

I Play Yu-Gi 1151

Chapter 1151: Tree of Life

"Attack power... 20,000!?" The students were all stunned.

It's not just the attack power. The students present have all received more or less education and training from their instructors, and their understanding of the card game Duel Monsters was much stronger than that of ordinary duelists of the same generation. The high attack power alone couldn't surprise them so much.

But the terrifying thing was that this Ultimate Timelord was not only high in attack power, but also had the ability to "special summon as many Timelords as possible", and it could be done every turn!

You must know that these Timelords had absolute resistance to destruction and immunity to damage, and each had powerful skills. These summoned Timelords should be regarded as an extension of the power of this "Ultimate Timelord".

20,000 attack power plus these various special abilities, this was a bit tricky.

But Future Yuei Vu did not seem to panic. He looked up at the huge Ultimate Timelord on the other side of the field, and the other four Timelords guarding him like the Four Heavenly Kings, and spoke slowly after a moment.

"Kabbalah the Tree of Life contains the mysteries of gods and demons, the secrets of overnight creation, the mysteries of life, and even the prediction of the fate of the entire universe, and the code to rewrite fate."

As a future man, Yuei Vu's eyes flashed, and he looked at the huge five Timelords in front of him with a mysterious gaze.

With Sephyron as the center, those Timelords seemed to form a huge map in Yuei Vu's eyes. Each of the colorful Timelords occupied a node, like a huge tree-shaped map spread out, with colorful aurora rippling on its surface, connecting the heaven and earth, and even all things in the world.

Future Yuei Vu whispered, "Is this the hope you place on the future?"

"For me and my companions, we have already lost our future for long."

Z-ONE's tone was calm as if he had already accepted this reality, and he no longer felt sad when he talked about it.

"You should have known that in my world, my relatives, companions, and even all the humans in the world have become extinct, and I am the last human.

We tried but failed, and this is an unshakable fact."

After a pause, he looked at Yusei on the side.

"But Yusei, and Duel King Yuei Vu...you made me believe that there is still hope for mankind. Synchro Summoning is not the culprit that leads mankind to the abyss of depravity, but the human heart.

If it can be guided with the right heart, the power of Synchro can also lead to a hopeful future."

At this point, his eyes were stern, and the topic suddenly changed.

"But now, I am fighting for that future."

The huge mechanical arm swung down, and a card was thrown directly onto the field.

"Spell Card 'Night Beam'." He said coldly, "Target 1 Set Spell/Trap the opponent controls; destroy that target. The opponent cannot activate the targeted card in response to this card's activation."

He pointed to Yuei Vu's backfield.

"I destroy that set card."

The effects of the Timelord on the field now covered almost everything – their attacks could clear out all the monsters on the opponent's field, Spells and Traps in the backfield, and even all the cards in the graveyard!

Of course, Timelord was powerful, but not flawless.

The Timelords could only activate their effect by battle.

This was the biggest flaw.

If it was a non-destructive field removal effect like "Dimensional Prison" or "Drowning Mirror Force", it was still effective against the Timelord.

Therefore, to ensure that there was no risk, Z-ONE chose to clear the backfield first.

The golden beam hit the set card, which was blown into golden fragments without any response.

But Future Yuei Vu remained calm and showed the cover card that was clicked: "The card I set is the continuous trap 'Mirror Force Launcher'.

If this Set card is destroyed by the opponent's card effect and sent to my GY: I can Set this card from my GY."

Yuei Vu waved his arm, and the golden particles condensed into the shape of a card on the field again.

"And I can also Set 1 'Mirror Force' from my hand, Deck, or GY."

Countless particles were transformed into another card and covered in the field in front of Yuei Vu.

"Mirror Force?" Kenzan wondered, "But all Timelords cannot be destroyed by effects..."

"That is just the universal resistance of other Timelords." Future Yuei Vu narrowed his eyes, "The Ultimate Timelord has the powerful ability to summon any Timelord in one breath, and has an almost unsurpassed super-high attack power, but it does not have that universal resistance, right?"

Moreover, if the Ultimate Timelord left the field due to the backlash of "Mirror Force", then the attack power of the remaining Timelords would all be reset from 4000 to 0.

Although the Timelords summoned by Z-ONE has the powerful power to sweep the front and back fields and the graveyard at the same time, their attack power was 0 after all, and they could not directly cause damage. Only Michion had the ability to "halve the opponent's LP", but that was not enough to complete the kill.

Z-ONE did not refute, but only raised the mechanical arm of the life support device high, and the voice sounded loudly from under the mask.

"Sephylon the Ultimate Timelord, attack directly!"

All the Timelord's powers were activated at the same time, and the colorful light turned into a surging torrent that rushed towards the Ultimate Timelord's main body, converging into a surging river!

"Open the set card."

Future Yuei Vu snapped his fingers.

"Trap Card 'Mirror Force'! The moment the opponent declares an attack, all face-up Attack Position monsters on the opponent's field are destroyed!"

The blue and sacred light is released, turning into a transparent water iris, forming a hemispherical barrier in front of Yuei Vu, welcoming the mighty power of the Timelord!

The Ultimate Timelord's attack was completely taken, and the surging light backfired on him!

"If 'Sephylon the Ultimate Timelord' would be destroyed, I can banish 1 face-up 'Timelord' monster I control to negate that destruction.

I banish 'Zaphion the Timelord' to negate the destruction of the Ultimate Timelord."

"But because the Timelord has lost one, the attack power of the Ultimate Timelord has also decreased." Yuei Vu reminded.

[Sephylon the Ultimate Timelord, ATK 20000 → ATK 16000]

"When 'Zaphion the Timelord' leaves the field, I can draw cards until I have 5 cards in my hand."

Z-ONE drew a card and continued in a tone of neither surprise nor joy.

"Even if the attack power decreases, it's enough. The battle continues, Sephylon the Ultimate Timelord, attack directly!"

Withstanding the surging energy of the reflector force, the Ultimate Timelord continued to move forward, and continued to strike with a punch containing surging divine power!

"At this moment, I will discard this card from my hand!"

Future Yuei Vu showed a card and threw it directly to the graveyard.

"Swift Scarecrow!"

After the card was slapped, a short and simple scarecrow immediately jumped out.

"When an opponent's monster declares a direct attack: Discard this card; negate the attack, then end the Battle Phase!"

When the Timelords came to their senses, the Battle Phase had already ended. Even a strong Timelord had to abide by the rules of the game and forcibly stopped the attack declaration.

"... Forced to end the Battle Phase?" Z-ONE said, "Then my turn is over. But my attack is not over yet.

You should remember it too, right, Duel King?"

He narrowed his eyes and looked at Yuei Vu.

"The effect of Lazion the Timelord – When the opponent draws a card during the Draw Phase, inflict 1000 damage to the opponent."

[Yuei Vu, LP 425]

"... Checkmate."

Chapter 1152: The Future of Synchro

"Checkmate." Z-ONE said calmly.

"That's hard to say." Future Yuei Vu shrugged, "It's my turn, draw."

"At this moment, the effect of Lazion the Timelord is activated!" Z-ONE said, "Take 1000 points of damage!"

The power of the Timelord was activated, and a beam of scarlet light was like a piercing javelin, breaking through the air and flying toward Yuei Vu!

But he was calm: "Then at this moment, I discard 'Clear Kuriboh' from my hand to negate the activation of a monster effect that would inflict damage."

Z-ONE: "...Have you survived again? In terms of fighting to the death, you and Fudo Yusei are similar."

"Aren't you the same?" Future Yuei Vu smiled, "Even if you have experienced thousands of failures, even if you have lost everything, even if you are covered in wounds and have to rely on the device connected to your body to survive until now, aren't you also a guy who will never give up?"

Z-ONE: "..."

"Maybe it's the same for people like us." Future Yuei Vu said softly, "Because our duels are often not just about our own wins and losses. We always have no way out."

He paused here and returned to the duel: "At the Standby Phase, activate the effect of 'Take Over Five' in the graveyard.

Remove this card and a card with the same name in the deck from the game, and draw a card from the deck!"

Future Yuei Vu drew a card, and then quickly showed it: "Spell Card 'Card of Variation'! Draw 2 cards, but at the end of this turn, I must send 1 card from my hand or field to the Graveyard or take 3000 damage."

After drawing two more cards, Future Yuei Vu's expression became solemn, "So if the Timelord represents the path you choose from countless possibilities in the future, then this is my choice – no, our choice!

I activate the Spell Card 'The Warrior Returning Alive'. Target 1 Warrior monster in my GY; add that target to my hand.

I add 'Junk Synchron' back to my hand."

