

I Play Yu-Gi 1061

Chapter 1061: Overpowered Mecha

The ultimate combination from A to Z, the high-tech beast fell heavily to the ground, and its body smashed a heavy pit on the black rock ground of Supreme King's Castle.

The steel beast was heavily equipped, with weapons hanging all over its body. The black gun body flashed with white metallic luster, and the current jumped out from the connection ports of all components, showing the wild and violent beauty of sci-fi equipment.

[A-to-Z-Dragon Buster Cannon, ATK 4000]

It could be seen that President Kaiba really invested a lot in this combined mecha.

A heavy firepower machine made by technology actually had a powerful suppression force that was not inferior to various top monster spirits!

The moment this robot landed, Manjoume suddenly felt that the pressure in his heart dropped sharply. Even facing the aggressive Supreme King in front of him, he seemed not so timid.

Because this was the strongest trump card given to him by his teacher, and it was also the ultimate trump card in Manjoume's hand.

He had absolute confidence in this robot!

"I end my turn." Manjoume said.

Although he didn't know what effect the "Dragon Buster Cannon" Manjoume summoned with great effort would have, seeing Manjoume's confident look, Aster was relieved.

Manjoume didn't have a set card in the back row, and there was only this mecha on the field. Since he dared to entrust the victory to this monster, it must have a strong strength to match it.

On the other hand, the Supreme King only had the "Juragedo" used as a hand trap on the field, which obviously had no deterrent power. It should be quite difficult to counterattack from this situation.

But the Supreme King's face was still gloomy, and no emotional fluctuations could be seen.

"My turn, draw."

Like a cold card-flipping machine.

After just one glance, he showed a card in his hand: "Spell Card 'Miracle Fusion'! Fusion Summon 1 'Elemental HERO' Fusion Monster from my Extra Deck, by banishing Fusion Materials from my field or GY.

Banish the 'Elemental HERO Burstinatrix' and 'Elemental HERO Clayman' in the graveyard from the game.

Fusion Summon! Elemental HERO Gaia!"

Aster frowned: "Is it the fusion of Elemental HERO this time?"

When Gaia was successfully fusion summoned, he could halve the attack power of a monster on the opponent's field and add it to its own attack power.

In other words, his attack power could be regarded as infinitely high, and no matter how high the attack power of the opponent's monster was, it couldn't withstand a punch from Gaia. If it was summoned, the powerful Dragon Buster Cannon would undoubtedly be killed by the Elemental HERO of earth.

Aster looked at Manjoume with some worry, but fortunately the latter seemed to be confident.

"I expected this counterattack!" Manjoume shouted, "A-to-Z-Dragon Buster Cannon's effect is activated! During either player's turn, when the opponent activates a Spell/Trap Card, or monster effect: I can discard 1 card; negate the activation and destroy that card!"

Manjoume discarded a card in his hand into the graveyard.

"Unfortunately, the activation of Miracle Fusion is negated, and Gaia cannot appear!"

The gun on the shoulder of the Dragon Buster Cannon was activated, and the laser wrapped in electric current hit the Spell Card. The green card turned into golden powder and disappeared under the bombardment, and its fusion power was sealed.

The Supreme King watched his Spell Card dissipate expressionlessly.

"I see, a powerful force that can cancel any effect... it is indeed an excellent monster."

The Supreme King said: "Then use the 'Juragedo' as a sacrifice and perform a Tribute Summon!

Show yourself, my servant from one of the twelve dimensions, who controls the netherworld abyss...

Caius the Shadow Monarch!"

The Juragedo turned into powder of the sacrifice and dissipated, and cracks appeared in the space of the Supreme King's Castle. The dark emperor fell in the dark storm, with dark lightning spheres churning in his palms.

"Caius's effect – If this card is Tribute Summoned: Target 1 card on the field; banish that target."

The Supreme King pointed to the alloy behemoth with bared fangs and claws.

"Disappear, Dragon Buster Cannon."

"It's useless!" Manjoume picked up another card and threw it to the graveyard, "Discard a card, the effect of Dragon Buster Cannon is activated! Negate the effect of the Shadow Monarch and destroy him!"

Aster looked at the fully armed "Dragon Buster Cannon" beside him and couldn't help but be more stunned.

This thing not only has the top ability in the duel monster world "omninegate", but also has no limit of once per turn?

Where did Manjoume get such a monster-level mecha?

While secretly shocked, Aster couldn't help but feel fortunate that Manjoume, who first showed this mecha, was a teammate on his side.

Otherwise, if he encountered this thing for the first time, he might be killed.

This thing was really terrifying.

Although he had expected Manjoume to be a tough guy, he didn't expect him to be so strong.

The Dragon Buster Cannon fired again. The golden beam of fire completely neutralized the dark matter blasted out by Caius. The electric shock tore through the dark energy. The missile followed and the Shadow Monarch was blown to pieces.

As long as the effect of the Dragon Buster Cannon was still there, it is meaningless to do anything. Because the Dragon Buster Cannon's cancellation ability was the thing commonly known as "omnigate" among players, which could negate all spell, traps, and monster effects. It had been the top and most unsolvable effect in many generations of Yu-Gi-Oh environments until today.

Unless you eat it directly with the omnipotent Sea Turtle...

But it was also obvious that the Supreme King did not have a Sea Turtle in his hand. Otherwise, he would use it to eat Dragon Buster Cannon long ago.

Without the tricked method of Cost Release, there was only one conventional way to solve an omnigate monster, which was to use resources to trample all their negations.

Of course, for a BOSS like Supreme King, he had an ultimate mean of clearing the field, which could also be regarded as a tricked method.

Super Polymerization.

That was the ultimate fusion card obtained by the Judai after he was corrupted in the animation. It was the symbol of the power of Supreme King, and it could fuse everything in the world.

More importantly, Super Polymerization can not only capture the monsters on the opponent's field for fusion, but also has the abnormal resistance of "players cannot activate cards or effects in response to this card's activation".

What does this mean?

It meant that even if Manjoume holds six cards in his hand and had a "Dragon Buster Cannon" on the field, Supreme King still only needed to play a Super Polymerization to bull it over and fuse it into his new toy.

But Supreme King didn't do this here.

Maybe the ink of Super Polymerization was still not dry. After all, the birth of Super Polymerization in the original work also required a lot of sacrifices.

Or it was possible that he felt that this kind of opponent was not enough for him to use the ultimate killer move.

However, in this case, Manjoume had no cards in hand. Even if there was no limit of once per turn, the ability of the Dragon Buster Cannon could not be activated without a card to discard.

The Dragon Buster Cannon was a combination of ABC and XYZ. In principle, it was a six for one exchange to summon it. Summoning the Dragon Buster Cannon in one turn and still having two more cards in hand as cost, Manjoume's performance was already superb (of course, thanks to the two fake card-level hangars), but this was also his limit.

If the Supreme King had a new way to clear the field, he could no longer use the Dragon Buster Cannon.

The Supreme King drew another card: "Then activate the Spell Card 'Dark Core'. Discard 1 card, then target 1 face-up monster on the field; banish that target."

Aster's eyes moved.

Is it the Spell Card version of Karma Cut?

"It's bad." Aster frowned, "Manjoume has no cards in hand. If Dragon Buster Cannon is hit by Dark Core here..."

Manjoume also gritted his teeth: "Tsk, it's endless. Then the final ability of 'A-to-Z-Dragon Buster Cannon' is activated! Banish this card, then target 1 banished 'ABC-Dragon Buster' and 1 banished 'XYZ-Dragon Cannon' owned by me, Special Summon them!"

The mechanical joints operated and the mecha separated. The invincible annihilation cannon turned back into "XYZ-Dragon Cannon" and "ABC-Dragon Buster", falling back to Manjoume's field on the left and right.

Dark Core lost its target, exploded a burst of black electricity out of thin air, and dissipated from the field.

Aster breathed a sigh of relief.

Fortunately, it was a false alarm.

But at the same time, the terror of Manjoume's "A-to-Z-Dragon Buster Cannon" in his heart has increased.

Not only does it have an unlimited number of invalid effects for one round, but it also has the hidden ability to automatically cancel the combination?

And it can be used during the opponent's turn?

Doesn't this mean that even if the opponent has used all means and resources to finally exhaust all the negations of the Dragon Buster Cannon, it can still avoid the skill by canceling the combination itself?

And if the opponent fails to find a way to solve the "ABC-Dragon Buster" and "XYZ-Dragon Cannon" under the disadvantage of running out of resources, then the two will be reassembled and combined into the invincible "A-to-Z-Dragon Buster Cannon" again in the next turn.

Isn't this mecha too overpowered! ?

Chapter 1062: Unprecedented Evil

The Supreme King attacked again, using the Spell Card version of "Karma Cut". Relying on the extreme two-for-one method to forcibly clear the field, any monster on the field could be simply and roughly wiped out.

Of course, the powerful "A-to-Z-Dragon Buster Cannon" had the ability to negate this card, but this round, Manjoume had used the ability of A-to-Z to stop the appearance of Gaia, negate and blow up Caius.

But even in this situation of running out of ammunition and food, it actually avoided the Supreme King's attack again by disassembling itself!

And in this way, the Supreme King's hand also became 0.

Aster and Manjoume both breathed a sigh of relief.

Supreme King had zero cards in his hand, no monsters in the front field, and no cards in the backfield. The only thing in the graveyard that could be used to defend was the card that was just thrown down as the cost of "Dark Core".

Then in the next round, as long as "XYZ-Dragon Cannon" and "ABC-Dragon Buster" were combined again, and then A-to-Z directly attacked, it would be a sure victory!

