

Chapter 4201

Looking from a distance, he seems to be integrated with the earth, forming a piece with the mud. Just looking at it makes people look evil.

In such a place, let alone people, even pigs really don't want to live more.

Zi Qing's directly angry mouth bulged, and her beautiful eyes were also full of anger and grievance.

It's all made this group of people like this, and that's it, Sister Amelia Su still has to say good things for them, Ziqing really can't figure it out, and can't let it go.

Why? !

"Sister Amelia Su, I..." Ziqing was very depressed. With this kind of behavior, Ziqing felt that even killing them would not be an exaggeration. Why should they give them any bullshit opportunities to exonerate them.

Amelia Su smiled bitterly and said, "What's the use of killing them? It's just a bunch of bastards. Besides, the whereabouts of 3,000 people are unknown, and even the Seventh Princess, who was the referrer, has been making things difficult for her. If we make trouble again at this time, what should she do? How is it?" Amelia Su asked.

Secondly, although the results of the forbidden area of death do not look very good now, it cannot be denied that Pei Gu has given the greatest help on the basis of being able to help them. ,

As the saying goes, don't look at the monk's face to see the Buddha's face, Amelia Su believes that forbearance is still the best choice.

"It's getting late, this broken house can be repaired if it can be repaired, try to keep some wind and rain out." When the

words fell, Amelia Su didn't care about the mess, got up, bent over, and picked up some broken things on the ground under the heavy rain. Use as much as possible to cover the house.

The rain is getting

heavier and heavier. Under such a scene, Amelia Su's actions are like a man's arm blocking the car. Even though it seems useless at all, he is full of a deep sense of pity.

Those broken things are either useless when they are placed on the roof, or they are even more fragmented under the scouring of the rainstorm soon after they are put there.

But Amelia Su did not give up in the slightest, and she continued to repair it silently.

Shaking her head helplessly, Zi Qingming knew that this was stupid, but she still joined the team to help, not because of others, but because Amelia Su was her sister.

When the morning came and the rainstorm was removed, the pigsty still did not improve in the slightest because of the two women's repairs all night. On the contrary, because of the surrounding walls, the little pigsty was full of deep puddles, and the mattress was soaked in water too much. while floating in.

However, at this time, the busy figures of the two women could no longer be seen.

They were snuggling up against the corner of the wall, and they were so exhausted that they fell asleep.

The seventh princess got up early and brought some things to visit the two girls.

In fact, she was already uneasy last night, but she might never have imagined that the two women would be treated differently, but they would be treated so terribly.

Just as she was about to reach the outermost main guest room, a long chirping sound cut through the sky.

"Woo..."

This voice was mournful and long, and even after the rainstorm, in the main city where the sky was getting brighter, it could still resound through the sky.

But compared with the auditory effect of this high-pitched sound, what is more intense is the actual meaning it really brings.

Almost before Changming fell, the entire city lord's mansion was full of grass and trees. Almost all the elite disciples gathered in front of the city lord's hall. Even the usual

servants who served the housework tried their best to take a sickle and a hoe. holding a hoe.

This is the case in the City Lord's Mansion, and so are the civilians outside the City Lord's Mansion.

Almost everyone, as if facing a great enemy, picked up all kinds of weapons they could reach, and rushed out of the house one after another, standing on the street, looking at the sky in hesitation and horror.

Amelia Su and Ziqing were also awakened by this long cry. Although the two women looked haggard and tired, they looked up to the sky like people outside.

The sky that had been raining and sunny was the time to bloom, but at this time the sky suddenly encountered an emergency, and the wind and clouds went down, causing the entire main city to fall into darkness.

And this darkness is far more suffocating than the darkness before night and dawn.

"What happened?"

Chapter 4202

Amelia Su asked nervously.

Zi Qing shook her head. She didn't know what happened, but from the current situation, something bad was about to happen.

“Oops.”

The Seventh Princess, who was already in the main guest room, suddenly dropped the thing she was holding in her hand that she was planning to visit Amelia Su and the two women, and hurriedly walked towards the City Lord’s Palace.

Like her, there were many senior executives of the Pei family, and everyone gathered in the hall.

In the center of the hall, Pei Gu also led the elders of the Pei family to arrive urgently. Their faces were anxious, and the main city of Fangfo was going through some kind of calamity at this time.

In fact, it should be so.

Because the long cry that cut through the sky was actually an emergency order from the Pei family. This order usually does not

sound, but once it does sound, it must mean that the Pei family is facing great danger, and may even be on the verge of life and death.

“What’s the situation, spies, spies?” Pei Gu shouted in a hurry.

Under the court, the executives and elite disciples of the Pei family all arrived, but they were obviously in a daze, and they were somewhat confused.