Yusei on the side said: "Junk Synchron, the monster that connects our bond and gives us the courage to face the future at any time!"

Future Yuei Vu: "Normal Summon 'Junk Synchron' again!"

[Junk Synchron, ATK 1300]

"Junk Synchron's effect – When this card is Normal Summoned: I can target 1 Level 2 or lower monster in my GY; Special Summon that target in Defense Position, but negate its effects.

I Special Summon 'Doppelwarrior' in the Graveyard."

[Doppelwarrior, DEF 800]

"Level 3 Tuner, Junk Synchron! Level 2, Doppelwarrior! Tuning!

Gathering stars are galloping on the endless evolutionary road! Become the path that lights the way!"

Future Yuei Vu raised his voice.

"Synchro Summon! Level 5 —

— **Junk Speeder!!!!**"

The synchronized starlight fell, and the warrior in silver armor appeared on the stage for the third time in the duel with the sound waves!

[Junk Speeder, DEF 1800]

"At this moment, the effect of 'Junk Speeder' is activated!" Future Yuei Vu continued, "When the Synchro Summon is successful, special summon as many 'Synchron' monsters with different Levels as possible from the deck!"

The cards in the deck popped out, and Future Yuei Vu drew four cards in one breath.

"Level 1, Jet Synchron!

Level 2, Fleur Synchron!

Level 3, Junk Synchron!

Level 5, Quickdraw Synchron!"

[Jet Synchron, DEF 0]

[Fleur Synchron, DEF 200]

[Junk Synchron, DEF 400]

[Quickdraw Synchron, DEF 1400]

"First, Level 1 Tuner 'Jet Synchron', plus Level 5 'Junk Speeder', tuning!"

[1+5=6]

"Synchro Summon! Level 6, Hi-Speedroid Kendama!"

The level 6 Synchro, which appeared in the starlight, was a blue giant sword with a huge funnel-shaped hilt and a thick diamond-shaped three-dimensional blade.

[Hi-Speedroid Kendama, ATK 2200]

"The effect of 'Jet Synchron' sent to the graveyard as a synchro material is activated. Add 1 'Junk' monster from the deck to my hand."

Future Yuei Vu drew another card that popped out automatically from the deck.

"I add the level 2 'Junk Converter' from the deck to my hand."

"Then Level 2 Tuner 'Fleur Synchron', plus Level 6 'Hi-Speedroid Kendama', tuning!"

[2+6=8]

"Synchro Summon! Level 8, Karakuri Steel Shogun mdl 00X Bureido!"

This time it was a Level 8 Synchro. The general holding two swords made a grand appearance, breaking through the starlight and hanging in the air.

[Karakuri Steel Shogun mdl 00X Bureido, ATK 2800]

"Karakuri Steel Shogun mdl 00X Bureido's effect is activated!" Future Yu said, "When this card is Synchro Summoned: I can Special Summon 1 'Karakuri' monster from my Deck.

Come on! Karakuri Merchant mdl 177 Inashichi!"

[Karakuri Merchant mdl 177 Inashichi, DEF 1500]

"The effect of 'Fleur Synchron' is activated! When this card is used as Synchro Material, Special Summon a Level 2 or lower monster from my hand!

I Special Summon 'Junk Converter' from my hand!"

[Junk Converter, DEF 200]

"Level 3, Junk Synchron! Level 2, Junk Converter, tuning!"

[3+2=5]

"Level 5, Samsara, Dragon of Rebirth!"

[Samsara, Dragon of Rebirth, DEF 2600]

"At this moment, the effect of 'Junk Converter' is activated!" Future Yuei Vu continued, "If this card is sent to the GY as Synchro Material: I can target 1 Tuner in my GY; Special Summon it in Defense Position!

Come back again, Junk Synchron!"

[Junk Synchron, DEF 400]

"Level 3 Tuner monster 'Junk Synchron', Level 2 'Karakuri Merchant mdl 177 Inashichi', tuning!"

[3+2=5]

"Level 5! Let's bloom, Garden Rose Maiden!"

This time, a snow-white girl appeared, holding a white long skirt and a head of pure white long hair, like a snow elf.

[Garden Rose Maiden, DEF 2400]

The onlookers once again shouted "WTF", but in fact, they were almost numb at this point.

First it was Jack's Red Nova, then Yusei's Shooting Star Dragon, and now even Yusei's wife Izayoi's Rose Deck.

No, the Shooting Star Dragon summoned before was a new form called "Shooting Star Dragon T.G. EX", which also involved the "T.G" series of Antinomy, the protagonist's good friend.

"Is Future Yuei Vu playing cards with the entire 5DS protagonist's deck?"

Future Yuei Vu continued: "When the Garden Rose Maiden is successfully Special Summoned, add the Field Spell 'Black Garden' from the deck to my hand."

Watching the increasing number of synchro monsters on the field, Z-ONE also vaguely realized something.

"You guys, are you planning to...?"

Chapter 1153: Continue To Operate

"Activate the Spell Card 'Monster Reborn'!" Future Yuei Vu continued, "Special Summon a monster from any graveyard. The monster I want to revive is this one–

–Level 5, Synchro Tuner, Accel Synchron!"

The symbol of resurrection emerged, and the ancient mark representing life opened a black vortex on the ground. The robot transformed by the D-Wheel passed through the door and returned to the field.

[Accel Synchron, DEF 2100]

"Accel Synchron's effect is activated! Once per turn, send a 'Synchron' monster from the deck to the graveyard, and the level of 'Accel Synchron' can be increased or decreased by the level of that monster.

I send a level 3 'Drill Synchron' from my deck to the graveyard, and lower the level of 'Accel Synchron' by three!"

[Accel Synchron, LV 5 → LV 2]

"Sure enough," Z-ONE murmured, "Is it coming?"

Future Yuei Vu's aura changed, and he took a deep breath, as if preparing for what was about to happen.

As a spectator, Yuei Vu suddenly felt as if he had guessed what his future self was doing.

He might be activating a "Duel Skill".

Future Yuei Vu closed his eyes briefly, and when he opened them again, there was something different in his eyes. His whole body seemed to be on fire, and the red flames wrapped around his body. His whole body radiated golden light, as if he had turned into a shining golden sculpture.

This time, even Yuei Vu himself was a little surprised by his future self.

Because he recognized what it was.

It was the realm called "Over Top Clear Mind"!

Not only the same type of ability as Fudo Yusei, but also more than that.

If it was consistent with the original work, Fudo Yusei's skills should only be applicable during the Riding Duel.

However, it seems that his future self could actually activate this ability in an ordinary Ground Duel!

"Level 2, Synchro Tuner 'Accel Synchron'!

Level 5, Synchro Monster 'Samsara, Dragon of Rebirth'!

Level 5, Synchro Monster 'Garden Rose Maiden'!

Tuning!"

The robot transformed from Yusei's D-Wheel turned into two pure golden halos, and the Synchro Monsters turned into starlight, forming a straight line leading directly to the depths of the starry sky!

Everything seemed to be still for a short time, and then began to accelerate!

The whole world turned into a fiery color, and time seemed to be expressed in a fluid form visible to the naked eye. Its passage began to accelerate, like a flood that broke through the dam, turbulent and surging.

Level 12 represented the top in the Duel Monster World. That was the Ultimate Synchro Monster bred by Yusei from the speed that broke through the limit!

"Yusei, lend me your power!"

As Future Yuei Vu shouted, the flames all over his body seemed to burn even more fiercely!

"Limit Over Accel Synchro! Level 12–

–Shooting Quasar Dragon!!!"

That's right, it's the same trump card that Yusei printed out on the spot with the "Crimson Dragon Printing Machine" in the 5DS finale. Almost all of its effects were printed for the current situation. It was a super-Accel Synchro monster that could be called the "Timelord Killer"!

It was undoubtedly a monster that could be called a god, representing the peak of synchro. It spread its wings in the air, sprinkled its holy starlight, and it seemed to encompass the entire world.

"I don't need to explain Shooting Quasar Dragon's effect, do I?" Future Yuei Vu smiled.

Z-ONE was silent for a moment and said: "It can attack as many times as the number of Synchro Monsters used as Material, and negate all the effects that include negating destruction of cards. And during the battle phase, it is not affected by any monster effects." (Animation effect)

The onlookers immediately understood.

"The negation of effects that include negating destruction of cards means that the dragon can defeat the Timelord!" Marufuji Sho's eyes lit up.

"Not only that, but on top of that, it is not affected by monster effects." Aster analyzed, "That means that the effects of the Timelord that can force the opponent's monsters to leave the field after the battle are also ineffective against this dragon."

But just as they were amazed at the powerful effect of the Shooting Quasar Dragon on the Timelord, Yuei Vu realized another thing.

