

I Play Yu-Gi 1011

Chapter 1011: Dark Magic Rising!

A few minutes later, Yuei Vu and Professor Cobra arrived at the college's duel arena, surrounded by crowds of audience.

【Yuei Vu, LP 4000】

【Cobra, LP 4000】

The deck was automatically shuffled. Professor Cobra stood at his position and narrowed his eyes to look at Yuei Vu.

As long as a duelist was a strong person in any circle, there was almost no one who would not want to fight against the king.

The more powerful the duelist was, the more he fantasized about dragging down the tall figure and taking his place on the throne.

Even those who knew that they were hopeless could not give up the opportunity to fight him, even if it was just to verify how far they were from the top of the world.

Professor Cobra was obviously one of the strong ones.

None of the guests from foreign schools who appeared at the beginning of the third year of GX are weak. Although the Cobra Professor only played one game in the entire animation, he at least showed enough suppression in the duel. As a minor BOSS, he was definitely a top-ranked master.

It's just that he came from the army. Although he was very powerful, he didn't often appear on the stage.

Of course, what Yuei Vu cared about was not his strength. This duel was more about finding out the details of this guy.

The entire Different Dimensions arc of the original work began with Professor Cobra. This guy forced the students to wear bracelets that absorb life energy. Through duels, he dedicated the students' life energy to Yubel, who controlled him. After the resurrection, Yubel directly sent the entire duel academy to another dimension, and then there was a series of mishaps.

Logically speaking, Yubel was staying with Judai and not going anywhere. Professor Cobra should be fine, but just in case, Yuei Vu still wanted to confirm it in person.

It's just that he couldn't read minds or control minds. Only through duel could he test out the opponent's strength and find out whether there were any strange things stuffed into his body.

“Then I'll go first, draw!”

Professor Cobra looked at the cards in his hand.

“Activate the Spell Card ‘Pot of Greed’ and draw two cards from the deck.

Then I summon ‘Venom Serpent’ in defense position. ”

A green-skinned two-headed venomous snake came out, its four scarlet eyes staring at Yuei Vu, and its two heads spit out snake messages at the same time.

【Venom Serpent, DEF 800】

“Set three cards, I end my turn.”

“Then it’s my turn, draw!”

Seeing the card in his hand, Yuei Vu raised his eyes slightly and spoke calmly.

“Just in time, I have gained some new powers in the new year, so I’ll try it on you here.”

He waved his hand and snapped a card down.

“Activate the Continuous Spell ‘Dark Magical Circle!’”

The ultra-rare black magic appeared in front of Yuei Vu, emitting a dazzling white light!

“Eh?” Judai who was watching was surprised, “Even I have never seen such a card!”

Professor Cobra was surprised: “This card is...”

“It was once held by the Pharaoh who had returned to the underworld, and it was a slate that recorded top-notch black magic. This summer, the Industrial Illusions just unearthed the original slate, and with the cooperation of the Kaiba Corp, this card was made using top-notch production techniques.”

Yuei Vu explained.

“This is one of the first batch of completed works.”

Many people watching around became excited.

The card used by the legendary Pharaoh?

“It seemed like I saw something extraordinary as soon as I came up!” Jesse Anderson’s eyes lit up. “Coming to the Duel Academy Headquarters is the right decision after all!”

“Really?” Judai next to him also came up with his eyes shining brightly, “Yuei Vu-sensei is super strong! And he always surprises people!”

The two of them had only met for a few minutes, but they looked like they were already brothers.

“When the ‘Dark Magical Circle’ is activated, I can look at the top 3 cards of my Deck,” Yuei Vu took out three cards, “Among them, if there is ‘Dark Magician’ or a Spell/Trap that mentions ‘Dark Magician’, I can reveal it and add it to my hand.

The remaining cards are returned to the top of the deck in any order. ”

Pull out three cards in one breath, Yuei Vu took a look at them and turned one of them over to display.

"I added 'Apprentice Illusion Magician' to my hand." Yuei Vu said, "Then the other two cards returned to the top of the deck.

Then the effect of Apprentice Illusion Magician's effect is activated! Discard a card to Special Summon this card from my hand! "

A small and cute magic circle appeared, and a lively girl flew out of it. She was wearing a purple robe, had silver hair and long legs. She was very similar to the Dark Magician Girl in terms of appearance and breast size, but her skin was darker.

【Apprentice Illusion Magician, ATK 2000】

"So cute!"

Gentlemen don't care about skin color, they are all blinded by love.

"The effect of the Spell Card discarded into the graveyard, 'Card of Compensation', is activated, and two cards are drawn." Yuei Vu said, "Then Apprentice Illusion Magician's effect is activated!

If this card is Normal or Special Summoned: I can add 1 'Dark Magician' from my Deck to my hand."

Professor Cobra frowned slightly: "Dark Magician? Are you going to use the legendary top mage to fight my 'Venom' deck?"

"Equip Spell 'Wonder Wand' is activated! Equip it to 'Apprentice Illusion Magician'. The attack power increases by 500!"

【Apprentice Illusion Magician, ATK 2000→ATK 2500】

"The subsequent effect of 'Wonder Wand'! I send 'Apprentice Illusion Magician' and 'Wonder Wand' itself to the graveyard, and draw two cards!"

Yuei Vu waved his hand, and another card appeared in front of him.

"Activate the Ritual Spell 'Chaos Form'!"

"ah!?"

Many people were surprised.

Especially Manjoume: "Isn't that my teacher's card?"

The teacher he was talking about was, of course, Kaiba.

So far, only Kaiba Seto has used the Ritual Spell called "Chaos Form". The ritual monsters summoned by it, whether it was "Blue-Eyes Chaos Dragon" or "Blue-Eyes Chaos MAX Dragon", all had the ability to instantly defeat the enemy.

And now Duel King Yuei Vu actually has this card?

"I Tribute the Level 7 'Dark Magician' in my hand! Ritual Summon!

The power of chaos that opened up the world and the secret of black magic are combined here...

...Magician of Chaos!!! "

The magic circle rotated, and every line that made up the complicated pattern was burning fiercely wrapped in black flames. The Dark Magician turned into a torrent of magic and merged into it, the chaotic magic burst out, and the dark and noble mage rushed out on the storm of magic!

【Magician of Chaos, ATK 2500】

“The ‘Magician of Chaos’ can be used as a ‘Dark Magician’ as long as it exists on the field or in the graveyard.” Yuei Vu said, “So at this moment, the effect of the Continuous Spell ‘Dark Magical Circle’ is activated!

Once per turn, if ‘Dark Magician’ is Normal or Special Summoned to my field: I can target 1 card the opponent controls; banish it! "

“Directly remove a card from the game?” Cobra seemed to feel a bit troubled.

“It’s not over yet,” Yuei Vu said, “And the moment this effect is triggered, the effect of ‘Magician of Chaos’ will also be triggered. Once per turn, when a Spell/Trap Card or effect is activated: I can target 1 card on the field; and destroy it!

Therefore, I can choose two cards on your field, one to banish and one to destroy! "

Cobra: "!"

Chapter 1012: Magician of Chaos

"Banish one plus destroy one right from the start?"

"So strong! Is this the real power of the ‘Dark Magician’?"

"As expected of the legendary magician who accompanied Mr. Muto Yugi to conquer the world!"

While the crowd was talking, the pressure was also placed on Professor Cobra.

"The Dark Magician does have surprising offensive abilities." Professor Cobra's eyes turned cold, "But don't underestimate me, Principal Yuei Vu.

I activate this set card targeted by your ‘Magician of Chaos’! Trap Card ‘Offering to the Snake Deity’!

Target 1 face-up Reptile monster I control and 2 cards the opponent controls; destroy all three targets! "

Professor Cobra pointed directly at the monster in front of him.

"I will destroy the ‘Venom Serpent’, and then I will destroy ‘Dark Magical Circle’ and ‘Magician of Chaos’ on your field!"

The poisonous two-headed snake screamed sharply and was exploded first, followed by two beams of poisonous arrows, one on the left and one on the right, hitting the magic circle and the black-robed mage respectively, both of which turned into golden light points and dissipated.

"‘Dark Magical Circle’ is a Continuous Spell. If it leave the field when the effect is resolved, it cannot continue to be resolved." Professor Cobra smiled, "So its banishing effect is invalidated."

"A beautiful response!" Misawa commented, "The magic circle's banishing ability and the chaos magician's ability to explode cards, the duel king unleashed two consecutive attacks in one breath. But he blocked it. At the same time, he counterattacked on this basis and destroyed Mr. Yuei Vu's powerful attack formation instantly."

But Cobra's operation was not over yet: "Open the set card: Trap Card – Snake Whistle! This card can be activated only when a Reptile-Type monster I control is destroyed!"

Special Summon 1 Level 4 or lower Reptile-Type monster from my Deck.

Bring it on! Venom Cobra! "

The Venom monster with the same name as the professor had its white body entrenched on the field in front of him, its dangerous gaze sweeping across the formation on the opposite side.

[Venom Cobra, DEF 2000]

"On the basis of counterattack, did he also cleverly use his own trap cost to call new monsters from the deck?" Asuka also said in surprise, "This professor is very strong!"

"It's indeed very strong." Judai nodded, but then smiled, "But he is unlucky, the one stands opposite of him is Yuei Vu-sensei!"

"Not a bad counterattack." Yuei Vu nodded and said, "But, the 'Magician of Chaos' has subsequent effects!

If this Ritual Summoned card is destroyed by battle or card effect: I can Special Summon 1 'Chaos' or 'Black Luster Soldier' Ritual Monster from my hand, except 'Magician of Chaos', ignoring its Summoning conditions! "

He held up a card in his hand.

