

When His Eyes Opened Chapter 991 | Simple Silence

Chapter 991

Avery was stunned!

“Mom, if I ate that box of cherries, I’d be dead!” Layla broke down and cried.

Avery immediately took her daughter out of the safety seat and put her in her arms: “Don’t cry, baby, you’re fine now! You’ll be fine in the future! We won’t have dinner at school in the future! From now on, mom will ask the driver to bring you meals every day!”

Layla cried out of breath: ” Mom, Celia is my friend, she died by my side...I’m so scared...I’m so scared!”

Avery’s eyes were flushed, her emotions gradually collapsed, and she began to cry.

According to Layla, if she ate Layla’s cherries and died, then the person who poisoned it would be Layla!

If it wasn’t for this girl named Celia who ate the poisonous cherries originally given to Layla, Layla would be dead today.

Rosacus City.

Ben Schaffer woke up slowly after losing for several hours.

He saw Elliot standing two steps away, talking on the phone.

“Why did this euthanasia drug appear in the school cafeteria?! Why did it appear in my daughter’s fruit lunch box?! If you can’t give me an explanation, you, the principal, don’t have to do it!”

Elliot was extremely angry!

So forget that you are in the ward now.

“Elliot...” Ben Schaffer heard the word ‘euthanasia’, so he said weakly,
“What happened? Did something happen to Layla?”

Elliot heard Ben Schaffer’s voice and immediately hung up his cell phone.

He strode to the hospital bed and looked at Ben Schaffer: “How is your health? There is an accident at Layla’s school, I have to rush back. Would you like to go back with me? Or you should rest here first, and let me The bodyguard will take you back?”

“What happened to Layla’s school?” Ben Schaffer felt that things were not easy, so he sat up, “I heard you say euthanasia drugs.”

“Today at noon, Layla’s after-dinner fruit was poisoned by someone This highly toxic drug is usually used for euthanasia.” Elliot gritted his teeth, “Chelsea escaped! I suspect Chelsea did it!”

Ben Schaffer turned pale and lifted the quilt: “No doubt, it’s Chelsea. I gave her the poison! I planned to let her die without pain, who knew she kidnapped me! She dared to use poison to give Layla! I’m so pissed off!”

Elliot whispered, “This poisonous woman! I have to kill her!”

“I’ll go with you!” Ben Schaffer pulled out the needle and got out of bed anxiously.

The two quickly came out of the hospital and rushed to Avonsville.

Not long after, Elliot’s cell phone rang.

He answered the phone, “Boss! Chelsea is dancing on the roof of the company building in a red dress! It’s very intimidating!” The vice president’s voice came from the other side of the phone, “She locked the door to the roof, we can’t get in! “

Elliot: “...”

Chelsea danced on the rooftop of his company ?

Elliot clenched his knuckles and shouted: “Call the police! I’m on my way now !”

Vice President said, “Okay! Boss, Chelsea might want to jump off the building! She jumped very close to the railing, feeling a little careless. You can fall downstairs! It’s scary!”

“She’s not scary if she’s dead, but she’s scary if she doesn’t die!” If there was a button that could immediately end Chelsea’s life, Elliot would press it now.

“But...she deliberately chose to commit suicide in our company, how unlucky! She is disgusting you!” The vice president didn’t want the company to make news because of such negative news.

Elliot’s face was pale.

Chelsea did this to disgust him.

Does she want to become a ghost after her death and haunt him for the rest of her life ?

Chapter 992

Sterling Group.

Below the building, there was a crowd of people watching the excitement.

On the ground, He could only vaguely see a red figure swaying on the rooftop.

“I heard that this woman in red was the former manager of Sterling Group’s PR department! She stayed by Elliot’s side for more than ten years, but she didn’t get her name in the end, and she was heartbroken. Now she want to die, and she want to die here! What a stupid woman!”

“Is that the one who was disfigured not long ago?”

“Yes! She was very beautiful at first, but she was disfigured in a fire. What a pity! If she was not disfigured before, she could not get Elliot’s heart. After the disfigurement, Elliot couldn’t see it. F*ck her!”

