

HTC 4121

## Chapter 4121

The further you go to the southeast, the sparser the trees are, and the vegetation-filled land begins to bare, revealing the most rocky layers.

“The further we go, the more desolate the front seems to be.” Amelia Su frowned slightly.

Ziqing also nodded and said, “The front is like a rocky place.”

George Han glanced at the front, and it was a gray area, as if the anti-Buddha had walked into some hazy place.

“There is something wrong with the situation, everyone should be careful.” George Han said.

The two women nodded, followed behind George Han, and continued to go southeast.

When more than an hour passed, when the group of three people had penetrated into the rocky area for a long time, the increasing pressure caused the three people to stop completely, not daring to take a step forward.

“I’m out of breath

.” Amelia Su frowned.

George Han was also a little uncomfortable. Although Ziqing had set up an energy shield for the three of them when they entered the rocky area, even under the protection of the energy shield, the three of them could clearly feel the madness of the air pressure outside.

It’s like the feeling of stepping down from the sky, and the pressured life can’t breathe.

“What should we do? Maybe we haven’t reached the core area yet.” Zi Qing said worriedly.

Just being outside is already so uncomfortable, how uncomfortable is it to enter? And if that person still appears, how terrifying the situation will become?

Thinking of these, the three people’s hearts are actually very aggrieved and unconfident.

However, George Han was not overly worried.

The so-called soldiers will block, the water will cover the soil, and they will come. How can there be a reason to retreat halfway? !

“Let’s go.” Han

George Han smiled softly, waved his hand, and walked slowly towards the front with the two girls.

Of course, it was only a few steps, and suddenly, the ground seemed to shake violently.

The three of them were a little unsteady, and they just stood firm with each other’s support, but the dark clouds above their heads had already been pressed down at some point.

The mountains and rains are about to come, and the clouds are pressing down on the city. This is the situation at this time.

At the same time, there were bursts of terrifying high temperature invasion.

“Three thousand, look!” Amelia Su suddenly pointed at the feet of everyone.

The two looked at the sound, only to see that under the cracks in the rocks on the ground, there were no gaps, but layers of fiery red magma.

A group of three people prevent the Buddha from being placed on the top of the volcano, and also prevent the Buddha from being on the molten slurry.

The heat and even the intense burning sensation swept through the three of them crazily. Even with a shield to support them, they still couldn't resist this super heat wave.

Before the three of them could catch their

breath, they were already covered in sweat, their clothes were almost soaked through, and then they dried out again under the high temperature, and so on and on and on.

“Three thousand, you can't stay in this place for a long time, otherwise in ten minutes, the three of us will be completely familiar.” Amelia Su said anxiously.

Ziqing also nodded anxiously: “The heat is too high, I have tried to push the whole body to really withstand the energy shield, but unfortunately, the effect is very small.”

George Han looked at the melt under his feet. Pulp, slowly withdrew his gaze and looked forward.

In front of it is an almost endless magma field, with almost no head and no edge in sight.

Judging from the current situation supported by the two women, ten minutes, let alone crossing this place, even if you want to get a little closer is a huge problem.

It seems that it can only retreat.

However, looking back again,

there are also continuous molten hot stones behind, and there is no end or end in sight.

“It seems that there is no advance, no retreat.” George Han said bitterly.

The two girls looked at each other, and they couldn't help but be dumbfounded.

However, when they asked George Han what to do, there was only a continuous stream of molten hot stones in front of them, and there seemed to be no difference behind them.

But why is it now that after George Han said this, the rear has begun to see no end...

“Three thousand, what should I do?” Amelia Su was a little panicked.

George Han smiled slightly: “What else can I do? Waiting here to be cooked, or scorched.”

Even so, George Han still moved, but his movement made Ben even more so. The nervous two women's eyes widened and they were dumbfounded...

"Brother George Han... what is he doing?"

## **Chapter 4122**

Amelia Su wanted to answer, but she was too surprised, and she just opened her mouth slightly for a while, but did not make any sound.

It's not that Amelia Su is not stable enough, it's that George Han is too rough now.

This guy actually rushed out of the energy circle directly, facing the overwhelming heat wave and the rolling lava under his feet with his "naked naked body" without cultivation.

It's not as simple as crazy, it's just downright deadly.

When Amelia Su reflected and wanted to reach out to pull, George Han turned around and waved at him, signaling the two women not to come out.

Immediately afterwards, he took a slow step towards the ground full of lava.

As soon as the soles of the "Zi"

feet touched, the high temperature immediately swallowed

George Han's shoes.

From a distance, George Han stood there like a burning man.