After a while, a disciple of the Pei family in white quickly ran from the outer hall, and followed him in, the messy court finally regained its peace and tranquility.

“Report!” The

disciple in white knelt down in front of the hall, and his knees even pulled forward for at least half a meter due to inertia before stopping, but at this time he couldn’t care about any pain, and hurriedly knelt down and said: “I found around the main city. A large number of unknown enemy troops are approaching the main city.”

“

What? !

Hearing this, the whole room was shocked. Many people were talking about it.

Obviously, the main city is located in the center of the power. Although it is facing monster attacks now, there must be a heavy army guarding the periphery. At this time, there should be no What enemy is coming.

“How many are they? Pei Gu suppressed the shock in his heart and asked in a cold voice.

“Report to the Patriarch, there are tens of thousands of enemies on each side, and together they add up to at least 200,000!” “

What?!

If the previous news had already hit everyone's head like a blow to the head, then now this news is even more like a sharp sword piercing everyone's chest.

People can't breathe, and they can't even open their eyes.

"A large number of enemies, shouldn't they also be infected by the dead zone?"

Someone asked in doubt.

"Even if the black gas is infected, how can there be so many people gathered around our main city?"

"Could it be that the foreign enemy invaded?"

"If it's an invasion by a foreign enemy, then our border guards..."

"It's very likely." Pei Gu said coldly.

Although this may seem impossible, if you think about it carefully, it is the greatest possibility.

Although there are indeed many elite defenders outside the Pei family, don't forget that with the monsters attacking the main city, many troops were pulled back to support the main city.

At this time, the external defense must be empty, if there are foreign enemies who seize this opportunity to directly break through the defense line and penetrate into the main city of the Pei family center, it is not a fantasy.

However, This has to meet a key condition, that is, the enemy's forces are large enough and there are enough troops.

In this way, they have enough ability to break through the external defense line of the Pei family.

Thinking of this, Pei Gu frowned, looked at the disciple in white, and asked in a cold voice, "Are most of the people who surround my city wearing black clothes?"

"Before he came out, why would he know what the enemy outside the city looked like.

However, he still nodded obediently: "Report to the Patriarch, Patriarch Shengming, that group of people who besieged our main city is indeed dressed like this."

Hearing the white clothed disciple's answer, Pei Gu almost stumbled to the ground. The body trembled slightly, and seemed to be extremely angry: "I knew that these bastards would not miss such a good opportunity!!",

"fu**, it really is them!!"

Chapter 4203

"They?"

Hearing Pei Gu's words, the people of the Pei family were shocked. It seemed that the owner of the family already knew who the enemy was!

But after carefully pondering what he said, people with a little brains quickly understood who he was talking about.

After all, when the head of the family mentioned them, it at least meant that he knew these people, and attacking them should be expected.

Therefore, based on the above speculation, the answer is ready to come out.

Recently, he had an enemy with the Pei family.

The Pei family is so powerful, and most of the soldiers are brutal. There must be a lot of enemies. However, over the years, these enemies have already avenged their revenge.

They don't have that ability at all!

So, the range has become even smaller.

To have the ability to take revenge, except for the recent attack on the gang of people who should fall into the city, there is nothing else.

But ...

"Damn it!"

"The catastrophe is imminent."

Thinking of this, a group of people turned ashen for a while.

If it is to attack the gang of people who should fall into the city, then the crisis facing the main city is self-evident. In other words, the main city is already in danger.

"Those people are very powerful, and they were not afraid of attacking our Pei family head-on. Now, our main city is attacked, and they take advantage of it to enter.

"If it was them, everything would make sense. With their strength, when our defense is empty, the army can indeed break through in a certain direction, and then go all the way to their main city. I feel."

"Even, the soldiers who came to support us on the road are very likely to be caught up and killed by them. The poor soldiers kept trying to find a way to support the main city, but they never thought that someone had already arrived. Their backs."

"Damn, it's really annoying, the group of monsters has not yet finished attacking the main city, and now there are hundreds of thousands of enemy troops, how can this main city be defended?

"The wave is flat, and a bigger wave will follow, even if it is a copper wall and an iron wall, it must be like this, and it will be wiped out.

"What to do, what to do?" A group of

people looked at each other in panic, trying to find the answer from their eyes.

But...

this is clearly a dream!

They can't give each other any sense of security, but only more fear spreads between each other.

“Patriarch, I didn’t want to say it before, but now I really can’t help it.” One person stood up and shouted angrily. He attributed all the anger and consequences to his patriarch, even if he was his own patriarch

. You shouldn’t cross the line: “All this is caused by you, the owner.”

“If you didn’t betray them halfway, why did you choose George Han, why would there be such a broken thing?”