That was, the Shooting Quasar Dragon summoned by his future self actually had animation effects.

What does this mean?

The Shooting Quasar Dragon was a card that Yusei Fudo printed to specially counter the Timelords. In theory, there was only one such card in the world in the Yu-Gi-Oh worldview.

Yuei Vu himself did not find it strange that his future self also got the Shooting Quasar Dragon. He originally thought that it should only be a matter of time. But he was more inclined to think that the version he got should be a real-life card.

Thinking of this, he glanced at Yusei next to him and found that the other party still seemed to be nothing unexpected.

So is it possible that this card was given to me by Yusei in the future?

But why?

But it's not over yet. It seemed that the summoning of "Timelord Killer" Shooting Quasar Dragon was just the beginning.

Future Yuei Vu continued: "Then the effect of 'Level Eater' in the graveyard is activated! Target 1 Level 5 or higher monster I control; reduce its Level by 1, and Special Summon this card from the graveyard.

I reduce the level of 'Quickdraw Synchron' by one and special summon 'Level Eater'."

[Quickdraw Synchron, LV 5 → LV 4]

[Level Eater, DEF 0]

"Level 4 Tuner, Quickdraw Synchron! Level 1, Level Eater! Tuning!"

[4+1=5]

"Gathering stars call forth a new power! Become the path that lights the way!

Level 5, Junk Warrior!"

The most classic Warrior monster, the warrior wearing goggles and armor rushed out with a trail of flames behind him, and landed on the ground with a beautiful spin.

[Junk Warrior, ATK 2300]

"Activate the effect of 'Level Eater' again! Lower the level of 'Karakuri Steel Shogun mdl 00X Bureido' on the field by one, and Special Summon 'Level Eater'!"

[Karakuri Steel Shogun mdl 00X Bureido, LV 8 → LV 7]

[Level Eater, DEF 0]

"Next is the effect of 'Glow-Up Bulb' in the Graveyard!" Future Yuei Vu continued, "While this card exists in the Graveyard, once per Duel, I can send the top card of my Deck to the GY and Special Summon this card!"

The top card of the deck was automatically sent out by the Duel Disk, and he drew it out and discarded it in the Graveyard. A bunch of small plant bulbs jumped out onto the field.

[Glow-Up Bulb, DEF 0]

"He has gathered a Tuner monster and a non-Tuner monster again..."

The students have evolved from shock to the stage of being numb.

Because they found that Mr. Duel King seemed to be able to continue to operate this turn.

Chapter 1154: Delta Accel Synchro!

"Level 1 'Glow-Up Bulb', Level 1 'Level Eater', tuning!"

[1+1=2]

"Synchro Summon! Level 2, Synchro Tuner–

–Formula Synchron!"

The Q-version racing-style Synchron jumped onto the field. It was the exclusive monster for Yusei Fudo to perform "Accel Synchro", and it was also proof of his evolution.

[Formula Synchron, DEF 1500]

"Formula Synchron's effect – When this card is Synchro Summoned, draw a card from the deck."

Future Yuei Vu drew a card and continued, "Then activate the effect of 'Garden Rose Maiden' in the graveyard! Banish this card from my GY, then target 1 'Rose Dragon' monster or 1 Dragon Synchro Monster in my GY; Special Summon it.

I will banish 'Garden Rose Maiden' from my GY and revive 'Samsara, Dragon of Rebirth!'"

[Samsara, Dragon of Rebirth, DEF 2600]

At this point, Future Yuei Vu paused again.

As if he was adjusting his state and brewing momentum.

Then, the flames burning on his body changed, becoming hotter and more intense, as if mixed with some other power.

Top Clear Mind!

"The new road at the end of the Synchro Summoning will now open here!"

Future Yusei raised his arm high, like a band conductor raising his baton, indicating that the movement has entered its climax!

"Level 2, Synchro Tuner 'Formula Synchron'!

Level 5, Synchro Monster 'Junk Warrior'!

Level 5, Synchro Monster 'Samsara, Dragon of Rebirth'!

Tuning!!!"

[2+5+5=12]

"Stars that grace the heavens of antiquity! Become sacred rain and purify the world!"

It was a mysterious light that seemed to silently reveal the mysteries of the universe, awakened by the high-speed energy flow. The golden light of the synchronization surpassed the speed of light, broke through the clouds and disappeared at the end of the universe, returning to the atmosphere with some powerful and unpredictable supreme existence, and descended under this sky.

That may be the greatest and most magnificent dragon that everyone present has ever seen.

Yusei called out its name.

"Delta Accel Synchro! Descend—

—Stardust Sifr Divine Dragon!!!"

[Stardust Sifr Divine Dragon, ATK 4000]

Everyone's eyes were dazed.

Players were taking screenshots until their hands cramped, and the barrage in all the live broadcast rooms that were broadcasting this duel was almost blown up, and new posts with similar content in the forum were flooding the screen.

Needless to say, the students, with their limited vision, may have almost never seen such a fascinating and terrifying monster in their lives

No, it was not even certain whether such an existence could still be called a monster.

Stardust Sifr Divine Dragon, the trump card printed by Yusei in the last battle in the manga of "Yu-Gi-Oh! 5DS", its status in the manga was basically equivalent to the "Shooting Quasar Dragon" in the animation.

There was also a view that the original design prototype of this dragon was a golden dragon that appeared in the fifth ED of the 5DS animation.

In the ED screen, the audience could see that it is a dragon with ten wings, each wing emits dazzling golden light, and when the ten wings were spread out, it looked like a golden lotus. The

light was so strong that it even obscured its original appearance, and people could only barely see that it seemed to be a white body.

Everyone thought that the animation production team just inserted a high-end but meaningless illustration in the ED screen, but many years later, looking back and comparing it, it was indeed found that the ten-winged dragon in the ED screen was surprisingly similar to the "Stardust Sifr Divine Dragon".

"Complete 'Limit Over Accel Synchro' and 'Delta Accel Synchro' in a single turn..."

Z-ONE looked at the Shooting Quasar Dragon and Stardust Sifr Divine Dragon who appeared one after another, and his eyes flickered.

"Sure enough, you can still surpass my imagination again and again, Duel King Yuei Vu. No matter in which era."

"Thank you for the compliment." Future Yuei Vu smiled and accepted it frankly.

"But don't get me wrong, you haven't won this game yet." Z-ONE said, "If you had completed this formation in the first turn, I might have lost.

But now, even if you summoned these two dragons, you still can't break through the defense of the Timelords."

Indeed, although the Shooting Quasar Dragon, known as the "Timelord Killer", could now attack three times in one turn and can invalidate the indestructible resistance of the Timelords, that was based on the premise that the attack power of the Timelord was all 0 under normal circumstances.

However, because of "Sephylon the Ultimate Timelord", now the attack power of all Timelords had been turned into 4000, which was equivalent to the Shooting Quasar Dragon.

This means that when the Shooting Quasar Dragon attacks the first Timelord, it would perish together with the opponent and could not continue to attack.

But Future Yuei Vu just smiled calmly.

"Thanks for the reminder, but my memory is not that bad."

He raised his hand gently.

"I activate the effect of 'Level Eater' in the Graveyard again, and I lower the level of 'Shooting Quasar Dragon' by one star, and Special Summon myself from the Graveyard!"

[Shooting Quasar Dragon, LV 12 → LV 11]

[Level Eater, DEF 0]

"Then I activate the effect of 'D.D. Sprite' in my hand. By banishing 1 face-up monster I control, Special Summon this card.

I banish 'Level Eater', and Special Summon 'D.D. Sprite' from my hand!"

[D.D. Sprite, ATK 0]

"Level 1 Tuner Monster 'D.D. Sprite', Level 7 'Karakuri Steel Shogun mdl 00X Bureido', tuning!"

[1+7=8]

"Flashing ray that tears through the sea of stars! Roar throughout the world and shake the souls!
Synchro Summon—

–Level 8, Stardust Spark Dragon!!"

The starlight connected into a straight line again, like a string of stars in the sky, calling for the arrival of Stardust!

It was a white dragon, with almost transparent bone wings and a skeletal body, almost the same shape as Yusei's Stardust Dragon, except that there were a few more blue stripes on its body.

Stardust Spark Dragon, basically, was the form of Stardust Dragon that changed its vest and ran to the world of the 5DS manga.

It was very obvious that this form of Stardust was Yusei's trump card in the manga. In the manga setting, it was one of the legendary "Duel Dragons" with extraordinary power.

"Are there other forms of Stardust?" Z-ONE looked at the Shining Dragon, "But now, what's the point of summoning this monster?"

