

## I Play Yu-Gi 141

### Chapter 141: The Full Card Library

The next development was exactly the same as in the animation.

Noah hijacked the airship and entered the underwater base, forced everyone to disembark by force, and made them unknowingly enter the virtual digital world.

But not everyone went out. Ishizu, who saw through everything, stayed on the boat and did not get off, and the six-year-old also hid in the corner to watch.

In fact, if Yuei Vu chose not to get off the boat here, but hid in his room and slept for a whole day, he would still pass through this scenario safely.

Although the quest "Duel Invitation from Kaiba Noah" has popped up in the quest panel at this time, the option attached to the quest also stated that this was an optional quest, and players could refuse to participate in.

Of course, in that case, there would be no reward.

So in the case of having trump cards, there was definitely no reason to miss this plot.

Not to mention Snow Wave and Miss Yuehua.

For players, encountering a unique hidden plot was their dream came true. How could some people choose to skip it and not accept it?

Press "Accept" without thinking!

So after the group disembarked, these two were the most emotional, obviously being held hostage but as happy as an outing

However, although Noah said that it was decided by playing cards, in fact, the rules were still different from traditional Master Rules. It was mainly manifested in the introduction of a new mechanic called "Deck Master".

In fact, this rule was common in some other games.

It worked like this: Before the duel started, each duelist chose any card they would otherwise use in the Duel, including cards from the Extra Deck, to be their Deck Master. These Deck Masters were not classed as being on the field and stayed face-up next to the player until the player decided to Special Summon it to his/her side of the field.

The Deck Master's effect(s) were still active while not being played on the field. Aside from their own effect, they also had an additional special effect which was called "Deck Master ability".

The Deck Master could be Special Summoned at any time during the Duel. However, if a player's Deck Master was destroyed, the player lost the Duel.

The description of this part of the rules in the animation was very vague, and it can only be inferred from the performance of the animation that there may be restrictions on the monsters that could be selected as the Deck Master.

For example, in the later duel of the Big Five, they did not choose to use their ace monster "Five-Headed Dragon" as the Deck Master. Instead, they specially summoned Five-Headed Dragon by using Ritual Spell to sacrifice their five Deck Masters with different attributes.

(The Five-Headed Dragon in this episode of the animation was Ritual Monster, not Fusion Monster.)

For example, Kaiba did not directly regard the Blue-Eyes Ultimate Dragon as the Deck Master, otherwise, it could jump out unconditionally and beat the opponent to death.

The behind-the-scenes BOSS Noah did not directly use his ace monster "Shinato, King of a Higher Plane" as the Deck Master, and it may be because that monster has a summoning restriction.

In other words, Nomi monsters that had summoning restrictions like "must meet certain conditions to be summoned", may not be able to be selected as Deck Masters.

After explaining the rules of the game here, Noah directly divided everyone and threw them into different corners of different maps in the virtual world through different tunnels.

And he arranged one of The Big Five for everyone in each map as the opponent.

If someone lost to The Big Five in a duel, his (her) physical body would be taken away, and the original owner of the body would replace the Big Five himself and wander forever in the computer world.

It felt a bit like a technological version of a Shadow Game although no one knew what kind of magical black technology was capable of stealing people's flesh and skin.

Yuei Vu was also thrown into a certain map in the virtual world along a space tunnel like Yugi and others in the animation.

After he landed, he stood up straight, looked around, and found that there was no one around him, as if no one else had landed at the same spot as him.

The Duel Disk in his hand was still there, but the deck was gone. He tried to call the Dark Magician Girl a few times, but his spirit who was always on call did not respond.

*Of course, this is to be expected.*

*After all, this is the computer world, and everything here is data, not real.*

*The real Dark Magician Girl spirit is still in the real world outside, of course, it is impossible to be called out here.*

Before Yuei Vu could confirm further, a building in the shape of a military factory next to him opened its door with a low "rumbling" sound.

What came out of the door was a robot?

"It's really an interesting opponent." The robot-shaped guy walked out slowly, looking rather cumbersome, "I'm Soichiro Ota, one of The Big Five, formally the chief technical officer at Kaiba Corp."

Yuei Vu frowned: "This image Robotic Knight?"

Robotic Knight was a Normal monster with an attack power of 1600. Now it was Soichiro Ota who appeared in front of him, borrowing the image of a Robotic Knight.

"That's right, this is my current posture, and it's also my Deck Master." Soichiro's voice continued to sound dull, "Before Kaiba Seto came to power, people used to call me the Demon Warlord of the Factory', and I have a very high reputation in the Kaiba Corp"

"Okay, stop talking nonsense." Yuei Vu interrupted impatiently, "It doesn't matter if you are a sergeant or not, it's time to play cards anyway, right?"

Soichiro: ""

*What he said is so reasonable that I can't refute it at all?*

"Hmph." Soichiro snorted, and a Duel Disk was conjured out of thin air on his arm, "Since you know the rules, that saves me the trouble of explaining. Let's start directly. First, choose your deck."

While speaking, a floating interface appeared in front of Yuei Vu, and countless dueling monster cards slowly rolled past him.

Soichiro explained at the same time: "Your cards can't be used here. But this system is directly connected to the Kaiba Corp's database, which contains all the cards registered with the Kaiba Corp. You can choose any forty cards you want."

Coming!

This was what Yuei Vu was looking forward to the full card library! (DM era only)

With all the cards in hand, of course, there was nothing to be afraid of.

Not to mention that his base was more than that.

Yuei Vu then opened the system task panel and checked his card library

As expected, all the cards opened in the system were also there!

Sure enough, the system was still reliable. No matter whether he was in the real world or the virtual world, the system was always bound to him, and the cards would follow him wherever he went

*Wait a minute, something seemed not right*

*The cards in the system library how come there be so many?*

Chapter 142: One Turn Kill

This time, it was completely beyond Yuei Vu's expectations.

According to the animation plot, he has long known that under the rules of this virtual space, everyone could select any card stored in the Kaiba Corp's database, which is commonly known as the full card file in stand-alone games.

But he did not expect that it also applied to the system card pool.

Maybe it's because the rule maker of this arc was Noah, and according to the rules set by Noah, "there are no restrictions on the cards that can be used here", so the system also acquiesced to the rules of the game.

Then it was more than stabilized!

Yuei Vu took this rare opportunity to check what cards were in the system card pool.

After all, the cards he opened from the system were all random, and all Yuei Vu could check were the cards that he has acquired. He couldn't see which card was in the card pool in version 1.0.

Now that he had this great opportunity, he must first confirm the limit of the card pool.

Calming down and taking a closer look, he found that it didn't seem to be a "full card file" in the true sense. What was unlocked here was actually only the cards that belonged to the series that he already had in his hand, as well as the cards derived from related series.

As for those series that he hasn't got his hand on, they didn't appear here.

Yuei Vu suddenly couldn't help speculating that perhaps each player's own system card pool was not static. The total number of cards in each person's card pool might gradually increase as players collect more and more related series of cards during the game.

Like now, his entire card pool was basically composed of the Dark Magician series, the HERO series, and some general-purpose cards.

Sure enough, just like his previous guess, there was no key card like Dark Magical Circle or Eternal Soul in the 1.0 version, which may be because the strength of such a card was indeed beyond the current environment.

Yuei Vu was a little disappointed, and he found that a legendary monster which was the nightmare of countless Yu-Gi-Oh players Red Daddy, was not in the card pool

Red Daddy was the nickname of Red-Eyes Dark Dragoon, the fusion of Jonouchi's ace monster "Red-Eyes Black Dragon", and Yugi's ace monster "Dark Magician". It was a symbol of the bond (gay love) between the two.

This monster was extremely simple to summon, and the effects were extremely scary. The first effect was a strong resistance; the second effect was to destroy the opponent's monster and deal damage to the opponent's monster's attack power; the third effect was to negate and destroy the activation of any card effect of the opponent and increase its attack power.

Due to its tyrannical resistance and oppressive power, this monster that has dominated the environment for an entire generation was also awe-inspiringly called "Red Daddy" by players. (soon to be listed as a banned card)

Think about it, if there was such a thing in the 1.0 version card pool, it would be too discordant. Considering its almost no-threshold summoning conditions, even the animated Egyptian gods seemed to pale in comparison

The HERO series gave Yuei Vu a lot of surprises.

Most of the HERO that appeared in Yu-Gi-Oh GX anime and manga was actually in this card pool. Not to mention famous series like Elemental HERO and Destiny HERO, even the ace Masked HERO of Yuki Judai in the comics, and the Vision HERO series of Aster Phoenix seemed to be all here.

This was a bit surprising. After all, he has spent so many crystals, and he has never seen one of the derivative HERO series other than Elemental HERO. He didn't expect all of them was in the card pool.

In this regard, he could only speculate that it may be because he has the most Elemental HERO in his hand, so he has the highest chance of opening cards in this series. As for Vision HERO, Destiny HERO, and Masked HERO series, because he didn't have a related card in his hand, the probability of opening one was very low.

Yuei Vu glanced at it roughly and found that the HERO series mobs in this card pool are quite comprehensive, but the monsters with strong individual abilities are harmonized in the 1.0 card pool.

