

I Play Yu-Gi 1071

Chapter 1071: You Will Stop Here!

Facing the iron wall with God as the core, the Supreme King still had a cold face, but his eyes seemed to be active.

It was like a general, who was always victorious and wanted only one defeat, finally found a powerful opponent that matched his strength.

"With an attack power of 7000, Osiris's power has exceeded that of the Malicious Bane!" Aster said, "He can't be defeated easily like this!"

The Supreme King frowned slightly, and it seemed that there was no way to break through in a short time, so he played another card: "Then activate the Spell Card 'One Day of Peace' from my hand.

Both players draw a card from their decks, but neither player takes damage until the end of the next turn."

One Day of Peace was almost the top-level life-saving divine weapon in the entire game. Only rule-based victories such as "Exodia" could ignore its defense, otherwise, no means could cause substantial damage to players during this temporary peace.

Yuei Vu drew a card, gladly accepted the rare peace during the duel, and reminded: "But at this moment, Osiris's attack power also increased."

[Osiris the Sky Dragon, ATK 7000 → ATK 8000]

The Sky Dragon also roared at this time, and blue lightning flashed behind its back, illuminating the sky.

But the Supreme King was unmoved: "Set two cards, I end my turn."

After a pause, he added: "At this moment, the effect of 'Blind Spot Strike' ends, and the attack power of 'Evil HERO Malicious Bane' decreases."

[Evil HERO Malicious Bane, ATK 5200 → ATK 3200]

"Then it's my turn, draw." Yuei Vu said.

[Osiris the Sky Dragon, ATK 8000 → ATK 9000]

Osiris' attack power increased again!

Of course, no matter how high the attack power is, it cannot deal damage under the protection of "One Day of Peace". In addition, the Malicious Bane cannot be destroyed, so there is no point in launching an attack.

However...

"Activate the Spell Card 'Advance Draw'!" Yuei Vu said, "Tribute 1 face-up Level 8 or higher monster and draw 2 cards.

I Tribute 'Elemental HERO Absolute Zero' and draw two cards from the deck!"

Absolute Zero turned into a point of light and disappeared, and the storm of ice and snow pushed towards the opposite field!

"The moment Absolute Zero leaves the field, the effect of Absolute Zero will be triggered, destroying all my monsters." Supreme King said coldly, "But it's useless. Malicious Bane can't be destroyed."

"I know." Yuei Vu said, "But the moment the card is drawn, Osiris's attack power will rise again."

[Osiris the Sky Dragon, ATK 9000 → ATK 10000]

"Then activate the Continuous Spell 'Infinite Cards' from my hand!" Yuei Vu said, "As long as the 'Infinite Cards' exist on the field, the hand size limit in this duel will change from six to infinite.

That is to say, at the end of the turn, even if there are more than six cards in hand, there is no need to discard them."

The appearance of this card also marked the official formation of the "Sky Dragon Combo" developed by Mr. Ma!

"Card of Safe Return" increased card drawing, "Jam Defender" consolidated the front, and "Infinite Cards" infinitely increased the power of the Sky Dragon, this was the ultimate posture of the Sky Dragon developed by Mr. Ma, the most perfect lineup!

If Atem had played according to the rules and didn't push his BISS ability to its limit, not only brainwashing the monsters in the other party's graveyard but also somehow making the other party's monsters constantly resurrect on his own field, Mr. Ma's formation would have been difficult to solve.

After all, a Sky Dragon was already OP enough, and with such a luxurious package, it's really a bit overwhelming.

"Set two cards, I end my turn." Yuei Vu said lightly, "At this moment, the effect of 'One Day of Peace' is also over. Magic can't always protect you."

The Supreme King glanced indifferently at the Sky Dragon with an attack power of 7,000, glanced at Yuei Vu, and spoke dully.

"I knew you would summon God in this duel." He said.

"Oh?" Yuei Vu raised his eyebrows.

"The power of the three Egyptian Gods is indeed not to be underestimated. Perhaps they are indeed the most powerful monsters in this dimension. But no matter which god you summon, I have prepared countermeasures.

For example, this!"

The Supreme King shouted.

"Open the set card: Continuous Trap – Enervating Mist!"

Yuei Vu narrowed his eyes: "This card is."

"As long as this card exists on the field," said the Supreme King, "the opponent's hand size limit in this duel becomes five!"

"Interesting."

Yuei Vu looked at him carefully.

"You have learned well." He said lightly, "As a teacher, it is hard not to feel gratified."

"For victory, you will do everything you can, and any means are irrelevant. Only victory is the proof of strength." The Supreme King responded indifferently, "I agree with you in this regard, that's all."

When two continuous effects conflict, the latter effect often prevails.

"Infinite Cards" adjusted the upper limit of Yuei Vu's hand to infinite, but "Enervating Mist" refreshed the rules of this duel again, adjusting the upper limit to five cards.

Now it happened to be Yuei Vu's End Phase, which meant that he must pick cards and discard them according to the rules until his hand became five cards.

Two cards were sent to the graveyard, and Osiris's attack power decreased accordingly.

[Osiris the Sky Dragon, ATK 7000 → ATK 5000]

Aster frowned and said, "This guy has the memory of Judai. He knows all the cards and tactics of Mr. Yuei Vu."

"My turn, draw." Supreme King said, "At the Standby Phase, the effect of 'Evil HERO Infernal Gainer' that was removed from the game two turns ago is activated."

During my second Standby Phase after this card was banished to activate its own effect: Special Summon this card in Attack Position."

The dimension was distorted, and the current pierced the space barrier. The Evil HERO, wearing skeleton-like armor and full of bone-like spikes, returned to the field.

[Evil HERO Infernal Gainer, ATK 1600]

"But at this moment, Osiris's effect has also been activated." Yuei Vu waved his hand, "Summon Thunder Bullet!"

Osiris's mouth slowly opened, and a thunder ball had already been brewing in it! The ball surrounded by lightning flew out with a roar, and with one blow, the Evil HERO with an ATK of 1600 was wiped out.

"Summon Thunder Bullet will directly destroy monsters in attack mode with an ATK below 2000." Yuei Vu said, "Monsters with an ATK above 2000 will have their ATK reduced by 2000 points. I think you should know this, right?"

"It doesn't matter." The Supreme King raised his head and made a declaration like the winner, "This turn, you and your god will stop here!"

Chapter 1072: God's Power

"Spell Card 'Pot of Greed', draw two more cards from the deck.

Then activate the Equip Spell 'Favorite Hero'." Supreme King said, "Equip it to 'Evil HERO Malicious Bane'."

"Favorite Hero, the strongest Equip Spell card exclusive to heroes." Aster said in a deep voice, "Not only can it retrieve any field from the deck, but it can also greatly increase the attack power.

If this effect takes effect, the attack power of the Malicious Bane will reach 6200 in one go, exceeding the sky dragon restricted by the 'Enervating Mist' !"

"But even so, it shouldn't be easy to attack." Manjoume said, "As long as the combination of 'Jam Defender' and 'Revival Jam' is still there, the Supreme King can only attack the slime.

However, the Revival Jam will be resurrected no matter how many times it is knocked down, and it will continue to increase the attack power of the Sky Dragon."

The Supreme King obviously had a countermeasure: "Open the set card: Trap Card – Karma Cut!"

A trap flipped, and powerful energy surged out, instantly covering the top of Yuei Vu's field!

"I do not need to explain the effect of this card, do I?" He said.

Yuei Vu: "..."

"I discard a card in my hand." The Supreme King said coldly, "Remove 'Revival Jam' from the game!"

Karma Cut took effect, and the dimension was distorted. The invincible slime was sucked into the crack in the space and disappeared at the other end of the dimension without a trace.

"'Revival Jam' can only be regenerated when it is destroyed." Supreme King said, "This way you can't use that slime for defense."

"Use 'Enervating Mist' to limit the number of cards in hand to reduce Osiris' attack power, and then use 'Karma Cut' to create a blind spot for this defense system." Yuei Vu smiled, "You did a good job."

"I'm not your student." Supreme King said, "I'm just the last opponent you face in your life.

Enter the Battle Phase. At this moment, the effect of 'Favorite Hero' is activated!"

The entire venue suddenly began to shake, the seawater was pushed to both sides, the dark castle broke out from underwater, and waves hit the solid black outer wall one after another.

