

I Play Yu-Gi 301

Chapter 301: Orichalcos Deuteros

My turn. Of course, because of the side effect of Orichalcos Gigas, I can't draw cards normally.

Dartz indifferently glanced at the two powerful heroes standing on the field in Yuei Vu and chuckled: It seems that even your Elemental HEROes can only do so much. It's impossible to beat me.

Yuei Vu ignored it.

I summon Spirit Reaper in attack position!

Another monster card was placed on the Duel Disk by Dartz. This time, a purple-robed undead appeared on the field, wielding a death-like scythe in his hand, and his body was filled with black mist, giving off an ominous aura.

Of course, the imprint of Orichalcos soon appeared on the forehead of the reaper, and it was strengthened accordingly.

[Spirit Reaper, ATK 300 ATK 800]

Sure enough, Dartz did make a lot of adjustments to the deck after the last battle with Yuei Vu, and it seemed that he added a lot of tricky things that were not in the original system of his deck.

Spirit Reaper cannot be destroyed by battle, but it will destroy itself when it becomes the target of spell, trap, or monster effects. Dartz waved his hand indifferently, Battle! Spirit Reaper, attack Elemental HERO Great Tornado!

The undead with an attack power of only 800 charged toward the hero of the storm. It wielded a sickle, the purple robe was flying in the air, and the blade cut out a dark and gloomy track.

With such a huge disparity in strength, it was naturally impossible for the attack to be effective. The hero of tornado didn't even let it get close, the storm blasted from the air blows the undead around in the air, and rolled back to his side of the field in an embarrassed posture.

But naturally, the storm that swept towards Dartz was still completely absorbed by the eye in front of him, without causing any damage.

Orichalcos Kyutora will absorb all battle damage, and the damage I receive is 0. Dartz said calmly.

Yuei Vu frowned.

He knew that Dartz was deliberately accumulating the damage value absorbed by Kyutora, in preparation for calling out a stronger trump card later. However, he took the initiative to use the miscellaneous fish monsters to attack him in a suicide attack, and Yuei Vu couldn't do anything about it for the time being.

Next is Orichalcos Gigas, and the target of the attack is also the Elemental HERO Great Tornado!

This giant spirit may have long been used for suicide attacks. Without saying a word, he roared and rushed towards the Great Tornado. The hero snapped his fingers, and another gust of wind swept through, blowing Orichalcos Gigas high into the air, and his body was torn into pieces under the pressure of the wind.

However, half a second later, the shattered giant spirit had recovered and returned to Dartz's field again.

Because of the resurrection, the attack power of Orichalcos Gigas has risen again.

[Orichalcos Gigas, ATK 1400 ATK 1900]

As Dartz said, he pointed at his lineup in the backcourt.

The effect of Orichalcos Kyutora! All the battle damage is absorbed, and I take no damage!

Then there is the effect of the Card of Safe Return! I draw three more cards.

At this moment, my set card is also activated! Yuei Vu waved his arm, Continuous Trap Appropriate! This card can only be activated when the opponent draws a card outside of the Draw Phase.

Every time the opponent draws a card outside of the Draw Phase, I can draw two cards!

Both sides replenished their hands at the same time. Dartz glanced at the drawn card, and from the corner of his eye, he glanced at the huge sky fortress on his own field:

Its useless now, then let me have its service one last time!

Air Fortress Ziggurat, attack! Your target is the hero with the troublesome effect Flame Wingman!

[Air Fortress Ziggurat, ATK 1500]

[Elemental HERO Flame Wingman, ATK 2100]

Seeing all the barrels of the huge fortress lowered together, the missiles filled the magazines, and the barrels lit up with golden lights, Yuei Vu couldn't help frowning slightly.

The effect of the Great Tornado was permanent. Therefore, the current attack power of Air Fortress Ziggurat was lower than that of the Flame Wingman.

If this battle was established, Air Fortress Ziggurat would be destroyed by Flame Wingman.

According to the effect of Flame Wingman, Dartz would still take damage equal to the fortress original attack power, which was 2500 points.

He should understand this. In other words, there must be something tricky in the cards he just drew!

Sure enough, just before all the gun barrels fell in the fortress and the missile artillery was about to start bombing, Dartz quickly showed a classic support card for Machine-Type in his hand: Quick-Play Spell Limiter Removal! Double the ATK of all Machine monsters I currently control, until the end of this turn!

Yuei Vu was a little taken aback by Dartz again.

What kind of weird things are you playing in your deck?

Why do you have this thing in your deck? You have only one Machine, and it is still not your own card but a monster you NTR from your subordinate.

Just because your Rank is high and not afraid of dead draw, can you do whatever you want?

[Air Fortress Ziggurat, ATK 1500 ATK 3000]

Air Fortress Ziggurats attack power is doubled under the effect of Limiter Removal. In this way, it surpasses the Flame Wingman. Dartz shouted, Smash that unsightly hero to me!

All the gun barrels in the fort opened fire in unison, and the dense firepower swept across Yuei Vu's field in an instant. Flame Wingman tried his best to dodge the rain of bullets relying on his agility, but the firepower was too strong and too dense, and the hero was finally blown to pieces powerlessly.

Yuei Vu, LP 2100 LP 1200

Set two cards, I end my turn. Dartz said calmly, At the end of the turn, monsters affected by the Limiter Removal effect will be destroyed.

Farewell, Alister. Your mission has been completed, and then you can feel at ease as a sacrifice to God, and do your best for the birth of the new world.

The flames erupted from the inside of the fortress, and the huge floating object was instantly swallowed by the expanding fireball and blown to pieces. Countless mechanical parts splashed in all directions dragging flames, and huge wreckages fell from midair dragging fiery trails, exploding into flames that soared into the sky.

The impact when it landed shattered a large piece of Orichalcoss army, and many spirits were also traumatized by the flames.

The ignorant Duel King, you are getting closer and closer to the abyss of despair. Dartz said lightly, You can't defeat me, and you can't stop the recovery of the evil god. The cleansing of the world is the inevitable trend of the progress of this planet.

If Yami Yugi was here now, he might argue with him, but Yuei Vu was only concentrating on how to play cards now and didn't care about him at all.

My turn!

Yuei Vu glanced at the arrangement on Dartz's field and thought quickly.

This lineup looked like an iron wall, but in the animation, President Kaiba exposed one of the blind spots of this lineup.

Orichalcos Kyutora could only absorb the damage caused by monster battles, that was to say, if someone could find a way to go past it and attack Dartz directly, he could cause damage.

In the animation, Dartz's method to make up for this blind spot was the second Orichalcos barrier, Orichalcos Deuterios. When the second layer of barrier existed on the field, Dartz could sacrifice a monster on his field to negate the opponent's direct attack and destroy the attacking monster.

In the animation, this was how the Dragon Master Knight, the ace monster that Yugi and Kaiba spent almost all the cards in their hands to summon, was defeated.

But Dartz hasn't activated the second layer of the barrier yet, so if he attacked directly now, he should definitely be able to cause damage.

First, I activate the Spell Card Graceful Charity. Draw three cards from the deck, then discard two cards.

Then I summon Elemental HERO Solid Soldier in defense position!

A hero in solid steel armor came to the field, squatted on the ground, and crossed his arms with solid steel armor in front of him.

[Elemental HERO Solid Soldier, DEF 1100]

The effect of Solid Soldier! Yuei Vu turned out another card in his hand, When this card is Normal Summoned: I can Special Summon 1 Level 4 or lower HERO monster from my hand. I Special Summon Elemental HERO Shadow Mist!

The second Shadow Mist, which Yuei Vu got not long ago, made her heroic appearance and also appeared on the field in a defensive posture.

[Elemental HERO Shadow Mist, DEF 1500]

The effect of Shadow Mist! Yuei Vu picked out the required card from the deck and showed it, If this card is Special Summoned: I can add 1 Change Quick-Play Spell Card from my Deck to my hand, and I choose to add Mask Change!

Then I activate Quick-Play Spell Mask Change!

I sent Elemental HERO Shadow Mist to the GY and summon a Masked HERO with the same attributes!

Transform! Masked HERO Anki!

Miss Shadow Mist was surrounded by black transformation effects. With a twist of her figure and a chic wave of her arms, she swept away the black mist wrapped around her body. In the blink of an eye, she has transformed into a domineering dark hero!

[Masked HERO Anki, ATK 2800]

Masked HERO Anki, a hero who can jump over monsters and attack players directly. Dartz said, Orichalcos Kyutora can only absorb the damage caused by the battle between monsters. In other words, this hero can indeed break through my line of defense.

Exactly. Yuei Vu waved his hand, Battle!

That cant be done! Dartz raised his voice and interrupted him, The moment you summoned the Anki, my set card was activated! Quick-Play Spell Demise of the Land!

What!?! Yuei Vu was stunned.

Demise of the Land can only be activated when the opponent special summons a monster. Dartz said, It allows me to activate a Field Spell card from the deck.

Of course, when the The Seal of Orichalcos is on the field, an ordinary Field Spell cannot be activated But this card is an exception.

Dartz pulled out the desired card from the card deck and smiled lightly.

This card can only be activated when there is already a The Seal of Orichalcos on my field. He held up the card in his hand, Come on! Orichalcos second barrier

Orichalcos Deuteris! ! !

Chapter 302: Seven Fatal Strikes!

Activate Orichalcos second barrier! The Spell Card Dartz picked out from the deck was absorbed into the Duel Disk, Orichalcos Deuterios!

The majestic magic power soared into the sky, and the Orichalcos barrier, which had been fixed, began to rotate. The magic circle of the six-pointed star bloomed with unprecedented dazzling brilliance, and the edge of the barrier moved slowly like a huge time disc.

The aura of the entire space has changed, the air inside the barrier seemed to have condensed, and the atmosphere has become more depressing. A second layer of the magic circle appeared on the ground, which was set outside the first layer.

At the same time, the breath felt from Dartz's body was even more uncomfortable. It was as if the chains that bound the wild beasts in the abyss were loosened again, and some kind of dark, huge beast was hiding in it, roaring with teeth and claws.

The second layer of the Orichalcos barrier, Orichalcos Deuterios. As long as this layer was presented, Dartz could negate the opponent's direct attack by sacrificing a monster on his field, then destroy the opponent's attacking monster.

In this way, Ankis ability to attack directly was also blanked.

Yuei Vu frowned, and gave up the battle directly: Set a card, and I end my turn.

Oh? You actually know the hidden effect of Orichalcos Deuterios, so you dare not continue to attack? Dartz snorted, It doesn't matter. Although I don't know how you got the information about my deck, even knowing it won't change anything.

