

# I! GOD LEVEL ELEMENTALIST

## Chapter 7

Qin Feng silently left the group and walked towards a dynamometer in the corner.

At this time, an aunt who was mopping the floor saw Qin Feng.

She looked at Qin Feng with strange eyes for a while, then walked over

"Boy, have you gone to the wrong place? This is the testing hall, a place where genetic warriors and physical strength masters come....."

The aunt's tone was slightly arrogant.

There was also a civilian identification card hanging on her chest, which was particularly conspicuous and unexpected.

To be able to mop the floor here, you must at least be a civilian.

Refugees are not qualified to find such a decent job.

Auntie felt proud when she thought of this.

It turned out that she saw that Qin Feng was dressed very simply and thought he was a refugee who came to visit.

Qin Feng was too lazy to pay attention to the mopping lady and continued to walk forward.

He has seen many aunts who look at people through colored glasses.

Even though I am a member of the lower class, I still want to find a sense of superiority and look down on others.

"Hello! Boy, I've had a hard time mopping. Don't make the floor dirty!"

The aunt was chasing after her.

Wherever Qin Feng went, she followed him and dragged him there.

It seemed that Qin Feng's footprints were dirty.

Not long after, Qin Feng walked to the dynamometer in the corner.

He suddenly He punched out, causing a harsh sonic boom.

Boom~~!

Qin Feng punched the dynamometer with all his strength.

The huge impact sound resounded throughout the testing hall.

The mopping lady was caught off guard and trembled with fright.

All Everyone was startled and looked over in shock.

Ding...ding.....Ding.....

The numbers on the monitor were jumping wildly.

After a moment, a red light came on on the dynamometer, and a harsh explosion sounded.

When the lady mopping the floor looked at the numbers on the monitor, her face instantly turned pale with fright.

"Wow! Outstanding!"

People's exclamations came from the distance

"Go check it out!!"

The people watching over there came over one by one.

Only then did the aunt react and looked at Qin Feng with horror in her eyes.

Oh my god! This is a big shot who surpassed the quasi-elemental master!

She just made a mistake. Got it

"Big..Sir! me....."

The aunt was frightened and wanted to say something flattering.

Qin Feng glanced at her disdainfully and was too lazy to respond.

At this time, Qin Feng saw many people gathered around him and quietly left through the back door on one side.

After a while, people gathered around.

I saw an extremely dazzling number displayed on the dynamometer: 200, and the machine was still ringing.

"Over 200! Tsk tsk!! It's amazing!"

It turns out that this dynamometer is a rudimentary one, and the highest combat power value it can measure is 200.

If it exceeds 200, it will explode and shut down.

"terrible! It is impossible for quasi-elementalists to exceed 200"

"Mr. Chen Yan, who do you think that young man was? Isn't he an elementalist?"

Everyone looked at Chen Yan one by one.

Chen Yan was the strongest and most prestigious among the people.

Chen Yan took a deep breath and said:"As far as Chen knows, even if a quasi-elemental master takes genetic medicine to strengthen his body, he will have the highest combat power. The value can only reach 180 points, definitely not 200 points. Even ferocious beasts that are good at physical combat cannot do it."

"Therefore, the young man just now must be an elemental master."

Speaking of this, Chen Yan showed a look of respect on his face.

As soon as he said this, everyone nodded.

"yes! Only an elemental master can do this."

"Oh my god, there was an elementalist here just now"

"That adult is still very young! Very handsome! What a pity!"

In the crowd, those female genetic warriors with hot figures all showed regret.

Long-term high-intensity training has given these female warriors excellent figures.

And the precarious fighting career has also made them Their characters have become generous and enthusiastic, and they dare to love and hate.

They deeply understand that in troubled times, life is short.

If you are happy in life, you must enjoy it to the fullest, and don't wait for nothing to waste.

In the crowd, the aunt mopping the floor became more and more uneasy.

Heaven. Ah! I just offended an elementalist master!

It's over! It's over! It

's completely over now!

If that master is unhappy, her hard-earned job will be gone soon.

"Aunt Wang, didn't you offend that adult just now?"

Chen Yan asked suddenly. He saw some clues.

"me....."

The aunt who mops the floor is a little at a loss

"Why! It seems you were really offended. Then you can do it on your own. I hope that adult doesn't take this matter to heart, otherwise you will.....Why!!"

Chen Yan sighed and left.

"Aunt Wang, you lack vision!"

The onlookers also shook their heads, some sympathetic, and some gloating. The mopping lady was almost scared to tears.

She kept praying in her heart that Qin Feng must not take her offense to heart.

On the other side , Qin Feng has already left the warrior building.

At this moment, he pulled out his attribute panel, and there were new changes on it.

Practitioner: Qin Feng

Wind realm: Quasi-elementalist (wind quality 100%)

Thunder realm : Late stage of physical strength (85% thunder quality)

Talent skill: God-level Devouring

Combat Power Index: 243 points

"The combat power index is actually 243 points! It seems that multi-series element tempering has additional benefits!"

Qin Feng looked at his data in surprise.

Normally, the combat power index of a quasi-element master of one series is about 100 points.

Calculating from this, the two series should be It is about 200 points, but it is actually exceeded.

This means that 1+1 is not equal to 2 for the two-system quenching body, but 1+1 is greater than 2.

Will the amplitude of the three-system quenching body be greater?

Then has it caught up with the first star? What is the possibility of an elemental master?

The combat power threshold of a one-star elemental master is 500 points, which is more than five times that of a quasi-elemental master.

Therefore, once a quasi-elemental master condenses the elemental divine seal, he can reach the sky in one step.

This is why elemental masters have always been at the top..

The more Qin Feng thought about it, the more he looked forward to it.

He still has an ice element that he has not yet developed.

"Ding! Ordinary training tasks start!"

"The host has upgraded the lightning element to the quasi-elemental master level. An ice qualification enhancer (magic product) can be awarded as a reward"

"Tip: There is no time limit for this task!"

Qin Feng smiled, there is hope that the ice qualification will be unlocked.

"I have three types of talents, while other elemental masters only have one type. I, a fellow practitioner from the third system, will definitely be superior to all the nine-star elemental masters in the future."

Qin Feng's eyes flashed with excitement.

As far as he knows, in this world, every elemental master only has one type of talent.

Because he has a multi-type elemental physique, each type of sensitivity is poor. Only with a single type of physique can it be possible. Let the sensitivity reach 1 or above.

If the sensitivity is lower than 1, there will be no talent.

Thinking of this, Qin Feng felt happy.....