"Of course it makes sense." Future Yusei smiled, "The effect of Stardust Spark Dragon! Once per turn, I can target 1 face-up card I control; during this turn, it cannot be destroyed by battle or card effects!" (manga effect)

Z-ONE's eyes moved slightly: "Could it be..."

"Yes, I'm going to activate the effect of 'Stardust Spark Dragon' to give 'Shooting Quasar Dragon' an indestructible resistance during this turn! Sonic Barrier!"

Future Yusei said in a deep voice.

"It's time, Z-ONE! Final attack!"

Chapter 1155: Stardust Sifr Divine Dragon

"It's time, Z-ONE! The final attack!"

With a wave of his hand, Future Yusei burst into a dazzling white light, and they seemed to be echoing each other.

They simultaneously entered a state of battle ready to go!

"Shooting Quasar Dragon, attack 'Sadion the Timelord!'"

Shooting Quasar Dragon roared, and the holy light seemed to tear apart the starry sky of another world!

It was a monster that would be worshipped as a god in the twelve dimensions of the heavens. The energy released almost alarmed the entire plane... no, not just this plane.

The twelve dimensions were closely connected, and the space barrier between each world was not strong. At this time, the energy of Shooting Quasar Dragon was released, and the light was too dazzling, leaving afterimages in other dimensions!

Countless people and spirits in multiple dimensions looked up at the sky, seeing the dazzling dragon reflected in the sky, and the divine light that penetrated countless dimensional walls.

"Creation Burst!!!"

With a blow that opened up the world, the star power blasted out by Shooting Quasar Dragon turned into the shadow of the dragon. The Timelord punched to meet the blow, but his energy was shattered like a dead tree, the domain collapsed, and the steel body was penetrated by the surging energy, and exploded into a gorgeous and brilliant firework with a deafening roar.

Although the attack power was also 4000, Shooting Quasar Dragon flew out of the exploding fireball safely, drawing a star-studded arc under the night sky.

"Because the effect of 'Shooting Quasar Dragon', 'Sadion the Timelord' can be destroyed in battle." Future Yuei Vu said, "And, because it is protected by the 'Sonic Barrier' of the Stardust Spark Dragon, the Shooting Quasar Dragon itself will not be destroyed!"

Z-ONE was silent for a moment, and then said: "Then the effect of 'Sadion the Timelord' is activated. When Sadion battles, if my LP is below 4000, it can be directly restored to 4000."

[Z-ONE, LP 400 → LP 4000]

"As long as it fights, you can get back to 4000 LP!?" Kenzan felt that his three views were refreshed again, "Doesn't that mean that as long as this Timelord is on the field, the LP value can be restored to the initial state every turn?"

Sure enough, all the Timelords has the effect of BOSS level.

Strength and practicality aside, just from the whole style and characteristics of these monsters, it could be seen at a glance that they were all very high-end BOSS.

However, Future Yuei Vu, who was in the duel, obviously didn't care about this restoration: "But at this moment, because the number of 'Timelords' on the field decreased, the attack power of 'Sephylon the Ultimate Timelord' continued to decrease."

[Sephylon the Ultimate Timelord, ATK 16000 → ATK 12000]

Z-ONE: "..."

"The battle continues." Future Yuei Vu said, "As you know, 'Shooting Quasar Dragon' can attack as many times as the number of Synchro Monsters used as its Material.

I use three Synchro Monsters as its Material. Therefore, Shooting Quasar Dragon can attack three times per turn.

Go, Shooting Quasar Dragon, second shot! Attack 'Metaion the Timelord!'"

Another charge, the energy of Shooting Quasar Dragon once again transformed into a diving dragon, and collided head-on with the fist swung by the Timelord!

The torrent of energy burst out, and the Timelord was quickly pierced by the energy and torn into pieces. But this time his domain did not collapse, but swept around like a tide.

"Because the number of Timelords has decreased again, the attack power of 'Sephyron the Ultimate Timelord' has decreased!" said Future Yuei Vu.

[Sephyron the Ultimate Timelord, ATK 12000 → ATK 8000]

"But at this moment, the effect of Metaion the Timelord has also been activated." Z-ONE said, "When Metaion battles, all monsters on the opponent's field will be returned to the owner's hand.

And, according to this effect, for each card returned to the deck, the opponent player must receive 300 points of damage."

"When the Shooting Quasar Dragon fights, it is not affected by the effects of the opponent's monsters." Future Yuei Vu said.

"I know." Z-ONE said calmly, "but your other monsters are not so lucky."

At this time, the students also reacted. Asuka immediately became nervous: "No, if the battle is established, although 'Metaion the Timelord' will be defeated by 'Shooting Quasar Dragon', at the same time as the effect is activated, 'Stardust Sifr Divine Dragon' and 'Stardust Spark Dragon' on Principal Yuei Vu's side will also be bounced away.

Then according to the effect of Metaion the Timelord, 600 points of damage will be dealt!"

[Yuei Vu, LP 425]

In that case, it would be Yuei Vu's defeat!

"Don't worry." Yuei Vu watched his future self playing cards, but he was not in a hurry, "Just watch, that guy knows what he is doing."

Sure enough, Future Yuei Vu continued to sweep his arms: "Then at this moment, activate the effect of 'Stardust Sifr Divine Dragon'!

Once per turn, during either player's turn, when the opponent activates a monster effect: I can negate that effect and destroy 1 card on the field."

It was worth noting that the negation ability of Stardust Sifr Divine Dragon was different from that of most cards. Others were usually "negate and destroy that card", but Stardust Sifr Divine Dragon's effect was "negate and destroy 1 card on the field." In other words, you could choose another card to destroy.

So here, Future Yuei Vu could freely choose the object to destroy.

"The card I want to destroy is, of course, the 'Sephyron the Ultimate Timelord'!"

Stardust Sifr Divine Dragon swung his long tail, and two energy balls wrapped in golden electric current flew out of the air, blasting straight towards the core of the Timelord!

Z-ONE had no choice: "Then I use the effect of 'Sephyron the Ultimate Timelord' to banish the 'Lazion the Timelord' on the field, instead of destroying itself."

The last Timelord also disappeared from the field with a space distortion, so that Z-ONE's field soon only had the lonely Ultimate Timelord left.

The terrifying thing about the Sephylon the Ultimate Timelord was that he could unconditionally special summon a large number of Timelords from the hand, deck, and graveyard every turn, and could also give the Timelords the thing they lacked the most – powerful attack power. Its strength actually lay in the command effect rather than its own combat power.

Now that all the subordinates that can be relied on have disappeared, the Ultimate Timelord, who has become a lone commander, is like a tiger with its teeth pulled out. There was nothing to be afraid of.

[Sephylon the Ultimate Timelord, ATK 8000 → ATK 4000]

"The third shot!" Future Yuei Vu shouted, "Shooting Quasar Dragon, attack 'Sephylon the Ultimate Timelord'!"

Creation Burst!"

Once again, Shooting Quasar Dragon attacked!

This time it was no longer a charge with an energy-transformed dragon. This time, Shooting Quasar Dragon used its star power to wrap itself! It emitted a powerful dragon roar and transformed into a meteorite falling from the sky!

The Ultimate Timelord also did not hold back. A huge illusory image of the Tree of Life appeared behind him, as if all the energy of the totem was added to Sephylon's punch, and he fought the Sky-type Shooting Quasar Dragon with all his might!

It seemed that even the dimensional space itself was distorted, and the time and space in the duel area seemed to be disordered. The huge Tree of Life seemed to be burning, and the two god-level beings tried their best to tear each other into pieces!

Of course, the "Sonic Barrier" of the Stardust Spark Dragon once again played a crucial role. The monsters protected by the effect of the "Sonic Barrier" have absolute destruction resistance for one round, so the only one that was crushed by this blow was still the Timelord.

But in this way, the Z-ONE field became empty.

And there were still two monsters left on Yuei Vu's side that did not attack.

"The last blow." Future Yuei Vu said softly, "Stardust Sifr Divine Dragon, direct attack."

[Stardust Sifr Divine Dragon, ATK 4000]

[Z-ONE, LP 4000]

The dive with a residual image was like a blow that rewrote reality.

Stardust Sifr Divine Dragon spread out ten huge wings, each of which was coated with golden light. It hung high in the air, as if the ancient king who controlled the starry sky was looking down and calling for the divine rain to transform the world.

Z-ONE gently closed his eyes.

He recalled his last duel.

The opponent that time was Fudo Yusei. It was a similar scene, and his Timelord was defeated by the opponent head-on. He tried his best, but was defeated in the end, but his heart was filled with long-lost hope.

Just like now.