His eyes froze, and his eyes seemed to release a majestic murderous aura instantly.

Because of the side effect of Orichalcos Gigas, I cannot draw cards during my Draw Phase. But at the end of your turn, I will activate this set card.

Trap Card Reckless Greed. This trap allows me to draw two cards from the deck, but at the cost of skipping the next two Draw Phases.

Although the price was to skip two Draw Phases, Dartz couldn't draw cards anyway because of Gigas, so the side effects of the two were offset.

But of course, Yuei Vu was not to be outdone.

At this moment, the effect of the Continuous Trap Appropriate is also activated! Yuei Vu waved his hand, and the trap card beside him suddenly burst into light, When the opponent draws a card outside of the Draw Phase, I can draw two cards!

Seeing the two cards drawn, Dartz smiled mysteriously, and that expression made people feel a little unclear.

Humans say every man is his own worst enemy . . . so it seems that human beings are stupid, but occasionally they seem to be self-aware.

Yuei Vu: ?

This thinker was playing cards and suddenly inspired, and enlightened again?

But the sad thing is that even if you realize this, you cant change it. This is the limitation of human beings. Because we are only human, we can never overcome ourselves, we cant transcend the darkness in our hearts.

As Dartz spoke, his tone changed. He revealed a card he just drew in his hand: Its my turn!

Look! This is the enemy you will face in this duel. I activate a Ritual Spell from the hand Orichalcos Mirror!

By tributing monsters whose total Levels equal 6 or more from my field or my hand, Special Summon 1 Mirror Knight Calling from my deck!

He pointed to the last Shield Token that remained on the field from the very beginning and revealed a card in his hand at the same time.

I tribute the Level 2 Shield Token on my field and the Level 4 Orichalcos Diablos in my hand.

Ritual Summon! Come out, Mirror Knight Calling!

The token and the monster in Dartzs hand turned into ritual offerings. Both disappeared into the small altar that emerged on the ground.

A beam of light flew from the altar, and the monster summoned from the sacred ritual was a mirror?

Thats right. That monster looked like a mirror that was erected. It was placed in the back row, standing in front of Dartz clearly reflecting the battle situation on the entire field.

[Mirror Knight Calling, ATK 0]

A monster with 0 attack power!

Its simply terrifying!

When Mirror Knight Calling is successfully Ritual Summoned, I can Special Summon as many Mirror Knight Tokens as possible in my own Monster Zones. Dartz said, Appear, my mirror knights!

The mirror released a shining light, and in the remaining three positions of Dartzs Monster Zones, monster images in silver armor and shaped like medieval European knights were projected one after another.

Each of them was well protected by armor from head to toe, standing upright like chess pieces on a chessboard, holding sharp swords and mirror-smooth shields in both hands.

[Mirror Knight Token, ATK 0] x3

Yuei Vu remembered that in the animation when Dartz fought against Yami Yugi and President Kaiba, he once sealed the souls of Yugi Muto and Jonouchi in these mirror knights so that Yami Yugi would not dare to make a move.

But here Dartz may think that Yuei Vu was not too familiar with those people who were sealed so that dirty trick was probably useless.

Then the Field Spell Orichalcos Deuterios also inherited the effect of The Seal of Orichalcos. Dartz said, The attack power of Mirror Knight Calling and Mirror Knight Tokens have increased!

[Mirror Knight Calling, ATK 0 ATK 500]

[Mirror Knight Token, ATK 0 ATK 500]

Then its time to enter the Battle Phase! Dartz shouted, First of all, the first Mirror Knight Token, attacking Great Tornado!

Yuei Vu would not make any weird comments like Is your brain broken? Attacking my monster with a monster who has lower attack power? He knew these mirror knights all had special abilities.

Mirror Knight Callings effect! Dartz said, When a Mirror Knight Token with the shield battles an opponents monster, its ATK becomes equal to that monsters ATK.

[Elemental HERO Great Tornado, ATK 2800]

[Mirror Knight Token, ATK 500 ATK 2800]

The hero of the storm opened his arms and blew out the strong wind, but the knight was completely unmoved, swiping his sword to cut through the storm and rushed up. The hero and the knight fought hand to hand and fought fiercely in one place. In the end, the heros fist hit the knights shield hard, but he was also pierced by the sharp sword.

With a loud explosion, Great Tornado was blown to pieces.

On the other hand, the shield hit by the hero broke into pieces with a bang, while the mirror knight flew back unharmed.

Although the attack power is the same, each shield in the mirror knights hand can be destroyed instead of its holder. After the Battle Phase is over, the destroyed shield will be reset. Dartz said lightly, Nest is the second Mirror Knight Token, attack Masked HERO Anki!

The mirror knight flew out, slashing at Anki with his sword.

[Masked HERO Anki, ATK 2800]

[Mirror Knight Token, ATK 500 ATK 2800]

The black Masked HERO tried his best to counterattack, dodging several thrusts from the mirror knight, and finally swept out with a roundabout kick at the right time, but still only kicked firmly on the shield.

Then his armor was also cut by the sharp blade, and his body was turned into pieces.

The third mirror knight, Dartz said, attack the Elemental HERO Solid Soldier!

[Mirror Knight Token, ATK 500 ATK 1300]

[Elemental HERO Solid Soldier, DEF 1100]

The mirror knight slashed down with his knife, and with one blow, he broke through the armor on the Solid Soldiers wrist and chopped it in half.

In this way, the field on Yuei Vus side was completely empty.

The final blow, Duel King Yuei Vu. Dartz waved his hand, Orichalcos Gigas, attack directly! Turn the Duel King into the nourishment for the recovery of the great god!

[Orichalcos Gigas, ATK 1900]

Yuei Vu, LP 1200

The giant spirit who had died countless times rushed forward aggressively again, roared, dragged the chain, and smashed down towards the top of Yuei Vu's head.

Of course, Yuei Vu would not just let go that easily: Trap Card Counter Gate! When an opponent's monster declares a direct attack: Negate the attack, and then I draw 1 card.

If the drawn card is a monster, immediately after this effect resolves, I can Normal Summon it!

The giant spirit's chain jerked down and was swung aside the moment it hit the blue barrier in front of Yuei Vu.

Hmph, are you alive for the time being? Dartz said lightly, But there are still monsters on the field that haven't attacked. If you fail to draw a monster card, this turn is still your end.

Yuei Vu didn't say a word and put his finger on the deck silently.

Now he was already different from when he just crossed over.

His Duelist Rank was 8, which was considered to be top-tier in this world. Not counting those people with cheating abilities, he has undoubtedly become unrivaled among duelists.

This time, he must get a monster card!

Draw!

The card he pulled out clearly drew an arc in the air and paused briefly in mid-air.

Yuei Vu showed the card he had drawn: The card I just draw is Destiny HERO Disk Commander! According to the effect of the Counter Gate, he will be Normal Summoned in defense position directly!

The hero who was covered in discs all over his body came to the field with a yell, and half-squatted to protect Yuei Vu.

[Destiny HERO Disk Commander, DEF 300]

Hey, as expected of the Duel King, did you actually draw a monster card that can be summoned directly? But the result will not change. Dartz waved his hand, Mirror Knight Calling, Destiny HERO Disk Commander!

The mirror released a blinding white light, piercing the disc hero's body like a sword. Although the poor hero had a powerful ability to assist in drawing cards, hand-to-hand combat was really not his strong point, and a mere 500 points of attack power was enough to wipe him out.

Then Orichalcos Kyutora, attack directly!

[Orichalcos Kyutora, ATK 500]

The big eye closed briefly, then opened suddenly, a slender and life-threatening beam shot out from the center of the eye, piercing Yuei Vu's body like an arrow, the cold touch really seemed to penetrate the soul directly.

Yuei Vu, LP 1200 LP 700

Yuei Vu swayed, his eyes became dizzy and he almost fell to the ground. But the Silent Magician at the side helped him in time.

Yuei Vu turned his head to the side and saw the Silent Magician giving him a clear and firm look, and nodded slightly as if to express trust and encouragement.

Its the last blow. Dartz said lightly, Spirit Reaper, attack directly!

The purple-robed undead floated forward, like a god of death who literally harvested souls, and the sickle slashed down with the breath of death.

The success of this blow would directly determine the outcome!

but no!

Yuei Vu quickly stuffed a card in his hand into the grave area: Discard the Kuriboh to activate its effect! It can reduce the damage of a battle to 0!

Kuriboh! Its still invincible Kuriboh!

Accompanied by the Kuri Kuri cry, the Kuriboh jumped onto the field, stretched out the invisible force field with its small and cute body, and blocked all the impact for Yuei Vu!

Can you even block this move? Dartz said calmly, Then my Battle Phase is over. In Main Phase 2 I will activate another effect of Orichalcos Deuteros. Once per turn, I can gain 500 Life Points for each monster I control.

Now I have three Mirror Knight Tokens, Orichalcos Gigas, Spirit Reaper, Orichalcos Kyutora, and Mirror Knight Calling, a total of seven monsters. So the total recovered LP is 3500 points!

Dartz, LP 3100 LP 6600

General Shien, who was waving a samurai sword on the periphery and was entering and exiting the enemys formation seven times, stopped briefly.

Tch, you damned evil god. He muttered, Even if its a human warrior is my current master unable to be his rival after all?

Thats not the case!

A magic shell blew up several Orichalcos soldiers beside Shien to pieces. The Dark Magician Girl shouted angrily: Master will not lose! Because Masteris the strongest!

Set a card, I end my turn. Dartz said indifferently, You managed to survive this turn, so lets start with a compliment for this part. But the result will not change, Yuei Vu.

Even if you try your best and use all the means, in the end, you will only find that everything is in vain

as I discovered 10,000 years ago when I tried to save a human being whose heart was corrupted and beyond recovery.

Chapter 303: The Darkness Of The Human Hearts

I noticed it 10,000 years ago. Many things cant be changed no matter what you do.

At this moment, in the headquarters of Doma in the real world, the duel between Dartz and Yugi and others has already begun.

Its just a little different from the animation, here Dartz confronted Yugi, Kaiba, and Jonouchi at the same time, namely the three warriors chosen by the legendary dragon.

Maybe its because he was dealing with Yvei Vu at the same time, his strength has been discounted, and its a one-on-three, so Dartz was not as brave as in the original animation.

Although it was a one-on-three, it did not use the Battle Royal rules but the Tag Team rules. Dartz was a team of one person, and Yugis side was a team of three. Each side of the two teams has one operation turn, and each time it was the turn of Yugi and others to operate, the player who took the turn must be changed.

In this way, although it was still three-on-one, in terms of rules, Dartzs disadvantage was actually smaller than in the original work.

