

I Play Yu-Gi 1111

Chapter 1111: Duel Between Leaders

The battle broke out, and everyone quickly plunged into the chaotic battlefield.

Players were creatures with loose discipline, and it was naturally impossible to have any organization in this card-based game. Everyone fought randomly, summoning their own ace monsters to bombard the most crowded places on the opposite side, until they ran into the first opponent who was willing to open the Duel Disk and play cards with them to decide the winner.

And the vampires obviously also had generals – or in the eyes of players, BOSS-level characters. Well-known spirits like Grimson, Scarlet Scourge, or Red Baron who has already died, were generals who command the army in this world.

These spirits that were familiar to the players joined the battle and soon attracted everyone's attention.

Take Vampire Grimson for example. This vampire general moved swiftly across the battlefield, breaking out of the crowd like a butterfly through flowers, and suddenly a blood mist-wrapped impact blew up a group of players.

While the players called the monsters back to defend around, some people shouted at the top of their voices.

"BOSS! It's a BOSS!" someone shouted.

"That looks like Vampire Grimson, right?"

"Fuck, a Level 5 monster is so arrogant? Look, I'll beat him!"

It happened that the closest one was President Sandbag, who wanted to go up again but was quickly stopped.

"President, don't do it! You only have one life left, so you should value it..."

"Are you kidding? How can a player not go up when seeing the BOSS?" President Sandbag couldn't be stopped at all, "I just didn't play well the last few times. Look, I'll kill him in seconds!"

Then, as expected, the LP value of President Sandbag returned to zero again in a moment, and he bid farewell to this trip to the other-dimensional dungeon with a curse to the God of Dealer's family.

"President Sandbag is dead!"

"Why am I not surprised at all..."

At the most intense moment of the battle, a domineering blood mist burst out from the city wall, carrying a shadow and slowly landing on the ground.

A pair of small boots landed on the ground as light as a feather, but the moment they touched the ground, an incredible impact broke out!

The blood-red mist swept like a tsunami from the other side of the horizon. The players had been knocked away one after another the moment they were affected by the mist, and the terrifying power seemed to dominate the whole world.

A girl with delicate features but a pale face fell to the ground, and her Gothic black skirt spread out like petals and slowly fell down. She was holding a black umbrella, and her red eyes seemed to have a magnetic force that attracted everyone's attention, making it difficult for people to look away.

"Little Miss!" Someone was surprised.

"Fuck, Little Miss, I'm calling you!"

"My waifu, come home with me..."

"Don't even think about it! Let's duel with swords... No, with the Duel Disk!" A certain screwball said, and he was actually ready to fight with his own companion.

Vampire Fraulein looked at this group of screwballs in confusion.

Are these people... talking to me?

What does "waifu" mean?

Of course, her doubts did not last long.

On the battlefield, most of the enemies' words are trying to disrupt your will, even if these enemies... seem to have a little abnormal brain.

But it doesn't matter.

I'm the queen here, I must protect all her people, this is my duty.

Fraulein gently raised one hand, and her slender five fingers gently spread out. Another powerful blood-colored energy burst out, and some players who were not able to react in time were blown to the ground.

But these guys who were blown away didn't seem to be angry, and even a little happy.

"She hit me! AWSL..."

"My waifu, hit me again!"

Vampire Fraulein: "?"

To be honest, she didn't understand what these people meant more and more.

She had fought for so many years and fought against countless enemies, but this was the first time she had heard such a weird request.

Although she didn't know why these people called her "waifu", it made her a little uncomfortable. Fraulein raised her hand again, and the shock wave poured out again...

Boom! ! !

This time, her attack failed to be successfully launched. A green afterimage flashed out as if it was teleporting, and a spinning kick with a whirlwind special effect blasted her attack away.

Fraulein's pale face changed slightly.

What a strong power!

The warrior in green armor crossed his arms and landed in front of her, and his white scarf undulated in the blood-colored wind.

Masked HERO Divine Wind!

"Finally, you showed up in person." Yuei Vu walked up to Kamikaze and smiled at him, "Can we talk first? We don't have to fight."

Maybe the charm value of 95 was really useful – after all, handsome guys had privileges in front of girls. Fraulein paused for a moment, as if waiting for him to continue.

"We have no intention of fighting you. It was actually your race that started it when we first arrived in this dimension." Yuei Vu said, "But whether you believe it or not, we are just passing by.

We just want to borrow the door in your castle that leads to other dimensions..."

"To Supreme King's Castle, right?" Fraulein interrupted him.

"...Yes."

"That's impossible."

The pale and bloodless girl looked as if she could be blown down by a gust of wind, but her eyes were as hard as steel, and her face was full of determination.

Blood mist condensed from all around and turned into a Duel Disk with fangs on her thin arms.

"Unless you step over my body." She said word by word, seriously.

"...Okay, if you insist."

The result was expected.

Yuei Vu shrugged and unfolded the Duel Disk as well.

The duel between the leaders of both sides was like the ancient two armies fighting against each other, each sending out a general to fight, and the soldiers of the two armies lined up in the back beating drums and shouting.

Everyone on the field was attracted to them.

"Duel!" x2

[Yuei Vu, LP 4000]

[Vampire Fraulein, LP 4000]

Vampire Fraulein carefully looked at Yuei Vu, holding her breath and concentrating.

The man in front of her looked like the leader of the other side.

So as long as she defeated this man, the rest would naturally retreat, right?

Then as the queen, she must win no matter what.

Because she was shouldering the whole world.

"I'll go first, draw." Vampire Fraulein said, "First, I activate the Spell Card 'Pot of Greed', and then draw two more cards from the deck.

Then Normal Summon 'Vampire Familiar'."

One of the most versatile lower-level monsters of vampires, the hardworking little black bat flapped its wings and landed on the field.

[Vampire Familiar, ATK 500]

"Then activate the Spell Card 'Vampire's Desire'." Fraulein said, "Target 1 face-up monster I control; send 1 'Vampire' monster with a different Level from my Deck to the GY, and the targeted monster becomes the Level of that sent monster in the GY, until the end of this turn.

I choose the Level 1 'Vampire Familiar' on the field, and send the Level 2 'Vampire Retainer' from the deck to the Graveyard."

[Vampire Familiar, LV 1 → LV 2]

"Familiar and Retainer... she managed to get these two monsters together again." Yuei Vu muttered.

This was a sign of the coming storm.

Chapter 1112: Heroes United

"The effect of 'Vampire Retainer' in the graveyard is activated," Fraulein began to operate, "I send 'Vampire Familiar' from my field to the Graveyard and Special Summon 'Vampire Retainer' from the Graveyard!"

The little bat quickly left the field, and the half-black and half-white wolf appeared on the field.

[Vampire Retainer, ATK 1200]

"Retainer's effect – If this card is Special Summoned: I can pay 500 LP; add 1 'Vampire' Spell/Trap from the deck to my hand.

Add the Continuous Spell 'Vampire's Domain' to my hand."

[Vampire Fraulein, LP 4000 → LP 3500]

"Then activate the effect of 'Vampire Familiar' in the Graveyard! Send 'Vampire Grimson' from my hand to the Graveyard and Special Summon it!"

[Vampire Familiar, DEF 0]

"Familiar's effect – If this card is Special Summoned: I can pay 500 LP and add 1 'Vampire' monster from the deck to my hand.

I add 'Shadow Vampire' from my deck to my hand."

[Vampire Fraulein, LP 3500 → LP 3000]

"Activate the Continuous Spell 'Vampire's Domain!'" Vampire Fraulein continued, "Once per turn: I can pay 500 LP; during my Main Phase this turn, I can Normal Summon 1 'Vampire' monster in addition to my Normal Summon/Set."

[Vampire Fraulein, LP 3000 → LP 2500]

"Use 'Vampire Retainer' as a sacrifice! Tribute Summon!" Fraulein waved her little hand, "The vampire of shadows——"

—— Shadow Vampire!"

The Familiar disappeared from the field, and a human-shaped phantom appeared in the twisted black fog. The black giant's footsteps slammed heavily on the ground, its solid body was like a rock, and its red eyes were particularly eye-catching in the darkness.

[Shadow Vampire, ATK 2000]

"Shadow Vampire's effect is activated." Fraulein said, "When this card is Normal Summoned: I can Special Summon 1 DARK 'Vampire' monster from my hand or Deck other than 'Shadow Vampire!'"

