

I! GOD LEVEL ELEMENTALIST

Chapter 1

"Brother, wake up!"

Qin Feng was woken up and looked at the little Lolita in front of him in confusion.

He was stunned for a while, and then whispered: "Chu Chu, you have been dead for so many years, and you only remembered to entrust me with your dream....."

Qin Feng subconsciously grabbed Little Loli's arm and was stunned for a moment.

This little loli's arms are warm and fleshy, she is clearly a living person.....

He raised his head in shock and looked at the little Loli in front of him in disbelief.

This little loli has a pair of big round eyes, willow eyebrows, white skin, and a high nose bridge.....A true beauty.

This is his sister Chu Chu.

But Chu Chu passed away three years ago. Now, why did he suddenly appear alive in front of him?

"Bah bah bah! Brother, what are you talking nonsense about? What do you mean I entrust you with a dream? I told you not to stay up late and watch ghost movies, but you just didn't listen."

Chu Chu raised her mouth in dissatisfaction.

Qin Feng felt that his mind was in a mess.

He looked around and saw a 20-square-meter cabin with dark light, no familiar computer, and no familiar Naruto poster.

On the left wall There is an electronic clock hanging.

The calendar below the clock shows: August 7, 2019. 2019?!

Is n't this year 2022?

Qin Feng opened his eyes wide.

Could it be that he traveled to three years ago? That is, Chu Chu The third day before the car accident!

But why is this house so strange?

His head hurt, and a lot of memories poured out

"It turns out that I traveled to a parallel world..."

Qin Feng was shocked.

This parallel world is full of a strange energy called the power of elements.

At the same time, ferocious beasts and monsters are rampant, and even starry sky beasts appear.

Those starry sky beasts can fly into the sky Escape from the ground, move mountains and fill the sea, and create nuclear bomb-like destructive power at your fingertips.

Human thermal weapons are of little use in the face of ferocious beasts and monsters, and they are even more useless in front of the giant beasts in the starry sky.

Therefore, in order to survive, Humanity has taken the initiative to shrink its area of activity, built thousands of base cities, and put up high walls and power grids to resist attacks by ferocious beasts and monsters.

Many people have left their original places of residence and crowded into densely populated base cities..

This small room of twenty square meters is the home of Qin Feng and Chu Chu in Yunyang Base City.

"Brother, do you know? Aunt Zuo Li died while on patrol yesterday. I heard that she had two legs bitten off by a black panther."

Chu Chu's eye circles were slightly red.

Zuo Li?

Isn't she the neighbor's aunt!

It turns out that she also exists in this world.

Qin Feng felt sad.

Zuo Li is a very kind aunt and has always taken good care of their brothers and sisters. Unexpectedly, This would be the end...

Eh! No!

He clearly remembered that on the original earth, Zuo Li was hit by a black Jaguar, and her legs were broken. She died on the spot, and the time of death was also yesterday.

So... Look, what happened in these two parallel worlds are so similar? They both died on the same day.

One was bitten to death by a black panther, and the other was hit by a black Jaguar.

Both legs were broken in the incident.

Even more terrifying What's more, on the original earth, after Zuo Li's accident, Chu Chu also had a car accident three days later.

Could it be that Chu Chu in this world would also be in danger three days later?

Qin Feng felt an inexplicable pain in his heart.

Chu Chu was with him in the orphanage They grew up and depended on each other for life.

Although they were not biological brothers and sisters, they were brothers and sisters.

He had already lost Chu Chu once, and after traveling to this world, he could not lose Chu Chu again. No matter what, he had to prevent the tragedy from happening.

Bang~ ! ~boom! boom!

There was a knock on the door outside the room.

Chu Chu quickly rubbed her eyes and ran over to open the door.

Crack~!

The door opens.

Standing at the door was a middle-aged man with a sharp temperament, wearing a black uniform and holding a wooden box in his arms.

He is Chen Ming, the captain of the guard who manages this refugee area.

In the eyes of the refugees, Chen Ming is a great figure and very powerful.

Since the emergence of ferocious beasts, demon beasts, and starry behemoths on the earth, the deterrent of human thermal weapons has become increasingly weak, plunging humankind into a crisis of extinction.