I once thought about saving humanity from the darkness, I was willing to do whatever it takes, Dartz said to the three, but in the end, I found that it was uselessit didnt even make sense at all.

Because humans dont want to be saved at all. Orichalcos power inspired the darkness in peoples hearts, but it was only an inducement. After all, the darkness still comes from human beings themselves.

In the final analysis, it was still the flaws of this race itself. Humans have no potential to overcome the darkness in their hearts. The long time of 10,000 years has convinced me of this. Humans will only repeat the same mistakes again and again, and in the end, it will always end in tragedy

Master Dartz!

At this time, a majestic voice came from outside the door. Everyone followed the sound and turned their heads, only to find that it was Rafael.

Speaking of which, when the Paradius company collapsed before, Yugi clearly watched this guy fall from the roof, but he never expected that he seemed to be fine. Not only was he not injured, he even chased them and ran to Doma headquarters in the blink of an eye.

Rafael! Are you alright? Yugi looked surprised.

Until just now, he thought that this uncle had died.

Rafael nodded, turned to Dartz, and said, Stop all of this, Master Dartz! We were wrong! The darkness of the human heart can be overcome, and I have successfully done it!

Dartz squinted at him, closed his eyes lightly, and smiled without being surprised at all.

Ah, I know. Indeed, sometimes, people can indeed overcome the darkness in their hearts with their own will.

Rafael was stunned: Youyou know? Then why?

It is true that the rage, hatred, and despair of the human heart can sometimes seem to be overcome, but that is only because it is not what human beings are.

Dartz raised his hands and began to take this opportunity to preach.

Peoples hearts are not so easy to change. I have realized it over the years. Darkness has existed since the birth of human beings, the first cognition and contact with the world. As long as everyone feels unfair in their hearts, darkness will always exist.

The poor and the rich, the talented and the untalented, the liked and the disliked There's no way people these days can beat that. Out of these harsh realities the darkness is constantly being bred, and even if it is overcome for a while, it can never be eradicated.

Dartz turned his head to look at Rafael, showing a meaningful smile.

Rafael, you do have spiritual power that mortals do not have. I can see that you are not lying. Maybe you have indeed eliminated the darkness in your heart now. Your experience has given you an extraordinary will, which makes you able to embrace and accept the darkness within yourself

"

"

Dartz paused, his eyes flickered slightly.

but that's what I give you too.

What? Rafael was taken aback.

Alister hated the Kaiba Corp because of his brother's death but have you ever thought about it? Was it really Gosaburo Kaiba who made his brother die on the battlefield?

Rafael was stunned suddenly.

For a moment, he seemed to understand what Dartz was talking about.

But he didn't dare to face that fact, even just guessing it made cold sweat run down his spine.

The church where Valon grew up? Why would someone set fire to that place? The mastermind behind it Has Valon really found it? And Rafael.

Dartz narrowed his eyes, as if he deliberately wanted to check Rafael's reaction.

Why did your family's ship go through the route of the submarine volcano eruption?

Why did that volcano erupt just as you were passing by?

Why are you the only one who survived the entire ship?

Speaking of which, there was no suspense anymore.

There is only one answer. Dartz said calmly, Because all three of you were destined to become Doma's swordsmen from the very beginning. You were destined to dedicate your life to the evil god's resurrection plan!

The window paper was punctured. The cruel truth was laid out in front of Rafael bloody, impacting everything he had believed in his life so far.

Aaaaaaaaaaaaaaaaaaaaaaaaaah!!!

He felt himself losing control. Anger surged from the deepest corner of his heart in an instant, as if the blood in every blood vessel in him was boiling.

Rafaels brain seemed to be emptied in an instant. He seemed to hear Yugi calling him but that didnt matter anymore.

Everything he believed in and pursued in his life has become an illusion. Dartz, the man who once represented his most pious belief, seems to have turned into a demon with horns and claws in a trance at this moment. An invisible big hand stretched out from the void, and manipulated the helpless ship that their family was riding on across time and space.

Anger, hatred, loathing. All the emotions he once thought he had eliminated filled his mind uncontrollably.

When he lost to Yugi in the duel before, the Orichalcos imprint was once eliminated by his inner will, but now it was also returned with all these dark and negative emotions. The curse of the six-pointed star reappeared on his forehead. Before Rafael had time to react, it took away his soul and absorbed it as a sacrifice of the evil god.

A few seconds later, Rafaels portrait appeared on the spare slate in the Soul Hall.

Dartz in front of Yuei Vu in the spirit world also shook his head at this time, with a sigh, but not with an unexpected expression.

"

"

Rafael, he is indeed the best among human beings, the representative of the strongest willpower and the best spirit. He seems to be talking to himself, but because of this, he has further proved that I am right.

After all, it is impossible for people to transcend the darkness in their hearts, and todays human beings cannot do it. So its up to me to correct this mistake, and its up to me to create a human being who can overcome this flaw

So the way you prove this point is to artificially manipulate other peoples fate and create inner darkness by yourself? Yuei Vu said.

Dartz shrugged: That was Rafaels fate, I just made a little effort to make him work for me.

A little? I think its much more than you claim, Yuei Vu said, And you said to create human beings who can overcome the darkness in their hearts. How do you do it? Create puppets who all obey you, and believers who are all brainwashed by you?

Orichalcos power can do anything.

Really? Then why cant you eliminate the darkness in peoples hearts?

Dartz raised his eyebrows: It seems that you have your own opinion on this issue?

No. Im just wondering why you can brainwash so many people to go crazy with you, thinking that the inner darkness is a disease.

There is darkness in the human heart, but I dont think its a strange thing. Where there is light, there must be shadow, this is the most basic truth in the world.

But when you try to fool other people, you deliberately ignore one thing from beginning to end, Dartz, that is, while there is darkness in everyones heart, there is also light. Even if it is the only point in the boundless darkness, it is also a light that cannot be ignored.

Just as you said that the darkness of the human heart will create demons, the same possibility exists for human beings to gain light

Having said that, Yuei Vu shook his head.

Well, Im sure its not normal to tell you this.

Dartz was an old monster who has lived for 10,000 years, and it might require a Talk no Jutsu at the level of the crowned prince of Konoha to change this old immortal.

It doesnt matter, I didnt need to argue with you. Dartz said, Now your LP is like a candle in the wind, and in the next turn your soul will turn into a meal for the revived God of Orichalcos.

Thats not necessarily true. Yuei Vu chuckled.

Dartz frowned.

Havent you heard of it? As long as there are cards in the duelists deck, hope will never disappear. Yuei Vu said, Besides

Besides, at this moment, my skills have been triggered!

Duel Skill: Gods Anger, activate!

When LP is below 1000, during Draw Phase, instead of conducting a normal draw, add 1 Obelisk the Tormentor (original) from outside the deck to the hand!

Chapter 304: The Fist of Destruction

Gods Anger!

The opponent he was facing was Dartz, who had merged with the evil god, so it was impossible for Yuei Vu to hold back in this duel.

The moment he drew the card, he felt the agitation of power, and the urge to destroy seemed impatient to come out. He could feel the boiling of his blood, and every cell in his body seemed to be excited by the power that had nowhere to vent.

The moment that card was drawn from the top of the deck, it seemed that there was an invisible impact in the air.

There were some slight changes in Dartzs expression: That power

I activate a Spell Card from my hand Foolish Burial! Send a monster from the deck to the GY. Yuei Vu showed the monster card he found from the deck, I sent the Hero Kid to the GY .

Dartz was unmoved: Whats the point of sending this weak monster to the GY?

Then comes the Spell Card Shallow Grave! A new Spell Card projection appeared beside Yuei Vu, Each player can select a monster in their Graveyard and Special Summon it in face-up Defense Position! (anime effect)

A golden light flashed in the GY area of the Duel Disk, and the hero kid who had just been sent to the GY popped out immediately. With the golden light effect accompanied by a whirlwind on the field, a small hero wearing a space suit and squatting appeared on Yuei Vu's field.

[Hero Kid, DEF 600]

The tomb area of the Duel Disk in Dartz's hand also lit up with a golden light, and then spit out a monster card.

Then I will special summon Air Fortress Ziggurat, in defense position. Dartz said lightly, Go back to the field and be my wall!

Dartz's side has more movements. The huge steel creation returned to the field with a grand momentum, and several engines roared violently at the same time like a black cloud of iron casting shrouded the field.

[Air Fortress Ziggurat, DEF 2000]

At this moment, the effect of Card of Safe Return! Dartz said, Because a monster was resurrected from the graveyard, I drew three cards from the deck.

Then the effect of Appropriate is also activated. Yuei Vu also said, I also draw two cards from the deck.

Then comes the effect of the Hero Kid! Yuei Vu waved his hand, When Hero Kid is special summoned, he can special summon any number of cards with the same name from the deck.

Bring it on! Hero Kid!

Two beams of golden light flew out from the deck under the call of the companions.

They squatted down and landed on the field respectively. The three little trainee heroes squatted side by side, standing in front of Yuei Vu like an iron wall.

[Hero Kid, DEF 600] x2

There are three monsters on the field Dartz narrowed his eyes slightly, As expected, are you ready to come?

I took the three Hero Kids on the field as sacrifices

The whirlwind rolled up and surrounded the bodies of the three trainee heroes in a tornado-like shape. The three figures disappeared in the golden light one after another, rushed into the air one after another, flew out of the shackles of the green barrier, and rushed to the high sky.

The dark clouds gathered at some point. The black clouds rolled, and as the three golden lights disappeared beyond the clouds, a certain existence with boundless power descended.

The scorching wind blew the earth, and suppressed all things with absolute divine power! Come down

God of Destruction, Obelisk the Tormentor!

A burly blue giant appeared on the ground, standing upright like a mountain. The scarlet eyes seemed to contain uncontrollable fury as if they would turn into a scorching storm at any moment and burn all opponents to death!

God of destruction, descended!

[Obelisk the Tormentor, ATK 4000]

Dartz raised his head and looked at the descending god head-on, his clothes and blue hair fluttering against the raging wind.

Its finally here, Egyptian God. He said indifferently, Its just right. On the stage of the final act, you should have a part in the scene.

But even so, Dartz still seemed to be unconcerned.

But in the current situation, even if the Egyptian God comes on stage, it wont change anything.

Yuei Vu ignored it: Spell Card The Warrior Returning Alive! Target 1 Warrior monster in my GY; add that target to my hand. What I want to recover is Elemental HERO Shadow Mist!

Yuei Vu picked up the Shadow Mist that popped up from the GY area and added it to his hand. Then he revealed three cards in his hand at the same time.

