Chapter 1423: The Terrifying Golden-Winged Heavenly Peng, Slaying the Yiming Ghost Sect!

"Great Five Elements Divine Fist!"

Lu Changsheng's Dragon Roar Origin burst open, causing strands of golden light to emerge from the Thunder Gang Dragon Flame, then he deployed the divine skill punch from the "Five Elements Union Sutra," breaking through layers of blood light, charging towards the Ghost Bat True Master.

"No wonder this person dares to cause trouble at my Yiming Ghost Sect!"

The Ghost Bat True Master's eye twitched slightly, feeling uneasy.

However, he noticed that Lu Changsheng used some technique to elevate his strength to this level.

So as long as he could delay, engaging Lu Changsheng in a prolonged battle, the opponent would find it difficult to maintain.

Moreover, since this was the Yiming Ghost Sect's headquarters, once reinforcements arrived, no matter how many tricks Lu Changsheng had, he would have no choice but to surrender!

"Boom!"

The Ghost Bat True Master stepped forward, standing amidst the Netherworld Blood Pool, stirred up a massive wave of blood, forming cascading waterfalls of blood.

"Boom boom boom—"

Lu Changsheng and the Golden-Winged Heavenly Peng directly broke through layers of blood waterfalls, reaching the Ghost Bat True Master.

But in an instant, blood surged behind the Ghost Bat True Master, forming massive bat wings glowing with dark blood light, stirring the waves of blood, and then he vanished into a shadow.

"Squeak squeak squeak—"

Meanwhile, the Ancient Blood Bat beneath him screeched sharply, merging with the blood light of heaven and earth, forming a mysterious force, charging towards Lu Changsheng.

"Boom boom boom—"

Within Lu Changsheng's body, the Dragon Roar Origin surged, his pores flowed with dense dragon roar energy, and the Thunder Gang Dragon Flame raged fiercely, like a flaming Azure Dragon atop his head, tearing through heaven and earth, breaking the blood light.

The fiery purple-red flames and the blood light filled the heavens and earth, pervading a terrifying aura, causing Chu Qingyi to feel incredibly shocked.

She thought to herself, is Lu Changsheng's battle power possibly not inferior to her master?

"Cry!"

The Golden-Winged Heavenly Peng cried out, its hundred and eighty thousand feathers rose like a golden sea, piercing through the blood light, causing the Ancient Blood Bat to screech and suddenly fly into the sky to evade.

But Lu Changsheng realized that he and the Golden-Winged Heavenly Peng were unable to inflict any harm on the Ghost Bat True Master despite destroying the blood bats.

The opponent's blood bats were different from the Ghost Shadows and Demonic Qi of the Ghost Shadow True Man, seemingly endless, continuously birthed from the Ghost Bat True Master's Netherworld Blood Pool.

"Indeed, being able to break through the late stage of Core Formation is no simple matter, with my current strength, suppressing the Ghost Bat True Master might be difficult."

"Moreover, he noticed that I relied on external forces to boost my strength, so he avoided direct confrontation and aimed to buy time, waiting for an opportunity!"

Lu Changsheng pondered the intentions of the Ghost Bat True Master.

And through brief exchanges, he also noticed that the Ghost Bat True Master specialized in prolonged battles.

"Since that's the case, let's see now how my full power fares in battle!"

Lu Changsheng's eyes shone brilliantly, releasing two beams of golden divine light; within his Qi Ocean Core, the Yin Yang Great Dao Golden Core suddenly resonated, emitting immense radiant light, and the mana of the sixth layer of Core Formation roared like a True Dragon.

"Yin Yang Great Mingling Millstone!"

Lu Changsheng had never deployed this divine skill before.

Now, with elevated cultivation, it was the perfect chance, he also wanted to see how his full power compared.

Against a Nascent Soul Cultivator like the Ghost Bat True Master, what was the gap?

The Yin Yang energies flowed, emanating a profound Great Dao Qi Mechanism, forming two Yin Yang Fish.

One was extremely masculine and rigid, the other extremely soft and gentle, constantly entwining.

"Boom boom boom—"

As the Yin Yang interacted, the world erupted, the void shattered, all of nature's spiritual energy, essence energy, and demonic qi were swept up, forming a massive grinding mill resembling a Black Hole Funnel, rotating relentlessly, seeming to grind all things into oblivion.

"Boom boom boom—"

The blood light, blood bats, and blood shadows were immediately ground to dust by this millstone, transforming into strands of Yin Yang Qi, causing the millstone to seemingly grow larger, its aura terrifying.

Beside him, the Golden-Winged Heavenly Peng witnessed its owner's power, naturally unwilling to lag behind, its entire body shining brightly, charging to attack the Ghost Bat True Master.

"Heavenly Peng Dragon-Fighting Technique!"

The Golden-Winged Heavenly Peng was completely radiant, dazzling like a golden rainbow, a True Dragon Phantom emerged atop its head, tearing through the sealed heavens, charging towards the Ghost Bat True Master.

The Heavenly Peng Dragon-Fighting Technique was a top-tier innate divine skill, only a few Golden-Winged Heavenly Pengs could awaken it!

Once this divine skill was unleashed, the golden divine light was like a vast ocean, tearing through limitless blood light.

"Not good!"

Seeing this, the Ghost Bat True Master's face changed involuntarily, only now realizing that he had underestimated not only Lu Changsheng's power but also the Golden-Winged Heavenly Peng's strength.

"Splat!"

The golden True Dragon coiled around the Golden-Winged Heavenly Peng's body, suddenly tearing the Ghost Bat True Master's physical form apart.

But in the blink of an eye, the Ghost Bat True Master transformed into countless blood bats, appearing dozens of meters away, evading the strike, yet still felt an intense force causing damage to his body.

The Golden-Winged Heavenly Peng's eyes were cold and ruthless, its killing intent soared, besides the True Dragon Phantom atop its head, a mountainous Peng Phantom appeared, continuing its assault on the Ghost Bat True Master, the endless terrifying aura making the weather shift, causing heaven and earth to lose color.

When the Heavenly Peng Dragon-Fighting Technique was evolved to the extreme, it could form the 'Heavenly Peng Battles Dragon Diagram'!

This diagram was not only a top-tier divine skill for slaughter but also could amplify its battle power!

"Boom boom boom—"

The current battle power of the Golden-Winged Heavenly Peng surpassed Lu Changsheng who relied on the Nine Treasures Ruyi Bone, its golden claws winding around a series of True Dragons, releasing countless golden rays with every gesture, tearing heaven and earth, aiming to slay all life.

"Splat!"

The boundless blood light and waterfalls formed by the Ghost Bat True Master's Netherworld Blood Pool were effortlessly pierced and torn by the Golden-Winged Heavenly Peng, forcing it into a frantic retreat.