During this critical period, humans found a way to practice to become an elemental master in a ruins in Bermuda.

Elemental masters can control wind, fire, thunder and lightning, fly into the sky and escape from the earth, and overturn rivers and seas, just like immortals. They can compete with ferocious beasts, monsters, and even giant beasts in the starry sky.

Since then, the human world has set off a craze for cultivation, turning into a world where only elemental masters are supreme and respected by their strength.

As long as you have strength, you can have countless wealth.

As long as you have the strength, you can be favored by countless beauties.

As long as you have strength, you can have the right to overturn the world.

Elemental masters are classified from one star to nine stars, with one star being the worst and nine stars being the highest.

Before the one-star elemental master, there is still a transitional period to the strong body realm.

This Chen Ming was just a quasi-elementalist, not even the worst one-star elemental, yet he became the highest officer in charge of tens of thousands of refugees and was respected by everyone.

This is because not everyone has the talent to become an elemental master. It would be good to have one talented person out of a thousand people. Most people will not be able to become an elemental master in their lifetime.

"Captain Chen, why are you here?", Chu Chu asked

"I am here to inform you brothers and sisters that in three days, you will report to the Guard and perform daily patrol duties for a week."

Chen Ming announced expressionlessly.

Qin Feng was shocked. Will the mission be carried out in three days?

Doesn't this coincide with the date of Chu Chu's car accident?

It must be very dangerous for Chu Chu to carry out the mission this time.

"Captain Chen, can you be accommodating? Let me complete Chu Chu's mission alone. One person's mission is to perform for a week. Two people are two weeks. I can do it alone for two weeks."

Qin Feng begged for mercy.

"no!" Chen Ming decisively refused, "All refugees over the age of 13 must perform patrol duties for more than one week within a year, and no one can replace them. This is a rule set by the superiors."

"After all, this base city has limited supplies and cannot support idle people or useless people. If anyone violates the rules, they will be kicked out of the base immediately."

It would be dangerous to be kicked out of the base city. There are ferocious beasts and monsters everywhere outside. Even a one-star elemental master can hardly survive, let alone ordinary people.

Qin Feng nodded slightly and said nothing.

He just gave it a try I tried, but I also knew it was impossible.

Chen Ming admired Qin Feng in his heart when he saw that he didn't bother.

"Young people, in this troubled world, the rules are set by the strong, and the weak have no say. In fact, there is nothing wrong with what the strong do. Without the protection of the strong, there is a corner where the weak can survive"

"If you really want your sister to be safe, upgrade her to a citizen! Citizens can go on missions after the age of 18."

Chen Ming said earnestly.

Qin Feng's eyes lit up.

This Yunyang base city is the lowest base city, but the people living in it are still divided into levels.

The lowest level are the refugees, with the worst authority.

Then there are the civilians, Citizens, citizens, and elementalists.

Elementalists are the top class and the smallest group of people no matter when and where they are.

"Captain Chen, what should I do to upgrade my sister to a citizen? Qin

Feng asked curiously

"Very simple! Look at your contribution to Yunyang City. This contribution can be hunting ferocious beasts, capturing fugitives, donating medicinal materials, or even donating money."

"Specifically, you can go to the Municipal Square and the task release area. The fastest way is to donate 10 million coins to the government, which can be exchanged for 1,000 points. These 1,000 points can upgrade a refugee to a citizen."

Hearing this, Qin Feng smiled bitterly.

As far as he knew, the total assets of him and Chu Chu were less than a few thousand.

If the two brothers and sisters hadn't worked odd jobs every day and their lives were a little difficult, how could they have obtained 10 million? Captain Chen added

:"There is a better way. As long as you can become a one-star elemental master, you can designate 3 family members to become citizens. The citizens will not have to perform patrol duties for life."

Hearing this, Qin Feng sighed in his heart, it is indeed a world where elemental masters are respected!

"It would be great if I could become an elementalist. Then I can protect Chu Chu. By the way, as a time traveler, where is my system?"

"Ding! Detecting the host's strong wish, the god-level elemental training system is activated...."

Qin Feng's eyes shone, and the system was activated. In this magnificent world, his wonderful moment was about to come.....