"The roaring cyclone swept through the chaotic field, and the strongest warrior who opened up the world descended in the form of a legend..."

Black Luster Soldier – Super Soldier! "

The chaotic cyclone was like a waterfall. A warrior covered with gorgeous red and silver lines, holding a sharp sword and a strong shield landed, and the red tassels on his helmet dissipate and fly.

[Black Luster Soldier – Super Soldier, ATK 3000]

Cobra said: "After such a formation is disintegrated, such a powerful warrior can be summoned to counterattack immediately. Is this the duel of the duel king?"

And Yuei Vu has no intention of stopping there.

"Activate the Spell Card 'Preparation of Rites' from my hand!" Yuei Vu said, "Add 1 Level 7 or lower Ritual Monster from my Deck to my hand, then I can add 1 Ritual Spell from my GY to my hand!"

One card each popped up from the deck and the graveyard, and he drew it into his hand.

"I added the Ritual Monster 'Magician of Chaos' in the deck and the Ritual Spell 'Chaos Form' in the graveyard to my hand!"

Seeing this, many people held their breath.

"Hey, hey, does the Duel King still want to...?"

Without thinking, Yuei Vu showed the card returned to his hand again: "The Ritual Spell 'Chaos Form' is activated! Ritual Summon any 'Chaos' or 'Black Luster Soldier' Ritual Monster by Tributing monsters from my hand or field and/or banish 'Blue-Eyes White Dragon' or 'Dark Magician' from my GY, whose total Levels exactly equal the Level of that monster!"

Another card popped up in the graveyard, it was the "Dark Magician" that was sent to the graveyard as a ritual sacrifice.

"I banished the Level 7 'Dark Magician' in the graveyard! Ritual Summon!"

The power of chaos that opened up the world and the secret of black magic are combined here...

Magician of Chaos, summon again! "

The torrent of black magic surged, the Dark Magician spun his body, and the staff in his hand swept away ink-black lines everywhere!

[Magician of Chaos, ATK 2500]

"Is this a lie? Summoned again!?" a student said.

Some freshmen who just entered the school said: "Principal Yuei Vu's duel is really just like the rumors say, it's like magic!"

"Even if he was interfered with so powerfully, he could still immediately carry out such a level of counterattack," Professor Cobra also said, "Duel King Yuei Vu is really a terrifying man."

"Battle phase." Yuei Vu said, "First, I use the 'Magician of Chaos' to attack the 'Venom Cobra!'"

Of course, a mere cobra was no match for such a high-level mage. A single Chaos Magical Wave blasted it into pieces on the spot.

Yuei Vu refused to give up: "Black Luster Soldier – Super Soldier, attack directly!"

The super warrior jumped up, and the sword light left a silvery white line, going straight to Professor Cobra's head!

"Open the set card!" Professor Cobra flipped his last set card, "Trap Card 'Power Wall'!"

During damage calculation, when I would take battle damage from an opponent's attacking monster: Send 1 card from the top of my Deck to the GY for every 500 damage (round up) I would take, instead! "

He showed six cards in one go.

"I sent six cards to the graveyard to offset the battle damage of 'Black Luster Soldier – Super Soldier!'"

The flying cards formed a golden shield, which firmly withstood the incomparable slashes from the Chaos Warrior!

"He can even defend against this move!" Marufuji Sho said.

Jesse Anderson said: "Professor Cobra, I have heard of him even in the Northern Branch. Some people say that he may be the strongest among all the faculty members of the Duel Academy branches combined."

Speaking of this, he thought of something and looked at Judai with a smile: "Ah, by the way, of course, this does not include Principal Yuei Vu."

"Really beautiful defense." Yuei Vu nodded, "Set two cards, I end my turn."

"Then it's my turn, draw!"

After finally withstanding Yuei Vu's attack, he would seize the hard-won counterattack opportunity.

"Spell Card 'Spell Books from the Pot', both players draw three cards from the deck."

"Spell Card 'Spider Web'! Select 1 card in the opponent's Graveyard that was sent there the previous turn, and add it to my hand. The card I want to obtain is the Spell Card 'Card of Compensation'!"
(Animation card)

"Then activate the Spell Card 'Snake Rain' from my hand! Discard 1 card; send 4 Reptile monsters from my Deck to the GY!" Professor Cobra sent four cards to the grave in one breath and followed, "Then... The effect of the discarded 'Card of Compensation' is activated! I draw two more cards!"

After checking a large number of cards in one breath, Professor Cobra's eyes moved slightly when he saw a newly drawn card and a venomous smile appeared at the corner of his mouth.

It finally came!

Chapter 1013: King of Poisonous Snakes

"Activate the Spell Card 'Monster Reborn'!" Professor Cobra said, "I resurrect the 'Double Coston' in my GY!"

[Double Coston, ATK 1700]

"When Double Coston is used for the Tribute Summon of a DARK monster, it can be treated as 2 Tributes."

Yuei Vu's thoughts moved slightly.

Reptile, DARK monster, must be Tribute Summoned by two sacrifices... Is that card coming?

"I used Double Coston as two sacrifices! Tribute Summon!"

Show up, Level 8...

Vennominon the King of Poisonous Snakes!!!

The monster on the field was split in two from the middle, resulting in the two sacrifices which turned into particles of light and dissipated. A pillar of chaos erupted from the center of the duel arena, and a venomous snake hidden in a wide robe, standing like a human, appeared in the field.

It had the face of a snake, and there were countless ferocious and twisted snake heads protruding from the sleeves of the robe. The lower body exposed under the robe was also a huge snake body, its eyes were scarlet, and its mouth spat out a snake tongue.

If you encountered this kind of monster in a dark place at night, you would probably pee on the spot.

[Vennominon the King of Poisonous Snakes, ATK 0]

Sure enough, the Venom Snake King showed up.

Professor Cobra only had a short scene in the whole story and only one card game. The reason why he was remembered by the audience was not only because of his characteristics but also because of the ace monster in his deck.

Vennominaga the Deity of Poisonous Snakes, the evolved form of the "Vennominon the King of Poisonous Snakes" that appeared now.

The reason why it was impressive was that Vennominaga had the "absolute resistance", which was unique in the GX era, and even extremely rare in the entire Yu-Gi-Oh card pool.

It was not affected by any card effects and could be continuously resurrected even if it was defeated in battle.

What's more distinctive was that it had a Duel Winner effect similar to the "Exodia".

A monster with absolute resistance and Duel Winner effects like this would be a super BOSS not only in the GX era but in the Yu-Gi-Oh history. Naturally, they could not be ignored by players.

That was to say, the conditions for the appearance of this thing were too complicated, otherwise it would still be quite terrible in terms of its performance strength.

"Interesting." Yuei Vu smiled.

He really wanted to see this kind of super-BOSS monster. If Professor Cobra couldn't summon this thing, Yuei Vu would feel it was a pity.

There were many monsters in animation who liked to put the title of "God", "Divine", "Deity", etc.. on their heads, but most of them were small fish and shrimps and were not worthy of this title.

But the Venom Snake God was different. This thing was one of the few monsters that truly deserved the word "Deity" in its name.

Of course, what the professor has summoned was not the great snake god yet, but still just the "Vennominon the King of Poisonous Snakes".

"The attack power of Vennominon the King of Poisonous Snakes increased by 500 points for each Reptile monster in my graveyard." Professor Cobra said, "Now, there are a total of eleven Reptile monsters in my graveyard, so it gains 5500 ATK! "

[Vennominon the King of Poisonous Snakes, ATK 0 → ATK 5500]

The surrounding audience was all shocked.

"Suddenly appeared a monster with an attack power of 5,500!?"

"Oh my God, is this foreign school professor too powerful?"

"Battle!" Professor Cobra waved his hand, "Use 'Vennominon the King of Poisonous Snakes' to attack the 'Magician of Chaos!'"

The Venom Snake King let out a cold and sharp laugh, shook his sleeves, and a dangerous red light flashed in his eyes!

"Open the set card!" Yuei Vu snapped his fingers, "Trap Card 'Magician Navigation'! Special Summon 1 'Dark Magician' from my hand, then Special Summon 1 Level 7 or lower DARK Spellcaster monster from my Deck!"

A card popped out from the deck and was taken out by Yuei Vu along with another card in his hand.

"'Dark Magician' and 'Magician of Dark Illusion' are summoned at the same time!"

The two black magic arrays were rotated separately, and the black-robed mages flew out, one on the left and the other on the right squatting down in front of Yuei Vu.

[Dark Magician, DEF 2100]

[Magician of Dark Illusion, DEF 2500]

"It's useless." Professor Cobra said coldly, "It's just two more walls. It's nothing more than delay."

"That's not necessarily true." Yuei Vu smiled, "You haven't forgotten the effect of the 'Magician of Chaos', have you?"

Professor Cobra: "!"

By the way, the effect of this guy is...

"Once per turn, when a Spell/Trap Card or effect is activated, a card on the field is destroyed." Yuei Vu said, "Because the 'Magician Navigation' is activated, the 'Venominon the King of Poisonous Snakes' is destroyed!"

Professor Cobra's expression suddenly darkened.

Not only Venominon had an attack power of up to 5500, but also had the effect of infinitely resurrecting when it was destroyed by battle by banishing a Reptile monster from the graveyard.

There were eleven Reptile monsters sleeping in his graveyard. In other words, Venominon had eleven lives.

Of course, you could also blow up Venominon directly through card effects, but this would play into Professor Cobra's hands.