As she spoke, a card was ejected from her deck.

"Special summon 'Vampire Scarlet Scourge' from the deck."

Like a giant bat passing through the sky, the vampire in a black and white uniform fell lightly, his movements were as elegant as a gentleman, but there was a strange and sinister smile on the corner of his mouth.

[Vampire Scarlet Scourge, ATK 2200]

"Then there is the effect of Scarlet Scourge," Vampire Fraulein continued, "Pay 1000 LP to Special Summon 1 'Vampire' monster from my Graveyard.

I special summon the 'Vampire Grimson' that I just sent to the graveyard!"

[Vampire Fraulein, LP 2500 → LP 1500]

Paying 1000 life points in one breath, a black vortex opened on the side, and the death-like vampire slowly rose from the vortex leading directly to the underworld, holding a sickle that urged death.

[Vampire Grimson, ATK 2000]

"Set two cards, I end my turn."

After a series of operations, Fraulein finally ended the turn with two cards covered.

The surrounding vampires have begun to stir.

"Oh, as expected of the Queen! She summoned such a powerful lineup in a flash..."

"Ha, those alien warriors have no chance at all!"

But what they didn't expect was that some of the idiots on the opposite side not only did not refute them or cheer them up but actually agreed.

"Yes, yes! Your queen is awesome!"

All the vampires: "???"

"Really, which side are these teachers on?" Manjoume felt a little bit uncomfortable.

"Don't worry, they have always been like this." Aster said, "Compared to this, we must pay attention. Yuei Vu-sensei is about to make a move!"

Glancing at the vampire lineup that Fraulein had arranged on the field, Yuei Vu chuckled.

"What a luxurious lineup... But this is more interesting."

Yuei Vu put away his smile and showed a serious expression.

"When a crisis that a single hero cannot fight, the heroes will gather together to form an alliance to solve those problems that can only be solved by working together. This is inevitable in every world where heroes exist."

Yuei Vu paused.

"Then let me show you the power of the heroes united!"

He drew a card and quickly picked a big card from his hand.

"Spell Card 'E-Emergency Call', add 1 'Elemental HERO' from the deck to the hand." Yuei Vu said, "I add 'Elemental HERO Stratos' to the hand.

Then 'Elemental HERO Stratos' is Normal Summoned!"

In a milky white whirlwind, the flying hero in high-tech armor landed on the vortex cyclone.

[Elemental HERO Stratos, ATK 1800]

"Stratos's effect!" Yuei Vu said, "When this card is Normal or Special Summoned, add 1 'HERO' monster from my Deck to my hand."

"Not so fast." Fraulein flipped open her set card, "Counter Trap 'Vampire Domination'! While I control a 'Vampire' monster, when a Spell/Trap Card, or monster effect, is activated: Negate the activation and destroy that card.

If that card is a Monster Card, I gain LP equal to its original ATK."

She stretched out a delicate finger.

"Negate the effect of 'Elemental HERO Stratos'!"

The forbidden power of vampires erupted, and Stratos was wrapped in blood mist from all directions. The high-tech armor on his body made a "crackling" explosion and wailing, and then the whole person exploded.

"I restore LP equal to the attack power of 'Elemental HERO Stratos'," Fraulein continued, "which is 1800 points."

[Vampire Fraulein, LP 1500 → LP 3300]

"Not only interrupted the opponent's key action, but also restored a lot of LP on this basis!" A vampire couldn't help but praise, "You are worthy of being Her Majesty the Queen!"

Players: "My waifu is awesome!" (broken voice)

Vampires: "..."

Vampire Domination was indeed a trump card for vampires. It could negate any effect and also came with a powerful blood-sucking ability – this was really powerful for a rare blood-deficient deck like Vampire.

More importantly, this trap could be retrieved by monster effects, making it more stable.

It's still quite hurt for Stratos to be negated, and it may even be a fatal injury to the HERO deck at some point.

But not today.

"Then activate the Spell Card 'Foolish Burial'." Yuei Vu said, "Send 1 monster from my deck to the graveyard.

I will send 'Elemental HERO Shadow Mist' to the graveyard."

Shadow Mist was sent to the graveyard, and the heroes got back into the rhythm of operation.

"When 'Elemental HERO Shadow Mist' is sent to the GY: I can add 1 'HERO' monster from my Deck to my hand." Yuei Vu said, "I will add 'Vision HERO Faris' to my hand."

The recruit of the omnipotent Faris quickly excited many card players and shouted some weird slogans. Such as "One card creates everything" and "This combo is engraved into my DNA".

Next was the stage for the heroes!

Chapter 1113: Sunrise!

"The effect of 'Vision HERO Faris'! Discard 1 other 'HERO' monster; Special Summon this card from my hand!"

[Vision HERO Faris, ATK 1600]

"When Faris is successfully summoned, I place 'Vision HERO Increase' from my Deck in my Spell & Trap Zone as a face-up Continuous Trap." Yuei Vu continued, "Then comes the effect of Increase. Tribute 'Vision HERO Faris' and Special Summon this card from my Spell & Trap Zone!"

[Vision HERO Increase, ATK 900]

"The subsequent effect of Increase! If this card is Special Summoned from the Spell & Trap Zone: I can Special Summon 1 Level 4 or lower 'Vision HERO' monster from my Deck. I Special Summon 'Vision HERO Vyon'!"

[Vision HERO Vyon, ATK 1000]

"Vyon's effect! If this card is Normal or Special Summoned: I can send 1 'HERO' monster from my Deck to the GY. I send 'Destiny HERO Malicious' to the Graveyard.

Then I activate his second effect. Banish 'Vision HERO Faris' in my GY, add 1 'Polymerization' from my Deck to my hand."

"Activate Spell Card – Polymerization!" Yuei Vu directly played the card that he had just retrieved, "Fuse 'Vision HERO Vyon' on the field with 'Elemental HERO Liquid Soldier' in my hand!

The fusion condition is 2 'HERO' monsters with different Attributes!

A hero that shines like the sun, illuminating the end of the sky with endless brilliance! Fusion Summon!

A brand new radiant Elemental HERO——

——Elemental HERO Sunrise!"

A new fusion, a brand new power that merged the power of the Elemental HEROes! Like the dawn that quietly broke through the sky, it was like the sun slowly rising from the other side of the horizon, and the endless golden light spread all over the earth with a warm current.

The high temperature light seemed to distort the space, and the hero's majestic figure appeared under the erratic golden light. His armor was a fiery red, and his cloak was like waves against the background of the sun.

[Elemental HERO Sunrise, ATK 2500]

Many card players were not calm: "Wow, Sunrise!"

"When did Yuei Vu-san secretly print this card?"

"Elemental HERO's Final-E!"

Even Aster was surprised.

"Sunrise!?" He widened his eyes, "A new Elemental HERO that I haven't even heard of!? When did Mr. Yuei Vu..."

Yuei Vu waved his hand.

"First, the effect of 'Elemental HERO Liquid Soldier'. If this card is used as Fusion Material for a 'HERO' monster, and sent to the GY or banished: I can draw 2 cards, then discard 1 card."

Yuei Vu drew two cards, picked out a card from his hand and discarded it, and then pointed to the cool and domineering new Elemental HERO on the field.

"Sunrise's effect! If this card is Special Summoned, add 1 'Miracle Fusion' from my deck to my hand."

The card popped out and Yuei Vu drew it into his hand.

"Then activate the Spel Card 'Legacy of a HERO'. If there are 2 or more Level 4 or higher 'HERO' monsters in my Graveyard, draw three cards."

"Activate the Spel Card 'Miracle Fusion'!"

The Spel Card appeared in front of him, projecting a large golden H.

"Fusion Summon 1 'Elemental HERO' Fusion Monster from my Extra Deck, by banishing Fusion Materials from my field or GY!"

Yuei Vu drew the two cards that were withdrawn from the Graveyard.

"Fuse the 'Vision HERO Vyon' and 'Elemental HERO Liquid Soldier' in the graveyard!"

The fusion condition is 1 'HERO' monster + 1 WATER monster!

Born from the abyss of extreme cold –

– Elemental HERO Absolute Zero!!!"