Activate Spell Card Polymerization!

The fusion Spell Card appeared in front of Yuei Vu, and the majestic magic power released turned into a swirling vortex.

I fuse Elemental HERO Shadow Mist and Destiny HERO Malicious in my hand!

The fusion condition is 1 Elemental HERO monster + 1 DARK monster!

Fusion Summon! Elemental HERO Escuridao!

The dark Elemental HERO and the demonic Destiny HERO emerged respectively. The two figures flew up into the air and merged into the vortex. A black waterfall fell from the sky, then the fusion heroine in armor landed on the field.

[Elemental HERO Escuridao, ATK 2500]

Hey, a monster whose attack power will increase with the number of Elemental HEROes in the GY. Dartz said, Do you want to quickly call out the most powerful lineup to counterattack in one go?

The effect of Shadow Mist! If this card is sent to the GY: I can add 1 HERO monster from my Deck to my hand, except Elemental HERO Shadow Mist. What I want to choose is another Elemental HERO Liquid Soldier in the deck.

Yuei Vu pulled out this handsome liquid hero from the deck, displayed it, added it to his hand, and then continued to operate.

Then I activate the effect of Destiny HERO Malicious that goes to the GY as a fusion material!

The tomb area emitted a golden light, and Yuei Vu took out the card that popped out of the tomb area, and put it into the card box behind him.

Banish this card from my GY; Special Summon 1 Destiny HERO Malicious from my Deck!

A beam of light was shot from Yuei Vus deck. A hero who turned into a second demon appeared on the field.

[Destiny HERO Malicious, ATK 800]

It actually expanded to this extent in one round

Speaking of this, Dartzs face changed slightly.

Are you going to

Thats right! Yuei Vu raised his finger and pointed at the giant god, Obelisks effect is activated! Take the Destiny HERO Malicious and Elemental HERO Escuridao as sacrifices!

Destroy all monsters on the opponents field and inflict 4000 damage to them!

Dartzu narrowed his eyes: Obelisk, God of Destruction What a troublesome ability.

At this moment, the two heroes had both turned into golden light and merged into Obelisks body. The Egyptian God of Destruction absorbed the power of the two heroes, and blue light poured into his forehead like a torrent along his thick arms, and the Egyptian Gods eyes seemed to turn crimson.

Obelisk! Yuei Vu yelled, Soul Energy MAX!

The God of Destruction threw a heavy punch.

The world-killing blue light flooded Dartzs side like a raging torrent. The Mirror Knight Tokens, the Mirror Knight Calling, the Spirit Reaper that couldnt be destroyed by the battle, the Orichalcos Gigas, and the Orichalcos Kyutora in the back row were all wiped out by the blow of God.

One punch was like a landslide. Orichalcos indestructible barrier made a sound that was almost mournful, the earth was shaken, and the gravel on the mountain rolled down, as if it was about to collapse.

However

Dartz, LP 10600

Yuei Vu frowned slightly.

Its really dangerous. Obelisks blow is indeed worthy of the power of the Egyptian God, and it is indeed effective.

Dartzs figure gradually appeared in the scattered dust.

There seemed to be something in front of him

a black cuboid slab!?

He stood there, smiling indifferently, and pointed to the trap card opened beside him.

But just at that moment, I activated my set card: Trap Card Energy-Absorbing Monolith. This trap can make the effect damage I receive become LP recovery.

So, I restored LP equal to the damage value of Soul Energy MAX, which is 4000 points.

After a pause, he pointed to his graveyard: At this moment, Orichalcos Gigass effect will activate. Gigas will be resurrected again.

The giant spirit Gigas, who couldnt die no matter what, returned to the field again, and roared at Yuei Vu and the giant god on his field, as if facing the Egyptian God, he didnt hesitate at all.

But this time, Dartz didnt seem to intend to continue using it as a shield. This time, Gigas, who was resurrected from the GY, was moved by Dartz to the back row.

[Orichalcos Gigas, ATK 1900 ATK 2400]

The effect of Card of Safe Return. Dartz said, I draw three cards.

The effect of Appropriate! Yuei Vu also said, I also draw two.

Then the moment you destroyed Orichalcos Kyutora, its final hidden ability was also activated. Dartz raised his arms, When Orichalcos Kyutora left the field, Orichalcos final monster will come to this field!

Special Summon from the deck Orichalcos Shunoros!

Chapter 305: Orichalcos Shunoros

What flew out of Dartzs deck was a huge green statue.

Its quite huge but didnt look that threatening. Its appearance was a bit like the kind of statue that was enshrined in a temple, and it looked so weird.

The attack power of Orichalcos Shunoros is equal to the total amount of battle damage reduced to 0 by the effect of the Orichalcos Kyutora that Summoned this card. Dartz said, So now the attack power of Shunoros is

[Orichalcos Shunoros, ATK 6350 ATK 6850] (enhanced by the Field Spells effect)

It has already exceeded the attack power value of the Obelisk, but Yuei Vu didnt show much surprise.

With only 6350 attack power, this was the result of Yuei Vu knowing the opponents monster effect in advance and not letting Kyutora absorb excess damage.

Outside, Yugi and others were completely unprepared since this was the first time they faced Dartz, thus they let Orichalcos Kyutora absorb more than 20,000 points of damage. As soon as Shunoros jumped onto the field, his attack power was over 20,000, and the long string of numbers looked a little scary.

Then, when Shunoros was successfully special summoned, Dartz continued, From the hand or deck, I can Special Summon two specific monsters.

Special Summon the left hand of Shunoros Orichalcos Aristeros in defense position!

As soon as the words fell, the left arm of the giant statue had been automatically disassembled. The arm floated out of nowhere and lay in front of Yuei Vu.

[Orichalcos Aristeros, DEF 0]

Special Summon the right hand of Shunoros Orichalcos Dexia in attack position!

This time, the statues right hand was automatically disassembled, and it clenched its fist and floated to the field in the monster area in front of it.

[Orichalcos Dexia, ATK 0 ATK 500]

The summoning of Shunoros was within Yuei Vu's expectation after all, as long as the damage-absorbing eye left the field, this statue would automatically pop out of the deck, and it was difficult to stop the summoning of this thing.

However, even the Tormentor HERO Obelisks fist of destruction was prevented, which was a bit unexpected for him. That old fox Dartz was indeed not on the same level as the opponents Yuei Vu has defeated so far.

Now Dartz's LP was 10600, while Yuei Vu only had 700. Looking at the LP alone, it seemed to be an absolutely unfavorable situation.

Yuei Vu noticed that the silent lady on the side seemed to be a little worried.

She looked hesitant to speak, like a little girl who was too shy to speak in front of strangers.

It's okay, don't worry. Yuei Vu smiled and comforted her, The duel is not over yet.

The Silent Magician hesitated for a moment, then nodded earnestly following her expression, as if to express her trust in him.

Yuei Vu was a little surprised. As far as the first meeting was concerned, she was willing to trust him so much. As a spirit, from the moment she entrusted her soul card to the duelist, this meant that they were already of one mind.

If Yuei Vu lost in this duel, the Silent Magician would also be severely injured. At worst, she might even be directly swallowed by the evil god.

Could it be that this is also because my Charm is too high?

But also because of this, Yuei Vu couldn't lose this duel.

Set a card, I end my turn.

My turn. Dartz said, Because of the effect of Gigas, I can't draw cards. But this turn I want to activate this card. This is the symbol of Orichalcos' ultimate power, to which even Gods can't compare!

The black Duel Disks field area popped up. Dartz took the Orichalcos Deuteros in the field area and replaced it with a new Field Spell card.

Come on, Orichalcos third barrier! Orichalcos Tritos!

Dark green light blasted down from the sky. It was like a waterfall hanging down from the sky. A new layer of the barrier was opened on the original two, turning slowly like a clock dial.

The atmosphere on the field instantly became more depressing. The entire area seemed to be dominated by the power of the evil god, and the air was heavy and turbid.

Fortunately, with Obelisk present, the Egyptian Gods' aura resisted most of the pressure brought by this new barrier. Otherwise, Yuei Vu was not even sure whether he could continue to fight.

There was no doubt that this layer of Orichalcos barrier still inherited the effects of the previous two.

The third layer of the Orichalcos barrier, Orichalcos Tritos, is also the final barrier, Dartz said. Of course, this layer also inherits all the abilities of two previous barriers.

So I activate the effect of the second barrier first Once per turn, I can gain 500 Life Points for each monster I control.

I have four monsters on the field: Orichalcos Shunoros, Orichalcos Aristeros, Orichalcos Dexia, and Orichalcos Gigas. So I restore 2000 LP.

Dartz, LP 10600 LP 12600

Then lets fight directly. Dartz waved his hand, Orichalcos Dexia, attack Obelisk!

[Orichalcos Dexia, ATK 500]

The arm that floated in the air shot out under the remote control of the statue and flew towards the giant soldier through the air.

We all knew that those with 0 attack power were all monsters among monsters. Although the attack power of this arm has increased to 500 due to the effect of the barrier, making the value of fashion drop a lot, it did not affect the fact that it had 0 original ATK.

The effect of Orichalcos Dexia! Dartz said, When this card battles with the opponents monster, the ATK of this card becomes equal to either that Attack Position monsters ATK or that Defense Position monsters DEF, + 300 points until the end of the Damage Step!

[Orichalcos Dexia, ATK 500 ATK 4300]

The attack power instantly surpassed that of the Obelisk!

But Yuei Vu has already prepared for it: Counter Trap Negate Attack! When an opponents monster declares an attack: Target the attacking monster; negate the attack, then end the Battle Phase!

He remembered the effect of Orichalcos third barrier, which should be that all monsters on Dartzs field would not be affected by the effects of Spell and Trap Cards. So in principle, Negate Attack could not negate Dexias attack, but the Battle Phase could still be forcibly ended.

Its useless. Dartz raised his hand, The effect of Orichalcos Tritos! It can negate the activation and destroy any Spell and Trap Card effects that affect my monsters!

Yuei Vu was a little surprised.

Negate the activation? Is it not just unaffected by Spell and Trap Card effects?

Well, after all, this thing didnt have a real-life version, and it was not fully explained in the animation. So it was not easy to verify such details.

At this moment, Orichalcos Tritos had responded. The sacred green light rippling in the space concentrated in one place, suppressing the whirlwind released by Yuei Vus trap card, and Negate Attack was quickly shattered under that divine power.

If even the activation of the trap was disabled, of course, the Battle Phase could not be forcibly ended.

Orichalcos final barrier has no blind spot! The battle continues! Dartz shouted, Go, Dexia, destroy the god!