“There are so many women that Elliot looks down on. Do they all jump off the building like her? Is it her own problem?”

“Who knows the private life of the rich? I just I think she is so miserable and pitiful now!”

“There is a saying that a poor person must have something to hate. If I were to die, I would never die in someone else’s company. There are so many people in the building still working, this Are women lacking in virtue?”

Everyone was discussing incessantly, and at this time, the fire rescue team came.

After the police car stopped in front of the building, firefighters quickly got out of the car and prepared to carry out rescue work.

On the rooftop, Chelsea looked at the crowd of people downstairs and showed a hideous smile.

“It’s over... it’s over...”

she muttered, and then jumped up and down!

In the Hospital.

Avery brought Layla for a physical examination, and when the test results were waiting, Layla fell asleep in Avery’s arms.

Avery sent Mike a message and asked him to come to the hospital.

After sending the message, she looked at the big screen in front of the hall.

The noon news is playing on the big screen.

“Now there is an emergency news, someone committed suicide in the Sterling Group Building, causing traffic congestion. Remind drivers and friends to detour, and remind everyone to cherish life...”

With the voice of the anchor Then, the picture of Sterling Group Building appeared on the screen.

The front of the building has been cordoned off. Outside the cordon, there are onlookers, and inside the cordon, there are corpses with mosaics.

Because Chelsea was wearing a red dress, after sizing, it looked like a cloud of red, like a pool of bright red blood.

Avery's body was tense, and her heart was chilled from the inside out!

who is it?

Why do she want to jump off the building at Sterling Group?

After a while, Mike rushed to the hospital and took Layla from her arms.

She went to the window to get the test results.

The test results showed that were normal.

Avery breathed a sigh of relief.

Mike whispered, "Avery, Chelsea is dead. She jumped from the building in Elliot's company."

"I saw the news." Avery's emotions were already calmer, but when Mike mentioned this, she was still angry." D*mn she! She wants to poison Layla, she is too vicious! How can children be involved in the grievances and grievances between adults?!"

Mike looked at Layla's sleeping face and said distressedly: "Fortunately, Layla has a great life."

"But Layla's classmate was poisoned to death. That's also a treasure held in the palm of other people's hands!"

Mike said, "Avery, let's go back first! There are too many people here. We only passed today. For a long time, so many terrible things have

happened one after another, let's go back first, don't let anything happen again."

Back at the Starry River Villa, Elliot called.

He just returned to Avonsville.

Avery said, "Layla is fine, she's asleep. Go and deal with your company's affairs first! Then I'll go to your place later."

Elliot hesitated for a few seconds, "Avery, stay home with your daughter for the next few days! Don't worry about sending her to school."

"Thank you."

Chapter 993

Listening to Elliot's deep voice, Avery's eyes suddenly became a little sour.

Obviously Avery didn't say anything, but Elliot seemed to sense it.

Elliot said hoarsely, "Avery, do you want to cry? I'll go with you! The company's business is not important."

Avery took a breath: "I'm fine. It's just that my daughter was almost poisoned and I feel bad. I can't imagine how painful it would be to lose her. I can't imagine..."

"I know. I can't lose her either. She won't be eating all three of her meals at school."

"Um. You Let's take care of the company first! I'll sleep with Layla for a while. Okay. Call me if you have anything."

"Yeah."

Layla was sitting on the sofa in a beautiful nightdress, holding her favorite rag doll in her arms, and the expression on her face was melancholy not her age. Usually she is the pistachio of this family, no matter who she sees, she is very enthusiastic and active.

Now she is silent and sullen, so everyone doesn't know how to coax for a while.

"Let's go eat first! I'll accompany you outside to wait for Hayden. I asked the bodyguard to pick Hayden back early today." Avery told everyone. Then she took Layla and walked out.

Everyone went to the dining room and sat down.

Tammy asked, "Has Chelsea's body been disposed of?"