However, George Han didn't have the slightest worry on his face, and looked forward very calmly, as if letting the fire burn him.

For George Han, such a move is not crazy, on the contrary, he believes that it should be done like this.

The reason is very simple. Here, it should be the core area where the person from the southeast is located.

And the basis for the judgment is also very simple, that is, the front and rear are endless lava, especially the lava in the rear will appear this kind of boundless situation later.

"The road of life and death, death is life, life is death, you should come out too." George Han smiled softly and

looked around.

There was no movement, George Han seemed to be talking to the air.

The temperature is still extremely high, and the flame is still burning wildly on his body.

A faint green light began to appear slowly on George Han's body. The spiritual energy of the Seventh Spirit Monkey was helping George Han and resisting the attack of external flames for George Han.

"I know you're here, you can't burn me to death, so just show up." George Han said.

As soon as the words fell, just when the two women were strange, their feet began to vibrate, and less than a few meters in front of them, the lava on the surface suddenly began to erupt, and many of them continued to erupt from the cracks in the ground like a fountain.

And the most frightening thing is that there is a huge thing slowly rising from these lava.

“What is that?” Zi

Qing suddenly said in shock, pointing her finger in front of her.

In the lava, a behemoth rose from the lava, its whole body was red, and countless solutions were dripping from its body.

This thing is at least half a mountain high. It stands in front of the three people. There is almost no light in the eyes of the three people who are hard to cover. When they look up, their whole body is composed of huge stones. Each limb is several meters long. The breadth of meters, just the head on his shoulder, should be the size of a football field.

Its eyes are blood red, big and hideous, and there is a full majesty in the terror.

“Roar!”

His mouth was wide open, and bursts of smoke came out from between his mouths. His momentum was abrupt, and the air was also shaken by his roar.

The three people on the ground only felt a strong hot wind attack. Even George Han, who was protected from the fire by Yuguang

, subconsciously blocked it with his hand, and then looked at his hand, but it was dark.

so fierce? !

George Han couldn't help frowning slightly, obviously a little surprised.

This guy just roared, this breath is so powerful, if this is a fight, is there still a fight? !

by!

However, since everyone has come, George Han is not afraid.

Looking at the lava giant beast, George Han did not panic at all, and was slightly polite at first: “In Xia George Han, I came here specifically to invite senior...”

Before the words were finished, the big hand a few meters long turned towards him. George Han waved with all his strength.

That kind of feeling, as if a mountain was suddenly thrown towards you!

George Han's eyes widened immediately, c'mon, so fierce? !

### **Chapter 4123**

George Han did not dare to be careless, and ran back in a hurry.

But obviously, with his uncultivated body, it is actually impossible to avoid this seemingly cumbersome fatal blow.

Amelia Su had no other way but to quickly activate the true energy in her body, and took one step forward, forcibly pulling George Han back.

However, although they escaped in a thrilling manner, the huge stone arm still rubbed George Han's back and smashed directly onto the molten lava on the ground.

For a time, the rock shattered and the lava splashed.

George Han looked back, and couldn't help but be afraid for a while. Just behind him, the punch went down, and a huge deep hole was smashed on the ground.

Damn, if this hit him, then he would have to be beaten into patties on the spot.

It is indeed extraordinary to be able to fight with that person.

Thinking of this, Han

George Han couldn't help but take a step back facing it.

"Senior, George Han doesn't want any conflict, can we have a chat?"

"Roar!"

He punched in the air, it seemed rather annoyed, his mouth opened wide, and he was furious.

"It probably doesn't understand what you are saying, or it doesn't want to listen to you at all." Amelia Su said while supporting George Han while looking at the monster vigilantly.

George Han nodded, and he can basically see it now.

"It seems that I have to fight him hard." George Han frowned.

This is the worst option, but obviously, the only option.

The only thing you can do for this kind of violent thing is to completely defeat him and strike him.

Thinking of this, George Han's head began to spin rapidly, trying to find a way to deal with it.

"I'll deal with it together with Ziqing."

Amelia Su said.

George Han hurriedly stopped: "No."

With the cultivation of the two women, there can only be one result of rushing up, and that is pure courting death.

The two of them, in the face of such things, let alone delay, I am afraid that they will be completely defeated in only two or three rounds, which is no different from pure death.

"Their cultivation is far beyond your imagination, so don't trade in." George Han said.

“Then what should we do? There is no way to go back, is it possible that we can’t go, let you go?” Amelia Su asked anxiously.

Among the three, the two girls have the highest cultivation base, but if they are not able to match because of their insufficient cultivation base, only George Han, the weakest of the three, will be left.

