

His True Colors Novel Chapter 2443 - 2445

Chapter 2443

George obviously didn't pay attention. At this time, the whole person was shocked by the magnificent scene, and it was difficult to extricate himself.

Ten thousand monks gather together, like ten thousand Buddhas returning to the sect. Such a scene is hard to see in this life.

"Donor Han?" The old monk reminded with a light smile.

Only then did George reflect, and he was taken aback for a while: "Master, what's your order." The

old monk smiled, and led George to the edge of the cliff with a few steps, smiled softly, and said: "The poor monk has already calculated it today. The wind and the sun are beautiful, it is the time of the devil, so already early in the morning, I asked my disciple to put up this ten thousand Buddhas refining array."

"Master of hard work."

"We are just doing small things. What's the hard work? No, the right to kill the Night Demon lies with your donor Han, and you are the one who really serves the people." The old monk shook his head softly and smiled bitterly.

"The master is serious, what should I do?"

"Later, when the sun rises, the mantras chanted by our ten thousand monks can reach the highest level. At this time, the night demon's cave below will open. This process only takes about ten times. About seconds, so Han Shaoxia, you have to be fast."

"Ten seconds is enough for me." Despite the height of a thousand feet, with George's supernatural steps, he is confident that he can do it.

"Okay, after you find the real body of the Night Demon, you have to use the Pangu Axe to kill it. Is there a problem?" the old monk asked.

George shook his head: "No problem."

"The day is peaceful, it will be handed over to Donor Han, Tianer!"

"Master, Tianer is here."

"Remove the golden robe and hand it over to Donor Han. "

” Yes! “

As soon as the voice fell, the little monk helped to remove the robes from the old monk and handed it to George.

“Master, no, George doesn’t need these. Little Night Demon can’t hurt me.” George shook his head.

“This is the purple gold robes of the Heavenly Dragon in our temple. It won’t melt when exposed to fire or water, and it’s even harder to approach with the spirit of evil spirits. The night demon is very powerful. You must not be careless.” The old monk said.

“Master, since Donor Han doesn’t want it, you can put it on. If you leave the robes for more than... more than half an hour, you will...” Hearing George don’t want it, the little monk Tianer’s eyes flashed with joy. , Hurriedly handed the robes to his master, and then looked at his master anxiously.

“Tian’er, Buddhism has a cloud, I don’t go to hell, whoever goes to hell, as a Buddhist, everything should be based on oneself and oneself in everything. Don’t be greedy for life and death, and don’t be content with wealth.” The little monk lowered his head, and then, the old monk looked at George and said, “Although Donor Han is powerful, the Night Demon and the Night Demon should not be underestimated. You should put on this heavenly dragon purple gold robe and take care of it. “

Although George didn’t know what happened to the old monk, he could hear from the words of the little monk Tian’er that this robes might be the life-saving thing of the old monk, and he was a little moved in his heart: “George really doesn’t need it. . ” “

Han donor! “the old monk looked embarrassed Korea three thousand, thinking for a long time, a bite, it is necessary to cliff jump suddenly, three thousand one hundred Korea to seize, emergency channel:” master it What does it mean?”

“The donor Han is fighting for the world, but he is unwilling to wear a life-saving robes because the old monk lives and lives. If this is the case, what kind of face does the old man have to be ashamed of the world? You can only apologize with death!”

“Master !” , Why are you, I have special defenses on my body, not to mention the night demon, even the magic dragon can’t do much with me.” George said helplessly.

“Is this really true?” The old monk finished speaking, looked at George suspiciously, and said: “But I don’t think you have any special artifacts to protect your body. Are you trying to comfort the old monk? Is this the only way to say that? If it is so, it must not be, otherwise the old monk will spend his life in regret.”

George shook his head helplessly: “I have a purple armor on my body, which I usually just hide on my body.”

“Sister Han, if you have one, you might as well let us have a look. At least let the master and the elderly feel at ease. He is like this...” At this point, the little monk Tian'er had tears in his eyes.

“My God, don't mess around!” The old monk gave a cold face.

