

Hot Meets Cold Chapter 5

Xu Yi in the dark: “!!!”

Peony peony flower!!!

Holy shit! Where’s this woman’s abnormality today, she’s been descended upon, right?

How dare she compare the boss to a peony flower!

Although the boss’s face was indeed so unbelievably beautiful that he, a man, was moved to look at it, the more familiar he was with him the clearer it was that how brutal this man’s nature was.

Xu Yi carefully sneaked a glance at his own boss, only to regret that he could not see at all what kind of emotions were in those dark, heavy eyes.

Is the boss this angry or not?

At this moment, Gu Yueze looked at the girl with a hateful face and even worse words in front of him, finally the last trace of patience also ran out, “Good good! Since you’re so stubborn, don’t blame me for not reminding you today if you regret it later! Ye ÒÒ, I have been kind to you to the end!”

Ye ÒÒ looked at Gu Yueze’s back as he left, looking a little dazed.

In her previous life at this time, what awaited her should have been Si Ye Han’s monstrous wrath, but this time, she had managed to change the trajectory of her life, Gu Yueze was gone, and Si Ye Han

The familiar aura had disappeared at some point.

This level, is it considered to have passed?

The moment she stepped into the living room, the familiar aura disappeared.

The moment she stepped into the living room, the familiar scent burrowed into every pore of her body.

“Come here.”

On the sofa, the man’s obscure gaze was like a net, spreading out towards her.

Ye ÒÒ stood in place, as if roots had grown under her feet.

Although she had been reborn once, the fear of this man that ran deep into her bones could not be changed.

However, if she wanted to change her fate, she had to overcome this fear.

Ye 00 pinching her palm to keep herself awake, she slowly walked towards the man.

Just as she got close, the next second, she was brought to sit on the man's lap, followed by a pain on her lips –

The thin lips of the man pressed down hard with a hint of coldness, rolling and nibbling on her lips a little, not letting go of any corner

The company's main business is to provide a wide range of products and services to its customers.

She couldn't help but think that the lipstick she wore today was even more exaggerated than last time, the colour was as if she had been poisoned, didn't he find it too hot for his eyes? She could not help but think that her lipstick was more exaggerated than last time.

Since she met Si Yanghan at the age of eighteen, she had been using all kinds of extreme methods to hide her true appearance for two whole years now, thinking that there would always be one that would disgust him.

Had she known this, why would she have tossed herself into this inhuman and ghostly appearance?

She had unexpectedly gotten up in Si Yanghan's arms and wandered off into the sky?

Once she returned to her senses, she was even more shocked to find that her neck was a little heavy, Si Yanghan was cradling her in his arms like a pillow, somehow resting his head on her neck, his hot breath just spraying her sensitive neck nest, his breathing smooth and long.

Sleeping

How could it be!

Ye 000 didn't dare to make a sound until she waited for half an hour and Si Yeh Han still didn't move, then she tentatively called out, "Si Yeh Han"?

The man still did not respond in the slightest.

Surprisingly, he was really asleep!

Not far away, Xu Yi, who was waiting at the door because he was uneasy, saw this scene and widened his eyes as if he had seen something incredible.

Ye ÒÒ was also amazed.

Because she clearly remembered that Si Yanghan had an extremely serious sleep disorder, and his physique was unusually resistant to drugs, many drugs did not work on him, and every time he fell asleep, he needed a professional psychiatrist to perform hypnosis.

Worse still, this man's mental strength is abnormally perverted and his psychological defences are extremely strong, making him difficult to hypnotise, and when he is in a bad mood, hypnosis is even more useless.

The Si family had hired countless famous doctors for him, but they were unable to solve the problem.
