His Secret Millionaire's Wife

Chapter 1

"OMG! Who are you?" shouted Lauren.

As soon as Lauren entered her room, a big hand grabbed her and pulled her in!

The man covered her mouth with one hand, and grabbed her waist with the other, pressing her on the

sofa. He took off his

clothes and said with a vicious smile, "Don't try to fight back! I will make you comfortable tonight!"

Until now Lauren realized that this man wanted to rape her!

She used all her strength and kicked fiercely at the man's manhood. After getting up quickly, she

grabbed the fruit knife and

threatened the man with the knife.

"Who sent you here? Tell me!" Lauren said in anger and stared at the man.

She had been an orphan since she was little, but yesterday the Bennett family told her that she was Mr.

Bennett's daughter and

they wanted to take her home. So it must be that someone didn't want Lauren to come back to the

Bennett family.

"No one." The man looked at Lauren with disdain and he was not afraid of her threat at all and he was

not afraid of being sent to

the police station.

Lauren pursed her lips and looked at the man with deep eyes, "Really?"

"Ye... Yes!" As soon as the man finished saying, the knife had already pierced into his shoulder, which

caused the man to tremble

in pain!

Lauren continued and said calmly but threateningly, "What you are doing right now is burglarizing and

raping so even if I

'accidentally' stab you to death, it will just be legitimate defense. Now, are you going to tell me who

sent you here?"

The man immediately panicked and said, "I will tell you everything!"

The luxury car of the Bennett family was already waiting in front of Lauren's apartment and Lauren took

the evidence and went

back to the Bennett family's house.

When she arrived, Lauren heard a woman crying from inside the house. In the large living room, a

middle-aged couple and a tall

teenager were gently comforting the crying girl in the middle.

“Sally, don’t cry. Even if she comes back, we still love you the best,” Mrs. Bennett said.

“Your mother is right. You have been our daughter for more than ten years so even if you are not

related, we still love you.

Lauren is, actually a stranger to us,” Mr. Bennett said.

“Sally, don’t cry. You will still be our family, and if Lauren dares to bully you, I will immediately kick her

out of the family!” the

teenager said.

These three people were Lauren’s biological parents and younger brother.

Lauren sneered in her heart and walked in. After seeing her, these people immediately changed their

expressions and greeted

Lauren warmly.

“Are you Lauren? Mom misses you so much!” Mrs. Bennett said.

Lauren frowned indifferently and took out a piece of paper from her bag.

Mrs. Bennett was a little confused and asked, “What’s this?”

“This is the evidence of Sally, your daughter, asking someone to come to my place to rape me!” Lauren

smashed the piece of

paper on Sally's face.