The fire of hell seemed to evaporate the seawater, the bridge slowly rose, and the lightning illuminated the entire dark castle.

"Field Spell 'Supreme King's Castle', activate from the deck!" Supreme King said, "Then the moment a card appears in my Field Zone, the attack power of 'Evil HERO Malicious Bane' increases by the value of its own defense!"

[Evil HERO Malicious Bane, ATK 3200 → ATK 6200]

"Go, Malicious Bane!" The dark miasma on Supreme King's body erupted again, "Smash the so-called God for me!"

Malicious Bane stood up again, looking down from above, and his body seemed to burst out with endless darkness, determined to swallow up the Egyptian God completely!

"Open the set card: Trap Card – Reckless Greed!" Yuei Vu snapped his fingers, "At the cost of skipping two Draw Phases, draw two cards from the deck."

Aster's eyes lit up, "If he draws cards, Osiris's attack power will surpass! Even if 'Enervating Mist' limits the number of cards in hand, the extra cards will not be discarded until the end of the turn!

And Supreme King can no longer cancel the attack order."

[Osiris the Sky Dragon, ATK 5000 → ATK 7000]

"Then in the damage calculation phase, the effect of the Field Spell 'Supreme King's Castle' is activated." Supreme King also did not give in, "Once per turn, during damage calculation, if my Fiend monster battles: I can send 1 'Evil HERO' monster from my Deck or Extra Deck to the GY; my monster gains ATK equal to the Level of the monster sent to the GY x 200, until the end of this turn."

Supreme King showed a card.

"I send 'Evil HERO Dark Gaia' to the graveyard from the Extra Deck. Dark Gaia's level is eight, so the attack power of 'Evil HERO Malicious Bane' increases by 1600!"

[Evil HERO Malicious Bane, ATK 6200 → ATK 7800]

The attack power surpassed again!

The Malicious Bane's claws dragged a black trail across the sky dragon, and the claws cut the god's indestructible skin. The 7,000 attack power was still not enough to resist the attack of the Evil HERO. It could only groan and slowly fell, turning into clouds and smoke and dissipating.

[Yuei Vu LP 900 → LP 100]

"Damn it," Manjoume narrowed his eyes and looked at the Supreme King, "Even God is not his opponent?"

"It's not over yet." The Supreme King waved his hand, "The follow-up effect of the Equip Spell 'Favorite Hero'! When the equipped monster attacks and destroys an opponent's monster by battle: I can send this card to the GY; the attacking monster can make a second attack in a row!"

[Evil HERO Malicious Bane, ATK 7800 → ATK 4800]

"Yuei Vu-sensei!"

"Principal Yuei Vu!"

Both students exclaimed at the same time.

"This time it's really over!" The Supreme King waved his hand, "Go, Malicious Bane, the last blow!"

The equipment was discarded, the Malicious Bane flew into the air, and the claws raised high seemed to fall from the sky with a force of ten thousand pounds!

Locked by the overwhelming darkness, there was no escape!

Without any obstacles in front of him, Yuei Vu looked up at the darkness that was descending like the judgment of death, but only raised the corners of his mouth slightly.

"You can break Osiris's perfect formation. You are indeed worthy of being the king of the twelve dimensions. I want to praise you.

However..."

Yuei Vu's face darkened and he said lightly.

"If you think this is all the power of God, then you may be a little naive, Lord Supreme King."

As he said, he waved his hand.

"Open the set card: Continuous Trap——

——Ultimate Divine-Beast!!!"

The continuous trap flipped, and in an instant, lightning pierced the sky again! The surface of the trap card released a terrifying blue light, and the card picture clearly drew a roaring red dragon, and its entire body was surrounded by endless golden currents!

The picture on the card was Osiris the Sky Dragon!

"Is that a trap exclusive to Sky Dragon?" Manjoume raised his arm to block the sacred blue light in front of him, and was shocked.

Principal Yuei Vu actually has such a complete set of Egyptian God system in his hand!

Could it be that in his previous sparring with Kaiba-sensei, Principal Yuei Vu actually hasn't used his full strength yet?

Manjoume's heart was in turmoil.

"Activate the effect of 'Manjoume'." Yuei Vu shouted, "When an opponent's monster declares an attack: I can discard 1 Spell/Trap, then target 1 Divine-Beast monster in my GY; Special Summon it in Defense Position!"

He raised his arm high, opened his palm, and called on the great gods to penetrate from the underworld to reality!

"Osiris the Sky Dragon, resurrect!!!"

The underworld was pierced, and the red dragon soared out, its body swung in the air, and its divine power turned into leaping lightning!

[Osiris the Sky Dragon, DEF 6000]

"At this moment, the effect of 'Card of Safe Return' is activated." Yuei Vu said, "The moment Osiris is resurrected, I draw three cards from the deck!"

[Osiris the Sky Dragon, DEF 6000 → DEF 9000]

"Osiris was summoned again?" Supreme King frowned, "Then the Battle Replay occurs and the attack is terminated. I cancel the attack order of the Malicious Bane."

"I'm sorry, that won't work." Yuei Vu pointed to the trap with a vivid image of the Sky Dragon next to him, "Continuous Trap 'Ultimate Divine-Beast', the subsequent effect!

The attacking monster must forcibly attack the summoned Divine-Beast monster!"

"What?" Supreme King narrowed his eyes.

[Sky Dragon of Osiris, DEF 9000]

[Evil HERO Malicious Bane, ATK 4800]

If this attack passed, more than 4,000 battle damage would be directly rebounded!

God's trap, a deadly counterattack!

Chapter 1073: At The End of The Fierce Fight

“Ultimate Divine-Beast... Is there even a trap that supports gods?”

Manjomu and Aster both said they had learned something new.

But it was finally over!

Malicious Bane’s attack could no longer be stopped. He had no choice but to launch a desperate charge against the Egyptian God with a defense of 9,000! In the end, he would inevitably be counterattacked by the Sky Dragon’s divine power, and at that moment, the Supreme King would be defeated.

The Supreme King’s backfield was empty, and most of the commonly used hand traps and grave traps—such as Necro Gardna, Kuriboh, Kiteroid, etc.—could only block attacks from the opponent.

There was almost no way to stop the suicidal charge!

The ending was almost set at this moment. The Sky Dragon’s mouth was churning with golden thunder, and the dazzling light flashed in the dragon’s huge mouth. It only took a moment to annihilate Malicious Bane and the Supreme King!

Sparks of electricity jumped out of the air.

Blue arcs of electricity jumped between the huge Egyptian God and the Malicious Bane, and the electric snake jumped out. A strong repulsive force suddenly bounced both sides to the side.

Osiris roared unwillingly, but the electric light churning in his mouth gradually dissipated.

Yuei Vu frowned: "That is..."

"The Quick-Play Spell 'Rescuer from the Grave' was activated from the graveyard." Supreme King showed a card that was withdrawn from the graveyard, "While this card is in my Graveyard, I can remove from play 5 cards from my Graveyard to end the Battle Phase." (Animation card)

He showed five cards and grabbed them in his hand.

"I exclude 'Vicious Claw', 'Fusion Birth', 'Hero's Rule 2', 'Torrential Tribute', and 'Rescuer from the Grave' from the game, and force the Battle Phase to end."

Yuei Vu looked at the words on the duel disk that had switched back to "Main Phase 2": "You actually prepared such a backhand. As a king, you are really cautious."

"Same here." Supreme King still had no expression on his face, "Then in Main Phase 2, activate the Spell Card 'Card of Sanctity'. Each player draws until they have 6 cards in their hand."

After a pause, he looked at Yuei Vu.

"You have nine cards in your hand, so you don't need to draw cards."

Then he waved his hand.

"Set three cards, I end my turn."

With that declaration, Osiris behind Yuei Vu began to become illusory and transparent, and even the roar seemed to disappear into another dimension, gradually disappearing.

"The special summoned Osiris can only exist on the field for one turn, and must return to the graveyard at the End Phase."

Yuei Vu took a deep breath.

"It's my turn next. But because of the side effect of 'Reckless Greed', I have to skip the Draw Phase."

But he actually didn't need to draw another card now.

"Activate the Quick-Play Spell 'Double Cyclone' from my hand!" Yuei Vu said, "Target 1 Spell/Trap I control and 1 Spell/Trap the opponent controls; destroy them."