For example, the eldest brother of the Vision HERO series, "Trinity", had an attack power of 5000 and could attack three times in one turn (cannot directly attack the player), so this card did not exist.

For example, Masked HERO Dark Law, who was dubbed "The hero that caused your buddy to unfriend you"

Masked HERO Dark Law, ATK 2400 Any card sent to your opponent's GY is banished instead. Once per turn, if your opponent adds a card(s) from their Deck to their hand (except during the Draw Phase or the Damage Step): You can banish 1 random card from your opponent's hand.

Because Dark Law was easy to summon and had an unreasonable ability to interfere with those decks that were highly dependent on drawing speed and graveyard resources, it was nicknamed "The Unfriend Hero"

"A true HERO doesn't need friends."

Yuei Vu was still checking one by one, but Soichiro on the opposite side was already impatient: "Hey, hurry up and decide your deck. If you want to find the God cards, it's useless! All God cards have been removed from the system."

Yuei Vu rolled his eyes.

*You see, after all, he's just a reckless weapon maker. What a barren imagination.*

*You have opened all the DM card files for me, why do I need the God cards to OTK you?*

Not only Yuei Vu could use the cards in the system card pool, but also a bunch of overpowered anime cards from the database of Kaiba Corp that was unique to the DM era!

Although Kaiba's data did not absolutely cover all cards in this era, it was enough.

"Let me seethen use this set first to deal with you."

Yuei Vu quickly selected forty cards. With a burst of golden light, a complete deck appeared in his Duel Disk.

"Hey, whatever you choose, it's impossible for you to win against my Deck Master Robotic Knight!"

Yuei Vu just remembered.

*Oh, there's still the matter of the Deck Master, I forgot about it. But it isn't important anyway.*

Yuei Vu roughly browsed his deck and quickly selected his Deck Master.

"The Deck Master of the deck I chose is Makyura the Destructor'."

The executioner warrior with sharp claws on his hands and a suit of armor appeared behind Yuei Vu.

"Huh, did you choose such a gloomy monster to be the Deck Master?" Soichiro hummed and smiled, "It's really not cute as a kid."

Yuei Vu opened the Duel Disk to test and grope for a bit, and soon he roughly understood the Deck Master ability of "Makyura the Destructor".

He turned around and chuckled: "Soon you'll know how powerful it is."

"Duel!" x2

"I go first, draw!" Soichiro looked confident, "I summon Cannon Soldier' in attack position!"

[Cannon Soldier, ATK 1400]

"Set another card and I end my turn."

Soichiro sneered in his heart.

The card he set was the Trap Card "Bottomless Trap Hole", a powerful trap that could destroy and remove from the game any monster with an ATK of 1500 or more.

The attack power of the Cannon Soldier was 1400. In the next turn, as long as Yuei Vu tried to summon a monster with an attack power of 1500 or more to defeat it, the trap would be triggered immediately, and his monster would be instantly killed in the bottomless hole.

At that time, Yuei Vu would have to end his turn with an empty field, and at best he could only rely on Trap Cards to resist attacks to pass the next turn.

But Soichiro already had a Spell Card in his hand that could clear all the Spell Traps on the field Heavy Storm. As long as it's his turn, he would use a Heavy Storm to destroy Yuei Vu's back row.

Next, he only needed to summon another monster, and special summon his Deck Master "Robotic Knight" to the field, and the total attack of all monsters would directly give him a victory!

"My turn, draw." Yuei Vu glanced at the cards in his hand, "I summon Royal Magical Library' in the defense position."

[Royal Magical Library, DEF 2000]

Soichiro pouted.

*A defensive monster with 0 attack power? In this case, the "Bottomless Trap Hole" could not be activated.*

*What a lucky bastard, he unknowingly saved his own life.*

While Soichiro was thinking so, he saw Yuei Vu smile mysteriously at him, and that smile made the cunning and sly Soichiro Ota have an ominous premonition for no reason.

"Let's do our best to resolve the battle as quickly as possible, and end this duel within this turn." Yuei Vu said lightly.

He said it so lightly as if it was a trivial matter to OTK Soichiro.

"!?"

Soichiro was shocked.

*Where did this guy's confidence come from?*

"I set four cards in my hand on the field." Yuei Vu said, "Then I activate Spell Card Card of Sanctity! Each player draws until they have 6 cards in their hand!"

Chapter 143: This Is Cheating!

"Card of Sanctity's effect!" Yuei Vu said, "Each player draws until they have 6 cards in their hand. My hand is now zero, so I draw six cards."

Soichiro also drew two. However, this one obviously didn't realize the seriousness of the problem and only snorted: "It's just drawing a few more cards. Your action doesn't make any sense."

"You will soon find out if it makes any sense." Yuei Vu continued, "Next, I will activate the Pot of Greed' set on the field and draw two more cards from the deck."

The greedy big pot with a weird grin appeared, and Yuei Vu continued to draw two cards.

"Then I open another set card Graceful Charity. I draw three cards, then discard two cards from the hand to the graveyard."

The holy angel with a halo above her head appeared and descended with endless brilliance. Yuei Vu drew three more cards from the deck, picked out two cards from his hand, and discarded them.

At the same time, the three indicator lights on the "Royal Magical Library" on the field were also lit up.

"The effect of the Royal Magical Library!" Yuei Vu waved his hand, "Each time a Spell Card is activated, place 1 Spell Counter on this card when that Spell resolves. I activated three Spell Cards, so there are three counters!

Now I remove all three counters and draw a card from the deck! "

"Drawing cards again?" Soichiro frowned.

"And then I activate Spell Card Card Destruction!" Yuei Vu said, "All players on both sides discard all cards in their hands, and then draw the same number of cards!"

Soichiro silently discarded all the cards in his hand, drew cards, and at the same time looked at Yuei Vu's deck whose thickness was reduced at a speed visible to the naked eye, and the ominous premonition became stronger and stronger.

It was as if something extremely terrifying was hidden in the forty-card deck, and now it was being released bit by bit by Yuei Vu.

He felt like he was prey that has fallen into the middle of a spider's web. The more he struggled, the tighter the threads around him became.

When he came back to his senses, he had already fallen into the other party's layout, unable to break free, he could only watch his fate be arranged.

"I'm going to use my Deck Master here, the effect of Makyura the Destructor!" Yuei Vu waved his hand, "Its Deck Master ability can only be used once in a duel. During this turn, I can activate Trap Cards from my hand."

"What?"

Soichiro Ota was even more puzzled.

*Shouldn't such a powerful Deck Master ability be activated in the opponent's turn?*

*For example, at the moment when the opponent summoned a monster or declared an attack, activate a Trap Card from the hand to counter the opponent's monster, it would be very hard to prevent.*

*There was only one chance in the duel to use that Deck Master ability, why did he use it in his own turn?*

*Wasn't this kid just bluffing? Or did he really plan to settle the battle in this turn?*

"What I want to activate from my hand is the Trap Card Jar of Greed. Draw a card from the deck.

Then I activate another Trap Card Reckless Greed. Draw 2 cards and skip my next 2 Draw Phases.

Then I activate Trap Card Legacy of Yata-Garasu. Draw a card from the deck.

Then I activate another Reckless Greed, and I draw two more

Another Pot of Greed, and I draw two more cards!

Activate Spell Card Into the Void. Draw 1 card, but during the End Phase of this turn, I must discard my entire hand.

At this moment, the effect of the Royal Magical Library' can be activated again. I remove three Spell Counters and draw another card! "

Soichiro heard the sound of his own heavy breathing only then did he realize that he had been out of breath for some time.

After a series of card draw operations, Yuei Vu paused for a while and seemed to have finally stopped.

Then he slowly drew out another card.

"Spell Card Foolish Burial." He turned over the card, and the image of the Spell Card appeared beside him, "Send 1 monster from my deck to my graveyard."

Yuei Vu pulled out the deck and found the last card he wanted from the penultimate position.

"You're really lucky." Yuei Vu glanced at Soichiro and shrugged, "The last one actually sank in such a bottom position"

Soichiro made a subconscious gesture of swallowing, staring at Yuei Vu without blinking, eager to know what medicine the other party was selling in the gourd.

"The monster I'm going to send to the graveyard is this guy." Yuei Vu revealed the card he had taken from the bottom of the deck, "Left Leg of the Forbidden One."

Soichiro Ota: "!!!?"

It was actually Exodia?

It was only at this moment that Soichiro suddenly realized the opponent's tactics, and at the same time looking at Yuei Vu's nearly drained deck, he couldn't help breaking out in a cold sweat.

Yuei Vu has already drawn more than half of the deck. And the effect of "Exodia the Forbidden One" was that the victory of the game could be declared directly by collecting all five parts.

But Soichiro quickly forced himself to calm down

*No, I haven't lost yet!*

*This means that the opponent hasn't got all the parts in his hand, and I still have a chance*

"Hmph, it doesn't look like your luck is very good." Soichiro sneered, "Even if you draw out most of the deck, you still can't get Exodia' with so many cards in your hand?"