When "Venominon the King of Poisonous Snakes" was destroyed by means other than battle, through the effect of the trap card "Rise of the Snake Deity", he could Special Summon the invincible "Venominaga the Deity of Poisonous Snakes" from his hand or deck!

The Snake God was an invincible monster. As long as it was successfully summoned, any enemy, even the Duel King, would be swept away!

But now the problem was...

The trap card "Rise of the Snake Deity" he used to summon the Snake God still hasn't been Set yet!

Yuei Vu aimed at this gap.

The summoning of the Venominaga the Deity of Poisonous Snakes must be through the effect of that trap.

But Cobra's backfield was empty right now. If the Snake King was blown up now, Professor Cobra would obviously have no chance to complete the summoning of Vennominaga.

However, Professor Cobra seemed to be prepared for this. Seeing that the impact of chaos magic was approaching his ace monster, he drew a card from his hand without thinking.

"Quick-Play Spell 'Forbidden Dress'! Target 1 face-up monster on the field; until the end of this turn, that target loses 600 ATK, but cannot be targeted or destroyed by other card effects!"

At this time, the Snake King has been selected as the target of the Magician of Chaos' effect, thus the targeting resistance already became meaningless, but the destruction resistance was still effective.

[Vennominon the King of Poisonous Snakes, ATK 5500 → ATK 4900]

The temporary drop in attack power was replaced by strong damage resistance, and the impact of the chaos magic was immediately deflected by the energy barrier.

Magician of Chaos was not so lucky here. The attack failed, so the Snake King's counterattack came immediately. The viper's fangs bit his arm and thigh without any explanation. The magician groaned and his body exploded into golden powder.

[Yuei Vu, LP 4000 → LP 1600]

Professor Cobra then waved his hand.

"Set three cards, I end my turn."

Chapter 1014: Rise of the Snake Deity!

As Professor Cobra announced the end of the turn, everyone couldn't help but start talking.

"This Professor Cobra is really strong. He can actually fight to this point against the Duel King..."

"If it were me, it should be over within three turns, right?"

"Be more confident. You won't survive a single turn."

"..."

Yuei Vu didn't feel too surprised.

No matter how you saw it, the opponent was a BOSS, and it was also a BOSS with a high-level monster like the Venom Snake God. It was foreseeable that he was strong.

But more than his dueling prowess, Yuei Vu was more concerned about whether the professor contained any unknown power or was possessed by someone with evil intentions.

But so far, although the opponent used a very gloomy deck and had the face of a villain, Yuei Vu didn't feel anything unusual throughout the duel.

This professor's duel was upright and without any cover-up. He seemed to be an upright duelist with no trace of anything fishy.

If this was the case, it would be best, but Yuei Vu had not relaxed his vigilance and needed further observation.

"My turn, draw."

At this time, the effect of "Forbidden Dress" has passed, and the Snake King's attack power has returned to 5500.

If you relied purely on stacking attack power, it's not too difficult to reach a higher value. But if destroyed through battle, the Viper King has eleven lives. Even if he was defeated, he would be resurrected.

And Yuei Vu had no doubt that at this time, among the three cards in the opponent's back row, there was already a "Rise of the Snake Deity". Using card effects to destroy the Snake King played into Professor Cobra's plan – that way he could summon his real ace "Venominaga the Deity of Poisonous Snakes".

It's a little bit tricky indeed.

"Activate the Spell Card 'Advance Draw'." Yuei Vu said, "Tribute 1 face-up Level 8 or higher monster I control; draw 2 cards.

I Tribute the 'Black Luster Soldier – Super Soldier' on the field and draw cards from the deck!"

The Super Soldier turned into golden powder and dissipated. Two balls of golden light sank into Yuei Vu's deck, and he drew two cards from it.

Seeing the newly acquired cards, Yuei Vu's eyes moved slightly, and a feasible combination quickly emerged in his mind.

This is Yu-Gi-Oh after all.

Besides battle destruction and effect destruction, there are still other ways to clear the field.

"Activate the Continuous Spell 'Dark Magical Circle!'"

The Continuous Spell card emerged, releasing a dazzling white light on the field!

Professor Cobra's pupils shrank.

The second Dark Magical Circle!?

Is the relationship between Industrial Illusions and Duel King so close? They actually gave him two rare cards like this in one go?!

"When the 'Dark Magical Circle' is activated, I can look at the top 3 cards of my Deck. Among them, if there is a 'Dark Magician' or a Spell/Trap that mentions 'Dark Magician', I can reveal it and add it to my hand.

The remaining cards are returned to the top of the deck in any order."

Yuei Vu confirmed the top three cards, but this time there seemed to be no Dark Magician-related cards among them, so he adjusted the order and returned them to the deck.

"Then comes the Spell Card 'Arms Regeneration!'" Yuei Vu continued, "Target 1 Equip Spell in either GY; Set it to my field, or equip it to 1 appropriate monster I control."

A card popped up in Yuei Vu's graveyard.

"I take the Equip Spell 'Wonder Wand' in my GY and equip it to the 'Dark Magician' on my field!"

The golden wand used by mages appeared in the hands of the Dark Magician.

"The equipped monster's attack power increases by 500."

[Dark Magician, ATK 2500 → ATK 3000]

"But this attack power is still far inferior to 'Venominon the King of Poisonous Snakes'." Professor Cobra said.

"Then the second effect of 'Wonder Wand' is activated." Yuei Vu said, "Send 'Dark Magician' equipped with 'Wonder Wand' to the graveyard, and draw two cards."

The golden light of the wand flashed, and the Dark Magician's body turned into golden light points and dissipated, shooting into Yuei Vu's deck.

"At this moment!" Yuei Vu waved his hand, "The effect of 'Magician of Dark Illusion' is activated! This effect can only be used once while this card is face-up on the field.

If I activate a Spell/Trap Card or effect while this card is face-up on my field: I can target 1 'Dark Magician' in my GY; Special Summon it! "

The "Dark Magician" that had just entered the graveyard half a second ago immediately popped up from the graveyard.

"I revived the 'Dark Magician' in my graveyard!"

The magic circle opened, and the black-robed mage rushed out in a whirlwind of magic, his wand drawing dark lines in the air!

[Dark Magician, ATK 2500]

"The moment the 'Dark Magician' was summoned, the effect of the 'Dark Magical Circle' was also activated!" Yuei Vu pointed at the dark green magic sheet in front of him, "Once per turn, if 'Dark Magician' is Normal or Special Summoned to my field: I can target 1 card the opponent controls; banish it!"

The Dark Magician's staff swung down, as if a general commanding thousands of troops waved his command sword, pointing directly at the snake-shaped monster with claws and fangs on Professor Cobra's field.

"Banish 'Venominon the King of Poisonous Snakes' from the game!"

The magic circle was running at full speed, the ring engraved with complicated words is spinning at high speed, and the magic power was concentrated at a high concentration. It was the top black magic that could obliterate everything!

"I see, was this the goal from the beginning?" Professor Cobra was surprised.

Asuka couldn't help but say: "Through the activation conditions of 'Wonder Wand', the 'Dark Magician' on the field is sent to the graveyard, and at the same time, the effect of 'Magician of Dark Illusion' is cleverly linked to pull the same 'Dark Magician' back onto the field.

In this way, not only the effect of the 'Dark Magical Circle' was triggered to eliminate the opponent's monsters, but two more cards were drawn to replenish resources..."

"So strong, so strong!" Sho Marufuji seemed unable to find more words to describe his mood at this time from his meager vocabulary.

Just one sentence——

——Fuck, that's awesome!

But Professor Cobra didn't sit still and wait for death.

"Then open the set card: Quick-Play Spell – Mystical Space Typhoon!"

A dark whirlwind rolled up from the Spell Card, carrying a bolt of lightning, and rushed towards Yuei Vu's back row.

"That's right!" Many people were immediately shocked. "The 'Dark Magical Circle' is a Continuous Spell. As long as the magic circle is blown away here, this chain will not be established..."

But Yuei Vu immediately waved his hand: "Nope!"

The Dark Magician pointed his staff, and a dark and illusory magic circle emerged, tightly binding the whirlwind like a shackle!

A trap flew out from the black vortex and hung stubbornly in the middle of the whirlwind.

"Activate the trap card 'Magician Navigation' from the graveyard!" Yuei Vu said, "When there is a 'Dark Magician' on my field, banish this card from my GY, then target 1 face-up Spell/Trap the opponent controls; negate its effects until the end of this turn!"

I negated your 'Mystical Space Typhoon'! "

The situation is reversed again!

"Awesome... so amazing." Rei Saotome, the new girl sitting next to Judai, had eyes shining, "Even the countermeasures for this step are prepared... It is a duel that is simply unimaginable. "

"A duel... can still be like this?" Professor Cobra couldn't help but murmur, "Principal Yuei Vu really taught me a lesson."

He closed his eyes lightly and paused briefly,

"But!"

His eyes opened again, and Professor Cobra seemed to have an invisible aura erupting from his body. His opened eyes were as sharp as poisonous snakes, making people afraid to look directly.

"Open the set card: Trap Card – Destruct Potion!" Professor Cobra raised his voice, "Select 1 monster I control, destroy it, and I gain Life Points equal to its ATK!"

Yuei Vu raised his eyes slightly.

This guy...actually prepared a method of self-destruction from the beginning?

"I destroyed 'Venominon the King of Poisonous Snakes'!"

Just before being hit by the light stream of the magic array, the Venom King exploded on the spot, his loose robes were torn apart in the flames, and the broken remains of countless small snakes flew everywhere.

"Then I will restore LP equal to the attack power of Venominon, which is 5500 points!"

