

I AM VARDY

Chapter 18 - Everton

On the last day before the summer transfer window closes, Manchester United officially announced the transfer of England's talented Rooney, with a transfer fee of 2600w.

The news was like dropping an atomic bomb in European football. Everyone was shocked by the news and was speechless.

Know that although Rooney is doing well, he is only over 18 years old. Many stars are still feeding in the youth training camp at this age, and Rooney is actually worth 2600w. This is a crazy world!

According to the exchange rate of pounds and euros, this transfer fee is more than 4000w euros, which can be ranked in the top ten in the world football transfer fee ranking!

Just as the news fermented throughout European football, Manchester United's official website also announced a news that Manchester United U18 echelon member Jamie Vardy loaned to join Everton on loan for two seasons.

Vardi knew very well that he was just an unknown player in England. No one cared about the whereabouts of a young echelon player. This is also very good. Although he has always wanted to be a big star, he has not actually prepared for this.

The lease contract is actually not much related to him. It was signed by Manchester United and Everton. During the period of Everton, Vardy's salary will be paid by Everton.

As for the loan of Everton, in fact, Valdy was actually surprised. Although he didn't care which club he played for, even in the British Championship, he was just as happy, but he never thought that he would be loaned to Egypt by Manchester United. Fulton.

Although Moyes' team was relegated last season, Vardy, who has a memory of his previous life, is very clear that Everton this season is really shocked. At the end of the season, Everton actually Liverpool ranked fourth in the Premier League after defeating their rivals in the same city, and qualified to participate in the Champions League Qualification!

Can I have more demands for such an Everton?

bid farewell to U18 coaches and teammates, bid farewell to Langley, bid farewell to the Smiths, Valdy embarked on a new journey.

.....

Thanks to the negotiators of the Manchester United club, Vardi lived in the house that Everton specially rented for him near the club training base, and the focus was free, which saved Valdi at least 500 pounds per month.

Of course, this cannot be a mansion, just a bungalow with a small courtyard. Fortunately, the surrounding environment is good and it is suitable for living.

is about 2 kilometers away from Bellerfield Training Base, Valdy can walk on a bicycle in the morning to train, low-carbon and environmentally friendly.

While lying in bed at night, Valdy fell asleep, recalling many memories of Everton in his previous life.

It was indeed that he neglected some things before. You know, Li Gang, the outstanding overseas representative of China in the past life, is playing for Everton.

The other teammates also have several familiar players, such as Australian star Tim Cahill, who later played for the Shanghai market team, like to use boxing to deal with the corner flagpole after scoring;

There is also the shaved guy Gravesen who later played in Real Madrid and used as an engineer. This guy has a fierce look. If he does not play professional football, he is probably a pirate.

Of course, the most familiar one is Everton coach Moyes, this guy actually mixed into Manchester United, but after a bad season, he was in get out of class.

In any case, this Everton is definitely the big dark horse in the Premier League this season. If you can't do it yourself, you can still ride this ride!

However, the start of the season, Everton's performance is not good, the first round of the main scene against the powerful Arsenal, was shot!

Fortunately, in the second round of the league that ended yesterday, they defeated Crystal Palace away and stopped the decline. They did not struggle in the relegation zone from the beginning.

So, don't know when I can play?

Vardi has already done this before. Moyes currently prefers to play the 442 lineup. There are two forward positions in the front. Unless facing the super giant Moyes, he will remove a forward and add a defender. Most of the rest are Two strikers.

And there are now five forwards in Everton. In the first two rounds of the league, veterans Duncan Ferguson and Marcus Bent took the starting

position, and McFadden and Kevin Campbell sat on the bench, Chadwick, the teenager, did not even enter the roster.

Among the five forwards, Duncan Ferguson and Kevin Campbell are high center types, which will play the role of bridgehead in Moyes' tactics. Moyes does not rely on their scoring ability, so Duncan Ferguson's starting position is very reliable, but the veteran is 33 years old this year, and it is difficult to guarantee his status;

Marcus Bent is a versatile striker, with speed, breakthrough and ability to grab points. However, although his ability is balanced in all aspects, he has not reached a high level, otherwise he will not stay in Everton.

As for McFadden and Chadwick, the two are the same as Vardy. They are speed forwards, and have no more game experience than Vardy.

In fact, what Vardy didn't know was that Moyes, who ordered him to join, had placed his appearance order before the two teenagers. UU reading www.uukanshu.com

The bike came to the training ground the next morning. On the road, a luxury car drove past him. Vardy knew that it was his teammates in Everton who drove these luxury cars.

Well, it's not always a problem to ride a bike. Maybe you can find a teammate to pick you up and drop off every day. When you have money to buy a car, you don't have to be so troublesome.

As for the driver's license, on the first day of reaching the age of 17, Valdi has already registered, and now the driver's license is already available.

When he arrived at the club, Valdi did not encounter the embarrassment of the guards being rejected because they did not know the newcomer, because an assistant coach had been waiting here and took Valdi all the way to Moyes's office.

This is the first time Valdi has seen Moyes, maybe a little curious, but in the previous life, looking at this old face too many times, Valdi was about to vomit.

“Welcome to Everton, boy, I know you are great, and I hope your first professional season will leave you with good memories, just like Rooney!”

I don't know if Moyes was in a good mood because he defeated the Crystal Palace. He chatted with Vardy very kindly, and also mentioned Rooney, who he was not willing to mention.

“I hope so too, sir!” Vardy made a very clever look. He didn't want to give Moyes a first impression.

Moyes nodded with a smile, and said: “Maybe you will not play soon, but you also have to train hard, and the opportunity will always be reserved for those who are prepared, I think you should understand this!”

The first meeting Moyes did not leave Valdi particularly impressed, but Valdi would not underestimate this middle-aged man, without two sons, he could not lead Everton to the Champions League.