[Z-ONE, LP 4000 → LP 0]

Chapter 1156: Time Paradox

The last blow of the Stardust Sifr Divine Dragon was as powerful as the creation of the world. The dazzling light almost made everyone close their eyes. The energy finally broke through the space and penetrated the dimension.

All twelve dimensions were penetrated by this beam of light, and all the creatures living in each dimension saw this scene. The dragon, like a god, looked down from above and hovered in the sky of all dimensions.

The shining stardust light surrounded the noble dragon, and its ten wings flashed a unique golden glow, like blooming petals.

The Dark World dimension was the first to be hit, and the space and time of the entire domain seemed to be distorted. The domain formed by the huge force expanded rapidly, quickly enclosing Z-ONE suspended in the air and Yuei Vu in the future space and time.

Z-ONE's LP value returned to zero, and the huge mechanical life support device emitted a low mournful cry. He coughed a few times under the mask, and his voice sounded like an old man in his twilight years.

At the same time, the "time and space confusion" logo popped up in front of him, followed by the words "emergency ejection".

This was a scene he had experienced thousands of times, and he certainly knew what it meant. The time and space jump system had a "time anchor". Once an emergency occurred in other time and space that the operator has traveled to, the time anchor would immediately bounce the holder back to the original node.

And now, it was obviously that time.

But it seemed that it was not only Z-ONE who had problems.

Future Yuei Vu, who won the duel, also issued a sharp warning sound similar to an alarm when both sides were involved in the domain of Stardust Sifr Divine Dragon.

A floating interface automatically jumped out and jumped in front of him in the form of a projection, with the most eye-catching font to mark it—time paradox.

Future Yuei Vu frowned slightly and then looked at his past self in the audience.

Almost at the same moment, the Duel Disk of Yuei Vu of this era also screamed.

That was the Duel Disk he took from Paradox, a future product from the end of time. If he guessed correctly, it was probably made using Z-ONE's technology.

This Duel Disk was also given to the Kaiba Corp for research before, and the technology that could be used has basically been reverse-engineered. But it was not ruled out that there are some other

functions hidden in it, but they had not been activated temporarily due to the limitations of the times.

"Warning, time paradox. A paradox centered on the duelist has been detected in the timeline. The Duel Disk space-time module is activated, and the system performs automatic correction..."

Yuei Vu's eyes slightly raised.

What's going on?

"Time paradox" was not a new word for him, and he could roughly guess what it meant. Perhaps it was because two of them appeared at the same moment in time, which triggered the time paradox.

After all, this Duel Disk was taken... No, it was "gifted" by Paradox. Uncle Paradox has been doing things that disrupt the timeline and rewrite history for many years. It was not surprising that his Duel Disk was equipped with a safety system that helped him escape serious consequences of the time paradox.

So what does this system repair mean?

"Sensei!"

Judai was the first to realize the strangeness of Yuei Vu's situation.

His Duel Disk was automatically activated, and the Duel Disk unfolded, and a dormant function in the program was awakened. A beam of light that seemed to fall from the sky locked onto Yuei Vu, making his body quickly become illusory and almost transparent.

"Correction failed... Parameter adjustment, restart... Correction failed..."

Although Yuei Vu did not understand the settings of the program, he could guess that the word "failure" that kept appearing like this would definitely not be a good thing.

"... Failure, parameter adjustment, enable compromise solution... Startup completed. Paradox correction program started..."

The moment the voice fell, Yuei Vu saw that the scenery in front of him disappeared.

The voices of the students calling him, the dark sky, the gloomy landscape of the Dark World, everything turned into fleeting light and shadow.

The surrounding scenery disappeared in the blue tide, like passing through a narrow tunnel wrapped in water.

Yuei Vu recognized this scene, and it was not the first time he had seen this scene.

This was the login interface of the "Duel Link" system developed by Kaiba Corporation.

At the moment when the correction system adopted the "compromise solution", the Duel Link system installed in the Duel Disk seemed to start automatically.

What's the point of this?

A strong sense of dizziness, followed by a spinning world.

It felt similar to the moment of logging into "Duel Link", but the process was much more brutal than that. It was as if a huge greedy black hole opened up at the other end of the virtual world, and an invisible hand pulled Yuei Vu in without saying anything.

He stumbled and bumped continuously, as if it took a century to finally reach the exit, and fell down suddenly.

At that moment, he felt as if he had no weight.

No, it was not an illusion, he really had no weight.

When he finally passed through the long tunnel and broke through the exit, he really had no weight, even no entity. He floated lightly in the air, feeling like a ghost.

"Stardust Dragon!"

A familiar shout brought him back to reality.

Is this voice... Fudo Yusei?

Yuei Vu came back to his senses and observed the surrounding environment, and then he found that he seemed to be in the middle of a duel.

The duel arena was a hemispherical white dome, but the entire venue was empty, and there was no audience.

The two duelists were driving their respective D-wheels along the runway inside the venue.

That was the "Riding Duel", a unique duel form that was developed in the future of the original timeline, the 5DS era.

And the duelists who were speeding were the two protagonists in the 5DS animation. Yusei Fudo, and the city's Duel King, Jack Atlas.

Yuei Vu even recognized this duel and this scene.

That was the beginning of the anime "Yu-Gi-Oh! 5DS", the first duel between the protagonist Yusei Fudo and Jack Atlas.

Yuei Vu realized it quickly.

Could it be that he has now... arrived in the 5DS era?

So if he remembered correctly and it was consistent with the plot of the anime, then the ending of this duel...

"Go, Stardust Dragon!" Yusei Fudo shouted, "Shooting Sonic!"

Jack responded: "Red Dragon Archfiend, crush it for me! Watch out, Crimson Hell Flare!"

Stardust Dragon and Red Dragon Archfiend, the two ace monsters with intertwined destinies, fought with all their might!

The silver-white flashes and the flames of hell collided with each other, and the starlight and the flames rushed into the sky, piercing through the spherical dome of the duel arena and releasing into the endless night sky...

...transformed into a red dragon that spread its wings and was about to fly!

Chapter 1157: 5DS!

At this point, Yusei Vu was completely certain that the so-called "Paradox correction program" directly brought him to the future, and cut into the timeline of "Yu-Gi-Oh! 5DS".

He just didn't know what went wrong with the system. Although he traveled through time, it seems that he didn't travel through time completely.

Now Yusei Vu's state was not physical, he existed in a form similar to a spiritual body. For this time and space, he was a ghost, invisible and intangible.

And he was also familiar with the scene happening in front of him.

A lower-class citizen of the slum "Satellite District", Yusei Dodo, evaded the arrest of the Public Security Bureau and sneaked into the city of Neo Domino, looking for the current duel king of Neo Domino, Jack Atlas.

There was a backstory between Yusei and Jack.

Few people know that Jack Atlas, the Duel King who was now very popular and regarded as an idol by the city people, was originally a lower-class citizen from the Satellite District.

It's just that the Public Security Bureau deliberately erased this story from his resume in order to package him into a king that everyone liked to see.

Before becoming the Duel King of Neo Domino, Jack was also one of Yusei's most valued partners in the Satellite District. However, in order to pursue a higher status and a broader stage, he stole Yusei's D-Wheel that he had spent many years assembling by picking up scraps, and also stole Yusei's trump card "Stardust Dragon" by threatening Yusei's companions' lives.

Now, Yusei has built a new D-Wheel from scratch, evaded the layers of pursuit by the Public Security Bureau, and came to the bright and bustling city, just to find Jack to fight and take back his "Stardust Dragon".

This duel was also the first climax of 5DS and the starting point of the entire animation plot.

In this game, Yusei and Jack's destined identities as "Signers" were hinted for the first time. When the "Stardust Dragon" and "Red Dragon Archfiend" summoned by the two fought against each other, the power of the two Signers was awakened in the clash.

Yusei and Jack's eyes lit up with strange red light at the same time, and their bodies heated up uncontrollably. The intense stinging pain made it almost impossible for them to focus on the duel. It was from the Crimson Dragon marks on their arms, which was a symbol of them being chosen by the ancient god-level existence "Crimson Dragon".

In the last turn of the duel, to put it simply, Yusei and Jack stood on the field with Stardust Dragon and Red Dragon Archfiend respectively. Then Yusei predicted Jack, and Jack thought he saw through Yusei's prediction of him, but he didn't expect Yusei to predict Jack's prediction of his prediction...

Anyway, in terms of the result, Yusei gained the upper hand through careful calculations and beautiful arrangements, but he never expected that a certain crashed king who couldn't afford to lose would pull out the screws at the moment of GG. Just when Yusei was about to play the last card to

win, the two of them crashed at the same time, the duel was forcibly terminated, and Jack barely saved his life.