The brilliance of miracles burst out, and the two heroes merged into it, erupting a zero-degree vortex. The cold wave swept across the field, and the hero in white armor spun around and flew out.

[Elemental HERO Absolute Zero, ATK 2500]

"Next is the effect of the 'Destiny HERO Malicious' in the graveyard," Yuei Vu said, "Banish this card from my GY; Special Summon 1 'Destiny HERO Malicious' from my Deck!"

[Destiny HERO Malicious, ATK 800]

"Spel Card 'Fusion Substitute!'" Yuei Vu said, "Fuse the 'Destiny HERO Malicious' and 'Vision HERO Increase' on the field!

The fusion condition is 2 'HERO' monsters! Fusion Summon—

—— Vision HERO Adoration!!!"

The two heroes merged into the vortex of fusion again, and the dark light column burst out, and the chaotic energy rushed out. The Vision HERO flew out with his arms folded, and the black streamers flew behind him. The moment his feet landed, it seemed to blast the ground to sink.

[Vision HERO Adoration, ATK 2800]

The vampires on the side couldn't help but stir again.

"This warrior actually summoned so many powerful monsters in one turn!"

"Is he as good as Her Majesty the Queen..."

"And he was interrupted by a counter trap..."

"Elemental HERO Sunrise has another effect." Yuei Vu said, "Monsters I control gain 200 ATK for each different Attribute I control.

Now I have LIGHT, DARK, and WATER monsters on the field, so the attack power of all heroes is increased by 600."

[Elemental HERO Sunrise, ATK 2500 → ATK 3100]

[Elemental HERO Absolute Zero, ATK 2500 → ATK 3100]

[Vision HERO Adoration, ATK 2800 → ATK 3400]

"Next is the effect of Adoration," Yuei Vu waved his hand, "Once per turn: I can target 1 face-up monster the opponent controls and 1 other 'HERO' monster I control; the opponent's targeted monster loses ATK and DEF equal to the ATK of my targeted monster, until the end of this turn!

I choose 'Elemental HERO Sunrise' to reduce the attack power of 'Vampire Grimson' by Sunrise's attack power – that is, 3100 points! "

Adoration raised his arms, and the invisible force immediately pressed on the Grimson like invisible gravity. The latter immediately groaned and half-knelt on the ground, with the sickle struggling on the ground.

[Vampire Grimson, ATK 2000 → ATK 0]

"Oh no!" A vampire said nervously, "In this way, Her Majesty the Queen can't withstand the opponent's attack..."

"Battle!" Yuei Vu raised his hand, "Vision HERO Adoration, attack 'Vampire Grimson!' Ambition Sanctions!"

The power of Adoration was activated, the black streamers flew up, and the powerful impact tore the ground and burst out, like heavy artillery bombarding the Grimson, causing super high damage that was almost enough to kill the opponent instantly...

...Not happen!

If you looked closely, the impact of Ambition Sanctions did not directly hit the Grimson. A layer of light-colored irises blocked the attack of the Vision HERO like a barrier!

"Trap Card 'Draining Shield'," said Vampire Fraulein, "When an opponent's monster declares an attack: Target the attacking monster; negate that attack, and gain LP equal to that target's ATK!"

[Vampire Fraulein, LP 3300 → LP 6700]

"Beautiful!" A vampire immediately began to rejoice, "As expected of Her Majesty the Queen! Not only did it block the attack, but it also restored a lot of LP on this basis..."

"Then what about the third effect of 'Elemental HERO Sunrise'!"

Fraulein's face changed slightly.

Does this monster actually have a third effect?

"This effect can be activated if an attack is declared involving a 'HERO' monster other than Sunrise on my side of the field." Yuei Vu said, "Destroy a card on the field.

I destroy the Continuous Spell 'Vampire Domain' on your field!"

Chapter 1114: Come To The Field Yourself

Seeing the "Vampire's Domain" beside her being blown up, Fraulein couldn't help but frowned slightly.

"Vampire's Domain" was still very important for the operation of her deck. The Vampire deck was very dependent on life points, and this domain had the important effect of "absorbing the damage caused to the opponent as life points".

In addition, most of the main monsters of vampires were summoned by Tribute Summon, and this "Vampire's Domain" also had the very important ability of "adding the number of normal summons".

Overall, it was still a bit hurt that this Continuous Spell was blown up by Sunrise here.

However, now that she has recovered some blood with Draining Shield, at least her LP was still sufficient.

"The battle continues," Yuei Vu said, "Elemental HERO Absolute Zero, attack 'Vampire Grimson'!"

Absolute Zero was surrounded by a cold wave, and the crystal clear ice crystals danced around the transparent storm, and the white cloak rippled with the wind.

Ice crystals like flower rain penetrated the body of the Grimson, and the vampire general screamed sharply and shattered in the extremely cold temperature.

[Vampire Fraulein, LP 6700 → LP 3600]

The cold wave swept through Fraulein's body, and her petite body like a flower looked weak in the cold wind, as if it would wither with a slight blow.

But she actually held on tenaciously, slid back a few steps, but stood firmly, like a piece of bamboo that refused to bend.

Originally, "Vampire Grimson" was a crucial part of her defense line on the field. When any monster on the field was destroyed, the Grimson could pay 1000 life points instead of destroying it, which had a protective effect on the whole field.

But Yuei Vu chose to reduce the attack power of Grimson first. In this way, if Fraulein used his effect, the Grimson with an attack power of 0 would be exposed on the field without defense and continue to withstand attacks.

That would be like being naked in front of the opponent.

"Is it a coincidence that you prioritize attacking the Grimson?" Fraulein frowned, "Or do you know my deck?"

"It's not over yet," Yuei Vu raised his hand, "Next is 'Elemental HERO Sunrise', attacking 'Vampire Scarlet Scourge'."

The Final-E finally made a move. The strong golden light released from his palm was as dazzling as the rising sun, looking down from a high place, piercing the pale-faced vampires who showed ugly expressions.

Although the vampires in Yu-Gi-Oh did not say that they would "die in the light" like traditional vampires, they could not like the sun after all. Sunrise, who was like the incarnation of the sun, was simply their natural enemy.

Miss Fraulein raised her head, her blood-red eyes flashing like rubies.

"I'm waiting for this moment."

Yuei Vu frowned slightly.

"At this moment," she turned over her hand and raised her voice, "I activate my own effect.

When a monster declares an attack, 'Vampire Fraulein' can be Special Summoned from the hand in Defense Position."

Blood mist gathered, and invisible magic gathered in the field. The blood and mist formed a vortex in the field, and the vampires on the field retreated one after another, lowering their noble heads, as if to make way for their queen to appear.

In the center of the vortex, a beautiful figure slowly rose. Exquisite facial features, pale skin, and a face like a porcelain doll. Vampire Fraulein walked out slowly with the black rose-like umbrella.

[Vampire Fraulein, DEF 2000]

"You come to the field yourself." Yuei Vu thought for a moment, "Then a Battle Replay occurs and I cancel the attack."

As long as Vampire Fraulein was on the field, when her Zombie monster battled an opponent's monster, she could pay life points in multiples of 100, and add part of the paid life points as attack power to the monster in battle.

So if he continued to attack, Fraulein would undoubtedly choose to pay the life points to convert into the attack power of the Scarlet Scourge, and Sunrise would be killed instead.

"Set a card, I end my turn." Yuei Vu said.

Vampire Fraulein was a little surprised.

He didn't attack me?

Is he guarding against my special effect...

...Or does he already know my ability?

She felt a little irritated. She felt that the opponent seemed to have seen through her actions from the beginning of the duel, and knew all her operation steps, card effects, and playing ideas.

For the duelist, it was like being naked and being seen by the opponent, which made her feel bad.

"My turn."

The empress of vampires quickly played the card she drew.

"Spell Card 'Graceful Charity'. Draw 3 cards, then discard 2 cards."

She chose the two discarded cards without much hesitation, and continued: "And the card I just discarded is 'Broww, Huntsman of Dark World'. If this card is discarded to the GY by a card effect: Draw 1 card."

She then inserted another card into the duel disk.

"Spell Card 'Akashic Record'. Draw 2 cards and reveal them. If any of those cards have been played during the Duel, remove that card from play."

Then a card in her graveyard was removed.