The victory can only be declared when all the parts of the Exodia the Forbidden One are gathered in the hands, and it is meaningless to send them to the graveyard"

"That's why I always felt that you really have no talent for a duel, like others in The Big Five." Yuei Vu shook his head.

The Big Five was really an interesting group. They were obviously a bunch of lawyers and factory managers. They might be good at playing tricks, but now they had to challenge Kaiba and his friends to play cards.

It may be rude to say this, but the Big Five were really good at being feeders

Soichiro's face changed (although it couldn't be seen from the Robotic Knight's face): "What did you say?"

"I said you are a chicken when comes to playing cards." Yuei Vu was straightforward, and he had nothing to show mercy to.

Then he swept his arm: "Activate Spell Card Dark Factory of Mass Production! Return two Normal monsters in the graveyard to the owner's hand."

"What!?" Soichiro's heart skipped a beat.

"I add the Left Leg of the Forbidden One' in the graveyard, and the Right Arm of the Forbidden One' that were discarded into the graveyard by Card Destruction' to my hand."

Yuei Vu's GY area burst into golden light, and Exodia's right hand and left foot immediately popped out.

Yuei Vu took the two cards in his hand, and Soichiro smiled slightly: "Are you ready?"

Soichiro felt like he stopped breathing.

"If you're ready, then I'll continue~ I use five parts to my hand to lift the seal of the legendary ultimate mage!

Come on! The sealed Egyptian defender

Exodia! "

Legend becomes reality.

The space of the virtual world trembled as if it were about to collapse, and the engraving slowly carved a huge dangling seal formation in the space.

A huge golden palm protruded from the magic circle, dragging the torn chain on his wrist. Then came the huge body, which seemed to be about to burst through the magic circle.

That was the invincible ancient Egyptian defender, the ultimate Exodia the Forbidden One, one of the rare "invincible" existences in the duel monster rules.

[Exodia, ATK ]

The Exodia the Forbidden One's attack power was infinite!

Although players won directly by collecting five cards according to the rules, the specific form of victory in the DM animation was to summon Exodia, who has unlimited attack power.

After all, it's cool to have animation effects!

For example, right now, watching the huge Exodia create the magic ball in front of him, Soichiro Ota pissed himself

The Egyptian defender pushed with both palms, and the palms released the shock of obliteration. The golden light swept through Soichiro's field, smashing his monster and his set card, and his screams seemed to stop abruptly.

Soichiro Ota's entire body was engulfed in a golden whirlpool, and at the same time, he shouted unwillingly

This is cheating! ! !

Chapter 144: Shivered In Anger

When Snow Wave first entered the Noah arc, as the only player who had the opportunity to get in touch with this plotline the point was that he was even with Yuei Vu, he was looking forward to this virtual world journey.

When the plot officially started and everyone was sucked into different maps, others might be too nervous to notice, but Snow Wave saw the perfect position beside Yuei Vu at a glance and wanted to grab it without saying a word.

*In any case, I must land on the same map as Yuei Vu!*

When Miss Yuehua, who was close behind him at that time, saw Snow Wave's conspiracy face, she immediately understood the little scheme in the other party's heart.

*Ah! Want to monopolize Yuei Vu?*

*No way!*

So Miss Yuehua didn't hesitate and immediately stepped forward to the same position.

*The one who can follow Yuei Vu through the plot is me!*

As the old saying, "the gap of a duel between two masters is as wide as a thread, and the details of a moment can often determine success or failure".

Snow Wave was the first to leave, Miss Yuehua was the first to arrive, and the two rushed to the halfway and bumped into each other. Then at exactly the same second, the random teleportation began.

A few seconds later.

Snow Wave sat up on a transparent glacier, looked around, and found Anzu, Shizuka, and Miss Yuehua who was trying to snatch Yuei Vu with him. The three girls were lying motionless beside him.

A boy and three girls were on the endless and uninhabited glacier. Among the girls, there was a loli, a beautiful high school student, and a female streamer with a lovely figure.

Facing this situation, even Snow Wave couldn't help but think about it

*Damn it! Why haven't I been assigned a map with Yuei Vu?*

*Damn Noah, this must be his shady ploy, right? He actually left me with three useless girls!*

The three girls were obviously not as physically fit as Snow Wave, and they just woke up one by one leisurely.

Miss Yuehua got up, and at the first sight of meeting Snow Wave's eyes, she became angry.

*Why do you have to argue with me? Well now, the golden thigh of both of us was gone!*

Snow Wave rolled his eyes and ignored her.

He who had gained more than 40 favorability from Yuei Vu, had absolute confidence in his bootlicking ability. At this time, his mentality when facing Miss Yuehua was like a master player facing a bronze player, and he didn't bother to argue at all.

*Hmph, it was me who came first!*

Anzu and Shizuka also woke up at this time.

Unlike the two players whose nerves were disconnected, the two girls were a little scared right now. After all, the two of them were only rookies in dueling. If they are defeated by The Big Five and their body was taken away, it was no joke.

Not long after they got up, a penguin in a suit and top hat floated up under the water in front of them. That short stature, that chubby belly Did it look a little cute?

"Ha! There are three beautiful girls!" The penguin patted his belly happily, "Great, it seems that today is Shuzo Otaki's lucky day for the first time in 55 years!"

Anzu and Shizuka instinctively retreated: "What's the situation?"

"The Big Five, who used to be the personnel department of the Kaiba Group?" Snow Wave tried to recall the DM plot, "I remember his name is Sanji Sanji Okina?"

The penguin almost took a mouthful of old blood.

Who the hell was Sanji Okina?!

"Hmph, it looks like you have done some homework." The penguin hummed, "Yes, I am the former head of the personnel department of the Kaiba Corp. Remember it for me, my name is Shuzo Otaki, and I'm 55 years old! "

Anzu looked puzzled: "Why does he keep emphasizing his age?"

"Because he's a pervert." Miss Yuehua was full of disgust.

Although she hasn't played cards, Miss Yuehua has watched the anime. She also knew the details of this guy. Not only he was a super penguin addict, but he was also an old pervert.

It was said that when he was in charge of personnel at Kaiba Company, he had ravished countless young and beautiful girls, which caused a lot of judicial disputes. Every time, it was settled thanks to the presence of a lawyer in the Big Five, Chikuzen Ouka.

"I remember this was still a neuropathy?" Snow Wave stared, "The reason why he hates Kaiba seems to be because Kaiba doesn't let him build a penguin swimming pool in Kaiba Land?"

"Ah?" Anzu was confused.

"Hmph, that's right!" Shuzo Otaki was still angry when he talked about this, "That fellow Kaiba Seto that fellow dares to underestimate my most important penguin! The penguin is clearly so cute!

But you know what he said to me then? He actually said, If you want to keep black and white things in the park, you might as well choose pandas'!

It really pissed me off! So I can never forgive him! "

Everyone: ""

Miss Yuehua thought at first that it seemed strange to go evil for such a reason, but then she thought about it, thinking about the increasingly strange murder motives of the murderers in elementary school detective boy of the next door studio over the years, she suddenly felt that this did not seem strange

"Ha! I know all your details! Anzu Mazaki, who is 16 years old, and uh what's your name, little sister?"

Penguin's eyes fell on Miss Yuehua.

He has collected most of the information about people around Kaiba and Yugi, but now he had no impression of these two weirdos who suddenly popped up here

But this was also a beautiful girl!

Shuzo Otaki's eyes began to flicker.

*The three little sisters are all so beautiful, I really want to grab a young and beautiful body*

At this moment, even Anzu and Shizuka could see that the penguin in front of them was a complete scum and pervert.

"Okay! Then let's fight according to the rules set by Mr. Noah!" A Duel Disk appeared on the penguin's arm. "The loser will be robbed of her body!"

As soon as the words fell, Snow Wave and Miss Yuehua both stepped forward and said in unison, "I'm coming!"

Anzu looked moved: "You"

At this time, the two helpless girls, Anzu and Shizuka, automatically understood that two players took the initiative to protect them. Obviously, if someone could do this to a stranger whom they just met, they were really a good person

Penguin glanced at Snow Wave with disgust and pointed at him: "You, get out."

*What's the point of playing cards with a stinky guy?*

Then he turned to Miss Yuehua with a smile on his face: "Do you want to duel with me? Okay, no problem, come with me, we'll start now."

Snow Wave: "???"

*Fuck, what the hell kind of mission is this? Is there a gender limit?*

*This is such a naked sexist!*

Snow Wave shivered in anger. He didn't know when the position of male duelists would be able to rise

Chapter 145: Don't You Dare To Not Play Nether Cards?

At this time, Miss Yuehua was already following behind the little penguin controlled by Shuzo Otaki and jumped to an ice block.

The penguin controlled by Shuzo Otaki jumped to the ice block on the opposite, turned around, and the Duel Disk in his hand flashed with a golden light, and the deck automatically appeared in his hand.

"Okay, your deck is useless in this world, so hurry up and choose the cards you want to use in this duel." Shuzo Otaki smiled, "This is a great opportunity for you. All cards in the Kaiba Corp's database are here, even the ones you don't usually have access to.

Take advantage of this opportunity and try to challenge me, uh how old are you, little sister? "

Shuzo Otaki, who didn't know the other party's age, asked.

