

I! GOD LEVEL ELEMENTALIST

Chapter 16

The next second, Qin Feng entered the world of the dead and appeared in a small valley.

He turned around and looked around. The sky was gloomy. There was a faint smell of blood and stench in the air, and it was also a bit cold.

No spirits were found in the valley.

Qin Feng walked towards the mouth of the valley.

Walking out of the valley, there is a grassland outside, covered with gray strange grass, and a herd of wild horses running on the grassland.

Qin Feng looked at Ye Ye, a light screen popping up in his eyes.

Category: Spirit

Name: Undead Wild Horse (normal level)

Level: Level 6 (early stage of one star)

"No danger level warning appears. It seems that the system determines that I can easily kill level 6 monsters."

Qin Feng raised the corners of his mouth and showed a faint smile.

A level 6 spirit, the strength is equivalent to that of an early one-star elemental.

With his current strength, he can indeed defeat most of the early one-star elementals.

Qin Feng stared at the horses. After looking at it for a while, his eyes gradually became fiery.

The crystal core of a level 6 spirit can be exchanged for 5 million coins!

However, he did not make a move rashly.

This undead horse is known for its speed, and he can't catch up.

What's more Yes, one-on-one, he was confident that he could easily kill the dead wild horses, but not against a group.

Therefore, Qin Feng planned to find a lone dead wild horse to kill.

His eyes searched the grassland. At this time, he saw in front of him a skeleton man whose whole body was burning with white flames. Holding a bloody bone knife in his hand, he rushed to an undead wild horse like lightning, and cut the undead wild horse into two pieces with one strike..Then , the skeleton man picked up the crystal core of the wild horse and swallowed it.

All this happened very quickly, and Qin Feng was shocked.

Killing a level 6 spirit with one knife in an instant!

What kind of strength is this?

This is equivalent to killing a person in an instant with one knife. An early-star elemental!

Qin Feng quickly looked at the skeleton, with light screens popping up in his eyes.

Category: Spirits

Name: Necromancer Skeleton King (Elite)

Level: Level 7 (mid-1-star)

Equipment: Blood Bone Knife (Yuan-level weapon) , low-grade, can only be dropped after the first challenge and kill)

Warning: Very dangerous level (win rate is less than 20%)

"Win rate less than 20% ! "

Qin Feng's eyes widened in shock.

This is the strength of level 7 elite monsters.

He is just a level 5 lord.

"Ding! God level challenge activated!"

Challenge Content: Kill the Deadly Skeleton King within ten minutes.

"Another 10 minutes!"

Qin Feng took a deep breath.

This time, his winning rate was less than 20%, and there was no fire pillar to help.

The system actually asked him to kill the Skeleton King within 10 minutes.

This difficulty is much greater than last time!

Do you just give up like this?

Qin Feng looked at the bloody bone knife of the Skeleton King, and his eyes became extremely fiery.

That was a Yuan-level weapon!

Yuan-level weapons, referred to as Yuan Wu, can amplify elemental attack power, greatly improving physical strength masters or elemental weapons. The strength of the master.

Therefore, Yuanwu is very popular among physical masters and elemental masters.

However, Yuanwu is made of extremely rare materials, or materials from monsters, combined with secret methods, and is very expensive.

A low-grade Yuanwu Wu, worth between 100 million and 500 million coins, is simply not something that a physical master can afford.

Even a one-star elemental master can hardly afford it.

"If only I got this knife! Then make a fortune!"

Qin Feng licked his lips.

Unfortunately, the Death Skeleton King is much stronger than him.

He is not sure that he can kill the Death Skeleton King within 10 minutes.

If he fails this time, he will have no chance to get this knife..The system prompts that it can only be dropped after challenging and killing the Skeleton King for the first time.

Therefore, he only has this one chance.

"Ding! The challenge will automatically start after 3 seconds...3...2...1.."

"Ding! The challenge begins! Automatic timer 10:00....."

Qin Feng did not rush towards the Skeleton King, but quickly returned to the valley.

He had an idea of his own.

Entering the valley, Qin Feng will bring about a hundred landmines with him, quickly arrange them at the entrance of the valley, cover them with dust, and leave only a few places to set foot next to them, remembering them carefully.

These are high-explosive mines, much more powerful than ordinary mines, and several times more expensive.

It took him more than three minutes to complete this in a hurry, and his speed was already extremely fast.