“The forbidden area of death will not explode, and it will not. There are monsters attacking us, of course, it is even less likely that a large number of enemy troops will attack us.”

One thing has two, and soon, someone immediately echoed: “Yes, it all started from that damn wrong decision, It’s all right now, my Pei family don’t talk about a century-old grand career, and if I want to settle down now, it’s a fool’s dream.”

“I always thought that the head of the family had a good leadership, but now it seems that it is no more than that.”

“The head of the family may have been wise in the past, but now, as he grows older, he may be like the emperors of all dynasties

. If you can’t lead the Pei family down, I think

it’s better to hand over the position of the head of the family as soon as possible and find another Yingjie.”

More and more people joined the crusade, which was absolutely impossible in the previous Pei family. matter.

The head of the family is the head of the family, an absolutely supreme existence, let alone no one can refute it, even if someone wants to doubt it, it is a mortal sin.

But now, not only did some people say so face to face, but they even attacked in groups!

Pei Huqi’s entire body was trembling slightly, and he felt that he was deeply offended, but at this moment he couldn’t refute it.

Because the fact is that the main city is surrounded by double siege, the situation is critical, and there is a danger of breaking the city and losing the family at any time. However, George Han, who was betting wholeheartedly, was unknown to his life and death, his whereabouts were unknown, and he even led away the huge thunderbolt in the forbidden area of death.

“Huh!” With a long breath, Pei Gu suddenly stood up slowly...

Chapter 4204

“This matter, maybe it is my fault, but, in this troubled season, don’t hurt your own peace, just do your best , to fight against the foreign enemy together. Otherwise, the enemy will come, and we will be smashed to pieces.” After the

words were finished, Pei Gu looked at everyone.

But among the crowd, there was no longer the previous obedience and obedience. Instead, they turned their heads to one side, and their expressions were obviously full of disdain and dissatisfaction.

Stop making trouble, that's because they do have a common enemy to resist, but it doesn't mean that Pei Gu can still convince the public now.

"So, when this matter is over, Pei Gu will take the blame." Pei Gu softened.

With these words, the group of people seemed to be willing to let it go, and some even got up and went down to gather people.

With one, there are two, more and more people started to act, but when they arrived at the gate of the palace, the group of people suddenly

stopped .

Pei Gu raised his eyes and saw that in front of everyone were Amelia Su and Ziqing who had just arrived.

The two women were almost soaked by the rain, and they were extremely embarrassed. However, their tired faces were energized, and there was even a trace of worry in their eyes.

Amelia Su hurried over with Ziqing after hearing the long chirping in the sky.

The two women also stopped because they saw unbelievable hatred and anger in the faces and eyes of the Pei family who came out of the halls.

"Oh, these two scumbags, we didn't look for them, but they took the initiative to look for us."

"fu, it's these two Sanba and that damn George Han who made us look like dogs, fu, now, these two Sanba dare to be an eyesore in front of us. Come on, bring them to me Come down ."

"Damn, yes, bring these two back to the military camp for me to have fun for the generals, to cheer up morale, and of course, to let our anger vent."

The disciples walked towards Amelia Su and Ziqing slowly.

Zi Qing subconsciously wanted to do it, Amelia Su blocked her behind her, and then looked at Pei Gu in the hall.

Seeing that the situation was wrong, Pei Gu quickly walked out of it: "Stop!"

The few people stopped on the spot.

"Pei Gu is already dim-witted. For us, he is not a qualified family owner at all. We don't need to listen to him, and arrest those two thirty-eight." Someone shouted.

Hearing his words, those who started to do it again want to do it.

Seeing that it was impossible to negotiate, Zi Qing did not intend to be more polite, and flew directly to attack, and the two sides fought together for a while.

Several members of the Pei family are elites, but Ziqing is also an absolute master. For a time, the two sides fought fiercely and fiercely.

Amelia Su saw that the Pei family members not only did not have the slightest intention of persuading them to fight, but instead shouted and killed each other, cheering, she really wanted to rush up and directly help Zi Qing settle the trouble.

But Amelia Su knew the overall situation, and hurried to Pei Gu's side at this time: "Patriarch Pei, you should persuade quickly, it seems that something important is happening outside the city, we should unite within, otherwise..."

Pei Gu looked embarrassed, He was hesitant to speak, but in the end, a thousand words in his heart turned into a long sigh.

In fact, he has mixed feelings in his heart, because at least from the current situation, the people of the Pei family are right, and he may really be too old and old, and even fail to see people, leading to the current situation.

How could he still have the face to order others.

"Miss Su, monsters are attacking the city now, and those who attacked the city before took the opportunity to surround us. Right now, the main city is in danger, and it may be destroyed at any time. You... better leave here with your friends as soon as possible."

