

I Play Yu-Gi 1021

Chapter 1021: What Is Gimmick HERO

"The real battle has just begun!"

Jesse was excited when he heard this, and there seemed to be an invisible flame burning in his eyes: "Come on, Judai! You're welcome, use all your strength to attack!"

"Hey, are you a little too excited, Jesse?" Cobalt Eagle said on the side.

"It's okay, it's okay." Jesse waved his hand and smiled, "Yuki Judai... He is an opponent worthy of my burning everything and going all out!"

Although they had only known each other for a short time, Judai and Jesse had discovered the similarities between each other and themselves. Their personalities, ties with spirits, and love for duels were exactly the same.

Through this duel, the two of them have already felt a sense of mutual appreciation.

Judai waved his hand and drew a card: "Spell Card 'Space Gift'! Draw 1 card for each different 'Neo-Spacian' name on the monsters I control!"

Because there are four types of Neo-Spacian on my side, I draw four cards!"

Jesse gasped.

Good boy, he drew four cards at once...

"Then I'll go all out too!" Judai took a deep breath and raised his fist high, "Elemental HERO Neos! Neo-Spacian Grand Mole! Neo-Spacian Dark Panther!"

Three monsters return from the field to the deck! Contact Fusion!!!"

Three beams of light shot up into the sky, and the two Neo-Spacians both merged into Neos, turning into beams of light that broke through the clouds and disappeared into the Milky Way, with colorful brilliance bursting out from the depths of the galaxy.

"Crush the galaxy, mysterious light——

——Elemental HERO Nebula Neos!!!"

The hero's burly body was surrounded by colorful light and descended, landing with a mighty force. The rainbow bridge seemed to be cut in two by the mysterious light that penetrated the galaxy, and the hero landed heavily, stirring up a thousand-foot dust tomb.

[Elemental HERO Nebula Neos, ATK 3000]

"It appears, Nebula Neos!" Jesse's eyes lit up, "Oh, it's even cooler than the legend!"

"Really?" Judai was very proud, "Nebula Neos' effect is activated! If this card is Special Summoned from the Extra Deck, I can draw cards equal to the number of cards on the opponent's field!"

"The number of cards on my field... Oops!" Jesse immediately realized that something was wrong.

Jesse's field was really luxurious. He now had six Crystal Beasts, a Field Spell, and two set cards on the field, a total of nine cards!

"So, I draw nine cards from the deck!!!"

Seeing Judai on the opposite side draw such a large number of cards in one breath, Jesse was dumbfounded.

"So many cards in hand..."

"It's not over yet! Nebula Neos' follow-up effect! Negate the effects of 1 face-up card on the field until the end of this turn!" Judai raised his voice, "I negate 'Ancient City – Rainbow Ruins'!"

Nebula Neos waved his hand, and a powerful force descended, covering the entire field with changing colorful lights. The rainbow on the horizon dimmed and disappeared, and the entire field lost its luster.

"Ah!" Jesse said, "You actually disable my Rainbow City..."

"I don't know what other effects this city has hidden, but now all of them can't be used!"

Judai then showed another card.

"Then activate the Spell Card 'Hero Mask'! Send an 'Elemental HERO' monster from the deck to the graveyard, and choose a face-up monster on the field. Until the end of the turn, that monster's name becomes the sent monster's name."

A card popped out of the deck and was drawn by Judai into his hand.

"I sent the 'Elemental HERO Neos' that just returned to the deck to the graveyard again, and made the name of 'Neo-Spacian Aqua Dolphin' on the field become 'Elemental HERO Neos'!

Then I returned 'Neo-Spacian Glow Moss' and 'Neo-Spacian Aqua Dolphin' treated as Neos to the deck, and fused them!"

Jesse was surprised: "Another Contact Fusion!?"

"It's incredible." The Sapphire Pegasus on Jesse's field said, "Even if the first move was interrupted by us, he could still summon so many powerful Neos one after another immediately..."

...This kid named Yuki Judai, and his outer space companions, are really extraordinary.

Be careful, Jesse!"

"I know!" Jesse responded.

At this time, Brother Dolphin, who had transformed into the state of Neos, and Glow Moss had both flown into the sky, miraculously contacted in the Milky Way, and transformed into a brand new posture and fell straight down from the starry sky, appearing from the light curtain!

[Elemental HERO Glow Neos, ATK 2500]

"The effect of Glow Neos!" Judai said, "Once per turn, destroy a face-up card on the opponent's field, and gain the corresponding effect according to the type of destroyed card!

The card I want to destroy, of course... is 'Ancient City – Rainbow Ruins'!"

Originally, as long as there was more than one "Crystal Beast" in the Spell & Trap Zone, the rainbow city could not be destroyed by card effects. But now its effect has been negated by Nebula Neos, so naturally it could only helplessly collapse under the impact of the power of light.

"Glow Neos obtained an effect when destroyed a Spell Card," Judai smiled, "Glow Neos can attack directly this round!"

Jesse was surprised: "It's actually a direct attack effect?"

"Fight!" Judai shouted, "First, 'Elemental HERO Nebula Neos', attack 'Crystal Beast Topaz Tiger!'"

[Elemental HERO Nebula Neos, ATK 3000]

[Crystal Beast Topaz Tiger, ATK 1600]

This attack would cause 1400 points of combat damage, plus the fact that Glow Neos could attack directly, Judai could cause a total of 3900 points of damage this round.

And Jesse's remaining LP was 3500.

It was a checkmate!

But of course, things will not be that easy.

"Open the set card: Continuous Trap – Crystal Conclave!" Jesse shouted, "Send this face-up card to the graveyard, then target 1 'Crystal Beast' card I control and 1 card on the field; return them to the hand!"

"Ah!?" Judai was surprised, "Bounce back to hand?"

Jesse waved his hand and said, "I will return your 'Nebula Neos' and my own 'Crystal Beast Sapphire Pegasus' to hand!"

Of course, Sapphire Pegasus was returned to hand. But Nebula Neos, as a fusion monster, would be returned the Extra Deck instead.

Well, bouncing back to hand was not destruction, so it was completely fine.

Watching Nebula Neos fly back to the deck, Yubel next to Judai floated out again.

"What a useless alien." She muttered.

To be honest, there has been a "Neos Fusion" sleeping in Judai's graveyard. When a Neos fusion monster would be destroyed by battle or effect, this card could replace one destruction.

But Jesse used "Crystal Abundance" the last turn to skip the "destruction" process and sent Neos directly to the graveyard. This time, it was directly bounced back to the hand, and there was no chance for Neos Fusion to play a role.

So it seemed that what Jesse said about not having a "destroy monster" card in the deck was still true. The "Neos Fusion" in the graveyard could prove this.

"And if 'Sapphire Pegasus' returns to the hand, it can place another 'Crystal Beast' on the field when it is summoned next turn." Yubel analyzed, "Not only Nebula Neos' attack is canceled, but the opponent also avoids the powerful effect of Nebula Neos's 'removing all cards on the field face-down' at the end of the turn."

After all, there were only seven Crystal Beasts in Jesse's deck, and now most of the Crystal Beasts in his deck were gathered on his field. If the effect of "Nebula Neos" removed all the cards on the field, then he could surrender on the spot.

"Amazing, you calculated so much!" Judai admired.

"That's not the case." Yubel said, "The opponent should be a duelist of the same type as you. Rather than thinking about tactics with his brain, he prefers to play cards based on intuition.

It's just that this boy's intuition... may be very accurate."

"Still amazing!" Judai smiled, "But I can't back down! Then 'Elemental HERO Glow Neos', attack directly!"

Glow Neos, who destroyed the Field Spell, had the right to attack directly this round! He flew high, raised his hand, and a beam javelin stabbed across the field towards Jesse!

"Jesse, be careful!" This time it was the Jade Turtle who spoke.

"I know!" Jesse turned over another backfield card, "Trap Card 'Crystal Pair'! Place 1 'Crystal Beast' monster from my Deck face-up in my Spell & Trap Zone as a Continuous Spell, and I take no battle damage for the rest of this turn! I place 'Crystal Beast Emerald Tortoise' and make the damage from your monsters this turn becomes 0!" (Animation effect)

The gems in the backfield burst out with purple, green and red brilliance, forming a barrier in front of Jesse.

It was as if he was protecting his family with his body.

Shining Neos's attack hit the barrier hard, and the energy disappeared immediately after hitting the wall.

"Even this was blocked!" Judai praised, "Jesse is so powerful."

In this way, Judai's battle phase ended. Neos Fusion Monsters could only exist on the field for one round, and they could no longer cause further combat damage. In the next round, Judai would have to face Jesse's Crystal Beast's all-out attack with an empty field.

Jesse clenched his fist.

I won!

"So strong, Jesse, really strong!" Judai's eyes lit up.

Unable to cause combat damage, Judai would naturally end the Battle Phase and enter the Main Phase 2 of this turn.

"But my turn is not over yet." Judai said, "Activate the Spell Card 'Sacred Sword of Seven Stars' from my hand! Banish the level 7 'Elemental HERO Glow Neos' from the field, and draw two cards!"

Anyway, Glow Neos must return to the deck at the end of the phase, so it is better to speed up the card drawing as a price.

Judai now had a lot of cards in his hand. Although the Battle Phase of this turn has passed and he was still protected by the effect of "Crystal Pair", Jesse still felt a little uneasy when looking at his big hand of cards.

At the same time, he even had a little expectation.

"Activate Spell Card – Polymerization!" Judai shouted.

Jesse: "Are you still going to fuse at this juncture!?"

"I fuse the 'Elemental HERO Necroshade' with 'Storm Caller' in my hand!

The fusion condition is 1 'Elemental HERO' monster + 1 WIND monster! Fusion Summon—
—Elemental HERO Great Tornado!!!"

[Elemental HERO Great Tornado, ATK 2800]

"When the Great Tornado is Fusion Summoned, and the attack power of all monsters on the opponent's field is halved!"