What I want to destroy is my Continuous Spell 'Infinite Cards' and the set card in your backfield!"

The red and gold whirlwinds rolled up at the same time, one shattered the Continuous Spell on Yuei Vu's side, and the other rolled up the set card in the backfield of the Supreme King and crushed it into pieces.

During the storm, several people clearly saw what the card was.

Trap Card "Dimension Wall".

"Dimension Wall, a trap card that forces the opponent to bear the battle damage." Manjoume said, "It's really dangerous if you attack rashly."

"Yuei Vu-sensei has only 100 LP left, which means that this trap can make a counter-kill." Aster was also frightened.

Yuei Vu shook his head.

Alas, a good king of another world, instead of printing a few new Evil HERO monsters to fight, actually takes crooked ways to deal with things. First Karma Cut then Dimension Wall, the world is really going downhill.

Yuei Vu continued: "Activate the Spell Card 'A Feather of the Phoenix', discard a card in my hand to return a card in my graveyard to the top of the deck."

The card I want to return is, of course, 'Osiris the Sky Dragon!'"

The God card was ejected from the graveyard area and inserted back into the top of the deck by Yuei Vu.

"Then activate the effect of 'Magicians' Souls' in my hand!" Yuei Vu said, "Discard 'Magicians' Souls', and then send 1 Level 6 or higher Spellcaster monster from my Deck to the GY."

After that, special summon 1 'Dark Magician' or 1 'Dark Magician Girl' in my graveyard!"

Yuei Vu raised his arm.

"Come back, Dark Magician Girl!"

The pink little magic circle opened, and the blonde magic girl came to the field for the third time.

The girl, who had been killed in the second appearance twice in a row, poked her head out of the magic circle this time, carefully looked around for a long time, as if she was ready to turn around and go back to the graveyard when she saw that the situation was not good.

After trying it out and finding that there seemed to be no problem, she immediately jumped out again, adjusted her state, and jumped in front of her master.

"At this moment, the effect of 'Card of Safe Return' is activated." Yuei Vu said, "Draw three cards from the deck."

"Then Normal Summon 'Ra's Disciple' from my hand!"

The messenger who appeared was a black-skinned messenger wearing a golden robe, and his appearance was obviously imitating the image of the Sun God.

[Ra's Disciple, ATK 1100]

"Ra's Disciple's effect is activated!" Yuei Vu drew two cards from the deck, "When this card is Summoned: I can Special Summon up to 2 'Ra's Disciple' from my hand and/or Deck!"

[Ra's Disciple, ATK 1100] x2

"Then activate the Spell Card 'Double Summon'. In this turn, I can conduct the second Normal Summon.

According to this effect, I sacrifice the three 'Ra's Disciples' on the field! Tribute Summon!

Throughout the underworld and reality, in the chaos of thunder and lightning, it reappears——
——Osiris the Sky Dragon!!!"

Thunder flashed, and the storm roared in the sky! The terrifying tornado shook the earth, a huge shadow fell from the sky, and the red dragon occupied the world!

Osiris the Sky Dragon, come again!

"The attack power of Sky Dragon is determined by the number of cards in the player's hand," Yuei Vu said, "I have five cards in my hand now, so Sky Dragon has 5,000 attack power!"

[Osiris the Sky Dragon, ATK 5000]

Yuei Vu's eyes swept over the Malicious Bane standing tenaciously in front of the Supreme King, and then glanced at the huge fortress behind him.

At the moment of battle, Supreme King's Castle could increase the attack power of Malicious Bane by the level of the "Evil HERO" sent from the deck x 200 points.

The highest level of Evil HERO was eight, in other words, the maximum attack power could be increased by 1600.

So the actual attack power of Malicious Bane should be 4800, which was still 200 points lower than the current Sky Dragon.

Supreme King had 200 LP remaining.

Checkmate.

"Battle!" Yuei Vu ordered, "Osiris the Sky Dragon, attack 'Evil HERO Malicious Bane!'"

Chapter 1074: Determination To Fight

"Osiris' attack! Superconducting Wave Thunder Cannon!!!"

The Egyptian God once again brewed cannon-like lightning in his mouth, ready to fire at any time!

On the straight line of the bombardment, the unshakable Malicious Bane was standing. This strongest Evil HERO withstood round after round of attacks, and his momentum was not inferior to that of the gods.

And this turn would be the time for the decisive battle!

Even with the amplification and enhancement of the Supreme King's Castle, Malicious Bane's attack power limit was only 4800, and this battle was enough to determine the final victory or defeat.

Of course, the premise was that the battle goes smoothly.

"Traps are ineffective against gods," Aster said solemnly, "unless they are traps that act directly on players instead of gods. For example..."

"Open the set card!" Before he finished speaking, one of the remaining back row cards of Supreme King had already flipped over, "Trap Card 'Dimension Wall!'"

Manjoume x Aster: "What!?"

Both of them were shocked, and they even doubted their own eyes at the first moment.

"Wait, hasn't 'Dimension Wall' been destroyed by 'Double Cyclone'?"

"Did this guy set two identical traps?"

Supreme King quickly and calmly gave a reply and withdrew a card from the graveyard.

"The card you just destroyed is the Trap Card 'Fake Trap'." Supreme King said, "When a Trap Card on my field is destroyed, this card can be destroyed instead.

So although you clicked on the 'Dimension Wall', it was this 'Fake Trap' that was destroyed and sent to the graveyard instead."

Aster: "!"

There is such a thing?

"Oh no!" Manjoume's face sank, "If the damage is reflected by the 'Dimension Wall', this battle will directly cause 1800 points of damage!

Principal Yuei Vu will be killed instantly"

The two looked at Yuei Vu at the same time, but Yuei Vu's expression was still calm as if he was not frightened by the sudden "Dimension Wall" at all.

"The card I used 'Double Cyclone' to hit was the card on your leftmost." Yuei Vu said calmly, "But after the image of 'Dimension Wall' being blown away, the card in the middle disappeared."

After a pause, he narrowed his eyes: "I also taught you the tactics of 'Fake Trap' – I said that if you use the trap-heavy tactics for a long time, you may be easily targeted.

So do you think I won't notice such details?"

Supreme King: "..."

Yuei Vu squinted at the Dark Magician Girl on the side: "This is also the reason why I want to summon her back to the field."

The master suddenly mentioned herself, and the Dark Magician Girl said "Ah" and quickly straightened her hat.

Although I don't know what I can do in this battle of gods, it sounds like I am still in an important role!

"The card I discarded from the hand as the cost of 'A Feather of the Phoenix' is 'Makyura the Destructor'." Yuei Vu said coldly, "You used this card in the previous turn, so you must not have forgotten its effect, right?"

"Activate a trap card from the hand?" Supreme King said lightly.

"That's right." Yuei Vu waved his hand, "Continuous Trap 'Magicians' Combination'! Once per turn, when a card or effect is activated, Tribute 1 'Dark Magician Girl' to negate that activated effect!"

The Dark Magician Girl widened her emerald eyes and showed a happy expression.

Finally, I'm going to help my master!

The complex and sacred magic circle unfolded, the girl held her breath recited the spell seriously, and waved the staff with unquestionable power, and the torrent of dark magic immediately blew the "Dimension Wall" that was being activated into pieces!

Supreme King frowned: "But because you consumed a card in your hand, the attack power of 'Osiris the Sky Dragon' has decreased."

[Osiris the Sky Dragon, ATK 5000 → ATK 4000]

"Don't worry about it." Yuei Vu smiled, "But 'Magicians' Combination' has another effect – While negating the effect, Special Summon 1 'Dark Magician' from my graveyard!"

The magician girl's whole body turned into a point of light and dissipated. The dark undercurrent surged, and the black-robed wizard jumped back to the field from the graveyard again as if stepping on a spinning ring.

[Dark Magician, ATK 2500]

"Resurrect the Dark Magician... No," Supreme King's eyes quickly fell on another card beside Yuei Vu, "Is the purpose here?"

Sure enough, Yuei Vu said: "Continuous Spell 'Card of Safe Return'! Because the 'Dark Magician' in the graveyard is resurrected, I draw three cards!

And at the same time, Osiris' attack power increases!"