“Then I’ll go.” George Han nodded slightly.

Hearing this, the two girls were shocked.

Of course, George Han didn’t care so much, and he had to leave before he got up.

Amelia Su hurriedly grabbed him: “You don’t want us to come, because you are worried that we will be spiked, but in turn you will be spiked by him, don’t we worry?”

George Han smiled slightly, of course he knew what Amelia Su said. blame and concern.

However, he also knew that, when he got here, he could really resist it, and maybe only he had this possibility.

Gently patted Amelia Su and held his hand, George Han gave her a comforting smile: “Although I don’t have a cultivation base, I’m not completely useless.”

When the words fell, Amelia Su looked at George Han for a long time, saw his confidence in his eyes, nodded, and let go of his hand.

George Han approached the lava monster again, without the slightest fear, just looked at it indifferently.

“You want to kill me? I’m afraid it won’t be easy.” The

little black stick flew out of George Han’s body

and .

In the face of the attack of the little black stick, the lava monster Anti-Buddha didn’t take it seriously at all.

boom!

The stick rose and fell, hitting the monster’s shoulder with one hit.

There were explosions, and the magma burst, but the monster didn’t seem to suffer at all, just slapped the little black stick, just like a person slaps a mosquito, and the little black stick fell with a snap.

On the other hand, the lava monster just patted his shoulder and seemed to be unaffected at all.

“Roar!”

He roared angrily, staring at George Han with big eyes, and he was very dissatisfied with the attack by the Buddha George Han.

George Han was not polite, and without turning his head, he whispered to the two women, "I need your help." When the

words fell, the little black stick suddenly flew towards George Han, turning into a cloud to carry George Han, and The two women also attacked the lava monster from left to right almost at the same time...

#### **Chapter 4124**

two women are supplemented, interfering with the lava monster, and the little black stick flying with George Han, which is a frontal attack.

Since the little black stick can't break the defense of the monsters formed by this stone, let him try to overlook and kill from the Pangu Axe!

"Roar!"

Feeling the enemy's attack, the lava monster also slapped its chest suddenly, took a few steps forward, and rushed towards the three of them.

"Crack!"

"Crack!"

However, what shocked George Han was that when the three attacked, Amelia Su and Ziqing, who were divided into left and right attack, barely even touched the door, the lava monster left and right Waving fists twice.

Although they failed to hit the two women, their strong energy still made the two women instantly fall from the sky as if they were hitting a wall.

"Damn it!"

George Han's plan fell through in an instant, and this damn thing ended before it even started.

How is it now?

If you withdraw in time, the

two women plan to suffer in vain, but if they don't withdraw, it is equivalent to wanting to cut down the lava monster by themselves. If the two women are not opponents and cannot get close, how can they be?

However, no one would give George Han the time to hesitate. The giant beast settled the two flies. Looking at George Han, the culprit, he was already full of anger, and he rushed towards George Han with his teeth and claws.

George Han scolded in a low voice, hard-headed, and he could get it if he didn't.

Pangu's axe was drawn directly, and it charged directly at the lava monster.

"Roar!"

The monster was also furious, his hands were like gorillas, he first lifted it suddenly, and then slammed it towards George Han.

“Be careful!”

The two women who fell to the ground, ignoring their own injuries, stared nervously at George Han in the sky, and couldn't help but break into a cold sweat for him.

“Little black

stick, it's up to you to live or die.” George Han shouted and made a quick operation. When the giant lava hand hit, he used the speed of the little black stick to get rid of the overwhelming blow.

The little black stick is really not extraordinary. Under the situation that he was bound to be hit, he actually relied on himself to squeeze out a little space and escaped with George Han without any danger.

“Pretty!” The

two women couldn't help but go crazy for this move. Even if they were just watching a play, the performance of this play was absolutely high-end and perfect.

Of course, just when the three of them were secretly rejoicing, the lava monster did not reduce its offensive in the slightest.

“Is he crazy?” Zi Qing asked in shock.

Obviously it has been empty, no matter what the reason, it should be the end of the force.

There's really no need to waste energy.

Amelia Su

's brows were furrowed. She did not understand a little, but, according to the monster's ability, it was unlikely that he would make such a low-level mistake.

Then what is he doing? !

Just when Amelia Su was confused, all of a sudden, all the results were clear.

Even though the monster's palms were empty, they still hit the ground heavily.

The next second, everything seemed to be quiet for one second, but the next second, the earth shook! !

boom! !

The tenth magnitude earthquake of Anti-Buddha suddenly struck, and the hard and thick ground was like that faint ice surface in an instant.