When the words fell, Pei Gu moved his hand, and a direct burst of energy forcefully separated Zi Qing and the others who were fighting. After that, he sighed: "With this energy, why not stay to deal with foreign enemies?"

If words don't work, then natural force is the best way to deal with it.

When everyone saw this, they did not dare to mess around.

"Although I promised to abdicate, but now, I am still the head of the Pei family, right?" Pei Guqiang said indifferently, seeing no one arguing, he continued: "Since this is the case, listen to my orders, Pei The family immediately went to the city gates to prepare for the enemy."

"As for these two girls, Pei Li, you should bring a group of people to send them away from the back city." After the

words were finished, Pei Gu waved his hand and wanted to leave, but at this time However, Amelia Su stood up: "We won't go anywhere, just wait for George Han here!"

Chapter 4205

this remark came out, everyone was shocked and angry, even Pei Gu, who was about to go to the city gate to fight, could not help but stop.

He turned his head slightly, looked at Amelia Su in disbelief, and said, "What did you say?"

Amelia Su sneered, raised her voice a little, and said, "Patriarch Pei, we won't go anywhere. Just here, waiting for Han Three thousand came back, did you hear it clearly?"

Before Pei Gu could speak, someone immediately laughed: "Damn, they are really two stupid girls, give them face, they are still on their heads. , listen, did what he said just now were human words?"

“Hahaha, it’s fu**ing time, still pretending to say something and waiting for George Han, then the bones that have been bombed long ago are gone. “

That’s not it, just like George Han’s rubbish, it’s harmful to people alive, and it’s also a garbage dragging oil bottle when it’s dead. I really spit it out, fu** you.”

Obviously, regarding Amelia Su’s rhetoric, Everyone was dissatisfied, and even when they heard the name George Han, they could raise their anger again.

Pei Gu also showed his dissatisfaction. He had already put the safety of the two girls to the best of his ability to quell this matter, but he could never have imagined that Amelia Su was still dreaming such a foolish dream even now.

“Miss Su, the forbidden area for death where George Han is located has completely exploded, not to mention the mortals in George Han District, even the Daluo Immortal, I am afraid that they have already been buried in it, so it is better not to open such a joke, otherwise If you do, this is not only not funny, but it will only make people disgusted. You, hurry up and leave.” Pei Gu said.

“Have you heard, you are not welcome here at all
, why don’t you hurry up?”

“If it wasn’t for the face of the old owner, we would have been rude to you two, fu**.”

Amelia Su didn’t plan to back down in the face of Pei Gu’s expulsion order and the Pei family’s verbal abuse.

As a wife, it was her biggest regret that she did not accompany George Han into the barrier, but if she gave up even waiting for him, then she would not be able to pass her own level anyway.

She wants to wait, she wants to see people in life, and she wants to see corpses in death.

She didn’t want to just in case George Han came back and they weren’t here anymore.

In particular, since the other party is attacking the Pei family, it will soon spread to the fallen city, and the troops will be in chaos.

Therefore, she will never leave: “Patriarch Pei, no matter what you say,
we will never leave.”

“Yu Zi, we are friends, and George Han is also related to the explosion in the death zone, we have a responsibility to help you fight Monsters attack the city, Yu Gong, you have reached a strategic cooperation with George Han. Naturally, the Pei family has something to do. As those who should fall into the city, we also have the responsibility and obligation to help you defend against foreign enemies.”

“Not to mention that George Han’s life and death are unknown now, even if He is dead, and our covenant will always take effect. Therefore, we will not leave here. Even if the main city is destroyed!” Amelia Su’s attitude was very firm.

Hearing his words, Pei Gu instantly calmed down a lot of anger. After all, since adversity sees the truth, Amelia Su's remarks gave a little more comfort to the guilt he felt that he had made a wrong choice at this time.

"Patriarch, since they are willing to stay, let's stay. The two girls are masters, and they

can help a little." Beside Pei Gu, some people who were relatively supportive of him were the first to nod in agreement.

And the group of people who just wanted to do something to the two women, seeing this, also smiled coldly: "Although it's annoying to look at them, it's not unreasonable what the sixth elder said. They can help kill the enemy, this article. Well, at least you can use your body to reward the three armies."

When the words fell, a group of people burst into laughter again.

But Amelia Su still didn't care, looking at Pei Gu with determination, waiting for his answer.

Pei Gu smiled bitterly, looked at Amelia Su, and nodded: "Okay, since the two girls have made up their minds, then I won't be more reluctant. Let's fight the enemy together."

Amelia Su responded with a smile and nodded sharply. .

After that, Pei Gu waved his big hand and led the elites of the whole house to kill the city gate...

Chapter 4206

. North gate.