[Osiris the Sky Dragon, ATK 4000 → ATK 7000]

7,000 attack power!

"Even higher than before!" said Aster.

"But in the attack declaration step, I still have this card to activate." Supreme King's moves have not yet been used up, "Activate the Trap Card 'Soul Strike'!"

[Supreme King, LP 150 → LP 75]

"If my LP is 4000 or less, when an attack is declared involving a monster I control and an opponent's monster: Pay half my LP, then target 1 face-up monster I control; it gains ATK equal to the deficit between my current LP and 4000 until the end of the opponent's turn!"

[Evil HERO Malicious Bane, ATK 3200 → ATK 7125]

The attack power was exactly 125 points higher than that of Osiris!

But it's not over yet.

"The effect of the Field Spell 'Supreme King's Castle'!" Supreme King showed another Evil HERO card, briefly displayed it, and then discarded it to the graveyard, "Send the Level 8 'Evil HERO Malicious Bane' to the graveyard, and the attack power of the Malicious Bane on the field will increase by 1600!"

[Evil HERO Malicious Bane, ATK 7125 → ATK 8725]

The power of the Malicious Bane has increased again! The aura around Supreme King also became stronger, and the thick darkness enveloped the entire area, as if the black flames were burning everywhere, burning the space itself to ashes!

Osiris was suppressed!

The ultimate Evil HERO released a dark darkness that enveloped the red dragon. In a duel, the gap in stat was absolute, even gods were no exception.

If Osiris was defeated here, it would also be announced that Yuei Vu would be defeated!

"Soul Strike... Winning at the cost of one's soul, is this the determination of a king?" Yuei Vu said calmly.

"As long as we win, any price doesn't matter." Supreme King's golden eyes were still firm, "The one who wins has everything."

"Actually, I don't completely disagree with your point of view."

Yuei Vu shrugged, and then his eyes were stern.

"But in terms of enlightenment, I won't lose at all." Yuei Vu said, "After all, I only have one student, and I will never let you take him away no matter what the price."

"Enlightenment is not something that can be said with words." Supreme King shouted coldly, "Strength is everything! Otherwise, no matter how much determination you have, you can't change anything.

Disappear with your Egyptian God, and then go to another world to repent, Duel King!"

It seemed that there was really no other means. Yuei Vu looked up, and without any movement, he let the battle damage calculation step end. He watched the Egyptian God and the Evil HERO fight fiercely in mid-air, until the Sky Dragon, whose attack power was inferior, finally lost unwillingly and was cut off by the sharp blade of the fallen hero.

The Sky Dragon roared unwillingly and fell again.

The Egyptian God's domain collapsed, and an endless wave rushed towards Yuei Vu as if to crush him into pieces.

Chapter 1075: Choice

Aster and Manjoume stood there in a daze, almost unable to believe what they saw.

The duel between the master and the apprentice, the Duel King against the ultimate king who ruled the twelve dimensions, will the end be the victory of the Supreme King of another world?

Will the Duel King Yuei Vu lose?

Just the thought of such a possibility in their minds made the two feel terrified.

Not only for them but for almost all duelists in the world, Yuei Vu has become a symbol, an absolutely invincible ceiling.

No matter what kind of enemy, no matter what kind of crisis, when it came to him, it could be resolved. The strongest king always made people feel at ease.

And such an invincible existence would actually lose?

If even he lost...

Then is there really anyone in the world who can beat this existence called the Supreme King?

Both of them widened their eyes, staring at the rapidly jumping life value without blinking. Aster and Manjoume felt as if their breathing was blocked, waiting in their hearts for the value to stop at a certain moment when it was infinitely close to 0.

But the miracle did not happen.

[Yuei Vu, LP 100 → LP 0]

The value finally stopped falling, a big, despairing "0".

The 0 that meant defeat.

"Roar ah ah!!!"

Osiris roared. Its body was entangled by increasingly violent thunder, and the realm of the Egyptian God fell apart, like a castle collapsing and disintegrating in an instant. Countless electric currents jumped and penetrated the air, filling it with a burnt smell.

It fell down.

The Evil HERO broke the Egyptian God, and his claws cut open the body of the dragon. Osiris gradually dissipated from the field, and the dark hero stood alone on the field, his tall back making people despair.

Yuei Vu's footsteps swayed, his head lowered, and his gloomy face seemed to be covered with darkness.

The darkness around him was ready to move, and the invisible barrier was shrinking.

A victory or defeat was decided, and a soul must be harvested.

"That's it."

The Supreme King said indifferently.

"Your efforts are admirable and have demonstrated your strength. There are indeed few strong people like you in the twelve dimensions, but that's all."

"That's not necessarily true." Yuei Vu interrupted him.

Supreme King: "?"

Yuei Vu slowly raised his head and smiled.

"The duel is not over yet." He said.

"But your LP value has returned to zero."

"I know." Yuei Vu said calmly, "But the moment my LP value returned to zero, this card has been activated-

——Trap Card 'Relay Soul!'"

The Supreme King's eyelids twitched slightly.

"This card can only be activated when my LP reaches 0." Yuei Vu said, "Special Summon any monster from my hand to the field, and my failure condition will be changed to that monster leaving the field. As long as that monster does not leave the field, I will not be considered losing the Duel regardless of my LP reaching 0 or my deck being empty." (Animation effect)

"And the monster I want to special summon through the effect of Relay Soul is this one."

Everyone almost held their breath, waiting to see the monster card he showed.

After all, it was the monster that would be entrusted with the outcome of the entire duel and bore all the weight.

Is it the next Egyptian God?

Or is it another trump card worthy of being entrusted with victory?

"Watch it, Judai," Yuei Vu flipped the card in his hand, "This is your most loyal partner, your eternal companion. I hereby special summon——

——Yubel!!!"

The vortex of chaos erupted, and vines shot out! A slender shadow flew out, spread its devil-like wings, slowly opened its beautiful heterochromatic eyes, and looked at the figure in front of her that she was extremely familiar with but now felt strange with a complicated look.

[Yubel, ATK 0]

This time, the Supreme King's poker face which seemed to have never changed also showed astonishment.

"Yubel?" The Supreme King's face quickly darkened, "When did you..."

"Not long after you entered here." Yuei Vu said lightly, "It seems that we have reached a united front for a short time – she doesn't want to see you revive so quickly."

The Supreme King frowned slightly and looked at Yubel: "Have you forgotten your mission?"

Yubel pondered for a long time.

Yuei Vu didn't know what she was thinking.

Maybe it was the first encounter with Judai, maybe it was the countless times they fought side by side, maybe it was the bits and pieces of their common life, and maybe.

Maybe it was their past and present lives.

She closed her eyes briefly, and when she opened them again, her heterochromatic pupils sparkled, and her eyes were filled with determination.

"I know my mission very well." She spoke, with no hesitation in her tone, "My mission is to watch that person grow up, to be his sword and shield until he can stand on his own and become the new king."

She looked directly into the heterochromatic pupils of the Supreme King without fear.

"And you are just a phantom of the past that has long disappeared." She said, "You are destined to become a part of the new king."

The Supreme King narrowed his eyes: "Yubel!"

"The Battle Phase continues." Yuei Vu slowly raised an arm, "Go, Yubel! Attack the 'Evil HERO Malicious Bane!'"

[Yubel, ATK 0]

[Evil HERO Malicious Bane, ATK 8725]

Yubel took two steps forward without fear, walked into the Supreme King's territory facing the suffocating dark miasma, and looked directly at the powerful Evil HERO in front of her.

The difference in attack power was nearly 9,000, and the contrast in strength was extremely disparate. It seems that there is no suspense in the battle at all.

Well, in fact, there was no suspense at all.

Everyone knew how this duel would end.

The Supreme King stared at Yubel as if he wanted to burn her to ashes with the scorching golden flame.

"You will regret this choice," he said.

"Maybe."

While Yubel was speaking, her eyes had turned as red as a rose.

"But I don't care anymore," she said.

The Evil HERO's eyes turned the same red as hers, and he raised his head and roared to the sky. The dark realm was shaken, and the miasma around him seemed to be affected by his actions.

Malicious Bane stepped forward regardless of everything, and the sharp blade dragged the dark trajectory and slashed it fiercely!

Several black knife marks cut through Yubel's body sharply, leaving real scars. She groaned in pain and staggered back, and her slender body under her wings seemed to be cut into pieces.