[Professor Cobra, LP 4000 → LP 9500]

"The monster will be destroyed anyway, why not destroy it with your own hands and restore your LP?" Misawa nodded, "It is indeed a good idea. If you have 9500 LP, you won't be killed so easily..."

This was what most students were thinking at this moment.

But Yuei Vu knew clearly that things were not that simple.

Sure enough, Professor Cobra's eyes flashed immediately, and the corners of his mouth turned upward, revealing a winner-like smile.

"This is the end!" Professor Cobra shouted, "Open the set card: Trap Card – Rise of the Snake Deity! This card can only be activated when a 'Venominon the King of Poisonous Snakes' on my side of the field is destroyed, except by battle.

From my hand or deck, summon the Lord of Venom Snake, the God of Doom that annihilates all things——

——Venminaga the Deity of Poisonous Snakes!!!"

Chapter 1015: Venminaga the Deity of Poisonous Snakes

The atmosphere in the duel arena changed from time to time, and the temperature seemed to drop several degrees in a row. The surroundings of the arena became gloomy under the stereoscopic projection environment, and black mist quietly floated out from nowhere, lingering over the arena.

Almost everyone present smelled an ominous atmosphere.

Looking at the increasingly dense black fog was like staring into the abyss. A monster beyond human imagination was hiding in the deepest part of the abyss, looking at all creatures with chilling and cold eyes.

Then the fog was instantly washed away, and a sharp and shrill roar came from it!

A monster rushed out and rose high into the air. Its lower body was a long and winding snake body. She had a female face, and her long hair was made up of countless twisted snakes, just like the Gorgon Medusa in mythology and legend.

She had a voluptuous and plump figure, but her shape made it difficult for any gentleman in his right mind to get excited about her. Her arms were also two giant pythons, and the corner of her mouth that was spitting out letters seemed to be still grinning.

What a terrifying momentum that was! The body was clearly not huge, and the image was only a three-dimensional image, but the moment she appeared, she seemed to dominate everything!

Perhaps that was what people call "unspeakable fear". Just looking directly at her could unearth the deepest tremor buried in the heart of a person!

[Venminaga the Deity of Poisonous Snakes, ATK 0]

Many people were stunned. When they saw the enchanting and terrifying, plump but frightening monster, a chill seemed to penetrate their bones.

"What is that thing?" Sho whispered.

"I can't believe this professor actually has such a powerful monster!"

In the world of Yu-Gi-Oh!, the more powerful gods and demons were, the more difficult they were to summon, but they often had a mighty power that could immediately influence the situation of the battle once they appeared.

The most extreme representative was "Holactie the Creator God of Light". As a duel spirit, she was also a creator god, the ultimate strong being who could directly win the victory from the rules level.

Although the poisonous snake god in front of them certainly could not be compared with that level of creation god, she was also a super strong being with the same nature.

"I see, have you prepared a card that can make the monster self-destruct from the beginning?" Yuei Vu understood, "Indeed, in this case, it will be difficult to prevent the appearance of the poisonous snake god."

"Principal Yuei Vu, this is my strongest monster, the God of Venom monsters!" Professor Cobra shouted, "'Vennominaga the Deity of Poisonous Snakes' has inherited the effect of the 'Vennominon the King of Poisonous Snakes'!

Her attack power will also increase by 500 points for each Reptile monster in my graveyard!

Because 'Vennominon the King of Poisonous Snakes' is sent to the graveyard, the number of Reptiles in my graveyard has reached twelve, and the attack power has increased by 6000! "

[Vennominaga the Deity of Poisonous Snakes, ATK 0 → ATK 6000]

"Attack power six thousand!?" Someone exclaimed at that time.

But someone soon said: "But it's not a big deal if the attack power is high. As long as Principal Yuei Vu uses the effect of the 'Dark Magical Circle' in the next turn..."

Then Professor Cobra laughed and said, "You must be thinking now that as long as you use the effect of the 'Dark Magical Circle', no matter how high the attack power is, it will be useless, right?"

Yuei Vu: "..."

Don't talk nonsense, I never thought that even for a second.

"But it's useless!" Professor Cobra was very excited. "As long as 'Vennominaga the Deity of Poisonous Snakes' exists on the field, she is unaffected by any card effects, nor can she be the target of these effects!

Furthermore, when this card is destroyed by battle and sent to the graveyard, by banishing a Reptile monster in the graveyard, she can be resurrected no matter how many times it is!"

"Eh!?"

As soon as these words came out, the whole audience was shocked.

"Huh? Isn't this invincible?"

"Is there such a monster?"

"Even Egyptian Gods and Sacred Beasts don't have this kind of power, right?"

"..."

Professor Cobra was very satisfied with everyone's reaction and couldn't help but sneer at the corner of his mouth.

Oh, the power of Vennominaga is much more than that, and you will see this with your own eyes soon!

The goddess of poisonous snakes actually came at this moment, which really disrupted Yuei Vu's plan. But in any case, the remaining two magicians on the field were obviously no match for her.

"Set a card, I end my turn." Yuei Vu said.

"Then it's my turn again, draw!" Professor Cobra said, "Activate the Spell Card 'Monster Recovery'! Return all monsters on my side of the field and cards in my hand to my Deck. Shuffle the Deck, then draw 5 cards!"

"Ah!?" Sho was still a little dazed, "Does he want to give up such a powerful monster on his own?"

"No." Misawa said in a deep voice, "'Vennominaga the Deity of Poisonous Snakes' is not affected by the effects of any cards, including his own Spell Cards."

"Ah! Doesn't that mean..."

Professor Cobra smiled: "Of course, 'Vennominaga the Deity of Poisonous Snakes' will not be affected by the effect of 'Monster Recovery', so there is no need to return it to the deck.

Then I draw five cards! "

After looking at the cards in his hand, he quickly showed a card in his hand: "Activate the Spell Card 'Card Destruction'! Both players discard as many cards as possible from their hands, then each player draws the same number of cards they discarded!"

After a pause, he smiled and said: "Because I discarded two more Reptile monsters, the attack power of 'Vennominaga the Deity of Poisonous Snakes' has increased by another 1,000!"

[Vennominaga the Deity of Poisonous Snakes, ATK 6000 → ATK 7000]

"The attack power is seven thousand, and it is unaffected by any effects!" Someone suddenly exclaimed.

"What if the 'Dark Magician' was attacked here?"

"Battle!" Cobra shouted, "'Vennominaga the Deity of Poisonous Snakes', attack the 'Dark Magician'!!!"

The poisonous snake god waved his arms, and the two giant pythons opened their bloody mouths! The mist condensed into a dark vortex and locked onto the Dark Magician with an indomitable momentum!

"Open the set card: Trap Card – Magicians' Defense!" Yuei Vu said, "While I control a Spellcaster-Type monster, any damage I take is halved!"

"The last struggle? It's useless!" Professor Cobra raised his voice.

Indeed, the snake god's attack power was a full 7000, while the Dark Magician's attack power was a pitiful 2500. If the attack passed, Yuei Vu, who had only 1600 LP left, would certainly not be able to resist it.

"Open the set card: Trap Card – Covering Fire!" Yuei Vu said, "When a monster on my field is attacked, its attack power increases by the attack power of another monster on my field!

I added the attack power of the 'Magician of Dark Illusion' to the Dark Magician! "

[Dark Magician, ATK 2500 → ATK 4600]

With the help of his companion's magic power, Dark Magician's attack power briefly soared to an ultra-high level even higher than the Blue-Eyes Ultimate Dragon. Normally, it could be said to be the pinnacle of his life, but at this time, it was still not enough in front of the powerful snake god.

The black magic barrier only resisted for a short moment, then Dark Magician was immediately torn into pieces! A torrent came towards him, and after being buffered and offset by the magic barrier, it swept past Yuei Vu.

【Yuei Vu, LP 1600 → LP 400】

"You can still survive?" Professor Cobra said, "But it doesn't matter. At this moment, the final effect of the 'Venominaga the Deity of Poisonous Snakes' was also activated!"

"What?" Some students were surprised, "Such a powerful monster actually has the final effect?"

"If the opponent takes Battle Damage from a battle involving this card, they lose the Duel during the Standby Phase of their 3rd turn after taking the damage!" (Animation effect)

Chapter 1016: Super Magical Slash!

The whole audience was shocked when they heard the final effect of the Venom God.

What? Declare the victory of the game directly!?

Isn't that the ability of the legendary "Exodia"?

This ability was obviously beyond the scope of ordinary duel monsters. In the spirit world, it also belonged to great gods who had touched the fundamental laws of the world.

Is this Venom God so strong!?

"Set two cards, I end my turn." Professor Cobra waved his hand.

Yuei Vu looked at his back row and narrowed his eyes slightly.

Two more face cards...

"Venominaga the Deity of Poisonous Snakes" basically retained most of its effects when it was made into a real card, which was not much different from the anime effect. The only difference may be in this "Duel Winner" effect.

In the original animation, as long as the Venominaga caused battle damage, no matter what happened, the controller would be directly declared the winner three turns later. Even if Venominaga was removed in the future and no longer on the field after three turns, it would not help.

When the battle damage occurred, it was equivalent to the snake venom being injected into the opponent's body. That was the curse of the God of Poisonous Snakes, and there was absolutely no cure.

The only way to prevent this effect from taking effect is to defeat the opponent within these three turns.

Judging from the current situation, it meant that Yuei Vu not only had to try to remove the Venom God who had invincible resistance and could be resurrected infinitely, but also had to demolish the two black pits in the opponent's back row, and finally must deplete Professor Cobra's 9500 L.P.

That is almost impossible.

