “Maybe Chelsea really has a psychological problem. It’s not that Does Tammy plan to see a psychiatrist? In fact, Chelsea should also go to see a psychiatrist, but she is too strong, and she has no relatives around, so I am afraid she will not see it.”

“She had no chance.” Elliot sat down in the office chair, frowned and said solemnly, “Ben Schaffer, I have given her many opportunities. Avery and I are constantly misunderstood because of her provocation again and again. Sh’s too greedy and too bad!”

“I see. I will contact her as soon as possible.” Ben Schaffer was in a solemn mood, “Let me do this. You plan the wedding well.”

“Well...”

....

DNA Identification Center.

Avery parked the car in the parking lot outside the building.

Before getting out of the car, she sighed heavily.

She can’t stop exploring the truth because she’s afraid of it.

If the result came out, it would be bad for Elliot, so she would not make it public.

She has been troubled by this matter for a long time, and she does not want to continue to be troubled by it.

Carrying her bag, she strode towards the gate of the appraisal center.

In the afternoon, she drove to the company.

Entering the building, the front desk immediately smiled and said to her, “Ms. Tate, congratulations!”

Avery was startled: “Congratulations?”

“Aren’t you and Mr. Foster about to get married? Today, people from Sterling Group came over to ask for the number of personnel in our company, and when it came time to give us wedding candy and gifts.” The front desk was excited, “Ms. Tate, I knew you would definitely marry Mr. Foster!”

Avery was embarrassed.

Does Elliot think she can’t afford to invite her employees to eat candy?