Miss Yuehua proudly stood up and raised her flat chest: "Eighteen years old!"

Besides her, Snow Wave looked blankly at the void: "How do I remember that when I visited your live broadcast three years ago, I heard you say that you were eighteen years old"

Miss Yuehua was suddenly unhappy: "I am eighteen forever. Do you have any opinion?"

"Very good, very good." Shuzo Otaki was very happy to hear that, "It's good to be eighteen, very good."

While talking, Penguin looked at her with more and more satisfaction, and finally even nodded slowly.

He was quite satisfied with this girl now. The face was pretty good, and the chest was a little too flat, but it was a small problem. After robbing her body and working a little harder, this defect was not irreparable

The old gentleman penguin laughed wickedly while thinking about it.

Miss Yuehua rolled his eyes at him, ignored the pervert, and began choosing her own cards from the card pool.

As mentioned before, although Miss Yuehua has been a streamer for a long time, she was still a complete rookie in Yu-Gi-Oh, and her dueling skills were just newbie-level. At present, she just copied a recommended deck for novices in the forum and beat the passers-by who barely make a living

At this time, all the cards were suddenly opened to her, and the rookie streamer was a bit at a loss.

*Holy crap, what effect does this card have? It looks so awesome!*

*Hey, I haven't read the effect of this card yet, why did it pass*

Like the new players in the follow-up version who want to enter Yu-Gi-Oh, they were confused when facing those new cards that were filled with a bunch of effects.

Download World Link Online!

Launch World Link Online!

Uninstall World Link Online!

The whole process was carried out in one go without any pause, commonly known as one-stop.

But it didn't matter, because Miss Yuehua was not fighting alone here. There were thousands of audience behind her.

"Mirror Force! Take a Mirror Force!"

"I saw the Magic Cylinder! Must take the Magic Cylinder!"

"Adding three Pot of Greed is the basic, right?"

""

Of course, Miss Yuehua also noticed that there seemed to be more cards in the system card pool than usual, but as a newcomer, her card pool was very monotonous and far less rich than Yuei Vu's.

So with the concerted efforts of many audiences, a deck with half of her favorite deck and the other half mixed with strange things was born

Many cards were the kind of "You must take it", so Miss Yuehua chose it without looking at it. She didn't even know how to use it or its effect.

So she still has to read the effect one by one

Shuzo Otaki was very generous and didn't rush her, but he just looked at her with a smile on his face, secretly overjoyed in his heart.

*Haha! It's luck!*

*What I caught this time was not only a young and beautiful little sister, but she also seemed to be a complete rookie!*

*How can I, Shuzo Otaki, lose to a rookie who doesn't even know the effect of the cards?*

At this moment, Anzu and Shizuka in the back were even more shocked.

*She actually didn't even recognize all the cards in her deck?*

*We were done!*

After a long while, Miss Yuehua finally inserted the deck back into the Duel Disk.

"Oh? Are you ready?" Shuzo Otaki smiled, "Am I generous?"

Miss Yuehua was too lazy to talk nonsense with him, so she directly opened the Duel Disk.

Shuzo Otaki didn't take it too seriously and was quite confident.

He felt that the result was stabilized. Now his penguin's mind has even automatically skipped the card-playing step and started to figure out how to do whatever he wanted with her body after winning

However, at this time, the 55 years old pervert did not realize the seriousness of the problem at all.

"Duel!" x2

The Duel Disk randomly chose Miss Yuehua to be the one who went first.

Here she still chose the meta that she has just played in the game these days summoning "Marauding Captain", and then special summoned "Command Knight" from the hand by the effect of Marauding Captain.

Then the effect of Command Knight increased the attack power of all Warrior-Type monsters she controlled by 400.

[Marauding Captain, ATK 1600]

[Command Knight, ATK 1600]

Then she set four cards and ends turn.

"Hehe, Warrior deck? It won't work in front of me! My turn, draw!"

Shuzo Otaki was full of confidence: "You must feel that you are protected by your back row, right? Let me tell you how wrong you are!"

Activate Spell Card Cold Wave! Neither player can activate or set any Spell or Trap Cards until my next turn! "

Miss Yuehua awkwardly pressed the button on the Duel Disk: "Wait a minute! Counter Trap Dark Bribe! Negate the activation of an opponent's Spell or Trap Card and destroy it. The opponent draws 1 card!"

"Huh, already prepared for that? Then I summon Mad Lobster!"

[Mad Lobster, ATK 1700]

"Wait a minute again!" Miss Yuehua pressed the button again, "Activate Trap Card Trap Hole! When a monster with an ATK of 1000 or more is summoned, destroy the monster!"

Mad Lobster, who had just debuted, hadn't stood firm yet, and opened a hole under his feet and fell down. Before dying, he roared angrily and waved his pliers, looking incompetent and furious

"What? Do you still have such a thing?" Shuzo Otaki gritted his teeth, "Damn, since that's the case, I can't let my field empty for the next turn Activate spell Card Premature Burial! Pay 800 LP, and my Mad Lobster will be resurrected!"

Shuzo Otaki, LP 4000 LP 3200

The red lobster reappeared on the field under the effect of the Spell Card, panting, looking even angrier than before

"Then here I activate the ability of my Deck Master Nightmare Penguin' to increase the ATK of all WATER monsters on my field by 200!

[Mad Lobster, ATK 1900]

Then I attack Marauding Captain with Mad Lobster! "

"Just wait a second!"

As soon as Miss Yuehua raised her hand, Shuzo Otaki's eyelids jumped in a conditioned reflex.

*Holy crap, isn't there still another?*

"Activate Trap Card Mirror Force! When the opponent declares an attack, destroy all attack position monsters on the opponent's field!"

Shuzo Otaki: ""

Shuzo Otaki, who has eaten three pits in a row, has begun to doubt his life. The Mad Lobster on the field seemed to go mad for real, yelling at the divine power that shone with light in front of him, but in the end, it was helpless and vanished under the brilliance

"Damn it!" Shuzo Otaki stomped his feet in anger.

*What the hell is this shit?*

He couldn't summon monsters, and he couldn't attack. Shuzo Otaki said that he had never heard of such an autistic duelist.

*Don't you dare to not play nether cards?*

But now Shuzo Otaki had to face a more serious problem. Now his LP was only 3200, and the combined attack power of the two monsters on the beautiful girl's field was exactly 3200. If he ended his turn like this, he would undoubtedly lose

So now he has no other choice.

"I I summon my Deck Master!" Otaki shouted, "Summon the Nightmare Penguin' in defense position!"

[Nightmare Penguin, DEF 1800]

Although it was a very dangerous bet, because he would lose if his Deck Master was destroyed, now he has no other choice. Nightmare Penguin's defensive power was 1800, as long as it survived the next turn

"Wait wait a second again!"

Shuzo Otaki almost spat out a mouthful of penguin blood.

*Please don't say "wait", auntie!*

*Do you have so many tricks?*

"Activate Counter Trap Solemn Judgment!" Miss Yuehua shouted, "Pay half of my LP, negate the Summon of your monster and destroy it!"

According to the rule, the person whose Deck Master is destroyed cannot continue to fight! YOU LOST! "

The image of the majestic old man was projected on the trap card, and he raised his hand to announce with a denial gesture. The Nightmare Penguin disappeared in an instant, and the 55-year-old former HR Shuzo Ohtaki was also sucked in a whirlpool and disappeared in a series of unwilling screams.

Before disappearing, Shuzo Otaki's mind was filled with one thought

*What the hell is this deck?? Is it too nether!?*

Chapter 146: I Can Also Print Cards!

After Yuei Vu OTKed Ota Soichiro with Exodia deck, a door appeared in front of him.

Yuei Vu, who has watched the animation, was familiar with this process. After winning the duel, there would be a door leading to the next map in front of you, which was a bit like a classic game.

Yuei Vu didn't hesitate, opened the door and walked in, and immediately came to a new map.

Arriving here, the art style suddenly changed. A second ago, he was standing in a place with a painting style similar to an industrial area, but now he is standing in a tree-lined path with birds and flowers.

Thick trees stood on both sides of the road, the sun cast mottled shadows, and the air was filled with a faint scent of sandalwood.

There was only one road, so Yuei Vu didn't think much, he walked forward along this road, and even had time to browse the forum while walking.

This was the advantage of being able to visit the forum, as he could also know the situation of the two players.

Miss Yuehua's live broadcast was running the whole time. Taking a peek at the screen, Yuei Vu saw her situation.

If fact, he didn't even need to visit the live broadcast room, as Snow Wave and Miss Yuehua couldn't wait to post and pretend to show off.

Yuei Vu glanced at the two's posts, and found that it was a bit embarrassing for the two of them it was obvious that the two of them had gone through the same process, but the content of the posts was still different.

To be precise, their focus and presentation angles were different. Yuei Vu guessed that his two spare tires temporarily reached a consensus to unite the front, and adjusted the content after a little discussion before posting.

Otherwise, if two people showed off in exactly the same way, it wouldn't do anyone any good.