"Then I use the effect of the 'Vampire Retainer' that I just discarded to the Graveyard," she showed the card, "Send the 'Vampire Voivode' in my hand to the Graveyard, and Special Summon it!"

Blood mist rolled, and the second Vampire Retainer jumped onto the field.

[Vampire Retainer, ATK 1200]

"Retainer's effect – If this card is Special Summoned: I can pay 500 LP; add 1 'Vampire' Spell/Trap from the deck to my hand." Fraulein showed the card she wanted to retrieve, "I added the Counter Trap 'Vampire Domination' from the deck to my hand."

[Vampire Fraulein, LP 3600 → LP 3100]

Yuei Vu frowned slightly.

It's that troublesome Counter Trap again...

Vampire Domination could negate and destroy any spell, trap, or monster effect. It had the top single-card performance in the Vampire series and was very powerful.

What's even more amazing was that this card could even be retrieved through the effects of other cards, which greatly increased the overall strength of the deck.

"Take the 'Vampire Retainer' and 'Vampire Familiar' on the field as sacrifices! Tribute Summon!"

Fraulein raised her hand and raised her voice.

"The charming femme fatale, the strongest servant of the empire–

-Vampire Vamp!"

Retainer and Familiar both disappeared, and blood gushed out from the ground. The curvy female vampire slowly appeared, her gloved right hand crossed on her slender white waist, her face was so beautiful that it seemed to have magic, and every frown and smile seemed to carry an indescribable magnetism.

[Vampire Vamp, ATK 2000]

The appearance of Vampire Vamp immediately caused the players to explode on the spot again.

"AWSL!"

"Mom, I'm in love again!"

"My waifu, what are you doing here? Come home with me!"

"Let me tell you a secret, your waifu is awesome in bed..."

The surrounding vampires were confused again.

Why do you have so many waifus?

The prototype of Vampire Vamp came from an ancient legend.

It was said that she is a vampire who would assault men at night when they were sleeping in the Middle Ages, and would come to the bed without anyone noticing when the men were sleeping soundly and suck life essence from them.

It was hard to say how credible the legend is, but at least the card picture of Vampire Vamp was indeed a bed.

Well, of course this did not hinder the enthusiasm of gentlemen to call their wives.

After all, there were all kinds of gentlemen, and some gentlemen just had this kind of fetish.

"Vampire Vamp's effect is activated." Fraulein said softly, "Once per turn, when this card or a 'Vampire' monster is Normal Summoned to my field: I can target 1 monster the opponent controls whose ATK is higher than this card's; equip it to this card."

She raised her hand lightly and pointed to Yuei Vu's field.

"Absorb 'Elemental HERO Absolute Zero'."

The Vamp smiled seductively, threw a wink, and her eyes lit up red.

As the saying goes, heroes are always tempted by beauties. It seemed that even a cold hero like Brother Absolute Zero was not immune to this. His eyes flashed red, and his body was immediately pulled to the opponent's field as if he was out of control, becoming the equipment of the Vamp.

"The attack power of Vampire Vamp increases by the original attack power value of 'Absolute Zero'." Fraulein said.

[Vampire Vamp, ATK 2000 → ATK 4500]

Her subordinates burst into cheers again.

"Her Majesty the Queen's strength is really unfathomable!"

"Four thousand five hundred attack power in a flash!"

Aster on the side said in a deep voice: "In fact, it's not just that. Absolute Zero originally had a powerful counterattack ability that would destroy all the opponent's monsters no matter what when he left the field."

"But if he was not knocked down, but absorbed, this effect would be useless." Asuka also said.

Fraulein continued, "In addition, because the number of different attributes of monsters on your field are reduced, the attack power of the remaining heroes will also decrease."

[Vision HERO Adoration, ATK 3400 → ATK 3200]

[Elemental HERO Sunrise, ATK 3100 → ATK 2900]

"Battle!" Vampire Fraulein raised her hand, "Use 'Vampire Vamp' to attack 'Elemental HERO Sunrise!'"

The priority target was Sunrise. When other heroes other than Sunrise battled, he could blow up one card on the opponent's field. But if Sunrise himself was attacked first, this ability could not be activated.

Absolute Zero's power was absorbed, and the strength and weakness were reversed. Sunrise was no match for the Vamp at all. With one blow, the red armor shattered and his body was torn apart.

[Yuei Vu, LP 4000 → LP 2400]

This really hurts a bit. The blood-colored shock was accompanied by the extreme cold power from absolute zero. Yuei Vu could feel that his muscles and bones were pierced by countless cold needles, and his body was also blasted back.

But he only bent down slightly to stabilize his body, patted his shirt and stood up as if nothing had happened.

Vampire Vamp licked her bloodless lips with her tongue, and looked at Yuei Vu with interest: "I like your face.

When you lose, I might consider letting you be my collection."

"Sorry, but you are not my type." Yuei Vu smiled.

She seemed to want to say something, but her master obviously did not intend to give her this opportunity.

"Next is 'Vampire Scarlet Scourge'," she continued to order, "attack 'Vision HERO Adoration'."

After receiving the order, the Scarlet Scourge immediately turned into a residual shadow and flew out, with a strange laugh of "Haha" in his mouth, and stretched out his arms to grab the worshiper.

"Because Sunrise was destroyed, Adoration's attack power has also returned to its original state." Fraulein said.

[Vision HERO Adoration, ATK 3200 → ATK 2800]

"But the hero's attack power is still higher!" Marufuji Sho said.

Then Fraulein continued: "At this moment, activate the effect of my own clone 'Vampire Fraulein'.

Once per battle, if my Zombie monster battles an opponent's monster: I can pay LP in multiples of 100; my battling monster gains that much ATK/DEF during that damage calculation only. But the upper limit of payment is 3000 points."

Fraulein on the field slowly turned the small umbrella in her hand, and her eyes emitted a scarlet strange light.

"I pay 2000 life points," Fraulein said, "This part is all converted into the attack power of 'Vampire Scarlet Scourge!'"

[Vampire Fraulein, LP 3100 → LP 1100]

A light red light enveloped Fraulein, and blood seemed to be drawn out of her petite body in the form of mist. She hummed a few times and shook her body, her face, which was already as white as paper, looked even paler.

[Vampire Scarlet Scourge, ATK 2200 → ATK 4200]

But the effect of such a huge price was also immediate. Scarlet Scourge tore the Adoration's body apart with one blow, and the blood-red impact continued to sweep towards Yuei Vu.

"Open the set card: Trap Card – Defense Draw!" Yuei Vu flipped the card in his back row, "Make the battle damage I take from this battle 0, and I can draw 1 card."

The damage that Fraulein risked her life for was blocked by the milky white protective layer. She couldn't help but frown slightly, and then continued to raise her little hand: "Then I still have 'Shadow Vampire', attack directly."

The rock-like vampire stepped forward clumsily, and the black fist blasted heavily.

"Then at this moment, I discard the 'Destiny HERO Dynatag', and its effect will be activated." Yuei Vu put a card in his hand into the graveyard, "Make the battle damage I take from this battle 0, and then both sides will receive 1000 points of damage at the same time!"

The image of the Destiny HERO emerged, blocking the vampire like a shield. The Shadow Vampire punched the transparent shield with a heavy punch, and sparks flew.

Lava-like lines quickly covered the body of the Destiny HERO, and the hero immediately detonated like a landmine, and the impact of the explosion rolled over both sides at the same time.

[Yuei Vu, LP 2400 → LP 1400]

[Vampire Fraulein, LP 1100 → LP 100]

It was clearly Fraulein who took the initiative to attack, but this punch made her LP drop to the danger zone.

"Your Majesty!" Many vampires watching on the scene couldn't help but panic for her.

But Fraulein only half-knelt for a few seconds, and soon stood up staggeringly. You could hardly believe how such a tenacious perseverance was contained in that small body.

It's not over yet.

She still had 100 life points left, which was enough.

As long as she has a breath, she would still be the queen of this country.

"I set two cards."

She inserted all the remaining cards in her hand, and the projections of two cover cards appeared on the left and right next to her small black boots.

"My turn is over."

"Then it's my turn, draw."

Yuei Vu looked at the card he drew, added it to his hand, and then took out another card from his hand.

"Normal Summon 'Elemental HERO Bubbleman'."

The hero in blue armor jumped onto the field, surrounded by a stream of blue water.