It didn't matter even if the card just now was a grave trap. No matter what effect that card had, it could be countered with the omninegate effect of A-to-Z.

Nothing can stop the final blow given by A-to-Z.

We win!

Although they dared not relax completely, Aster and Manjoume couldn't help but feel a sense of relief in their hearts.

It's similar to the relief of surviving a disaster and the pride of defeating an "unbeatable opponent".

In this situation, can you still conjure up a new card out of thin air to kill us in seconds?

But the Supreme King still had no expression.

Two cards slowly withdrew from his graveyard.

"The effect of 'Fusion Substitute' in the graveyard." He said coldly, "Banish this card from my GY; return 1 Fusion Monster in my GY to the Extra Deck, then draw 1 card."

Aster x Manjoume: "!"

They finally remembered that when "Dark Gaia" was fusion summoned last turn, the Supreme King used "Fusion Substitute" instead of "Dark Fusion" because "Supreme King's Castle" was on the field.

The nerves of the two people who had just relaxed were suddenly tense again.

"I banish the 'Fusion Substitute' in the graveyard and return 'Evil HERO Dark Gaia' to the deck." Supreme King said calmly, "Draw a card."

Both of them held their breath.

Supreme King drew a card, glanced at it, and calmly showed it.

No preparation, no action like the protagonist playing "Destiny Draw" before charging and printing cards, just an ordinary draw, but it seemed destined.

"Spell Card 'A Hero Lives'." Supreme King showed the card he drew, "When there are no face-up monsters on my field, pay half my LP; Special Summon 1 Level 4 or lower 'Elemental HERO' monster from my deck."

[Supreme King, LP 1800 → LP 900]

"Come on, Elemental HERO Stratos."

At the last moment of victory or defeat, which was likely to be the last turn, the hero he chose to entrust everything to was Brother Sky Hero, who had been following Yuei Vu and had made outstanding achievements in battle over the years!

[Elemental HERO Stratos, ATK 1800]

"Stratos's effect." Supreme King said, "When this card is Normal or Special Summoned, add 1 'HERO' monster from my Deck to my hand."

Manjoume claimed to be the nemesis of Judai, Aster himself was a HERO deck user, so both of them were certainly familiar with the abilities of Stratos.

"A 'HERO' monster." Manjoume frowned, "What can a hero do in this situation?"

Aster, an expert in the HERO series, was also at a loss.

Is there a hero who can turn the tables with just one card?

"From the deck," Supreme King pulled out a card from the deck, "add 'Evil HERO Adusted Gold' to my hand."

Another Evil HERO?

This involved Aster's blind spot in knowledge.

Even if he claimed to know all the heroes in the world, this Evil HERO was obviously printed by Supreme King himself, and he had never seen it.

However, from the card image, Aster could vaguely recognize that it might be the corrupted version of the "Elemental HERO Captain Gold" he was familiar with.

"Then the effect of 'Evil HERO Adusted Gold' in the hand is activated. Discard this card; add 1 'Dark Fusion', or 1 card that mentions it, from my Deck to my hand."

Another card popped out of the deck and was slowly drawn into the hand by the Supreme King.

"I'll add the Spell Card 'Dark Calling' from the deck to the hand!"

Instantly, the dark air wave erupted with Supreme King as the center. The thick darkness enveloped him, and his image was even a little unclear. Only a pair of golden eyes were still clear and shining even under the black fog.

"Activate the Spell Card 'Dark Calling'." Supreme King said in a deep voice, "Fusion Summon 1 Fusion Monster from my Extra Deck that must be Special Summoned with 'Dark Fusion', by banishing the Fusion Materials mentioned on it from my hand and/or GY!"

"The Evil HERO version of 'Miracle Fusion'!?" The two understood instantly.

The Supreme King's Castle roared, and the manic torrent echoed between the rugged dark castle! Purple lightning struck from the sky, and the demon's soul was drawn out of the hellfire under the bridge, and the body was mixed with hellfire in mid-air!

That was the dark power that exceeded the limits of human duelists!

The fall of a righteous hero often bred a deeper darkness than ordinary people, and the most extreme evil was born from it!

"The fusion condition is 1 'Evil HERO' monster + 1 Level 5 or higher monster." Supreme King's cold voice sounded in the storm, "Banish 'Evil HERO Infernal Sniper' and 'Evil HERO Lightning Golem' from the graveyard! Dark Fusion Summon!

Awaken from the abyss of hell, bring destruction with hatred and despair...

Evil HERO Malicious Bane!"

The ultimate Evil HERO broke out from the depths of hell!

He was wearing dragon-like armor, with steel spikes all over his body. The wings were shaped like dragon wings, but also like a hideous demon. The cross-section mask covered most of his face, and his eyes were fanatical scarlet.

[Evil HERO Malicious Bane, ATK 3000]

Aster and Manjoume held their breath at the same time.

Although it was an Evil HERO that they had never seen before, at first glance, they knew that this was also an extraordinary spirit!

"Evil HERO Malicious Bane cannot be destroyed by battle or card effects." said the Supreme King.

"An indestructible monster?" Manjoume frowned.

"But even so, its attack power is only 3000." said Aster, "Even if it cannot be destroyed, its attack power is only equivalent to ABC."

"Evil HERO Malicious Bane's effect is activated." The Supreme King's golden eyes burned unprecedentedly, "Once per turn, destroy all monsters the opponent controls with ATK less than or equal to this card's ATK!"

Aster x Manjoume: "What!?"

Malicious Bane's attack power was 3000, which means that "ABC-Dragon Buster" with the same attack power of 3000 was also within his nuking range!

Manjoume gritted his teeth.

In fact, he still had a trick up his sleeve. ABC-Dragon Buster, like A-to-Z, had a powerful defensive effect that allowed it to cancel its own combination and dodge attacks and skills during the opponent's turn.

But facing this indiscriminate explosion, this ability was not very meaningful.

However, he still chose to activate this effect: "ABC-Dragon Buster's effect is activated! During the opponent's turn, Tribute this card, then target 3 of my banished LIGHT Machine Union monsters with different names; Special Summon them!

Come back! 'A-Assault Core!' 'B-Buster Drake!' 'C-Crush Wyvern!'"

[A-Assault Core, ATK 1900]

[B-Buster Drake, ATK 1500]

[C-Crush Wyvern, ATK 1200]

Of course, the three mechanical monsters were immediately overwhelmed by the power of the Evil HERO before they could gain a foothold.

The irresistible absolute power was simply the embodiment of the Supreme King's own darkness. Everything was submerged and shattered in front of the terrifying darkness, and even hope was taken away.

Of course, what Manjoume did was not completely meaningless.

If ABC disassembled itself, even if A, B, and C were also blown up, the three monsters would return to Manjoume's graveyard.

Unlike XYZ, ABC-Dragon Buster could be transformed and assembled even if the three fusion materials were in the graveyard. Next turn, as long as the three monsters A, B, and C in the graveyard were banished, they could be combined into a powerful Dragon Buster again!

Of course, the premise was that there was a next turn.

"Evil HERO Malicious Bane's subsequent effect!" said the Supreme King, "This card gains 200 ATK for each monster destroyed this way."

"What!?" The two were shocked at the same time.

In this way, when ABC disassembles and two more monsters are added to the field, it further increases the opponent's attack power?!

Of course, in fact, whether it disassembled or not, the outcome would not change.

At this point, this attack power increase was not important at all.

"There are four monsters destroyed by the Malicious Bane." The Supreme King said, "So his attack power increased by 800."

[Evil HERO Malicious Bane, ATK 3000 → ATK 3800]

"Battle!" The Supreme King said, "Malicious Bane, attack directly!"

At this moment, the effect of the Field Spell 'Supreme King's Castle' is activated. Send 1 'Evil HERO' monster from my Deck or Extra Deck to the GY; my monster gains ATK equal to the Level of the monster sent to the GY x 200, until the end of this turn!"

The Supreme King showed a card.

"I send the 'Evil HERO Dark Gaia' that just returned to the deck to the graveyard, and the attack power increases by 1600!"

[Evil HERO Malicious Bane, ATK 3800 → ATK 5400]

Attack power 5,400!

Boundless darkness strikes, that was a space where even light cannot escape! Despair enveloped the two brave young men, and the fear of death filled the entire space.

"Judai!!!" Aster finally shouted with all his strength, but he didn't know if his voice could penetrate this endless darkness.

[Aster x Manjoume, LP 4600 → LP 0]

They lost.

They tried their best, but still lost.

One game, one price. This was the iron rule of the Shadow Game, and the only fate that the loser would face was death.

Unless this rule itself was forcefully cracked with enough power.

For example...

"Obelisk!" A loud voice rang out from the outer edge of the darkness in the early morning, "God Hand Crusher!!!"

The darkness was torn apart, and the dazzling blue light broke through the layers of obstacles. Although it was weakened by the powerful darkness, it still stubbornly rushed into the inner part of this layer of darkness.

Obelisk the Tormentor, the God of Destruction, struck with all his strength, and faced the Malicious Bane controlled by the Supreme King head-on, only one meter in front of Aster and Manjoume!

The haze was dispelled.

The deadly cold was swept away.

Chapter 1063: Duel King VS Supreme King

God Hand Crusher!!!

The power of the God of Destruction tore through the Supreme King's dark space, and collided with the fatal blow of the Malicious Bane in mid-air!

The blow from the god of the Earth dimension collided head-on with the "Evil HERO Malicious Bane" that symbolized the strength of the king of twelve dimensions.

The dark wave and the blue light of destruction were like a tide, and the Supreme King's Castle was shaken in the violent roar, and the gravel fell like raindrops from the towering dark castle.