Then he quickly walked out of the valley.

I saw that the Skeleton King was chasing an undead wild horse, as fast as lightning, and Qin Feng's eyes couldn't keep up with its speed.

This guy is much faster than me.

Qin Feng did not hesitate, quickly set up the rocket launcher and loaded it with special armor-piercing bullets.

The warhead of this armor-piercing bullet is made of titanium-manganese alloy. It can penetrate tanks and break through the defense of one-star monsters. It is not comparable to rocket grenades.

After doing this, Qin Feng yelled at the skeleton soldiers.

The Skeleton King was alarmed, stopped quickly, and looked at Qin Feng in confusion.

This level 5 elf actually yelled at me?

The Skeleton King was a little confused.

In the world of spirits, hierarchy is strict. Is this little spirit looking for death?

Skeleton King is in a daze.

Qin Feng took the opportunity to take aim.

The Skeleton King who stops is a living target.

When moving at high speed, he couldn't aim at all.

At this moment, I finally took aim!

Fire!

Armor-piercing bullets shoot out!

Boom~~!

There was an explosion and dust was flying.

The armor-piercing bullet hit the Skeleton King in the pelvis, causing it to roll and fall to the ground.

The next second, it climbed up quickly and was not injured.

The defense of this Skeleton King is extremely terrifying. It is stronger than the defense of ordinary one-star monsters. Even the special armor-piercing bullets cannot harm it.

It is truly an elite monster!

The Skeleton King jumped with anger, raised the blood and bone knife, and rushed towards Qin Feng.

It wants to chop this little level 5 monster into two pieces!

At this moment, Qin Feng's second armor-piercing projectile has been filled, and it is best to aim in a straight line from the front.

Qin Feng took aim within a few seconds and pulled the trigger.

As soon as the fire broke out, the second armor-piercing bomb hit Skeleton King's pelvis again, blowing him to the ground.

That's right!

Qin Feng attacks the skeleton soldier's pelvis every time. This is his plan.

Keep loading and filling!

The last armor-piercing shell is filled

The Skeleton King also stood up and rushed over with an angry roar.

This time, it was much slower.

Sure enough, bombarding the same place can cause superimposed damage.

Forty meters...thirty meters...twenty meters...

The Skeleton King is getting closer and closer.

Qin Feng pulled the trigger, and the third armor-piercing bullet hit his pelvis again, knocking the Skeleton King to the ground.

Then, he quickly turned around and retreated back to the valley.

He only had five minutes left and no time to see the Skeleton King's injuries.

Following the memorized foothold, Qin Feng dodged a few times and jumped into the valley.

The Skeleton Soldier King happened to catch up.

It staggered, raised its long knife, and charged at them in a rampage.

Boom~! Boom~~! Boom~~!

Landmines exploded along the way.

Nearly a hundred high-energy landmines exploded with extremely terrifying power.

Qin Feng lay down in a low place in time to avoid the shrapnel flying everywhere.

It lasted for more than half a minute before the explosion stopped.

Qin Feng looked up and saw the Skeleton King lying on the ground, holding the blood bone knife high with one hand and holding the ground with the other hand, crawling towards him.

Its pelvic floor was blown to pieces, and its two legs were gone.

"Ha ha!! as I expected!"

Qin Feng laughed and rushed over, pulled out the titanium-manganese alloy knife, quickly went around the back of the Skeleton King, raised the knife and slashed. The Skeleton

King without legs is a tiger without teeth, what else is he afraid of?

Bang! Bang! Bang! ~~!

Qin Feng nimbly avoided the Skeleton Soldier's attack while slashing at its neck.

The Skeleton King's defense was extremely hard, and the titanium-manganese alloy knife smashed out sparks.

Qin Feng's tiger's mouth was so shocked that he felt numb.

But he didn't dare to relax, he only had three minutes left.

Bang! Bang! Bang~~ !

Another sharp chop.

Click~!

Skeleton King's head finally broke.

It screamed, and its body collapsed, turning into thick black mist and scattering in all directions.

All spirits have no flesh and blood.

When the black fog dissipated, there was a bloody bone knife and a level 7 crystal core on the ground.

Level 7 crystal core can be exchanged for 10 million coins!

Blood and Bone Knife, Yuan-level weapon, worth over 100 million

"Haha!! Now I'm rich!"

Qin Feng excitedly picked up the blood bone knife and crystal core.....