At least that's what everyone else thought at this time.

Even if the Venom God with an attack power of 7000 was really knocked down, Professor Cobra could revive her immediately – even switch to Defense Position.

In this way, Yuei Vu couldn't even deal battle damage before completely depleting her twelve lives.

No matter how strong the Duel King is, there must be a limit, right?

This situation... can it really be broken through?

"Hahaha! That's right, the Venom God is invincible!" Professor Cobra laughed, "Maybe you underestimated the enemy, Principal Yuei Vu, maybe if you had used all your strength from the beginning, the result would be different.

But it's too late now! The power of the Venom God has been activated, and no one can solve this situation!

This duel... I won!"

Many students were in an uproar.

"No way? Will the principal really lose?"

"In this situation... there should be no way, right?"

The morale of the students was a little low.

After all, Yuei Vu had many fans in the academy, and many people regarded him as a god-like existence among duelists. It was natural that they would feel hit when the person they admire and the representative figure of their academy lost here.

However...

"It's really amazing." Yuei Vu said, "It seems that I should be a little more serious."

"Huh?" Professor Cobra raised his eyebrows.

In this situation, do you really think you can turn it around?

He glanced at the two set cards in his backcourt and couldn't help laughing.

Principal Yuei Vu, you don't think my cards are just for show, do you?

"My turn, draw." Yuei Vu said, "Activate the Spell Card 'Terraforming', add 1 Field Spell Card from the deck to my hand.

The card I want to add to my hand is... the Field Spell 'Temple of the Kings'.

Then activate the Field Spell 'Temple of the Kings'!"

The earth roared, and the royal palace slowly rose, occupying the entire duel field.

"A place where traps can be activated immediately." Professor Cobra shook his head, "It's useless. Traps are ineffective against 'Vennominaga the Deity of Poisonous Snakes'."

"I set a card onto the field." Yuei Vu ignored it, "Then I Normal Summon 'Buster Whelp of the Destruction Swordsman'."

[Buster Whelp of the Destruction Swordsman, ATK 400]

"Buster Whelp of the Destruction Swordsman's effect activated. When this card is Normal Summoned, add 1 'Destruction Sword' card from the deck to my hand.

I add 'Destruction Sword Memories' to my hand."

Professor Cobra frowned slightly.

Destruction Sword?

But the Destruction Sword is a legendary swordsman who kills dragons. It only has special attacks against Dragon monsters. It should not be useful here.

"I set 'Destruction Sword Memories' onto the field, then activate it immediately due to the effect of 'Temple of the Kings!' Discard 1 'Destruction Sword' card; Special Summon 1 'Buster Blader' monster from the Deck!

I discard 'Buster Blader, the Destruction Swordmaster' to Special Summon 'Buster Blader!'"

Yuei Vu pulled out the card that popped out of the deck, and then showed it together with another card in his hand: "Activate Spell Card – Polymerization! Fuse the 'Buster Blader' and 'Buster Whelp of the Destruction Swordsman' on the field!

The sword of destruction and the dragon totem merge, and the ultimate dragon slayer is born –
—— Buster Blader, the Dragon Destroyer Swordsman!"

Sword energy was everywhere, white light burst out from the fusion vortex, the heavily armored warrior fell to the ground, and the heavy sword dug into the ground!

[Buster Blader, the Dragon Destroyer Swordsman, ATK 2800]

"Dragon Destroyer Swordsman, a top swordsman with absolute suppression ability against dragons, is indeed a rare trump card." Professor Cobra thought for a while, "Although I don't know what you want to do, for the sake of safety..."

..... Open the set card: Trap Card – Floodgate Trap Hole! When the opponent Summons a monster: Change that monster to face-down Defense Position!"

Poor Dragon Destroyer Swordsman had just appeared on the field, yet he was covered into a face-down state before he could even stand firmly.

"A monster changed to face-down Defense Position by this effect cannot change their battle positions." Professor Cobra said, "This way, he is no longer a threat."

".....Then I banish the trap card 'Destruction Sword Memories' in the graveyard to activate its effect." Yuei Vu said, "Banish 'Buster Blader, the Destruction Swordmaster' and 'Buster Whelp of the Destruction Swordsman' from the graveyard, and fuse again!

The Swordsman of Destruction and the Dragon Totem fuse for the second time, and descend again—
——Buster Blader, the Dragon Destroyer Swordsman!"

Once again, the white heavy sword pierced the ground, and the swordsman fell in heavy armor!

"Do you want to summon this monster so much?" Although Professor Cobra did not think that his Venom God would be defeated, he instinctively felt that something was wrong, "Then open the set card: Trap Card – Torrential Tribute!

When a monster is summoned, all monsters on the field are destroyed!"

The torrent burst out, engulfing everything on the field. Magician of Dark Illusion, Buster Blader the Dragon Destroyer Swordsman, and the face-down Dragon Destroyer Swordsman on Yuei Vu's field were all destroyed in the bursting torrent.

The water flow dispersed, and only his "Venominaga the Deity of Poisonous Snakes" remained standing firmly on the field.

"Now, no matter what you want to do, it will be useless." Professor Cobra said.

Yuei Vu remained calm and only glanced at the professor's backfield.

However, in this way, Professor Cobra's backfield would be left with nothing.

"Then I activate the Spell Card 'Magicalized Fusion' from my hand." Yuei Vu said, "Fusion Summon 1 Spellcaster Fusion Monster from my Extra Deck, by banishing Fusion Materials mentioned on it from my field or GY."

Professor Cobra's eyelids jumped.

This time it is a Spellcaster Fusion Monster?!

Yuei Vu drew two more cards that popped out of the graveyard.

"I banish the 'Dark Magician' and 'Buster Blader' in the graveyard! Fusion Summon!

The Sword of Destruction is engraved with the spell of black magic, and it becomes a magic swordsman who slays all dragons——

——Dark Paladin!!!"

The fusion of Dark Magician and Buster Blader, the swordsman wore a black wizard robe landed, and swung his sword to roll up a storm of black magic!

[Dark Paladin, ATK 2900]

Professor Cobra frowned: "I really admire you for being able to summon such a powerful trump card after being interrupted twice in a row, Principal Yuei Vu.

But this monster alone can't..."

"Open the set card!" Yuei Vu said, "Because of the effect of 'Temple of the Kings', the card I set can be activated this turn! This card is—

–Continuous Trap 'Rebirth Judgment'! Once per turn: I can declare 1 Monster Type; monsters in the GYs become that Type for the rest of this turn."

Professor Cobra: "!?"

Wait, the Type of the graveyard monster...

"Awesome!" Misawa jumped up from his seat, "Although 'Vennominaga the Deity of Poisonous Snakes' herself looks invulnerable, her attack power is determined by the number of Reptile monsters in the graveyard!

If the Type is changed..."

"Of course, the Type I want to declare is Dragon." Yuei Vu said calmly, "All the monsters in our graveyards will become Dragon-Type. In this way, there will be no Reptile monsters left in your graveyard.

Do you know what will happen?"

[Vennominaga the Deity of Poisonous Snakes, ATK 7000 → ATK 0]

The attack power of the Venom God dropped sharply, and the whole person looked like she was withering. The value of more than 7000 plummeted until it became a big zero.

"You actually... found a blind spot of the invincible 'Vennominaga the Deity of Poisonous Snakes'..." Professor Cobra widened his eyes and muttered to himself.

"And," Yuei Vu said, "The attack power of 'Dark Paladin' will increase by 500 points for all Dragon monsters on both sides' fields and graveyards!

And now, all the monsters in our graveyards are Dragons!"

Professor Cobra: "!?"

At this time, there were nine monsters in Yuei Vu's graveyard, and there were fourteen Reptile monsters plus one Double Coston in Professor Cobra's graveyard.

A total of twenty-four!

"Dark Paladin's attack power increased by twelve thousand points!"

[Dark Paladin, ATK 2900 → ATK 14900]

"Attack power...fourteen thousand nine hundred!?" Professor Cobra's face changed instantly.

"By the way, even if you manage to survive this attack, the destroyed Vennominaga cannot be revived by her own effect.

Because Vennominaga must banish a Reptile monster in your graveyard to be revived, and the number of Reptile monsters in your graveyard right now... is 0."

Professor Cobra was stunned for a moment, but his expression soon calmed down, and he closed his eyes lightly as if accepting the fact.

"Is this... the Duel King's duel?"

"Battle!" Yuei Vu said, "Dark Paladin, attack 'Vennominaga the Deity of Poisonous Snakes'!

Super Magical Shadowless Slash!!!"

The magic blade cut through the space, and crescent-shaped light waves blasted out like ripples on the water. The huge body of the Snake God was cut open, and she screamed, and the snake heads on her head and arms were cut off one by one.

[Professor Cobra, LP 9500 → LP 0]

Chapter 1017: Aliens Also Play Cards

The crescent-shaped wave crushed the serpent god, and hit Professor Cobra, the duelist, with unabated force.

The professor steadily received the impact of the stereoscopic image with his rock-like body, but as his LP value reached zero, he still knelt on the ground with sweat on his forehead.

The crowd watching nearby may not feel it, but in fact, from the moment "Vennominaga the Deity of Poisonous Snakes" appeared, this duel was not just an ordinary duel.

Although neither side of the battle started the Shadow Game or other similar duel forms that could cause substantial damage, the power of "Vennominaga the Deity of Poisonous Snakes" was too strong, and her appearance made even an ordinary duel caused a double mental and physical burden on the duelists.

Just like the three Egyptian Gods would cause certain impact damage to the opponent even in a regular duel, when spirits were powerful to a certain level, they could even show their power only through stereoscopic images.