"Bubbleman's effect," Yuei Vu said, "When this card is Summoned, if there are no other cards on my side of the field, draw 2 cards." (Animation effect)

"Open the set card: Counter Trap – Vampire Domination!" Fraulein raised her little hand, "When a Spell/Trap Card, or monster effect, is activated while I control a 'Vampire' monster: Negate the activation and destroy that card!"

The same trap as the last turn, the power of blood directly penetrated Bubbleman's armor and blew it to pieces from the inside out.

"'Elemental HERO Bubbleman' is a Monster Card, so I can restore LP equal to its original ATK."

[Vampire Fraulein, LP 100 → LP 900]

Although the recovery was not much, it at least pulled her away from the line of life and death.

And in this way, Yuei Vu's only chance to Normal Summon this turn has been used up, and the field was still empty. The effect of Bubbleman was not successfully activated, and Yuei Vu was unable to use its ability to replenish the hand cards. This summoning seemed to be meaningless.

Well, it was not completely meaningless.

"Then activate the Spell Card 'The Shallow Grave'. Each player can select a monster in their Graveyard and Special Summon it in face-up Defense Position." (Animation effect)

Yuei Vu showed the card that was retired from the graveyard: "I summon 'Elemental HERO Bubbleman'."

The card fell, and Bubbleman jumped onto the field with the leaping water.

[Elemental HERO Bubbleman, DEF 1200]

"Then I Special Summon 'Vampire Grimson' in Defense Position." Fraulein said.

[Vampire Grimson, DEF 1400]

"Bubbleman's effect," Yuei Vu said, "When this card is Summoned, if there are no other cards on my side of the field, draw 2 cards."

Fraulein frowned and said, "At this moment, the effect of 'Vampire Voivode' in the graveyard is activated! When the opponent special summons a monster from their graveyard, I can Tribute 2 monsters to special summon it from my graveyard."

She pointed to her field.

"I sacrifice 'Shadow Vampire' and 'Vampire Scarlet Scourge' to revive 'Vampire Voivode' from the graveyard!"

With a completely different momentum from before, the burly male vampire seemed to walk out from the deepest part of hell. He was dressed elegantly, wearing a fiery red cape, with a creepy smile on his face.

[Vampire Voivode, ATK 2800]

Vampire Voivode? Yuei Vu's eyes moved slightly.

What a troublesome thing.

But it doesn't matter.

"I activate the Spell Card 'Miracle Fusion' from my hand!"

Seeing the Spell Card emerging in the light, Fraulein's eyelids jumped slightly.

This card again?

"Banish the 'Vision HERO Increase' in the graveyard and the 'Elemental HERO Bubbleman' on the field and fuse them!

The fusion condition is 1 'HERO' monster + 1 WATER monster! Fusion Summon!

Born from the abyss of extreme cold—

—Elemental HERO Absolute Zero!!!"

The phantoms of the black and aqua heroes merged into the whirlpool, the wave of ice crystals erupted, and the hero who controlled the absolute low temperature appeared again.

[Elemental HERO Absolute Zero, ATK 2500]

"It's useless," Fraulein said, "This hero is powerless in front of my vampires."

"That's hard to say, maybe the hero's power has not been truly released?" Yuei Vu smiled and showed another card, "Quick-Play Spell – Mask Change!

Send 1 'HERO' monster I control to the Graveyard, then Special Summon 1 'Masked HERO' monster from my Extra Deck with the same Attribute.

I send 'Elemental HERO Absolute Zero' to the graveyard, transform!!!"

Yuei Vu raised his right hand high, and the special effect of the transformation surrounded the ice hero, and the ice crystal wave turned into a brand new boot, covering the hero one by one.

The gorgeous light effect turned into a blue tight armor, thin and strong, clinging to the body like skin. Then the energy turned into a red armor plate to protect the heart, and the hero's eyes were covered behind the fiery red eyepiece, and his sight was as cold as a knife.

Masked HERO Acid, summon! ! !

"Acid!" A player immediately shouted excitedly.

"Brother Acid!"

"Bow before Acid!"

Masked HERO Acid was recognized as the most practical and powerful Masked HERO besides Dark Law. He had a powerful offensive ability to sweep the entire field and end the game in an instant!

"At this moment, the effect of 'Elemental HERO Absolute Zero' is activated." Yuei Vu said, "When Absolute Zero leaves the field, all monsters on the opponent's field are destroyed!"

Fraulein: "I see, it actively transforms into a stronger form and triggers the ability to clear the field at the same time.

But it won't be that easy."

Vampire Fraulein pointed to the big monster that had just appeared in front of her: "Vampire Voivode's effect is activated! Once per turn, when a monster's effect is activated, while a monster with its same name is in the GY: I can negate that activation!"

Yuei Vu nodded slightly: "My Absolute Zero is in the graveyard..."

"That's right," said Vampire Fraulein, "So according to the effect of Voivode, the effect of Absolute Zero is negated!"

Voivode maintained a weird smile, raised his hand lightly, and snapped his fingers. Absolute Zero's power was immediately restrained, and the field of ice crystals collapsed in an instant.

In this way, this effect actually restrained Absolute Zero quite a bit. Because the effect of Absolute Zero was usually activated in the graveyard, and if it was, it would be negated by the Voivode anyway.

"Good defense." Yuei Vu smiled, "But my effect is not yet resolved."

Fraulein bit her white teeth lightly, and the tip of the vampire fangs appeared under her white and transparent lips.

"Next is the effect of 'Masked HERO Acid'." Yuei Vu raised his hand, "When this card is Special Summoned: Destroy as many Spells and Traps the opponent controls as possible!"

Vampire Fraulein: "!"

The other vampires also lost their composure instantly.

"Hey, hey, won't they all be destroyed in this way!?"

"The form before transformation can destroy monsters, and the form after transformation can destroy Spells and Traps. How can we defend against such monsters!?"

The highly corrosive acid swept through Fraulein's backfield, rolling up the remaining set card along the way.

Dimensional Prison, a powerful trap that could directly remove the attacking monster from the game at the moment the opponent declared an attack.

Unfortunately, it didn't have a chance to appear.

And that's not all.

"Moreover, at the moment when the effect of Acid took effect," Yuei Vu smiled, "the other 'Elemental HERO Absolute Zero' that was absorbed by your 'Vampire Vamp' was also destroyed.

Because that monster is also my monster, it will naturally return to my graveyard after being destroyed."

Yuei Vu showed the destroyed "Absolute Zero" and smiled.

"So I don't need to say more about what will happen, right?"

Fraulein gritted her teeth: "All my monsters will be destroyed."

"Correct." Yuei Vu snapped his fingers, "Elemental HERO Absolute Zero, the moment it leaves the field, the monsters on the opponent's field—

—will all be destroyed!"

Fraulein looked grim.

"Wait, if Her Majesty use the effect of Voivode again..." a vampire shouted.

"The effect of the Vampire Voivode can only be used once per turn." Yuei Vu said, "So even if you want to negate this effect, you can't.

So, all of you, disappear!"

The cold wave swept across the entire venue. Vampire Vamp, Vampire Voivode, Vampire Fraulein, everything turned into ice crystals in the endless cold wave, and finally shattered gorgeously and brilliantly.

"That's the end." Yuei Vu said, "Masked HERO Acid, attack directly."

The Masked HERO leaped high, jumped into the air with amazing jumping power, and then hovered. He held the gun with both hands, and the black muzzle pointed diagonally downward at the daughter, and the water swirled around the muzzle like a whirlpool.

The gun fired, and the impact surrounded by light blue energy swooped down. The huge energy exploded on the ground, and the buzzing almost drowned out the shouts of the surrounding vampires.

The girl was blown into the air, so light that she could hardly feel her own body.

[Vampire Fraulein, LP 900 → LP 0]

Chapter 1117: A New Realm of Duel

Boom!!!

A shot of acid water hit the location of the Vampire Fraulein diagonally downwards, exploded, and the gorgeous light curtain special effects annihilated the whole scene. The shock wave rolled up into the air like a tsunami, blocking the view.

[Vampire Fraulein, LP 0]

"Her Majesty!"

A group of vampires panicked immediately and rushed up to check on their queen.

But when the shock swept over, the dust that was blown up fell to the ground, leaving only a shocking big pit on the ground.