[Crystal Beast Topaz Tiger, ATK 1600 → ATK 800]

[Crystal Beast Amber Mammoth, ATK 1700 → ATK 850]

Jesse frowned: "But even if it is halved, your Battle Phase for this turn has already passed."

"I know." Judai smiled, "But I haven't performed a Normal Summon this turn."

Jesse: "..."

He was getting more and more confused.

It's obvious that there's no way to fight, so what's the point of summoning more monsters?

"The effect of 'Elemental HERO Necroshade' that I just sent to the graveyard as a fusion material! Once, while this card is in the GY, I can Normal Summon 1 Level 5 or higher 'Elemental HERO' monster without Tributing.

I Normal Summon 'Elemental HERO Bladege' from my hand!"

[Elemental HERO Bladege, ATK 2600]

Judai took a deep breath.

Okay, now the preparations are complete.

Let me show you another super interesting tactic that Yuei Vu-sensei taught me!

"Set two cards, I end my turn." Judai said.

Jesse looked at his operation in confusion.

End... turn?

That's it?

"... Then it's my turn, draw."

Jesse drew a card, but before he could enter the Main Phase to operate, he heard Judai suddenly interrupt.

"At your Standby Phase, open the set card: Trap Card – Give and Take!"

Jesse: "!"

This card again!?

He frowned: "Are you going to summon Ra's Disciple again..."

"No." Judai smiled, "This time, I'm going to Special Summon the Storm Caller that I just sent to the graveyard as the fusion material for the Great Tornado onto your field!"

[Storm Caller, ATK 2300]

Jesse: "???"

What is this thing again?

He was getting more and more confused. This time, Judai sent him a high-level monster with 2300 attack power, which was higher than all the Crystal Beasts in his entire deck...

"Here, here, here!"

Judai's face was full of excitement.

Of course, the joy of the gimmick combo about to succeed was something that ordinary duelists could not understand.

"Open the set card: Trap Card – Edge Hammer! Tribute 1 'Elemental HERO Bladedge' to target 1 monster the opponent controls; destroy that target."

Judai pointed to Jesse's field: "I'll destroy your Storm Caller!!!"

"Huh!?" Jesse was shocked.

You sent me the monster yourself, and then you want to blow it up right away?

"The subsequent effect of 'Edge Hammer' inflicts damage to the opponent equal to that target's original ATK – that is, 2300 points of damage."

Judai showed a sunny and happy smile.

"Then there is the effect of 'Storm Caller' itself. When it is destroyed, the controller of the Storm Caller takes damage equal to its original ATK.

In other words, it's still 2300 points!"

Jesse was stunned for a long time.

"The controller of the Storm Caller means..."

He was shocked instantly.

"Ah! Are you talking about me! ?"

He looked at the summoner who was forced in front of him, and he was dumbfounded.

"What the hell!! ? ?"

Almost everyone in the audience jumped up in shock.

Two consecutive 2300 points of damage, that is to say...

..... This hammer will directly take away 4600 LP!?

Damn, there is such a thing!?

You give the opponent a big monster, then blow it up yourself, and you directly OTK in one go?

"Go, Bladege!" Judai smiled.

The Bladege flew forward, raised the huge metal hammer without hesitation, and smashed it down with endless golden light...

Boom!!!

[Jesse, LP 3500 → LP 1200 → LP 0]

Chapter 1022: King

"Ah~ I lost."

Jesse, whose LP value was reduced to zero, lay on his back on the floor and stretched comfortably, just like lying lazily on the lawn to bask in the sun.

"Not only that." The transparent Cobalt Eagle floated beside him, "You didn't even touch his life points. If I have to say it, it can only be regarded as a little skin scraped off."

Jesse froze for a moment, then thought about it and found that it seemed to be true.

"Well, this is... too discouraging."

Doesn't this mean that I was busy here for a long time and sweated profusely, but the other party didn't move at all, and couldn't even break the defense after the job?

It's really hurtful.

"It can't be helped, after all, it's 'that' Yuki Judai." The Amethyst Cat comforted, "He and the first generation Duel King joined forces to fight against the alien fleet from outer space, and he also took the last blow beautifully."

Indeed, Yuki Judai, who had such a brilliant record, was different from the original animation. Now he was basically no longer a normal student in the eyes of everyone.

Moreover, it was said that Judai and Yuei Vu worked together to defeat the alien invasion. Everyone clearly knew that he played a crucial role in this duel.

Judai was not just hanging on Yuei Vu's legs as a pendant, even the last blow was taken by him.

In any case, he should be considered a legendary duelist, right?

Judai walked forward and lay down comfortably beside Jesse.

"Duel is really good~ Don't you think so?"

"Yes." Jesse nodded and smiled, "Although I was a little unwilling when I lost... but dueling is still enjoyable."

But your tactics are really unfriendly. You actually summoned the 'Ra's Disciple' to my field... I can't see it, Judai, it's really amazing that you can come up with such a tactic."

Judai scratched his head embarrassedly.

"Oh, I'm not that good. This tactic... I didn't come up with it myself..."

"So there's a master who can give you advice." Jesse nodded thoughtfully, "I was saying that, such a sinister and despicable idea doesn't seem to fit your personality..."

Although he didn't hear the conversation between the two, a passerby with Yu- prefix suddenly sneezed and sniffed.

"But you're really an interesting guy." Judai laughed.

"You too, are really an interesting guy." Jesse also laughed.

"Ha, I always feel like we get along inexplicably!"

Seeing the two lying together and laughing happily, Yubel next to him was unhappy again.

This brat, he wants to be Judai's good friend on the first day we met?

I don't remember that I agreed!

Yubel was pouting and unhappy, but Jesse seemed to notice her at this moment.

"Oh, I was just about to ask, is this your spirit? It feels different from the Elemental HEROes or Neo-Spacians...."

"Ah? She is Yubel." Judai seemed to finally notice the long-ignored Sister Yub, "She has been with me since I was very young.

Although she is a little awkward sometimes, we are also very good partners!"

"Oh~ So, the spirit that has been together with you since childhood? I always feel so envious." Jesse looked longing, "Then you must cherish her.

Spirits are the best companions who can accompany you for a lifetime!"

Yubel raised her eyelids.

This kid named Jesse... Well, take a closer look, I suddenly find that he is quite pleasing to the eye.

His personality is very similar to Judai, his card skills are also good, and he has a deep bond with the spirits...

...The key is that he is very talkative!

Sister Yub was very satisfied with him, very satisfied!

Humph, let's allow you to be Judai's friend for the time being.

Marufuji Sho thought: "This foreign student named Jesse looks like Aniki..."

"He won't want to be Judai's younger brother, will he?" Kenzan quickly became alert, "Then I must let him know that I am his number one younger brother!"

Marufuji Sho quickly got angry: "Nonsense! I was here first!"

So the two quarreled again.

Aster, who was watching quietly at the edge of the venue, couldn't help but take it seriously.

"Jesse who uses the Crystal Beast deck... I heard President Peagus mention him before, but I didn't expect that he is a guy so similar to Judai..."

This person must be paid attention to!

At the same time, Manjome in the audience also clenched his fists.

Humph, no matter how many newcomers come, they can't shake the most basic and principled fact.

Yu↑ki↓ Ju↑dai↓! I, Manjome, am your first and final enemy!

"Judai-senpai~"

When Judai just came down from the duel stage and was walking towards the audience seats with Jesse, he saw the energetic first-year girl Saotome Rei rushing down with a towel and a water cup.

It could be predicted that this loli would definitely be a good wife and mother when she grew up.

But Asuka was unhappy again when she saw this scene.

"Wait, this freshman's behavior is too inappropriate, isn't it?"

On such an occasion, so many leaders are watching! Do young girls nowadays have no manners at all?

Asuka had a lot of opinions about this first-year junior sister!

Yuei Vu couldn't help but sigh slightly when he saw this scene.

Judai is really popular with girls.

But there is no way, who makes him his student?

Yuei Vu opened the panel, glanced at the super high charm value of 90, and nodded slightly.

Well, Judai, follow me on this point.

The troubles of handsomeness are something most people don't understand.

.....

But no one noticed at this time that in addition to the friends, juniors, and younger brothers around Judai, there were others who were quietly paying attention to the venue, staring at him without blinking.

Maybe it was because he was the protagonist of the world, or because he was the son of the current version called "GX", or maybe his background was extraordinary and worth noting, it seemed that he always had something that the villains wanted.

For example, the original Tragoedia had set his sights on the Winged Kuriboh in his hand because Tragoedia's heart was sealed by this little guy three thousand years ago.

For example, The Light of Destruction from outer space also listed him as the primary target, because the Ultraman hand-painted by Judai in his childhood happened to be the natural enemy of

The Light of Destruction, and he himself was the holder of the power of "Darkness of the Universe", which was a huge threat to it.

And this time, he once again became the focus of attention.

"Finally... found him."

Someone in the dark murmured, with excitement and joy in his eyes.

"Yuki Judai, the holder of 'Darkness of the Universe', is the host of a great soul...

...our king."

Chapter 1023: Out Of Control System

Recently, the anomalies in the Duel Link world have become more frequent. From time to time, some things or scenes that should not appear according to the program settings would appear in various parts of the metaverse.

Many duelists took pictures and screenshots of those strange pictures and posted them on the forum, which also caused heated discussions.

Of course, it was just a discussion at this stage, and no one has realized the danger yet.

After all, in the eyes of most people, no matter how realistic Duel Link was, it was just a virtual world after all. Most duelists still thought that this was just a simple online battle platform, which was no different from other ordinary online games.

Of course, more people did not understand that the so-called "consciousness link" in the principle of the Duel Link system was different from ordinary Internet games.

In Aigami's explanation, the whole world could be regarded as based on the common consciousness of organisms. The "Quantum Cube" as the core of the "Duel Link" system was such a product-it could connect collective consciousness and separate individuals from the collective.