This made Yuei Vu curious about where Professor Cobra got such a powerful god-level spirit.

Generally speaking, spirits of this level were more picky about their masters. Maybe the venom god also thinks that this professor had a high compatibility with her, so she was willing to follow him?!

Amid the thunderous applause all around, Yuei Vu crossed the arena, walked to Professor Cobra, and stretched out a hand.

Professor Cobra was stunned for a moment, then smiled, held his hand, and stood up.

This professor was indeed from the military, Yuei Vu could feel that his arms were very strong and powerful.

"Thank you for the guidance, principal." Professor Cobra lowered his head and said seriously, "This duel has also benefited me a lot. You let me know what the old saying 'there is always someone better than you' means. I have always been too immersed in my duel, over-trusting the power of the snake god, and ignoring the possibility of being counterattacked.

It seems that although I came to this academy as a lecturer, I learned a valuable lesson first."

He was taller than Yuei Vu and had a very burly figure, but at this time he looked like a clumsy elementary school student.

"It's nothing." Yuei Vu smiled, "'Vennominaga the Deity of Poisonous Snakes'? Your monster is indeed very powerful. Being able to see such an extraordinary powerful monster at the opening ceremony, I and my students should be grateful."

Through the duel just now, Yuei Vu was also convinced that although Professor Cobra had a criminal record in the original work, although he did not look like a good person and his deck was also gloomy and weird villain style, this person's duel was upright and there was no evil spirit hidden in his body.

"If I can help the students present here, then this duel will not be in vain." Professor Cobra said seriously, "You also know that I came from in the army and have held positions related to duels in the army.

After leaving the army, I became a teacher at the academy without hesitation, because my experience in the army allowed me to see the future direction of the world and the crucial role of "Duel Monsters" in it.

In the final analysis, the younger generation is the backbone of future humans. Only by cultivating more powerful and high-quality young duelists can our future be guaranteed.

This is my wish, and I am willing to devote the rest of my life to this."

His tone was sincere, at least in Yuei Vu's opinion, it should be true from the bottom of his heart.

In the original work, Professor Cobra was desperate to resurrect his dead son and deep darkness was born in the emptiness of his heart, so he was used by Yubel to become a villain.

But this doesn't mean anything.

There are so many people who have darkness in their hearts, and anyone whose inner darkness is used can easily become a pawn of villains. This doesn't mean anything, and it doesn't mean that he was born a villain.

At least now, he is truly devoted to education, hoping to give his students the best.

Yuei Vu patted his shoulder.

"That is our common responsibility. Well, let's give up the stage." He said, "Next is the student representative battle, right?"

When the two stepped down, the scene had already heated up. Everyone was looking forward to the next duel.

Next was the duel between the superstar of the academy headquarters Yuki Judai, who was appointed by Professor Cobra, and the champion of the Northern Academy, Jesse Anderson.

Needless to say, Judai was a star duelist all over the world these days, a miraculous boy who saved the world.

On the opposite side, Jesse Anderson was also a big shot. After all, he was using the legendary "Crystal Beast" deck.

It was said that the wealthy Manjomu Corp once wanted to spend all its money to buy the Crystal Beast deck from Industrial Illusions, but only received a "not for sale" response from Pegasus.

According to the ancient books discovered by Industrial Illusions, Julius Caesar, who once ruled the Roman Empire, collected seven precious gems from all over the world and made them into stone tablets with extraordinary power in order to create proof of the Roman Empire's dominance.

However, the ship carrying the gems encountered a storm on the way to Rome and disappeared into the depths of the sea. It was after President Pegasus found these gems that he made the "Crystal Beast" deck, which was unique in the world.

Faced with the sky-high prices offered by numerous large consortiums including the Manjome Corp to acquire the "Crystal Beast", President Pegasus remained unmoved and refused to exchange this deck for money.

Until an open competition, when President Pegasus met the boy who won the championship of that competition, the Crystal Beast deck he carried with him reacted on its own and released amazing energy.

So President Pegasus gave this deck to the boy for free.

That boy was Jesse Anderson on the stage at this moment.

In other words, Jesse was the master chosen by the Crystal Beast. The bond between them was incomparable to ordinary duelists. It was more appropriate to say that they were family members rather than companions.

This could be seen from the first appearance of Crystal Beast in the GX animation.

Jesse had a deck of 40 cards, with a total of seven Crystal Beasts – and each card was unique in the world and has not been reproduced. Yet he got four of the six cards in his starting hand.

No one would believe that this hit rate didn't relate to the bond with the deck.

Of course, for the audience, seeing the legendary deck "Crystal Beast" was indeed a rare experience, but in fact, the deck held by Yuki Judai was not inferior to it.

Remember, Judai played an alien deck!

Real aliens from outer space!

Judai became famous in the battle with The Light of Destruction, and so did his deck.

Now the whole world knows about it, and the topic of "whether aliens exist or not" that has caused experts to debate endlessly for many years has officially ended–

— Not only do aliens really exist, but they also play cards.

"M78 civil servants fight against Crystal Beasts", just thinking about it made people excited!

Chapter 1018: The Correct Way To Use Ultraman Fusion

"Duel!" x2

Soon the second duel began, this time it was a student representative battle.

Considering that both sides' decks were legendary rare, this duel was still worth looking forward to. Even Yuei Vu was curious about how far Jesse could fight here.

It was definitely impossible to win. In the opening of the third season of the original GX, the battle between Judai and Jesse was originally won by Judai, and the current Judai was already a completely different person compared to the same stage in the original work, and Jesse was even more different.

The deck system of Crystal Beast was a set of salted fish, but Jesse Anderson was an important character in GX. Although he appeared very late, he seemed to be the secondary male lead. His strength was still worth looking forward to.

It's just that his deck construction was too salty from the perspective of players...

Not to mention that the whole deck had only seven monsters, each of them was a low-attack low-level monster, and there were no outstanding special effects. Not only was it extremely dead-draw, but the combat effectiveness was also worth worrying about.

If it were just that, it would be fine, but the key was that Jesse actually said that his deck did not even have a card that "destroys monsters".

Because he thought that a duel should be a fair fight between both parties, summoning the strongest monsters to collide with each other, so there was nothing to blow up the card.

Then the question was, your entire deck did not even have a big brother with an attack power of more than 2,000, so how could you fight against someone else's big brother?

When Jesse said this, it also attracted the attention of many people.

Especially the players – the Crystal Beast was recognized by the players as a fighter among the salted fish. Now this guy not only had a deck full of low-star fish, but also did not even have a card explosion effect. Could this deck really have combat effectiveness?

Then the next was the duel between the two academy champions, Judai and Jesse.

Judai got the first move. In general, it was awkward for heroes to take the initiative, because no matter which HERO system, the deck was biased towards the counter-attack type.

But it didn't matter. After being trained, Judai has already formed a set of first-turn formations with his own characteristics. Moreover, after the battle with The Light of Destruction, he has grown even more. This time, he had developed a set of "interesting" play ideas and was looking for someone to test it.

First, he summoned "Keeper of Dragon Magic", then activated its effect, discarded a card, and added the Spell Card "Neos Fusion" – also known as "Ultraman Fusion" – to his hand.

Then he directly activated Ultraman Fusion, allowing his Ultraman to fuse in the deck, and directly fusion summoned Elemental HERO Brave Neos!

The most powerful thing about Brave Neos was that his fusion condition was Neos plus "1 Level 4 or lower Effect monster".

This means that through Ultraman Fusion, Judai could accurately feed to the grave any Level 4 or lower monster from the deck, which was very powerful. This effect could be used to pile all kinds of weird things in the graveyard.

For example, the fusion material chosen by Judai this time was...

...Ra's Disciple?

Many people were confused when they saw this scene.

Ra's Disciple? What is that?

This thing has nothing to do with the HERO deck, right? Why would Judai have such an unknown meaning thing in his deck?

[Elemental HERO Brave Neos, ATK 2500]

From the name of Ra's Disciple, you knew this was a monster card that supported the Winged Dragon. However, this was not an out-of-print card. This card was printed by Industrial Illusions and also appeared in the original GX animation. It was not particularly rare.

Although ordinary duelists do not have god cards, many people were willing to bid to buy a few of them as collections.

Next was the effect of Brave Neos itself. His attack power would increase by 100 points for each 'Neo-Spacian' and 'HERO' monster in the graveyard. Because there was a Neos in the graveyard, the attack power of the Brave Neos would increase by a crucial 100 points, which was very powerful.

[Elemental HERO Brave Neos, ATK 2500 → ATK 2600]

Finally, Judai set another card in the back row and ended his turn.

Then it was Jesse's turn.

"Is it the powerful Neos right at the start?" Jesse was also full of energy.

A ghostly eagle-type elf floated beside him – it was "Crystal Beast Cobalt Eagle".

"Today's opponent is different from the usual one, Jesse."

"Yes." Jesse nodded with a smile, "Today, I will ask everyone to work hard together."

"Whether it is an alien or something else, just leave it to us, Jesse!"

After the brief interaction, Jesse quickly started to act: "I will set a card on the field, and then activate the Spell Card 'Card Destruction'. Both players discard as many cards as possible from their hands, then each player draws the same number of cards they discarded!"

Both players discarded all their cards and then draw cards from the deck.

After drawing the card, Jesse immediately waved his hand: "Open the set card: Spell Card – Crystal Blessing! Target up to 2 'Crystal Beast' monsters in my GY; place those targets face-up in my Spell & Trap Zone as Continuous Spells!"

He drew two cards that popped out of the graveyard in one breath.

