

I! GOD LEVEL ELEMENTALIST

Chapter 6

Qin Feng left the city promotion office in a happy mood.

Sure enough, as long as there is strength in this world, whether it is money, beauty, status, or power, everything will be there.

There are many shopping malls near the Municipal Square, and stores selling animal cores are easy to find.

A quarter of an hour later, Qin Feng spent 100,000 coins to buy a second-level wind beast core.

He found a deserted place and swallowed it quietly.

A familiar and powerful heat flow rose within his body, rapidly strengthening his body.

His physical strength is also increasing rapidly

"Ding! Successfully swallowed the level 2 wind beast core, and the body's wind quality +16%..."

System information is transmitted.

Qin Feng couldn't wait to pull out his attribute panel.

Practitioner: Qin

Feng Wind Realm: Quasi-Elemental Master (100% wind quality)

Talent Skill: God-level Devouring

"The style has finally reached 100%!"

Qin Feng was extremely excited.

The 100% improvement in wind quality means that he has reached the ultimate perfection of physical strength.

This state is also called a quasi-elemental master.

Next, he can break through as long as he condenses the Wind God Seal according to the cultivation method. It's time to reach the one-star Feng Yuan Master.

Condensing the Wind God Seal is a painful process of meditation, and the time it takes is related to the cultivation talent.

Generally speaking, a peerless talent can be successfully condensed within ten days.

A genius-level talent needs three months.

It takes two or three years for excellent talent.

It takes six or seven years for good talent.

It takes about ten years for ordinary talent.

Of course, there are some genius treasures that can shorten the time to condense the divine seal.

Unfortunately, Qin Feng does not have such a treasure.

"In three days, Chu Chu will go on a patrol mission, and it will be too late for me to be promoted to Feng Yuan Master."

Qin Feng felt a little regretful.

If he could be promoted to Feng Yuan Master within three days, he could designate Chu Chu as a powerful citizen and let Chu Chu avoid the crisis.

However, this is unrealistic.

However, he is not as worried as before.

With his current situation With his strength, he should be able to protect Chu Chu. As long as he doesn't encounter monsters, nothing will happen.

Generally speaking, patrol missions are near the city, so you won't encounter any monsters.

"Ding! Congratulations to the host for completing the advanced difficulty task, and will be rewarded with a storage ring (divine grade), a thunder beast core (level 4), and a thunder qualification enhancer (divine grade)!"

The reward is in hand.

Qin Feng looked at the storage ring in his hand with joy. The space inside is very large, enough to fit a building. For storage rings on the market, it would be good if the space can be half the size of a room, and This is completely incomparable

"Ding! I would like to ask the host, do you use the thunder qualification enhancer (magic product)?"

"use!"

"Ding! Qualifications are being strengthened....."

A rush of energy poured into Qin Feng's limbs and bones, quietly transforming his body, and the familiar comfort appeared again.

"Ding! Congratulations to the host, your qualifications have been strengthened successfully!"

A few minutes later, the thunder system talent also reached the peerless level.

Qin Feng was very happy.

He has now figured out that it is not just beast cores and demon cores that he can devour.

He must first have a certain system of talent , can he devour the beast cores and demon cores of that series.

At present, he can only devour the wind and thunder element.

Qin Feng took out the rewarded thunder element beast core and swallowed it directly. A familiar heat flow rose from his body, Extremely comfortable

"Ding! Successfully swallowed the core of a level 4 thunder beast, transforming the physical body into thunder +85%..."

Physical fitness has been comprehensively strengthened again.

Regardless of strength, defense, speed, and nerve reaction speed, they have all been improved by a big level.

"So cool!"

The strength increased greatly again, and Qin Feng felt comfortable.

He pulled out his attribute panel.

Practitioner: Qin

Feng Wind realm: Quasi-elemental master (Wind quality 100%)

Thunder realm: Late stage of strong body (Thunder quality 85 %)

Talent skill: God-level Devouring

"good!"