It was through the manipulation of thinking consciousness that the Quantum Cube could affect the world itself from the time and space level.

Therefore, no one could predict what abnormalities would occur in the Duel Link system developed on this basis now that the Quantum Cube was gradually losing stability.

The Kaiba Corp has discussed more than once whether to suspend the operation of the Duel Link system, but it has not been shut down so far due to insufficient evidence.

However, the omnipotent President Kaiba has now written a new program to lock all abnormal factors in the Duel Link system.

This was the first time this program was running.

After so many years of development, the current Duel Link was a very large system, and its scale was almost unimaginable. It was very time-consuming to scan such a large-scale system.

At this time, President Kaiba and his brother Mokuba were waiting in front of the operating table for the scan results.

While waiting, Mokuba is also watching the live broadcast of the Duel Academy's school competition, and from time to time he is startled to attract his brother's attention.

"Wow, Brother Yuei Vu's Dark Magic deck is so strong! Brother, you have to be careful, next time you might be tricked by the combo of 'Dark Magical Circle' and 'Magician of Chaos!'"

"Hey, this Professor Cobra is also so powerful! Vennominaga the Deity of Poisonous Snakes is not affected by the effect and cannot be the target of the effect, and the attack power is still 7,000! Isn't this invincible?"

Kaiba glanced at the screen and said disdainfully: "Humph, so-so. But that guy is not a duelist who will be defeated at this level."

Mokuba asked casually: "Then what level do you think Brother Yuei Vu will be defeated at?"

President Kaiba was stunned and then snorted coldly.

"I won't allow him to lose to anyone other than me!"

"Yeah, that's true..."

After a while, Mokuba began to exclaim again.

"Wow, the duel between the Neo-Spacian and the Crystal Beast, this one is quite interesting."

Kaiba sneered: "Crystal Beast? It's just a series with more ornamental value than practical value. He has no chance of winning."

In fact, it's not that President Kaiba had any prejudice against Crystal Beast itself. The main reason was that Crystal Beast was a card series dug out of the stone slab by the Industrial Illusions and made into a real card, while the Ultraman series used by Judai was a card series designed by the Kaiba Corp and specially prepared for rocket launch into space.

If Judai loses, doesn't it mean that my Kaiba Corp is not as good as the Industrial Illusions?

That's absolutely not possible!

Kaiba narrowed his eyes and stared at the jellyfish head in the picture.

Boy, if you dare to lose here, I won't forgive you!

...I won't forgive your master either!

Fortunately, Judai won this game smoothly in the end, and President Kaiba was very satisfied.

"As expected of being a student of Brother Yuei Vu, Judai is so strong now!" Mokuba smiled.

"Hmph, so-so."

As the president spoke, he recalled the impressive scene when he was beaten by the future jellyfish head in the first KC Cup.

Looking at the little jellyfish head in the picture, the president suddenly felt the urge to play cards, and it was hard to suppress it.

After the battle of The Light of Destruction, he thought that the jellyfish head seemed to have grown up and it was almost time to start.

It's not easy for President Kaiba. He had such a big addiction to playing cards, but there are only two opponents in the world that he could look up to. A strong opponent was too rare for him.

Just thinking about it, the alarm suddenly sounded in the console.

"Ah, I found it!" Mokuba quickly came to the screen, "An abnormal factor was found in the Duel Link! Someone invaded the Duel Link through a method outside our system!"

Kaiba narrowed his eyes, stood up, swept his windbreaker, and strode towards the open duel arena on the side.

He activated the duel disk, and the blue light like LED spread along his limbs and torso.

"Duel Link System, start!"

The scene in front of Kaiba changed rapidly, and the deep blue world like the ocean quickly occupied the entire world and swallowed his body.

.....

Yusei Fudo rode his mount – a duel motorcycle called "D-Wheel" in the future – slowly driving between the urban streets of the virtual world.

He came from the future and returned to this era through the barrier of time and space. When he came to his senses, he was already in this virtual space.

"Is this... Duel Link?"

Yusei looked around, looking at this highly realistic and amazingly open virtual world, and felt a little incredible for a while.

As a future person, he had only heard of the existence of the "Duel Link" system, but it was the first time he personally logged into this legendary system.

After all, in the era when he was exposed to duels, the "Duel Link" system had disappeared from history.

"Anyone can duel without restrictions in this world, and people from any country and any region can become friends here..."

Yusei thought of something and suddenly felt a little yearning.

Why must such an excellent system disappear in the end?

An unexpected earthquake interrupted his thoughts. The ground in the virtual world suddenly began to shake, and the road in front of him broke open, leaving a deep gully.

He hurriedly turned the front of the car and braked suddenly. The D-Wheel stopped with a sharp friction sound less than half a meter in front of the gully.

The street lamp collapsed, and the gravel fell down, all shattered into 0 and 1 numbers on the ground, turning into data streams and dissipating in the virtual space.

"Here it comes again." Yusei thought.

This was the third time since he came to this space.

Maybe the Duel Link technology of this era is not mature yet?

Just thinking about this, he suddenly saw a figure passing by in the air. A white figure swooped down, and the windbreaker was pulled straight by the wind like a cloak, and landed steadily in front of Yusei!

That was the owner of the Duel Link system, Kaiba Seto!

"Finally found you." Kaiba Seto stood up and said coldly, "I don't know who you are or how you hacked into my system.

But that will end here!"

Yusei: "....."

Chapter 1024: Communicate Through Duels

This was a development that Fudo Yusei had never imagined.

Going back to the past and rushing into the famous "Duel Link" system in history was beyond his expectations, but being caught by the legendary duelist Seto Kaiba and being regarded as a heretic who invaded the system?

This was completely unexpected.

"Wait a minute," Yusei tried to explain, "I'm not an intruder! I just..."

He wanted to say that he was a man from the future and had returned to this era for some special reasons, but he didn't know why he was trapped in the system of this virtual world.

But on second thought, he felt that his words sounded particularly unreliable, even he felt that it was far-fetched, and it would be a miracle if others believed him.

After hesitating for a while, his reaction was regarded as a sign of guilt by President Kaiba.

"Don't quibble." Kaiba said lightly, "You didn't log in to the 'Duel Link' through our company's system. Although I don't know how you hacked in, it's meaningless to pretend."

Yusei: "..."

Indeed, he didn't log in through Kaiba's equipment. To be honest, he himself didn't even know why he was in this virtual world, so he had no way to refute Kaiba's words.

"I have used the authority to lock you." Kaiba said coldly, "No matter how you broke in, you can't leave 'Duel Links' without my permission.

So don't have any crooked ideas. If I were you, I would answer all the questions obediently."

However, even if Yusei wanted to log out of the Duel Links system, he couldn't do it, because there was no option for a logout button on his side.

But fortunately, as a legendary duelist, Kaiba Seto was famous. Yusei, as a future man, has heard of some of the characteristics of this senior.

".....I know, you may not believe what I say now."

Yusei walked down the D-Wheel, unlocked the duel disk from it, and put the duel disk on his wrist.

"Then let's communicate in the way of duelists, President Kaiba." He said seriously.

Duel was a collision of hearts, and real duelists communicated with each other through cards. Yusei has always believed so.

And considering that the opponent was Kaiba Seto, as long as he won the game, then everything else would be easy.

Others' worldviews followed their senses, but the president was different. His worldviews followed his card skills.

Sure enough, when he saw that this intruder dared to challenge him in the field of card playing that he was most proud of, the president, who was already addicted to cards, couldn't help but raise his head and laughed "hahahaha" in a heroic three-part style.

The president thought of an old saying "When you are sleepy, someone sends a pillow". In this day and age, there were still people who dare to challenge him with card playing without knowing their own abilities!

Good! In this case, I will let you see the White Dragon of Light that shatters everything!

The president readily agreed to the duel, and said arrogantly that as long as Yusei won the game, he would be forgiven for invading the Duel Link system.

But on the other hand, if Yusei lost, Kaiba would immediately arrest him and force him to confess everything by all means.

"Duel!" x2

[Seto Kaiba, LP 4000]

[Yusei Fudo, LP 4000]

"I'm the first to attack, draw!" Yusei got the first move.

Kaiba crossed his arms and sneered confidently: "Come on, attack as hard as you can, and then you will see the huge gap between you and the real strong, and regret your stupid and overconfident challenge!"

Yusei said to himself: "Activate the Spell Card 'Tuning'! Add 1 'Synchron' Tuner from my Deck to my hand, then send the top card of my Deck to the graveyard."

A card in the deck was ejected.

"I'll add the Tuner monster 'Quickdraw Synchron' to my hand from the deck!"

Kaiba frowned slightly.

Tuner monster?

In fact, there were Tuner monsters in this era, such as "The White Stone of Legend" and "The White Stone of Ancients" that Kaiba often used, and even Kisara's original body "Maiden with Eyes of Blue", all of which were Tuner monsters.

However, no one in Kaiba Corporation or Industrial Illusions has yet been able to develop the true potential of the Tuner monsters. So far, they have only used Tuner Monsters as ordinary Effect Monsters.

Kaiba suddenly had a premonition.

The man in front of him... might be extraordinary.

Moreover, the other party's crab-like exaggerated afro also made Kaiba involuntarily associate it with a unique starfish head, which made him smell a strange smell.

"The effect of 'Quickdraw Synchron' in the hand! This card can be Special Summoned from the hand by sending 1 monster from my hand to the GY.

Show up! Level 5, Quickdraw Synchron!"

[Quickdraw Synchron, DEF 1400]

"Then the effect of 'Level Eater' that was just discarded to the Graveyard is activated!" Yusei said, "This card can be Special Summoned from the Graveyard by reducing the level of a Level 5 or higher monster on the field by one!

I lowered the Level 5 'Quickdraw Synchron' to Level 4 and Special Summoned 'Level Eater'!"