It may be that the crashed king's operation made Yusei realize "Wow, there is such an operation", so Yusei learned it from then on, and then there was a famous screw-pulling professional in the Yu-Gi-Oh world...

...Okay, to be fair, the crash was actually not Jack's fault.

Both Yusei and Jack were still immature newcomers, and they were still at the stage of cognition that "how can someone die just playing cards?". Therefore, when the Crimson Dragon appeared and all the damage in their duel was converted into actual damage, the two did not realize the seriousness of the problem at all.

Both of them flipped over, and the duel was forcibly terminated. Not only that, the energy released by the fierce battle between the two dragon sealers also released an excessive concentration of "Planetary Particles", which almost overloaded the perpetual motion machine "Momentum" that generated electricity for the entire city.

Godwin, the director of the Public Security Bureau, promptly ordered to cut off the power supply and shut down the perpetual motion machine. Fortunately, the chief reacted quickly, otherwise, the two protagonists who have secretly played cards in the middle of the night might have blown up the entire city without knowing it...

Although the perpetual motion machine stopped in time and did not explode, the noise was still quite loud. The entire duel arena was almost turned upside down by the two protagonists, the ceiling was blown off, the track was destroyed beyond recognition, and there was thick smoke and dust everywhere.

The entire venue looked like it had just experienced an air raid. If it were in another world, and you told people that the noise was caused by two people playing cards, they would definitely think you were either crazy or making fun of him.

Of course, this was the world of Yu-Gi-Oh, and those who were knowledgeable would understand.

Here, if you told people that this was blown up by an air raid, they might breathe a sigh of relief and say, "I was so scared. It turned out to be just an air raid. I thought someone was playing cards here..."

Although it was late at night, the two blew up a duel hall, and even a huge Crimson Dragon appeared briefly in the sky above the city. If the Public Security Bureau didn't see it after all this noise, it would be no different from being blind.

As a matter of course, a large group of public security officers arrived immediately. They all rode the latest generation of police D-Wheels, equipped with the latest pursuit-specific Duel Disks, and equipped with police-exclusive decks, and quickly blocked and surrounded the duel venue.

What? You said that as a police force, no one has a gun?

With D-Wheels and Duel Disks, what do you need guns for?

...Okay, that's just a complaint. In fact, the sheriff of Neo Domino was basically equivalent to a traditional police station, and firearms were still equipped, but they were never used normally.

Anyway, they always relied on playing cards to catch people...

In fact, if it were normal, the Public Security Bureau would not be able to catch Yusei.

The reason was very simple: There was no police officer who could beat Yusei in playing cards...

It was also because of this that Yusei could escape the arrest of the Public Security Bureau again and again in the satellite area, and even illegally sneak into the city in the middle of the night to play cards with Jack.

But the problem now was that Yusei's D-Wheel was overturned. Before he had time to touch the Duel Disk, a large number of public security officers rushed up, and did not listen to any explanations at all, and they pressed him down in a hurry...

In Yuei Vu's impression, if he remembered correctly, Yusei should be arrested and imprisoned next. After experiencing layers of hardships and making a lot of new friends in prison, he finally escaped by beating the warden in a card game.

Although Jack Atlas, the duel king who was "above others", was also an accomplice, he was directly escorted back to his top-level apartment. Not to mention going to jail, he wouldn't have any problems after today, and no one in the outside world even knew that he sneaked out to play cards today...

Of course, these were all normal plot developments.

Seeing that Yusei was pinned to the ground by a bunch of law enforcement officers, Yuei Vu had no intention of helping him.

Anyway, this was the normal plot process. Not only Yusei was fine after entering the prison, but he also met some reliable companions. Anyway, if you played cards well, you would always get out in the end.

I haven't figured out the situation yet, so I'll just stay put and wait and see...

...Huh?

Yuei Vu checked his Duel Disk and was stunned.

He found that the "Duel Link" system on his Duel Disk... was still activated.

Not only that, but he was now in an abnormal login state. In the duel link system, his login status bar showed "pairing mode".

What is pairing mode?

That was a mode added by Kaiba Corp to the Duel Link system, which could remotely view duels through the Duel Link platform. You could pair with a Duel Disk that has passed the authentication record in the Duel Links system, and remotely watch the duel status of the target Duel Disk in the form of a virtual image.

For example, Yuei Vu's Duel Disk was a device that had "passed authentication" in President Kaiba's system. So as long as Yuei Vu entered a duel, theoretically, President Kaiba could pair with his Duel Disk through the Duel Links system and watch his duel remotely.

In fact, many times before, everyone watched the game from the front row through this function.

However, the problem was that Yuei Vu didn't remember that he had ever actively paired with anyone.

Moreover, he has traveled to the 5DS era. He remembered that Yusei Fudo mentioned to him before that in the era of 5DS, the Duel Links system had long become history and no longer existed.

So who else can pair with him in this timeline?

But of course, the matching target could also be viewed in the Duel Links system. So Yuei Vu decisively chose the viewing function.

Immediately he was stunned.

The Duel Disk marked as "pairing" by the Duel Links system...

...was exactly the one in Yusei Fudo's hand.

Chapter 1158: Spirit Partner?

Yuei Vu was a little confused.

He was not unfamiliar with the "pairing mode" of the Duel Links system. In fact, he had watched many duels remotely using this mode. But logically speaking, only Duel Disks that were loaded and logged into the "Duel Links" system could be paired with each other.

If the crabhead who had returned from the future to the past had not fooled him, then the Duel Links system would have long ceased to exist in the era of 5DS. So how did his Duel Disk pair with Yusei's equipment?

Although he could not figure out this detail, Yuei Vu had more or less guessed his current situation.

He remembered the original setting of the Duel Links system and the original intention of President Kaiba Seto to develop this system. President Kaiba hoped that through the Duel Link system, duelists from different dimensions and eras could be brought together. One day in the future, the game will not be restricted by time and space, and everyone can freely compete with strong players from other dimensions and other times and spaces in the virtual space.

At the end of the movie "Dark Side of Dimensions", President Kaiba successfully went to the dimension called "Underworld" in a form similar to a spirit body through this system, and found his long-awaited opponent Atum.

Yuei Vu guessed that he might be in a similar state to President Kaiba at that time. His body was still in the original time and space, but his consciousness was accelerated through the "Duel Link" system, breaking through the barrier of time and space and coming to the timeline of the 5DS era.

And his current login status was still in "pairing mode", which meant that in the Duel Link system, his current status was a spectator, and he was bound to the Duel Disk of the matching target.

For example, when Yuei Vu and BOSSes like Chairman Kagemaru or Light of Destruction played cards in a duel, a large number of spectators watched remotely through the Duel Link system. At that time, they were all bound to Yuei Vu's Duel Disk to watch the battle.

And now, Yuei Vu was bound to Yusei's Duel Disk.

Yuei Vu soon discovered that this seemed to mean that his range of activities in this timeline was limited. He seemed unable to get too far away from Yusei, or to be more precise, Yusei's Duel Disk, since he was bound to the Duel Disk.

Yuei Vu also soon realized that his current state has a professional term in the world of Yu-Gi-Oh — spirit partner.

Like the coexistence of souls between Atem and Yugi Muto, or Yubel and Judai, it was collectively called "spirit partner".

Looking at the protagonists of the first six generations of Yu-Gi-Oh, Yugi had Atem, Judai had Yubel, Yuma had Astral, Yuya had Yuto, and Yusaku had Ai...

...It seemed that only Yusei Fudo had been fighting solo all the time, and he had never had the guidance of a spirit behind him.

So now the will of the universe has asked me to fill this gap? Yuei Vu thought speechlessly.

Coming back to his senses, he checked the situation in the duel arena again, and he found that poor crabhead was now being held down by a group of burly guards. If this continued, he would be arrested soon, and his D-Wheel, Duel Disk, and deck would also be confiscated.

That's not good.

He had no intention of going to jail with Yusei.

But Yuei Vu, as a spiritual body, was now like a ghost, unable to touch anything, and people couldn't see him.

However, his Duel Disk and deck were still there, so there may be a way in that case.

Thinking of this, he directly unfolded the Duel Disk and entered the battle mode...

.....

"Let me go!" Yusei was still struggling.

Brother Crabhead was famous for his physical skills among all the Duel Kings. His famous skill "Rising Crab Fist" was practiced to perfection and was regarded by fans as the most capable Duel King. But now he just overturned and was injured, and a group of guards came up without martial ethics and directly pressed his hands and feet, so he couldn't use his kung fu at all.

"Be honest!" A guard shouted.

"Hey, isn't this the scum who was issued a wanted order not long ago?" A guard said contemptuously.

