

I! GOD LEVEL ELEMENTALIST

Chapter 4

Entering the VIP room, you will be surrounded by luxurious decoration.

In the hall, there is a one-armed man sitting behind the desk. He has a strong back and strong aura, and there is a murderous aura deep in his eyes.

"Gene warrior!"

Qin Feng could identify the man's foundation at a glance.

The so-called genetic warriors are genetic medicines extracted from the corpses of ferocious beasts by humans to strengthen the body.

Genetic warriors are divided into four levels, with level one being the weakest and level four being the strongest. There are four levels of masters in the strong physical realm.

For example, the first-level genetic warrior is equivalent to the early master of the strong physical realm, the second-level is equivalent to the intermediate master, and so on. Genetic warriors cannot be directly promoted to Quanmin, but they have strong strength and can pass It is a very difficult road to earn points and slowly upgrade to Quanmin.

In short, the status of genetic warriors is not as good as that of physical masters because they do not have the potential to become elemental masters.

But they are the goals pursued by countless ordinary people. After all, most people do not have the talent to become elemental masters.

Unfortunately, genetic drugs are too expensive and not everyone can afford them.

"Director Wang, this gentleman wants to be promoted to Quanmin!"

The female staff member reported to the one-armed man.

The one-armed man looked at Qin Feng in surprise. He was promoted to Quanmin at such a young age and dressed so plainly. He shouldn't be a child of a rich family. Could he be a master of physical strength?

The look in the eyes of the one-armed man He couldn't help but become respectful.

The masters of the strong physical realm were definitely not comparable to those children from rich families. Those rich children could be promoted to power because they relied on money, and he looked down on them.

On the contrary, he respected the masters of the strong physical realm very much.

For human beings, strong physical masters are all treasures, and they are the objects of special protection, because they are the future elemental masters.

At the same time, he is also envious.

He has been a genetic warrior for more than 20 years and fought countless battlefields. , and finally lost an arm before being promoted to a citizen.

How could he not be envious of this young man who was about to become a powerful citizen at such a young age?

"Sir, please sit down!"

Director Wang, a one-armed man, greeted politely.

Qin Feng nodded slightly and sat on the leather sofa opposite Director Wang.

"Sir, what would you like to drink? We have coffee and tea here...." the female staff member asked respectfully.

Qin Feng enjoyed the VIP-level service and felt secretly happy.

This is just a promotion to Quanmin, and you get such treatment.

In the future, if he becomes an elemental master, wouldn't that mean he is superior?

"Have a cup of tea!", Qin Feng said casually

"OK, my lord!"

The female staff member left respectfully.

"Sir, to what level do you want to be promoted? Director Wang asked politely

"Are citizens divided into different levels?" Qin Feng doesn't know much about this.

"Yes! A master in the early stage of physical strengthening can be promoted to a first-level Quanmin; in the middle stage of physical strengthening, he can be promoted to a second-level Quanmin, and in the later stage, he can be promoted to a third-level Quanmin. Dzogchen is a fourth-level Quanmin, which is also the highest level."

"Citizens of different levels have similar rights. The biggest difference is the monthly allowance received from the government department. For example, first-level citizens can receive 10,000 coins per month; second-level citizens can receive 20,000 coins; third-level citizens can receive 30,000 coins; and fourth-level citizens can receive 40,000 coins."

Director Wang introduced it enthusiastically.

Qin Feng was secretly surprised.

It's good to have strength.

Even if you become the lowest level citizen, you can get 10,000 coins for nothing every month.

You know, he and Chu Chu work hard every month I work part-time and have no vacation for thirty days, but I get a salary of 2,000 to 3,000 coins a month. This is the difference.

"Will I be able to receive a promotion subsidy immediately as long as I am successfully promoted to Quanmin? Qin

Feng asked with concern. What he lacks most now is money.

Director Wang smiled and nodded:"Yes!" Sir, please show your promotion certificate!"

"look!"

Qin Feng stretched out his palm, and a faint green light glowed in his palm.

This is a symbol of entering the early stage of physical strength.

"The early stage of strengthening the wind system!"

Director Wang's eyes lit up. This young man really got promoted based on his own ability and was not a kid from a rich family.

At this time, a female staff member came over with brewed tea.

She happened to see this scene and her beautiful eyes lit up. The light shines.

A master of strong physical realm!

Tsk tsk! This boy is really extraordinary!

The female staff member couldn't help but look at Qin Feng a few more times, feeling a little excited.

Even Quan Min, there are levels.

There are generally three types of people who can become Quan Min. Genetic warriors, rich people, and masters of the physical enhancement realm.

The first two types of people will end when they become powerful people, but the future of the physical enhancement master is limitless. Not only is this young man handsome, he is also a master of the physical enhancement realm. The best among men!

"My lord, your tea!"

The female staff member put down the tea enthusiastically, with a sweet smile on her face.....