Walking to the end of the forest path, another door soon appeared in front of him. Yuei Vu opened the door again, and a strong light flashed behind the door, making him unable to open his eyes. When he came back to his senses, he had already left the forest and was standing in a barren open space.

A light appeared on the stone directly opposite him, followed by the silhouette of the individual. That was a green-haired boy who held his hands behind his back and had the expression of a superior looking down.

That person was Kaiba Noah, or to be more precise, an AI with memories of Kaiba Noah.

"Oh? Is it really good to just appear in front of me as a behind-the-scenes boss?" Yuei Vu smiled, "I just passed the first level."

Noah smiled: "But your performance exceeded my expectations, and now there are not many things in the world that can surprise me."

This might be true. The current Noah was still an AI in essence. He has the learning ability of a supercomputer, and he knew all the knowledge in various fields. There may not be many things that can surprise him.

It was precise because of this that he was interested in the occasional variable.

"Exodia It is indeed in the database of the Kaiba Corp. However, no one ever builds the entire deck around this and completes the seal release of the Exodia the Forbidden One within one turn. As far as I know, you are indeed the first."

In the animation, the tactics of building decks around Exodia were not without precedent. There was at least one rare hunter of Ghouls who played this deck. Ten years later, there was Amon in Yu-Gi-Oh! GX.

But at least so far, Noah has not heard of anyone who was able to collect five parts of Exodia in one turn.

"I remember you're Yuei Vu, right?" Noah said, "One of the top eight players of the Battle City Competition Oh no, it should be the top four now."

He smiled softly: "I'm very interested in you, Yuei Vu. I think you have something about you, something other duelists don't have.

As you may have discovered, this is a world entirely under my control. If I wanted to, I could forcefully take your body right now. But don't worry, I won't do that. What I am presenting to you here is an opportunity for cooperation. "

Here we go again, the old "we can rule together" cliche.

However, Yuei Vu didn't take it to heart at all.

Noah felt that he could take away Yuei Vu's body at any time, but Yuei Vu felt that he could not.

Just kidding, how could he dare to break into the virtual world so mindlessly if he didn't even have any protection measures for his trump cards?

Although his Dark Magician Girl couldn't follow him into this world, but if Noah wanted to break the rules and skipped playing cards directly, Yuei Vu had a countermeasure.

Of course, it's just an assumption.

Cards must still be played, especially for players with hair color like Noah. At the first glance, anyone could tell this was a dueling addict.

"My target is only Seto from the beginning, and the others are just accessories that have been affected. They don't matter at all. But your tactical ideas as a duelist interest me. If you can prove yourself in a duel it is not impossible to allow your allegiance."

Yuei Vu rolled his eyes and raised the Duel Disk directly: "If you want to duel, hurry up, but allegiance or something is exempted. I'm not interested in little kids."

Noah just smiled: "Really? Well, that doesn't matter. After you lose to me, you might change your mind."

While speaking, the interface of the card list appeared in front of Yuei Vu again, which stored all the card data recorded by Kaiba Corp.

Yuei Vu glanced around and found that he opened the list this time, the deck-thinning cards he had stuffed into Exodia's deck, as well as "Makyura the Destructor" which allowed him to activate trap cards from his hand, seemed to be gone

On the contrary, the most widely used Pot of Greed and Graceful Charity was still on the list, but if he used them to form an Exodia the Forbidden One deck, it may be difficult to ensure that he could get them all in one turn.

Yuei Vu glanced at Noah, who was pretending to not do anything.

*Your words were so arrogant, but in fact, you were still a coward in front of the Egyptian defender*

But it was no big deal.

Yuei Vu, who has access to all banned cards, had more options available. If Noah took Exodia away, he would simply choose another tactic.

Yuei Vu thought for a while, and this time he chose a deck from the system card pool.

The forty-card deck was ready, and the deck automatically appeared in the Duel Disk he was wearing.

"Then the two sides choose Deck Master' now. I believe that you don't need me to introduce the rule again, right?" Noah said, and drew a card from the deck, "The Deck Master I choose is Shinato's Ark!"

There was a crack in the ground behind Noah, and the huge wooden boat slowly floated up with a roar, hovering behind Noah.

"Hey, is this really good?" Yuei Vu raised his eyebrows, "You said before that everyone uses the card in the Kaiba Corp's database, right? I don't remember that there is such a card in the Kaiba Corp's card pool. You print it for yourself, don't you?"

Noah smiled: "The rule of the game is that any dueling monster card can be used in this space, as long as the Duel Disk can bear its power."

"Well, that's fine." Yuei Vu nodded, expressing that he happily accepted this setting.

Then he also drew a card from the deck: "Then the Deck Master I want to choose is Elemental HERO Stratos'!"

A HERO image in blue armor appeared beside Yuei Vu, with arms and feet floating in mid-air, with metal gliders behind him, and the whirling turbine rolled up the hurricane, keeping it floating in mid-air.

This time, Noah's face changed slightly.

"A card that I haven't seen?" He frowned. "What kind of monster is this?"

Yuei Vu smiled lightly.

*Noah, you don't expect this, do you?! I can also print cards!*

Chapter 147: Only Printing Card Can Beat Printing Card

Noah narrowed his eyes and seemed a little unhappy with this unexpected change.

This guy why could he use a card that didn't exist?

But he did say just now, "As long as it is a card recognized by the Duel Disk, it can be used", and most of his own card decks were cards that he has printed privately, which could only be used in his own virtual world.

If he directly denied that rule, it was equivalent to him admitting defeat.

Noah thought about it, and used a part of the program to investigate Yuei Vu's deck and cards, and also confirmed that the cards he used were genuine dueling monster cards, not fake and inferior products from a small workshop.

Compared to him, Noah was more like the one who played the fake cards

Although Pegasus, known as the "Father of Dueling Monsters", was the one who resurrected this ancient game in modern times, not all the cards in the Yu-Gi-Oh world were printed by Pegasus.

For example, every generation of Yu-Gi-Oh villains, as long as they're a bit important, would use all the special cards. At first glance, everyone could tell that those cards were not printed by the Industrial Illusions.

But as mentioned before, all real dueling monster cards had some supernatural powers inside them, which was the essential difference between real cards and fake cards. So even if the villains of all generations took out a bunch of cards that no one had heard of, they would still be recognized by the duel rules.

So Noah didn't doubt that the card deck in Yuei Vu's hand would be a fake card, he just cared about how Yuei Vu took out the cards that were not in the database in the virtual world he controlled.

"It seems that I underestimate you, Yuei Vu. You are also a person with secrets." Noah said lightly, "It doesn't matter. I will dig out your secrets after I defeat you."

When it came to playing cards, Noah had absolute confidence.

After all, most of his decks and the Deck Master behind him were all printed by himself.

In this virtual world, he is absolutely invincible when playing cards!

"Duel!" x2

Noah, LP 4000

Yuei Vu, LP 4000

This time, for a rare moment in ten thousand years, the Duel Disk actually gave Yuei Vu the right to decide who should go first.

However, Yuei Vu wisely chose

"I'll let you go first." He shrugged, "I don't want to be called bullying children."

He said so, but what he thought in his heart was

I'm playing a pure HERO deck this time. When playing HERO, who wants to go first?

"Oh? Are you so confident?" Noah smiled, "Then don't regret it later. My turn, draw!

I summon Aeris' in attack position. "

Aeris was also a card printed by him. Although it was based on Ares, the Greek God of War, it was a bit sloppy: just a Level 4 Normie, and his appearance was still very frustrated, with a sling on his back and shirtless, like a primitive man in the tribe.

[Aeris, ATK 1800]

"Set a card on, I end my turn." Noah confidently said, "Okay, it's your turn. Of course, no matter what you do, it's useless."

Yuei Vu looked at his self-confident appearance and felt amused in his heart.

Of course, he knew what Noah thought he could not lose. In fact, when it came to dueling skills, Noah was really not good. In the animation, he could suppress the Kaiba entirely due to the fact that the card printed by himself was more unreasonable than the fake card.

For example, Giant Flood, a Normal Spell card that could directly send all monsters on the field and from both players' hands to the Graveyard.

For example, Ice Age Panic, a Normal Spell card that could Special Summon 1 EARTH monster from his Deck when he controlled no monster.

But these OP cards were nothing compared to his Deck Master Shinato's Ark.

Shinato's Ark's effect 1: In this duel, all monsters sent to the Graveyard by both sides are not sent to the Graveyard, but are "contained" by the Ark. The contained monsters were neither banished from the game nor in the graveyard, so you could understand that Noah directly cut down the graveyard of the opponent player at the beginning of the game

And Yuei Vu, who has been playing cards for so many years, has only heard of sending it to the graveyard and banishing it, and it was the first time he has heard of such a strange concept of "containment".

Imagine this: You were playing cards and looking into your empty graveyard, feeling confused: where were my monsters?

Then the opponent: Hahaha, your monster has been contained by my Deck Master!

You: Damn, then I would contain you too (physically).

This was just the first effect of this damned thing, and you must know that this Deck Master had a total of six effects.

Effect 2: Once per turn, remove all monsters contained in the Ark from the game, and restore LP equal to the number of removed monsters x 500.