This punch came unexpectedly, and the Malicious Bane was also blasted out without any preparation and dissipated into a phantom beside the Supreme King. The Supreme King also slid back half a step under the impact, staring coldly in the direction where the uninvited guest broke in.

Obelisk's scarlet eyes glared at the king of the other world fiercely, and then turned into a light spot and dissipated.

Yuei Vu walked out slowly and stood in front of the two young duelists.

"Principal Yuei Vu!" Aster and Manjoume showed joy at the same time.

Just when they faced the overwhelming power of the Supreme King, they thought that throughout the world, there might be only a few people who could defeat such a strong man.

And even among the few super strong men in the world, one of them appeared in front of them!

Aster tried to stand up, but he was too exhausted in the duel just now. Before he could stand firmly, his eyes went black, his legs and feet softened, and he half-knelt on the ground.

He leaned on his knees and panted, "Yuei Vu-sensei, that's not Judai! That's someone else who calls himself the 'Supreme King'. Judai seems to be sealed in that body.

Only by defeating him can Judai be rescued!"

Yuei Vu nodded, indicating that he understood.

Then he glanced at the surrounding environment.

Logically, this should be the abandoned dormitory of the academy, but now they were still standing on the dark and cold rocks, with a black bridge in front of them and the Hellfire burning under the bridge.

The Supreme King stood alone at the other end of the bridge, with the dark castle behind him. Purple lightning pierced the dark clouds from time to time and passed through the top of the tower.

Logically, the Supreme King's Castle should have disappeared now as the duel was over.

Since it has not disappeared, does it mean that the Shadow Game is not over yet?

The Supreme King looked at him indifferently for a moment, and said slowly: "Duel King Yuei Vu, the strongest in this world. I knew that I would have a battle with you sooner or later."

"It seems that you have grown, Judai, and you don't even take the teacher seriously?"

"I'm not that guy." The Supreme King said lightly, "But I have everything he has. His experience, his memory, his tactics..."

"But not his emotions." Yuei Vu said.

"That's unnecessary." Supreme King said, "A true king doesn't need emotions or any ties, as long as he can win.

I will defeat you and all the strong men in this world – just like I have done in other worlds.

This world will also be incorporated into my territory and become my trophy!"

The sight in the golden pupil shot straight at Yuei Vu like a sharp sword, which was clearly filled with the encouragement of fighting.

This was something he didn't have when he faced Aster and Manjoume just now.

He was the Supreme King who ruled twelve dimensions in his previous life, but he also had the memory of Judai in this life. For Judai, Yuei Vu was the duelist he admired and respected the most in his life, and the ceiling-level strong man in his mind.

Perhaps this impression affected the Supreme King, causing the king of the other world to have the urge to fight against the strong man.

"Shadow Game, huh?" Yuei Vu said.

"One victory, one condition." Supreme King said, "Originally, the two people over there had already lost, but you broke into my territory with brute force and interfered with the outcome.

Then instead, you must continue to complete this ritual. If you lose, all three of you will bear the consequences."

"But if I win?"

"That proves that you are stronger than me, and it is only natural for me to die in your hands."

Supreme King spoke calmly as if he was telling a natural rule of the game in which his own life was not involved.

"Your students will naturally be returned."

"Okay."

Yuei Vu activated the duel disk, and the deck was quickly shuffled into the slot.

"Then I accept this duel."

"Duel!" x2

[Supreme King, LP 4000]

[Yuei Vu, LP 4000]

"I'll go first, draw!

Summon 'Magician's Rod!'"

The one that appears looked like a Dark Magician, except that the shadow under the robe was blue and transparent, and looked like an energy body constructed by magic.

[Magician's Rod, ATK 1600]

"When Magician's Rod is Normal Summoned: I can add 1 Spell/Trap that mentions 'Dark Magician' from my Deck to my hand."

Yuei Vu drew a card from the deck.

"Add the Continuous Spell 'Dark Magical Circle' to my hand."

Yuei Vu waved his hand, and the golden particles turned into a Spell Card in front of him.

"Activate the Continuous Spell 'Dark Magical Circle.'" Yuei Vu said, "When this card is activated: Look at the top 3 cards of my Deck, then I can reveal 1 of them that is 'Dark Magician' or a Spell/Trap that mentions 'Dark Magician', and add it to my hand, also place the remaining cards on top of my Deck in any order."

Yuei Vu drew a card and showed it briefly: "I add the Quick-Play Spell 'Illusion Magic' to my hand."

He then adjusted the order of the other two cards and put them back into the deck.

"Quick-Play Spell 'Illusion Magic' is activated!" Yuei Vu said, "Use the 'Magician's Rod' on the field as a sacrifice, and add up to two 'Dark Magicians' from the deck to my hand."

"Then Set a card, I end my turn."

Manjomu and Aster were a little surprised.

In this way, wouldn't Principal Yuei Vu have no monsters on the field?

Is it really okay to greet the opponent's turn with only one Set card?

"My turn, draw."

The Supreme King glanced at the card he drew and showed it directly without adding it to his hand.

"Spell Card 'Graceful Charity', draw three cards from the deck, then discard two cards."

After replacing two cards in hand, he directly played a monster card.

"Normal Summon 'Elemental HERO Bubbleman'."

[Elemental HERO Bubbleman, ATK 800]

"Bubbleman's effect," said the Supreme King, "When this card is Summoned, if I have no other cards on the field, draw two cards from the deck."

Then the Spell Card 'Dark Fusion' is activated! Darkly fuse 'Elemental HERO Avian' and 'Elemental HERO Burstinatrix' in my hand-

——Come, Evil HERO Inferno Wing!"

The fallen version of the hardworking couple merged into the fusion vortex, and two beams of light flew into the endless hellfire under the bridge. The storm of blazing flames rushed onto the bridge deck, slammed onto the ground, and turned into an Evil HERO with black wings and fell down.

[Evil HERO Inferno Wing, ATK 2100]

"Activate the Equip Spell 'Vicious Claw'." Supreme King said, "Equip it to 'Evil HERO Inferno Wing'. The equipped monster gains 300 ATK."

[Evil HERO Inferno Wing, ATK 2100 → ATK 2400]

"Battle!" Supreme King ignored Yuei Vu's back row, "Evil HERO Inferno Wing, attack directly!"

Chapter 1064: Dark Magic System

"Battle!" Supreme King waved his hand and said, "'Evil HERO Inferno Wing', attack directly!"

Inferno Wing flew up, wrapped in black flames, and flew toward Yuei Vu like a cannonball!

Yuei Vu snapped his fingers: "Open the set card: Trap Card – Magician Navigation!"

The trap flipped, and a huge magic array emerged from the trap card. The amazing power of black magic surged like a torrent as if guiding the arrival of something.

"'Magician Navigation' effect – Special Summon 1 'Dark Magician' from my hand." Yuei Vu said, "And then I can Special Summon 1 Level 7 or lower DARK Spellcaster monster from my Deck!"

Yuei Vu showed two cards in one breath.

"Come on, Dark Magician! Magician of Dark Illusion!"

Two shadows flew out from the magic circle, one on the left and one on the right, landing on both sides of the field, with their staffs crossed, standing in front of Yuei Vu like loyal guardians.

[Dark Magician, ATK 2500]

[Magician of Dark Illusion, DEF 2500]

“At this moment, the effect of the Continuous Spell ‘Dark Magical Circle’ is triggered!” Yuei Vu continued, “Once per turn, if ‘Dark Magician’ is Normal or Special Summoned to my field: I can target 1 card the opponent controls; banish it!

I remove ‘Evil HERO Inferno Wing’ from the game!”

“Very good!” Aster said, “Summoning the Dark Magician while giving an effective counterattack! The Evil HERO summoned by ‘Dark Fusion’ cannot be destroyed by effects, but if it is removed from the game...”

“By the effect of ‘Makyura the Destructor’ discarded to the graveyard at the beginning of this turn, I can activate a trap card from my hand.”

Makyura, who was very familiar to both of them, floated behind the Supreme King in the form of a phantom, looking at the entire field with cold eyes.

"Because of this effect, I activate the Trap Card ‘Shift’ from my hand." Supreme King said, "It can be activated when the opponent targets exactly 1 monster I control for an attack, or with a Spell/Trap effect.

Target another monster I control that would be an appropriate target; that attack/Spell/Trap now targets the new target."

He pointed to the Bubbleman on one side of the field.

"I change the target of ‘Dark Magical Circle’ to ‘Elemental HERO Bubbleman’."

The positions of the Evil HERO and Bubbleman were instantly swapped, and the Dark Magician waved his staff, and the magic power shot out from the magic array hit the Greed Hero head-on. The latter groaned and disappeared with a dimensional distortion.

Bubbleman: "..."

Yuei Vu looked at the phantom floating behind the Supreme King and couldn't help but smile slightly.

"Makyura the Destructor... When I told you to put this card into your deck, you resisted. You said that this kind of thing is an evil villain, and it is incompatible with the hero of justice."

Supreme King: "..."

After a short silence, he did not answer, and then continued: "‘Evil HERO Inferno Wing’, continue the attack."

The two onlookers were surprised.

"With the attack power of the Inferno Wing, it can defeat neither the Dark Magician nor the Magician of Dark Illusion. Does he still have to attack even so?"

Sure enough, the Dark Magician flicked his staff and pushed the oncoming Inferno Wing to the side, and then the magician took advantage of the situation and counterattacked with a magic blast, which blew the Inferno Wing back.

[Supreme King, LP 4000 → LP 3900]

After taking the insignificant 100 points of damage, the Supreme King said, "At this moment, the effect of the Equip Spell 'Vicious Claw' is activated.

