

I! GOD LEVEL ELEMENTALIST

Chapter 17

Qin Feng couldn't wait to look at the Blood Bone Knife, and a light screen popped up in his eyes.

Item name: Blood Bone Knife

Category: Yuanwu

Grade: Lower grade

Efficacy: Amplitude Yuan system attack power 100%

"Amplitude 100%! Big profit this time!"

Qin Feng's eyes shone with surprise.

The amplitude strength of low-grade Yuanwu is generally between 50-100%. Those that can reach 100% are the best of low-grade Yuanwu. They are very rare and are worth at least 500 million coins.

Many one-star elemental masters cannot afford such a fine product, and it will be envied by countless people.

Qin Feng felt extremely happy.

With this knife, his strength will be greatly enhanced.

Therefore, he does not plan to sell it. Get out.

Besides, his current cultivation level is not enough. Taking out such a precious Yuanwu rashly will inevitably make people jealous and even cause unnecessary trouble.

To put it bluntly, if you want to do whatever you want, you must continue to improve your strength.

"Ding! Congratulations to the host for completing the second god-level challenge, rewards have begun to be distributed....."

"Ding! Reward a piece of Fengshen Seal fragment!"

"Ding! Reward a fragment of the Ice God Seal!"

"Ding! Reward a fragment of the Thunder God's Seal!"

"Ding! Reward a skill stone...."

Qin Feng had no time to pay attention to the system's rewards.

With the experience of the last challenge, he knew that time was precious and could not be wasted.

Picking up the blood and bone knife, Qin Feng rushed out of the valley and rushed towards an undead wild horse.

The wild horse is grazing with its head down.

When it saw Qin Feng rushing over, it was startled at first, and then showed disdain.

A little level 5 monster dares to attack me. Does he still think he is a level 7 boss?

You are here to die!

In just a moment, Qin Feng rushed in front of it.

The wild horse roared and kicked violently with its long legs.

That leg was as strong as a knife, causing a harsh sonic boom and a wave of air trembling in a ten-meter radius.

This blow can easily kill a quasi-elementalist instantly.

At this time, Qin Feng took action.

God-level fighting skills are integrated into himself.

He just tilted slightly, using subtle movements to avoid the leg's attack.

Clang~~!

The red sword light flashed across the sky like a rainbow!

Click~!

Just one knife!

The undead mustang was split in half.

It screamed sadly, turned into a black mist and dissipated, leaving a level 6 crystal core on the ground.

The undead wild horses all around were stunned.

Level 6 crystal core, worth 5 million!

Got rich again!

Qin Feng grabbed the crystal core and killed the second undead wild horse.

The wild horse was frightened, turned around and ran away.

A minute later, there was another scream.

Another undead wild horse was killed, and Qin Feng got another level 6 crystal core.

Three minutes later, he screamed again.

The third wild horse was killed, and Qin Feng obtained the third level 6 crystal core.

At this time, the detention time had expired and he was sent out of the world of the dead.

The next second, in the earth world, in the warrior building, in the secret training room.

A burst of white light flashed, and Qin Feng appeared in the room

"The harvest this time is not small!"

He couldn't wait to open the system mall and recycle all the crystal cores he got. In the blink of an eye, he got 25 million coins.

Then, Qin Feng spent another 13 million genetic medicines and bought third-level genetic medicines (perfect level) and fourth-level genetic medicines (Perfect level)

"Ding! Congratulations to the host, the transformation was successful after taking the third-level genetic medicine (perfect level), and the combat power increased by 55 points....."

"Ding! Congratulations to the host, the transformation was successful after taking the fourth-level genetic medicine (perfect level), and the combat power increased by 75 points....."

After taking the genetic medicine, Qin Feng felt that his blood was boiling, every cell was active, and his body was much strengthened.

He pulled up the challenge status template.

Challenger: Qin Feng (Lord Level)

Level: Level 5 (Quasi Elemental Master Realm)

Talent Skills: God Level Devouring

Combat Power Index: 700 points

"The combat power has reached the one-star mid-term threshold. This genetic medicine is really powerful!"

Qin Feng showed a satisfied smile.

The four enhancements of the perfect genetic medicine actually increased his combat power by 200 points.

If replaced with ordinary genetic medicine, it can generally only increase the combat power by 90 points, and has a high fatality rate..

Completely incomparable.