“Hey!!!”

And those original ground cracks, at this time, are completely due to the crazy movement of the ground, the plate has moved greatly and the cracks have opened wider. At the same time that countless magma is ejected from the cracks, super strong air waves also follow.

rise.

The air waves were soaring into the sky, hundreds of meters high.

Amelia Su's pupils widened, and now she finally understood why the monster had no plans to stop.

That was simply the monster's next move.

In order to slap the ground, inflate the vibration, and set off a shocking wave, nothing can be left to chance in such a full-screen attack.

"f\*\*\*ed." Amelia Su exclaimed.

Originally, they had a little time to escape, but because they didn't know what the monster was doing, not only did the group not escape, but they were still watching.

This time, there is absolutely no chance.

Amelia Su and Ziqing were the closest to the ground, and they were the first to be lifted up by the air waves, and George Han who was in the air was obviously too late to dodge. At the same time, it was also directly lifted into the air...

#### **Chapter 4125**

"f\*\*\*!"

George Han yelled in pain, trying to make the little black stick control himself, but it is a pity that Even it, like itself, is rapidly "going to the sky".

With just a slap on the ground, the aftershock wave can make people like this. George Han really can't imagine what it will be like if he takes a solid punch from this guy.

"Roar!"

And the lava monster, after a blow from the ground lifted everyone up, was not idle at all, and with a roar, the huge fist struck again.

In a situation where he has completely lost his control, it is impossible to dodge the giant fist that comes directly again.

The two women looked at each other, anxious in their hearts.

George Han's heart also sank. He knew very well that he couldn't dodge this punch, and if he couldn't dodge it, he would face disintegration and terror.

"f\*\*\*,

I can only fight hard." As soon as he gritted his

teeth, George Han moved his hand!

When the giant fist approached, he moved directly with his backhand, and the Pangu axe suddenly fell across his body.

Even if he can't hide, George Han is determined to be a hedgehog, and he must tie him before he dies!  
boom!

Almost at the same time, the giant fist arrived and hit Pangu's axe directly.

There was no feeling at first, but in the next second, a strange force came directly from the Pangu axe. George Han's hand clenching the Pangu axe directly felt that the anti-Buddha was directly penetrated by the huge electricity of tens of thousands of volts and shook. generally.

Then, the body lost consciousness and flew directly to the rear.

In the sight of the two women, George Han's body was more like a missile that was launched. It flew out in a parabolic trajectory and hit the distance...

"Bang!"

And almost at the same time, The giant stone fist that hit China and South Korea 3000, also after a while, suddenly made a loud noise

, then cracked countless cracks, and finally, with a bang, the fist was completely shattered on the spot.

Under Pangu's axe, An You finished the egg, even a stone that could not be broken by a small black stick was still just a dead soul.

"Three thousand!"

Amelia Su watched George Han fly far away, struggling to stabilize her body from the air to chase after George Han, but as soon as she moved, she was stunned to find that her body was already injured by the air wave. , for a while, it was completely impossible to tune up the real energy as usual.

Ziqing also wanted to move, but compared with Amelia Su, there was no difference at all.

They could only watch.

The little black stick was transformed in time, but because he was in almost the same position as George Han, although he was not guaranteed to be hit by a fist blow, he was also injured by the fist wind to some extent, and his posture was difficult to adjust for a while.

It is worthy of being the real "big devil". With two moves, Han 3,000

people lost their fighting ability and action ability, which is not terrifying.

At this time, George Han came out with the flying. In fact, he didn't feel much at all, because George Han had already fallen into a coma completely because of the super impact.

With such an instant power, even though George Han has countless things that can protect his body, it is obviously a fool's dream to complete such a defense in an instant.

Several seconds passed, even half a minute passed, but George Han, who was floating in the sky, didn't mean to stop at all, and even the downward arc of the parabola was not too big.

This means that George Han may continue to fly...

However, at this moment, a jade light flashed on George Han's body, and the next second, the whole person suddenly opened his eyes.

"Damn!"

The moment he almost opened his mouth, he screamed in pain.

George Han

felt that his anti-Buddha was directly turned upside down, almost all the internal organs were displaced, and the muscles and bones of the whole body were completely changed.

"Fortunately, there is a Pangu Axe!" If you

can't use its strong attack, then you can use its strong hardness. Anyway, the king of all weapons can't kill others, at least it won't be interrupted by others.

However, this is the case, this time the force on his body still makes George Han really can't bear it.

He had completely passed out and lost consciousness just now, and he simply thought that he was different from ordinary people and had other bodies to protect him. Otherwise, George Han would never be able to swallow this breath.