[Quickdraw Synchron, LV 5 → LV 4]

"The card that was just sent to the Graveyard by the effect of 'Tuning' is 'Quillbolt Hedgehog'!" Yusei's Duel Disk's Graveyard ejected another card, "'Quillbolt Hedgehog' can be Special Summoned from the Graveyard when there is a Tuner Monster on the field.

Show up, Quillbolt Hedgehog!"

[Quillbolt Hedgehog, DEF 800]

"Summon three monsters in an instant? Humph, it's not bad at all."

Kaiba said as he looked at the situation on the star field carefully without blinking.

His premonition became stronger and stronger.

It seemed that there would be a moment that he absolutely could not miss next.

"Level 4 Tuner monster 'Quickdraw Synchron', Level 1 'Level Eater', tuning!"

Kaiba's eyelids twitched.

"Tuner!?"

Tuner monsters, also known as "Star Adjusters", have the power to manipulate the levels of themselves and other monsters and summon powerful monsters.

This was also called "Synchro Summon".

The summoning rules were also very simple, which was a simple level addition.

Kaiba was very clear about this.

Ever since the first KC Cup that year, the mysterious duelist from the future showed everyone a new possibility called "Synchro Summon", Kaiba has never given up trying to explore this aspect in recent years.

But all the attempts so far have failed.

At this moment, the crab-headed man in front of him actually used the Synchro Summon that he had studied for many years without any progress!

"Gathering stars call forth a new power! Become the path that lights the way!"

[4+1=5]

Yusei raised his right hand high.

"Synchro Summon! Appear——

—— Level 5, Junk Warrior!"

Quickdraw Synchron turned into four stars, which then turned into four rings. Level Eater also turned into a star. A total of five stars were connected in a string, turning into a crystal-clear and shining light curtain, falling like a waterfall.

The steel fist broke through the light curtain, and the blue armored warrior rushed out of the light curtain and soared in the sky! His red goggles flashed with a sharp luster like a blade, and the air behind him spewed out, dragging the leaping golden lightning in the air, and the white streamers flew in the wind.

He glided and spun in the air, stopped his body...

...and then split his legs like the most standard fork.

Synchro Monster, Junk Warrior, was summoned!

Kaiba's eyes widened at this moment.

"Synchro... Monster!?"

Chapter 1025: Synchro Monster

[Junk Warrior, ATK 2300]

"Synchro Monster" Kaiba looked at the blue body, frowned and fell into deep thought.

A stream of data separated from the deck he carried and transformed into a translucent human figure behind him.

It was a girl in white, with long silver hair and dreamy white skin, as if she walked out of a scroll.

That was Kisara, the spirit of the "Maiden with Eyes of Blue".

"Synchro Monster!" Kisara's face was full of seriousness, "No doubt, this is a real Synchro Monster!"

Kaiba frowned slightly: "You told me that the world is not ready to welcome 'Synchro Monster'."

"I don't know either!" Kisara pouted.

At the same time, Kaiba heard the voice of his younger brother Mokuba. He was outside the "Duel Link" and monitored the entire duel.

"Brother, the moment the opponent summoned the 'Synchro Monster', a certain device in the motorcycle behind him seemed to suddenly speed up and release some very special energy, as if it was responding to the 'Synchro Monster'.

Maybe that device is the key to 'Synchro Summon'!"

Kaiba was silent for a moment, squinting his eyes and looking at Yusei.

"Not only did you invade my system, but you also rewrote the duel rules and input a new summoning method? Who the hell are you?"

Yusei did not answer directly, but continued: "The effect of Junk Warrior! If this card is Synchro Summoned: It gains ATK equal to the total ATK of all Level 2 or lower monsters I currently control. Power of Fellows!"

Now in addition to the Junk Warrior, there was also a Screw Hedgehog with 800 ATK on the field, so his attack power increased by 800.

[Junk Warrior, ATK 2300 → ATK 3100]

Kaiba's Blue-Eyes White Dragon's various vests were mostly concentrated at 3000 ATK, and Junk Warrior's attack power was just 100 higher than the White Dragon, which was very annoying.

"Set two cards, I end my turn."

Yusei did not directly answer Kaiba's question, but said sincerely: "Whether you believe it or not, I am not your enemy, President Kaiba."

"..."

Kaiba glanced at him and snorted: "That's up to me to decide."

"It's my turn, draw!"

Kisara, who was floating behind, reminded: "Be careful, Seto. Duelists using Synchro Summon are different from others!"

"I know."

Kaiba, who used to be a firm believer in science, seemed to have gotten used to playing cards with a ghost floating beside him and even seemed to seriously consider her suggestions.

"Summon 'Maiden with Eyes of Blue' in attack position!"

Seeing that she was on the field, Kisara quickly straightened her clothes and her hair, flew into the card that Kaiba had taken, and jumped onto the field.

[Maiden with Eyes of Blue, ATK 0]

"Tuner Monster..." Yusei's mind moved slightly, "But even if there are Tuner Monsters, it should not be possible to perform 'Synchro Summon' in this era."

"The effect of 'Sage with Eyes of Blue' in my hand is activated!" Kaiba shouted, "Discard this card, then target 1 Effect Monster I control; send it to the GY, and Special Summon 1 'Blue-Eyes' monster from my Deck!"

"I send the 'Maiden with Eyes of Blue' on the field to the graveyard!"

Kaiba waved his hand and pointed at the graceful girl on the field.

"The moment the effect of 'Sage with Eyes of Blue' is activated, the effect of 'Maiden with Eyes of Blue' is also triggered! When this card becomes the target of a card effect, special summon 1 'Blue-Eyes White Dragon' from my hand, deck, or graveyard!"

"I special summon 'Blue-Eyes White Dragon' from the deck!!!"

The shadow of the Sage emerged, and the staff in his hand pointed straight at the silver-haired girl. The girl's whole body was full of white light, and the strong light separated from her soft body, transforming into a white dragon that covered the sky in mid-air!

[Blue-Eyes White Dragon, ATK 3000]

"Next is the effect of the Sage! Special summon from the deck..."

Blue-Eyes Solid Dragon!!!"

With a burst of brilliant light, a new white dragon flew out as if wearing sharp steel armor, spreading its wings and covering the field in front of Kaiba!

[Blue-Eyes Solid Dragon, ATK 2500]

"At this moment, the effect of Solid Dragon is activated!" Kaiba shouted, "If this card is Normal or Special Summoned: Target 1 face-up monster the opponent controls; negate its effects!

Negate the effect of 'Junk Warrior!'"

Kaiba clenched his fists and sneered softly.

"Synchro Monsters are nothing special. If the effect is negated, it is no different from a normal monster."

"Then open the set card!" Yusei waved his hand to flip the card on his back row, "Trap Card 'Panic Wave'! Destroy a card on my field, and all face-up cards on the opponent's field will have their effects negated until the end of the turn!" (Animation card)

Yusei pointed to another card in his backfield.

"I destroy this card on the field, and all the card effects on your field are negated!"

"Want to negate the effect of the Solid Dragon? Not that easy!" Kaiba raised his voice, "Blue-Eyes Solid Dragon's second effect is activated!

When the opponent activates a card or effect, return the 'Blue-Eyes Solid Dragon' on the field to the deck, and special summon 1 'Blue-Eyes White Dragon' from the deck!"

As soon as the voice fell, the Blue-Eyes Solid Dragon turned into a beam of blue light and flew back to Kaiba's deck. The strong white light left on the field quickly transformed into a new form, becoming the second noble white dragon!

[Blue-Eyes White Dragon, ATK 3000]

"The effect of 'Panic Wave' is limited to negating cards on the field!" Kaiba said, "But 'Blue-Eyes Solid Dragon' was no longer on the field when the effect was processed, so the effect will not be negated!

Negate the effect of Junk Warrior!"

After a series of chain exchanges, Junk Warrior finally seemed to be unable to escape the Solid Dragon's restraints and became a Normie.

[Junk Warrior, ATK 3100 ATK → ATK 2300]

This meant that White Dragon's ATK had surpassed again.

"But the other card I destroyed when I activated 'Panic Wave' just now was this card."

A card was removed from Yusei's graveyard.

"Trap Card 'Limiter Overload'! If this card is sent to the Graveyard: Special Summon 1 'Speed Warrior' from my hand, Deck, or Graveyard!

I Special Summon 'Speed Warrior' from the Deck!"

The slender warrior came to the field on the pulley, but it was a pity that he was destined to be cannon fodder at this time.

[Speed Warrior, DEF 400]

"Even if the move is cracked, at least the defense is strengthened? This kind of meticulous calculation and arrangement ability, let me praise you for it."

Kaiba paused, and the tone suddenly changed.

"But! This level will not work in front of me!"

He waved his hand and picked up the two white dragons on the Duel Disk in one breath.

"I will send the two 'Blue-Eyes White Dragons' on the field to the Graveyard! Now show up here..."

Blue-Eyes Twin Burst Dragon!!!"

Chapter 1026: White Dragon VS Synchron

The impulse of destruction turned into white light sweeping across the earth. The two-headed white dragon was like a god descending to the earth. Its flapping wings rolled up a tornado, and golden lightning flashed continuously in the storm!

[Blue-Eyes Twin Burst Dragon, ATK 3000]

Yusei looked up at the figure that perfectly blended beauty and majesty, and couldn't help but lose his mind for a moment: "This is the evolution of the legendary Blue-Eyes White Dragon..."

"Blue-Eyes Twin Burst Dragon can attack monsters up to twice in a Battle Phase!" Kaiba shouted, "Go, Blue-Eyes! Smash the Junk Warrior and Quillbolt Hedgehog for me!"

The two mouths opened at the same time, and the burst stream of destruction was like the white light, as if two heavy cannons were fired at the same time, and the brilliance was so dazzling that people couldn't open their eyes to look directly.

The Junk Warrior, whose power was reduced, was of course unable to resist, and the Quillbolt Hedgehog was also destroyed in this blow.

[Yusei, LP 4000 → LP 3300]

Yusei raised his arm to block the storm, and said: "When 'Quillbolt Hedgehog' is Special Summoned by its own effect, it will be removed from the game directly instead of being sent to the Graveyard when it leaves the field."