The statue's right hand flew arrogantly in front of the Obelisk as if it was about to slap him. The God of Destruction was very furious, but there was nothing he could do at the moment because in terms of the attack power, this damned palm is indeed stronger now.

But Yuei Vu had another move: The effect of the Electromagnetic Turtle in the GY is activated! Once per Duel, during the opponent's Battle Phase: Banish this card from my GY; end the Battle Phase!

The hand of the statue failed to slap the Obelisk's face, as the magnetic barrier released by the Electromagnetic Turtle blocked the attack, and when the two sides collided, countless blue arcs were aroused in midair.

Electromagnetic Turtle: Is it the card you discarded to the GY in the last turn? Dartz said lightly, You didn't use this card when I attacked with the Mirror Knight before. The calculation is far enough.

He glanced at the huge Egyptian God on Yuei Vu's field and smiled slightly: Well, since that's the case, let's keep this Egyptian God around for a while.

Set a card, I end my turn.

Chapter 306: The Light That Shines On Earth

At any rate, after Dartz's turn, the Tormentor HERO Obelisk also avoided the humiliation of being slapped to death by the right hand of the god, and it was Yuei Vu's turn to operate again.

This guy was actually very grateful to Yuei Vu. Although he was a bit arrogant like his former master Kaiba, and usually ignored Yuei Vu, in fact, he has already recognized Yuei Vu's strength as a duelist.

After all, in the world of Yu-Gi-Oh, playing cards was everything. As long as you played your cards well (and had a high charisma), even the gods might give you approval.

Now it's Yuei Vu's turn again: It's my turn, draw!

After seeing the drawn card, he inserted it into the duel plate without thinking much and activated it directly: Spell Card Pot of Greed. I draw two cards.

The Spell Card was activated, and the greedy and ugly big pot immediately appeared on the field in front of Yuei Vu. Yuei Vu rested his fingers on the card deck, and the moment he was about to draw a card, he suddenly felt a fiery impulse rushing into his heart, and he seemed to feel some kind of throbbing vaguely.

After drawing out two cards, Yuei Vu glanced at them and couldn't help showing a bit of surprise and a weird expression.

Oh? Didn't you get the card you wanted? Dartz was worthy of being the leader of the cult, and he didn't lose any chance to try to brainwash people, It's not too late to give up now.

Your strength is very good, Yuei Vu. If you are willing to give up, I can still allow you to join.

Yuei Vu directly ignored his nonsense but raised his eyes to look at the situation on the field.

Dartz was an old con man, and he didn't fully explain his monster effect to him honestly, but Yuei Vu knew the weakness of that giant statue.

The left hand of Shunoros was the strongest shield, and its defensive power would always be the attack power of the monster attacking it plus 300 points.

The right hand of Shunoros was the strongest spear, and its attack power would always be 300 points higher than that of the opponent.

It looked like they were invincible, but they were not. Whether it was the left hand or the right hand, their offensive and defensive capabilities were actually all provided by Orichalcos Shunoros. The value of their attack power during the battle would be deducted from the attack power of the main body after the battle was over.

For example. If Yuei Vu hadn't forced the end of the Battle Phase just now, after Orichalcos Dexia defeated Obelisk with an attack power of 4300, then 4300 points must be deducted from the attack power of Orichalcos Shunoros.

Thus Shunoros's attack power would be only 2550 points left.

In other words, there was an upper limit to the attack power that seemed to be always 300 points higher than the opponent. As long as the attack power exceeded the attack power of Shunoros, which was currently 6850 points, Yuei Vu could break through this defense line.

Looking at Yuei Vu's gaze and thoughtful expression, Dartz shrugged and did not hide anymore: It seems that you should already know it. Yes, even the strongest spear and shield have an upper limit. No matter the offensive or defensive power, they can't exceed the attack power value of Orichalcos Shunoros.

But, having said that

Darcy chuckled confidently.

The attack power is 6850, and it is unaffected by the effects of Spell and Trap Cards. In this state, Shunoros is invincible. Do you have a way to solve it?

The Silent Magician held her breath behind him as if she was afraid that venting her breath would disturb Yuei Vu's thinking. But she was also clearly concerned.

The attack power is 6850, unaffected by the effects of Spell and Trap Cards. This is basically invincible, right?

This kind of monster, even if you look at the entire spirit world, is the top existence. Is there really a way to beat it?

But Yuei Vu only closed his eyes and smiled slightly.

It seems I was underestimated.

Huh? Dartz raised his eyebrows when he saw his expression.

Does he really have a way to solve Shunoros?

Activate the Spell Card from the hand Polymerization! Yuei Vu played another Polymerization. At the same time, he showed two cards in his hand: I fuse Elemental HERO Liquid Soldier with Elemental HERO Clayman!

The fusion condition is 1 Elemental HERO monster + 1 EARTH monster!

Fusion Summon!

Lets roar, Elemental HERO Gaia!

The liquid hero and the clay hero again rushed into the air. In the fused vortex, they turned into beams of light and blasted down to the ground. The ground crumbled violently, then a hero in pitch-black heavy armor crashed to the ground, with dust flying around him and debris flying around.

[Elemental HERO Gaia, ATK 2200]

Effect of Gaia! Yuei Vu waved his arm and pointed at Shunoros who was hiding in Dartzs back row, This card can halve the attack power of a monster on the opponents field during the turn it is Fusion Summoned, then the power is added to Gaias attack power!

Because it was a monster effect, so Orichalcos Tritos cannot negate it!

Gaia Shock!

The Gaia raised his arms high and slammed down towards the ground. The ground cracked at a speed visible to the naked eye, and the cracks quickly pierced forward and reached the soles of the statues feet, causing its heavy body to sink deeply in an instant.

[Orichalcos Shunoros, ATK 6850 ATK 3425]

[Elemental HERO Gaia, ATK 2200 ATK 5625]

Dartz was not annoyed, he just folded his arms and nodded slightly: Is that so? In this way, Shunoros can indeed be defeated.

Then there is the effect of Elemental HERO Liquid Soldier! If this card is used as Fusion Material for a HERO monster, and sent to the GY or banished: I can draw 2 cards, then discard 1 card.

Yuei Vu draws the card, picked one card, and discarded it. Then he immediately played the next Spell Card.

Spell Card Miracle Fusion!

The representative comeback card of Elemental HEROes appeared in front of Yuei Vu.

Fusion Summon 1 Elemental HERO Fusion Monster from my Extra Deck, by banishing Fusion Materials from my field or GY!

Yuei Vu picked up the two cards that popped up in the GY area and displayed them together with the Miracle Fusion.

I removed the Elemental HERO Sparkman who was discarded by the effect of Liquid Soldier just now, and the Elemental HERO Flame Wingman in the GY from the game!

Fusion Summon!

Come out! A hero with divine brilliance who dispels darkness and brings light

Elemental HERO Shining Flare Wingman!

The hero of fire and electricity vanished in the vortex, in which the divine radiance was conceived.

A new hero in silver-white armor appeared on the stage under gorgeous light effects. That was a glorious hero with supreme strength, the armor on his body was full of a sense of technology. Behind him were silver wings, the whole body was shining like raindrops, majestic and inviolable. He glided around at high speed in the air and then landed on the field in front of Yuei Vu with his arms folded.

[Elemental HERO Shining Flare Wingman, ATK 2500]

The effect of Shining Flare Wingman! Yuei Vu said, For each Elemental HERO in my GY, his attack power will increase by 300! Now the number of Elemental HEROes in my GY is ten, so he will gain 3000 ATK!

The images of the ten heroes emerged one after another in mid-air. Among them were two Liquid Soldiers, Avian, Burstinatrix, Solid Soldier, Shadow Mist, Great Tornado, Escuridao, Clayman, and Necroshade who was discarded to the GY along with the Electromagnetic Turtle before.

A total of 3000 points of attack power increase!

[Elemental HERO Shining Flare Wingman, ATK 2500 ATK 5500]

Dartz squinted his eyes, and his gaze swept across the Obelisk, Gaia, and Shining Flare Wingman on the Yuei Vus field respectively.

The attack power is 4000, 5500, and 5625. Dartz said lightly, As expected, I was right from the very beginning, you are indeed an extraordinary threat, Duel King Yuei Vu. I should have eliminated you long ago.

But even so, he didnt panic at all. It seemed as if there is nothing to worry about.

Yuei Vu knew the reason.

Because even though this Shunoros looked so awesome, this thing was still just a stepping stone to call out Dartzs real trump card, the embodiment of the power of the so-called God of Orichalcos in the game.

Rather, Dartz was now expecting Yuei Vu to defeat Shunoros. Because the moment the statue was destroyed, his real ace, the evil god with literally infinite power, would descend!

Dartzs scheme was of course clear to Yuei Vu. Now as long as he attacked, the moment Shunoros was destroyed, the incarnation of the evil god would descend

however, there was a premise.

That was the moment before Shunoros was killed and the evil god came, Dartz must still be alive.

As long as Yuei Vu could do a one-hit kill, and empty out his remaining 12,000 LP in one go, then nothing would happen.

Yuei Vus eyes froze, and he slowly drew out a card in his hand.

Just when Dartz thought he was about to enter the battle and make a general attack, Yuei Vu raised the card and shouted: Take Elemental HERO Shining Flare Wingman, Elemental HERO Gaia, Obelisk the Tormentor as sacrifices!

Let the ever-changing fire of heaven and earth turn into eternal light to shine on the earth!

Summon The Winged Dragon of Ra!

Dartz's expression changed suddenly, and that calm face could not help showing a tendency to break the merit: Do you want to call the supreme god here? The sun god, the Winged Dragon of Ra!?

Chapter 307: God Blaze Cannon!

The Elemental HERO Gaia with an attack power of 5625, the Elemental HERO Shining Flare Wingman with an attack power of 5500, and the Tormentor HERO with an attack power of 4000

The beam of light shot straight into the sky, releasing a boundless golden light that seemed to annihilate everything. The sacred light shone on the earth, and even the power of Orichalcos triple barrier seemed to have to retreat in front of that mighty power.

In a short moment, under the sky, almost all the spirits who could spare time couldn't help but glance at the sky. It was as if their bodies instinctively sensed the coming of a great existence, and couldn't help but want to bow down.

The pitch-black clouds seemed to be lit by flames, and the clouds were scorched into a golden color. Just as the sun itself descended from the sky with its tail flame, a shining pure gold sphere revealed its figure from among the clouds.

It stood to reason that Winged Dragon was the most arrogant among the three Egyptian Gods. In the original animation, the summoner must recite the hieratic text correctly before it could obey the command.

