Chapter 41 41: Crazy Green Creatures (Part 1)

Everyone entered the cave, looking around nervously. The cave was pretty big, so it was not a problem for them to move around.

The cave doesn't have much light, so they can't see far inside. Although they have torches or any kind of light source in their hand, the light doesn't travel far. The rogue and the small forces were very vigilant while traversing the cave.

On the other side, one thousand goblin riders were in an orderly manner waiting in the darkness, looking at the humans with no fear on their faces.

They were waiting quietly not far from the humans if the humans want to continue they need to kill them first. The strongest of these goblin riders were the three fifth-stage building base realm.

On the other side, in the human camp, there were four fifth-stage building base powerhouses. However, that didn't make the goblin riders at disadvantage. They can take on two opponents of the same realm, and although they eventually get defeated, it will be enough for the others to kill their opponents.

Ghorm put two defenses before the boss room, the first one was this, and the second one was one thousand one hundred goblin/hobgoblin riders led by the three peak Building base realm.

When the humans were moving forward, everyone in the first row abruptly stopped.

"Gu-guys I-i see a lo-lot of green creatures."

"EVERYONE! PREPARE FOR BATTLE!!" someone shouted that reverberated in the cave.

Everyone holds their weapon tightly, looking at the goblin riders already rushing toward them with savage looks.

The humans also picked up their courage and also rush head-on.

In that collision, ten humans immediately died, they were all low-level cultivators. The fight officially starts, this was the biggest fight the people of Waydale city fought since the last beast tide.

The place was big, so people from the three forces also joined the fight. The humans were five times the number of the goblin riders, so everyone becomes confident, especially the new arrival.

At the back, Anakin the strongest commander under Xenos, has a cultivation base of an eight-stage building base realm.

Anakin walked towards Xenos who was watching the battle in front.

"My Lord, there are three fifth-stage building base monsters in the enemy, do you want me to send Bazz?"

Bazz the second commander of Xenos, has a cultivation base of a sixth-stage building base realm.

Hearing it, Xenos looked at the two leaders next to him and said.

"Lin Xu, Patriarch Song Ho, please send your four elders first, after all, we need to preserve our energy."

"Not a problem, Lord Xenos." Patriarch Song Ho sent his two elders, and he brought three elders with him, with the highest cultivation of the seventh-stage building base realm.

"Tssk..." Lin Xu also sent two fifth-stage building base elders.

Before they arrive the trio had a meeting and decided to bring three elders with them, since their planning going deeper into the forest.

The three leaders and their elders or commanders were preserving their strengths since they didn't know how many monsters in this cave they were going to fight. In addition, to avoid any injuries.

So they were not going to make a move if not necessary.

The fight goes on for half an hour, and almost one thousand people died on the human side. As for the goblin riders, only two hundred plus left.

"Aahh!! Help me!!"

Suddenly everyone looked at the place where the elders fight, everyone gasps when they saw the elder of the Blue Wind Sect get his arm torn apart by the wolf.

"F*ck!! Elder Tan Zong, go and save Elder Cheng!!" Lin Xu roared, right now his sect can't afford to get another elder killed.

Tan Zong immediately rushes without a second thought, he uses the top speed of the seventh-stage building base cultivators.

It didn't take long for him to arrive and slashed his sword downward at the hobgoblin rider. The Hobgoblin whose club was already on Elder Cheng's face, like a crazed person didn't stop.

In the next moment, the hobgoblin and the wolf were cut in half by the sword of Elder Tan Zong. As for Elder Cheng, his face caved in with holes since the club has metal spikes, and he died with his eyes wide open.

Everyone suddenly becomes quiet, except for the ones who were still fighting. They can't believe how crazy these monsters were, the monster can clearly avoid the sword of Elder Tan Zong. However, instead, it trades its life with the life of Elder Cheng.

Now that they think about it, these green monsters don't fear death, they suddenly felt chills down their spine.

"AAHH!! I WILL KILL YOU ALL!!"

Lin Xu can't take it anymore, with bloodshed eyes he rushes toward the remaining two hobgoblins, he killed the two in five blows.

He didn't stop, but continued. Shortly after, he killed all the remaining goblin riders, before he finally slowly calm down.

Everyone didn't say anything and just looked to see if there was a drop of returner stone. However, while everyone was looting, suddenly they heard a sudden shout that shook them.

"I-I got a cul-cultivation book!!!" the person who shouted immediately covered his mouth realizing his mistake, but it was already too late.
