

I! GOD LEVEL ELEMENTALIST

Chapter 3

Qin Feng was excited.

From now on, as long as he gets beast cores and demon cores, he can quickly improve his cultivation level.

"I'm not a match for the fourth-level ferocious beast yet, and I can't protect Chu Chu with this little strength."

Qin Feng is still a little anxious.

In three days, Chu Chu will go out of the city to patrol, and he is likely to encounter ferocious beasts.

If ordinary people are compared to wild beasts, then the strong body realm masters are ferocious beasts, and the elemental masters are monster beasts.

The strong body realm is divided into Early stage, middle stage, late stage, and Dzogchen.

Ferocious beasts are divided into first level, second level, third level, and fourth level.

The first level evil beast is equivalent to the early stage of strengthening the body, the second level is equivalent to the middle stage of strengthening the body, and so on.

"If I get another beast core, I can break through to the Great Perfection of Strong Body."

Qin Feng licked his lips, feeling a little unfinished.

He felt that the system was a bit stingy and did not give out more beast cores.

"Ding! The god-level training mission begins!"

Normal difficulty: The host completes 100% of the physical body's temperament within 3 days, and will be rewarded with a storage ring (divine grade)

Intermediate difficulty: The host completes 100% of the physical body's temperament within 1 day, and will be rewarded with a storage ring (divine grade)), one thunder beast core (level 4).

Advanced difficulty: the host completes 100% physical transformation within 2 hours, and will be rewarded with a storage ring (divine grade), and one thunder beast core (level 4) , a thunder qualification enhancer (magic product)!"

"Ding! Remind the host that you can only choose one difficulty level for the task. Once selected, it cannot be changed! Mission failed, no reward!"

"this....."

Qin Feng hesitated.

The fourth-level beast core only makes his demeanor 84% better.

According to this conversion rate, he would have to devour at least one more second-level beast core to reach 100%.

It is not difficult for him to go out of the city to hunt ferocious beasts now. It is not difficult to kill a level two or above ferocious beast in one day.

But he needs a wind beast core of level two or above.

Wind beasts are rare in number, and it is not easy to encounter one. It all depends on luck, so it is easy to fail at the intermediate difficulty level.

As for the advanced difficulty, it would be even harder to get a level 2 wind beast core within 2 hours.

"Should I choose normal difficulty?"

Qin Feng frowned.

Naturally, he was unwilling to give in.

Obviously, the rewards for advanced difficulty are the most generous.

"Ding! The host is asked to make a choice within 10 seconds. Failure to make a choice within the timeout will be regarded as giving up. 10...9....8...7...6....

"correct....."

Qin Feng's eyes lit up, and he seemed to have thought of a way, and chose the advanced difficulty without hesitation.

After making his choice, he hurried home.

A quarter of an hour later, Qin Feng returned to his residence. The room was still dark.

Chu Chu was no longer in the room, and he didn't know where he went.

Qin Feng's time is precious.

He quickly walked to the closet, opened the door, and flipped through the clothes at the bottom of the closet.

There were two wooden boxes hidden under the clothes.

One of them was a relic given by Zuo Li to their brother and sister.

The other one is the daily savings of Qin Feng brother and sister.

Qin Feng took out both boxes.

He opened Zuo Li's box and found 50,000 coins neatly placed inside.

That's Zuo Li's pension.

The refugee was killed in action and his pension was only 50,000 yuan.

If you are a civilian, the pension will be 100,000; for a citizen, the pension will be 200,000.

Qin Feng looked through the lower layer of Zuo Li's box and found more than 10,000 coins, which was Zuo Li's entire savings.

Later, he found more than 6,000 coins in his piggy bank, which was all the belongings of their brother and sister.

All added up, it's more than 71,000 coins.

Qin Feng took away 70,000 yuan and left more than 1,000 coins for future expenses.

"Still missing 30,000 coins!"

It turns out that Qin Feng's idea was to buy a ready-made second-level wind beast core.

According to the market price, the second-level beast core is worth 100,000 coins.

"What should I do if I'm still short of 30,000? By the way, if you are promoted to Quanmin, you can receive a monthly allowance from the government. I heard it is very generous....."

There are three ways to be promoted to Quanmin.

The first is for elemental masters to designate relatives and be promoted unconditionally.

The second is to make a certain contribution to the base. When the contribution points reach the standard, you can be promoted.

The third type is a strong physical realm master who has the potential to become an elemental master and is promoted unconditionally.

Qin Feng reached the third point.

Thinking of this, Qin Feng collected the money and left in a hurry.

He must try to complete the task within 2 hours, otherwise there will be no reward.

After leaving home and going downstairs, Qin Feng took a bus into the city.

An hour later, Qin Feng arrived at the Municipal Square.

There are many people in the square.

This is the busiest place in Yunyang City.

Among the crowd were refugees, civilians, citizens, and very rare privileged citizens.

As for the superior elemental masters, it is difficult for ordinary people to see them.

Qin Feng had no intention of lingering and walked directly to the city hall.

Entering the hall, there were many people inside, some came to hand over various tasks, and some were promoted like Qin Feng.

As soon as Qin Feng entered, he attracted the attention of some women.

His facial features were already handsome, but after practicing, his whole temperament became more transcendent, as if he had his own light and was extraordinarily handsome.

Even though he is dressed plainly, he is eye-catching

"This boy is so handsome!"

In the crowd, a hot young woman's eyes shone.

At the door, a pretty female staff member came over on her own initiative.

"Sir, what business do you want to handle?"

The female staff is very enthusiastic and has a professional smile on her face.

"I want to apply for status promotion service. What is the window number?"Qin Feng asked.

The female staff member smiled and said:"Sir! Promotion to civilian status can be done at windows 1 and 2. To upgrade to citizen status, apply at window 3"

"What about being promoted to Quanmin?", Qin Feng asked

"Quanmin?"

The female staff members were a little shocked.

There was a commotion all around, and everyone looked at Qin Feng in unison.

Some were surprised, some were jealous, and most were envious.

The democratic class is a relatively special class, with high privileges and considerable In the Middle Ages, the knight class was considered a minor aristocracy.

The entire Yunyang Base City had a population of 30 million, and the civil class was only over 20,000 people.

When ordinary people see the civil class, they must take the initiative to salute and say hello. This is the rule.

Even If a citizen kills an ordinary person for no reason, he will be given a lighter punishment and will not be punished with death.

However, it is extremely difficult to become a citizen. Most people will never have the chance in their lifetime.

There are only one or two cases in this city hall a month.

"My lord, I am in the VIP room for promotion. Please come with me!"

The expression of the female staff member became respectful. She was not neglectful at all because Qin Feng was young.

People who are qualified to be promoted to Quanmin are not ordinary people, and she cannot afford to offend her.

At this moment, Qin Feng was in the envious eyes of everyone, Follow the female staff member and leave.....
