Chapter 31 31: Subordinate Gacha

[Reminder to the host, there is a new subordinate gacha section in the system, the host should look into it right away.]

Argon open the system right away, and there, he saw the new subordinate gacha section.

"System, can you explain more about this subordinate gacha?"

[In this section, you can get a random subordinate by paying 5000 soul coins, the higher your cultivation the more expensive it is. In addition, the highest cultivation of subordinates you will get can only be one realm higher than you...]

[For example, right now with the host's Qi Gathering cultivation, if you're lucky enough you will get a Golden Core Realm subordinate. Furthermore, every subordinate is extraordinary, in the same realm, subordinates can easily kill a normal cultivator, and some can even fight a higher realm than them.]

"Then that is really good, but..." Argon looked at his soul coins and smiled wryly.

"System, I want to try it right now, but I only have 3300 soul coins left." He can only sigh, being poor is really hard.

[Since it's the first time the host gonna use it, the system will give the host a discount. The host can pay 2000 soul coins on the first try.]

"Really?! System, when did you become so good to me? You know, you are always so cold and sassy to me."

[If the host doesn't believe it, I will take it back right now.]

"Wait system! I'm just joking, why so serious? Hehe..."

[Hump]

Argon wiped the sweat on his forehead. 'I shouldn't provoke this system anymore' he thought.

Well, to be honest, the system was only cold to him when he first arrived, after he build the dungeon. The system's attitude towards him also becomes better.

After all that, Argon opened the subordinate gacha, and he then clicked the draw button, which cost him 2000 soul coins.

In the next moment, a big transparent screen appeared in front of him, shortly after pictures of creatures appeared on the screen. Then it began rotating, Argon can even see some familiar creatures in it.

Shortly after, it began to slow down slightly. Now, Argon can see the pictures clearly, though he can only see the middle card.

There were some unfamiliar ones. But, there were also some familiar creatures, like dragons, angels, and demons, he can even see some humans, they were also monkey monsters that looked like The Great Sage, Heaven's Equal Sun Wukong.

Argon's heart almost jumped out of his chest when he saw the picture of a dragon, it stopped for a moment, he thought that he hit a jackpot, and his heart almost stopped beating, when the card changed again, he almost cursed the system.