Effect 2: Whenever the opponent announced the start of the Battle Phase, according to the number of monsters on the opponent's field, randomly select the same number of monsters from the Ark's "contained area", and special summoned to the player's field in defense position.

Effect 4: If Shinato's Ark that was summoned to the field was destroyed by the opponent, specially summoned "Shinato, King of a Higher Plane" and it would be regarded as the new Deck Master, thus the player would not lose by the destruction of the Ark.

Effect 5: When "Shinato, King of a Higher Plane" attacked a monster in the defense position, the opponent's player's LP would be halved, and the player gained the same amount of LP.

Effect 6: Once per Duel, when "Shinato, King of a Higher Plane" was sent to the graveyard from the field, the effect of sending it to the graveyard would be negated, and "Shinato, King of a Higher Plane" could be revived as the Deck Master.

When Yuei Vu watched the anime, the first thing he wanted to do was to complain How could you print so many effects on such a small card?

Kaiba Noah kept saying that he would fight with Kaiba Seto in a "dignified" duel, but in fact, it's all bullshit!

Not only you added such a unilaterally beneficial rule like "Deck Master", but you were also shameless enough to imprint so many effects on your card. Why didn't you just write the effect of the Deck Master as "I will win directly"?

Even if you used this kind of cheat card to defeat Kaiba Seto, could this really prove anything?

Therefore, Yuei Vu didn't intend to be polite to players who printed cards without permission and had no intention of playing cards fairly.

Don't you like playing fake cards?

Then get ready to be punished by heroes!

"My turn, draw! Activate Spell Card Pot of Greed. I draw two cards from the deck."

Yuei Vu came up with the old routine first, and then started to unfold immediately!

"The first thing I want to play here is a Spell Card" Yuei Vu drew a card from his hand, "A Hero Lives! If I control no face-up monsters, I can pay half of my LP; Special Summon 1 Level 4 or lower Elemental HERO' monster from my Deck!

Bring it on! Elemental HERO Stratos! "

Yuei Vu, LP 4000 LP 2000

A Stratos with the exact same shape as the Deck Master behind him flew out of the deck, the bi-wing turbine mounted on his back flew, and his figure was suspended in mid-air.

[Elemental HERO Stratos, ATK 1800]

Noah laughed: "Hey, did you make a mistake? Losing 2000 LP in one go did you special summon the same monster as the Deck Master?"

Do you really know the rules? Deck Masters can be summoned directly to the field. "

Yuei Vu ignored him, and just continued to operate.

"Stratos's effect is activated! When it is successfully summoned, I can add 1 HERO' monster from my deck to my hand. My choice is Elemental HERO Shadow Mist!"

Then he brought out the Shadow Mist and another card that he had added to his hand at the same time.

"Normal summon Elemental HERO Solid Soldier! Then the effect of the Solid Soldier When this card is Normal Summoned, I can Special Summon 1 Level 4 or lower HERO monster from my hand!

Special Summon Elemental HERO Shadow Mist!"

[Elemental HERO Solid Soldier, ATK 1300]

[Elemental HERO Shadow Mist, ATK 1000]

Noah snorted: "Summoned three monsters in one breath? Are you ready to launch a strong attack in the first turn?"

"The effect of the Shadow Mist is activated!" Yuei Vu has just started, "If this card is Special Summoned, I can add 1 "Change" Quick-Play Spell Card from my Deck to my hand! I add Mask Change' to my hand!"

Then he pointed to the Stratos floating behind him.

"I'll activate the ability of the Deck Master, Elemental HERO Stratos!" Yuei Vu waved his hand, "Once per turn, add 1 HERO' monster from my Deck to my hand.

What I choose is 'Vision HERO Faris!' "

Vision HERO was the deck used by Aster Phoenix in Yu-Gi-Oh!GX manga.

Noah frowned.

Vision HERO?

Another card I've never heard of

"The effect of Vision HERO Faris: this card can be Special Summoned from the hand by discarding 1 other HERO' monster.

I discard a card in my hand and Special Summon Vision HERO Faris!' "

[Vision HERO Faris, ATK 1600]

"At this moment, the Shinato's Ark' Deck Master ability is activated!" Noah waved, "Monsters sent to the graveyard by both players will not enter the graveyard, but be contained by the Ark instead!"

The huge wooden boat behind Noah slowly hung up, absorbing the monsters abandoned by Yuei Vu.

In this way, the graveyard on Yuei Vu's side was equivalent to being scrapped directly. Even for many of Yu-Gi-Oh meta decks today, it was a cheating-level interference ability.

But Yuei Vu was already mentally prepared for this.

"The effect of Vision HERO Faris' is activated!

When Faris is successfully summoned, I can choose a Vision HERO' monster from the deck, and place it in my own Spell Trap Zone as a Continuous Trap Card! "

Noah continued to be surprised: "Treat monster card as Continuous Trap Card!?"

Placing monsters in the Spell Trap Zone was actually not very uncommon at the time of GX animation. The Crystal Beast in the animation was the most famous deck with such characteristics.

In this respect, Vision HERO was actually similar to Crystal Beast.

"I place Vision HERO Increase' in the Spell Trap Zone!

Then, by the effect of Vision HERO Increase', when this card is treated as a Continuous Trap: I can Tribute 1 "HERO" monster; Special Summon it!

I use Vision HERO Faris' as a tribute, and special summon Vision HERO Increase! "

[Vision HERO Increase, ATK 900]

Noah was even more confused, gritted his teeth, and said, "Use a monster with high attack power as a tribute to summon a low-level monster?"

In the eyes of duelists of this era, this was unimaginable behavior, and Noah, who has all knowledge of dueling from network data, was no exception.

How could someone tribute a Level 5 monster with 1600 ATK to summon a Level 3 monster with only 900 ATK?

"The effect of Vision HERO Increase'!" Yuei Vu said loudly, "When it is Special Summoned from the Spell & Trap Zone: I can Special Summon 1 Level 4 or lower Vision HERO' monster from my Deck!

Special Summon Vision HERO Vyon! "

[Vision HERO Vyon, ATK 1000]

"In this way, the preparation is complete." Yuei Vu smiled, raised the Duel Disk, and the Field Spell area on the side of it automatically popped up.

"Field Spell Fusion Gate, activate!"

Chapter 148: HEROes' Sanction

"Field Spell Fusion Gate is activated!"

Yuei Vu placed the Spell Card in the Field Zone, and the Duel Disk immediately put the card inside.

The pitch-black huge vortex opened in mid-air, turning into a bottomless space tunnel.

"When the Fusion Gate is on the field, Fusion Monsters can be Fusion Summoned without using Polymerization'." Yuei Vu pointed at the vortex in mid-air, "First of all, I fuse Elemental HERO Stratos' and Elemental HERO Solid Soldier'!

Fusion Summons! Elemental HERO Gaia! "

The ground trembled and cracks spread like cobwebs along the rocks. Two beams of light staggered and flew into the vortex of the Fusion Gate in mid-air, merged into one, and smashed straight down into the ground.

The Elemental HERO wrapped in dark and heavy armor rose from the ground, and the stones rolled down from him rustling.

[Elemental HERO Gaia, ATK 2200]

"Gaia's effect When this card is Fusion Summoned: Target 1 face-up monster your opponent controls; until the End Phase, its ATK is halved and this card gains the same amount of ATK!"

Noah frowned: "Is there still such an effect?"

[Aeris, ATK 1800 ATK 900]

[Elemental HERO Gaia, ATK 2200 ATK 3100]

"It's not over yet! I use the effect of the Fusion Gate again!" Yuei Vu raised his hand, "This time, I fuse Vision HERO Increase' with Vision HERO Vyon'!

Fusion Summons! Vision HERO Adoration! "

The two heroes both turned into black afterimages and were shot into the vortex in mid-air. The jet-black beam of light fell, and a tall, heroic jet-black hero emerged from it. He was dressed in black, with pockets fluttering around his body, and he had an extraordinary demeanor.

Vision HERO Adoration, ATK 2800]

Noah gritted his teeth: "Summon monsters with ATK of 2800 and 3100 in one turn, what the hell are you"

"It's not over yet! The Fusion Gate's effect continues to activate!" Yuei Vu pointed at the whirlpool again, "I fuse Elemental HERO Bubbleman' on my hand with Elemental HERO Shadow Mist' on the field!

Fusion Summons! Elemental HERO Absolute Zero! "

This time, it was Big Brother among fusion monsters in the Elemental HERO series.

The Bubbleman and the Shadow Mist were transformed into a water column and a black mist respectively, and their figures were staggered in one place.

The boundless cold air came as if the air was about to freeze into ice. The figure of the pure white hero hugged his arms and lowered slowly, the white cloak fluttered gently behind him, and a dream-like water splash flew all over his body.

[Elemental HERO Absolute Zero, ATK 2500]

Noah narrowed his eyes: "But in the turn they are Fusion Summoned, Fusion Monsters"

".cannot attack, I know!" Yuei Vu played out a Spell Card, "Activate Quick Attack! Fusion Monsters can attack in the turn they are Fusion Summoned!