Chad replied, "She was taken away by her mother."

Tammy asked again, "Oh, I thought their family was gone! What will happen to their company? Her mother definitely doesn't do business, right?"

Chad glanced at Elliot, and then replied: "Trust Capital will be annexed by my boss. In the future, there will be no more Trust Capital company."

Tammy said, "Haha! As I said, she will be punished. She will die horribly! I'm right!"

Jun held Tammy's hand under the table, "Tammy, let's not talk about Chelsea! Layla today Stimulated, let's talk about something else!"

"Yeah."

After a while, Hayden returned home.

After hearing what happened today, Hayden gives Layla a hug.

"Brother, I almost died."

“Layla, you’re not dead.” Hayden let go of her, “Since you’re not dead, don’t cry.”

Layla’s eyes were a little red and swollen: “I’m not crying. I’m just scared.”

Brother is here, don’t be afraid.” Hayden took her hand and led her to the living room.

“Brother, Dad is here.” Layla reminded.

Hayden: “I know.”

It would be strange if Elliot didn’t come with such a serious incident.

“Dad said he would stay with me at our house for the next few days.” Layla whispered to her brother, “Brother, will you be angry?”

“Do you want him to accompany you?” Hayden asked.

Layla lowered her eyes and said nothing.

“Since you want him to accompany you, your brother won’t be angry.” Hayden compromised.

If it weren’t for such a serious incident today, Hayden would not compromise.

Layla’s place in his heart was as important as his mother’s.

Five days later.

A courier will be sent to Starry River Villa.

Mrs. Cooper took the courier in, and Elliot, who was sitting on the sofa, asked, “What is it?”

When His Eyes Opened Chapter 994 | Simple Silence

Chapter 994

Avery came out of the bedroom, and when she heard Mrs. Cooper recite this sentence, a cold sweat broke out on her back!

The identification results of Elliot and Cole's came out.

She got a text message on her phone. She did not expect that the identification center would send the paper results directly to her home.

"Mrs. Cooper, is there my courier?" Avery walked over pretending to be casual and took the courier from Mrs. Cooper.

She could feel Elliot and Mrs. Cooper looking at her curiously.

Because this courier is sent by the paternity test center.

Normal people would naturally guess whether she went to the testing center and did a paternity test.

Elliot stood up from the sofa and walked towards her.

"It was I who asked this identification center to do a genetic test for one of my patients because he had a strange disease... This matter is more complicated, and now the patient's disease is almost healed. Avery said, looked at Elliot and reminded, "Today you are going to Celia's funeral, why don't you change your clothes?"

Elliot raised his wrist and glanced at his watch: "Isn't the funeral 10 o'clock? It's only 8 now." It's still early."

"Oh, then you can continue to play with Robert! I'll go and change Layla's clothes." Avery took the courier and walked towards her daughter's room.

These days, Layla has been resting at home.

Avery and Elliot wanted to take her out to play, but she refused to go.

Layla plays the piano, watches TV, and plays with toys at home every day, and is much quieter than before. If she used to be a lively bird, she is now a quiet little dragonfly.

Avery pushed open the door of the child's room, and immediately closed the door after entering.

She took the document out of the courier bag and opened it quickly to see the identification result.

Identification opinion: According to the DNA analysis results, it is ruled out that the uncle sample A and the nephew sample B are related by blood.

Sample A is Elliot, and sample B is Cole.

Because she didn't want to reveal her privacy, she used sample A and sample B as proxy names.

Seeing this result, Avery's body couldn't stop shaking slightly!

Although she had already made the worst plan, she was still deeply stimulated to see the result!

Elliot is not from the Foster family. It's no wonder that looking at the albums of his childhood, around the age of five, he looks different.

Because the child was replaced!

The real Elliot suffers from the same disease as Shea.

The Foster family claimed that Elliot's illness was cured by a divine healer. In fact, where did the miraculous doctor come from, but they replaced a healthy child!

And that real Elliot... very likely... is Adrian!