Yuei Vu was neither a holder of Millennium Items nor the reincarnation of a priest, therefore he doesn't know how to read the hieratic text. However, the Winged Dragon obviously knew this too, so it made an exception and omitted this step.

Anyway, the card that Yuei Vu just played was not the sun god itself, but the real-life version rewarded by the system, so it didn't matter if this cumbersome ceremony was ignored.

But even though it was the real-life version, the text of this card has just been rewritten!

That's right, just as the Osiris the Sky Dragon card in Yuei Vu's hand was strengthened when he fought against Marik in Battle City, with the permission of Ra itself, Yuei Vu's card was also enhanced!

[The Winged Dragon of Ra, Level 10, DIVINE, Divine-Beast. ATK ? /DEF ?

Effect: Requires 3 Tributes to Normal Summon (cannot be Normal Set). This card's Normal Summon cannot be negated. When Normal Summoned, cards and effects cannot be activated. If you Tribute Summon The Winged Dragon of Ra this turn, its original ATK/DEF become the combined original ATK/DEF of the monsters Tributed for its Summon.

As long as this card is face-up on the field, this card cannot be targeted by effects of any monster whose original Level is lower than 10, is unaffected by Trap Card effects, and cannot be destroyed by card effects other than Divine-Beast monsters.

Effects of Spell Cards and effects of any monster whose original Level is equal to or higher than 10 can only affect this card until the end of the turn.

When this card is Normal Summoned: You can pay LP so that you only have 100 left; this card gains ATK/DEF equal to the amount of LP paid. You can pay 1000 LP, then target 1 monster on the field; destroy that target.

During the End Phase, if this card was Special Summoned: Send it to the GY.]

In short, compared with the original real card version, this Winged Dragon was equivalent to gain a layer of resistance and the effect its original ATK/DEF become the combined original ATK/DEF of the monsters Tributed for its Summon that the real card did not have.

Although he still didnt have the quick-attack ability of the God Phoenix in the animation, this sun god was at least worthy of being a god, not the crispy chicken that was crazily complained by the players.

Speaking of which, in the animation, Marik has been holding the Winged Dragon for so many years, and it seemed that he has never known that it had the ability of God Phoenix.

From this point of view, the Winged Dragon in Mariks hand at that time was probably about the same strength as Yvei Vu's current one.

Now facing Dartz, the spokesperson of Orichalcos, and the huge evil god Orichalcos behind him, the three arrogant Egyptian Gods seem to be finally willing to let go of their pride and cooperate with Yvei Vu.

Even the most arrogant Sun God reluctantly lent him his body.

The Winged Dragon of Ra: I have to emphasize that this is just an exception! Just one time!

It definitely doesn't mean that this noble supreme god has changed his attitude against a certain passerby with the Yu- prefix, who is just a little bit handsome and a good card player!

Obelisk the Tributed God: I understand, but why did I become a sacrifice again==

A certain Tormentor HERO was honored as the Tributed God among the players because he was sacrificed by various people successively in the animation. Never thought that now in the hands of a passer-by with the Yu- prefix, he would still be unable to escape this curse

The golden sphere began to deform. It slowly stretched its wings, which looked like some kind of special alloy, and lifted the head wrapped in the middle. The golden divine bird unfolded its body in mid-air and let out a soaring roar!

Even Dartz, who has merged with the evil god, changed his expression unconsciously. His eyes flickered, and he looked up at the golden divine bird with some ecstasy.

This is the strongest Egyptian God? The Winged Dragon of Ra

The Winged Dragon of Ra's original attack power becomes the sum of the attack power values of the monsters that were sacrificed to summon it! Yvei Vu shouted.

[The Winged Dragon of Ra, ATK 15125]

Attack power 15,000!? Dartz finally lost his composure.

It's not over yet! Equip Spell Megamorph! A card appeared in front of Yvei Vu.

While my LP is lower than the opponents, the equipped monsters ATK becomes double its original ATK! I equip this card to The Winged Dragon of Ra!

The effect of Spell Cards can only affect the god for one turn. Therefore Ras attack power is only doubled within this turn!

[The Winged Dragon of Ra, ATK 15125 ATK 30250]

Attack power more than 30,000? Dartz seemed really startled.

Outside the barrier, Great Shogun Shien, who was beheading the enemy army, couldnt help but pause. He looked towards this side with a complicated expression: This kid

He can actually control all three Egyptian Gods!

The Shogun fell into a brief thought.

Did I really play cards with this guy just now?

I said it a long time ago! Dark Magician Girl puffed out her chest proudly, My master is the strongest!

Inside the barrier, the Silent Magician still didnt speak, but Yuei Vus image in her eyes was also rising infinitely, and his back seemed to be integrated with the sacred sun god in the sky that people dare not look directly at. ..

This person is so strong!

[The Winged Dragon of Ra, ATK 30250]

[Orichalcos Shunoros, ATK 3425]

Dartz, LP 12600

Dartz narrowed his eyes: Do you want to use a divine blow to kill me directly?

Dartzs current LP was 12600. If Yuei Vu didnt call the sun god, but directly attacked with the three monsters on the field, it was impossible to kill in one hit.

Battle! Yuei Vu yelled, Ra, give him the last blow! Attack Orichalcos Dexia! God Blaze Cannon!

[Orichalcos Dexia, ATK 500 ATK 3425]

This was the highest attack power it could achieve now. Although the attack power of more than 3000 points was already surpassed Blue-Eyes White Dragon, in front of the sun god right now, it was quite meaningless.

Ra slowly opened his huge mouth. Boundless flames rushed out of his mouth like a raging torrent. The golden light surrounded the burning flames, like the punishment from the gods, blasting towards the right hand of the statue.

Facing the overwhelming divine flames, Dartz felt the scorching heat. At this moment, the corners of his mouth hooked up, and he smiled again.

Duel King Yuei Vu, its really dangerous. If I didnt set this card last turn, I might have been burned to ashes by the Sun God by now.

Yuei Vu frowned.

This old mandoes he still have a trick!?

Open the set card! Dartz yelled, flipping the card in front of him, Trap Card Destruct Potion! Select 1 monster I control, destroy it, and I gain Life Points equal to its ATK!

The monster I want to destroy is, of course,

He pointed at the statue in front of him.

Orichalcos Shunoros!

The effect of Orichalcos Tritos was this card can negate the activation and destroy any Spell and Trap Card effects that affect the controllers monsters, that was to say, it was entirely up to the controller to decide whether to negate or not.

Therefore, the activation of Destruct Potion could be allowed.

Yuei Vu instantly realized what was going to happen next.

The trap effect resolved, and the huge green statue was blasted into countless pieces with a bang. The smoke quickly swept across, and the energy released from the statue turned into nutrients and was absorbed into Dartzs body.

Dartz, LP 12600LP 16025

Then the moment Shunoros was destroyed, Dartz narrowed his eyes and sneered, its final ability was also activated.

Dartz sent all the cards in his hand to GY. Then three monsters left on his field were all swallowed by the darkness as if being dragged into the depths of hell by the devils claws.

When Shunoros is destroyed, I must send all the cards in my hand and all the monsters on my field to the graveyard, and then I must pay 10000 LP, and he can call endless darkness to swallow everything!

Dartz raised his hands, raised his head, and shouted into the sky.

Descend, the great God of Orichalcos

Divine Serpent Geh! ! !

Chapter 308: Then... What About Me?

When Shunoros is destroyed, send all the cards in my hand and all the monsters on my field to the graveyard, and then I must pay 10000 LP to Special Summon from the Deck

Divine Serpent Geh! ! !

Orichalcos Shunoros was shattered, but the huge energy released from the idol also tore a huge gap in the space.

It was a pitch-black vortex, like a black hole leading to another dimension, opening up the space headquarters.

Endless darkness was released from it, and it actually won a place in this field dominated by the sun god. The dark and oppressive aura quickly swept across the ground, and even seeped out of Orichalcos triple barrier, sweeping across the entire land of the spirit world.

All the spirits sensed that suffocating, trembling oppressive aura, knowing that it was the true form of the eye that broke into the spirit world before.

The snakes head protruded from the black hole, and a poisonous tongue spit out from its mouth. It had vicious eyes like a combination of resentment and hatred, and most of its body was still hidden at the other end of the black hole. Its size was unimaginable.

The Silent Magician silently approached Yuei Vu for two steps, as if trying to use her aura to help Yuei Vu resist the oppression of the evil god. But to be honest, in front of a god of this level, all she could do was do her best.

It was also thanks to the presence of the sun god on Yuei Vus side. The aura of this god has greatly offset the influence of the evil god. Otherwise, ordinary people would not be able to directly face creatures of this level.

[Dartz, LP 16025 LP 6025]

As the price of summoning the Divine Serpent Geh, all my life points must be given up. Dartz chuckled, But as long as the Divine Serpent Geh is on my field, all the conditions for defeat in the duel do not apply to me.

[Dartz, LP 6025 LP 0]

"

"

Now the only defeat condition I have left is that the Divine Serpent Geh leaves the field. In other words, if you dont defeat it, you will never win the duel.

Pausing for a moment, Dartz raised his finger and pointed to the huge bloodthirsty head above his head.

And the Divine Serpent Gehs attack power is infinite!

[Divine Serpent Geh, ATK]

A a monster with infinite attack power!? Dark Magician Girl was startled.

This is the first time since the duel started she felt panicked from the bottom of her heart.

This kind of monster even if it is Master, is there a way to defeat it?

Great Shogun Shien was also a little lost in thought: In the world does there exist such great power

Not only them, but all the spirits in the entire spirit world were shocked at this moment.

Even the aura of the sun god was faintly suppressed by the god with infinite power. Fear and uneasiness spread throughout the world.

The god of Orichalcos fed on the darkness in peoples hearts. All the desperation, fear, and hatred of the soul absorbed by it were all mixed in that hideous body, so one could imagine what kind of chaos it was.

And right now, Yuei Vu, who was in the center of Duel Monsters Spirit World, driving the Egyptian God to start the final duel with this evil god, has become the focus of attention of all the spirits in the world.

At this moment, he became the only savior of the spirits.

All expectations and prayers were pinned on Yuei Vu and the Egyptian God he temporarily controlled, as they were the last hope.

It seems that all your efforts and the god on which you pinned your last hope failed. Dartz smiled lightly, Even The Winged Dragon of Ra is not the opponent of the Divine Serpent Geh.

Unfortunately, I've given you a chance before. It's too late to surrender now, the descending Divine Serpent Geh can't accept to return in vain. You and your Egyptian God are destined to become the food of the evil god.