"End of turn." Kaiba snorted, "This is the overwhelming power of Blue-Eyes! In front of this power, the excuses of the weak will not work at all!"

Yusei: "..."

Although he was a legendary duelist, the image, posture, tone, and lines of Kaiba Seto in front of him remind him of his close friend.

It can only be said that they are exactly the same.

"It's my turn."

Yusei inserted a card into the duel disk.

"Spell Card 'Allure of Darkness'! Draw 2 cards, then banish 1 DARK monster from my hand.

If there is no DARK monster in my hand, send my entire hand to the graveyard."

Yusei drew two cards, and then quickly showed one of the cards in his hand.

"I banish 'Necro Linker' from my hand!

Then activate the Spell Card 'Foolish Burial', send a monster card from my deck to the graveyard. I send 'Tuningware' from the deck to the graveyard."

"Then activate 'Card of Burial Spell', banish the three Spell Cards in the graveyard, and draw two cards." (Animation card)

Yusei drew three cards that popped out of the graveyard in one breath.

"I banish 'Tuning', 'Foolish Burial', and 'Allure of Darkness' from the GY, and draw two cards.

Then I Normal Summon 'Junk Synchron'!"

The orange-red little warrior wearing goggles jumped onto Yusei's field. This was his most trusted and crucial core monster in the deck.

"When the Junk Synchron is Normal Summoned: I can target 1 Level 2 or lower monster in my GY; Special Summon that target in Defense Position, but negate its effects." Yusei said, "I Special Summon the 'Tuningware'!"

[Tuningware, DEF 300]

"Level 3 Tuner monster 'Junk Synchron', Level 2 'Speed Warrior', Level 1 'Tuningware', tuning!

When wishes of steel gather around the messenger of the gale, that wish will become an invincible shield! Become the path that lights the way!"

[3+2+1=6]

"Synchro Summon!" Yusei waved his arm, "Junk Gardna!"

The light curtain fell, and the green warrior with thick armor on his arms landed in front of his master with starlight all over the sky.

[Junk Gardna, ATK 1400]

"Another Synchro Summon." Kaiba frowned slightly.

Mokuba's voice sounded again: "Brother, the energy released from his motorcycle has become more intense. Some special substance is spreading in the Duel Link. It is obvious that every 'Synchro Summon' accelerates the release of that energy.

If this continues, I don't know what kind of impact it will have on the Duel Link system."

"It doesn't matter." Kaiba said, "The duel continues."

Nothing is more important than playing cards.JPG.

The president had a hunch that this duel may be a crucial step for him to push the duel of this era over a certain threshold!

"The effect of 'Tuningware'! If this card is sent to the Graveyard for a Synchro Summon: Draw 1 card." Yusei said.

"But even with your Synchro Monster's power, you can't defeat my 'Blue-Eyes Twin Burst Dragon'!"

Yusei thought for a moment, and said: "Then activate the Spell Card 'Earthquake' from my hand. Change all face-up monsters on the field to Defense Position!"

[Blue-Eyes Twin Burst Dragon, ATK 3000 → ATK 2500]

[Junk Gardna, ATK 1400 → DEF 2600]

"Change to Defense Position?" Kaiba said, "It's a meaningless struggle. Even if the Twin Burst Dragon is in Defense Position, you can't break it."

"Activate the Equip Spell 'Prevention Star'!" Yusei waved his hand, "This card can only be equipped to a monster I control, if it was changed from face-up Attack Position to face-up Defense Position this turn.

I equip 'Prevention Star' to 'Junk Gardna'!

After equipping, I can choose a monster on the opponent's field. That monster cannot attack or change its battle position! "

Yusei pointed directly at the Twin Burst Dragon on Kaiba's field, which was twisted into a defensive posture.

"Of course, I chose the 'Blue-Eyes Twin Burst Dragon'!"

The faint milky white energy covered the Twin Burst Dragon. The white dragon raised its head and roared unwillingly, but was still restrained and unable to move.

"So that's it. Through this series of effects, the power of Twin Burst Dragon is blocked?" Kaiba understood.

Blue-Eyes Twin Burst Dragon was undoubtedly Kaiba's killer move. It could not be destroyed by battle and had the ability to attack multiple times. It could directly crush monsters with less attack power than itself, and even if it faced a monster with higher attack power than itself, it could directly send the opponent to another dimension after fighting.

But after Yusei's operation, the power of Twin Burst Dragon was blocked by the "Prevention Star".

Kaiba narrowed his eyes and looked at Yusei.

Is this guy the type who is good at calculation and can use weak card combinations to achieve amazing results?

Interesting.

"Very creative idea, but if this is your method, it is far from enough!" Kaiba shouted, "My turn, draw!"

I activate the Spell Card 'Cards of Consonance' from my hand! Discard 1 Dragon Tuner with 1000 or less ATK; draw 2 cards!"

Yusei's eyes moved slightly.

As expected of President Kaiba Seto, he even have a support Spell Card for Tuner monsters?

In fact, six years ago, when a masked Yusei used "Synchro Summon" in the KC Cup, revealing the new possibilities of this Duel Monster, Kaiba has never given up the development of this field.

The increasing number of Tuner monsters and the appearance of related support cards are all based on this reason.

But no matter how hard Kaiba tried, tried various methods, and made all the preparations, there was no progress in the research on "Synchro Summon" over the years.

It could be said that in the field of "Synchro Summon", Kaiba Company had everything ready except the east wind. But the problem was that they had waited for six years, and the east wind had not come.

Kaiba thought that in this duel, the mysterious crab head that appeared in front of him using Synchro Summon might be the "east wind" they had been waiting for.

Kaiba drew two cards and shouted: "The effect of 'The White Stone of Legend' which is just sent to the graveyard is activated! When this card is discarded to the graveyard, add 1 'Blue-Eyes White Dragon' from the deck to my hand."

The third Blue Eyes was in hand, and Kaiba swung his arm.

"Whether the opponent is a Synchro Monster or something else, they will be defeated by the power of the White Dragon! Let me use the dragon's soul to guide the arrival of a new servant!"

I show the Blue-Eyes White Dragon in my hand and Special Summon this card...

Blue-Eyes Alternative White Dragon!!!"

Chapter 1027: Stardust

The ground was broken open, and blue beams burst out like spikes.

A white body rushed out from the countless flying fragments onto the field, and the white dragon seemed to shout thunder and lightning, and the light spread all over the earth.

[Blue-Eyes Alternative White Dragon, ATK 3000]

Yusei's face changed slightly: "Blue-Eyes White Dragon in different forms..."

"You block the attack of Blue-Eyes Twin Burst Dragon through the 'Prevention Star'," Kaiba said, "As long as the 'Prevention Star' is there, Twin Burst Dragon must remain in defense and cannot change its form.

Even if I summon a new monster to defeat the 'Junk Gardna' through battle and destroy the 'Prevention Star' equipped on him, Twin Burst Dragon can only switch to attack position after the battle phase ends.

In this way, you can survive this turn... Is that right?"

Yusei: "..."

In fact, there was more than that.

Kaiba didn't know that "Junk Gardna" also had the effect of forcibly turning a monster into Defense Position during the opponent's turn.

That was to say, even if Kaiba summoned a monster with high enough attack power to attack, it would be turned into defense by "Junk Gardna". He needed to summon two or more high-attack monsters to defeat "Junk Gardna".

"But my duel is one step ahead of yours!" Kaiba shouted, "Blue-Eyes Alternative White Dragon's effect is activated! Once per turn, destroy a monster on the opponent's field!

My white dragon can fight even without attacking, this is where you miscalculated!

Disappear, 'Junk Gardna'!"

The white storm gathered towards the open mouth of the white dragon, forming a gust of light bullets, dragging a string of clear white tracks to launch a fierce bombardment at the guardian on the wandering starfield!

The defensive warrior with solid armor had no resistance to this kind of bombardment. The armor plates of his arms were penetrated in just one blow, and he was also blown to pieces!

Yusei raised his arms to block the debris that came with the wind. After losing the only barrier, he actually... smiled?!

"I was waiting for this moment." Yusei smiled.

Kaiba: "?"

"Prevention Star's subsequent effect is activated!" Yusei waved his hand and said, "When the equipped monster is destroyed and this card is sent to the Graveyard, the opponent's monster that is blocked from attacking...

... is directly removed from the game!"

"What!?" Kaiba was stunned.

He hurriedly turned his head to look at the Twin Burst Dragon beside him, and sure enough, he saw the two-headed dragon roaring unwillingly, and gradually became transparent and illusory under the lingering milky white halo until it disappeared at the other end of the dimension.

Blue-Eyes Twin Burst Dragon, which had strong resistance to battle and the ability to clear the field, died indirectly at Kaiba's own hands.

"I see. The combination of 'Junk Gardna' and 'Prevention Star' seems to be a stopgap measure to block the attack and delay time... Is it actually deliberately luring me to attack and step into an invisible second trap?"

Kaiba narrowed his eyes and looked at the crab head carefully.

Is it a tactical idea to combine cards with average single strength to exert powerful power through mutual connection and cooperation?

This guy... is really not simple.

"Not only that!" Yusei continued, "Junk Gardna's follow-up effect! If this card is sent from the field to the Graveyard, I can select 1 monster on the field and change its battle position.

I change 'Blue-Eyes Alternative White Dragon' from attack to defense!"

[Blue-Eyes Alternative White Dragon, ATK 3000 → DEF 2500]

Kaiba narrowed his eyes.

Not only did I get rid of Blue-Eyes Twin Burst Dragon with my own hands, but I also triggered the countermeasure for the remaining Alternative White Dragon?!

Of course, Alternative White Dragon couldn't attack in the turn when its effect was activated, but Yusei didn't know it.

"Interesting, indeed interesting." Kaiba smiled, "A tactic that combines defense and counterattack, it's unordinary. Then my turn is over."