"I can't do it without you."

George Han took out the token in his hand. Now, he has nothing to do with that guy, he can only rely on him.

"Senior, it's up to you." When the

words fell, he said lightly to the token...

## **Chapter 4126**

First, there is no response, and even George Han thinks that he has made a mistake.

But in the next second, a black light suddenly appeared in the token. After that, George Han was surrounded and swallowed by the black light.

If someone looks at George Han at this time, it must be seen that George Han is like a black meteor flying horizontally, and the black gas has spread more and more.

"Have you learned his horror?" the man chuckled softly.

It really is the voice of seniors.

George Han looked around his eyes, but all around was pitch black, and he couldn't see him.

"Even if you use the token, it may not be his opponent." He said.

George Han's face was slightly shocked, which he didn't expect. However, after thinking about it, he seemed to understand the reasons.

If the gods and the demons fought, and the two sides were tied to death,

after death, in the forbidden area full of death breath, how could the divine consciousness face the demon soul as before.

One trade off, one trade off, but that's it.

"Actually, to be honest with my seniors, I still have a killer move." George Han said.

"Oh?"

"Originally, I thought it would be used when dealing with seniors, but..." George Han smiled bitterly.

"I probably know what it is." The man smiled lightly.

"Can you do me a favor, senior?" George Han asked.

"When I gave you the token, I already agreed, so why should you ask. Still, you young man, do you have any good strategies to defeat the enemy?" he said.

George Han nodded, since it was impossible to fight recklessly, so he could only outsmart it.

"The younger generation thinks that that guy is so huge

that he is naturally invincible and invincible. But on the other hand, these advantages will become disadvantages at some point."

"This has always been the case in this world. There must be disadvantages."

The man smiled lightly, agreeing with George Han's opinion: "Yes, that's right, this is also the meaning of yin and yang. If there is yin, then there must be yang."

"What the junior thinks is that Use this." George Han said.

"Okay, tell me, how do you want me to help you?"

George Han smiled softly and opened his mouth slowly.

About a few seconds later, the black air mass that was rapidly retreating suddenly stopped, and then, he suddenly exploded with black air, so that the surrounding area was filled with black air, as if a brief night had fallen.

boom!

After that, a black sphere

at the core came out directly, and went straight towards the lava monster in the opposite direction.

"Roar!" On

this side, the lava monster after flying George Han didn't plan to stop. As far as it is concerned, Amelia Su and Ziqing were no different from George Han.

They're all just annoying flies, and they should all be dead.

He raised his big hand and attacked the two women again.

Even though the poor two women wanted to struggle and resist, but the physical injuries did not allow it, they could only watch the big fists smashed towards them.

boom!

Fighting with both hands, for the two women, they both saw a giant mountain pressing towards them.

Seeing the fists getting closer, the two women gradually changed from panic to relief, since

If there is no way to hide, then it is better to face death peacefully.

But just when the two girls closed their eyes, there was a loud bang, and the two girls subconsciously closed their eyes, but they never felt any serious damage to their bodies.

In panic, they raised their heads, but the two women were stunned to find that the huge body that was already far away from the two women suddenly fell backwards at this moment.

Looking back, the two women were in the sky above their heads, and at some point, a black gas had already formed.

"I haven't seen you for so long, and my temper is still so irritable." The black air said to the lava monster indifferently.

The lava monster was attacked and instantly retreated several meters away. After that, he straightened up slightly and looked back at the black gas. He didn't do anything for a while, but stared at the black gas...

## **Chapter 4127**

"Hoo!" The

lava monster did not speak, but did not directly act like before, just exhaled a big mouth, It seems to be warning, and it seems to be questioning.

"I think you used to look a little like that, but now, you've become such a monster." Hei Qi continued to whisper.

"Roar!" The lava monster seemed to be agitated by this sentence. It roared violently, and stomped its feet violently, so that the ground swayed wildly, like an earthquake again.

"Well, it looks ugly, but it should be stronger. Today you and I will fight again."

As soon as the words fell, he suddenly attacked, and the black energy was like a black dragon in an instant, approaching the lava monster.

The lava monster also roared angrily and faced it!

The two sides immediately faced each other.

The lava monster is the same as before, with a huge body, a powerful force, and a wide range of natural moves.

And the black air is like the body of breath, the dragon travels between the snakes,

full of enchanting and fantasy, can dodge the opponent's attack between moves, and at the same time can always be quickly attached at a strange angle, a series of blows.

It's a real encounter of power and skill.

You come and go on both sides, and the heat is extremely hot for a while.