It's rare that Dartz, the head of a cult, even gave up the idea of fooling Yuei Vu into abstaining. It seemed that he felt that he was as stable as a mountain.

How can I still lose if the Divine Serpent Geh is on my side?

The attack power is infinite, can you still print a card to OTK me?

However, to his disappointment, even if the invincible Divine Serpent Geh appeared on the stage, he still failed to find the panicked expression on Yuei Vu's face as he wished.

Why?

Doesn't he worry about losing at all?

Or up until this point, is it still within his expectations?

Did he already know that I planned to summon the Divine Serpent Geh?

Because the situation on the field changed, a Battle Replay occurred. Yuei Vu said lightly, The Sun God's attack was canceled, and my Battle Phase is over.

The golden flame brewing in the mouth of the Winged Dragon gradually disappeared. It seemed a little unwilling. The Winged Dragon stared viciously at the huge snakehead in the black hole and shook its head fiercely.

But think about it carefully, now it is true that the attack power of that smelly snake is relatively higher than mine, so it is better to retreat first

Set a card, I end my turn. Yuei Vu had an extra card at his feet, Now your LP is lower than mine. Originally, according to the effect of the Equip Spell Megamorph, the equipped monster's ATK becomes half its original ATK.

However, the effect of Spell Card can only affect the god for one turn, so the attack power of Ra is restored to its original state.

[The Winged Dragon of Ra, ATK 15125]

My turn. Dartz said, Because Orichalcos Gigas is no longer present on my field, now I can do the normal card draw in Draw Phase.

He drew a card and said, Activate Pot of Greed! Draw two more cards from the deck.

The effect of the Continuous Trap Appropriate! The trap in front of Yuei Vu lit up again, I also draw two cards from the deck.

Having drawn two more cards, Dartz only glanced at them and didn't use them: Battle! Due to the Divine Serpent Geh's effect, I must send the top ten cards of my deck to the graveyard every time he attacks.

Divine Serpent Geh, attack The Winged Dragon of Ra! Bury the sun god into the darkness!

Infinite attack power had side effects. However, Dartz's deck was thick enough. He had drawn many cards before, yet there were still so many cards to throw to GY

However, because the victory conditions changed when the Divine Serpent Geh was on the field, even if Dartz had zero cards in his deck, he would not be judged to be defeated.

Now to defeat Dartz, he had to rely on the way of defeating the Divine Serpent Geh.

Dartz sent ten cards to the GY, and the huge snake god couldn't wait to open his mouth. When this evil god looked at the gorgeous and beautiful body of the sun god, he did not hide his irresistible ambition in his eyes. It seemed that he couldn't help but want to give this lofty Egyptian God a face slap

Although there was a huge difference in attack power, Ra seemed to feel that its momentum could not be lost. It also roared fiercely and glanced at Yuei Vu from the corner of its eye.

To be reasonable, although this is the first battle of the Winged Dragon in Yuei Vu's hands, it has seen every duel of Yuei Vu.

The Winged Dragon recognized Yuei Vu's strength, otherwise, it would not make an exception and lend its power to Yuei Vu.

So even though I can't handle this attack by myself, I now have a master (although just temporarily)!

In short, my master will definitely think of a way to get over it, so there is no need to be cowardly here.

Open the set card! Sure enough, Yuei Vu did not disappoint him and opened the only set card on the field with a wave of his hand.

Before he opened it, Dartz said first: It's useless! As long as Orichalcos Tritos is on the field, any Spell and Trap Card effects that affect monsters on my side of the field will be negated!

I know, so this is not a card that affects the Divine Serpent Geh! Yuei Vu shouted, I activated the Quick-Play Spell The Flute of Summoning Kuriboh!

Take 1 Kuriboh or Winged Kuriboh from my Deck, and either add it to my hand or Special Summon it!

Yuei Vu pulled out the deck. Before he started looking for it, the Kuriboh spirit lodged in it yelled Kuri Kuri twice, and couldn't wait to pop out in the form of a hairy ball floating beside Yuei Vu.

I added the Kuriboh from the deck to my hand!

Dartz, who had seen this spirit once before, couldn't help but frown: Do you want to rely on this trash fish monster to survive again!?

Yuei Vu didn't know if Kuriboh could understand human language or not, but it seemed to understand that the other party's contemptuous trash fish was referring to it, so it couldn't help

jumping up and down angrily, yelling Kuri Kuri to express its dissatisfaction. On the fluffy little head, there seemed to be an angry symbol

Kuriboh: Super Fierce.JPG

The battle continues! Dartz said coldly, Divine Serpent Geh, attack!

The chaos in the mouth of the giant snake god was brewing, and a burst of chaos blasted mightily towards the golden divine bird in the midair, and the space of the spirit world seemed to be shattered under that mighty force!

But it didn't matter, Yuei Vu immediately called the professional attack blocker Chestnut Dragon: Discard the Kuriboh, and the damage in one battle becomes 0!

The Winged Dragon of Ra: 0.0

Then what about me?

The battle damage becomes 0 does it mean I still have to be beaten?

Dartz yelled: Although it won't cause battle damage, the Sun God will still be destroyed! Divine Serpent Geh! Let's smash the Sun God to pieces!

The mighty impact blasted out, and the body of the Winged Dragon was blasted into pieces under the endless power of the evil god and disappeared from the field with a mournful cry.

The Winged Dragon of Ra:

Chapter 309: Face Slap With Infinite Power!

Under the bombardment of the evil god's endless power, the winged dragon's golden body was torn apart, turned into ashes, and disappeared.

The god of the sun fell, and darkness drowned out the light. The hopeless chaos swept across the sky and covered the sky, annihilating everything, just like the legendary Great Flood, pouring into the whole world unabated.

But at this desperate moment, in front of the absolute divine power that seemed to destroy everything, a small figure jumped out!

That was Chestnut Dragon!

Oh no, it's Kuriboh!

It had only a small body, and whether it was size, level, or attack power, it was insignificant in front of countless monsters in the elf world, but at this moment, it was the only one standing out, blocking the power of the evil god with its body!

Then Kuriboh it held up!

The contrasting scene could only be described as a miracle. Facing a literally infinite output, all the damage was completely carried by the small and cute Kuriboh.

What about evil gods? What if the attack power was infinite?

Kuriboh: I am not targeting anyone, but in front of me, all the messy gods are just chickens!

The evil god's impact lasted for nearly ten seconds, and then gradually dissipated.

Kuri Kuri!

Kuribohs small body swayed up and down in front of Yuei Vu as if cheering him on and then gradually became transparent and disappeared from the field.

Have you survived this turn? Hmph, its meaningless. Dartz said coldly, Its just delaying the inevitable doomed future. There is no way to defeat the Divine Serpent Geh.

He took out the two cards he had just drawn.

Set two cards, I end my turn.

Yuei Vu let out a long sigh of relief.

Anyway, he survived this turn.

Although he knew that there was no harm, the impact of the evil gods attack was quite terrifying.

Especially when the Sun God was repelled, and the power to resist was lost on the field, Yuei Vu could feel the pressure increase by a huge amount.

The Silent Magician has tried her best to help him, but her spells are still a bit too difficult to resist the pressure of the evil god. Her bloodless face became even paler, and her breathing became a little short of breath. If you closed your eyes and listen to the more intense panting, it was easy to make people have strange associations

Cough cough of course, Yuei Vu was now concentrating on playing cards, not thinking about scenes that could only be found in 18+ doujinshi

The opponent has the Divine Serpent Geh with infinite attack power and immunity to Spell and Trap Cards, while Yuei Vus side was empty. Under such a disparate situation, it stood to reason that the activation conditions of the Duel Skill Draw of Fate have already been met.

However, it was stated in the game manual that only one Duel Skill could be used in a duel. In other words, Yuei Vu, who has activated Gods Anger, could no longer use Draw of Fate anymore.

"

"

but it didnt matter.

For a duelist who had the Yu- prefix, a player whose Rach has reached the terrifying eight-star level, and currently had divine help behind him, things like Draw of Fate have long been dispensable.

Unable to do an automatic divine draw?

Doesnt matter, lets watch this wave of the manual divine draw!

My turn draw!

This time, Yuei Vu was brewing up enough momentum, and once he performed the draw, the card drawn drew a semi-arc trajectory in mid-air.

YaDaZe (successful)! ! !

Active Spell Card Card of Demise! Yuei Vu immediately inserted the card into the Duel Disk, I can draw cards until I have 5 cards in my hand. During my 5th Standby Phase after activation, send all cards in my hand to the Graveyard.

Filling up his hand with five cards again, Yuei Vu's eyes lit up when he saw the last card he just drew.

Come, come, come!

The way to solve the infinity!

Seeing the change in his eyes, Dartz couldn't help but feel a slight movement in his heart.

This guy is there really a way to defeat the Divine Serpent Geh?

That should be impossible. Is the power of the Divine Serpent Geh infinite? There is no way to conquer it!

Spell Card Parallel World Fusion!

A special fusion card for Elemental HEROes appeared in front of Yuei Vu.

Fusion Summon 1 Elemental HERO Fusion Monster from my Extra Deck, by shuffling my banished Fusion Materials listed on it into my Deck!

Dartz was a little surprised: Oh? Fusion from the banished zone?

I fuse Elemental HERO Flame Wingman and the Elemental HERO Sparkman!

The fusion condition is 1 Elemental HERO monster + 1 LIGHT monster.

Fusion Summon! Elemental HERO The Shining!

Yuei Vu showed two cards in the banished zone. Heroes of flame and lightning both appeared, turned into fire and electricity, returning from a dimension that was isolated from the game, and the fusion evoked a new power from the sky.

Incandescent light shone on the earth, then appeared the hero with a white body, behind him was a golden pendant shaped like the sun.

Maybe there should be no room for a hero of this level to play in this battle of gods.

"

"

However, although he may be insignificant compared with evil, although he may never be possible to defeat the evil god who has infinite power in front of him, the hero still appeared on the stage without fear, doing his best to shine, and fearlessly facing the darkness that could dominate the world.

The Shining will gain 300 ATK for each of my banished Elemental HERO monsters. Yuei Vu said, Now I also have Elemental HERO Shadow Mist and Elemental HERO Blazeman in my banished zone, so his attack power will increase by 600.

[Elemental HERO The Shining, ATK 2600 ATK 3200]

Huh? Immediately summoned a hero whose attack power surpasses that of the Blue-Eyes White Dragon? Dartz crossed his arms and said contemptuously, Although I really want to praise your strength but now, what's the point of bringing out such a trash fish monster?

There is no trash among heroes. Yuei Vu said lightly, I will let you realize this now.

