Chapter 237: All Members Can Enter Upgrade

On the walls, ornate tapestries depicted scenes of legendary cultivators and ancient battles, serving as a reminder of the rich history and heritage of cultivation in the world they inhabited. Shelves filled with tomes of ancient cultivation techniques and strategies lined the room, providing a treasure trove of knowledge for the alliance members.

As Alix, Lady Xin, Yara, Captain Zao, Shadowblade gathered for the meeting, a sense of camaraderie filled the air. The Celestial Haven floated serenely outside the tall windows, its presence a constant reassurance of their safety.

Alix addressed Lady Xin, "Lady Xin, did we already collect enough soul coins to pay for the Celestial Haven's upgrade? I believe this will greatly benefit our members who couldn't access the second floor due to their lower cultivation realms."

Lady Xin, nodded with a small smile. "Yes, Alix, we've collected the required number of soul coins. The members are delighted with the upgrade option. It's been a great motivation for them to contribute more to the alliance."

Alix nodded in satisfaction. "Excellent. Upgrading the Celestial Haven will be a significant boost for our members. Even those with lower cultivation realms will be able to access the second floor now. Although the low realm members can't go outside the base, is still helpful for their cultivation, and for safety from the Dark Moon Clan."

Lady Xin nodded in agreement, her eyes shining with pride in their accomplishments. "Indeed, Alix. The Celestial Haven has become a beacon of hope and progress for our alliance. With its upgrade, we can offer our members more opportunities to cultivate and strengthen their abilities, even within the confines of the base."

Captain Zao, spoke up, "It will also give them a chance to familiarize themselves with the second floor's environment and challenges. When their cultivation realms improve, they will be better prepared to venture beyond the base and face the dangers of the outside world."

Yara added, "The members are grateful for the safety and resources the Celestial Haven provides. It not only shields them from external threats but also fosters a sense of community and belonging within the alliance."

Shadowblade nodded in agreement. "It's true. Our members are more united than ever. The upgrade has not only improved their cultivation opportunities but also their bond as allies."

Lady Xin raised her hand, a thoughtful expression on her face. "Alix, I have a suggestion. With the upgraded Celestial Haven, we can also establish a training program for our members, specifically tailored to their individual cultivation realms. This way, we can maximize their progress and ensure they grow stronger together."

Alix's eyes lit up with enthusiasm, "That's an excellent idea, Lady Xin. Let's implement it immediately. Our members' growth is our top priority."

Captain Zao agreed, "Training in a structured environment will undoubtedly benefit them. They will become a formidable force to be reckoned with."

The group of vice-captains nodded in agreement, their determination resolute. With the upgraded Celestial Haven and the newly proposed training program, they were confident that their alliance would rise to even greater heights.

As the meeting continued, they discussed the logistics of implementing the training program, allocation of resources, and strategies for future expansion. With each passing moment, the alliance solidified its position as a force to be reckoned with in the cultivation world.

With their meeting concluded, Alix and his co-leaders wasted no time and proceeded directly to the center of their base, where the Celestial Haven stood tall and mysterious. The white pole with ancient runes still towered over everything, emanating an aura of enigma and power. As Alix approached, a transparent screen popped up, showcasing all the upgrade options available.

The sight of the transparent screen never failed to amaze them, despite having seen it many times before. On the screen, they could see various upgrade options for the Celestial Haven, each promising greater benefits and protection for their alliance.

"It's truly a marvel," Lady Xin remarked, her eyes fixed on the screen. "The Celestial Haven never ceases to amaze me."

Alix nodded, sharing her fascination. "Indeed, Lady Xin. It's a testament to the advanced craftsmanship of the ancient cultivators who created this artifact," he replied, still in awe of the Celestial Haven's design.

Yara nodded in agreement. "Indeed, the more we learn about it, the more we understand its potential for our alliance's growth and safety."

Alix, with a sense of purpose, scrolled through the various upgrade options. He stopped at a particular one that caught his attention – "All Members Can Enter Upgrade." The screen displayed the cost: a staggering 200,000 soul coins.

Without hesitation, Alix pressed the 'all members can enter' option, and the screen prompted him to confirm the upgrade. The cost of 200,000 soul coins flashed on the screen, a substantial amount that took them a considerable time to gather with the combined efforts of all their members.

Taking a deep breath, Alix reaffirmed his decision and confirmed the upgrade. The transparent screen emitted a soft glow as if acknowledging his choice. Moments later, the Celestial Haven responded, and a brilliant surge of energy enveloped the entire base.

Lady Xin smiled, seeing the members' hard work and dedication pay off. "Well done, Alix. This upgrade will make a significant difference in our members' cultivation journey," she said, her voice full of pride for their alliance's progress.

Captain Zao, Yara, and Shadowblade stood by, witnessing the upgrade with a sense of gratification. "It's truly an honor to be a part of this alliance," Captain Zao said, his eyes fixed on the glowing Celestial Haven.

Yara added, "Yes, and with this upgrade, we can ensure our members' safety and growth. The Dark Moon Clan won't stand a chance against us."

Shadowblade, usually quiet and observant, chimed in, "Our alliance will become a force to be reckoned with in the cultivation world."

As the upgrade was completed, the Celestial Haven's energy permeated the entire base, and its brilliance intensified. Alix and his co-leaders stepped back, marveling at the enhanced power radiating from the artifact. The sense of accomplishment and excitement filled the air, knowing that their alliance had just reached a new level of strength.

As they admired the Celestial Haven, the alliance members started teleporting in the base. However, as the new members stepped into the upgraded second floor, they felt an unusual chill that sent shivers down their spines. The energy in the second floor is entirely different from the first floor.

The new members, with wide-eyed amazement, looked around at the upgraded second floor of the Celestial Haven. The once tranquil and serene atmosphere of the first floor had transformed into something entirely different. An icy chill pervaded the air, causing their breaths to mist in front of them.

One of the new members, a young cultivator named, shivered as he stepped further into the upgraded area. "I-Is this normal?" he asked, his voice trembling with both excitement and trepidation. "Why is it so cold here?"