Kaiba's nameless premonition became stronger and stronger, as if it affected his duelist soul, making his fighting spirit as a card master burn.

He thought he might have found it.

In addition to Yusei and Yugi, there was another opponent who deserved his full effort and made him feel excited!

"It's my turn, draw!" Yusei waved his hand, "Spell Card 'Card of Adversity'! If I control no monsters and the opponent controls a Special Summoned monster: Draw 2 cards." (Animation card)

Yusei looked at the two cards he drew and showed one of them without thinking.

"I special summon 'Level Warrior'!"

The warrior in a red tight uniform jumped onto the field, with a wide cloak behind him, and golden five-pointed stars printed on his chest and helmet.

[Level Warrior, ATK 300]

"If the opponent controls a monster and I control no monsters, I can Special Summon this card from my hand." Yusei explained, "If it is Special Summoned this way, this card's level becomes 4!"

Yusei showed another card in his hand.

"Then I Normal Summon 'Hyper Synchron'!"

A mechanical warrior in heavy armor jumped onto the field, with high-speed air jets behind it.

[Hyper Synchron, ATK 1600]

"One Tuner monster and one non-tuner monster, the total level is eight..." Kaiba said lightly, "Level 8 Synchro Summon... are you finally ready to show your trump card?"

"I am not your enemy, President Kaiba. But to show my respect for you, I will go all out in this duel!"

Yusei waved his hand.

"Level 4 Tuner monster 'Hyper Synchron', Level 4 'Level Warrior', tuning!"

The steel body of the Hyper Synchron disintegrated and disappeared, turning into four shining stars, forming four halos around the Level Warrior. The Level Warrior also turned into four light spots connected to a line, and white light like a river flowed down along the halo.

"Clustering wishes will become a new shining star! Become the path that lights the way! Synchro Summon——

——Take flight, Stardust Dragon!!!"

The thin white bone wings cut through the light curtain, and the noble and holy white body rushed out like a sonic bullet, and the fluttering wings sprinkled crystal flashes all over the sky!

[Stardust Dragon, ATK 2500]

"Stardust Dragon."

Kaiba looked up at the silver dragon surrounded by starlight.

"Is this your trump card?"

At the same time, the space where the two people were also began to turbulent violently! The virtual ground and houses began to shake, cracks spread like spider webs, and the light blue data stream containing countless 0s and 1s passed by rapidly.

"Brother, it will be dangerous if we continue like this!" Mokuba could not help but warn again, "That thing called 'Synchro Summon' is attacking our system!

If this continues, Duel Link system may..."

"Issue an emergency maintenance notice and ask all duelists in Duel Link to go offline," Kaiba said coldly.

Mokuba was stunned.

"What about you, brother?"

"Me? I want to finish this duel." Kaiba looked at Stardust Dragon with a sharp look.

No one can stop this game!

Not even the end of the world!

"When 'Hyper Synchron' is used as a Synchro Material for the Synchro Summon of a Dragon-Type monster, the attack power of the summoned Synchro Monster increases by 800!" Yusei said.

[Stardust Dragon, ATK 2500 → ATK 3300]

"Go, Stardust Dragon!"

Yusei waved his arm and pointed at the white dragon entrenched in Kaiba's field.

"Attack the 'Blue-Eyes Alternative White Dragon'!

Shooting Sonic!!!"

Chapter 1028: Flawless White Dragon

Shooting Sonic!

A beam of energy surrounded by starlight poured out from the mouth of Stardust Dragon like a stardust road. With the enhancement of Hyper Synchron, Stardust Dragon gained an attack power that surpassed the Blue-Eyes vest. The impact of the stardust pierced through the body of the White Dragon without any explanation, and the latter screamed and disappeared.

Yusei swept his right hand.

"Set a card, I end my turn."

"Hmph, it doesn't hurt." Kaiba calmly took the impact, and then the tone suddenly increased, "My turn!"

He drew a card and played it backhand immediately.

"Activate the Spell Card 'Pot of Greed', and draw two more cards from the deck!"

Two new cards came into hand, but at the same moment, Yusei also waved his hand.

"Open the set card: Trap Card – Talisman of Reversal!" Yusei said, "When the opponent adds a card from the deck to the hand, except during their Draw Phase, I can draw cards until I have the same number of cards in my hand as the opponent!" (Animation card)

Yusei's hand number caught up in one breath, but Kaiba didn't seem to care and just snorted coldly.

"It doesn't matter, I'll finish you this turn!" He raised his voice and raised a hand card high, "Ritual Spell 'Chaos Form'!

Ritual Summon any 'Chaos' Ritual Monster by Tributing monsters from my hand or field, whose total Levels exactly equal the Level of that monster!"

A huge chaos vortex appeared behind him, like a bottomless abyss!

At the same time, a card popped out from Kaiba's Duel Disk's grave area.

"For the sacrifices required by 'Chaos Form', I can also banish 'Blue-Eyes White Dragon' from my GY.

So I banished the Level 8 'Blue-Eyes White Dragon' from the graveyard! Ritual Summon!

Receive baptism from the chaos when the world was first created, travel through time and space to become the latest appearance and descend!"

The roar of the dragon came from the other side of the dark abyss, and the dragon wearing blue armor spread its wings and rushed out, and the whole body of armor was covered with LED-like blue light!

"Show your appearance here——

——Blue-Eyes Chaos MAX Dragon!!!"

[Blue-Eyes Chaos MAX Dragon, ATK 4000]

The blue dragon descended, and its technological body glowed fluorescently. The moment its huge body descended, a blue storm rolled up!

Yusei gritted his teeth in the howling wind: "This dragon... has such a strong power..."

As a duelist, Yusei has seen many big scenes and encountered many powerful opponents. In his impression, only a very small number of top-level spirits, or even monsters that are crowned with the title of "God", could have such a level of oppression!

A strong burning and stinging feeling followed.

It was the touch of the arm being burned by flames, and at the same time, it seemed that countless hot needles pierced through the skin.

He was not unfamiliar with this feeling. He raised his arm and saw the red light path that came through his arm through the clothes, vividly connected to form the mark of the dragon.

That was the Dragon Birthmark, which represented the power of the god-level spirit "Crimson Dragon" that existed in ancient times.

Yusei showed a look of astonishment.

"The power of the Crimson Dragon? But haven't you already..."

Yusei looked at the blue dragon in front of him that seemed to shake the earth with some surprise.

"Is it the appearance of this dragon that has affected the power of the Crimson Dragon?"

Kaiba continued: "Activate the Quick-Play Spell 'Silver's Cry' from my hand! Target 1 Dragon Normal Monster in my GY; Special Summon that target."

A card immediately popped out from the Graveyard Area of his Duel Disk.

"I revive the 'Blue-Eyes White Dragon' in the graveyard!"

The black vortex opened, and the roar of the silver dragon spread across the sky. The white dragon spread its wings and rushed out of the underworld, and the transparent storm shook the space.

[Blue-Eyes White Dragon, ATK 3000]

"Then activate the Spell Card – Polymerization! Fuse the 'Blue-Eyes White Dragon' on the field with another 'Blue-Eyes White Dragon' in my hand!

The king of dragons that transcends time and space merges into one again here——

——Blue-Eyes Twin Burst Dragon!!!"

After another fusion, the two white dragons flew into the air along a straight beam of light and merged into one, transforming into a two-headed dragon again!

Blue-Eyes Twin Burst Dragon, Unit No.2!

[Blue-Eyes Twin Burst Dragon, ATK 3000]

"In just one turn, he has reached this point from an empty field..." Yusei muttered.

"Battle!" Kaiba waved his arm, "First, 'Blue-Eyes Chaos MAX Dragon', attack 'Stardust Dragon'!!!"

Chaos MAX Dragon raised its head, and its armor seemed to be overloaded to deliver energy to its mouth!

The Chaos Cannon rushed out in a spiral, and the energy stirred the space, plowing a deep crack in the ground through the air, and hit the thin body of the Stardust Dragon fiercely.

Stardust let out a painful wail!

[Yusei, LP 3300 → LP 2600]

But even so, it still persisted tenaciously!

"What?" Kaiba frowned.

"Another effect of Hyper Synchron!" Yusei shouted, "Monsters summoned using him as Synchro Material will not be destroyed in battle."

However, as a price, the monster must be removed from the game in the second Standby Phase after the turn it is Synchro Summoned."

"Hmph, you're trying to survive in this way?" Kaiba said, "Then attack with 'Blue-Eyes Twin Burst Dragon!'"

Yusei's eyelids twitched slightly: "Use a monster with lower attack power to actively attack?"

There must be something wrong when things are abnormal, there must be something fishy!

But at this time he had no choice: "Stardust Dragon, fight back! Shooting Sonic!"

Stardust Dragon's long neck swung violently, and a silver-white energy beam shot out with starlight. As expected, it broke through the Twin Burst Dragon's beam like a block of rotten wood and hit the two-headed dragon's body violently!

Kaiba calmly let the aftermath of the impact pass through him, and said lightly: "Blue-Eyes Twin Burst Dragon will not be destroyed by battle."

"But battle damage still needs to be calculated," Yusei said.

[Kaiba, LP 4000 → LP 3700]

Yusei frowned slightly.

Even if it won't be destroyed, what's the point of this attack?

"Blue-Eyes Twin Burst Dragon has another effect." Kaiba said, "Monsters that have been attacked by it but not destroyed by battle... are directly removed from the game!"

"What!?" Yusei's pupils shrank.

Kaiba raised his hand and pointed at the Stardust Dragon hanging in the air.

"Remove Stardust Dragon... from the game!"

The Twin Burst Dragon roared, and its two mouths opened at the same time. The strange and unique beam hit the body of the Stardust Dragon, and at the same time, a dark miniature black hole opened behind it.

The powerful impact pushed Stardust Dragon into the vortex without any explanation. Stardust Dragon hissed softly and disappeared in the vortex.

"Stardust..."