Amelia Su's side was the first to stand up from the injury, and took a few steps to help Zi Qing up, while watching the two big men fighting, while quickly retreating away quietly.

When passing by the falling black stick, she also picked up the small black stick and took it with her.

"Sister Amelia Su, is that person the one who competed with Brother George Han before?" Zi Qing looked at the black air and couldn't help but wonder.

Amelia Su is not easy to answer, but, looking at his appearance, it seems to be correct.

"Strange, how could he rush over from George Han's direction, George Han?" Amelia Su was more concerned about the situation behind.

But looking back, the rear is

already normal, and there is no trace or movement that may be related to George Han at all.

"Otherwise, while they are fighting, let's find Brother Three Thousand." Zi Qing suggested.

Amelia Su thought for a while, although the person who left them to help them was indeed not a human being, considering the cultivation of the two of them, it was not really helpful.

Therefore, Amelia Su immediately decided to go to George Han immediately.

But just when the two women were about to make up their minds, suddenly, there was another muffled sound on the ground, and when the two women looked back, they were very stunned.

After a complicated fight, the two masters seem to have won the battle.

With Sombra being caught, or in other words, the advantage of the lava behemoth's brute force, Sombra was directly knocked back by the punching wind.

"Crap, he can't beat it either." Amelia Su said anxiously.

Ziqing was also worried. In terms of

strength, George Han said that that person's cultivation was already superb, and it was far from what the two women could imagine.

However, now that even he is not the opponent of the lava giant at all, what should the next group of people do? !

"Sister Amelia Su, otherwise, let's get out of here after we find Brother George Han, we..." Ziqing was unwilling to admit defeat, and knew the significance of this place to George Han.

However, now that the matter has come, she has no other way but to endure the discomfort in her heart and say retreat.

Amelia Su was also hesitating, George Han's life and death were uncertain, and the black qi couldn't defeat this beast. It seemed that everything was in a dead end, and retreating was the only way.

But just as he was about to give the order, she suddenly felt that something was wrong.

"Ziqing, do you have one..."

Before Amelia Su

finished nodded and replied, "It seems that there is something wrong with the surrounding air."

Amelia Su felt the changes in the surrounding air seriously, and suddenly, she slowly felt it. This faint pressure was pressed all the way from the top of the sky.

But when I looked up at the sky, the sky was dark, and I couldn't see clearly what was on it.

"Sister Amelia Su, in the sky... it seems that something is falling towards us."

Amelia Su nodded heavily when she heard the words, but there was still nothing else in the sky.

However, the more there is nothing, the more Amelia Su and Ziqing feel that the thing falling from the sky is getting closer and closer to them.

"Sister, look!" Suddenly, Zi Qing hurriedly pointed to the black clouds on the top of her head.

The whole person was suddenly surprised. Amelia Su glanced at it and found that a huge black spot was swooping down rapidly...

## **Chapter 4128**

What is that?"

Amelia Su was stunned.

It was completely wrapped in a mass of black air, but even though it was pitch black, it fell so fast that it was covered in flames and high temperature caused by air friction.

From a distance, it is both terrifying and terrifying.

"Inside, there seems to be a person inside." In the

firelight, in the black air, Amelia Su could vaguely see a figure inside.

But because the black gas was too thick and the fire was too fierce, it was impossible to tell whether it was a real person or a phantom for a while.

Zi Qing nodded, her beautiful eyes staring at the black air carefully.

As it got closer and closer, even hundreds of meters above the head, the two women finally screamed at the same time.

"Three thousand! It is three thousand!"

"Three thousand brother!"

Yes, in the firelight, the figure in the black gas was none other than George Han.

At this time, George Han was holding something wildly with both hands, and he was attacking and falling with the momentum of smashing the sky and covering the earth.

“Didn’t Brother George Han be sent flying to the rear? Why... why did he suddenly come out from above our heads?”

Amelia Su also wanted to know about this question. Moreover, according to the analysis at the time, George Han was beaten. After flying, even if he wasn’t killed, he definitely should have suffered serious injuries.

Why now, not only does he not have any pain, but he is still fierce?

“Your food is here.”

Seeing George Han fall, the shadow reluctantly gathered energy and looked at the lava monster with a sneer.

The lava monster can naturally feel the rush of George Han, raise its big eyes sharply, and look at George Han fiercely, as if full of disdain.

He was preventing Buddha from telling George Han that he was just a mere ant who knocked over by himself, and

he didn’t disdain him at all.