Their queen was gone.

Yuei Vu raised his eyebrows: "Wow, for a vampire, she ran away quite quickly."

"....."

That's right. Fraulein ran away when she saw the situation was not good.

As one of the four strongest generals under the Supreme King, Fraulein was different from the ordinary fish in the twelve dimensions. She still had some means to save her life. As long as she was well prepared in advance, she would not die on the spot even if she lost a duel.

But even so, she was still seriously injured.

The duelist named Yuei Vu was much stronger than she had imagined. Before, she still couldn't believe how a top warrior like La Mort fell, but now she seemed to understand a little.

"The one who got rid of La Mort... was this person, right?"

Vampire Fraulein sat on her throne, breathing lightly.

Of course, she didn't like La Mort. The magician dimension and her vampire dimension had fought for many years, and this guy named La Mort was the culprit.

But no matter what, La Mort was also one of the four top warriors on par with her, and they had once worked together under the Supreme King. Now that this former colleague and enemy had died, she couldn't help but feel a little sad.

In fact, it was La Mort's idea to go to the Duel Academy Island and awaken the Supreme King's sleeping soul.

La Mort took the initiative to find her because as the vampire queen, she was the most proficient in mind control besides Yubel.

The plan was that La Mort would be the first to come forward and fight head-on with the boy who hosted the soul of the Supreme King in his body, and stimulate the soul of the Supreme King to awaken with strength.

The next task was Fraulein's.

La Mort would create an opportunity for her to have direct contact with the boy. According to the plan, the Supreme King should be on the verge of awakening at that time, and only the last step was needed.

And Fraulein would complete the final blow and let their king awaken again.

The plan... I don't know if it can be said to be smooth.

In theory, every step and every link was completed. The only unexpected change was that La Mort himself could not hold on.

The strength, mobility and strength of the duel master in that dimension exceeded their imagination. La Mort's disguise was exposed, and he lost in the fight with the "Duel King" of that dimension, and stayed there forever.

The reason why the Vampire Fraulein accepted the proposal of La Mort, who was her enemy, was because she was really tired of the war.

Her relatives, friends, most trusted subordinates, and most loyal soldiers all disappeared in the war. As a queen, she couldn't even show sadness, and she had to remain calm and strong at all times, leading the army to win battles again and again.

But she was really tired.

And the war seemed to never stop, and she couldn't see the dawn of the future at all.

For other people in this country, she was everyone's beacon and lighthouse. She could give all the vampires the courage to fight and hope for the future. As long as she was still there, the country could continue to persevere.

But the question was, who would give her hope?

This was why she agreed to La Mort's proposal; she had never missed the days when the Supreme King was still there as much as she did now.

All dimensions succumbed to absolute strength, and everyone obeyed the leadership of the Supreme King. The twelve dimensions were a complete whole, and there had never been an endless war like now.

But now it seemed that this seemed to be a wrong move.

Because in order to liberate the Supreme King, she seemed to have brought a more terrifying enemy to this dimension.

She knew clearly that after her defeat, the front line would soon be unable to hold on. It was only a matter of time before this castle was breached. Even while she was sitting here gasping for breath, those strange people from other dimensions outside might have broken through the defense line and rushed into the castle.

"Your Majesty, you don't look good."

The sudden voice startled her.

She turned her head and saw Vampire Vamp who was walking up the steps slowly on the red carpet.

Fraulein was surprised that she had not noticed her entry at all. It seemed that after the fierce battle just now, her physical condition was worse than she thought.

"It's you." Fraulein let out a long breath and asked in a deep voice, "The situation in the castle is critical, yet you are not supervising the battle at the front line. What are you doing here?"

"Supervising the battle?" Vampire Vamp laughed, "Your Majesty, do you seriously think that there is still any meaning at this point?"

Fraulein frowned: "As long as we don't give up..."

"There is still a chance of winning? You don't really believe this nonsense, do you?" Vampire Vamp chuckled, "Everyone saw your miserable escape. What do you think will happen to others?"

You don't really think that this country still has a chance, do you?"

The Vampire Fraulein: "...What do you want to say?"

"It's very simple."

She had walked in front of her queen, looking fearlessly into the other's beautiful scarlet eyes.

Then she extended her right arm and strangled the Vampire Fraulein's slender neck in a flash.

The queen tried to dodge, but she was too weak. She couldn't even get herself up from the chair.

Vampire Vamp's slender five fingers choked Fraulein's throat like a lock, and she lifted the petite girl's feet into the air with one hand.

Fraulein said with difficulty: "Why...you?"

"Hehe, after all, you are just frogs in the well." Vampire Vamp smiled, "For so many years, your vision has only been limited to these twelve dimensions.

Whether it's La Mort or you, you are just strong people in this small world.

And I have seen what is truly powerful. Compared with that kind of strong person, you guys... no, even the so-called "Supreme King", are just so-so."

Fraulein: "!?"

She means that there are stronger people in the world...than the Supreme King?!

"You look like you don't believe it, right?" The witch giggled again, "That's why I said you are a frog in the well. I have seen a new possibility of duels that you have never imagined!

Compared with that realm, the duels of the so-called strongest people in the dimension are so weak that it makes people laugh...

But, there is no point in saying so much, because Your Majesty, you will not have the opportunity to see it with your own eyes. In short, I have found a new force, so I do not need you nor this country.

You will become history here and now."

As she said, she increased the strength of her hands, preparing to give the former queen the final blow.

But the door of the hall was blown open from the outside at this moment.

Someone rushed in from the outside, yelling: "Second wife, what are you going to do? Let go of my first wife!"

Vampire Vamp: "???"

Chapter 1118: Vampire Vamp

The impact of the Vampire Fraulein's defeat was greater than she thought. Not long after she retreated, the front line was completely torn apart, and those outsiders attacked the city wall in one breath, and some of the faster ones had already rushed into the castle.

But from the results, it seemed that this was actually the queen's luck.

Because if this screwball who broke into the door was a little late, she might really die.

Vampire Vamp didn't understand the situation at first. In her opinion, this group of outsiders should clearly want to kill Her Majesty the Queen, but now it seemed that this guy wanted to help the Queen?

But it doesn't matter.

This doubt just flashed through her mind. The Vamp didn't waste time thinking about these meaningless questions, and she had no interest in exploring the meaning of these screwballs' weird behavior.

She didn't even look at it, just waved her arm, and the black boomerang condensed by magic power had broken through the air and flew across the entire hall, flying towards the direction of the door.

The screwball who broke into the room was cut in half by this blow before he even had time to summon the monster, and was killed instantly.

"Fuck!" The dead screwball was immediately furious, "You had no ethics and actually attacked me by surprise! If you dare, let's fight on the card field! Otherwise, we can also fight on the bed..."

Of course, he was already dead, so shouting was naturally meaningless.

The scarlet pupils of Fraulein who was strangled by the throat clearly reflected the scene of the person who came in and was killed instantly, and she almost felt her heart and lungs stop.

Although she didn't know this person and didn't know his motives, she saw that he tried to save herself before he died.

Another person died for her.

When will all this end?

The Vamp turned around and prepared to continue her unfinished work: "Heh, I don't know what means you used to manipulate the enemy to protect you.

But that's meaningless. You will still die, and then this kingdom will be taken over by me.

Don't worry, this country will survive without you. The strong man I surrendered to has the power to crush any enemy. With his help, these invaders will be eliminated...

...No, it's not just that! With his help, even the Supreme King will be pulled off his throne! Our empire will become the strongest leader in the twelve dimensions, and I will accomplish what the vampire kings of all generations have never done..."

She was speaking generously to satisfy her desire to explain, and suddenly heard another shout at the door: "Vamp! Take my shot!"

Vampire Vamp's face changed again, and when she turned her head, a long spear had already shot out like a dragon. She almost reflexively threw away the thousand gold in her hand and hurriedly jumped sideways.

The thick and long spear stabbed into the ground at an angle, and a spearman in armor fell down.

Obviously, a monster spirit was summoned.

A rough man dressed in a magical girl's outfit rushed in with a duel disk in his hand, shouting in a rough voice: "For Fraulein!"

The Vamp frowned, not knowing what was wrong with these screwballs.