If the equipped monster would be destroyed by battle, return this card to its owner's hand instead. Then, destroy 1 monster, except the one that battled the equipped monster, and inflict 600 damage to the opponent."

[Yuei Vu, LP 4000 → LP 3400]

The equipment card was ejected from the duel disk and was returned to his hand, and then he pointed at the magician on Yuei Vu's field.

"Destroy 'Magician of Dark Illusion'."

With a loud bang, the black-robed wizard groaned miserably and was blown to pieces on the spot.

"After that, Special Summon 1 'Evil Token' on the opponent's field."

[Evil Token, ATK 2500]

"The Battle Phase ends." Supreme King said, "The 'Vicious Claw' returned to the hand cannot be activated from the hand again during this turn.

Then I activate the Spell Card 'Tribute to The Doomed' from my hand! Discard 1 card, then target 1 monster on the field; destroy it.

I discard 'Vicious Claw' as a price and destroy 'Dark Magician' as well!"

White bandages flew out from behind the magician, catching him off guard. The latter groaned, and before he could fight back, he was wrapped like a mummy and exploded into pieces.

Supreme King showed his last card: "Spell Card 'Card of Sanctity'. Both parties draw cards from their decks until they have six cards in their hands."

"Another card I gave you." Yuei Vu shrugged, "It's touching that you still remember this teacher's teachings in your heart even after becoming like this."

"Set a card, I end my turn." Supreme King said.

"It's my turn, draw."

"First, I activate 'Sacred Sword of Seven Stars', remove the level 7 'Evil Token' on the field from the game, and draw two cards."

Yuei Vu then took out two cards.

"Discard a card, and special summon 'Apprentice Illusion Magician' from my hand."

The cute black-skinned girl with silver hair jumped onto the field, stepping on the purple magic circle and dancing with her small staff.

[Apprentice Illusion Magician, ATK 2000]

Yuei Vu said, "If this card is Normal or Special Summoned, add a 'Dark Magician' from my deck to my hand."

Yuei Vu immediately showed another card: "Equip Spell 'Wonder Wand'! Equip it to 'Apprentice Illusion Magician', and increase its ATK by 500."

[Apprentice Illusion Magician, ATK 2000 → ATK 2500]

"The follow-up effect of Wonder Wand!" Yuei Vu said, "Send this card and the equipped monster to the Graveyard, and draw two cards! Then I pay 1000 LP and activate the Spell Card 'Dark Magic Veil!'"

[Yuei Vu, LP 3400 → LP 2400]

"The effect of this card is to Special Summon 1 DARK Spellcaster-Type monster from my hand or Graveyard." Yuei Vu said, "Come on! Magician of Dark Illusion!"

The magic circle opened, and a storm of magic surged out. The great wizard was about to come in this storm!

"Very good!" said Aster, "The card name of 'Magician of Dark Illusion' becomes 'Dark Magician' while on the field. The moment of summoning will trigger the effect of 'Dark Magical Circle', which can remove a Supreme King's card from the game!

Not only that, while the effect of the 'Dark Magical Circle' is activated, the effect of the 'Magician of Dark Illusion' itself will also be triggered, and the Dark Magician can be resurrected from the graveyard.

Use the effect of 'Dark Magical Circle' to banish 'Evil HERO Inferno Wing', and then the output of Dark Magician and Magician of Dark Illusion will reach 4600 in total, which is enough to OTK!"

As for the set card in the backfield of the Supreme King, it didn't matter what it was.

Aster didn't forget that the trap card "Magician Navigation" that entered the graveyard last turn was still sleeping in Yuei Vu's graveyard.

When there was a Dark Magician on the field, by removing Magician Navigation from the game, no matter what the Set card was, it would be negated.

Just consuming one card, he could clear the opponent's field and jump out two magicians at once to complete an instant kill.

This was the true power of the "Dark Magician" who was only a Normie on the surface. It combined damage burst, interference, and suppression in one, and had the ability to make the opponent unable to move.

However...

"'Dark Magician' is the key to this whole system." Supreme King said coldly, "You will aim at the resurrection of the 'Dark Magician' and use it as an opportunity to launch a counterattack, this is already within my expectations.

Open the set card: Counter Trap – Hero's Rule 2!

Negate the activation of a Spell, Trap, or Effect Monster's effect that targets a card in the Graveyard, and destroy it!"

Chapter 1065: Awakening From The Abyss of Hell!

"Counter Trap – Hero's Rule 2." Supreme King said, "Negate the activation of a Spell, Trap, or Effect Monster's effect that targets a card in the Graveyard, and destroy it!"

The counter trap was activated, and the purple magic circle was instantly shattered like glass under the powerful force. The dark vortex swirled, and the magician in the underworld resumed his slumber.

"Did this guy see through Principal Yuei Vu's actions?" Manjoume frowned.

"He has the memory of Judai, and he knows Yuei Vu-sensei's deck and tactics very well." Aster said, "He is a very troublesome opponent."

The Dark Magician had not yet appeared, and Yuei Vu could not use the "Magician Navigation" in the graveyard to negate the opponent's trap effect, and even if the Dark Magician was present, it couldn't be done.

Magician Navigation was just a normal trap card with Spell Speed 2, and it could not chain to the effect of a counter trap card with Spell Speed 3.

Only a counter trap can counter a counter trap.

The resurrection of the Magician of Dark Illusion was interrupted, and the subsequent series of effects were naturally strangled.

But Yuei Vu quickly adjusted his strategy: "Then I Normal Summon 'Apple Magician Girl' in attack position."

The magical girl in a fiery red cool outfit came to the field, revealing her slender long legs and arms, and behind her were angel-like white wings.

[Apple Magician Girl, ATK 1200]

"Set two cards, I end my turn."

"This tiny Magician Girl looks like a small fish, but once attacked, she will immediately summon other magicians for a strong counterattack, right?"

The Supreme King glanced at her and said, "My turn, draw."

A new grid popped up on the side of the monster grid on his duel disk.

"Activate the Field Spell 'Supreme King's Castle!'"

A lightning bolt streaked across the sky and exploded right behind the Supreme King.

Of course, the field had already been dominated by Supreme King's Castle before the duel began. But the moment this field was activated, the dark aura on the Supreme King clearly surged again, bursting out in all directions.

"As long as this card exists in the field, Fusion Monsters that must be Special Summoned with 'Dark Fusion' can be Fusion Summoned by ordinary fusion effects."

The Supreme King said and drew another card.

"Spell Card 'Fusion Birth!'" he shouted, "Send the top 5 cards of my Deck to the Graveyard. Then, I can Fusion Summon 1 Fusion Monster from my Extra Deck if its Fusion Material Monsters were among the sent cards!" (Original card)

Yuei Vu almost vomited blood.

Good fellow, Jellyfish Head, what stuff did you secretly print while I was away?

I don't remember giving you this kind of fusion card.

"I send the top five cards of the deck to the graveyard," Supreme King flipped out five cards, briefly displayed them, and sent them to the graveyard one by one. "Among them, there are 'Elemental HERO Clayman' and 'Elemental HERO Sparkman'.

Therefore, I darkly fuse Clayman and Sparkman. Come on—

—Evil HERO Lightning Golem!!!"

The blue lightning passed by the side of the Supreme King's Castle like a meteor, exploding at the feet of the Supreme King with a deafening roar and dazzling brilliance.

The dark hero stood up, his eyes behind the eyepiece were cold and lightless.

[Evil HERO Lightning Golem, ATK 2400]

The effect of Lightning Golem was that it could directly blow up any monster once per turn, which was simple, rough, and direct. There was no cost of losing cards in hand and no restriction on the attack power being lower than his own. It was an enhanced version of Thunder Giant.

"Since the attack cannot directly pass through the 'Apple Magician Girl', it is natural to think of effect destruction." Yuei Vu said, "But unfortunately, this is useless.

Open the set card: Trap Card – Dark Renewal!

When the opponent Normal or Special Summons a monster: Target 1 of those monsters and 1 Spellcaster monster I control; send both monsters to the GY, then I can Special Summon 1 DARK Spellcaster monster from my Deck or GY!"

Yuei Vu waved his hand.

"Your Lightning Golem will become my sacrifice!

Use 'Evil HERO Lightning Golem' and 'Apple Magician Girl' as sacrifices, and revive here now—
——Dark Magician!"

The Lightning Golem, which had not yet gained a firm foothold, was immediately decomposed into a purple-black beam, and the Apple Magician Girl turned into a red beam, and both sank into the ground.

The dark vortex opened, the red coffin rose slowly, and a complicated magic circle opened on the ground, like some forbidden ritual.

The coffin board popped open with a "click" sound, and the black-robed wizard flew out lightly. The staff dragged a black magic arc in the air and flew back to the Dark Magician's hand.

[Dark Magician, ATK 2500]

"At this moment," Yuei Vu said, "the effect of the Continuous Spell 'Dark Magical Circle' is triggered!

Banish 'Evil HERO Inferno Wing'!"

The staff in the Dark Magician's hand spun, like a general commanding an army drawing a command sword. The golden ring of the magic array spun rapidly, and a white beam of light shot out from it, hitting the Inferno Wing head-on, and the latter immediately dissipated in the dimensional distortion.

"Very good." Aster said, "Not only did this trap destroy the two Evil HEROes at the same time, but it also summoned the Dark Magician in return."

"Principal Yuei Vu also knew that the other party was aware of the effects of his cards." Manjoume murmured, "So on the surface, he summoned the 'Apple Magician Girl' and used her counterattack effect for defense, but in fact she herself was just bait for a deeper trap?"