The north gate is the gate closest to the forbidden area of death. Naturally, most of the monsters under the attack of the black wind are also the first to gather at the north gate, and the demon army naturally picks up the pain and wraps it up outside the north city.

"Father!"

Seeing Pei Gu leading people over, Pei Hu hurriedly turned around and saluted slightly.

Pei Gu nodded slightly, came to the top of the city wall where Pei Hu was standing, and looked down.

Sometimes it's better to see once than to hear it, and that's true, at least that's what Pei Gu thinks now.

Although he knew from the disciples that the current situation was serious, it became clearer when he observed the scene in person. The real situation was obviously much more serious than that.

Under the north gate city,

looking around , there are almost all those monsters with black bodies and very fierce, they bared their teeth, and they were extremely fierce.

"These monsters attacked us like their mother's death. Among them, some of them were more robust and hit my city wall several times."

"Although we were fighting and repairing the city wall, it was still a drop in the bucket. ."

Pei Hu said, and just below his finger, Pei Gu glanced down, only to realize that the city wall under him had been knocked out of a huge concave shape, and the level of the overall wall obviously did not match the city wall next to it. Full of inclination.

“It’s funny, we call ourselves a clan, and we should be the kind of people in this land who are not afraid of death and go forward, but compared with these monsters, we seem to be extremely lacking in blood.

It’s not that we are incompetent, it’s that the other party is simply desperate. Pei Hu said.

Pei Gu nodded heavily. From the eyes of these monsters, he could already tell that these monsters were fierce and ruthless.

They seemed to just want to tear apart any enemy, without any other distractions.

“But , these monsters are always just monsters. It is not easy to deal with them with the elite power of my Pei family, but it is by no means difficult. The most difficult thing is them. “

With Pei Hu’s big finger, Pei Gu looked around, and his eyes stopped at Ming Yu and other minions who were hiding dozens of meters behind the monsters.

Almost all the figures were covered in darkness, not to mention fighting, just watching , is enough to make the scalp feel numb.

“At least a hundred thousand troops, if you add the east, west, south, and three sides, the total is at least 200,000. Father, the situation is critical. “

Without Pei Hu saying it, Pei Gu can also understand the power of it: “How many people do we have now?” “

“But a mere 20,000 horses. After the words were finished, Pei Hu lowered his head slightly: “Just now, some of the lonely teams have arrived outside the city. After our rescue, a few people came in alive. But...”

“They were originally frontier sergeants who came to support us from outside, right? Pei Gu asked.

Pei Hu nodded: “Exactly, there are four troops returning from all directions, the total number is about 80,000 people, but...”

Pei Hu did not continue, but Pei Gu also roughly guessed it. The ending.

“However, before they reached the main city, they were all attacked by the army outside, right?

Pei Hu nodded. “

It’s strange to say that this group of

human defense Buddhas can see through us. As soon as the frontier warriors were transferred, the group of people had already killed them, and followed closely...” Pei Hu said.

Pei Gu smiled coldly: “What’s so strange? These people have penetrated a lot of old demon forces. Do you think there are no traitors in our Pei family?”

“But how did they know that there would be such a crisis in our forbidden land of death ? ?” Pei Hu said strangely.

You must know that they, who were even in the main city, may not have been able to predict such a crisis.

Pei Gu didn’t speak. In fact, he was also thinking about this issue.

The explosion of the forbidden area of death was an accident. Even if the Pei family had a traitor, it was unlikely that they would know about the unexpected situation in the forbidden area of death!

There are so many troops on the opposite side. Obviously, they have already been prepared. This...

Suddenly, Pei Gu suddenly raised his eyes...

Chapter 4207

Could it be...

Suddenly, Pei Gu remembered his gaffe, and he did not dare to say his guess, because it was too much Terrifying and bizarre.

He simply let out a long sigh and looked down at the city.

The trend is over!

Pei Gu, who has been fighting for many years, has been on the battlefield for many years. Naturally, his judgment of the situation is far better than ordinary people.

In the current situation, there are monsters who are desperate to attack, but they may not be able to cause a devastating blow to the main city where the elites are full. However, it is their beastly attacks that can consume a lot of people in the main city.

Of course, it also includes city defense buildings.

And the most hateful are the hundreds of thousands of troops hidden in the outermost part of Ming Yu.

Obviously, any officer in command as long as his brain is normal, he knows to rely on these monsters to consume first, and then reap the benefits of the fisherman.

The main city is not guarded at all!

Moreover, even without

the consumption of these monsters, the sudden arrival of an army of 200,000 people would always be a disaster for the main city.

“Father, how is it now?” Pei Hu said anxiously.