Battle! Attack with Absolute Zero! "

"Hmph, little tricks!" Noah waved his hand and shouted, "The moment you announced that you have entered Battle Phase, the Shinato's Ark' Deck Master effect has been activated!

When the opponent player enters Battle Phase, Shinato's Ark can randomly special summon defensive monsters from the "contained area" according to the number of monsters on the opponent's field! "

In other words, at the beginning of the Battle Phase, no matter how many powerful monsters the opponent summoned this turn, Noah would always be able to conjure up the same number of defensive monsters out of thin air.

The most important thing was that these cheating abilities were not monster effects, but the "Deck Master abilities" that Noah himself added to the rules.

That was to say, you could neither negate it nor blow it away. The only thing you could do was to hold your nose and accept its disgusting effect.

Noah looked proud: "You didn't expect it, did you? There are only monsters you sent to the cemetery in the containment area, so the monsters that appear on my field to act as walls are naturally your monsters.

Come on, Random Summons! "

The huge wooden boat behind him began to respond. Several golden lights were released from the huge hull, and they fell from mid-air to the ground in front of Noah.

Since there were three monsters on the Yuei Vu field, the number of monsters summoned by Noah was also three.

[Vision HERO Faris, DEF 1800]

[Elemental HERO Bubbleman, DEF 1200]

[Elemental HERO Solid Soldier, DEF 1100]

Noah waved his hand: "All the monsters you send to the graveyard will become my shields! In this way, no matter how many monsters you summon or how many attacks you launch, it is impossible to cause damage to me!"

To be fair, it was really impossible to win Noah with DM decks in such harsh conditions.

However, in the animation, Kaiba has been beaten to the point of only a trace of LP in the duel with Noah, empty-handed. As a result, Yami Yugi replaced Kaiba who could not continue to fight under these conditions, forcibly turned the table, killed Noah whose LP was 10000, and left a legend of "LP 100 VS LP 10000" in the history of Yu-Gi-Oh.

So it seemed that the game was a humanoid walking cheat in the world of duelists, the kind that people could neither understand nor learn

Yuei Vu didn't have the qualities of a duelist at the cheating level like that. However, he has already prepared countermeasures against Noah's rogue tactics!

"The moment you summon the monster, Noah, I'm going to activate a Quick-Play Spell from my hand Mask Change!"

Noah was taken aback: "The Quick-Play Spell that was added to the hand through the monster effect just now?"

"Mask Change is a card that sends a HERO' monster on my field to the Graveyard and Special Summons a Masked HERO Fusion Monster with the same attribute!

I will use the Mask Change to transform the Elemental HERO Absolute Zero' on the field! "

The glittering light briefly covered the entire field, engulfing the frozen hero. A silhouette in armor appeared in the light, and a swirling current of water lingered around him.

"Absolute Zero, transform!" Yuei Vu said, "Summon Masked HERO Acid!"

The Elemental HERO who ruled the frozen realm disappeared, replaced by a masked warrior in exoskeleton armor and half-squatting on the ground.

[Masked HERO Acid, ATK 2600]

"But it's pointless to do this!" Noah said coldly, "Even so, you still have only three monsters on the field, and you can't penetrate the absolute defense of the Ark"

"That's not necessarily true." Yuei Vu chuckled, "Look at your own field."

"My fieldwhat!?"

Noah was surprised to find that the ice had spread from his feet at some point.

The pervasive chill dominated the entire half of Noah's side. Faris, Bubbleman, Solid Soldier, and Aeris he summoned before, have all been completely frozen into ice sculptures by now.

It's like a world dominated by low temperatures. In the field of absolute zero, even the air could be frozen.

"What is this!?"

"The effect of Elemental HERO Absolute Zero'." Yuei Vu said lightly, "When this monster leaves the field, all monsters on the opponent's field will be destroyed."

"Damn, does it actually have such an effect?"

Although his front row was cleared, Noah didn't think that the effect was too much.

After all, Absolute Zero was a Fusion monster, and it must "leave the field" to activate the effect. It's far worse than the pile of Spell Cards he printed that could blow up the field and even blow up the opponent's hand

Noah didn't panic, but looked sideways at the covered card at his feet.

He also set a "Negate Attack" as a double insurance, which was one of the traps known to have the strongest defensive capabilities. As long as this card was there, he could still get through this turn safely

However, when he just thought about this, a wave of water whistled and swept the "Negate Attack" set on his field. The card issued a hissing sound and released white smoke as if it was a piece of metal submerged in the strongest acid.

"Wait what!?" Noah was shocked.

"The special ability of Masked HERO Acid," Yuei Vu pointed to the armored hero in front of him, "When this card is Special Summoned, all the Spell and Trap Cards on the opponent's field will be destroyed!"

Noah suddenly woke up.

When Absolute Zero left the field, he would destroy all monsters, and when he transformed into Acid, he would destroy all Spell and Trap Cards

There was such a powerful combo!

Yuei Vu smiled lightly.

You should blame your own "no limit to available cards" rule.

Besides, it was you who printed the fake card yourself, so you deserved to be hanged and beaten by righteous heroes.

[Elemental HERO Gaia, ATK 3100]

[Vision HERO Adoration, ATK 2800]

[Masked HERO Acid, ATK 2600]

Noah, LP 4000

"Battle!" Yuei Vu waved and ordered, "Elemental HERO, Vision HERO, Masked HERO, launch a total attack on Noah!"

Chapter 149: Don't Plan To Play Cards?

Elemental HERO, Vision HERO, Masked HERO! Yuei Vu waved and shouted, Launch a total attack on Noah!

Gaia, Adoration, and Acid flew forward simultaneously. The three heroes attack hit Noah's body at the same time. The simulated impact in this virtual world smashed Noah's entire body like a rag, sending him flying away, and the total output of 8500 instantly evaporated Noah's entire LP.

Noah: Ahhhhh!!!

Noah, LP 4000 LP 0

Of course, it was impossible for this simulated shock to hurt Noah, who was already a program code in essence, but this fact did deal a huge blow to him.

Noah got up and knelt on the ground, shocked.

I lost? By OTK?

Even if I adopt my own rules, even if I have the strongest Deck Master and the most perfect tactics (printed cards), why do I still lose so easily?

Noah was still thinking of defeating Seto through a duel, and clearly wanted to completely crush Seto and retake the Kaiba Corp. In the end, he lost to someone else before he even fought him?

This was unacceptable!

At this moment, in the virtual space where the two of them were, the wind direction suddenly changed.

Yuei Vu could clearly feel that the simulated temperature in this space has dropped a few degrees. The sun disappeared, and an ominous cloud appeared in the sky. The rolling black clouds slowly spun in the sky, and in the center of the whirlpool emerged

a human face?

That's the face of an old man. Silver-white hair and beard, with a straight face and a solemn face, made people tremble just by looking at his eyes.

Noah's face changed suddenly: Fa Father!?

It was also obvious from his reaction that the man was Kaiba Gozaburo, the man who adopted Kaiba Seto, but was finally kicked out of Kaiba Corp by his adopted son and had everything taken away from him.

But Noah was obviously kept in the dark: Aren't you already dead?

The old man in midair rolled his eyes at him: My flesh body? Yes. But before that, I used the same device that I used to save you.

I also backed up my own consciousness and uploaded it into the computer world. Now I am as omnipotent as you are no, even above you.

Father! Noah's face was full of surprise, like a long-lost child who burst into tears when he saw his parents again, You're still here? Maybe you don't know, but I've always felt lonely all the time. I've been working on to fulfill your expectations

You're useless, Noah, Gozaburo said coldly, his tone unwavering as if he was narrating an irrelevant fact.

Noah's smile instantly froze.

I used to work very hard to save your life because you are the one whom I decided to be the heir of Kaiba Corp. If I die just like that, it will still be a little bit nerve-racking. Gozaburo said coldly, But that has already been done. Its past tense, I don't need you anymore.

After speaking, the old guy turned his head and turned to Yuei Vu, looking at him strangely for a while.

I'm a little bit interested in you, he said. Come here, I have something to talk about.

While speaking, another door has been conjured out of thin air next to Yuei Vu.

Yuei Vu raised his eyebrows.

He kind of wanted to say: Sorry sir but Im not interested in an old man, and even less interested in the dead

but think about it, he was going to come in anyway.

After all, this was the real behind-the-scenes BOSS of this arc.

After Yuei Vu walked into the door, it quickly disappeared. The face of Gozaburo that appeared in the sky also disappeared immediately, the cloud dissipated, and the sky turned blue again.

Kaiba Noah knelt on the ground like a dried salted fish for a long time, and his outlook on life collapsed.

How how is this? he said to himself, Dad doesnt need me anymore? Then what have I done so far?

Even in the form of an AI, Noah was essentially a well done, son guy. Even after his father died for so many years, he has always been trying to move forward along the path his father expected, defeating Kaiba Seto and retaking their familys company, so that his dead father could be relieved.

Now he not only knew that his father has not yet died, but he has also become an abandoned child. All his efforts so far have only been entertaining himself, without any meaning

No! Noah shook his head, If I can defeat Seto and prove that I am stronger than him, father father, he will definitely restore his expectations of me!