Qin Feng thought of Chu Chu. He wanted the little girl to become a fourth-level genetic warrior.

In this troubled world, if he wants to live well, his own strength must become stronger.

He cannot be here all the time. Chu Chu's side.

This time, Qin Feng spent 8 million to buy the second-level genetic medicine (perfect level) and the third-level genetic medicine (perfect level). The fourth-level genetic medicine (perfect level) required 8 million, and he only had 5 million.

This matter can only be postponed.

After doing this, Qin Feng began to take stock of the mission rewards.

Those divine seal fragments are what he needs most at present, which can help him break through to the elemental master as soon as possible.

If the divine seal fragments are regarded as heaven According to the market price, any piece of material and land treasure is worth over 100 million.

However, no one outside can use the divine seal.

Only Qin Feng can devour it.

The system's rewards this time are very generous.

Each of the three series of divine seal fragments was awarded one piece.

"Ding! Successfully swallowed the fragments of the Thunder God Seal, and the completion of the Seal Condensation +30%...."

"Ding! Successfully swallowed the Ice Seal fragments, and the Seal Condensation Completion Degree +30%...."

"Ding! Successfully swallowed the fragments of the Wind God Seal, and the completion of the Seal Condensation +30%...."

Qin Feng called up the training template.

Practitioner: Qin

Feng Wind Realm: Quasi-Elemental Master (Divine Seal Completion 41%)

Thunder Realm: Quasi-Elemental Master (Divine Seal Completion 30%)

Ice Realm: Quasi-Elemental Master (Divine Seal Completion 60%)

Talent skill: God-level Devouring

Combat Power Index: 700 points

"good! The wind element completion rate has reached 41%. With my peerless talent, I can break through within six days even if I practice hard."

Qin Feng looked at the data with satisfaction.

Although the ice system has the highest degree of completion, the ice system has the lowest talent, and will be the last to break through.

However, as long as he has a breakthrough in the system, his strength will definitely skyrocket.

From quasi-element to elemental master, this is A process of reaching the sky step by step.

Qin Feng thought, and there was another blue crystal in his hand.

This was the last reward. A light screen popped up in his eyes.

Item name: Skill stone (violent blow)

Category: Rare object (extreme Rare)

Note: Can be swallowed

"Can it be swallowed?"

Qin Feng thought for a while and then swallowed the skill stone.

The swallowing skill automatically operated, and the skill stone turned into a powerful spiritual ability, rushing into Qin Feng's mind, giving him a lot of information.

"Ding! Successfully swallow the skill stone and acquire the skill: Furious Strike....."

Qin Feng felt something in his heart and pulled out the challenge status template.

Challenger: Qin Feng (Quasi-King Level)

Level: Level 5 (Quasi-Elemental Master Realm)

Talent Skills: God-Level Devouring

Combat Skills: Violent Blow (Double Combat Power Instantly)

Combat Power Index: 700 Points

"Huh! From lord level to quasi-king level!"

Qin Feng was a little surprised.

Although his level and combat power index have not changed, his level has been raised to quasi-king level.

This means that his overall strength has improved..3 a grade.

It seems that combat skills have a great influence on strength.

In fact, few elemental masters below three-star elemental masters can comprehend combat skills.

Learning other people's combat skills is a long process and requires a high level of understanding.

At the same time, Qin Feng also discovered that the system's assessment of strength did not include weapons and equipment.

This may be a bug that will prevent him from completing god-level challenges in the future.

Qin Feng silently remembered it in his heart

"Ding! Host, you have one last chance to challenge at the god level. Do you want to start the challenge?"

"Not enabled yet!"

Qin Feng made a decisive choice.

According to the nature of the system, the difficulty of this third challenge must be doubled. He is not sure that he can pass the level.

If he fails, he will miss a reward, and it is the most generous reward.

That is There was nothing to be careless.

He had to wait for the opportunity.

A quarter of an hour later, Qin Feng left the secret practice room with satisfaction.

At the end of the day, he had gained a lot. With his current strength, plus the assistance of the Blood and Bone Sword, even if he encounters a one-star Dzogchen The masters were not afraid at all.

After leaving the Warrior Building, Qin Feng looked at the time and saw that the sun was setting.

He had not been seen all day. Chu Chu should be anxious and it was time to go home.....

PS:This is a chapter with more than 5 rewards!

Thank you very much for your support!!!!