She was about to take action, but she only heard more shouts and killings outside the door. Immediately afterward, the wall was also blown open, and the door panel of the hall was completely split off. A large number of heroes, warriors, flying dragons, mechas, etc. broke into the hall and surrounded the Vamp under the control of a large group of duelists in strange costumes.

Vampire Vamp was confused: "What do you mean? Why do you want to help that woman?"

She pointed at Vampire Fraulein who was lying on the ground with a weak breath.

In her opinion, these alien warriors who suddenly appeared to ruin her good deeds seemed to have reached some agreement with Her Majesty the Queen, but in fact, the players did not think so at all.

They just felt that the Vampire Fraulein, as a boss, seemed to have been killed by Yuei Vu-san. From the current cutscene, the Vampire Fraulein was now lying on the ground and couldn't stand up. She looked completely broken and obviously couldn't continue playing cards.

Since it was Yuei Vu-san who killed the boss, the spoils should belong to him, so they ignored it for the time being.

The plot obviously wanted to guide them to kill Vampire Vamp, the traitor.

".....Okay, anyway, it seems that you are not going to give way easily." Vampire Vamp lifted her short silver-white hair, and a duel disk appeared on her arm, "But if there are too many people, I won't be able to bear it.

You should come one by one."

Everyone immediately became excited.

"I'll play a round with my waifu first!"

"Ps! You all covet my wife, how are you different from Cao Cao?"

"This dangerous job must be left to me first!"

Vampire Vamp swept her eyes over them and quickly pointed to one person in the crowd: "You!"

Everyone looked in the direction of her finger.

Her eyes were fixed.

Manjoume, who originally thought that he had nothing to do with following the mentors, was stunned: "Do you want to duel with me?"

"Yes." Vampire Vamp licked her lips, "If you must come, I still prefer handsome boys."

"Damn, is it because of Charm value suppression..."

"Too realistic, if you are ugly, you can't even have a chance to play cards..."

"No, it's too dangerous," someone advised Manjoume, "Why don't you leave it to us..."

"No, thank you for your concern, mentors." Manjoume walked out and said firmly, "But since the other party has already named me, if I retreat here because of fear of danger, I will not be able to explain to my mentor when I go back."

"Hehe, you are still very brave at a young age, I like it." The Vamp smiled, "Then let me taste it."

"Duel!" x2

[Manjoume, LP 4000]

[Vampire Vamp, LP 4000]

"I'm the first to go, draw." Vampire Vamp said, "I Normal Summon 'Gozuki' in attack position!"

The dark bull-headed warrior jumped onto the field, waving a thick black mace.

[Gozuki, ATK 1700]

"Gozuki's effect – Once per turn, send 1 Zombie monster from my Deck to the GY."

A card in the deck popped out and was drawn into her hand.

"I send 'Vampire Grace' from the deck to the Graveyard."

Watching the card being pushed into the Graveyard area of the Duel Disk, the Vamp smiled slightly.

"Finally, set two cards, and I end my turn."

Looking at the lone bull-headed warrior and the set cards on the opponent's field, Manjoume couldn't help but twitch his eyebrows.

This first move... Although it is also a "Vampire" deck, is it different from the deck idea used by the Vampire Princess who just fought with Mr. Yuei Vu?

Manjoume narrowed his eyes.

After coming to this dimension, he had only faced inferior opponents along the way. Vampire Vamp in front of him was the first powerful person from another dimension he had faced.

He had come to this world not just to watch.

After all, he had not yet been able to defeat that abominable Yu↑ ki↓ Ju↑ dai↓, and before that, he would not allow that guy to fall!

"It's my turn, draw!"

Chapter 1119: Light And Darkness

"It's my turn, draw!"

Manjoume quickly entered his own offensive rhythm.

"Activate the Spell Card 'Pot of Greed' and draw two cards."

"First, I activate the effect of 'Defrag Dragon' in the hand!" Manjoume said, "Defrag Dragon can be special summoned from the hand by sending 1 other monster from my hand to the GY!

I send the 'Totem Dragon' in my hand to the graveyard and special summon 'Defrag Dragon'!"

[Defrag Dragon, ATK 1000]

"Then I Normal Summon 'Masked Dragon' from my hand!"

[Masked Dragon, ATK 1400]

"Activate the Spell Card 'Dragonic Tactics'!" Manjoume said, "Tribute 2 Dragon monsters; Special Summon 1 Level 8 Dragon monster from my Deck!"

Manjoume raised his hand.

"Take the 'Defrag Dragon' and 'Masked Dragon' on the field as sacrifices!

Emerge from the abyss of darkness, and bring the end! The clone of light and darkness——

——Dark End Dragon!!!"

The impact of darkness erupted, and the black mist turned into a wave and swept around. The dark dragon seemed to break out from the abyss of hell, and let out a low roar from the deepest part of its throat.

[Dark End Dragon, ATK 2600]

A group of card players couldn't hold it anymore.

"Wait, why can your Dragoon Tactics summon Synchro Monsters?"

"No, why isn't your Dark End Dragon a Synchro Monster!?"

"Haven't you read the GX manga? Dark End Dragon was originally an Effect Monster, but the real card was somehow changed to a Synchro Monster..."

Indeed, the "Dark End Dragon" and "Light End Dragon" that players were familiar with in the real card environment were actually the signature monsters of Manjoume in the original work.

In fact, it could be clearly seen from the shape and design that these two monsters are the two clones of Manjoume's ace monster in the manga – Light and Darkness Dragon.

Although nobody knew why they became Synchro Monsters when they were made into real cards, they should be strengthened overall. As Synchro Monsters, these two dragons were actually much more useful than the original cards.

"Oh? A great monster was summoned in one go." The vampire seductress smiled.

Manjoume then said: "Activate the Spell Card 'Shadow's Light'! Target 1 DARK monster I control; Special Summon 1 LIGHT monster from my Deck with the same Level!" (manga card)

A card in the deck automatically popped out and was slapped on the Duel Disk by Manjoume.

"Of course, I'm going to choose the Dark End Dragon on the field!" Manjoume said, "Show up, level eight —

— Light End Dragon!!!"

The light and darkness echoed each other, and a shining incandescent light column flew out from the ground, and the extremely holy white dragon flew out bathed in the sacred light!

[Light End Dragon, ATK 2600]

"Here I come!" Manjoume shouted, "Dark End Dragon's effect is activated! Reduce its own ATK and DEF by 500 points, and I can send a monster on the field directly to the graveyard!"

[Dark End Dragon, ATK 2600/DEF 2100 → ATK 2100/DEF 1600]

"Send 'Gozuki' to the graveyard!" Manjoume shouted.

"This dragon actually has such an effect?" Vampire Vamp frowned, "It seems that I was careless. But at this moment, open the set card: Trap Card – Vampire Takeover!

It can only be activated when there is no card in my Field Zone and all face-up monsters I control are Zombie monsters.

Activate 1 'Vampire Kingdom' directly from my Deck!"

The Dark End Dragon opened its mouth and spewed out endless darkness. The dark undercurrent swallowed the Gozuki instantly. The bull-headed warrior roared unwillingly but was eventually swallowed up in the depths of darkness.

But at the same time, the entire field changed. Thick black fog enveloped everything, the red moon hung in the sky, and the entire hall turned into a castle, just like the appearance of the entire vampire castle.

"The subsequent effect of 'Vampire Takeover'," Vampire Vamp smiled, "When activating 'Vampire Kingdom' through this effect, I can Special Summon 1 DARK 'Vampire' monster from my GY in Defense Position."

She took a card from the Graveyard.

"I Special Summon the 'Vampire Grace' that I discarded last turn from the Graveyard!"

The pale noblewoman vampire slowly rose from the black vortex, holding a scepter inlaid with rubies, and her bright red lips outlined a strange and sinister smile.

[Vampire Grace, DEF 1200]

"Dark End Dragon's effect can only be used once per turn, right?" Vampire Vamp laughed, "It's already been used on the 'Gozuki', so it can't be used again this turn."

"It doesn't matter." Manjoume waved his hand, "I enter the Battle Phase and use 'Dark End Dragon' to attack 'Vampire Grace!'"

"Don't worry," Vampire Vamp said, "Open the set card: Trap Card – Simultaneous Loss! Each player sends the top card of their Deck to the Graveyard!"

Manjoume raised his eyebrows.

