

## **I Created 39**

Chapter 39 39: Another 5000 Cultivators

The next morning.

Commander Fax, Elder Lee, and a bunch of people were waiting at the entrance of the town.

Commander Fax was waiting for the city lord, while Elder Lee was waiting for the Patriarch of the Song family. As for the Blue Wind Sect, students were waiting.

There were also a lot of people around, waiting for the arrival of the three leaders.

All the leaders of the three top forces were at the peak of Building Base Realm. So everyone around was very quiet and excited, because not anyone in Waydale City has a chance to see a peak of Building Base Realm powerhouse in a flesh.

After some time, everyone finally sees people in the distance coming in an orderly manner. There were three groups in total, at the center was the City Lord's group, and on each side were the Song Clan and the Blue Wind Sect.

The City Lord has a total of 2000 soldiers with him, and the Song Clan has 1500 members, as for the Blue Wind Sect, it's the same as the Song Clan 1500 people. In total, 5000 people.

"Welcome, My Lord."

"Welcome, Patriarch."

"Welcome, Sect Master."

The three leaders nodded in response.

"Patriarch Song Ho, Lin Xu, let's rest first before going to the tower... Is that ok?" Xenos asked the two leaders.

"Sure City Lord, my men also need to rest with all that walking." Patriarch Song Ho said, while Sect Master Lin Xu just nodded. He was still upset about the death of Elder Gong.

In the next moment, the three leaders started walking to the big tent. While the people they brought started recuperating.

While they were walking toward the tent, Elder San whispered something to Xenos.

"My Lord, who's that person next to Lin Xu?"

Xenos looked at the unfamiliar person next to Lin Xu, his brows furrowed.

"I also don't know... It's my first time seeing this person."

"Xenos, is there a problem?" Lin Xu said, a little annoyed seeing Xenos looking in his direction with furrowed brows.

"Haha, I'm just wondering who is that friend beside you, it's my first time seeing him..." As though remembering something Xenos smiled evilly.

"I guess, a new elder? Lin Xu I really admire your ability to find a replacement for Elder Gong this fast." Xenos said smirking, adding salt to Lin Xu's wound.

Seeing Lin Xu that was about to explode, Elder Tan Zong come forward.

"Greetings, Lord Xenos. I'm not a new Elder I joined the Blue Wind Sect five years ago."

"Five years?... But why is it I only saw you now?" Xenos asks a little suspicious.

Patriarch Song also looked at Elder Tan Zong curiously, this was also his first time seeing Elder Tan Zong.

"Xenos, why do you care about my sect's affair? Are you planning on something?... Don't think that you are part of the royal family, I will not do anything to you." Lin Xu said in anger, you can even see smoke coming out of his head.

Hearing it, Xenos's face changed.

"Lin Xu, do you want to die?! Didn't I tell you don't mention the royal family in front of me?!" Xenos said with a cold voice.

If he wants to, he can just order Elder San to attack. As a first-stage Opening Qi powerhouse, killing a peak Body Tempering was still a hundred percent success. However, since these people didn't know the real strength of Elder San, he wanted it to keep hidden for as long as he can.

"Haha!!... Xenos!! Why are you so confident!! Then, let me see how are you going to kill me!!"

All the people around who were watching the scene since the beginning started to feel the surroundings getting heavier, they immediately scattered. A fight between the two peak Body Tempering was not something these low-level cultivators want to see closely.

Seeing the two were about to fight, Patriarch Song sigh in helplessness and come forward.

"Lord Xenos! Sect Master Lin!... Aren't we here to cooperate... How are we going to cooperate if you two are like this?!"

Hearing it, Xenos immediately calms down.

"My bad Patriarch Song, I really make a fool in front of Patriarch Song, it won't happen again."

Xenos apologizes, as for Lin Xu he didn't say anything.

Xenos and Lin Xu we're not on good terms, so Lin Xu doesn't respect Xenos as a City Lord. The City Lord Mansion and his Sect have the same power, so Lin Xu doesn't care about any conflict with the City Lord Mansion.

As for the Song Clan, they were neutral on both sides. That's what the two think but little did they know, Patriarch Song Ho has been waiting on the side for these two to snap and started fighting each other, and seized everything when the two were exhausted.

Of course, that's just his wishful thinking, he knows these two were not that foolish.

'It's okay, Lord Xenos. For now, let's just toss away our enmity with each other and cooperate.'

"Fine by me." Xenos said.

As for Lin Xu, still didn't say anything.

After all that, they continue walking.