Qin Feng closed the light screen happily.

A quarter of an hour later, he strolled leisurely to the Municipal Square.

The square was very lively.

The most lively place was the city government's task display.

Many people were holding small notebooks and copying Remember the tasks above.

If you want to make money and get contribution points, the most convenient way is to complete government tasks.

These tasks are open and anyone can participate.

Qin Feng stepped forward curiously and asked casually I took a look.

I saw a task displayed on the top of the light screen.

"The government long-term acquisition of corpses of ferocious beasts: first-level ferocious beasts, 10 points, which can also be exchanged for 100,000 coins"

"Level 2 ferocious beast, 20 points, can also be exchanged for 200,000 coins"

"Level 3 ferocious beast, 50 points, can also be exchanged for 500,000 coins"

"Level 4 ferocious beast, 100 points can also be exchanged for 1 million coins."

After reading this task, Qin Feng smiled.

With his current strength, if he goes out to hunt a few ferocious beasts, he will get a lot of money.

Sure enough, the stronger the strength, the easier it is to make money, and all the glory and wealth can be obtained in the blink of an eye..

However, his wind element has been perfected, and swallowing the wind element beast core has no effect. If he wants to improve his wind element cultivation, he can only swallow the wind element demon core.

Moreover, he has to wait until he condenses the wind god seal.

Of course, the beast The core is useless and can still be sold for money.

Qin Feng continues to look at the second task

"The government long-term acquisition of demon cores: one-star low-grade demon core, 500 points, which can also be exchanged for 5 million coins"

"One-star mid-grade demon core, 1,000 points, can also be exchanged for 10 million coins"

"One-star high-grade demon core, 2,000 points, can also be exchanged for 20 million coins"

"One-star top-quality demon core, 4,000 points, can also be exchanged for 40 million coins"

.....

"So expensive!"

Qin Feng was dumbfounded.

The one-star demon core is obtained from the one-star demon beast.

The strength of the one-star demon beast is equivalent to that of a one-star elemental.

He originally wanted to buy some demon cores to eat, but from this point of view, He couldn't afford it at all.

One-star demon cores are so expensive, let alone two-star ones.

It seems that he will hunt by himself in the future.

Qin Feng didn't want to look anymore and walked directly to the Warrior Building. The

Warrior Building is a leisure place established by the government.

It is mainly used for communication between genetic warriors and physical enhancement masters. It is right next to the city hall.

Many genetic warriors and physical enhancement masters exchange various information there, or find people to form a team to hunt ferocious beasts and monsters.

In addition, the Warrior Building has secret training rooms, training venues, testing venues, and entertainment venues for people to use.

Qin Feng wants to test his combat power index.

For a moment after the bell, Qin Feng arrived at the Warrior Building and came to the door of the testing hall.

Before he entered, he heard bursts of cheers from inside.

Qin Feng was curious and walked in.

He saw a man next to a dynamometer. A middle-aged man was testing his strength.

The electronic display showed a combat power index of 101.

The crowd of onlookers exclaimed.

"OMG! The combat power index is 101, this is too scary!"

"Mr. Chen Yan is really amazing!"

"hehe!! Needless to say? Master Chen Yan is a 100% earthly quasi-elementalist. Level 4 genetic warriors and so on are simply incomparable to him."

Everyone was amazed and looked at the middle-aged man Chen Yan with envy.

At the same level, physical strength masters must be on the front line, because body tempering with elemental power has additional effects.

For example, body tempering with thunder element can enhance combat power.

After tempering the wind element, his body became lighter and more agile.

At this moment, Chen Yan had a faint smile on his face, but there was pride in his eyes.

From the bottom of his heart, he looked down on the genetic warriors around him.

Qin Feng was very surprised when he saw this. Curious about what his combat power index is.

He is a tempered body of two elements, which is a little different from others.

Thinking of this, Qin Feng silently left the group and walked towards a dynamometer in the corner.....
