

I CREATED A DUNGEON IN A CULTIVATION WORLD

Chapter 17 17: Waydale City

Waydale city, one of the cities under the Oland kingdom.

Even under the moonlight, the place was still bustling, you can see a lot of cultivators in the streets.

Here first-stage and second-stage body tempering cultivators were as common as cabbage. If you want to gain a foothold in this city, you must at least have the cultivation of fourth-stage body tempering realm.

Waydale city has three major forces, Lord Mansion, Song Clan, and the Blue Wind

Sect.

These three forces were shaken by the news they just obtained, these three major forces have people arranged by them to watch the Endless Forest.

They need to monitor the forest all the time because if something happens, they will not be caught off guard.

Because the Endless Forest was home of monster clans, although their place was relatively peaceful, in the past hundred years, no beast tide happened, but that doesn't mean they will put their guard down.

Although Waydale might be located in a barren area, but it was a safe place compared to other places where almost every day towns and villages get annihilated. Compared to them they are considered lucky.

Lord Mansion

A middle age man named Xenos was looking out the window, appreciating the magnificent two-moon hanging in the sky, however, he was interrupted by a sudden knock.

"Knock-Knock"

"Come in."

Shortly after, a burly middle age man comes in.

"Commander Fax, what brings you here?"

Fax is one of the three commanders under his command, every commander has at least a building base realm, as for Fax he was a second-stage building base realm.

"My Lord, I just received a report that a pillar of white light was spotted in the forest."

Hearing it, Xenos's face changed.

"Then, do you know what it is?"

"Yes My Lord, the report I received, it's a one-story tower that looks like a pagoda. In addition, there's a report that it's hard to believe."

"Oh, what is it?"

"My Lord, the report says... The entrance of the tower is a huge teleportation portal."

"What!! No, that is impossible!!" Xenos's eyes widened in shock.

Even in the Oland Kingdom, there were only three teleportation arrays. Furthermore, those teleportation arrays don't work properly and are prone to accidents. So, the Royal family doesn't really use them, so over time it becomes like a symbol of status. After all, not all kingdoms have them.

Ordinary people only knows that the kingdom has three teleportation arrays, but didn't know the detail about it.

"Are you sure about it?!"

"Yes My Lord, in addition, the one observing the place reported that he saw six people come out of the portal, and just so happen that he was familiar with one of those people, they are from the village near the forest."

"Those villagers are really courageous, venturing on unknown places... So, did you inquire about what's inside?"

"Yes, my men tried questioning them, but when he approached them, he just saw gloomy faces. Those people just ignored him, as though they didn't hear him at all. He didn't force them, since that group has second-stage body tempering and the rest were all first-stage."

"Ohh, interesting a village that has six Body Tempering."

"It is indeed strange My Lord, since most villages don't even have cultivators."

"Ok, I will let you handle this matter. Remember, to report your findings immediately."

If he can, Xenox even wants to go there himself, but he can't leave the city, he still has a lot to do tomorrow.

A similar situation happened in the two forces, similarly, each force dispatched a building base elders.