"Wanted order?" His colleague looked at Yusei in surprise, "Is it this guy?"

"Yeah, it seems that he is a scum who escaped from the Satellite area." The guard said, "It is said that this guy is quite capable and has fooled the security guards of the Satellite area.

Do you know Chief Ushio? It is said that Ushio also lost to him."

"Oh?" Several colleagues looked at Yusei Fudo who was subdued by them with a new look, "Even Ushio lost to him? Even if it is a matter of luck, this kid is quite capable."

On the other side, Jack, who was also an accomplice, had fainted due to the impact of the rollover and the side effects of the awakening of the dragon mark.

Although the guards also found him, they did not embarrass him after noticing that he was the king Jack Atlas. Someone immediately handed him an ambulance, and someone contacted Godwin, the director of the Public Security Bureau.

Director Godwin's reply also arrived soon. He ordered them to arrest Yusei Fudo who had sneaked into the Neo Domino, and escort Jack back to the apartment. After that, they must keep silent about what happened tonight and just pretend that they had never seen their king here.

As for the movement tonight, just declare it an accident. If necessary, put all the blame on Yusei Fudo. In short, their king must not be blamed.

"Yes, sir!"

Just as Director Godwin finished explaining the various matters and the sheriffs were preparing to take Yusei to the car, someone suddenly exclaimed.

"What is that?"

All the guards looked in the direction of the sound.

They saw that in the middle of their formation, a strange shadow had appeared at some point.

It looked like a person – at least the shape and body looked like a person. But his whole body was wrapped in black armor, the color was deep and mysterious, and the lines were ferocious and wild.

His helmet was shaped like the open mouth of a hungry wolf, and the arm and thigh armor were equipped with sharp blades, reflecting the cold light under the lights of the guards.

Masked HERO Dark Law.

"What is that...ah!"

Dark Law suddenly attacked, kicking the flashlight in the hand of the guard beside him into the sky. The flashlight turned several circles in the air, and the beam of light shot out and cut through the darkness like a spinning blade of light.

Many guards shouted and quickly surrounded him. Masked HERO punched one person in the face, turned around, and kicked both of them to the ground.

A guard pulled out a stun baton and rushed up with the stick wrapped in electricity, but before he could even swing it out, he felt his breath stagnate in his chest. When he came to his senses, the world was spinning in front of him and he was already flying backwards.

Some guards even pulled out their guns directly, and the sound of the gunshot shook the entire venue. However, the bullet that hit the Masked HERO only exploded dazzling sparks on the black

armor, and then the squeezed and deformed shell fell to the floor with a clang, without even leaving a scratch.

Fudo Yusei was stunned.

This strange development made him even forget his situation for a moment.

"Hey, can you hear me?"

A strange voice brought Yusei back to reality. He turned his head to look beside him and found that a handsome duelist in a black windbreaker appeared beside him at some point.

Yusei keenly noticed the monster card placed on the Duel Disk that the opponent unfolded. From the purple color of the card, it seemed to be a fusion monster. The card picture of that card was very similar to the black knight who was showing off his power among the sheriffs.

So the black knight was the duel monster summoned by this person?

"Who are you?"

The sheriffs were beaten to a pulp by the Masked HERO Dark Law, and no one had time to look at Yusei for the time being. He stood up and looked at Yuei Vu with some vigilance.

"Can you see me? That makes things much easier. Let's talk about it later."

Yuei Vu pointed to the D-Wheel beside him.

"If you can still move, I advise you to hurry up. If you dawdle any longer, you may not be able to leave."

Yusei: "..."

Although he didn't understand the situation, it was obvious that Yusei didn't want to stay and surrender.

So while the sheriffs were in a state of panic, he lifted up his D-Wheel and jumped on it. The engine started, and the perpetual motion machine on the car lit up with brilliant colorful light effects. He turned the handle and stepped on the pedal. The engine emitted a light and pleasant plasma hum. The tires of the D-Wheel rubbed sharply against the cracked ground. With a cheerful sound, it rushed to the exit, leaving the sheriffs far behind and leaving in a cloud of dust.

Chapter 1159: The Future

"All units, attention! A high-risk fugitive is fleeing from the Duel Hall in the city center to the east.

The target is from the Satellite area, and the vehicle is a red D-Wheel, which is loaded with the "Speed World" and Duel Disk for the Riding Duel!

Repeat! The target D-Wheel is loaded with the "Speed World" and Duel Disk for the Riding Duel!
Very dangerous!

Please ask nearby police officers to chase immediately..."

The police channel of the entire city suddenly rang, and the originally silent night was completely alarmed.

The lights of the Public Security Bureau were brightly lit in an instant, and the guards and officers who had gone home to rest were all called up.

In the beginning, they still complained about the director's orders, thinking that a low-class citizen who sneaked in from the Satellite area was not worth such a big fuss, and it was not worth disturbing their precious sleep – or other nighttime activities.

However, when they heard that the fleeing D-Wheel was carrying a Duel Disk and had blown up an entire duel hall, they immediately realized the seriousness of the problem.

These days, we are not afraid of criminals with guns and explosives, but we are afraid of criminals with D-Wheel.

At this time, on the street, a police officer who had just stopped to rest during patrol listened to the radio, thought about it, and looked at his companion next to him strangely: "Hey, brother, the channel just said that the suspect is from the Satellite area, riding a red D-Wheel, and has a very exaggerated hairstyle... Does he look a bit like the thief you didn't catch two days ago?"

Click.

That was the sound of the guard next to him squashing the drink bottle.

When he turned his head, he saw that the uncle-faced guard next to him was so angry that he gnashed his teeth and his veins bulged.

"That scumbag from the Satellite area dares to be so arrogant in the city." The uncle-faced guard was furious, "Let's go!"

"Ah? Where are you going, brother?"

"Need I say more? Catch that arrogant little thief and crush him to pieces! This time, he won't escape from the palm of this Ushio!"

"....."

That's right, this angry guard uncle was the legendary senior Tetsu Ushio of the Yu-Gi-Oh series.

Tetsu Ushio was a dark-skinned uncle who looked big and strong. From his appearance, it could be seen that his talent for physical duel was far greater than his talent for card duel.

But don't underestimate him. Because this person is the only man who runs through the Yu-Gi-Oh series from beginning to end, and is nicknamed "the only designated traveler of Yu-Gi-Oh" by the audience.

Most people know Ushio through the animation of "Yu-Gi-Oh 5DS". This guy appeared in the first episode as a guard to capture Yusei. He was defeated by Yusei in the first battle. After that, he was relentless and frantically pursued Yusei. He challenged Yusei one after another, but he was defeated repeatedly, which left a deep impression on the audience.

But many people may not know that the famous police officer Ushio in 5DS was actually a schoolmate of the first-generation Duel King Muto Yugi when he was young.

The classic "Yu-Gi-Oh! DM" animation deleted a lot of clips before the Duel Monsters chapter of the original manga, but in the original Yu-Gi-Oh manga, Ushio was actually a character who appeared in the first episode.

In the original animation, Ushio was Yugi's senior and served as the discipline committee member. He defeated the bad boy Jonouchi who tried to bully Yugi at the time, and then threatened and blackmailed Yugi after showing his true face.

As a result, Yugi Muto assembled the legendary artifact "Millennium Puzzle" at that time and summoned the soul of the Pharaoh who had been sleeping for three thousand years.

When Atem first came to the world, he found that there was an ignorant big guy trying to blackmail his AIBO. He immediately took action and defeated Ushio Tetsu's spirit through the Shadow Game.

So in fact, this senior Ushio was actually Atem's first blood – he was the first opponent that Pharaoh solved after waking up in the modern world.

The next time he appeared, senior Ushio appeared in the future world story "Yu-Gi-Oh! 5DS", and his identity had become a sheriff, and he started a persistent cat-and-mouse game with the third-generation protagonist Yusei Fudo.

In addition, more careful viewers found that senior Ushio was mentioned not only in DM and 5DS, but also in other generations of Yu-Gi-Oh works.

In the finale of "Yu-Gi-Oh! GX", when the power of Nightshroud made all humans on Earth disappear, senior Ushio's name appeared on the list of disappeared people.

In "Yu-Gi-Oh! ZEXAL", Ushio appeared as a passerby in the Starlight World.

In "Yu-Gi-Oh! ARC-V", when the students mentioned the "Legendary Duelist" during a chat, Ushio-senpai also made a cameo appearance as a shadow.

In "Yu-Gi-Oh! VRAINS", in the memories of Homura Takashi, an important figure in the protagonist group, Ushio-senpai was beaten to the ground by Takashi along with a group of gangsters...