“But Tian'er was raised by the master since childhood. If the master is not there, Tian'er will...” Being scolded by the master, Tian'er's aggrieved tears couldn't help but fall.

“Alright.” George is also a father, and naturally feels sorry for the child. With a little luck in his hand, the immortal mysterious armor suddenly appeared in purple light.

“This...” Looking at George's indestructible profound armor glowing with purple light, the old monk was suddenly speechless in shock.

The little monk was also full of joy: “Donor Han really has a special defense armor. This means that you really don't need Master's Heavenly Dragon Purple Gold robes. Master doesn't have to die, hehe.” After the

old monk was shocked, he glanced at George, at the same time, his eyes lightly looked at the immortal mysterious armor: “This purple gold armor, with purple light on its face, contains amazing power, and it is really not an ordinary thing.”

“Can I touch it? Donor Han? “

see George nodded, not in the old monk nonsense, gently touched, Leighton time his face betrayed a look of admiration:” good stuff, good stuff, it really is a good thing ah, both of these items , This Tianlong Zijin robes is indeed a bit redundant.”

“Since this is the case, the poor monk is relieved.” The old monk smiled.

George nodded and took the Immortal Profound Armor back again, and his whole body was restored to its original state in a short time.

“Okay, that's the case, then let's officially start refining demons, Donor Han, are you ready?” The old monk put away his smile and said in a serious manner.

George nodded, indicating that he was all right.

“Break the night demon, the evil demon will be eliminated, and your group of friends will return to normal, Donor Han, it's up to you,” the old monk said softly.

“Good!”

“The monks listen to the order!” the old monk said.

“Yes!”

“Ten thousand Buddhas refining demon, officially begin, chanting mantras!”

“Yes!”

As the crowd responded, the old monk closed his eyes and opened his mouth slightly, and the whispering Buddhist words followed.

At the same time, the Buddha’s sound began to entangle in all directions on the entire cliff top. Accompanied by the sound of wooden fish, the anti-buddha made people feel like a world of three thousand Buddhas.

Tightly, the sun in the sky also slowly rose, and accompanied by the Buddha’s sound, a beam of sunlight drew in and hit the center of the black heart.

As the sunlight entered, a huge hole was suddenly torn open in the center of the heart.

“Donor Han, the demon refining formation has been opened, the magic cave has been opened, you have ten seconds!” Tian’er hurriedly urged.

George didn’t think about it anymore. After a nod, his body’s energy exploded and instantly turned into a light and shadow and flew directly into the devil’s cave!

Seeing George fly away, the little monk and the old monk glanced at each other, revealing a deep smile.

Chapter 2444

Brush! Ten seconds is too long for George. He can even fly directly into the magic cave from above a thousand feet in just one second.

And when he fell into the magic cave for a moment, the gap above his head quickly closed, and the sunlight above his head faintly shone through the upper part of the magic cave. For a while, George was in an extremely blood-red space.

The space is huge, as huge as the “heart”-like cave in the sky. The air is filled with an unpleasant smell, and some of it makes people feel extremely dizzy.

Slightly adjust the chaotic air to move around in the body, and the feeling of dizziness is much better.

At the same time, he summoned the Skyfire Moon Wheel in his hand, and George walked inside vigilantly.

The more you go in, the unpleasant smell becomes more pungent and even makes you nauseous.

But at this time, George didn't have time to think about it, because he was right in front, lying there like a monster with a big blood-red heart.

Said it is the heart, but it is indeed the heart, and it seems that it is not.

It has the shape of a heart, but it seems that countless hearts are piled up together, and then wrapped tightly by a green vine. There are countless huge eyes that resemble blood vessel openings. Looking at it, it is disgusting.

With it beating like a heart, the whole magic cave trembles slightly with frequency.

With a move of George's hand, Pangu axe suddenly fell into his hand.

brush!

At the same time, countless ground spikes were suddenly released from the ground, and they slammed on.

If it is an ordinary person, I am afraid that he will be directly stabbed into a hedgehog on the spot, but for George, this is obviously too slow.

