

## HIS FAVOR - CHAPTER 2: MEETING AGAIN

Today's exams language and chemistry, after the exam, An Chu quietly packed up her school bag, and then headed outside the school, the An family actually sent a driver, but that kind of treatment but only An Qiu have.

In fact, when An Chu was young, she did not understand why her mother and father, who she remembered as being so in love with each other, had married another woman less than three months after her mother's death, and even that woman had a daughter who was a few months older than her.

But then An Chu understood that Dad did not love Mom, but only saw the power position of her family, so he had another child before he gave birth to her, and then after Mom's death, he took her company for himself without regard to any old feelings.

An Chu walked alone in the alley outside the school, which is also her daily route home. Suddenly, a sound of fighting came from the front, An Chu raised her eyes to see that someone was fighting. An Chu only had to stand aside quietly, ready to wait for them to finish the fight, she was walking past.

This kind of thing she has seen a lot, but no one will pay attention to a weak even existential people, also do not care to fight with her.

But today's scene is the first time she has seen, usually two groups of people fighting or a group of people fighting each other, but today is a group of people beating a person, but no, to be precise, it should be a person beating a group of people.

I saw the handsome boy surrounded by the center, flying up a leg, instantly kicked down a person, and then caught a person who jumped up, a fierce folding, even you can hear the sound of arm fracture.

The first time I saw this person, I should say that no one in their first school did not know him, Huo Shi; the school bully of the first school, because Huo Shi in so the second and third school people do not dare to come to their first school trouble, and every time they come, they are all back in the dust, and over time, they will no longer come.

This time I saw a man with a stick behind the teenager, is ready to hit hard, An Chu was scared instantly eyes tightly closed, not dare to look. Open your eyes again, only to see that the stick was taken away by the teenager, and a few more people fell around.

The boy looked at the people who had fallen around him, and his eyes were stern.

The shoe directly on the face of the fat man who fell at his feet, crushed a few times.

The fat man looked twisted, as if he could not stand this insult, did not know where to pull out a knife, directly flying up towards his chest stabbed.

The teenager's face changed slightly, took a step back, and then a flying kick, the knife directly out of the fat man's hand.

An Chu only saw a knife word straight towards his side stabbing, reflexively raised his arm a block.

Then, "hiss ~, it hurts ~" An Chu held his arm with one hand, tears fell directly down.

Huo Shi saw this, instantly low curse: "Damn"

Then directly one hand tackled the fat man's hand a fold, there was a scream, the next second directly flying up a kick to the fat man's head, and immediately the fat man fainted back.

"Still do not roll ~" Huo time open mouth.

The people who fell on the ground instantly got up, and a few people carried the fat man before leaving, and ran away in a huff.

Huo Shi looked at the innocent young girl who was implicated, and raised his step like she walked. An Chu instantly took two steps back.

"What are you hiding?" Huo Shi was a little annoyed.

"I'm sorry," An Chu bowed her head and apologized, tears still hanging in her eyes

Huo Shi: ". ...."

"What are you apologizing for? This is not your fault."

"I'm sorry," An Chu repeated the apology.

Huo Shi: "Okay, you win."

This time Huo Shi has walked to An Chu's front, spoke: "Let me see the wound."

An Chu did not have the courage to refute the school bully, let go of the hand covering the wound and raised it for him to see.

The company's main business is to provide a wide range of products and services to the market. The actual fact is that you can find a lot of people who are not able to get a good deal on this.

"No, it's okay, I'll go home and bandage it up." An Chu said in a small voice.

Let a person who is injured because of himself go home in dressing wounds, Huo time feel that they can not do, although this thing is not to blame for him.

The company's main business is to provide a wide range of products and services to its customers.

I opened my mouth and asked, "What's going on here?"

An Chu shrank back a bit and didn't answer.

Huo Shi pursed his lips, knew he was asking too much, pulled An Chu's arm, then gave her a simple bandage, thought for a moment; then spoke: "Follow me ~"

Suddenly a song rang out, Huo Shi reached out and picked up the phone.

Just pick up and heard from the other side: "Brother Huo, how come you're not here yet? I and Du Saner are already waiting for you, today is your birthday, you can't be late ....."

"Got it, you guys go first, I have some things on my side."

"Hey, Huo, really usually do not see you have so many things, how ...." Before he could finish, he was hung up directly by Huo Shi.

"Actually, you don't have to care about me, I'm used to it, really..." An Chu explained in a small voice, she didn't want to have too much involvement with this one school bully, and didn't dare to bother him too much

"Shut up and just follow me." Huo Shi opened his mouth.

This time An Chu is really not talking, Huo Shi: ". ...." He clearly did not mean this

"What's your name?" After a while, Huo Shi suddenly turned back and asked viciously.

An Chu was taken aback: "An, An Chu."

"Good, then you remember my name is Huo Shi, you can also call me Huo, got it?"

"Got it, Brother Huo~" An Chu said in a small voice.

Huo Shi was satisfied now, for some reason. He always felt that the word Huo was not the same as others in her mouth, and it was really damn good.

The school doctor looked at the wound on An Chu's arm and asked, "What's going on here?"

"It was accidentally cut by a knife." Huo Shi opened his mouth.

The school nurse instantly understood what was going on and reprimanded: "I don't care about you boys, you have thick skin and thick flesh, how can you also let your girlfriend follow you? She is a little girl, injured, but it is not easy to explain. Only you youngsters do what you want."

After listening to this doctor, An Chu's face instantly reddened: "It's not what you think, it's Huo who happened to meet me when I was injured so he was kind enough to send me."

The doctor skimmed his mouth, who believes ah, a good-looking little girl will be cut by a knife, is to cheat the fool. Then he saw the bruises on An Chu's arm, his face suddenly darkened.

"You young people in love I do not care, but to grasp the right measure, certain things that should not be done do not do, save later regret for life."

An Chu did not understand why the doctor suddenly said so, but Huo Shi understood, it is obvious that this doctor misunderstood.

His grandmother, if not An Chu is still bandaged, he really want to punch this doctor, open his brain to see what color waste is thinking.