Noah gritted his teeth and stood up, his eyes filled with the desire to do things again

As soon as Yuei Vu passed through this door, the map in front of him changed instantly, and he immediately came to the presidents office in the Kaiba Corp Building.

Gozaburo Kaiba was sitting behind the desk at this time, his fingers crossed on his chin.

You have successfully attracted my attention. Gozaburo watched him walk in and said lightly, To be honest, there are not many things on earth that can surprise me at this stage of evolutionbut you succeeded in doing one.

You mean?

I dont think there is any need for us to pretend, Gozaburo said, The card you used in the duel just now is not something in the Kaiba Corps database.

To be able to introduce foreign data under the nose of me and Noah without even knowing it, even I was completely unaware of the clues, this technology is not something ordinary people can do.

Yuei Vu understood.

It seemed that Gozaburo thinks that all the HERO series cards that Yuei Vu used in the duel just now were all added by hacking into the system of this virtual world by himself.

Of course, it was impossible for Gozaburo to detect or understand the existence of the system card pool that Yuei Vu had. Now, in his eyes, Yuei Vu may be equivalent to that kind of hidden world-class technology emperor, a big hacker, and thats why he is interested in Yuei Vu.

You may be a rare talent, I am willing to give you a chance.

Gozaburo said, making a gesture, and the door behind Yuei Vu disappeared out of thin air.

You were involved because of Seto, so you may be completely clueless about the current situation. So let me explain briefly

I think I understand. Yuei Vu shrugged, You are Kaiba Gozaburo, the former chairman of Kaiba Coro who should have died years ago. But you have backed up your consciousness with some kind of black technology, and now exist like a ghost in the computer world.

Hey, youre really smart. You understand very quickly. Gozaburo nodded, Yes, but you may not understand what I can do.

My learning ability in the online world is unimaginable by human beings, and I am absolutely invincible now that I have broken free from the shackles of my flesh body.

I can break into any network system, any system, including the most advanced weapon systems. If I want to, I can easily destroy the world.

Everything in this world will be under my control, I will start by taking back the Kaiba Group and create a new world

Uh, wait a moment, Yuei Vu waved his hand to interrupt Gozaburo, So, do you know how to play cards?

The self-proclaimed omniscient AI was taken aback for a moment: Huh?

Playing cards. Duel Monster. He gestured to the Duel Disk in his hand.

Gozaburo expressed his disdain: Humph! Today, I am proficient in computing. As long as I am willing to study any type of game, no human can beat me.

Its ridiculous that my odious son used to be obsessed with this kind of game! A big man is addicted to this kind of boring game all day long, thats why I said that Seto will achieve nothing

Oh, I understand. Yuei Vu nodded, So you dont plan to play cards? Then you should wash your face and go to sleep as soon as possible. Conquering the world? You may have to wait till the next life.

Gozaburo frowned: What did you say?

Chapter 150: Not Playing Cards? You Are Nothing!

As we all know, in the world of Yu-Gi-Oh, any villain who wanted to conquer and dominate the world would end up being pulled over by some players with strange hairstyles and forced to play cards. After losing the game, their conspiracy would be shattered, and if they were out of luck, even their life would be wiped out.

But what if someone wanted to find another way to conquer the world without playing cards?

Then we didnt need to care about him, this was definitely a trash fish that couldnt be on the table. Even if he was left alone, nothing would happen.

This was what Yuei Vu thought in his heart when he looked at the proud face of Gozaburo

*Think about it with your electronic brain. Conquering the world without playing cards in this world, is that possible?*

*Thats not an exaggeration, even if Skynet or Ultron cross over to Yu-Gi-Oh to make trouble, its very likely that they have to play cards honestly and according to the rules. Who do you think you are? Dont want to go through the process and want to take off directly?*

*Missiles, aircraft carriers, or even satellites are just toys for kids. If you want to be a big deal, you still have to play cards.*

Gozaburo, who was ridiculed, said with a gloomy face: So it looks like you dont intend to accept my invitation?

To help a mad computer conquer the world? Sorry, Im really not interested. Yuei Vu shrugged.

Thats really a pity. Gozaburo was not angry, it seemed that such an answer was within his expectation, Although I have a deep hatred for my adopted son due to him taking away my company and forcing me to leave, even I couldnt help admitting his talent.

Since you are the person he likes, that in itself means that you must have something special

As Gozaburo said, his face changed, and his eyes became cold.

Since thats the case, I cant let a variable like you exist!

As soon as the words fell, the image of the old man in the red suit disappeared in front of Yuei Vus eyes but was replaced by a group of red demons that were rapidly expanding and showing their teeth and claws.

Gozaburo turned into an abstract demon, waving his claws and swooping directly at Yuei Vu as if to tear him to pieces.

This virtual world is completely under my control! I will wipe out your will and take away your body! You will be wiped out from the very root of your existence!

What he said was true. In this world of data, as a computer program, Gozaburo may indeed be invincible. He could delete Yuei Vus consciousness at will, so only an empty shell was left in the outside world.

However, in the animation, when Noah tried to grab the body of Yami Yugi, the Millennium Puzzle of Yami Yugi reacted and released powerful energy to force Noah back.

This shows that even in this data world, artifacts like the Millennium Puzzle that transcend the scope of common sense explanations could still play a role.

Yuei Vu obviously didnt have an artifact like the Millennium Puzzle. Dark Magician Girl, who usually protected him 24 hours a day, was also in the real world at this moment, unable to help Yuei Vu who was in the data world.

Butit doesnt matter!

He still had some extraordinary power that could cross the barriers between reality and virtuality and be brought into the virtual world!

Sky dragon, save me!

Roar!!!

The red glow erupted with Yuei Vu as the center, forming a transparent shield less than half a meter in front of him. Gozaburo slammed his head into the barrier and bounced away with a scream, his whole body flickering and disappearing like a bad image.

What what!?! Gozaburo looked shocked, What did you do? What program is this?

Its not a program. Yuei Vu put his hands in his trouser pockets and said lightly, Its a god.

The transparent red image circled around him, gradually condensing the shape of a dragon. The red dragon appeared transparently beside Yuei Vu like a ghost, opened its huge mouth, and roared toward Gozaburos program as if from the void.

Slifer the Sky Dragon!

It just seemed to be in order to cooperate with Yuei Vu, the sky dragon that appeared at this time had shrunk in size, like a transparent ghost, and protected Yuei Vu in circles with its coiled body.

The Dark Magician Girl card was obtained by Yuei Vu in the DMs local world, so it could only stay in the real world and could not be brought into the data world.

But the Slifer the Sky Dragon in his hand was a reward from the system, and it was directly distributed to his system card library.

The omnipotent system bound the entire card pool to him and brought it into this virtual world, and this sky dragon was no exception.

Even Gozaburo, who has been turned into a computer program, actually had an emotion close to fear when facing the illusion of this dragon, a kind of fear that he would be deleted and destroyed by an unknown force if he was careless.

Gozaburo just said before that in this state he rarely has anything beyond his comprehension.

And at this moment, he was facing exactly that kind of thing.

Three Egyptian Gods were different from ordinary monster cards. No matter how many replica cards there were, the three Egyptian Gods were unique in this worldview, and it is impossible for each phantom god to have a second one.

Especially after holding two Sky Dragons at the same time, Yuei Vu began to have some guesses about the Sky Dragon with the effect of this real card rewarded by the system.

This sky dragon with castrated effect was likely to be an extension of the deity, similar to the existence of a clone. Although it was much weaker than the original, it was also a genuine Sky Dragon, not a replica.

After all, God would never agree to allow copies of himself to exist, and any idiot who dared to copy God cards would attract divine punishment.

Since the genuine Sky Dragon would open one eye and close one eye to allow this real card version to exist in Yuei Vus hand, there was a high probability that this card was actually a part of itself.

However, Yuei Vu soon discovered that although it was a clone, the real-life version of the sky dragon in his hand may also have a self-consciousness that was independent of the deity.

To say why

Because after Gozaburo was blasted away, this reduced-sized ghost sky dragon was turning its head, roaring at him, and wagging its tail proudly.

With his level 10 dragon language, Yuei Vu guessed that he might say, How is it, am I very good? like a kid.

Nothing bad though. The other sky dragon in his hand was far from being so easy to talk about, being utterly indifferent to Yuei Vu and not interested in anything.

*What if you get my body?*

*My heart still belongs to Pharaoh!*

Moreover, Yuei Vu didnt dare to use power play methods. If he tried to forcibly summon the gods in a duel, he may even be struck by lightning

*In comparison, the sky dragon in front of me is really cute!*

Impossible, there shouldnt be any God card in my world, why does this kind of thing appear here!? Gozaburo gritted his teeth.

At this moment, he had already started to contemplate whether to let Yuei Vu go and ran away.

Anyway, he was essentially a program. The computer world was boundless, if he wanted to run, Yuei Vu couldnt stop him. As long as he locked all the entrances and exits of this virtual world, no one could get out

As if his intentions were seen through, he heard Yuei Vu say: In this way, Ill give you another chance.

Gozaburo: ?

Lets duel. Yuei Vu raised the Duel Disk in his hand, If you can beat me, then may I reconsider your previous conditions.