The future of the Pei family belongs to him. Naturally, he knows better than anyone that he is guarding his own future, and his seriousness is unprecedented. Moreover, just now, his doglegs had already told him the matter of forcing the retreat of the Patriarch to abdicate, which made him have a stronger desire to defend his own country.

Pei Gu didn't speak, stared at the situation closely, and seemed to be thinking of all possible ways.

"Is there a possibility to do this?" Zi Qing stood up and was about to speak.

But the eyes of several senior executives of the Pei family were obviously disgusting with her.

Pei Gu turned around, glanced at everyone, waved his hand, looked at Ziqing, and said, "What's your opinion, girl?"

Ziqing didn't answer immediately, looked at Amelia Su, and after seeing her nod, she said

: "Patriarch Pei is wrong, but it's just some stubborn opinion."

"Please tell me."

"Zi Qing thought that since the enemy outside the city used monsters to consume us, then in turn, can we use this opportunity to consume them? What?" Zi Qing said.

When Amelia Su heard the words, she couldn't help but smile. In fact, before Ziqing spoke, she also thought of this.

It's not that the two women have the same soul, but they have been following George Han for a long time, and they all began to understand and understand what he would do if George Han was here!

"Is this plan possible?" someone asked.

"Although the monsters are attacking us now, don't forget, we can now rely on the city wall to guard, although we can always persevere, but at least it is not so easy. On the contrary, they are behind the monsters, if the monsters want it's much easier to attack them." When the words were over, Zi Qing smiled lightly:

"Patriarch Pei also said, we can all see that these monsters' eyes are fierce and strange, seemingly irrational, I believe that they cannot be captured by the city. Controlled by foreign enemies."

"It's just that these monsters just didn't find them behind."

Hearing this, everyone was thinking.

Soon, someone was the first to speak: "It's not impossible to try to do this."

"This matter is actually not too expensive for us. If her strategy is successful, although it will not turn the tide of the battle, at least it can change the current high-pressure situation and give us more breathing space."

Some people doubt the feasibility of this method, but others agree with the testability of such a method.

Pei Gu glanced at Pei Hu and nodded when he saw him, and immediately decided: "Okay, then follow the girl's words and give him a try. If it succeeds, it can ease our defensive pressure, but if it fails, we will not What a big loss

."

Hearing the Pei family's agreement, Amelia Su's mouth showed a slight smile: "It seems that you have learned a lot."

Zi Qing responded slightly with a smile: "Following three thousand brothers, how can you lose Where 's his face?" When the

words were over, Ziqing bowed her hands and said, "If you all agree with this method, then please leave the specific implementation to Ziqing."

Amelia Su was a little worried: "I'll go with you. Let's go."

Ziqing shook her head: "As their allies, how can we lose face when Brother Three Thousand is not here? Sister Amelia Su, I've grown up." After the

words were finished, Ziqing flew straight away, like a profit. Like an arrow, it flew directly from the city wall.

On the battlefield at this time, the monsters were really attracted by it, and they became more manic and bloodthirsty. They roared wildly, ****.

Looking at the purple love coming straight towards this side, the women in the army gave a cold smile: "I've been waiting for you to come out for a long time!"

Chapter 4208

She smiles very well, a beautiful face also shows her extraordinary temperament, but in those eyes, more is bloodthirsty and ruthless.

Besides Mingyu, who else could it be? !

When the words fell, she raised her hand lightly. I don't know when, a huge force had already condensed in her palm.

"If you want to lead the monster to us, I'll let you see what it means to be hot on the upper body." A ray of light was released directly from his hand, and suddenly slammed into the purple love that just flew out.

Its speed is extremely fast, and it has already taken shape, so when Ziqing was less than two meters away from the city wall, it was already less than ten meters away from Ziqing.

"Oops." Zi Qing frowned, knowing that something was wrong.

The other party has already prepared, and it can even be said that she is deliberately taking the bait. Once he does so, then this attack will be placed directly in front of him, and it will be a huge dead end

.

If she blocked it, there would be fire all over the place, which would be like a wave of light on the city wall that would attract more monsters.

But if it is not blocked, this attack will hit the city wall, and it will also explode, attracting the attention of monsters...

This is a dead end.

“Shit!” she scolded softly.

And Amelia Su on the city wall obviously understood the opponent’s intention to counterattack at once, and couldn’t help but be surprised for a while.

Pei Gu gritted his teeth coldly, and knew that something was wrong!

“Fight!”

Since it was a dead end, he followed the dead end.

Zi Qing urged her whole body to be really capable, and she did not move, facing the attacking energy head-on.

“Silly girl!” Amelia Su was suddenly anxious, she guessed what Ziqing wanted to do!

Sure enough, in the next second, with the attack of energy, Zi Qing directly gave up all the energy to protect herself, and used it to trap the attacking

energy, and at the same time urged her body, trying to take those things away from the city wall as much as possible.