But she stood firm on her heels and withstood the ocean-like darkness that followed. The dark current whipped her body like an endless whip, but it could never make her surrender.

She slowly raised her head, and her heterochromatic eyes were still shining.

"Yubel's effect." Yuei Vu said calmly, "Yubel cannot be destroyed by battle. The battle damage caused by her battle with the opponent's monster – in today's terms, it is 8,725 points of damage —
—all will be borne by the opponent."

Yubel stopped, and the tremendous energy like a storm rebounded back, sweeping across the Supreme King.

[Supreme King, LP 75 → LP 0]

Supreme King faced the energy storm, gritted his teeth, and barely opened his eyelids.

In his golden pupils, Yubel's image was clearly reflected.

She came riding the storm, spreading her wide wings and opening her arms.

As if preparing for a hug.

Chapter 1076: Missing

Yubel's ability was activated, and the attack of the Evil HERO with more than 8000 ATK was completely counterattacked, like a terrifying storm sweeping over the Supreme King.

She passed through the storm, broke through the light curtain, and came to the Supreme King step by step.

She took him into her arms.

The number representing life jumped to the value of "0" under the rebound damage, representing defeat, and also the shell called "Supreme King" was pierced and melted.

He lost.

In the deepest part of the deep darkness, Yuki Judai, who was imprisoned in the endless darkness and had lifeless eyes, raised his head woodenly.

His golden pupils gradually faded, the eternal flame gradually extinguished, and the empty eyes slightly recovered a little spirit.

The first moment he regained consciousness, he saw Yubel and felt her warm and reassuring embrace.

"Okay, that's enough." Yubel said softly, "Rest well, your journey is over. No need to fight anymore."

Fatigue came like a tide. Judai leaned in her arms at ease, closed his heavy eyelids as if filled with lead, and fell into a deep sleep.

The endless darkness dissipated.

The old school building returned to its original appearance, dark and shabby, but all the ominous atmosphere had disappeared.

Aster and Wanzhang looked at each other in bewilderment. Obviously, the first time they accepted this level of supernatural events made the two young men a little at a loss, and they didn't quite understand the situation at this time.

So they all turned their eyes to Yuei Vu.

"Is this... over?" Aster asked.

Yuei Vu walked up to Yubel.

"Supreme King?"

"He has disappeared." Yubel picked up Judai, "At least temporarily."

"Temporarily?" Yuei Vu raised his eyebrows, "Shouldn't the rules of the Shadow Game be one victory, one price?"

"That's true, but the Supreme King is an unprecedented super-powerful man who commands the twelve dimensions. The power he holds is beyond your imagination, and he won't be destroyed so easily." Yubel shook his head.

Yuei Vu understood.

Indeed, in the original animation, O'Brien tried his best, but he only managed to die together with the Supreme King. In the end, he was gone, but the Supreme King was not really destroyed, he just returned to Judai's body and resumed his sleep instead.

It's just that Judai, who grew up later, awakened, mastered the power of the Supreme King by his own strength, and integrated it into a part of himself.

In short, the matter seemed to have come to an end.

They took Judai back to the health room. While complaining about Judai's frequent sickbeds, Chika-chan also diligently performed a full-body examination for him.

It was naturally difficult to find any problems with the duelists from a physical perspective through routine physical examinations. Most of the damage came from the mental side.

However, as the Duel Academy was established by the Kaiba Corp as the main sponsor, it naturally also had some black technologies sponsored by the Kaiba Corp.

You should know that the president has also done a lot of research on supernatural phenomena represented by Shadow Games, thus there were some instruments and equipment to cure mental damage.

Judai was sent to the health room before. After the examination, although his mental power was somewhat depleted, it was not a big problem every time. He only needed to rest in bed for a while to recover.

But this time was different.

.....

"Can't wake up? What do you mean?" Yuei Vu frowned.

"I don't know." Chika looked at Judai who was unconscious on the bed with concern, "It's as if a piece of his spirit was dug out, and a huge gap appeared."

"Is there no way to treat it?"

"At least not here." Chika shook her head, "This involves the blind spot of modern medicine, and there is no effective treatment for the time being.

If the damaged spirit can't be filled completely, he may never wake up."

Yuei Vu frowned.

The damaged part of the spirit, could it be...

He turned his head to look at Yubel who was in a transparent state beside him, and the latter also looked solemn.

"Indeed, I can't feel the existence of the Supreme King either." Yubel frowned.

"Should this be a good thing or a bad thing?" Yuei Vu asked.

Yubel turned his head to look at him.

"The Supreme King is Judai, Judai is the Supreme King." She said, "That's a part of him, it can't be eliminated. If the Supreme King disappears, then Judai..."

She glanced at Judai who was unconscious on the bed, and felt a little upset.

"...I don't know what will happen."

"..."

In any case, staying in the academy was definitely not a cure. Yuei Vu immediately contacted the headquarters of Kaiba Corp, and soon the headquarters sent a special plane to take Judai to Domino City for more advanced treatment.

Mokuba also came to the island with the plane. Yuei Vu boarded the plane with him and went to the company headquarters by the way.

Sitting in the cabin, Mokuba handed the tablet in his hand to Yuei Vu: "Brother Yuei Vu, you might want to see this."

Yuei Vu took the tablet and glanced at it, and found that the left side was obviously a bird's-eye view of the Duel Academy, and the right side was a bunch of complicated readings.

"What is this?"

"It is a real-time reading of the space in the area where the Duel Academy Island is located." Mokuba stretched out his hand and swiped twice on the screen, "Look at this curve."

Yuei Vu saw an extremely steep curve, like a majestic mountain rising on an endless plain.

Yuei Vu compared the time below.

The peak of the curve happened to be the last moment of his duel with the Supreme King.

"This is..."

"The spatial coordinates on the island have fluctuated violently. You know, the Kaiba Corp has been conducting research on the spatial dimension since it obtained the 'Quantum Cube'.

But we rarely observe readings like this, and this kind of reading often means..."

He paused, with worry in his eyes.

"We suspect that the Duel Academy island may have opened a passage to other dimensions in a brief moment. Maybe something took advantage of that opportunity to come over, or maybe something left."

Yuei Vu was silent for a moment, looking at the unconscious Judai beside him, thinking.

.....

Unknown dimension, another world.

The man was wearing heavy armor, with a fluttering cloak behind him. He walked slowly up the long stone steps to the throne at the top and turned around slowly.

He looked down from above, his sharp eyes seemed to sweep across the entire world below him, and the flames in his golden pupils burned.

Looking around, it was like an endless army bowing down in front of him. Strong men from all different worlds and twelve dimensions gathered here, bowing down in front of him and offering their loyalty.

His name was Supreme King.

He was the most evil and powerful demon king who commanded all the dimensions.

Once upon a time, he swept through the twelve dimensions without a single defeat, creating legends in countless worlds.

But this record was broken.

He just lost, lost in a peaceful dimension that seemed to have not seen wars for many years.

And the name of the only man who took his first blood was deeply imprinted in the mind of this king of another world.

"Duel King Yuei Vu."

The Supreme King narrowed his eyes, and golden flames seemed to overflow from the corners of his eyes.

Chapter 1077: Judai's Support Group

Not long after Yuei Vu and Judai arrived at Kaiba Corp, the little fans who got the news and were worried about Judai's safety followed them.

Aster and Manjoume needed not to be mentioned much, they had been with Yuei Vu since they started playing cards with Supreme King. Then there were Asuka, Rei, Marufuji Sho, Kenzan, and even Jesse Anderson, who had just met for a few days, all of them followed under the banner of "visiting classmates".

When the professional team of Kaiba Corp was doing the examination, the students waited outside the door, craning their necks and looking forward to it, just like the anxious fathers outside the delivery room.

When the doctor in charge came out and shook his head gloomily, everyone's heart sank to the bottom.

Yuei Vu also roughly understood what was going on at this time.

The Supreme King's personality was not destroyed, but it was separated from Judai's body in some unknown way through the duel just now.

But Judai was the Supreme King himself, and the dark personality was originally a part of his body. He and the Supreme King have coexisted since birth in this life, and have never been separated. No one knew what kind of impact forced separation would have.