Although his appearances in the other works except DM and 5DS were all insignificant cameos, he was the only man who has achieved the achievement of "running through six generations of Yu-Gi-Oh".

Some viewers even thought that the screenwriter may be playing a big game. In a certain Yu-Gi-Oh work in the future, they would string all these past cameos together, and then tell you that Ushio-senpai who appeared in the six works was actually the same person. He was actually a super big shot who connected all time and space and knew the past and the future...

Of course, it was hard to say whether he was a big shot, but our legendary senior Ushio Tetsu was at least still in the stage of competing with Yusei.

In the first four episodes of 5DS, Ushio-senpai has been defeated twice by Yusei Fudo. He was so angry that he wished that the crab head would appear in front of him every night when he closed his eyes.

But this time, the crab head's luck has come to an end.

This time, he can't escape!

.....

The D-Wheel was speeding in the city under the night sky as if a red whirlwind swept through the streets. Yusei Fudo lowered his body and stepped on the accelerator to the maximum. The speed had exceeded 200 and was still soaring.

After leaving the duel hall, Yusei couldn't help but look at the mysterious man in black beside him.

When he found that his D-Wheel was speeding over 100 and the man was still following him, Yusei was shocked. Then he soon found that the man seemed to have no entity, but was floating beside him like a ghost.

He just held his arms and didn't move, and his body would automatically move forward with Yusei's D-Wheel.

This man had a unique temperament and was abnormally handsome. It stood to reason that he should be the type that would leave a deep impression after seeing him once.

Yusei felt vaguely as if he had seen this man somewhere before, but he couldn't remember where for a moment.

So he decided to get straight to the point and ask directly: "Who are you?"

The man – that was, Yuei Vu – looked at him with interest: "You don't know me?"

Yusei thought about it and shook his head.

"It seems that I am not well-known enough." Yuei Vu said, "My name is Yuei Vu, and I am a passing duelist... But I believe you should have already seen it."

He shook the Duel Disk in his hand.

"Yuei Vu..."

Yusei's pupils shrank slightly, as if he suddenly remembered where he had seen this face after getting this hint, and looked at the man next to him in surprise.

"Are you... Are you the first-generation Duel King?"

"Oh? You remember me." Yuei Vu smiled, "It seems that my future reputation is not so bad."

Chapter 1160: The Lost Generation

"Duel King... Yuei Vu!?"

For a cool guy like Yusei, he looked quite surprised.

"You really are..."

"It's me, that's right." Yuei Vu confirmed again, "I know I may not be what you think, but this is... well, the situation is a bit complicated."

Yuei Vu couldn't help but suddenly think of Yusei who said something similar to him when he returned to his own era from the future.

What was the reason for Yusei to return to the past?

He explained his situation as briefly as possible – even though he himself hadn't fully figured out what was going on. It seemed that Yusei's acceptance ability was quite strong, and he quickly accepted this setting.

"So Mr. Yuei Vu... you are actually in the past, right?"

"My body, yes." Yuei Vu nodded, "It seems that I have come to this era in the form of some kind of spiritual body through the power of the 'Duel Link' system to cross time and space."

"Yes... that's it." Yusei still looked a little strange, "But why me? Why my duel disk? I'm just an ordinary, inconspicuous duelist..."

Yuei Vu: Is "ordinary" redefined without my knowing? Your hairstyle is like seafood, your name contains the "Yu-" prefix, your parents die while sending the newborn you away from a big explosion, and you have an adoptive mother named Martha...

... you are not ordinary at all, right?

But he shook his head: "I don't know. I'm still looking for the answer."

"Anyway, thank you, Senior Yuei Vu." Yusei said seriously, "Just now in the duel arena, it was you who took action, right? If it wasn't for you, I might have been arrested by the sheriff now..."

...By the way, this era may be a little different from the era you live in.

The current Domino was divided into the urban area Neo Domino and the scum area Satellite. The lower-class people living in the Satellite area may be arrested by the sheriff even without any reason.

So although I was wanted, I didn't actually do anything illegal..."

Yuei Vu: You sneaked out in the middle of the night to have a tryst with an old acquaintance and play cards, and accidentally blew up the duel hall. It seems that you can't be said to be completely innocent...

"It doesn't matter, I understand." Yuei Vu smiled, thought about it, and asked, "Then can I ask, do you... know me in this era?"

Yusei shook his head.

"I don't know. I was born in the Satellite area and don't know much about the Top area."

Uh, so it means that I am still a high-class person?

Yuei Vu was a little embarrassed, and asked, "Have you seen it on TV or in a duel tournament..."

"Mr. Yuei Vu, you haven't been in the spotlight for a long time." Yusei said, "It's about the same time that Kaiba Seto announced his resignation as CEO and retired."

This time Yuei Vu was really surprised.

"President Kaiba retired?"

The animation of "Yu-Gi-Oh! 5DS" did not clearly explain how many years after the end of GX, but since the official clearly explained that Ushio Tetsu who appeared in the animation and Muto Yugi's senior at the time were the same person, it means that Yugi and Kaiba should still be alive in terms of age.

However, in the entire 5DS plot, the Earthbound Immortals descended, the souls of the citizens were sucked out on a large scale, and then the finale "Arc Cradle" appeared, the city was almost destroyed, and Z-ONE and Yusei gambled on the future of mankind for a decisive battle...

...In so many world crises involving the survival of mankind, none of the legendary bosses of the previous generations appeared.

Let alone Yugi and Kaiba, where did Yuki Judai go?

In the timeline of 5DS, he should still be a strong young man at his peak, right?

When watching the animation, most people would just think that this was necessary for the plot and would not think too much. But now that he had come to this world in person – especially since he has become a crucial part of this history, Yuei Vu couldn't treat it carelessly.

Where did his future self and other legendary duelists go in the timeline of 5DS?

He tried to ask Yusei for some information again, but still got nothing.

As Yusei himself said, he is just a low-level citizen in the Satellite area. Both Yuei Vu and Kaiba were unattainable top-level bigwigs for him, and there was no possibility of any intersection in this life.

He only knew that Kaiba retired after resigning from the CEO position, and the first-generation duel king Yuei Vu also disappeared for a long time without any news. Apart from that, he knew nothing.

So Yuei Vu didn't ask any more questions, but just silently made up his mind to investigate the relevant situation later.

If he could find his future self or President Kaiba, it would be necessary for him to go back to the past with the help of black technology or get some resource support.

What's even more strange is that it's not just him and Seto Kaiba. Yusei seemed to have never heard of Yugi Muto, Katsuya Jonouchi, or even the "legendary duelists" of other generations.

It's as if... it's as if the duelists of the entire past era have disappeared.

Why is that?

Did they all discuss it and decide on a time to disappear together?

That doesn't make sense.

It's okay for the characters in the DM era, but the students in the "Yu-Gi-Oh! GX" era were originally a generation later than Yugi Kaiba and others. They should have been at their peak in the 5DS timeline.

Why did these duelists disappear one by one in the 5DS?

If we don't consider this matter from the perspective of "animation plot's requirements", it can be said that there are many doubts.

Just as he was thinking about this, Yuei Vu happened to notice that when their D-Wheel was passing through the main road of the busy neighborhood, the huge electronic billboard on the commercial street happened to be playing the promotional video of the current Duel King of Neo Domino.

In the picture, Jack Atlas was riding his unique D-Wheel "Wheel of Fortune", speeding around the track of the duel field at high speed, while raising his right hand and pointing straight to the sky.

"There is only one king!" he shouted, "That's me!"

It was full of chuunibyou style, and the lines were even more chuunibyou. The taste was so strong that it almost sent Yuei Vu away directly.

"Even such a guy can be the Duel King..." Yuei Vu shrugged helplessly.

Although he had broken up with Jack, Yusei couldn't help but defend his buddy after hearing this: "Jack is actually very strong. He has not lost a game since he ascended to the throne..."

"Very strong?" Yuei Vu smiled.

For most duelists, maybe it was true.

But from the plot stage, Jack and Yusei were still just rookies in the novice village. The progress of the 5DS protagonists in the early and late stages was very obvious. Yusei in the later stage was completely different from now.

In fact, if Yuei Vu guessed right, the current point in time was only the first five episodes of 5DS, so he didn't think that Jack at this point could defeat the legendary duelists of the previous two generations, let alone occupy the throne.

Of course, Yuei Vu, who knew the plot, also knew that the reason why the Public Security Bureau pumped Jack to be the Duel King, so he didn't dwell on it too much.

Along the way, Yuei Vu was still studying the deck while asking.

That's right, he found that in this era, his system card pool had expanded a lot.

For example, the new type of Spell Cards called "Speed Spells".