Yusei clenched his fists.

That was the might of Twin Burst Dragon. Monsters with attack power below it were directly wiped out, and monsters with attack power above it were removed from the game. This effect did neither target nor destroy, and could almost eliminate any monster in front of it.

Not only that, it also had the effect of multiple attacks.

"What a terrible monster," Yusei said in his heart.

"Set a card, I end my turn!"

Chapter 1029: A True Duelist Will Not Pull The Screw

Kaiba's offensive came to a temporary halt. He looked at Yusei expressionlessly, as if waiting and expecting the opponent to reveal the next counterattack strategy.

In fact, Yusei also had a slight advantage in the information gap just now – Kaiba didn't know that the Stardust Dragon summoned by Hyper Synchron could not be destroyed by battle.

Otherwise, he would definitely attack with the lower attack power "Blue-Eyes Twin Burst Dragon" first, remove the Stardust Dragon from the game through its effect, and then use "Blue-Eyes Chaos MAX Dragon" to attack directly to end the game.

In that case, Yusei should have lost the round just now.

Of course, even if he did this, Yusei still had a "Swift Scarecrow" in his hand. This card could be discarded from the hand when the opponent attacked directly to negate the attack and forcibly end the Battle Phase.

Although the result was still the same, at least Yusei saved a hand trap by relying on the information gap.

From the previous fight, Kaiba could clearly see that the "Stardust Dragon" should be Yusei's trump card, and it was likely to be a unique rare card in the deck. And the fact that Stardust was directly banished was undoubtedly very disadvantageous to Yusei.

But this only made Kaiba more looking forward to the opponent's next counterattack strategy.

There was no basis or reason, Kaiba just believes that this crab head could still think of a counterattack.

"My turn!"

The banishment of Stardust Dragon was indeed a huge blow to Yusei's deck, but even without Stardust, his deck should not be underestimated!

"Discard a monster card and Special Summon the second 'Quickdraw Synchron' from my hand!"

[Quickdraw Synchron, DEF 1400]

"Next is the effect of the 'Quillbolt Hedgehog' discarded to the Graveyard. When there is a Tuner Monster on my field, I can Special Summon it from the Graveyard!"

[Quillbolt Hedgehog, DEF 800]

"These two guys again." Kaiba said, "Are you planning to Synchro Summon again?"

Yusei showed another card in his hand: "When there is a Tuner Monster on the field, this card can be Special Summoned directly from the hand in Defense Position!

Show up, Boost Warrior!"

[Boost Warrior, DEF 200]

"Level 5 Tuner monster Quickdraw Synchron, Level 2 Quillbolt Hedgehog, Level 1 Boost Warrior, tuning!"

[5+2+1=8]

"Gathering fighting souls will awaken the raging wicked god! Become the path that lights the way! Synchro Summon——

——Level 8, Junk Destroyer!!!"

The fist that broke through the air flew out of the starlight, and the iron warrior with four arms and a shape similar to "Dragon Warrior" appeared from the synchro light curtain!

[Junk Destroyer, ATK 2600]

"Effect of Junk Destroyer!" Yusei waved his hand, "When this card is Synchro Summoned, I can select and destroy cards on the field, up to the number of non-Tuner monsters used as Synchro Material Monsters for this card!

In addition to the Tuner monster 'Quickdraw Synchron', two Synchro Material monsters were used during the synchro process, so at most two cards on the field can be destroyed!"

"I see, it is indeed a powerful counterattack." Kaiba shouted, "But 'Blue-Eyes Chaos MAX Dragon' cannot be the target of the card effect, nor can it be destroyed by the card effect!"

Yusei's pupils shrank slightly.

This dragon actually has such strong resistance...

But he did not hesitate: "Then, I will destroy the 'Blue-Eyes Twin Burst Dragon' and the set card on your back row!"

"Unfortunately, that doesn't work!" Kaiba raised his hand, "Open the set card: Continuous Trap – Fiendish Chain!"

The dark green chain of the devil flew out of the trap card, and the Iron Warrior was tied up tightly by the chain just after he appeared and had no time to show his skills!

"Monsters bound by Fiendish Chain cannot attack, and their effect is negated." Kaiba hugged his arms and laughed, "Nice try, but it seems to be over!"

You may be considered a leader among duelists, but unfortunately, you are facing the strongest duelist on the surface of the earth!"

The arrogant president seemed to have forgotten some people he couldn't beat.

"Seto Kaiba is really strong...even stronger than the rumors say." Yusei thought.

I can't win if I keep going like this.

As he was thinking, a tingling sensation suddenly triggered his nerves, causing Yusei to grit his teeth.

Looking at the birthmark on the back of his hand again, he was surprised to find that the mark of the Crimson Dragon had disappeared.

Then, even more burning pain came from his back – the mark of the Crimson Dragon actually appeared on his back, forming a ring shape, facing each other, like the Ouroboros that surrounds the world in mythology!

This kind of thing has happened in the past. It was a miracle caused by the Crimson Dragon bestowing power on the Signer it chose.

But generally, this power would only appear when facing a powerful boss or a game that would affect the fate of the world.

Yusei looked at the huge and majestic "Blue-Eyes Chaos MAX Dragon" in front of him, and suddenly understood something.

"Is that so? Crimson Dragon, do you want to fight too?"

After all, it was the legendary Blue-Eyes White Dragon, an ancient mythical beast with power comparable to that of a god.

"I understand."

Yusei closed his eyes lightly and took a deep breath.

"I activate the effect of the 'Level Eater' in the Graveyard!

I lower the level of the Level 8 'Junk Destroyer' by one star, and Special Summon the 'Level Eater'!"

[Level Eater, DEF 0]

"Then activate the Spell Card 'Sacred Sword of Seven Stars', banish the Level 7 'Junk Destroyer' on the field, and draw two cards!"

Kaiba noticed that at that moment, the top card of Yusei's deck shone with golden light.

President Kaiba was no ordinary person either, and he immediately sensed some powerful and restless external force.

"That is..."

Yusei pulled out the two cards with force, leaving golden lines in the air. The space he passed through began to distort slightly, and the data stream composed of 0s and 1s continued to fluctuate.

"Activate the Spell Card 'Pot of Acquisitiveness'!" Yusei said, "Target 3 banished monsters; shuffle all 3 into the Deck, then draw 1 card!"

I return the 'Necro Linker', 'Quillbolt Hedgehog', and 'Stardust Dragon' from the banished zone to the deck, and draw a card!"

Kaiba: "Did you recycle the ace monsters..."

"Then activate the effect of 'Junk Converter' in my hand!" Yusei continued, "Discard this card and 1 Tuner; add 1 'Synchron' monster from my Deck to my hand.

I send 'Junk Converter' and 'Drill Synchron' to the graveyard, and add 'Junk Synchron' from the deck to my hand!"

The two cards were sent to the graveyard, and the second "Junk Synchron", the core of his deck, was automatically ejected from the deck. Yusei drew it into his hand and took it without thinking.

"Normal Summon 'Junk Synchron'!"

[Junk Synchron, ATK 1300]

"Junk Synchron's effect! When this card is Normal Summoned, Special Summon 1 Level 2 or lower monster in my Graveyard in Defense Position!"

Yusei took the card that popped out of the Graveyard.

"I Special Summon the 'Junk Converter' that was just sent to the Graveyard!"

[Junk Converter, DEF 200]

"Level 3 Tuner 'Junk Synchron', Level 2 'Junk Converter', tuning!" Yusei waved his hand and ordered.

[3+2=5]

"Gathering starlights guide the charging warriors! Become the path that lights the way! Synchro Summon!

Level 5, Catapult Warrior!"

The one who appeared was a steel-armored soldier in white armor, looking like a mobile suit in the anime.

[Catapult Warrior, DEF 1500]

"At this moment, the effect of 'Junk Converter' in the graveyard is activated!" Yusei said, "When it is sent to the graveyard as a Synchro Material, 1 Tuner monster in my graveyard can be Special Summoned!

Resurrect again, Junk Synchron!"

[Junk Synchron, DEF 500]

"Then tune the Level 3 'Junk Synchro' and the Level 5 'Catapult Warrior' again!"

Kaiba raised his eyebrows.

Using the Level 5 Synchro Monster as a stepping stone, continuously summoning higher-level monsters?

He found that the crab head in front of him seemed to have mastered the new summoning method called "Synchro Summon" to perfection.

"Clustering wishes will become a new shining star! Become the path that lights the way!"

Yusei once again raised his trump card, and the starlight seemed to turn into a stardust road pouring down for thousands of miles.

"Synchro Summon! Take flight, Stardust Dragon!!!"

After another synchro, the Stardust Dragon made a gorgeous appearance in the storm surrounded by stars!

[Stardust Dragon, ATK 2500]

"After all the trouble, you finally summoned your trump card back?" Kaiba nodded slightly, "But this guy is no match for my 'Blue-Eyes' monsters."

"Activate Spell Card – Double Summon!" Yusei said, "In this turn, I can conduct the second Normal Summon.

So I will summon this card from my hand——

——Level 1, Tuner Monster, Majestic Dragon!!!"

It was clearly just an ordinary Level 1 monster, but the moment it was summoned, it caused a more violent reaction in the entire system. The entire Duel Links world seemed to be on the verge of overload!

"Level 1 'Majestic Dragon', Level 1 'Level Eater', Level 8 'Stardust Dragon', tuning!" Yusei shouted, "Gathering starlights will enlighten a new miracle! Become the path that lights the way!

Synchro Summon! Arrive in light——

——Majestic Star Dragon!"

Like starlight piercing through the night, the miraculous flash gave birth to the hope of salvation! Silver meteors swooped down, and the beautiful and powerful silver-white dragon descended into the world. The moment its wings spread, a transparent sound wave burst out!

[Majestic Star Dragon, ATK 3800]

Kaiba's face changed slightly: "This dragon..."

"Brother!"

Mokuba's call came again, and the tone was more urgent than before.