Even in the original animation, when Judai activated "Super Polymerization" to merge his soul with Yubel's, he also said that he would give his power as the Supreme King to Yubel, but as a price, the personality named "Yuki Judai" would disappear.

"You mean..." Yuei Vu looked at Yubel who was like a ghost next to him, "to make him wake up, we have to find a way to catch the Supreme King's personality back and seal it back into Judai's body?"

"Maybe, I think it should be."

Yubel didn't look so sure.

After all, she had never encountered such a situation before, and no one dared to say what happened with certainty.

After hearing about this situation, Judai's friends immediately volunteered.

"I'll go!" Aster was the first to step forward.

The new season of the professional league was coming soon, Aster was theoretically very busy. But compared with Judai's physical condition, the league was obviously insignificant.

In short, Judai must be rescued!

"I'll go too." Manjoume also volunteered.

However, when he found that everyone's eyes were drawn to him, his face changed slightly, but he still defended himself calmly: "Don't get me wrong, whether Yu↑ki↓ Ju↑dai↓ wakes up or not has nothing to do with me."

But! I still have a score to settle with that guy called 'Supreme King'. This time, I will definitely beat him!"

Manjoume's words were resounding, and the whole person held his head high, with his windbreaker flying, which made everyone present almost believe it.

Even Mokuba beside him nodded slightly.

Yes, yes, it's my brother's style.

Especially the sound of "Yu↑ki↓ Ju↑dai↓" made Mokuba think of his brother's "Yu↑ gi↓".

Aster also quickly echoed: "Me too! The honor of being a professional duelist does not allow me to run away in a panic after being defeated!"

Yuei Vu glanced at the two of them and laughed in his heart, but he didn't say it out loud.

He felt that looking at these two, he felt like he was seeing the president of Kaiba back then.

Well, the current president didn't seem to be much better. After all, the president hadn't changed much over the years.

If there was a difference from the past, it may be that the current president had a wife.

"I'll go! I want to go too!" Saotome Rei stepped forward, "I want to help Judai-sama too!"

"Wait, first-year students shouldn't join in the fun, right?" Asuka said dissatisfiedly, "You'll just cause trouble for everyone if you go."

Rei suddenly became unhappy and pouted: "Tenjoin-senpai, you just don't want me to be with Judai-sama, right? You're not competing fairly."

Asuka's face flushed, and she said angrily: "What are you talking about? I'm just worried about him as a partner.

Besides, you're a first-year student, and it's true that you don't have enough ability and experience. Although your intention is precious, you'll only delay the main business if you go."

"Oh? Then Asuka-senpai will definitely be helpful if she goes?" Rei smiled slyly.

"!" Asuka was a little choked.

At this moment, Kenzan and Sho were also competing.

"I was here first, Kenzan, you just stay here, I will help Aniki wake up!" said Marufuji Sho.

"It has nothing to do with who came first or later, right?" Kenzan responded tit for tat, "I will never lose when it comes to enthusiasm for big brother!"

Jesse next to him also said: "Judai is my most important friend. If something happens to him, I will never stand idly by! Everyone, come with me to take a chance!"

The people he was talking to were obviously the Crystal Beasts who accompanied him, whom he considered his family.

"It's really impossible, but since you have decided so, we will certainly support you." The one who spoke was Amethyst Cat.

"We are with you at all times, Jesse!" said Sapphire Pegasus.

Jesse was full of joy: "Everyone! Okay, let's go help Judai together."

Yuei Vu: "..."

Although he said Judai was his "most important friend", if I remember correctly, they had only known each other for a few days.

Although everyone was so enthusiastic and willing to help Judai at the risk of their own safety, he, as a teacher, was also very pleased, but they actually had no idea where to find the Supreme King.

Mokuba mentioned on the plane before that when Yuei Vu and the Supreme King were dueling, there was a serious dimensional distortion over the Duel Academy Island, and there might have been a dimensional crack for a short moment.

Maybe something came through that channel, or maybe something went through it.

Now it seemed that it is very likely that the Supreme King took that opportunity to pass through the crack and returned to somewhere between the twelve dimensions he ruled – the world he should have been in.

"That's what I said, but it's too much of 'a needle in a haystack' to find where he is from all twelve worlds, isn't it?" Yuei Vu was helpless.

Like in the original work, Jesse Anderson disappeared between the twelve dimensions, and Judai went to another world without any information, which was literally like looking for a needle in a haystack.

In the end, he was able to rescue him only because of the protagonist's halo and the plot's needs.

Yuei Vu didn't think that he would just rush into another world without a plan and happen to run into the Supreme King's castle.

"I might be able to help in this regard." Yubel popped up again and said, "I still have an impression of the distribution of forces in the twelve dimensions.

Although that was a matter of the previous life, it should at least be of reference value."

Yuei Vu nodded and asked immediately: "Then do you have a way to send us to another dimension?"

After all, in the original animation, Yubel could uproot the entire Duel Academy and teleport it to another dimension with a snap of her fingers.

However, Yubel here just looked at him like an idiot.

"Who do you think I am? If I had such great ability, wouldn't I have gone to find the Supreme King myself?" She said unhappily, "Don't you have any ideas?"

Don't your little magicians have any space spells or something? And what about your Egyptian Gods? Sacred Beasts? Are they all useless things?"

"Everyone has his own specialty. They are gods and demons on Earth. They are not good at dimensional jumping." Yuei Vu was helpless.

Speaking of dimensional jumping, the only expert in the entire plane they were in now should be Aigami. But now Aigami had become a worthless person, and the state of the Quantum Cube was not stable. The Kaiba Corp was still researching it.

"By the way," Mokuba slapped his forehead and remembered something, "There is someone I have always forgotten to mention to you, Brother Yuei Vu. Maybe he can help!"

"Oh?" Yuei Vu became interested, "Who is it?"

"Wait a minute!"

Mokuba ran out and came back a few minutes later, holding a person in his hand.

Crab head?

Yuei Vu suspected that he had seen it wrong.

How could this guy be here?

A crab head shyly stretched out his hand and said hello: "Hello, Mr. Yuei Vu, we meet again. I don't know if you still remember me. I am..."

"Fudo Yusei." Yuei Vu said.

Chapter 1078: How To Play Cards Without Riding A Motorbike?

Fudo Yusei, the person chosen by the ancient mythical beast Crimson Dragon, the future Duel King of Neo Domino City, the savior who would go down in history, the son of the world...

... But he should be the son of the world in the next version!

"Yu-Gi-Oh! 5DS" clearly explained that it was the same world as the previous two DM and GX, but it did not explain in detail how many years later.

However, what was explained in the animation was that a tragedy called "Zero Reverse" cut Domino City in half.

Yusei, who was originally born in the Top district of the city and was still a baby when the disaster came, was launched to the Satellite area where the poor live through an escape capsule by his father, a scientist, and was picked up and raised by a kind lady named "Martha".

Yusei who appeared in the animation was about 18 years old, which meant that at least 17 years had passed since the Zero Reverse accident.

Obviously, until the timeline of the finale of "Yu-Gi-Oh! GX", the Zero Reverse accident had not happened. So it was estimated that Yusei may not have been born in the timeline of GX.

So there was only one explanation for the future Duel King who appeared in front of him.

"Why? Do you miss me and come back to visit?" Yuei Vu asked.

"Because there are some problems, I have to come back anyway, but that is not important for the time being." Yusei said, "My business can be discussed later.

Mr. Yuei Vu, you should be dealing with the matter of senior Judai now, right?"

The students on the side looked at each other.

Of course, they had never seen Yusei, but they thought that this crab head had a cold and handsome face, and his appearance and temperament were very mature. Coupled with the non-meta hairstyle and a golden mark on his face like a scar, he looked like a mature social person.

No matter how you looked at it, this crab-head should be older than these students, but he actually called Judai "senior" so respectfully, which always made people feel a little weird.

"Brother Yuei Vu, you may not know that the future technology is so amazing!" Mokuba said to Yuei Vu excitedly, "Yusei said that he traveled back to the present with an ordinary motorcycle in the future. He even entered our "Duel Links" system!"

Yuei Vu was a little surprised: "He got to the "Duel Links" system, so how did he get out?"

He looked at Yusei up and down.

Is there a logout button in the game world after traveling to it?

"This is what I want to tell you about," Mokuba said excitedly, "It's that motorcycle again! He actually rushed out of Duel Link directly on that motorcycle!