At the moment when the stabbing was almost lifted, George already flew into the air, bent his waist, drew the full moon, the sky cremated the bow, the moon wheel turned into an arrow, brushed, and shot straight away.

boom!

The entire Thousand Eyes' heart trembled violently in an instant, and the moon wheel slammed with purple electricity, bombarding it.

“Boom!”

Qianyan's heart also made a loud bang, and the vines tied to his body suddenly turned into countless hands, and hit George directly.

The sky fire instantly turned into a sword, and the purple electric jagged moon wheel suddenly turned into a knife and flew back to George. George held the sky fire sword against countless hand-like vines and slashed directly. No Master automatically revolved around George, cutting all the vines that had stretched out.

“That's it?” George smiled coldly.

With a slight twitch in his hand, the golden Pangu axe instantly turned into a bronze color! Almost the moment he touched George, the golden Pangu axe instantly turned into a bronze color!

A strong coercion was suddenly implied as Pangu axe changed color!

“Roar” seemed to feel the immense pressure of Pangu axe, and the heart of Thousand Eyes suddenly uttered a low whistle, the echo oscillated, and it was extremely terrifying.

George’s face was cold, his teeth were slightly bitten, and there was a trace of anger in his eyes, holding an axe, flying, and cleaving!

Zi Zi Zi!

Almost at the moment when the axe was raised, lightning interlaced in the entire magic cave, the air was torn apart, and an invisible strange force followed the axe.

Ten thousand vines hurriedly attacked, but obviously, these vines are under the Pangu Axe, but the dry branches meet the raging fire, and they melt!

“You should return to the West.”

George snorted coldly!

boom!

The axe’s light instantly hit the heart of Thousand Eyes. With an explosion, the heart of Thousand Eyes burst suddenly, and the liquid like flesh and blood burst out.

How big this Thousand Eyes heart was, how miserable it is now that it exploded. As the explosion gradually stopped, there was already a place of blood plasma and rotten meat on the ground.

But among the rotten meat and plasma, there was a monster with blood-red rays standing there, like a toad and a dog, with blood red eyes, mottled blood on the surface of the smooth skin, the size of a dog, its mouth like a crocodile, and a pointed mouth. Teeth were bare, and the disgusting Harazi kept falling from his mouth.

Looking at George at this time, he grinned and looked vicious.

“Is this your body?” George frowned slightly.

At the same time, holding the Pangu axe in his hand again, George was not soft-hearted to deal with these things.

“Goo!” With

a weird cry, the thing that looked like a frog and a dog immediately pounced on George.

The speed is so fast, even George, who is known for his fast speed, can’t help but froze. After all, it can be comparable to the speed of George. I am afraid that except for Ginseng Baby, George has not seen anything else, but this guy is better than Ginseng Baby’s. The speed is twice as fast.

Almost as soon as he raised his hand, the guy had bit George firmly.

And at the moment when George was stunned, a black light suddenly burst from the pile of rotten meat, and a gap suddenly cracked at the top of the devil's cave. Through the gap, the black light flew out.

George wanted to chase after him, but the frog dog in his hand bitten wildly.

When he was angry, he suddenly heard screams from outside, and the sound of Buddha in the sky began to be a bit fragmented.

George frowned, eager to get rid of the frog dog in front of him, but the speed of this thing was too fast, and when he was entangled, suddenly, a face appeared above the crack...

"Donor Han, the night demon ran out Now."

George glanced back and found that it was the little monk...

Chapter 2445

"Tianer?" George was taken aback.

The young monk's immature face was already full of blood.

"Why are you here?"

"Master sent me down. The night demon ran out and killed the Quartet. Our ten thousand monk formation has been broken, and the master is fighting the night demon blood. However, we really are not him. Master is almost unable to withstand the opponent, so I specifically asked me to come to you for help." Tian'er said anxiously.

It's not that George doesn't want to save. The problem is that this frog dog is too difficult to deal with. His aggressiveness is not particularly strong, but his speed is so fast that he was still biting his right hand, but just as he hit it, it was already on his left foot. Up.

It's so annoying that it almost breaks down.