In this way, the situation on the field was reversed again, and the two powerful Evil HEROes of the Supreme King were solved one by one.

The field was empty, but the Supreme King seemed not to notice it, and only showed another card: "Then activate the Spell Card 'A Hero Lives' from my hand.

Pay half my LP; Special Summon 1 Level 4 or lower 'Elemental HERO' monster from my deck."

[Supreme King, LP 3900 → LP 1950]

"Pay half of your LP value in an instant!?" Manjoume frowned.

"But this is a card that is definitely worth the price." Aster said solemnly, "With this card as the starting point, it is entirely possible to instantly kill the opponent!"

"But have you forgotten that I have the 'Dark Magician' on my field now?" Yuei Vu smiled.

As he spoke, a black vortex opened in front of him. The torrent of magic power surged like a storm, and the trap cards flew out of the graveyard area.

"Activate the trap card 'Magician Navigation' from the graveyard!" Yuei Vu waved his hand and said, "When there is a 'Dark Magician' on my field, banish this card from my GY, then target 1 face-up Spell/Trap the opponent controls; negate its effects until the end of this turn!"

Yuei Vu pointed straight at the opposite side.

"Nullify the effect of 'A Hero Lives'!"

"Great!" Aster couldn't help but say, "This way he lost half of his life in vain, and the situation is getting more favorable for Mr. Yuei Vu."

However, the Supreme King remained unmoved and silently sent the invalidated Spell Card to the graveyard.

He then showed another card in his hand.

"Effect of 'Evil HERO Adjusted Gold'! Discard this card; add 1 'Dark Fusion', or 1 card that mentions it, from my Deck to my hand."

Both Manjoume and Aster's eyelids jumped at the same time.

"That card is..."

"I add the Spell Card 'Dark Calling' from the deck to my hand.

Then activate the Spell Card 'Dark Calling!' Fusion Summon 1 Fusion Monster from my Extra Deck that must be Special Summoned with 'Dark Fusion', by banishing the Fusion Materials mentioned on it from my hand and/or GY!

Banish 'Evil HERO Adusted Gold' and 'Evil HERO Lightning Golem' from the graveyard, and perform a Dark Fusion!

Awaken from the abyss of hell, bring destruction with hatred and despair——

——Evil HERO Malicious Bane!"

Chapter 1066: Evil HERO

The demon wrapped in heavy black armor descended, its tail sweeping slowly like a steel whip. His body was covered with shocking white sharp blades, which seemed to pierce the bones of the skin.

The arrival of this existence also seems to have significantly increased the Supreme King's own power. Dark miasma erupted with him as the center, and the overwhelming pressure was almost suffocating.

【Evil HERO Malicious Bane, ATK 3000】

The moment they saw this Evil HERO, Manjoume and Aster's nerves suddenly became tense.

That's the guy!

"Yuei Vu-sensei, be careful!" Aster reminded, "We were defeated by this monster just now. He has very terrifying abilities!"

Supreme King said in a deep voice: "Evil HERO Malicious Bane's effect is activated! Once per turn, destroy all monsters the opponent controls with ATK less than or equal to this card's ATK!"

Malicious Bane opened his palm, closed his fingers, and suddenly clenched his fist. The dark fluctuations were like sweeping across thousands of armies as if they were dragging everything in the world into the bottomless abyss of darkness.

"Open the set card: Trap Card – Black Illusion!" Yuei Vu flipped his set card, "Until the end of this turn, all DARK Spellcaster-Type monsters with 2000 or more ATK I currently control are unaffected by the opponent's card effects, but their effects are negated!"

The darkness that engulfed everything came from the Malicious Bane, but the Dark Magician flicked his wrist, and raised his staff, and the black magic circle immediately opened in front of him, forming a purple-black shield to block all the waves of darkness.

The effect of Malicious Bane failed, and the Supreme King immediately said: "Then activate the effect of 'Evil HERO Sinister Necrom' in the graveyard! Banish this card from my GY; Special Summon 1 'Evil HERO' monster from my hand or Deck, except 'Evil HERO Sinister Necrom'."

Supreme King took the card that popped up from the graveyard, then pulled out the card that popped up automatically from the deck, and shouted coldly: "Show up! Evil HERO Malicious Edge!"

The pillar of chaos burst out of the ground, and a dark hero wearing dark tight-fitting armor flew out. His body was covered with steel barbs, and the backs of his hands were equipped with parallel sharp blades.

【Evil HERO Malicious Edge, ATK 2600】

Manjoume and Aster both had slightly changed expressions.

“Two powerful Evil HEROes were summoned in one go...”

“Battle!” Supreme King said coldly, “First is the Malicious Edge. Attack the Dark Magician!”

The Malicious Edge flew into the air, and the sharp blades in his hands rained down from the sky. The Dark Magician's staff lay horizontally in front of him, and the complicated magic circle turned into a shield. Countless steel blades rubbed off the shield, causing bright sparks to bounce around.

【Yuei Vu, LP 2400 →LP 2300】

"Another effect of the 'Black Illusion'." Yuei Vu said, "During this turn, all DARK Spellcaster-Type monsters with 2000 or more ATK I currently control cannot be destroyed by battle."

Black Illusion, which could give the Dark Magician absolute resistance in one round that could neither be destroyed by combat nor suffer any effects, was the top defensive spell of dark magic.

The price was that the protected monster's effect would be negated. Of course, the noble Dark Magician couldn't care less about this so-called price.

“Then use the ‘Malicious Bane’ to attack the Dark Magician!”

Malicious Bane, the most powerful Evil HERO under the Supreme King, seemed to bring about strange phenomena in the world just the moment he took action. The darkness that engulfed the world hit the Dark Magician. The mage half-knelt on the ground, guarding the magic shield and struggling to resist, like a lonely boat in the storm.

"At this moment, the effect of the Field Spell ‘Supreme King's Castle!’" Supreme King said coldly, "Send the second ‘Evil HERO Sinister Necrom’ from the deck to the graveyard. Until the end of this turn, Malicious Bane's attack power increases by 1000."

【Evil HERO Malicious Bane, ATK 3000 → ATK 4000】

The Dark Magician struggled to withstand the damage, but some of the aftermath still swept through Yuei Vu. The pain caused him to bend his knees slightly and frown slightly.

【Yuei Vu, LP 2300 →LP 900】

“Set a card, I end my turn.” Supreme King said, “I said, even you are no match for me. I have conquered and merged countless worlds, and there will be no difference here.”

Yuei Vu ignored it: "My turn, draw!"

Evil HERO Malicious Bane was an Evil HERO who did not appear in the GX animation. It was a new hero that would strengthen the Supreme King's Evil HERO series in the real card environment many years later.

It was conceivable that if a big brother of this level appeared in the GX animation back then, he would undoubtedly be a magical weapon that could slay demons and gods. At the same time, it had the resistance of "cannot be destroyed in any way", has super high stats, and has the powerful effect that nuke the entire field every turn, almost equal to the Thousands-Of-Years Banned Card "Raigeki". He didn't even have limit of being unable to attack after clearing the field.

More importantly, his fusion condition was too easy to fulfill.

He appeared to be an extremely supermodel in every aspect.

Of course, it's not impossible for Yuei Vu to cope with it.

"First, I activate 'Graceful Charity', draw 3 cards, then discard 2 cards."

"Activate Spell Card – Polymerization." Yuei Vu waved his hand, "I fuse 'Elemental HERO Liquid Soldier' with 'Chocolate Magician Girl' in hand!

The fusion condition is 1 'Elemental HERO' monster + 1 WATER monster! Fusion Summon!

The sky and the earth are frozen! Emerging from the freezing abyss——

——Elemental HERO Absolute Zero! "

The liquid Elemental HERO and the water-attribute magical girl combined. Two streams of water submerged into the ground, and a large number of dazzling ice crystals burst out!

The hero in plain white armor flew out through the ice storm, his snow-white cloak fluttering, and his eyepieces shining like diamonds.

Elemental HERO Absolute Zero was summoned!

Looking at the fluttering snow-white cloak, the Supreme King's cold golden eyes briefly wavered slightly.

"You should remember this guy, right?"

Yuei Vu did not rush to operate but stopped briefly.

"When you were still a kid, you have been pestering me for a long time, wanting this hero. You said he was handsome and strong, and that's what you wanted to be like."

Yuei Vu looked directly into the king's eyes without fear, as if trying to find a familiar shadow through the empty golden eyes.

"Hero can't be defeated so easily, Judai."

The Supreme King's poker face, as cold as a card-playing machine, showed some signs of loosening.

His cold voice also sounded a little impatient.

"It's useless." He said, "The only way to get that guy to wake up is to knock me down. There is no other way."

"As you wish." Yuei Vu said, "I summoned 'Elemental HERO Absolute Zero' in defense position."

【Elemental HERO Absolute Zero, DEF 2000】

“Liquid Soldier’s effect – If this card is used as Fusion Material for a ‘HERO’ monster, and sent to the GY or banished: I can draw 2 cards, then discard 1 card.”

After drawing two cards, Yuei Vu quickly took out a card from his hand and sent it to the grave.

"The card I just sent to the graveyard is the Spell Card ‘Card of Compensation’." Yuei Vu said, "According to its effect, draw two more cards."

He then waved his hand.

“Set two cards, and change the ‘Dark Magician’ to defense position. I end my turn.”

Chapter 1067: Immortal Fiend

Looking at the Elemental HERO and the Dark Magician who switched to defense on the field, the Supreme King said coldly: "It sounds nice, but in the end, you can only adopt a tepid defensive tactic.

It's my turn, draw."

He directly showed the card he drew.