Isn't it incredible? I think so too!

Brother is still researching it, and we haven't figured out how he did it yet."

Yuei Vu thought: Your research direction might not be right, because strictly speaking, he didn't travel through space entirely by relying on that motorcycle. The main reason he could travel through time was because he was the protagonist and had superpowers.

However, hearing this, Yuei Vu's thinking was also opened up.

By the way, since Yusei is here, doesn't that mean that he can use his D-Wheel to go to the other dimension?

Everyone who had seen 5DS knew that Yusei's D-Wheel was really a versatile divine artifact. In the movie, he could travel through time and space to the past by riding this thing – he could even squeeze in Judai and Yugi, two seafood-headed seniors, in this single-seat motorbike, so the three of them could travel through time and space together.

In the anime series, it was clearly stated that "Accel Synchro can even surpass light". To put it simply, Yusei could even exceed the speed of light by riding this thing, teleporting, traveling through time, and even rushing out of a black hole. Its performance was far better than the best spaceships in other science fiction works.

In the finale, his D-Wheel was equipped with energy wings, and could even fly freely in the air, playing cards and flying at the same time.

For such a big guy, shouldn't crossing dimensions be a small case?

But Yusei soon explained that it was not that simple. It could be summed up as "Don't think that I can cross time and space and jump in space at any time, but in fact, I also follow the basic law when I drive the D-Wheel".

At this time, you may ask: He was almost f*cking all kinds of physical laws, and even if Mr. Newton was reborn, he would be so angry that he would send himself back to the graveyard. What basic law was there to talk about?

But it was not the case.

It's actually not a big deal to f*ck the laws of physics, because this was the world of Yu-Gi-Oh, and there was only one basic law —playing cards.

It's true that Yusei could jump through space and rush out of black holes while riding a motorbike, but most of those situations happened during Yusei's card game.

"Only when my D-Wheel is running, the perpetual motion machine named 'Momentum' installed in the D-Wheel will release 'Planetary Particles' to the maximum extent."

Yusei began to explain the settings.

"'Planetary Particles' are the root of everything, and will promote the great progress of human science in the future." Yusei said, "And only through 'Riding Duel' can Momentum run at full power and release the strongest energy."

Yuei Vu nodded, indicating that he understood.

In fact, there was nothing difficult to understand. In short, you have to play cards, and you have to play on a motorbike.

This work of 5DS was also magical. When it was first released, 90% of the audience felt that "card games on motorbikes is the stupidest thing that came out of one's mouth" and could not accept it at all.

However, 90% of the audience who watched 5DS later would think "How can you play cards without riding a motorbike?"

But now the problem came.

As the saying goes, it takes two to tango. Both sides of the duel must ride D-Wheels, but now there was only one D-Wheel, so how could this card game be played?

You can't let Yusei play cards while riding a motorbike in circles, and the other person stands in the middle without moving, right?

That picture was so stupid to think about.

However, he never expected that this problem would be solved by the omnipotent president.

"As for the motorcycle called 'D-Wheel', my brother has already imitated it!" Mokuba said.

Yuei Vu almost spat out a mouthful of blood.

Kaiba built a D-Wheel?

Fuck, it doesn't make sense! In this era, there is not even a prototype of a perpetual motion machine. How can he build a D-Wheel?

But Mokuba immediately explained: "Although it is a copy of one, the performance and basic functions seem to be far behind."

This prototype can only work when fighting against an opponent with a real D-Wheel. Because we have not yet figured out how to produce something called "Planetary Particles". Only after the opponent's D-Wheel starts to work and releases "Planetary Particles", our prototype can be activated by the opponent's "Planetary Particles."

Yuei Vu: "...President, are you so desperate to build a D-Wheel?"

Mokuba whispered to him: "Because my brother had a fight with Yusei before and the result was not decided. Later, my brother heard that Yusei could only exert his full strength in the 'Riding Duel', so he said he would build a D-Wheel to compete with him again."

Yuei Vu: "."

What else can I say?

Sure enough, the president's card addiction is the primary productive force of humankind.

Chapter 1079: Riding Duel, Acceleration!

Yuei Vu soon saw the D-Wheel that President Kaiba was personally responsible for imitating – strictly speaking, it might be the first D-Wheel created by humans in the history of the entire world.

Because it was copied from the D-Wheel that Yusei drove back, its appearance design was also very similar. Its core was also a Momentum perpetual motion machine, but it could not operate independently.

Although it has been built, this prototype has not been tested yet and has not been put into actual combat.

According to the original plan, President Kaiba seemed to be preparing to test it himself later today.

With Yusei, of course.

President Kaiba seemed to have accepted the setting that Yusei was a duelist who came back from the future to save the world like the Terminator – or after seeing Yusei's dueling skills, he no longer cared about the truth.

In short, he must play cards immediately!

Just to let Yusei give full play to his strength in the new duel mode called "Riding Duel", he had spent so much time designing this prototype these days, hoping to compete with Yusei who was going all out.

However, when he finished the work day and night and finally completed the D-Wheel, this once-in-a-lifetime opportunity was occupied by the hateful Yuei↑ Vu↓ who came out of nowhere!

When Yuei Vu "requisitioned" the D-Wheel that the president had just built, President Kaiba stood aside with his arms folded, his face livid and his eyes radiated an unfriendly gaze.

This scene made the president feel a little familiar.

Thinking back to the Battle City, President Kaiba focused on finding the hateful Yu↑gi↓ to play cards, but Yuei↑ Vu↓ suddenly appeared halfway.

On the stage of the finals that year, President Kaiba was just like today – he could only stand in the audience and watch the No. 1 man he recognized and the No. 2 man he recognized compete for the title of Duel King on the stage. He was so hot and excited that he could not do anything.

Thinking back then, President Kaiba spent money and effort, and let the whole city stand for two days to make way for their card game. He spent an unknown amount of money just to defeat Yu†gi↓ in front of the whole world and win the coveted title of "Duel King".

As a result, he never expected that the game would produce a double yolk egg – two Duel Kings were produced in one go, and neither of them was the president.

The situation in front of him really brought back some of the president's unbearable memories in the past.

The president might be angry, and he didn't even come this time. However, it was unbelievable that the president could resist the addiction to playing cards and not come to watch Yuei Vu. He speculated that the president should be sitting in the office with his legs crossed and watching online.

The venue of the competition was set on Duel Academy Island – everyone temporarily cleared a smooth track on the island for this Riding Duel.

The dimensional rift appeared when the Supreme King disappeared was on the Academy Island, so if they wanted to open the passage to that dimension again, the duel must naturally be held on this island.

So those friends who cared about Judai also followed Yuei Vu back to the island to watch the game, just waiting for the rift to open and then rushing in.

In addition, there was also a group of players who served as mentors on the island.

This was definitely the best time to use these tool people.

If Yuei Vu was right, the setting in the other dimension should be the same as the animation – any summoned spirits are in a physical state, and the damage of each game would be converted into actual damage, and the loser in the duel would disappear directly.

Under this premise, in addition to the excellent students with enough strength, the only ones suitable for accompanying were these cannon fodder tool people who would not feel bad if they died.

The distribution of forces in the other dimension was complicated. After the disappearance of the Supreme King, the powerful men became kings on their own. They all had their own armies under their command, and there were countless cannon fodders.

Although Yuei Vu was confident that he would not lose to anyone, it was time-consuming, laborious, and impractical to personally deal with any enemy, no matter how strong or weak, if he went to the other world.

So it was a good option to bring a unit of his own.

After the final debugging, Yuei Vu and Yusei's D-Wheels arrived at the starting point of the track.

At this time, the onlookers had already exploded. Someone live-broadcasted the game in real-time, and the entire player forum was instantly detonated.

"Fuck! Is that Brother Crabhead?"

"Brother Crabhead is my idol!"

"Brother Crabhead is my husband!"

"You covet my husband, what's the difference between you and Cao Cao?"

"Cao Cao: I really don't take the blame, I'm not interested in men!"

"..."

More and more people noticed the situation on the academy island and exclaimed "Fuck!".

Isn't Brother Crabhead the son of the world in the next version? Why did he come to the Duel Academy of GX?

And is he going to play cards with Yuei Vu-san?

Playing cards on a motorbike!?

