

## **I Created 43**

### Chapter 43 43: Crazy Green Creatures (Part 3)

The humans continued their expedition, and after half an hour they stop. Because they saw another group of green creatures blocking their way.

"My Lord, we have a problem. There are three monsters at the peak of building base at the enemy's camp." Elder San said at Xenos.

"Yes, and I can feel a massive threat on any of those three monsters." Xenos said, squinting his eyes, looking at the three hobgoblin riders.

"Patriarch Song... I guess the three of us need to fight now, and this will not be an easy fight."

"I know, I can feel a huge threat coming from those three monsters."

"task, what threat? You guys are just weak to feel that way... Right now, I just want to fight this bastard to take out my anger."

Lin Xu said looking at the enemy like a hungry wolf, as a wind-type practitioner he was pretty confident about his speed, even if something goes awry he was confident that he can escape.

Even though he doesn't have an affinity for wind elements, that doesn't mean he can't use the wind-type cultivation book. Having an affinity is just giving the person a boost of strength in that specific element, and can enhance the understanding of the cultivation book.

Of course, affinity in elements has grades, 1-star being the lowest, and 6-star the highest. For example, Xenos has a 1-star affinity in the fire element which was the lowest.

"ATTACK!! KILL ALL THE HUMANS." One of the three hobgoblins shouted.

In the next moment, goblins started rushing, and the humans didn't back down and greeted the incoming goblins with the same fierceness.

Of the three hobgoblins, the one with an axe commanded his wolf to go forward. They became faster and jumped high up, the hobgoblin got off the wolf and slam his axe at the center of the humans.

"Boom!!"

Fifty humans were killed by that, cracks can be seen on the ground because of the impact. The hobgoblin swings his axe on the left, and the two humans who were struggling to get were cut in half. The hobgoblin who was about to go on a rampage stopped, because a person appeared in front of him.

"You lowly monster really enjoying yourself killing these ants."

It was Lin Xu after he saw one of the three hobgoblins move forward, he also rushed, though he was still a bit too late. He was annoyed because the wolf that was at the ninth stage of building base, was a bit faster than him who was a wind-type cultivator at the peak of building base realm.

Why's the wolf a ninth stage, it's because the wolf was always a small realm lower than the goblins or hobgoblins.

The hobgoblin didn't react, apart from the hobgoblin can not understand human language, he also doesn't put the human in front of him in his eyes, the hobgoblin attacked

Lin Xu can tell from the hobgoblin's eyes that he was not taken seriously, and it made him furious.

Lin Xu swiftly evade the attack and slashed at the hobgoblin's arm, however, to his surprise it only manage to damage a small cut on the hobgoblin's arm. As a person who was close to opening qi realm, he can harness a little bit of wind element, he embedded it in his sword, and he was confident to cut a tree with his sword.

In that split second, the hobgoblin punched Lin Xu with his other hand which made him fly.

"Augh"

Lin Xu vomited blood.

The other two hobgoblins joined the fray, which made Xenos and Song Ho moved.

-----

Argon looked at his soul coins with a wide smile, he has three thousand plus soul coins right now, and still going up. He can finally taste again the feeling of being rich.

Argon can see the fight on the screen was getting intense, the two humans opening qi realm still didn't make a move. However, he can see the two were paying attention to the three leader's fight, especially the old man.

An hour later, the fight was coming to an end, with only one hundred plus on the hobgoblin's side, while the humans were down to one thousand.

Argon can see the dejected look, people crying, mourning the dead.

As for the three leaders, they were not in a good condition. As for the hobgoblins, the one with the axe was filled with cuts all over its body, and the other two has some burnt flesh.

Xenos and Song Ho both uses fire element, but Xenos inflicted more damage on his enemy than Song Ho, because of his one-star affinity.

Argon who was looking at the screen attentively, his eyebrows twitch because he saw the person called Lin Xu suddenly run with great speed towards the exit.

The hobgoblin tried to follow, but Lin Xu was too fast. So, the hobgoblin can only change his attention to the remaining humans. Seeing the hobgoblin's attention was changed to them, they were scared witless and started running away.

Argon can only shake his head, and disappeared.