"Spell Card ‘Legacy of a HERO’, when there are 2 or more Level 4 or higher ‘HERO’ monsters in my graveyard, draw three cards."

He added the drawn card to his hand, and then waved his arm directly.

"Then the effect of ‘Evil HERO Malicious Bane’ is activated." Supreme King shouted, "Once per turn, destroy all monsters the opponent controls with ATK less than or equal to this card's ATK."

"Don't be so anxious." Yuei Vu said, "My trap has been activated the moment the Main Phase begins!

Continuous Trap – Sea Stealth Attack! Activate the Field Spell ‘Umi’ from the graveyard!"

The endless ocean surged from the deep darkness, and the flames under the Supreme King's Castle were extinguished with a hissing sound. The boundless ocean swept across the entire castle, and the Supreme King's Castle fell apart and collapsed in the torrent.

"Sea Stealth Attack..." Supreme King's eyes flickered slightly.

"Remember?" Yuei Vu smiled, "When I taught you the combo of this card and ‘Absolute Zero’, you were amazed that there was such a powerful combination in the world, which was tailor-made for Absolute Zero."

Supreme King: "..."

"Sea Stealth Attack's effect is activated!" Yuei Vu said, "When ‘Umi’ is on the field, once per turn, I can banish 1 WATER monster I control until the End Phase. This turn, face-up Spells/Traps I control cannot be destroyed by the opponent's card effects.

I remove the ‘Elemental HERO Absolute Zero’ from the game!"

The waves swept, and the undulating waves swallowed up Absolute Zero's body. The dissipated hero turned into a transparent blue water cover, protecting both the Field Spell and the Continuous Trap under it.

"At this moment, the effect of Absolute Zero is activated!" Yuei Vu continued, "When 'Elemental HERO Absolute Zero' leaves the field, all monsters on the opponent's field are destroyed!"

An endless wave of ice erupted, and the cold current surged toward the Supreme King's field. The poor Malicious Edge was instantly frozen and shattered, but the Malicious Bane just waved his arm and broke the cold current attacking him into pieces.

"Evil HERO Malicious Bane cannot be destroyed by battle or card effects." Supreme King said coldly, "Next is the effect of Malicious Bane!"

The Evil HERO roared with uncontrollable fury, and the darkness counterattacked with a momentum ten times greater than the previous cold wave!

At this time, only the Dark Magician was left on Yuei Vu's field, and the latter was naturally inevitably destroyed in the torrent of darkness.

"The ATK of 'Malicious Bane' increases by the number of monsters destroyed x 200."

[Evil HERO Malicious Bane, ATK 3000 → ATK 3200]

"Next is the effect of 'Evil HERO Sinister Necrom' that was sent to the Graveyard by 'Supreme King's Castle' last turn." Supreme King drew the card that was sleeping in the Graveyard, "Banish this card from my GY; Special Summon 1 'Evil HERO' monster from my hand or Deck, except 'Evil HERO Sinister Necrom'.

Come on! Evil HERO Infernal Gainer!"

With a burst of electric current, Infernal Gainer seemed to jump out of the void and came to the field with his arms folded indifferently.

[Evil HERO Infernal Gainer, ATK 1600]

"Battle!" Supreme King said, "Evil HERO Malicious Bane, attack directly!"

Malicious Bane began to charge, and darkness from all directions gathered towards his raised arm, wrapping around the sharp blade on his wrist.

Of course, Yuei Vu's current HP was not enough to withstand another attack from the Malicious Bane.

"Open the set card!" Yuei Vu said, "Trap Card 'Magician Navigation!'!"

The Supreme King frowned slightly: "This card again..."

"Special Summon 1 'Dark Magician' from my hand." Yuei Vu said, "And from my deck, Special Summon 1 Level 7 or lower DARK Spellcaster monster."

Yuei Vu took two cards in one breath.

"Come on, Dark Magician! Dark Magician Girl!"

Both magic circles opened, and the master and apprentice duo leaped out one after the other!

[Dark Magician, DEF 2100]

[Dark Magician Girl, DEF 1700]

When the Dark Magician Girl appeared, she was excited and nervous, and her little hand holding the staff was shaking slightly.

The magical girl hadn't appeared for a long time, but today, in such an important duel, she appeared on the stage again!

Of course, she also understood the situation and knew that Yuei Vu's little jellyfish-headed student was sealed in the body of the opponent in front of him.

This is a duel that must be won!

"You should also understand what is going to happen next?" Yuei Vu smiled.

"The effect of Dark Magical Circle." Supreme King frowned.

The moment the Dark Magician was summoned, the Continuous Spell "Dark Magical Circle" would be triggered again, and the Supreme King's trump card "Evil HERO Malicious Bane" would be removed from the game.

Malicious Bane had absolute resistance to destruction, but it had no resistance to the strange black magic that directly banished it.

"Open the set card." Supreme King flipped the card in his back row, "Continuous Trap 'Safe Zone'. Target 1 face-up Attack Position monster on the field; that face-up monster cannot be destroyed by battle or the opponent's card effects, and the opponent cannot target it with card effects.

I use this effect to protect 'Evil HERO Malicious Bane'."

Malicious Bane had indestructibility, and this layer of trap further added resistance to targeting effects. In this way, even the Dark Magical Circle couldn't do anything against him.

"Then the moment the 'Dark Magician' is summoned, the effect of the 'Dark Magical Circle' is activated." Yuei Vu said, "Remove a card from the opponent's field from the game.

I remove the Continuous Trap 'Safe Zone' from the game!"

The trap had just been equipped on the Malicious Bane, and before it could even warm up, it was hit by the black magic released by the magic array and disappeared directly with dimensional distortion.

"When the 'Safe Zone' leaves the field, the equipped monster must be destroyed." Supreme King said lightly, "But Malicious Bane cannot be destroyed by card effects, so the destruction is invalid.

So the battle continues. 'Evil HERO Malicious Bane', attack the Dark Magician!"

The offensive of the Malicious Bane continued. His huge fist wrapped in gloomy darkness slammed into the Dark Magician, and the defensive magic array shattered like glass, and the Dark Magician was also blasted back, and was annihilated in the black fog halfway.

"Next is the effect of 'Evil HERO Infernal Gainer'." The Supreme King said, "Banish this card from the field, then target 1 Fiend monster I control; that target can make a second attack during each Battle Phase as long as it is face-up on the field.

Go, Malicious Bane, second shot!"

The Dark Magician Girl blinked her big eyes pitifully.

Eh? I rarely appear, yet the opponent just swipes my cute face and I'm gone?

Yuei Vu: Actually, I just used up all the Magician of Dark Illusions in the deck, so I pulled you out to make up the numbers.

“Set three cards, I end my turn.”

“At the End Phase, the effect of ‘Sea Stealth Attack’ will end.” Yuei Vu said, “Elemental HERO Absolute Zero’ returns to the field!”

[Elemental HERO Absolute Zero, ATK 2500]

“It doesn’t matter.” Supreme King said indifferently, “With the ability of that hero, no matter how many times he comes, he is no match for ‘Malicious Bane!’”

Chapter 1068: Dark Magical Circle and Sea Stealth Attack

Yuei Vu knew that the Supreme King was not bluffing. As the eldest brother of the Elemental HEROes, Absolute Zero's strongest point was his "Total Monster Destruction" ability.

But unfortunately, Malicious Bane had absolute resistance to destruction. No matter how many times Brother Absolute Zero jumped back and forth, it was impossible to deal with it.

"...Then it's my turn, draw."

"At this moment." The moment the words on the electronic display of the Duel Disk switched to "Standby Phase", Supreme King raised his hand to interrupt, "The effect of ‘D.D. Crow’ in the hand is activated.

Discard ‘D.D. Crow’ from the hand and a card in the opponent's graveyard is removed from the game.

And this effect can also be activated during the opponent's turn."

The card was pushed into the graveyard, and the black crow had already flown out. It flapped its wings and rushed into the dark vortex opened on the ground. When it flew out, its sharp beak had already caught a red trap card.

"The trap card ‘Magician Navigation’." Supreme King said dryly, "When this card is in the graveyard, it can negate the effects of any Spell/Trap, right?"

It is indeed a very powerful interference effect, so just in case, let me remove it in advance."

"Another card I gave you." Yuei Vu shrugged.

He really felt that Judai, a good sunny boy, was led astray by him, so that even after he awakened, Supreme King's style continued to go astray, and he stuffed so many painful hand traps that only a real card guy would stuff.

But it also proved from the side that his teaching was indeed successful.

Thinking back to the original work, when Supreme King woke up, he basically replaced Judai's entire deck. Things like Neos or Neo-Spacians were all kicked out and not used, and all the related Spells and Traps were replaced with Supreme King's special edition.

Some Normie Elemental HEROes were still used, but that's because they were Fusion Material for the big monsters which have also been replaced by "Evil HEROes". It was basically a completely new deck that was completely unrelated to the past Judai.

But now Yuei Vu deeply suspected that when the soul of the Supreme King awakened, he took over Judai's deck and saw so many various hand traps, grave traps, and nether red traps represented by "Karma Cut". This king of the other world may have pondered for a long time and finally concluded that the nether cards were really good.

"You actually solved my Magician Navigation in advance. You have really grown a lot, Judai." Yuei Vu looked at his cold golden pupils.

The Supreme King still had a dead face, and it seemed that nothing could touch him except winning or losing.

"But I also said, don't underestimate your teacher."

Yuei Vu's eyes turned cold, and his sight seemed to spark with the invisible blade shot out from the golden pupils of the Supreme King.