Fuck.

"Mr. Yuei Vu," Yusei said respectfully, with expectation on his face, "It is my great honor to fight you in this era. Let's enjoy the duel together!"

"Yeah."

Yuei Vu responded casually, then glanced at the D-Wheel under Yusei, hesitated for a moment, and finally said nothing.

As long as you don't pull out the screws...

Yusei was a rare zero-defeat protagonist in the entire Yu-Gi-Oh series, but in fact, this zero-defeat record had to be discounted.

Once in a Shadow Game against a powerful enemy named "Earthbound Immortal", Yusei's D-Wheel seemed to have lost a screw at the moment before he was defeated and was thrown out on the spot, and the duel was forcibly terminated.

From then on, "pulling the screws" became one of the most famous memes in the history of Yu-Gi-Oh, and also became Brother Crabhead's personal label. Later on, there was even a metaphysical saying that "Brother Crabhead must pull out the screws if he can't win the game", like "Sakuretsu Armor must not be activated", was the will of the universe.

But anyway, the purpose of this duel was to open the passage to the other world rather than the victory or defeat itself, so Yuei Vu didn't care about the outcome.

"Riding Duel, Acceleration!" x2

[Yuei Vu, LP 4000]

[Yusei, LP 4000]

With the two acceleration sounds, the D-Wheel engine roared at the same time, like a steel wild horse running out of the starting line, and the brown dust behind it was stirred up.

In fact, if the rules of the future "Riding Duel" were followed, the Field Spell "Speed World" must be automatically applied first to conduct a Riding Duel.

The Speed World could not be invalidated, could not leave the field, and cannot be replaced. It will dominate the entire field from the beginning of the duel.

As long as they were in the "Speed World", both sides could not activate any other type of Spell Card except the "Speed Spell" used exclusively for the Riding Duel.

Of course, that was a product of the future. This era was obviously not so fancy.

So even if it was called a "Riding Duel", in fact, both sides were just riding a motorbike and playing cards, and the rules of the duel itself had not changed.

"Then I will take the first move, Mr. Yuei Vu."

Yusei was obviously a veteran driver. He rushed out of the first corner with a gorgeous drift, and took the first move according to the rules of the "Riding Duel".

"Please watch from now on, Mr. Yuei Vu." Yusei's eyes were firm, "This is the power I have now!"

Chapter 1080: Star Bride!

"I'm the first to go!"

Yusei drew two cards from his hand as he rushed through the first corner, and displayed them all at once.

"The effect of 'Junk Converter' in my hand!" Yusei said, "Discard this card and a Tuner monster, then add a 'Synchron' monster from my Deck to my hand."

Yuyu's mind moved slightly when he saw this card.

Junk Converter?

It's obvious from the name that this card was a member of the "Junk" series that Yusei often used.

But the problem was that Yusei in the original work should not have used this card, whether in the anime or the manga.

In other words, has this Yusei from the future been enhanced compared to the original work?

Yuei Vu frowned slightly and suddenly had a strange premonition.

I always feel that if Yusei prints new cards compared to the original, will my future self also be involved?

"I discard 'Junk Converter' and 'Jet Synchron' from my hand to the Graveyard." Yusei discarded the two cards to the Graveyard, and at the same time another card popped out of the deck, "Add the Tuner Monster 'Junk Synchron' to my hand!"

After showing the card, he immediately put it on the Duel Disk.

"Normal Summon 'Junk Synchron'!"

A burst of starlight flashed, and a short warrior wearing wide round goggles and orange armor quickly jumped out.

It was Yusei's first Tuner Monster and his favorite, Junk Synchron!

[Junk Synchron, ATK 1300]

"Junk Synchron's effect activated!" Yusei drew another card from the Graveyard.

"When this card is Normal Summoned: I can target 1 Level 2 or lower monster in my GY; Special Summon that target in Defense Position, but negate its effects.

Come back to the field, Junk Converter!"

Junk Synchron opened his palms, and a light blue vortex spun around him. The small robot warrior jumped onto the field and took a defensive stance.

[Junk Converter, DEF 200]

"It's coming, it's coming!"

Many players have begun to get restless, just like knowing that the mobile version of the game was about to be updated and salivating over the new card pool.

"Level 3 Tuner monster 'Junk Synchron', Level 2 'Junk Converter', tuning!!!"

Junk Synchron's small body disappeared first and turned into three light green rings. The robot was trapped in three parallel rings, and transformed into three shining stars, forming a straight line, and the light beam penetrated the sky and the earth.

Yusei raised his arm: "Gathering stars call forth a new power! Become the path that lights the way!"

[3+2=5]

"Synchro Summon! Appear——

—— Level 5, Junk Warrior!!!"

The stardust road guided the future, and a curtain of light fell in the shining starlight. The heavy fist of steel blasted through the starlight, and the warrior rushed out with dazzling flames behind him!

[Junk Warrior, ATK 2300]

The crowd watching the live broadcast instantly exploded.

"Synchro Summon!?" The poor student Marufuji Sho looked confused, "What's going on? Is the duel they are having the same game as ours?"

The passerby academic master Misawa Daichi was also shocked at this time, but he still reluctantly explained: "Synchro Summon... I seem to have found some relevant information on the Internet.

Many years ago, at the first KC Cup, an unidentified mysterious person used a new summoning method called 'Synchro Summon'. Some people in the academic world said that it was a new evolutionary direction for duels."

"But that should be just a theory!" Asuka was also confused, "Many organizations around the world, led by the Industrial Illusions and the Kaiba Corp, have made countless attempts at synchro summoning, but they all failed in the end, right?"

Aster looked at Yusei on the screen, and his brows gradually furrowed.

"Who on earth is this person?"

Yusei's operation was not over yet: "At this moment, the second effect of 'Junk Converter' is activated!

If this card is sent to the GY as Synchro Material: I can target 1 Tuner in my GY; Special Summon it in Defense Position."

A card was withdrawn from the Graveyard and was slapped back onto the Duel Disk by Yusei.

"Tuner Monster 'Junk Synchron'!"

The dark vortex leading to the Graveyard opened, and Junk Synchron jumped back onto the field.

[Junk Synchron, DEF 500]

"The monster summoned by this effect cannot activate its effect this turn." Yusei paused, then changed the subject, "But it can still be used as a Synchro Material!"

The students were surprised again.

"Does he plan to perform continuous Synchro Summons?!"

"Level 3, Junk Synchron! Level 5, Junk Warrior! The two monsters are tuning again!"

The Junk Synchron, who was known for "death from overwork", turned into a halo again, and nested the Junk Warrior in the middle.

"Clustering wishes will become a new shining star! Become the path that lights the way!"

[3+5=8]

"Synchro Summon!" Yusei's raised arms seemed to be submerged by the sacred light, "Take flight, Stardust Dragon!!!"

The dazzling beam of light poured down, and the iron warrior's body disappeared in it. Then, more gorgeous and brilliant starlight burst out from it, and the broad wings covered by the halo spread out without reservation, and the silver-white dragon raised its proud and gorgeous head!

[Stardust Dragon, ATK 2500]

The ace monsters of the protagonists of all generations were extraordinary spirits, and Stardust Dragon was no exception. The moment it appeared, its power as a spirit expanded with the starlight, causing the students to marvel.

Some screwballs reacted particularly well.

"Star Bride! Do you still remember me?"

"I've been single for so long that even a dragon is beautiful in my eyes..."

":"

Yusei didn't know about the idiots' off-line reactions. At this moment, he was drifting gorgeously through a corner of the temporary track, and Stardust Dragon was chasing him with flying starlight.

At this moment, he was facing the legend who was hailed as the strongest in the era he came from!

Any duelist facing such a legend might feel uncontrollably excited.

However, unlike Judai, Yusei was not the kind of duelist who "thinks with a small intestine". Compared with passion and impulse, his duel was more inclined to rely on his careful calculation and tactical arrangement.

No matter who his opponent was, he would remain calm and adopt the most appropriate strategy to counterattack.

"Set two cards, I end my turn." Yusei turned his head and said, "Come on, Mr. Yuei Vu, attack with all your strength! If we don't show our true ability, the door to the other dimension will not open to us!"

Yuei Vu thought to himself: I understand this principle, but don't you think it's really dangerous to look back while riding a motorbike?