"The abnormal energy index has soared to the extreme, and the Duel Link system is about to collapse! It may be dangerous if it continues..."

In fact, Kaiba could see that the whole world is collapsing at a speed visible to the naked eye without any reminder. Endless data flew through the cracks, and the system may be forced to shut down at any moment.

Obviously, it was the thing called "Synchro Monster" that impacted the Duel Link system. This virtual world was not ready to welcome the appearance of such an existence.

And the appearance of "Majestic Star Dragon", the top existence among Synchro Monsters, further accelerated this process.

The data storm rose from the ground and smashed the ground into pieces. Countless fragments flew all over the sky. Kaiba ignored the terrifying storm around him and shouted at the top of his voice: "It's a good ace, but its attack power is only 3800. It can neither defeat my 'Blue-Eyes Twin Burst Dragon' who cannot be destroyed by battle, nor the 'Blue-Eyes Chaos MAX Dragon' who has stronger power!"

Yusei also shouted to cover the roaring storm: "'Majestic Star Dragon' effect is activated! Once per turn, target 1 face-up monster the opponent controls. The effect of that monster is negated until the end of the turn, and the Majestic Star Dragon gains the same effect!" (animation effect)

"There is such an effect?" Kaiba was slightly surprised, "But 'Blue-Eyes Chaos MAX Dragon' cannot be targeted by card effects..."

"I know! So I want to get the effect of 'Blue-Eyes Twin Burst Dragon'!" Yusei shouted, "Majestic Star Dragon! Sublimation Drain!!!"

His last word "drain" was swallowed up by a rolling thunder in the sky. Lightning struck from the sky, blasting the ground not far from their duel venue into pieces.

The Majestic Star Dragon spread its wings and took off into the air. The energy essence was sucked out of the two-headed Blue-Eyes body and poured into the Majestic Star Dragon's body bit by bit.

"In this way, the effect of 'Blue-Eyes Twin Burst Dragon' that makes it unable to be destroyed by battle is negated!" Yusei waved his arms, "Go, Majestic Star Dragon! Attack 'Blue-Eyes Twin Burst Dragon'!

Shooting Blaster Sonic!!!"

The Majestic Star Dragon rose vertically into the sky and swooped down from the sky, piercing the two-headed White Dragon head-on like a silver cannonball!

[Kaiba, LP 3700 → LP 2900]

The Twin Burst Dragon's body was pierced, and the Majestic Star Dragon came out of the hole, with the light behind him like a star-studded avenue. The White Dragon cried helplessly, and the majestic energy burst out from the hole in its body, violently impacting the space that was already almost unsustainable.

Cracks began to appear in the sky, as if the whole world was a huge piece of intact glass, and now it was about to shatter.

But the duel still continued!

"The effect obtained from 'Blue-Eyes Twin Burst Dragon' allows 'Majestic Star Dragon' to attack monsters twice per turn!" Yusei waved his hand, "Second burst of attacks!

Attack 'Blue-Eyes Chaos MAX Dragon!!!"

The Majestic Star Dragon that penetrated the two-headed white dragon turned in the air, like a raptor that re-locked its target, and rushed straight towards the remaining Blue-Eyes!

Instantly realizing the opponent's intention, Kaiba gritted his teeth: "You guy..."

"That's right, because it has obtained the effect of 'Blue-Eyes Twin Burst Dragon', 'Majestic Star Dragon' will not be destroyed in battle." Yusei shouted, "But the monster being attacked by it that has not been destroyed will be directly removed from the game!"

Even if they will not be the target of the effect and cannot be destroyed by the effect, the 'Blue-Eyes Chaos MAX Dragon' can be directly removed from the game!

Go, Majestic Star Dragon!

Shooting Blaster Sonic, second shot!!! "

Kaiba was not to be outdone: "Blue-Eyes Chaos MAX Dragon, fight back!"

Chaos MAX Dragon opened its mouth, the energy of its armor was transmitted, and the metal structure emitted a hum like an engine. Majestic Star Dragon dived at full speed, its body stretched into a meteor-like afterimage, and crashed head-on into the shattered deep blue light!

In an instant, the mountains collapsed and the earth cracked, and the sky and the earth were extinguished.

Duel Link System collapsed.

The duel ended.

Chapter 1030: Prefer Playing Cards

The GX Tournament of last semester just ended not long ago, and the new semester has just begun, yet the students of Duel Academy have ushered in a new round of Duel Conference.

This time, it was not as large as the GX Tournament, and there was no opportunity to play against professional players. This conference was mainly organized by Professor Cobra, and the main purpose was to promote students' progress through actual combat.

For Judai, he didn't care who the opponent was or how big he was, as long as he had cards to play.

What's more, there were champions from various branches to challenge!

On the first day of the opening, Judai had already fought with Jesse who used the Crystal Beast. Now he had made up his mind to fight with all the champions from various branches and have a good time!

However, after watching the game between him and Jesse, the other people seemed reluctant to fight with him. Judai has been rejected by everyone he has asked to fight these two days, and he didn't know why.

"It's so boring."

Judai sat by the swimming pool and yawned listlessly.

Even during the competition period, the regular courses of the academy could not be neglected. Otherwise, if they were put on hold every time there was a competition, then the classes for these two semesters would simply not be taken.

At this moment, Judai was taking a swimming class.

Swimming class was the favorite of most boys. Even the most homely boys who hate going out had a special liking for this course, even those who were extremely bad at swimming like Marufuji Sho, who took a whole year to barely learn it.

The reason was very simple, because there were many white and beautiful long legs in the swimming pool.

This was simply a rare benefit in campus life. Moreover, many boys were particularly envious of Judai and his class because the academy's school beauty Asuka Tenjouin had chosen the same swimming class as them.

They were now in their third year. It was said that in each semester of the first two years, whenever the course selection channel was opened, there would always be a large number of people who stayed up all night, staring with bloodshot eyes in front of the computer to grab classes, just to be able to choose the same swimming class as Asuka.

Judai always chose his classes randomly and even forgot to choose when the deadline was approaching. But the strange thing was that he and Asuka had the same swimming class every semester, and he didn't know why.

Well, in fact, it was not just a swimming class, they also chose the same class for many other classes. But Judai didn't think much about it, he just thought that they were so lucky to be together.

At this moment, Asuka was coming up from the pool after playing around, and the water was splashing down her snow-white and delicate skin, like a lotus emerging from the water.

His junior brother, Marufuji Sho, was almost staring straight, but Judai was still in a daze.

"Why isn't the get out of class over yet? I really want to duel."

Asuka walked straight over.

"Hey, Asuka, you changed into a new swimsuit." Marufuji Sho noticed it at first sight.

"Hmm." Asuka wiped her wet blonde hair with a towel, feeling a little embarrassed, "Isn't it a little too bold?"

"How could that be? I think it looks good." Maruto Sho nodded desperately.

"Really?" Asuka turned to Judai, "Judai, what do you think?"

Judai came back to his senses from his daze and glanced at her.

"Ah? Did you change to a new one? It feels similar to the previous one?"

Asuka: "..."

Yuei Vu was sitting in his room, checking Professor Cobra's resume and personal information on the computer.

Chika was sorting out the freshly washed clothes behind him. Seeing the photos and information on the screen, she couldn't help but come up curiously and rest her head on Yuei Vu's shoulder.

He didn't know whether it was an illusion or not, but Yuei Vu felt that Chika seemed to have grown taller in the academy during this period.

Her skin seems to be whiter, so white that it seems to be dazzling. The face may be well maintained, as delicate as if it has been carved, and the slender legs are evenly proportioned, with beautiful and smooth lines.

However, we usually shouldn't talk about chests in front of Chika.

"Why invite such a person to the academy?" she asked.

"This kind of person?" Yuei Vu asked curiously, "Professor Cobra is a very experienced duel teaching expert. What kind of person are you referring to?"

"It's the person who looks like a bad guy."

Yuei Vu laughed: "Aren't you judging people by appearance? Handsome people are not necessarily good people."

Chika blinked her big eyes twice: "But Yuei Vu, you are a good person."

Yuei Vu held his chin and thought briefly: "What you said makes sense."

Chika asked again: "So why do you want to check this person's information? Is there anything worth noting about him?"

"Not yet." Yuei Vu shook his head, "But I'm worried that he will have any ideas about Judai. You know, Judai is very famous now, even a little too famous."

Chika nodded to show her understanding.

Indeed, since the end of last semester, Judai's reputation has been very popular. For a teenager of his age, it may even be a bit too much.

So far, a large number of organizations have tried to contact him. Some of them were official and some were private. Almost any organization in the world was willing to recruit this student.

After all, things are different now.

When the Duel Academy was first established, there were still voices of opposition in society, believing that such a school that only cultivated certain game skills may be producing useless garbage for society.

But now such voices have completely disappeared.

Everyone clearly saw the prospects of "Duel Monsters" in this world, and knew that this card game would inevitably penetrate into any field and any aspect, becoming a core element to promote the progress of civilization.

So with Judai's brilliant achievements today and his super god-level duel talent, after he graduated, he could basically choose any group or organization in any field in the world, and no one would refuse such a talent.

But considering that Judai was still a student and a little stupid to handle such things, many contacts in this regard were temporarily blocked by Yuei Vu.

Therefore, Judai could continue to stay in the academy and live his daily life of playing cards without worries.

"Yuei Vu, you really care about his affairs," Chika whispered to herself.

"What?"

"Nothing."

In fact, Chika liked this about Yuei Vu.

Well, she liked every bit of Yuei Vu.

Yuei Vu was ruthless to outsiders. When facing enemies, he never hesitated to destroy his opponents with the most brutal means (pulling away the duel disk), but he also never hesitated to show his concern for the people around him.

For example, herself.

Thinking of this, Chika's face turned red.

Men are probably like this, sometimes hard, and sometimes soft.

This makes him more attractive.

Yuei Vu: "?"

What's wrong? I didn't say anything, why did you react again?

Very strange...
