Chapter 42 42: Crazy Green Creatures (Part 2)

"Anakin bring that person here." Xenos ordered Anakin.

"Yes, My Lord."

It didn't take long for Anakin to bring the person. He was looking at the three leaders with nervousness, holding the cultivation book tightly.

"Let me see the book."

"But, Lo-lord Xenos..."

"Bastard, you better give the book right now! or do you want to stay here forever?!"

Lin Xu immediately butts in, upon seeing this guy was hesitating.

"Y-yes sir..."

He reluctantly passed the book to Xenos, his realm was only in the third-stage body tempering realm. So, he doesn't have a choice, although he was the one who found it, everyone took part in the battle. In addition, whoever has the biggest fist has the say in this world, so, he can only blame himself for being stupid.

While reading the book, Xenos's expression keeps changing, becoming excited, and confused, making the others who were looking at him attentively nervous.

The two let Xenos read the book first, because, as a person who came from the capital, he has some knowledge of cultivation books and techniques.

After some time, Xenos closed the book with a deep breath. Even he who already sees a fair amount of cultivation books was still amazed.

Also, there were not many cultivation books that can help practitioners to achieve Opening Qi Realm in the kingdom's arsenal. From the contents of the book, he can tell that this book was at the top of its grade, from all the Opening Qi Realm cultivation books he read.

The cultivation book he was using right now was a fire-type book since he has an affinity for fire elements. Although he can't use it, that doesn't mean his subordinates can't.

"Lord Xenos, what is it?" Patriarch Song asked.

"It's a body-type cultivation book, that can help achieve the peak of Opening Qi Realm."

Everyone around started to get noisy, because, most people here who were not part of the big three, doesn't have cultivation books.

"Are you sure?"

Patriarch Song asked again in excitement, as for Lin Xu, his anger from the death of his elder was replaced by excitement, looking at the book with burning eyes.

"Yes... Here see it for yourself, but you two need to give it back to me for safekeeping. After we are done here, we will compete for this book through an auction, is that ok." Xenos said with a serious face.

"Ok." Patriarch Song said, after thinking about it.

"Xenos, you better don't play tricks." Lin Xu agreed, but he warned him.

Xenos was relieved that these two agreed because if not, it will be a big problem if they started fighting here.

Xenos passed the book to Patriarch Song.

A few minutes later, Xenos got the book back.

"Anakin, announce to anyone that it's time to move." Xenos ordered Anakin who was next to him.

"Everyone, get ready it's time to move!!" Anakin shouted.

Although everyone has a sour face, they still move their butt.

"Father, they also got a cultivation book." Alix said lowly to Arnoux next to him.

"Yeah... Though, I don't know if it's the same cultivation book we got."

When the time they just regain consciousness and saw the bodies of the green monsters around, after the bodies vanished, they saw a book lying on the ground.

They got a cultivation book, that made him ecstatic. After reading it, Arnoux finds out that the book has three stages.

Surprisingly, Arnoux successfully practiced the exercise in just an hour, as though the exercise was tailored for him, although only at the entry of the first stage. That still makes him ecstatic, he can feel his strength doubled.

When he started practicing the exercise, everything flow smoothly.

After that, he teaches everyone the exercise, and similar to him, they successfully practiced it. However, everyone took two hours, except for Alix who was the same as him, one hour.

After everyone succeeded in practicing the exercise, they immediately tried hunting the goblin riders. Because of the exercise, their strengths got increased significantly. They were full of confidence.

And the result was, it was not even a problem fighting the goblins one-on-one. After a whole day of killing, Arnoux's cultivation rises from the second-stage to the fifth-stage body tempering realm.

And the rest achieve the third-stage to the fourth-stage body tempering realm.

"Ok, let's not talk about it, and keep moving." Arnoux said.

Shortly after the expedition continued.