Send the card from the top of the deck to the graveyard? What's the point...

While thinking this, the Duel Disk's deck slot has automatically ejected the top card. Manjoume silently drew this card and threw it to the graveyard with the opponent.

"At this moment, the effect of 'Vampire Kingdom' is activated!" Vampire Vamp shouted, "Once per turn, when the opponent sends a card from their deck to the graveyard, I can send 1 DARK 'Vampire' monster from my hand or deck to the graveyard..."

As she spoke, she took out a Vampire card and pushed it into the graveyard area of the Duel Disk.

"...And destroy a card on the field!"

Wanzhangmu was secretly shocked.

Is this the real purpose?

Through the combination of the trap and Field Spell, the goal of exploding the card during the opponent's turn is achieved...

"'Dark End Dragon' has the powerful ability to wipe out any monster by reducing its attack power by 500 points every turn," Vampire Vamp smiled, "Then let me deal with it first.

Disappear, Dark End Dragon!"

The field effect was activated, and blood mist gathered from all directions, like a shackle on the Dark End Dragon. The black dragon wailed unwillingly, but its body eventually broke into pieces and disappeared from the field.

"Dark End Dragon..." Manjoume frowned, "But my attack is not over yet. Next is the attack of 'Light End Dragon!'"

The white dragon opened its mouth, and the sacred dazzling light briefly dispelled the darkness and shone throughout the castle. Vampire Grace was annihilated by the light, and was torn into pieces by the strong light with a scream.

Of course, because she was in defense mode, it did not cause any real damage.

But that's all he could do for the time being.

Manjoume drew two more cards.

"...Set two cards, I end my turn."

Chapter 1120: Majoume's Ace

"Become soft at this level? You have to keep working hard, little brother," Vampire Vamp licked her lips again, "I still don't feel anything."

"Shut up, draw a card quickly," Manjoume said impatiently.

"So fierce, haha, but I like you more and more." The vampire girl smiled, "Then it's my turn.

Spell Card 'Pot of Greed', I draw two cards."

After replenishing two cards in hand, her beautiful eyes moved slightly: "Wow, this is a good card. Then I'm not polite.

Activate the Spell Card 'Book of Life'! Special summon a Zombie monster in my GY, and then remove a monster in the opponent's graveyard from the game!"

She pointed to Manjoume's Duel Disk: "Remove the 'Dark End Dragon' from the game for me!"

As soon as the voice fell, the Dark End Dragon card popped out from Manjoume's grave area. He bit his teeth lightly and took the card.

"Then I will revive 'Vampire Grace' in the graveyard!"

The forbidden spell took effect, the dark vortex of the netherworld opened, and the bloated vampire lady emerged from the vortex again, with a dark red glow flashing on the scepter in her hand.

[Vampire Grace, ATK 2000]

"Vampire Grace's effect is activated!" said Vampire Vamp, "Once per turn: I can declare 1 card type (Monster, Spell, or Trap); the opponent must send 1 card of that type from their Deck to the GY.

I declare 'Spell Card'. Okay, send a Spell Card from your deck to the graveyard!"

Manjoume picked out the card he wanted to choose without thinking for long. The selected card was ejected from the deck and was discarded into the graveyard by him.

"At this moment, the effect of the Field Spell 'Vampire Kingdom!'" said Vampire Vamp, "When the opponent sends a card from their deck to the graveyard, a card on the field is destroyed!

Destroy the set card in your backfield!"

The blood mist condensed into blood-colored spears, instantly piercing a face-up card of Manjoume into thousands of holes.

Chthonian Blast (Trap Card): When a face-up monster you control is destroyed and sent to the Graveyard: Destroy the 1 face-up monster on the field that has the lowest ATK (your choice, if tied), and if you do, inflict damage to both players equal to half of that monster's ATK.

"What a dangerous trap! If I had destroyed a monster instead, I would have been counterattacked by this trap immediately, right?"

Vampire Vamp chuckled: "Fortunately, I am a step ahead."

Manjoume: "..."

"Then Normal Summon 'Vampire Hunter!'"

[Vampire Hunter, ATK 1600]

"Of course, in this case, Grace and Hunter's attack power cannot break through the power of 'Light End Dragon.'" The Vamp smiled, "So let me be a little more serious.

Activate the Continuous Spell 'Vampire Domain' from the hand! By paying 500 LP, during my Main Phase this turn, I can Normal Summon 1 'Vampire' monster in addition to my Normal Summon/Set."

[Vampire Vamp, LP 4000 → LP 3500]

"I pay 500 life points and sacrifice the two monsters 'Vampire Grace' and 'Vampire Hunter!' Tribute Summon!"

Vampire Vamp's pupils flashed red, and excitement appeared in her eyes.

"You are a rare opponent, so let me play with you in person! I summon myself here-

——Vampire Vamp!!!"

The two vampires exploded into a chaotic vortex, and the female vampire wearing leather armor and with devil-like wings fell on the field, looking at Manjoume with the same charming eyes as the original body.

[Vampire Vamp, ATK 2000]

"The effect of my own clone is activated!"

She flicked her silver hair, and the corners of her mouth seemed to become even more red, as if smeared with blood: "Once per turn, when I or a 'Vampire' monster is Normal Summoned to my field: I can target 1 monster the opponent controls whose ATK is higher than mine; equip it to me.

I gain ATK equal to the combined original ATK of the monsters equipped to me by this effect.

I absorb the 'Light End Dragon'!"

After the Dark Dragon, the Light Dragon finally couldn't escape the fate of being eliminated. The red blood mist enveloped the white dragon that was radiating brilliance. The latter let out a series of unwilling roars but was finally absorbed into the opponent's field and became a part of the Vampire Vamp.

[Vampire Vamp, ATK 2000 → ATK 4600]

Manjoume narrowed his eyes.

Originally, Light End Dragon could reduce the ATK and DEF of the monster fighting it by 1500 points by reducing its own ATK and DEF by 500 points. In other words, to defeat the Light End Dragon, a monster with more than 3600 ATK must be used.

But if it was absorbed, this effect would naturally be meaningless.

"Enter the Battle Phase," Vampire Vamp shouted, "Go, use my own direct attack! You must take it all obediently, little brother."

The vampire seductress flapped her little devil wings and flew straight towards Manjoume with a giggle!

Manjoume frowned: "Open the set card: Trap Card – Counter Gate! When an opponent's monster declares a direct attack: Negate the attack and draw 1 card!"

Vampire Vamp's enthusiastic attack did not hit successfully. The transparent door stood in front of Manjoume like a barrier, blocking Vampire Vamp's attack.

"Tsk, you actually rejected a young lady's enthusiasm?" Vampire Vamp seemed to find it boring, "Really, it's rare for me to take the initiative..."

"Sorry, but you are not the type that this Master Thunder is interested in." Manjoume taunted.

This taunt seemed to have a defense-breaking effect, and Vampire Vamp's face suddenly turned cold: "Tsk, what an unlovable kid. I'm going to be angry."

"You are an old hag, and you are not ashamed to call yourself a young lady?" Manjoume taunted.

"..... Brat, you are really dead now."

Vampire Vamp's smile completely disappeared, and she showed her sharp fangs.

"Set a card, I end my turn!"

"That's what I should say." Manjoume raised his voice, "My turn, draw!"

He glanced at the cards in his hand and added the drawn card to the Duel Disk without thinking.

"Spell Card 'Card of Burial Magic'! I banish three Spell Cards 'Pot of Greed', 'Shadow's Light', and 'Dragonic Tactics' from the graveyard, and draw two cards from the deck." (Animation card)

"Then activate the Spell Card 'Graceful Charity', draw 3 cards, then discard 2 cards."

Manjome drew three cards and then showed two cards from his hand.

"The card I want to discard is this!" he shouted, "Spell Card 'Ojamagic!'"

"Ojama?" Vampire Vamp was suspicious.

"Ojamagic's effect – If this card is sent from the hand or field to the GY, I can add the three Ojama Brothers, 'Ojama Yellow', 'Ojama Black', and 'Ojama Green', from the deck to my hand!"

The three cards were ejected from the deck one by one, and were drawn into Manjome's hand in one breath. At the same time, three ugly and noisy spirits also jumped out, singing happily in front of Manjome's ears.

The Ojama Brothers came to the stage!
