

I! GOD LEVEL ELEMENTALIST

Chapter 12

Half an hour later, there was a deserted alley.

Qin Feng took out a level 1 thunder beast core, which he had just bought.

Qin Feng swallowed it directly.

The beast core is dissolved, the energy is quenched, and his body is being strengthened at an extremely rapid rate.

"Ding! Successfully swallowed the core of a level 1 thunder beast, and the body's thunder quality +7%..."

Qin Feng couldn't wait to pull out the attribute panel.

Practitioner: Qin

Feng Wind realm: Quasi-elemental master

Thunder realm: Quasi-elemental master

Talent skill: God-level swallowing Combat power index: 324 points

His thunder system has also reached the level of quasi-elemental master, and the combat power index has increased from 294 points to 324 points.

This is getting closer and closer to the 500-point combat power threshold of a one-star elemental.

"Ha ha!! Under the elemental masters, no one should be my opponent!"

Qin Feng laughed happily.

"Ding! Congratulations to the host for completing the ordinary training task. The reward is: an ice qualification enhancer (divine product)!"

"Ding! May I ask the host if it is used?"

"use!"

"Ding! Qualifications are being strengthened....."

This time it was a cool energy that poured into Qin Feng's limbs. It was different from the previous two times. It had the characteristics of ice, but it was very comfortable.

Qin Feng closed his eyes comfortably and immersed himself in the transformation.

This feeling lasted for several minutes

"Ding! Congratulations to the host, the ice qualification has been successfully strengthened!"

Another series of cultivation talents.

Qin Feng couldn't wait to open the attribute panel and was stunned when he saw it.

"System, how come this ice talent is at the genius level?"

"Ding! Remind the host that your original sensitivity of the ice system is 0.5, and that of the wind and thunder systems is 0.7. The lower the sensitivity, the more difficult it is to improve it. So the ice system is not as good as the thunder and wind systems"

"So this is ah!"

Qin Feng suddenly realized that he didn't care at all.

Genius-level talents only appear once in hundreds of millions, which is already extremely rare.

What's more, there are many treasures of heaven and earth in this world.

Some rare treasures can improve cultivation talents.

"Ding! It is detected that the host already has ice talent, and an ice beast core (level 4) will be rewarded."

"That's not bad!"

Qin Feng thought, and there was a white beast core in his hand, exuding a strong cold air.

This is the ice beast core.

Just as Qin Feng was about to swallow it, a prompt came from the system

"Ding! Remind the host that your ice talent is genius level. The strength of talent affects the absorption and utilization rate of the crystal core"

"A peerless talent that can devour 100% of the transformation crystal cores. Genius-level talents can only convert and absorb 80%"

Qin Feng was stunned.

It seems that the strength of talent is still very useful.

Are there any more advanced talents above the peerless talents?

As far as he knows, the highest talent on earth is the peerless level.

"Ding! Remind the host that there are invincible talents on top of peerless talents. If the host completes the corresponding tasks, he will have the opportunity to continue to improve his talents....."

"Um...there really is!"

Qin Feng was a little shocked.

It seems that the system is a big treasure house that he needs to develop slowly in the future.

Qin Feng swallowed the beast core in one gulp.

The cool energy rose from the body and poured into the limbs and bones, rapidly strengthening him. Every cell.

Strength is improving, and the six senses are continuing to strengthen.

"Ding! Successfully swallowed the core of a level 4 ice beast, turning the body into ice +67%..."

Qin Feng brought up the attribute panel.

Practitioner: Qin

Feng Wind Realm: Quasi-Elemental Master

Thunder Realm: Quasi-Elemental Master

Ice Realm: Late Strengthening Stage (67% ice mass)

Talent Skill: God-level Devouring

Combat Power Index: 417 points

"The combat power has been increased to 417 points, and the combat power threshold of a one-star elemental master is getting closer and closer!"

Qin Feng felt extremely happy.

With such strength, even if he is not the opponent of a one-star elemental master, he still has a chance to escape.

You know, ordinary quasi-elemental masters can only be killed in front of a one-star elemental master, and there is no escape at all. opportunity.

Now, he is more confident to protect Chu Chu.

Even if he encounters a monster on patrol the day after tomorrow, he can help Chu Chu escape.

The only worry is that Lin Xuyang

"Ding! The god-level challenge mission begins!"

Task content: Enter the challenge space and perform a high-difficulty challenge.

If you die, you can be resurrected, and there is no reward. If the challenge is successful, the reward will be generous.

First opening conditions: All three elements have been cultivated to the late stage of the strong body realm.

Lower level opening conditions: Three elements Cultivate all to the late stage of one star or above

"Huh! God-level challenge? Will he die?"

Qin Feng was a little shocked.

Death means that the challenge is very dangerous.

Fortunately, this death can be resurrected.

"Ding! Remind the host that you only have three chances to challenge!"

"Ding! Remind the host that if you have a series of breakthroughs to the elemental master, you will lose the qualification to challenge

"Ding! I would like to ask the host, do you choose to challenge?"

"Forehead....."

Qin Feng sweated on his forehead.

This challenge has restrictions on cultivation, so it must be difficult

"challenge!", Qin Feng quickly made a choice

"Ding! If the selection is successful, the host will be rewarded with "God-level Fighting Skills". Data is being entered....."

The next second, a massive amount of fighting skills and experience were poured into Qin Feng's mind, allowing him to grow rapidly.....

"Ding! After 10 seconds, enter the challenge map - Hell World, 10...9...8...7....".....