In mid-air, George Han could clearly feel the disdain and ridicule of the lava monster, but he wasn’t angry either

. An ant is a defeated general, but you should understand that any way of underestimating an enemy will pay a huge price, especially if you ignore an enemy like me.”

“Seniors, help me!”

George Han shouted, beside him The black qi suddenly changed shape rapidly, and Amelia Su and the others on the ground could clearly see that the black qi seemed to be black qi, but in fact it was like that very powerful expert.

Darkness is a shadow! !

Figures are people! !

And the more black energy, the more figures.

“I...I see.” Amelia Su suddenly thought of something.

Although this is not a certainty in her mind

, but thinking about it carefully, there should be only one possibility left.

“Sister Amelia Su, what do you know?”

“Those black qi, if I guess right, should be the ghosts outside the forbidden area.” Amelia Su said.

“Outside the forbidden area?”

“Yes, do you still remember that after 3000 contacted them, we made it all the way to the inner circle of the forbidden area? I was wondering, will they reach some kind of consensus?” Amelia Su said.

Hearing this, Zi Qing nodded. Although it was a little hard to believe, this explanation was indeed the most reasonable right now.

“It’s like, this very powerful black qi person, who was obviously incompatible with brother George Han before, but after the game, he suddenly disappeared, and we have been safe in the inner circle. Now, he came to help us. .” Zi Qing said.

Amelia Su nodded heavily: “That

’s right.”

A clear plan also appeared in Amelia Su’s mind, the shadow entangled the lava monster for George Han, and at the same time, another wave of people helped George Han directly Soaring into the sky, and after that, he assisted him to descend into the sky all the way.

Everything seems to be fulfilling George Han’s last blow.

Looking at George Han’s raised hands at this time, although the things on his hands were covered by black air, Amelia Su could already guess what George Han was holding.

Pangu Axe!

Since Pangu held the Pangu axe to open the sky, today, George Han, the crippled people, took the “east wind” to lead the way down and smashed monsters!

It must be so!

Thinking of this, Amelia Su suddenly showed a smile and shouted at George Han: “One blow is sure to succeed!”

George Han smiled slightly, the black energy in his hand dissipated, and the Pangu Axe appeared impressively, slashing straight with George Han. Next...

## **Chapter 4129**

“Roar!”

Looking at George Han, who swooped down, the lava monster roared angrily, and slammed his chest with both hands. As if to cheer for himself, after that, he raised his arms and tried to push down Pangu’s axe directly.

And almost at the same time, George Han’s Pangu axe also slashed head-on.

boom!

The two met, and the axe slashed heavily on his huge arm.

Another bang.

His huge body sank directly into the thick ground in an instant. Although his feet were only bare, considering the size of his body, it was nearly a meter thick.

“Roar!”

The monster roared in pain, resounding through the world.

And George Han refused to give in at all, holding the Pangu axe and continuing to lead him!

The competition between the two is like a dragon and a tiger fighting for hegemony.

Live or die, it’s all here!

“Break it for me!”

George Han shouted angrily, and black energy surged out of his body

. After that, they all returned to his axe, pressing down on Pangu’s axe and continuing to chop down.

“Roar!” The

lava monster also roared violently, the lava all over his body spurted wildly, and the white gas scattered wildly.

“Heaven.”

The two women, Amelia Su, who were watching from a distance, couldn’t help but feel dazed when they looked at the battlefield. The golden air waves generated by the battle between the two seemed to be dyeing the sky.

They had never seen such a gorgeous and terrifying scene before, and their mouths were slightly open in shock.

“Zi, Zi, Zi!”

When the two intersected, the huge sparks began to become more and more violent.

boom!

In the end, thousands of sparks seemed to be unbearable after all, all of them were gorgeous and bursting, and from a distance, it was as if someone had ignited a giant dynamite.

With that rumbling sound, the earth shook, and the sky seemed to tremble because of it!

George Han and the lava monster were

swallowed up by the fire together, and no one could be seen.

The two women’s hearts were raised in their throats, and they completely forgot to breathe. They just stared at it, motionless. Anti-Buddha and even their world completely stopped because of the huge explosion.

“Three thousand!” Amelia Su swallowed Xiangjin in her throat and couldn’t help but exclaimed softly.

Zi Qing also clenched her hand tightly, and she was so nervous that she was already full.

Even the group of black air stopped all actions at this time and quietly looked at the battlefield in front of him.

“Can he beat him?” he murmured, if anyone could see his eyes hidden in the darkness, they would find that his eyes were full of complicated memories at this time.

As a strong enemy, it can even be said to be a strong enemy in his life. For him, the success and failure of this monster in front of him is really too much.

Even,

in the end, he paid the price with his life.