From the first time she saw Adrian, she felt familiar.

She always thought that it was because she missed Shea too much that she kept seeing the shadow of Shea in Adrian. Unexpectedly...

She took a deep breath and decided to find a chance to combine Adrian's DNA with Cole to make a comparison!

If it is determined that Adrian is from the Foster family...she took a deep breath! If she was sure that Adrian was from the Foster family, she didn't know what to do.

She hopes that Adrian will leave the White family.

But thinking that the current Foster family is not the former Foster family, Henry Foster and Cole Foster are no better than Nathan.

The most important thing is that Elliot may not be able to accept this result.

"Mom, what are you looking at?" Layla immediately came over to see her mother's serious expression.

Avery folded the identification result, put it in her pocket, and tore off the courier bag.

Chapter 995

“Layla, have you chosen which clothes to wear?” Avery asked without answering, “Usually when you attend a funeral, you will wear black clothes. You wear this black skirt and black bottoming pants.”

Layla nodded: “Mom, you look very unhappy. What did you see just now?”

Avery pulled out a stiff smile: “It’s my mother’s work.”

Layla gave her an idea. “I can let Daddy help you solve it. Daddy is living in our house now, let him do something for you, can he still not be willing?”

“Mom can solve it by herself. Mommy can help you to Change your clothes!” Avery was very solemn, but couldn’t show it, so she changed the subject, “Layla, are you sure you will go back to school next week?”

“Well. I have to be brave. Other children can go back to school, I can too.”

“Layla, you are really great. Mom is proud of you.” Avery squatted down and kissed her daughter’s forehead.

In the living room, Elliot’s cell phone rang.

When Robert heard the ringing of the phone, his jet-black eyes stared like copper bells.

Elliot smiled at his son, then answered the phone.

“Boss, have you seen the interview with Chelsea’s mother?” Chad’s voice came over the phone, “During the interview, she was so pitiful and created an image of a victim. She said you killed her. The owner of the Tierney family has occupied all the property of the Tierney family. This

is to kill her too. During the interview, she asked for help from all walks of life, and I hope everyone can help her get justice.”

Elliot’s face turned ashen!

This shameless old woman!

Did she think she dared not touch her?

Chad asked, “Boss, do you want to block her interview video, or respond to her video? She looks haggard in the video, but the words she said are very annoying.”

Elliot said indifferently, “Don’t she just want money? I don’t give her a cent. She thought a mere interview video could affect me? It’s hopelessly stupid!”

Chad sighed, “Well! Her behavior It’s disgusting. It’s like Chelsea had to die in our company. The mother and daughter are really the same.”

Avery took Layla out of the room and heard Elliot talking on the phone. Her eyes fell on him madly.

He is arrogant, arrogant, and noble! He made the entire Foster family famous, and when others talked about him, they never dared to be disrespectful.

The dazzling halo he worked hard for the Foster family now looks like a joke.

Rosalie Foster must be aware of it, right?

It's hard for the old lady to treat Elliot as her own. As long as the old lady is not so good to Elliot, Elliot will not miss the old lady after the old lady's death.

Elliot saw Avery and his daughter out of the corner of his eye, and immediately hung up.

"Robert was awake, so I didn't go out to talk on the phone." he explained.

Avery looked at his handsome face and replied, "Elliot, I'm going to change my clothes. When I change my clothes, let's go out! It's a little stuffy at home."

"Okay."

After Avery returned to the room, Elliot left to Layla.

"Layla, your dress today is so beautiful. Dad never saw you wear it before." Elliot tried every way to praise his daughter and make her happy.

This trick is very useful for children.

Layla's feelings for him were deeper now than before.

Layla murmured, "Dad, Mom is in trouble at work, please help her! Although she said she could solve it, I think she's obviously very unhappy."

Elliot frowned slightly: "your mother told you that she is in trouble at work?"

As far as Elliot knows, the Tate Industries has not encountered any trouble.

Layla nodded: “Mom took out a few pieces of paper in my room just now. After reading it, her face changed.”