"Spell Card 'Akashic Record'! Draw two cards from the deck, and if there is a card that has been played in this duel so far, it must be removed from the game." (Animation card)

"Then activate the Spell Card 'Monster Reborn' from my hand." Yuei Vu said, "Special Summon 1 monster in any graveyard. I want to revive this card..."

Yuei Vu took a card from his graveyard.

"Resurrect the 'Magician of Dark Illusion' in the graveyard."

The magic circle spun open, and the black-robed wizard flew out, flipped gorgeously, and landed lightly. His face was pitch black under the robe, and his eyes hidden in the darkness flashed like ghost fire.

[Magician of Dark Illusion, ATK 2100]

Supreme King remembered something: "That magician..."

"That's right," Yuei Vu said, "Magician of Dark Illusion can be treated as a 'Dark Magician' when it is on the field."

Then at this moment, the effect of 'Dark Magical Circle' is triggered again! When a Dark Magician is Normal or Special Summoned successfully, banish a card on the opponent's field."

Yuei Vu raised his hand: "Remove 'Evil HERO Malicious Bane' from the game!"

The magic circle was activated again. This was the top clearing spell of the Dark Magic series. If combined with the Dark Magician, it had the powerful power to exile cards in both your turn and the opponent's turn. As a Continuous Spell, it could be used every turn.

"Is that the idea?" Supreme King was calm, "But it's useless. Open the set card: Trap Card – Dust Tornado! Destroy 1 Spell/Trap the opponent controls."

Destroy 'Dark Magical Circle'!"

The storm carried the fallen leaves, and the airflow was like a whip that pulled the Continuous Spell away in the air.

Although the magic array was a powerful top-level spell of dark magic, its characteristic as a Continuous Spell was also its weakness. Once the Continuous Spell was destroyed, the effect could no longer be resolved, and the process of banishing the card would naturally not continue.

But Yuei Vu had a countermeasure: "Then at this moment, I will banish 'Elemental HERO Absolute Zero' to activate the effect of 'Sea Stealth Attack'!"

Until the end of this turn, face-up Spells/Traps I control cannot be destroyed by the opponent's card effects!"

As soon as the voice fell, the trap was triggered. Absolute Zero once again disappeared in the vortex of water, turning into a light blue protective layer that covered all the spells and traps that were opened on Yuei Vu's field.

Of course, this also included the "Dark Magical Circle".

"Use the cooperation of Sea Stealth Attack and Absolute Zero to cover the operation of Dark Magical Circle!" Aster said excitedly.

Mankoume also saw the power of it: "As the strongest spell of the Dark Magic series, Dark Magical Circle's biggest weakness that it is easily stopped by various typhoons.

But the 'Sea Stealth Attack' tactic centered on the 'Absolute Zero' not only has unlimited destructive power but also can provide protection for the backcourt."

"In other words, with this lineup, Mr. Yuei Vu can use the power of 'Absolute Zero' to sweep the entire field every turn, whether it is the opponent's turn or his own turn, and can constantly remove any card from the game through the effect of the 'Dark Magical Circle'.

Not only that, it can even protect the Dark Magical Circle and Sea Stealth Attack itself from being destroyed at the same time."

Aster clenched his fists.

It is simply an invincible lineup!

"As expected, I was waiting for this effect."

The Supreme King said calmly, and another backcourt turned over in this lightning moment.

"Quick-Play Spell 'Malice Dispersion!'" The Supreme King sent a card to the graveyard and said coldly, "Discard 1 card; destroy all face-up Continuous Traps on the field!"

"Oh?" Yuei Vu raised his eyebrows.

The two onlookers also understood instantly.

"Is he waiting for Principal Yuei Vu to use the effect of 'Sea Stealth Attack' on purpose?"

The order of processing the effects of Yu-Gi-Oh cards was always "the effect that is activated last resolve first". Therefore, if the Supreme King directly played the "Malice Dispersion" in his hand, Yuei Vu would chain that effect with the effect of "Sea Stealth Attack" to protect himself.

But if other means were used to make Yuei Vu use "Sea Stealth Attack" first, and then the Supreme King chained to this effect with "Malice Dispersion", then "Sea Stealth Attack" would be destroyed before it could take effect.

Not only that, as a Continuous Trap, "Sea Stealth Attack" had the same weakness as the Continuous Spell "Dark Magical Circle". If it was removed from the field after effect activation but before resolution, the activated effect would resolve without effect.

In other words, the protection of "Sea Stealth Attack" on "Dark Magic Array" would also be invalid.

The lineup was broken.

The Spell and the Trap were both hit, and were lifted into the air from Yuei Vu's field and shattered into golden powder.

"And the card I just discarded is 'Card of Compensation'." Supreme King said indifferently, "When this card is sent from my hand to the Graveyard, draw two cards."

"Even this lineup was broken." Aster was a little frustrated.

This made him seem to recall the deep feeling of powerlessness when he faced Supreme King in person just now, as if he was looking up at a mountain.

But Yuei Vu seemed very calm.

"So there is a typhoon in the backfield? But this means you only have one card left in your backfield." Yuei Vu said, "That card shouldn't be a typhoon, right?"

Supreme King: "..."

Aster's mind moved.

Could it be that even the iron wall formation just now was just a feint by Yuei Vu-sensei?

"Activate the Continuous Spell 'Card of Safe Return' from my hand!"

Another green card appeared in front of Yuei Vu.

"When a monster in the graveyard is revived on the field, draw three cards from the deck."

There was no movement in the backfield of Supreme King.

It seemed that the remaining card was not a typhoon.

"And at this moment, the effect of 'Magician of Dark Illusion' on the field is activated!" Yuei Vu said, "While Magician of Dark Illusion is face-up on the field, if I activate a Spell/Trap Card or effect, I can revive 1 'Dark Magician' in the graveyard.

Come back to the field again, Dark Magician!"

Chapter 1069: Breeding Machine

Dark Magician was resurrected!

[Dark Magician, ATK 2500]

"At this moment," Yuei Vu said, "the effect of the Continuous Spell 'Card of Safe Return' is activated. I draw three cards!"

The Supreme King's eyes flickered slightly.

Is that the combination of Dark Magical Circle and Sea Stealth Attack just to clear the obstacles for the real killer move?

Indeed, if Yuei Vu played "Card of Safe Return" at the beginning, then there was a high probability that the Supreme King might choose to give priority to blowing away this unreasonable and violent card-earning artifact. Compared with this thing, both the Dark Magical Circle and Sea Stealth Attack seemed insignificant.

"Then activate the Spell Card 'Bond Between Teacher and Student' from my hand." A Spell Card appeared in front of Yuei Vu again, "When there is a 'Dark Magician' on my field, special summon 'Dark Magician Girl' from my hand, deck, or graveyard."

Yuei Vu took out a card that popped out from the graveyard area.

"Resurrect, Dark Magician Girl!"

The pink magic circle spun open, and the lively and lovely girl flew out with graceful steps like a dance, her blonde hair undulating like waves.

[Dark Magician Girl, ATK 2000]

It's my second appearance!

The girl made up her mind. She was careless just now, and she was killed before she could even stand firm.

This time she must perform well!

"The subsequent effect of 'Bond Between Teacher and Student'," Yuei Vu continued, "When I summoned the Dark Magician Girl through this effect, I took this card from the deck..."

Yuei Vu pulled out a card from the deck, and waved his arm, and the surging black magic power turned into a covering card at his feet.

"Set the Spell Card 'Dark Magic Attack' on my field."

"'Dark Magic Attack' is a powerful spell that only the Dark Magician can control. It can destroy all spells and traps on the opponent's field."

The Supreme King glanced indifferently at his last set card.

"Are you targeting my backfield? But it's not that easy." The Supreme King clenched his right fist, and the armor made a crisp sound of metal friction, "Open the set card: Trap Card – Torrential Tribute!"

When a monster is summoned, all monsters on both sides' fields are destroyed!"

The endless blue light was released from the flipped trap card, and the torrent transformed by the energy was like a beast breaking through a cage! The sharp claws of the water tore the bodies of the magicians without any explanation, and three magicians were swallowed up in the surging waves one after another.

Dark Magician Girl: Even exited faster than last time QAQ

Of course, the wave also swept through the Supreme King's own "Malicious Bane" indiscriminately, but the Malicious Bane could not be destroyed, so the torrent was of course ineffective against him.

"Yuei Vu-sensei's lineup was cracked again." Aster said impatiently, "What a tough opponent."

"However, because the 'Dark Magician Girl' was successfully Special Summoned from the Graveyard, the effect of 'Card of Safe Return' was activated again." Yuei Vu said, "I draw three cards from the deck."

He then showed another card: "Quick-Play Spell 'Hand Destruction'. Each player sends 2 cards from their hand to the GY, then draws 2 cards."

The Supreme King discarded his hand and then drew cards from the deck.

"Among the cards I just discarded, there is also a 'Card of Compensation'." Yuei Vu said, "According to its effect, I also draw two cards from the deck."

And at the moment you draw a card, activate the Quick-Play Spell 'Thirst for Compensation' from my hand! When the opponent draws a card from the deck outside the Draw Phase, Special Summon up to two Level 4 or lower monsters from my hand!" (Animation card)

Yuei Vu took out two cards.

"I want to special summon these two——

——Revival Jam! Reactor Slime!"

Two slimes came out separately. One of them was limp like a ball of mud, and the other slime with a silver-white metal body crawled up limply, with sharp spiral spears in its arms and a steel boiler full of barbs on its back.

[Revival Jam, DEF 500]

[Reactor Slime, ATK 500]

The Supreme King raised his eyelids that covered his golden pupils.

"Slime?"

"Reactor Slime's effect is activated." Yuei Vu said, "Once per turn, the breeding machine on it can make it multiply, and breed up to two children."