"I put 'Crystal Beast Cobalt Eagle' and 'Crystal Beast Ruby Carbuncle' in my Spell & Trap Zone!"

Two shining gems, one red, and one blue, appeared in Jesse's backfield, occupying two zones of the grid.

"Hey~ Can you put monsters in the Spell & Trap Zone?" Judai nodded slightly, "It looks like Aster's 'Vision HERO'..."

Jesse smiled and said, "Keep your eyes open, the power of Crystal Beast is just beginning! Activate the Spell Card 'Crystal Beacon' from my hand!"

When there are two or more Crystal Beast in my Spell & Trap Zone, special summon 1 'Crystal Beast' from my deck!"

The two gems in Jesse's back row released their power at the same time, blooming with dazzling red and blue light respectively, intertwining and shooting towards his deck, as if building a bridge of light, guiding the arrival of a new Crystal Beast!

But at this moment, Judai moved!

Let me show you the latest interesting tactics developed for me by Yūei Vu-sensei!

"Open the set card: Trap Card – Give and Take! Special Summon a monster in my Graveyard to the opponent's field in Defense Position!

After that, increase the Level of 1 monster I control by the Level of the Special Summoned monster, until the End Phase!"

Jesse: "???"

Special Summon the monster in your Graveyard... to my field?

Give me a monster for free? Is there such a good thing?

Judai smiled and popped out the card that he had just accurately buried in his graveyard as the fusion material of "Brave Neos".

"I will Special Summon the Level 4 'Ra's Disciple' from the Graveyard to your field in Defense Position." He said, "Then the Level of my 'Keeper of Dragon Magic' will rise to 8."

[Ra's Disciple, DEF 600]

Jesse looked at the guy dressed like a cosplaying Winged Dragon on his field and was confused.

Is there any special meaning in giving me this little baby?

Then he listened to Judai's explanation: "The effect of 'Ra's Disciple'! When this card is Summoned, you can Special Summon up to 2 cards of the same name from your hand or deck..."

Of course, Jesse's deck couldn't have such an unknown meaning thing, but he still had some doubts in his heart.

Special Summon two monsters from the deck when it is summoned? This monster is very strong, why give it to me...

"Then its second effect," Judai smiled, "While 'Ra's Disciple' is on the field, its controller cannot Special Summon any other monster!"

"Huh!?"

Everyone in the audience was shocked.

What the hell? Is there such an operation?

Using "Neos Fusion" to send "Ra's Disciple" as fusion material from the deck to the graveyard, and then using a trap card to give the apostle as a gift to the opponent...

...Then the opponent is unilaterally blocked from Special Summoning?

That is to say, from now on, Jesse could only perform a Normal Summon at most once per turn, as if returning to the ancient times of "you summon one, I summon one" in the early days of Yu-Gi-Oh...

What is this latest operation!?

But soon someone reacted: "But since 'Ra's Disciple' is on Jesse's field, as long as he used it as a sacrifice for a Tribute Summon..."

But this level has obviously been within Judai's consideration for a long time. He smiled brightly: "Oh, yes, there is one more thing.

'Ra's Disciple' is an apostle loyal to the Three Egyptian Gods. This card cannot be used as a sacrifice in any other situation except as a sacrifice for the Three Egyptian Gods!"

Jesse: "....."

The whole audience was even more shocked.

What the hell!?

It cannot be used as a sacrifice except as a sacrifice for the Three Egyptian Gods... Doesn't it mean that it cannot be used for Tribute Summon or as a price for the activation of card effects?

By the way, even if you wanted to use it as a Fusion Material, it won't work. Even in the future generations of Yu-Gi-Oh, you couldn't use it as a material for Synchro, Xyz, or even Link Summon.

Because as long as 'Ra's Disciple' was on the field, you couldn't perform any form of Special Summon. And whether it was Fusion, Synchro, Xyz, or Link, they all belonged to "Special Summon".

As for being the sacrifice of the three Egyptian Gods...

... Who the hell has an Egyptian God in his hand!?

Unsolvable!

The audience was dumbfounded.

Cards... can still be played like this?!

Ultraman Fusion can also be used like this?!

What kind of hellish tactics is this?

Chapter 1019: Crystal Beast's Ultimate Move

Not to mention the spectators outside the arena, Jesse and his spirit friends were all a little dumbfounded at this time.

What kind of trick is this?

As the champion of the Northern Academy, Jesse has participated in many large-scale duel competitions and has had many experiences fighting with masters. He was even once spotted by President Pegasus on the field and was appointed as the owner of the Crystal Beast deck.

But even so, this kind of operation was really something that he had never ever seen.

Giving a monster to the opponent and directly blocking the Special Summoning!

Since Special Summoning has been blocked, Jesse's "Crystal Beacon" would obviously resolve without effect, and he couldn't special summon another Crystal Beast from the deck.

At this time, the onlookers and the instructors have begun to analyze the situation.

To be honest, if it were an ordinary person, he would have been stuck to death here. After all, there were only seven monsters in his deck of forty cards. He has already drawn two and used "Card Destruction" to throw them away. At this time, they had become gems and placed in the Spell & Trap Zone.

That meant there were only five monsters left in his deck.

With five monsters, do you happen to have one more in your hand?

Then Jesse raised his hand and slapped a card.

"I summon 'Crystal Beast Topaz Tiger' in attack position!"

[Crystal Beast Topaz Tiger, ATK 1600]

All players: "..."

It seems that the divine drawers cannot be judged by common sense...

Jesse directly ordered the Topaz Tiger to attack. Then the effect of the Topaz Tiger increased its attack power by 400 during the Damage Step, and it could easily knock down the "Keeper of Dragon Magic" of Judai.

[Judai, LP 4000 → LP 3800]

Finally, he set another card and ended this turn.

Sure enough, it seems that Judai's "giving the opponent an apostle" operation still made Jesse feel uncomfortable, and this turn ended without accomplishing anything.

Then Judai would not be polite next.

Judai directly played the Equip Spell "Favorite Hero" to equip the Brave Neos. After entering the Battle Phase, Favorite Hero could directly activate a Field Spell from the deck.

Judai chose the Field Spell "Neo Space", and the field where the two fought was suddenly surrounded by a kingdom of light, with colorful aurora all around.

The effect of Neo Space increased the attack power of Brave Neos by 500, and then the Favorite Hero would increase his attack power by his own DEF value – that was, 2000 points.

In this way, the attack power of Brave Neos directly soared to a terrifying 5100 points!

[Elemental HERO Brave Neos, ATK 5100]

If Topaz Tiger was defeated here, 3500 points of super-high damage would be caused in one breath!

"Battle!" Judai shouted, "Elemental HERO Brave Neos, attack Topaz Tiger!"

Neos's body was wrapped in a silver-white light ball, swooping down from mid-air, and the transparent air circle behind him exploded, swooping down with an unstoppable momentum!

The locked Topaz Tiger turned his head and said: "Jesse, now!"

"I know!"

Jesse waved his hand: "Open the set card: Trap Card – Last Resort! The moment the opponent's monster declares an attack, select a Field Spell Card from the deck to activate!" (Animation effect)

"Ah?" Judai was stunned.

What? It turned out to also be a Field Spell activator?!

Doesn't that mean...

"I activate the Field Spell 'Ancient City – Rainbow Ruins' from the deck!"

The field changed, a seven-color rainbow hung in the air, the Neo Space was instantly crushed, and the ancient city rose from the ground!

"...The effect of 'Favorite Hero' can only take effect when there is a card in my Field Zone." Judai was helpless, "If the Neo Space is destroyed, the attack power of the Brave Neos will return to the original."

[Elemental HERO Brave Neos, ATK 5100 → ATK 2600]

Of course, even if it decreased, Brave Neos still had the upper hand, and there was no suspense and he crushed Topaz Tiger on the spot.

"'Ancient City – Rainbow Ruins' will gain different effects depending on the number of 'Crystal Beast' cards in my Spell & Trap Zone." Jesse said, "When there are two or more Crystal Beasts in my Spell & Trap Zone, once per turn, halve the battle damage I take!"

[Jesse, LP 4000 → LP 3500]

"Then when 'Crystal Beast Topaz Tiger' is destroyed, it will not be sent to the Graveyard, but will be transformed into a gem and placed in the Spell & Trap Zone!"

Jesse pointed to his backfield, and the golden gem suddenly emerged and landed in the Spell & Trap Zone in his backfield.

"Then the effect of 'Elemental HERO Brave Neos' is also activated." Judai said, "When this card destroys an opponent's monster by battle: I can add 1 Spell/Trap from my Deck to my hand that mentions 'Elemental HERO Neos'."

I added the Spell Card 'Miracle Contact' from the deck to my hand."

Although the attack increase effect of "Favorite Hero" was only useful when there was a card in the Field Zone, it actually had an additional attack effect that could be used.

However, at this time, Jesse only had the "Ra's Disciple" in Defense Position on the field. Even if he attacked Ra's Disciple with an additional attack, he could not deal combat damage. It would be better to leave this apostle on Jesse's field and let him continue to worry about it.

"Set a card, I end my turn." Judai said.

Although he blocked Judai's attack, Jesse looked sideways at the "Ra's Disciple" who was still squatting on his field like a nail house, and he couldn't help but feel a pain in his balls...

"Then it's my turn, draw!"

The yellow gem in Jesse's backfield transformed into a tiger again and said to him: "Jesse, you must find a way to get rid of this troublesome apostle first, otherwise there is no way to organize a counterattack..."

"Can you communicate and discuss with the spirits in the duel?" Judai looked yearning, "That's great~"

A certain spirit, who was temporarily ignored, was hesitant to speak, but finally, she didn't say a word and bit her lip behind him.

