

I! GOD LEVEL ELEMENTALIST

Chapter 15

Of course, Qin Feng also had a bottle of first-level genetic medicine in his hand, which was reserved for Chu Chu.

With a thought in his mind, Qin Feng took another piece of white crystal fragment in his hand, with a incomplete divine pattern on it.

This is the final item rewarded by the mission.

Light screens popped up in his eyes.

Item name: Fragments of the Ice God Seal

Notes: Can be swallowed; speeds up the speed of condensing the Ice God Seal.

Qin Feng swallowed it directly.

God-level devouring operates automatically.

The fragments of the Ice Divine Seal automatically dissolved and turned into a stream of clear water, rushing directly towards his Shenting Point, and soon condensed into a looming white Divine Seal.

"Ding! Successfully swallowed the Ice Seal fragments, and the Seal Condensation Completion Degree +30%...."

Qin Feng felt something in his heart and quickly pulled out the training template.

Practitioner: Qin

Feng Wind Realm: Quasi-Elemental Master (Divine Seal Completion Degree 11%)

Thunder Realm: Quasi-Elemental Master (Divine Seal Completion Degree 0%)

Ice Realm: Quasi-Elemental Master (Divine Seal Completion Degree 30%)

Talent skill: God-level Devouring

Combat Power Index: 570 points

"It turns out that this is the purpose of the divine seal fragments. It's indeed a good thing!"

Qin Feng smiled.

Condensing the divine seal is a process of hard work and suffering.

There are only a few heavenly materials and earthly treasures that can shorten the condensation time, but they are frighteningly expensive, easily worth hundreds of millions of coins.

This fragment of the divine seal is, It exerts this special effect.

A piece of fragment can increase the degree of completion by 30%.

Qin Feng had practiced the wind system all night before.

The Wind God Seal had only been condensed to 11%, which is still a peerless talent.

If replaced with a genius-level talent, it would take a whole night. It's good to be able to condense 0.5%. Those excellent, good, and ordinary talents are even more incomparable.

"Ding! The residence time has expired and the host will exit the Hell Realm after 10 seconds...10...9...8...."

A few seconds later, Qin Feng returned to the earth and appeared in the remote alley.

But as soon as he put his feet on the ground, a woman's scream sounded behind him.

Qin Feng was shocked that there was someone in this alley.

He turned around quickly, looking embarrassed.

Behind him, he saw a delicate-looking female genetic warrior looking at him in shock.

Next to her, there was a beautiful woman with extremely delicate facial features, as fair as jade, and an extremely hot figure, squatting there.....

I go!

What qualities do women have today?!

Are you peeing everywhere like this?

Qin Feng saw a lot of things that he shouldn't have seen at once

"rogue!"

The beautiful lady screamed in fright, stood up in panic, and even.....

Qin Feng fled as if fleeing.

The beauty's cry came from behind

"Xiaoqing, don't I want you to be a sentinel for me?"

"Miss, I...I was on sentry duty!"

"Then how did he get here?"

"I...I don't know! A flash of white light and he appeared!"

"Wow!! What a shame! I don't live anymore!"

Zi Xi was so ashamed.

She thought she was the daughter of the city lord, and she was always very noble. This was the first time in her life that she did such an embarrassing thing, and she was caught. It's all her father's fault!

What did she say when he asked her to drink some spiritual water? It can improve water system cultivation...

I didn't expect the side effects to be so severe, I couldn't hold it in anymore, it just came as it came.....I can only find a location nearby.....

From now on, she will never drink that kind of spiritual water again.....

"remember! No one should say anything about this!"

"Miss, I know!"

"Woohoo!! My forever famous name....."

"Why! Miss, the city lord has told you before that if you drink that kind of spiritual water, you won't be able to go out for a day. It's better if you don't come out today....."

"do not talk! What a shame! Woohoo!!"

On the other side, Qin Feng hurriedly ran out of the alley and came to the lively municipal square.

"What qualities do women have nowadays?....."

Qin Feng shook his head slightly with emotion on his face

"Ding! The second god-level challenge is activated! The reward this time will be higher than the first time!"

"Ding! Will the host challenge immediately?"

Qin Feng's eyes lit up, and he had another chance to make money.

He has now figured out that this kind of god-level challenge is an extremely rare opportunity.

Before he became an elemental master, he only had three challenge opportunities.

If he doesn't use it, once he Becoming an elemental means giving up automatically.

Three challenges can be understood as passing three levels.

Only if you win the first level can you proceed to the second level.

Therefore, he can only gain the maximum benefit by winning every level.

As long as he loses once, he will One less reward and the benefits are greatly reduced

"This time I need to be prepared!"

Qin Feng's expression became cautious.

He didn't want to fail.

At that moment, he hurriedly left the municipal square and went to a nearby weapons store to buy thermal weapons.

In today's earth, thermal weapons have limited damage to ferocious beasts and monsters, so they are sold Very cheap.

Their main consumer group is genetic warriors.

Qin Feng quickly bought a high-energy rocket launcher, three special armor-piercing projectiles, and nearly a hundred high-explosive landmines.

Together, they only cost 200,000 coins.

Then, he spent another 1 million coins to buy a titanium-manganese alloy sword.

Titanium-manganese alloy weapons are close-combat cold weapons refined by humans using secret methods.

This knife can easily cut through tanks, and can also break through a The defense of the Star Demon Beast is a sharp weapon used to deal with ferocious beasts, and is very popular among genetic warriors.

After making these preparations, Qin Feng went to the Fighter Hall.

In addition to the testing venue, the Fighter Hall also provides a training room.

Quan Min The identity can be used for free.

What Qin Feng wants is the secret training room.

After experiencing the embarrassing incident just now, he is not going to find any uninhabited alley.

A quarter of an hour later.

The warrior hall, a secret training room, a thick alloy door It has been closed.

Qin Feng called out the system and started the second god-level challenge

"Ding! Enter the challenge map after 10 seconds - the world of the dead, 10...9...8...7...."

With a flash of white light, Qin Feng disappeared into the secret room.....