Doing so can’t be said to be ineffective, but what is certain is that Zi Qing, who spends most of her energy on these things, has almost no energy to protect her own safety.

Therefore, even if some crises can be transformed, the effect may not be large, and Ziqing itself will inevitably be hit hard.

Is Zi Qing stupid? Amelia Su knew that of course she wasn’t a stupid girl, she was very smart, she did this simply because she didn’t want George Han’s reputation to be damaged or the signboard of the Mystery Man Alliance to be broken.

And don’t give any excuses to these people!

boom!

Accompanied by a huge explosion, even if Zi Qing’s skills are not shallow, the method of pulling and dragging is always contrary to common sense. At a distance of less than ten meters away from the city wall, everything will explode.

And Zi Qing’s body

was also directly blown away in this explosion, and slowly fell to the ground like a fragrance disappearing jade.

No one of the Pei family around took action, they just watched helplessly, only Amelia Su, who almost saw the explosion on Ziqing’s side, went to rescue Ziqing regardless of her life.

When Amelia Su left, he sneered on the city wall, which had not been greatly affected for the time being.

"It's two fu**ing stupid women. I thought they could have a great plan. In the end, hehe, he ended up like this, one was killed and injured, and the other had to take the risk to save!"

"You don't even think about it, If these two women have any brains, how could they be fooled around by George Han?"

"Yeah, it's a pity that the two are stunning, but they were ruined by their brains."

As an alliance, and even more so because Ziqing blocked their guns, they

not only did not have the slightest worry, but even basic human sympathy. No, only endless mockery and sneer.

Let's not talk about whether Ziqing's strategy is unthinkable, just the people present, they have already agreed under Ziqing's proposal.

Now, as if nothing happened, they didn't participate in anything but blame.

Pei Hu was rarely silent, and there was no other reason for him. He was more concerned about the current predicament, the catastrophe.

Amelia Su was always at a distance from Ziqing, even if she was rescued immediately, but because Ziqing was too close to the ground, the impact after the explosion made her fall to the ground more quickly.

Even if Amelia Su caught Ziqing before she fell to the ground, when she raised her eyes, she was almost less than a meter from the ground, and the surrounding monsters had already been attracted and surrounded her...

Chapter 4209

"Hoo!"

" Hoo!" "Hoo!"

"

The surrounding area is deadly, even if you look down from under the city wall, you can't help but see that everyone's scalp is numb. ,

Then Amelia Su is like a grain of sand in the sea, in the encirclement, she seems so small and small, and she is so pitiful and helpless.

Seeing such a scene, Pei Gu couldn't help but feel anxious. Even if the children of the Pei family were not in the city, and even if George Han's life and death were unknown, or even had a high probability of death, he had no intention of treating them as VIP guests. It was also very painful to watch. ,

"Quick, quick, quick, immediately open the city gate, and at the same time, organize troops to rescue!" Pei Gu shouted loudly, for fear that he would miss the best

time for rescue a little too late.

One person turned around and was about to do as instructed, but at this moment, Pei Hu raised his hand: "Slow!"

Seeing that person turning around and seeing Pei Gu's doubts, Pei Hu replied: "Father, the main city is already in extreme conditions. In danger, if we were to open the city gate to save people at this time, it would be tantamount to hanging the sword hanging directly over our heads around our necks. If we are not careful, we may be buried with the whole city at any time. As soon as

these words came out, others immediately agreed: "Yes, Patriarch, what the son said makes sense. The main city has already ushered in a disaster. If the city hadn't helped us defend against it, I'm afraid we would have already been destroyed. In this way, the city is our only reliance at present, if the city gate is opened wide... this... this is equivalent to putting tigers into the flock, absolutely

impossible."

"Patriarch, don't open the city gate. In the end, although those two women are in a dangerous situation now, it is their own fault. The Pei family never asked them to do anything. They pretended to be capable and acted recklessly. They should take it upon themselves."

"On the battlefield, how can there be undead? It's okay to die, it's normal!"

"Yes, Patriarch, George Han has tricked us so badly, his two The death of a woman should be considered compensation for us."

"Patriarch, since Han 3000 came, our Pei family has been a mess. As I said before, they are simply unknown people, and they are now surrounded by monsters. , it's good to be dead, maybe, we're still lucky, isn't it!"

With this shameless guy

coaxing , everyone nodded in support, and for a while, the anti-Buddha Amelia Su and others really deserved a big job. .

Pei Gu looked at the coaxing person. He believed that he was cold-blooded enough to achieve his goal, but compared with the younger generation of the Pei family, he only realized until now that he was too kind-hearted.