I special summon two 'Slime Tokens'."

Two lumps of mud popped out from the back of the huge boiler, and formed into a solid on the ground, transforming into a mud-like soft slime.

[Slime Token, ATK 500] x2

"Breeding machine?" Manjoume looked suspicious.

"I seem to have some impression." Aster said, "It looks like 'Jam Breeding Machine', the Continuous Spell Card used by the legendary duelist Marik Ishtar to summon the 'Osiris the Sky Dragon' in the Battle City. But the card used by Mr. Yuei Vu here seems to be an improved monster card based on that?"

Manjome thought of something and couldn't help but put down his arms: "The ability to gather three monsters on the field at once, could it be that..."

"After the effect of 'Reactor Slime' is activated," Yuei Vu said slowly, "I cannot Normal or Special Summon monsters for the rest of this turn, except Divine-Beast monsters."

Aster x Manjome: "!"

Sure enough!

It's a summoning support card dedicated to the Egyptian Gods!

"And I haven't performed a Normal Summon this turn." Yuei Vu raised his arm, "I'll sacrifice the 'Reactor Slime' on the field, and the two 'Slime Tokens' for a Tribute Summon!

Through the underworld and reality, it appeared in the chaos of thunder and lightning—the god of the underworld, Osiris the Sky Dragon!!!"

The sky turned black, and the sea in the distance was surging! Thunder carrying a winding and twisting red dragon fell from the sky. The black clouds seemed to be pierced by a spear that pierced the world. The red dragon descended with infinite divine power, thundering the sky!

Osiris the Sky Dragon descended!

The domain of the Egyptian God exploded as if it had collided with the aura of the king of another world and produced invisible sparks. The Supreme King stood there like a stubborn flagpole, staring coldly at the huge Egyptian God in front of him.

"Osiris's attack power depends on the number of cards in hand." Yuei Vu said, "I have four cards in my hand, so Osiris's attack power is currently 4,000."

[Osiris the Sky Dragon, ATK 4000]

"But then I will activate the Spell Card 'Card of Variation' from my hand!" Yuei Vu shouted, "Draw 2 cards. At the end of this turn, I must send 1 card from my hand or field to the Graveyard or take 3000 damage!" (Animation card)

Manjome held his breath: "Are you willing to take huge risks to increase the power of God?"

"I draw two cards!" Yuei Vu shouted, "At this moment, Osiris's attack power increases!"

[Osiris the Sky Dragon, ATK 4000 → ATK 5000]

[Evil HERO Malicious Bane, ATK 3200]

"Battle!" Yuei Vu shouted, "Osiris the Sky Dragon, attack 'Evil HERO Malicious Bane'!!!"

Chapter 1070: Egyptian God's Formation!

"Osiris, attack!" Yuei Vu raised his arm, as if waving a sword, "Superconducting Wave Thunder Cannon!!!"

Thunder rolled in the mouth of the sky dragon, the sky thunder gathered, and the golden energy surged like a sea of clouds, churning in the mouth of the dragon.

A golden bombardment that penetrated the clouds was like a mighty army that engulfed the Evil HERO. The Evil HERO screamed and swung his fist weakly in the light curtain to try to resist, but was finally submerged by the strong light, and even his outline disappeared in it.

The terrifying divine power swept across the Supreme King, and the golden light plowed cracks on the ground like a real sharp blade. The dark aura around the Supreme King seemed to be dispersed a lot, and the whole person was finally blasted back half a meter, almost engulfed by the wave of explosion.

[Supreme King, LP 1950 → LP 150]

LP 150!

Victory seemed to be just around the corner, and Aster and Manjoume on the side were both very encouraged.

With a divine blow, the Supreme King's iron wall-like shell seemed to melt under the thundering artillery. The darkness that permeated all around seemed to have faded a lot, and the king's aura that dominated everything also had a tendency to dissipate.

Even the seemingly eternal golden flame in his eyes was shaken, and the light flickered twice and seemed to dim a little.

"Judai!" Aster took the opportunity to shout, "Wake up, resist that guy!"

Manjoume also shouted: "Yu↑ki↓ Ju↑dai↓! Are you only at this level?"

"."

After a brief silence, the Supreme King straightened his back, and under the eyelids that were raised again, the golden eyes were still empty and cold.

"Evil HERO Malicious Bane cannot be destroyed by battle or effects." He said coldly.

Sure enough, when the storm of divine power dissipated, the Evil HERO still stood firm.

"I said, it's useless." He said coldly, "There is no other way to wake that guy up except to defeat me."

"Then as you wish." Yuei Vu drew a card and inserted it into the duel disk, "Set a card, I end my turn."

[Osiris the Sky Dragon, ATK 5000 → ATK 4000]

"At this moment, the side effect of 'Card of Variation' also takes effect." Yuei Vu said, "I must send a card from my hand or field to the graveyard, otherwise I must bear 3000 points of damage.

Therefore, I send the Spell Card 'Dark Magic Attack' on the field to the graveyard to negate the effect damage."

The set card in the backfield exploded into golden light spots, and the card gradually dissipated.

"Next is Absolute Zero who was banished by 'Sea Stealth Attack'," Yuei Vu said, "At the end of the turn, Absolute Zero returns to the field."

[Elemental Hero Absolute Zero, DEF 2000]

"It's useless. Whether it's God or Duel King, all the kings in all worlds will succumb to me."
Supreme King said sternly, "My turn, draw."

Just fight directly. Go, Malicious Bane, crush God for me."

Malicious Bane seemed to have been waiting for this order for a long time. It spread its demon wings and flew out. The claws that fell seemed to carry endless darkness from the abyss!

Aster held his breath: "Osiris's attack power is obviously higher."

"In other words, there must be other plans," Manjoume said in a deep voice.

Yuei Vu also narrowed his eyes and thought in his heart.

In addition to God, there were also Revival Jam and Absolute Zero on his side, but the Supreme King did not activate the field-clearing effect of Malicious Bane.

Each monster destroyed by the Malicious Bane could increase his ATK by 200 points. Although this effect could not destroy the Sky Dragon, it could destroy the other two monsters and make him gain an additional 400 attack points.

Did he not activate this effect because he was afraid of the resurrection effect of the Revival Jam?

Revival Jam could be special summoned back to the field from the graveyard immediately when it was destroyed by battle or effect. (Animation effect)

If Revival Jam was destroyed, it would be resurrected immediately, and the effect of "Card of Safe Return" would be triggered, and Yuei Vu could continue to draw cards from the deck. Perhaps the Supreme King took this into consideration and did not activate the effect of Malicious Bane.

He must have other plans.

Sure enough, darkness surrounded a green Spell Card and appeared beside the Supreme King.

"Quick-Play Spell 'Blind Spot Strike'." Supreme King shouted, "Select 1 face-up Defense Position monster the opponent controls and 1 face-up Attack Position monster I control. The monster I control gains ATK equal to the opponent's monster's DEF, until the End Phase.

I will increase the ATK of 'Evil HERO Malicious Bane' by the DEF of your 'Elemental Hero Absolute Zero!'"

[Evil HERO Malicious Bane, ATK 3200 → ATK 5200]

"The attack power has surpassed Osiris!" Manjoume's pupils shrank.

[Osiris the Sky Dragon, ATK 4000]

"It's bad," Aster said in a deep voice, "Yuei Vu-sensei has 900 LP left. If this attack is successful..."

"It's over." Supreme King said in a cold tone.

"That's not necessarily true." Yuei Vu smiled, "Why don't you take a look at what's happening on the field?"

Malicious Bane swung down his sharp blade, dragging thick darkness towards the red dragon, and the terrifying impact was about to cut the Sky Dragon in two.

However, at this moment, a small figure actually jumped out!

It's Revival Jam!

So Yu-Gi-Oh was really an incredible game. A slime actually took the initiative to jump out to block the attack for the Sky Dragon!

The Supreme King frowned slightly, and his eyes fell on the flipped cover card in Yuei Vu's backcourt.

Yuei Vu snapped his fingers.

"Continuous Trap 'Jam Defender'." Yuei Vu smiled, "When there is a 'Revival Jam' on my field, the opponent's attack target can be forcibly transferred to the 'Revival Jam'.

So your attack on Osiris is transferred to Revival Jam."

After a pause, he pointed to the slime in front of him that was blown into pieces and was constantly gathering and regenerating.

"Then when the 'Revival Jam' is destroyed by battle or effects, it can be special summoned from the graveyard."

[Revival Jam, DEF 500]

The Spell Card next to Yuei Vu then burst into light.

"The effect of 'Card of Safe Return'." Yuei Vu said, "Because a monster has been successfully resurrected, I draw three cards from the deck."

Then Yuei Vu waved his hand, and the majestic dragon above his head let out a dragon roar that penetrated the sky.

"Osiris's attack power increases as the number of cards in my hand increases!"

[Osiris the Sky Dragon, ATK 4000 → ATK 7000]

Aster and Manjoume were so shocked that they couldn't speak for a long time.

"This lineup... this lineup is..."

This was originally invented by Mr. Marik during the Battle City, with "Osiris the Sky Dragon" as the core! A lineup specialized for Egyptian God!

Using Revival Jam as a shield, blocking all attacks for the Sky Dragon, and every time the slime was resurrected, it would trigger the effect of "Card of Safe Return" to draw cards, then in turn, increasing the power of Osiris.

Not only that, but Osiris itself had absolute resistance to Trap Cards, and could resist most Spell Cards and monster effects except Level 10 – that was, the same level as the Egyptian God – and above.

This was an ultimate enhancement of Osiris, a Sky Dragon exclusive formation!