How could he not feel it?

Now, in front of him, he doesn't know whether to win or lose, and his heart is naturally full of emotions.

Does he want him to lose? Of course hope.

But this is from a global perspective.

Does he wish he could win? Of course hope.

This is from a personal perspective.

Who would like to lose their rival in life at the hands of others? If he wants to lose, he should also lose at his own hands.

He was complicated and tangled, and he didn't know what to do.

“Om!”

A wave of light flashed, and it did not affect him at all. However, the two women Amelia Su had already been directly knocked down. After the wave passed, the molten slurry on the ground was also blown out in an instant.

The whole world, Fang Buddha suddenly fell into a dead silence, there was no sound, not even breathing.

Immediately afterwards,

the strong light generated by the explosion began to slowly dissipate, the ground returned to calm, and the sky returned to its usual posture.

Just looking up again, you can find that the darkness in the sky seems to have decreased a lot.

It seemed that the wind was blowing, blowing away the thick smoke from the explosion site, revealing one person and one strange person who was originally in the center.

Both of them maintained their original posture, one slashed with an axe, and the other refused to block with both hands. It seems that there has been no change in what they did just now, and it seems that this is just the beginning of the moment.

However, Amelia Su and the others still held their breath. They were carefully analyzing who won and who lost.

And that person and thing didn't move, and seemed to be feeling, who won and who lost.

Suddenly, a slight noise sounded, and it seemed that everything had a real answer...

### **Chapter 4130**

"Giggle!"

A stone fell from the hand of the lava monster, and the stone in the monster's hand was just like a human being. There is a scar on the hand, the small one is almost negligible.

But in a certain form, it seems to be some kind of foreshadowing.

Break the defense!

Under the absolute sharpness of the Pangu axe, under the majesty of the king of all tools, no defense can match it.

Everything under it is like a small egg, hard to resist its awn.

"Clap!"

Like a domino effect, when a small stone falls from its hand, the stone next to it also begins to fall off.

Ultimately, the more it spreads, the more it spreads.

Just in a blink of an eye, the monster and the Pangu axe's left hand completely began to disintegrate and collapse

.

In the end, one left hand disappeared completely, disintegrated, and turned into powder.

boom!

Tight and right hand! !

The right hand also began to collapse and disintegrate continuously, and finally turned into powder.

Everything seems to have settled down.

"Pretty!" Zi Qing's clenched fist slammed violently, and she couldn't help shouting loudly.

Amelia Su's worried face finally showed a slight smile.

"Roar!"

The monster roared unwillingly, his feet sank to the ground, and he lost his hands. Because of the last inertia, his entire huge body slammed heavily on the ground.

He fell! !

“The power of domination is truly extraordinary.”

“The person who rings the seven bells is truly invincible.”

“The Bafang World has ushered in his true master, and a new chapter is about to open in this world.”

“It should have been a long time ago to form a complete and incomparable world, and everything will be reversed.”

Near the Pangu Axe, there were voices in the black air, and it was the group of people who were waiting in front of the Chaos Clock.

As for the single cloud of black gas, he didn't speak, just stared at the fallen lava monster with mixed feelings.

“Huh!”

George Han, who was holding the Pangu axe, finally let out a long sigh.

For a long time, he has been nervous. For him, with his current ability, he has to face the lava monster. Even if he has the help of others like now, it is always the only chance this time.

Therefore, he can either succeed in one blow, or he can only walk on the line of failure forever.

Fortunately, after that person's delay, and the route that he secretly ascended and descended by retreating, it was perfect, and finally got the chance to make a fatal blow.

For now, the fatal blow was a success.

Naturally, George Han couldn't help but let out a long sigh of relief.

“You didn't win.”

However, just when George Han breathed out, the shadow suddenly sighed.

George Han was stunned for a moment, and looked at him with a frown.

“You just activated a stronger him.” He said.

Hearing this, George Han couldn't help but feel extremely surprised, but at the same time his heart fell to the bottom of the cliff. The other party is like this,

he reluctantly found the opportunity to attack once by taking advantage of the right time and place. This can only be a failure among failures, and there is almost no hope. “This...” George Han looked at him, expecting him to give an answer. “If he died so easily, would he be him again? Although the Pangu Axe is strong, you can't fully control it right now, so it's empty and not powerful.” On this point, George Han It is absolutely undeniable that up to now, he is more like using the Pangu axe like a reckless man, and he does not know the specific method at all. Otherwise, he is... he is more than that. Heiyang looked at

George Han, and suddenly he smiled softly and said something that made George Han confused:  
“Look...”