Seeing George being entangled, Tian'er looked back anxiously, and then turned around and said: "Donor Han, come on, many seniors have been killed, Master... Master... the old man has also vomited blood."

"We ." Death is not terrible. The problem is that after we die, no one knows how to suppress the Night Demon, and more importantly..."

"What is more important!" George drank coldly, constantly dealing with him in his hands. This frog dog.

“The most important thing is that once the night demon absorbs the blood of the monks in our temple, the cultivation level will be greatly improved, and even invincible in the world.” Tian’er said almost desperately.

“But right now this guy...” George was also very annoyed, and the frog dog made it difficult for him to get out.

“There is another way, but...”

“Say!” George said.

“With the help of the donor your Pangu axe, the Pangu axe is the king of all weapons, and everyone is urged. Although the master and his elders are not as good as the night demon in cultivation, but with such a divine weapon in the body, it will inevitably stop the night demon. Wait for you to clean up this monster, and then clean up this night monster.” Tianer said.

George frowned, borrowing Pan Gu Axe?

“If the donor refuses, it doesn’t matter. I also know that Pangu axe is extremely valuable and is your personal weapon. It is really difficult to find you to borrow.” As soon as the voice fell, Tian’er got up and left.

“Wait!” At this moment, George’s expression became cold, and he drank softly.

Tian’er was taken aback, and when he turned his head, he saw George smile slightly, and then threw a big axe from his hand.

“Pangu axe, the benefactor...” The little hand took the Pangu axe, and the huge weight almost dragged his entire body down from the entrance of the cave. But fortunately, although he was young, he entered the temple as a monk, but he had a lot of energy to practice. Bigger than ordinary people.

Seeing Pan Gu Axe, the little monk Tian’er was suddenly surprised.

“Don’t be silly, saving people and eliminating demons is important.” George said softly.

“Okay!” Tian’er smiled, nodded vigorously, and got up from the ground holding Pan Gu axe.

only, while George lowered his head and continued fighting with the froggou, the kid’s face showed a grinning smile that shouldn’t be at this age.

“Then donor Han, come on.” Tian’er smiled and stopped talking nonsense. He turned around and flew towards the top of the cliff holding the Pangu axe.

And almost at this moment, the hole that broke out was also closed in an instant.

If George could come out to take a look at this time, it would be obvious that there were no night demons slaughtered, let alone any corpses all over the field. The mountain is still the same mountain, the forest is the same forest, all the scenery remains the same, the sun and the sun are breezy and calm.

When Tian'er flew back to the top of the cliff holding the Pangu axe, the old monk took the Pangu axe and looked at the magical giant axe, his eyes full of greed.

“George? Pangu Axe? Haha, hahahaha!” The old monk laughed loudly.

What's more, all monks smiled all around the top of the cliff.

Hearing the laughter outside, George in the devil's cave suddenly became cold and his heart sank. The laughter outside had obviously made him understand what was going on.

Almost at the same time, the frog dog biting his right hand suddenly had black gas all over his body. After the black gas had dissipated, the frog dog still had its original appearance, but it was an extremely strong black iron shackle.

Almost just before George could reflect, with a bang, the black shackles slammed into the wall next to George's body, and with a creak, the shackles stared at the wall firmly. He locked George's right hand tightly on it.

George tried to move, but found that the lock was very deadly. Even with George's power, he couldn't even shake it.

But at this moment, light suddenly spilled in from the top of his head, and George raised his eyes and saw that a transparent barrier formed above the devil's cave.

Above the barrier, the old monk flew down with a few disciples and Tian'er. After landing steadily, he bent around and looked at George amusedly and triumphantly through the barrier.

“Tsk tsk..., interesting, interesting, interesting. Demon God? Hehe, does it look like this?”

“Master, the Demon God does not have one here, but there is a dog in a cage.”

A group of people don't even have that body. The dignified behavior of the monk is now more like a vicious and ra5cal ba5tard.

“Hey, the Pangu axe that the world has dreamed of. How many people have died in order to fight for him, and so many people on the top of Qishan can't get it. To me, it is just a blow, you say, George.” The old monk is proud. After smiling, he turned his gaze to George, full of mockery...