However, under all circumstances, Pei Gu was really unable to do so. Moreover, it was not unreasonable for them to refute. The Pei family would take huge risks, but it is extremely hopeless to save people under the siege of so many monsters!

Even if they are really saved, the casualties of the Pei family will not be light.

Now, his prestige has been greatly diminished because of George Han's affairs. If there is another trouble, I am afraid that he will really have to abdicate and let the worthy, so thinking of this, after weighing the pros and cons, he finally nodded: "Okay

, the people of the Pei family will stick to the city, if... If it is not for my life, you must not...you must not save people privately." When

he finished speaking, he looked at Amelia Su and the two women in the encirclement, and murmured, "This old man has done his best, so don't blame me."

Then, He couldn't bear to see the next scene of Amelia Su's two daughters being surrounded, and shook his head, signaling Pei Hu to keep an eye on the enemy's situation. He rubbed his temples and went to the small attic in the city for a short rest.

As soon as Pei Gu left, the executives around Pei Hu said, "Hey, it's a pity that these two stunning beauties have been so poor since ancient times."

"What can I do? It's not like I didn't persuade them yesterday . , let them see the selection clearly, otherwise, they wouldn't end up like this." As he

spoke, tens of thousands of monsters had already rushed towards Amelia Su...

Chapter 4210

Along with looking and provocation, the monsters collectively rushed towards Amelia Su.

Like a surging torrent, the people who are just watching the battle can't help but tremble!

Not to mention Amelia Su at this time.

Although her cultivation base is good, she is only a woman after all, and she is still a woman with an injured purple love, and the airtight attacks around her are like a big net.

Although Amelia Su was protecting Ziqing, she fought back hard, trying to break through the siege.

But it's just like twisting someone else's thigh with an arm, but it's still an elephant-level thigh. After breaking through just a little bit, it was completely submerged in the black stream...

"Hey, it's a pity, it's a pity!" Pei Hu Seeing this, he shook his head, and then looked back at the woman of the Pei family behind him: "If you think about it, you have all seen

it.

"

Beauty, no matter how bad luck is, you will find a wealthy family in this life, not to mention overlooking the world, but at least you will have no worries about food and clothing, and you will be full of wealth. Of course, just because they saw the wrong person, you can see it now, and you have ended up in such a field. "

"So, what the ancients said is true at all. This man is afraid of going into the wrong profession, and the woman is afraid of marrying the wrong man. If the crisis in our main city is lifted this time, I hope you children of the Pei family can see people accurately in the future. "

This is a bloody lesson."

Looking at Pei Hu's aloof and preaching attitude, he was already a so-called winner in life, and he was guiding others.

Everyone nodded again and again, and obeyed obediently

At this time, Pei Hu smiled: "Don't be so dejected, I know what you are worried about."

Everyone's emotions are not very high, obviously they all know that although the two women Amelia Su died tragically, they became a joke, but This thing doesn't laugh for a long time.

Their crisis is still there, and in the end, the fate of Amelia Su and the two of them is very likely to be their fate.

It's good that I can't see this bloody scene before going down, but now I've seen it with my own eyes, how can I be so emotional? !

"Nothing wrong, that is, I'm afraid that you will end up like them. However, since I dare to teach you, don't you have any taste?" Pei Hu laughed softly.

Seeing that Pei Hu was so confident, a group of people were extremely puzzled, not knowing what medicine he wanted to sell in the gourd. The subordinates

beside Pei Hu couldn't help but say: "Don't you guys feel that something is suddenly missing?" When everyone heard the words, they looked left and right, and some even tried their best to recall something, but no matter what, it seemed that Didn't find anything that was missing. Hasn't this changed? Except for the lack of Amelia Su! people? ! Suddenly, someone with a good memory seemed to remember something: "Hey, hey, hey, look, who is Pei Ma?" "Yeah, he was still by my side just now, why... how is this? Will it be gone?" Someone discovered this key point, and the natural crowd began to look for each other, but unfortunately, after looking around, Pei Ma was not at all. This good big living person suddenly disappeared, isn't that ridiculous? Some people even looked down the city, wondering if he had stumbled and fell, but there was nothing under the city wall, and those monsters were still attacking Amelia Su's position.

"Young Master, what are you selling? Let's just say it. This makes us anxious one by one."

"Yeah, you are in a good mood, Master. Is it possible that you have a grasp or a clever plan to save us?"

Pei Hu smiled lightly, although he didn't admit it, his proud expression already explained a lot.

"Oh, son, what's going on, just tell us."

"Yeah, if the son has the power to save us from misfortune, I'd be happy to say it."

Looking at the group of people looking forward , Pei Hu knew that the fire had reached the extreme, and smiled: "Do you want to know? Well, it's okay to tell you!"