She felt as if her presence in Judai's eyes had been decreasing recently...

"Activate the Spell Card 'Crystal Bond'! Add 1 'Crystal Beast' monster from my Deck to my hand, and place 1 'Crystal Beast' monster with a different name from my Deck face-up in my Spell & Trap Zone as a Continuous Spell.

I add 'Crystal Beast Sapphire Pegasus' to my hand, and then place 'Crystal Beast Amber Mammoth' to the Spell & Trap Zone!"

Then he raised his hand and pointed to the gorgeous city in the air and the rainbow across the sky.

"The effect of 'Ancient City – Rainbow Ruins' is activated! When there are four or more Crystal Beasts in my Spell & Trap Zone, once per turn, during my Main Phase: I can draw 1 card!"

After drawing the card, he immediately showed the card.

"Spell Card 'Spell Books from the Pot', both players draw three cards from their decks." Jesse said, "Then activate the Spell Card 'Rare Value'!

When there are two or more Crystal Beasts in my Spell & Trap Zone, randomly select one of them and send it to the Graveyard, and draw two cards!" (anime effect)

The red gem in the back row turned into a burst of light and dissipated.

"Send 'Crystal Beast Ruby Carbuncle' to the Graveyard, and draw two cards!"

Seeing the two new cards in hand, Jesse's eyes lit up.

Here it comes!

The means to break this deadlock!

"I activate the Spell Card 'Crystal Bond' again, add 'Crystal Beast Amethyst Cat' from the deck to my hand, and place 'Crystal Beast Emerald Tortoise' in the Spell & Trap Zone!"

In this way, Jesse had four gems in the back row again.

The conditions for Crystal Beast's ultimate move are met!

"Look, Judai, this is the ultimate move of my Crystal Beast!" Jesse shouted, "Spell Card 'Crystal Abundance'! I must send 4 'Crystal Beast' cards from my Spell & Trap Zone to the GY to activate it!

All the cards on the field... will be sent to the graveyard!"

Chapter 1020: Neo-Spacian VS Crystal Beast

What!?

Judai was also surprised when he saw this card.

Damn, send all cards to the graveyard? Is it that powerful?

You know, this is sending the whole field to the graveyard! It does not target nor destroy, and it is an absolutely irresistible super-powerful field clearance effect except for the complete resistance effect of "not affected by card effects"!

It was literally an ultimate move.

Well, of course, Jesse said that there was nothing in his deck that could "destroy monsters". But the effect of Crystal Abundance was to send the whole field directly to the graveyard, not to destroy, so it naturally did not count.

Four gems in the backfield flew into the air, and the four-color auras cut across the whole field! Brave Neos and his equipment were the first to be turned into powder, and at the same time, Judai's set card was also forcibly sent to the graveyard. It was a super powerful trap "Karma Cut", which should have the ability to directly banish any face-up monster from the game.

More importantly, the annoying "Ra's Disciple" on Jesse's side was also sent to the graveyard, and the blockade on his side was finally lifted.

This means that he could finally perform a special summon to launch a counterattack!

"The subsequent effect of 'Crystal Abundance'!" Jesse said, "Special Summon as many 'Crystal Beast' monsters as possible from my GY, up to the number of cards sent from the opponent's field to the GY by this card's effect!"

I special summon 'Crystal Beast Cobalt Eagle', 'Crystal Beast Topaz Tiger', and 'Crystal Beast Amber Mammoth'!"

[Crystal Beast Cobalt Eagle, ATK 1400]

[Crystal Beast Topaz Tiger, ATK 1600]

[Crystal Beast Amber Mammoth, ATK 1700]

But Jesse was not done yet: "I normal summon 'Crystal Beast Sapphire Pegasus' in attack position!"

[Crystal Beast Sapphire Pegasus, ATK 1800]

The whole audience was in an uproar.

The situation was reversed instantly.

Jesse's side completely changed the situation in just one turn from being summoned and blocked to being completely suppressed! Not only did he clear Judai's entire field, but he also summoned four Crystal Beasts in one go!

Now it was Judai who was going to be killed instantly!

"The effect of Sapphire Pegasus – When this card is Summoned: I can place 1 'Crystal Beast' monster from my hand, Deck, or GY, face-up in my Spell & Trap Zone as a Continuous Spell! I place 'Crystal Beast Amethyst Cat'!"

Then it was an all-out attack!

"Go, my Crystal Beasts! Direct attack!"

Judai had no way to avoid the quadruple attack of the Crystal Beasts!

But it doesn't matter!

"I activate 'Rescuer from the Grave' in the graveyard!" Judai shouted, "When an opponent's monster declares an attack while this card is in my Graveyard, banish five cards in the graveyard, including this card, to negate the attack and end the Battle Phase!" (Animation card)

The onlookers exclaimed immediately.

Damn, Judai, how did you have Rafael's card!?

Was this also pulled out by your teacher?

"I banish all the 'Give and Take', 'Favorite Hero', 'Neo Space', and 'Karma Cut' in the graveyard from the game! Forcefully end the battle phase!"

The all-out attack of the Crystal Beast was stopped on the spot without even a single shot being fired!

"Is there such a card? Awesome, Judai, you really live up to your reputation."

Jesse smiled and didn't care.

"Then I activate the Spell Card 'Terraforming', and then add the second 'Ancient City – Rainbow Ruins' from the deck to my hand." He said, "Then activate 'Ancient City – Rainbow Ruins'!"

The field changed, the rainbow was like a bridge in the air, and the ancient city emerged again.

"Next is the Spell Card 'Gem's Favor'. Place two 'Crystal Beasts' from the graveyard in the magic trap zone." Jesse said, "I place 'Crystal Beast Ruby Beast' and 'Crystal Beast Jade Turtle'!"

Two jewels appeared in the backfield one after another, so Jesse now has three more jewels in the backfield.

Together with the four monsters in the front field, seven Crystal Beasts have been gathered on the field.

Logically, he should have met the conditions to summon the ace monster "Rainbow Dragon", but it is said that the slate of Rainbow Dragon is still being dug, so he does not have this ace card yet.

Of course, even without Rainbow Dragon, the power of seven Crystal Beasts gathered together is still not to be underestimated!

For example, you can use these seven gorgeous gems to blind the opponent's eyes...

Jesse sets two more cards on his side and ends this round.

Then it was Judai's turn again. From the scene, he had nothing on the field, while Jesse had already pulled out all the monsters in his deck in one go. It seemed that the gap was quite large.

But Judai was going to be the Duel King after all, so he certainly wouldn't back down in such a place!

"Draw!"

The gorgeous card draw, and the cool special effects that hit the soul, were like the moment when the top warrior drew his sword!

"Spell Card 'Miracle Contact'! Shuffle into the Deck, from my hand, field, or GY, the Fusion Materials that are mentioned on an 'Elemental HERO' Fusion Monster that mentions 'Elemental HERO Neos' as material, then Special Summon that Fusion Monster from my Extra Deck, ignoring its Summoning conditions!"

I let my Ultraman fuse in the graveyard!

Neos was worthy of being called the most advanced fusion material, and it could be said that he had 10,000 fusion postures. He could fuse on the field, in the hand, from the deck, and from the graveyard.

This was also Judai's usual divine weapon for a single-card reversal!

But Jesse naturally couldn't let him go so smoothly!

"Then I activate the effect of 'Ancient City – Rainbow Ruins'!" Jesse shouted, "When there are three or more Crystal Beasts in my Spell & Trap Zone, I can send a 'Crystal Beast' monster on my field to the Graveyard to negate the activation of a Spell/Trap Card and destroy it!"

"Ah!?" Judai was shocked, "There is such a powerful effect?"

"I send 'Crystal Beast Cobalt Eagle' to the Graveyard to negate and negate the activation of 'Miracle Contact'!"

The powerful Neo Space magic instantly broke into golden powder under the restraint of the powerful rainbow power, and dissipated before it could take effect.

"Hehe, how's it?" Jesse rubbed his nose, "My Crystal Beast is very strong, right?"

"Yes, it's super strong!" Judai smiled, "But my partners from the Neo Space are more than just this level! There are countless possibilities sleeping in my deck!"

Jesse nodded: "Then let me see that possibility!"

"I activate the Spell Card 'Graceful Charity', draw 3 cards, then discard 2 cards."

Three new cards were in hand, and sure enough, "new possibilities" appeared in his hand again.

"Okay! Then I activate the trap card 'NEXT' from my hand!"

"Activate a trap from your hand?" Jesse said that this involved a blind spot in knowledge.

"This card can be activated from my hand when there are no cards on my field." Judai said, "Special Summon any number of monsters with different names from my hand and/or GY, in Defense Position, that are all 'Neo-Spacian' monsters or 'Elemental HERO Neos' Come on!"

'Elemental HERO Neos', 'Neo-Spacian Grand Mole', 'Neo-Spacian Dark Panther', 'Neo-Spacian Glow Moss', 'Neo-Spacian Aqua Dolphin'!"

[Elemental HERO Neos, DEF 2000]

[Neo-Spacian Grand Mole, DEF 300]

[Neo-Spacial Dark Panther, DEF 500]

[Neo-Spacial Glow Moss, DEF 900]

[Neo-Spacial Aqua Dolphin, DEF 800]

"Summoning so many Neo-Spacians at once?" Jesse was surprised.

"That's right, my new Spaceman has the same explosive power as your Crystal Beast!" Judai said in one go, "You have just shown me how powerful the Crystal Beasts are, so now it's my turn!

The real battle has just begun!"