(Elemental HERO Sparkman gave a thumb-up)

Battle! Yuei Vu waved his hand, Elemental HERO The Shining, attack the Divine Serpent Geh!

Dartz was shocked: Are you crazy!? You actually attacked the Divine Serpent Geh who has infinite attack power!?

But anyway, the fight has happened.

The shining hero mustered all his energy, and his whole body burst into endless brilliance, as if he was burning the last ray of power deep in his soul, and charged fearlessly towards the endless darkness in the midair!

Even if the opponent was the darkness which was enough to destroy the world, even if the opponents attack power was , but as a hero, he had to fight the evil!

Stupid! Dartz shouted, If that's what you want, I won't stop you from suicide! Divine Serpent Geh, smash that tiny existence!

The snake god opened its huge mouth, and the world-ending darkness brewed again in the snake's mouth, and endless chaos exploded out!

This was almost a battle without suspense, no matter in terms of attack power value or mystical power of both sides. The hero's brilliance was swallowed by the darkness in an instant, and he didn't even have time to directly touch the impact itself, the aftermath alone was enough to shake him to pieces

but that didn't happen.

Although it was only an extremely faint ray of light at first, the light was unyielding, and it stubbornly did not go out in the endless undercurrent.

Not only did it not go out, but the beam of light became more and more dazzling. He went upstream, erupted from the dark torrent, and his strength continued to increase and expand until he became unprecedentedly shining, even enough to stand up to the world-destroying evil god.

The Shining burst out of that impact of chaos, flew into the air, and his tall body shone like never before, tearing the darkness apart domineeringly!

[Elemental HERO The Shining, ATK]

What what!? Dartz's expression changed, Attack power infinite!?

Heroes can't get cold feet. And heroes have infinite possibilities!

Yuei Vu smiled and showed the card he had just activated.

Quick-Play Spell Battle Fusion! When an attack is declared involving a Fusion Monster I control and an opponent's monster: That monster I control gains ATK equal to the ATK of the opponent's monster, until the end of the Damage Step!

The target of this card is Elemental HERO The Shining, and it didn't affect the Divine Serpent Geh. Therefore, Orichalcos Tritos cannot negate this effect!

Therefore, the attack power value of Divine Serpent Geh will be added to the attack power of The Shining that is, infinite!

No! This is impossible! Dartz was astonished, A mere rogue hero can actually reach the realm of rivaling a god!

If the battle is established, the Divine Serpent Geh will die along with The Shining, Yuei Vu said, and when the Divine Serpent Geh leaves the field, Dartz, you will lose at that moment!

Well

The Shining's attack! Yuei Vu shouted, Optical Storm!

The shining hero launched a desperate charge, dragging endless brilliance all over his body, leaving bright and shining trails in the dark cloudy sky, which could be seen clearly in the entire spirit world!

The Divine Serpent Geh roared again. But this time it was not a demonstration, not a mockery, but a fear of the hero who was about to destroy it and ruin its resurrection plan!

It's not that easy! Dartz frowned, Open the set card: Counter Trap Negate Attack! When an opponent's monster declares an attack: Target the attacking monster; negate the attack, then end the Battle Phase!

The trap flipped, rolling up a whirlwind of absolute defense! The Shining's desperate sprint collided with the storm barrier with the strongest defensive performance. No matter how unwilling he was, he couldn't break through.

Dartz sneered: Even if the attack power is also increased to infinity, after all, it is just an ordinary monster, and it is not worth a shyness in front of the great power of Orichalcos.

That's not necessarily true. Yuei Vu smiled.

What? Dartz frowned, Your Battle Phase should be over.

That's right, but my turn is not over yet. Yuei Vu drew out a card in his hand again.

Marik-san! Lend me your strength!

(Mr. Ishtar, whose deck has been pulled out for the Nth time and did not want to be named, expressed his frustration)

Spell Card Surprise Attack from Beyond! Yuei Vu shouted, This card allows me to conduct a second Battle Phase. Monsters which were Normal Summoned, Special Summoned, or Flip Summoned may attack again as if it were a new turn! (animation card)

Dartz's complexion changed: You can attack again!?

Elemental HERO The Shining, the second attack! Yuei Vu waved his hand and shouted, Optical Storm!

The Shining gained momentum for the second time, soaring into the sky, the holy light blooming all over his body, once again transformed into the ultimate light, and charged fearlessly towards the evil god of darkness!

This time, it was the last blow!

The Divine Serpent Geh roared, opened his mouth, and started to brew a shock wave, but the sound was more like a cry of despair.

The experience of this evil gods incarnation could be called a literal sense of ups and downs. It has been sleeping for ten thousand years, and it has just come out for a few minutes to breathe. This was the second near-death experience

But Dartz hasnt given up yet!

Activate Trap Card Absolute End! Dartz also raised his voice, This card can only be activated during the opponents turn! After this card is activated, all the opponents monsters attack during this turn

will become direct attacks!

Ah? Yuei Vu raised his eyebrows.

Damn, is he such a staunch man? Defending the Divine Serpent Geh with his own body?

However, the trap had already taken effect at this time, and under the influence of that effect, The Shinings sprint forcibly deviated from the track. The shining brilliance left scorching white airwaves in the air, passing by the Divine Serpent Geh, like a nuclear bomb with infinite power blasting toward Dartzs forehead!

A direct attack with infinite attack power!

Boom! ! !

A flash of light erupted, and the air wave swept across as if out of control, and the impact kept shaking the barrier itself, even the indestructible triple barrier seemed to be in turmoil.

Although he was not the target of this attack, Yuei Vu was knocked back a few steps by the aftermath shock. If it werent for the support of the Silent Magician, he almost couldnt stand still.

From the perspective of the duel, Dartz did once again dodge this killing blow beautifully.

Because his HP was originally 0, the loss condition has changed to Divine Serpent Geh leaves the field, so as long as the Divine Serpent Geh was in his control, even if he suffered infinite damage, he would not lose.

That being said

Dare to physically block an attack with infinite attack power in this level of Shadow Game, arent you afraid that you will be blasted into a mosaic?

Looking at the momentum, feeling the shock and impact, Yuei Vu couldnt help but feel lingering fear. Fortunately, it wasnt him who was hit

Chapter 310: Create A Miracle

There was an explosion, a movement like landslides, and the ground cracked. Even the invincible Orichalcos barrier was crumbling in front of the hero's infinite firepower as if it would be crushed by the rampant light at any time.

But when the light faded away and the smoke cleared, Yuei Vu found that Dartz was still standing firm on the opposite side, and hadn't been blasted into a mosaic by The Shining's infinite attack power.

Oh? It's worthy of being the spokesperson of the evil god. You even survive against the physical impact of infinite attack power. Yuei Vu said.

Dartz still had a calm expression on his face: Huh, that's natural. For ten thousand years, the pain and darkness I have endured are beyond the imagination of mediocre people like you.

This pain is nothing compared to the sacrifices made to achieve the ultimate goal.

Yuei Vu: So why are your legs shaking?

Dartz:

In any case, the blow of The Shining with infinite attack power was finally carried down by Dartz. Of course, Dartz's LP was already 0. It wouldn't become a negative number because of an infinite power blow. The life value was meaningless to him now.

Yuei Vu took out the last two cards in his hand: Set two cards, I end my turn.

Hmph, you have no choice but to set all the remaining cards in your hand. Dartz sneered, It seems that is also your last bet.

During your End Phase, the effect of Battle Fusion will also end, and The Shining's attack power will return to normal.

[Elemental HERO The Shining, ATK ATK 3200]

Dartz smiled contemptuously: Even if you are temporarily elevated to the level of rivaling a god, it is only a momentary false image after all. There is no hero to save this world.

It's my turn, draw! This time is the real final blow!

Dartz pulled out ten cards from the top of the deck and stuffed them into the grave area.

Battle! he shouted, Divine Serpent Geh, smash that hero to me, and draw the end to this battle!

The gigantic snake god opened its mouth again. The pitch-black vortex brewed and turned into a chaotic shock explosion. The shining hero bore the brunt, and there was no way to avoid it under the mighty torrent.

The corner of Dartz's mouth curled up: This time it's really the end.

Not yet. Yuei Vu raised his hand, Quick-Play Spell Book of Moon!

The set card on the field flipped, and a thick azure book was transformed, with a golden moon drawn on the cover.

Book of Moon can turn a monster on the field to face-down Defense Position!

In the third barrier Orichalcos Tritos, Spell and Trap Card effects are ineffective against Divine Serpent Geh! Dartz shouted.

I know! So the monster I want to target is Elemental HERO The Shining! Yuei Vu waved his hand, The Shining changes to the face-down Defense Position!

The hero withdrew the shining brilliance on his body, crouched down, changed back to the posture of a set card, and covered the field with a face-down posture.

Because its in the Defense Position, so I wont take battle damage!

Damn, you cant just die, can you? Dartz frowned, as if he was getting impatient, Then smash that unsightly hero for me!

The chaotic storm spewed out of the mouth of Divine Serpent Geh lifted the set monster, and the image of The Shining reappeared, before his white body was instantly riddled with holes, and was torn to pieces in the storm.

See? This is the absolute power of Divine Serpent Geh, nothing can stop it! Dartz said loudly, The resurrection of the evil god is inevitable, and the entire civilization of mankind so far will be reset!

Yuei Vu ignored him: The effect of Elemental HERO The Shining! When this card is sent from the field to the Graveyard: I can target up to 2 of my banished Elemental HERO monsters; add those targets to my hand.

I add Elemental HERO Shadow Mist and Elemental HERO Blazeman back to the hand!

The moment the shining hero was defeated, he released his last brilliance. The last hope left turned into the two heroes who returned from the banished zone and returned to Yuei Vus hands.

Do as you like. Whats the use of a hero who cant make it to the stage? Darzu sneered, My turn is over. Try to defeat Divine Serpent Geh as much as you can.

But no matter what kind of effort you use and how you try, you will find that it will only be in vain just as human beings can never eliminate the darkness in their hearts!

At the same time, Divine Serpent Geh also let out a soaring roar, as if a demon who had succeeded in trickery was triumphant.

The aura of the dark god overwhelmingly suppressed everything. The air was so heavy that it made people feel terrible. The entire spirit world fell into a depressed atmosphere, and the morale of the spirits fell to the bottom.

No wonder it was so.

The God of Destruction was defeated head-on, and the brilliance of the Sun God was also extinguished. The fearless heros soul-burning blow was only skillfully deflected by the evil god. In the end, he could only be powerlessly wiped out by the evil gods blow that annihilated everything.

All hope has been shattered. Now on the field No, in the entire vast spirit world, there was no longer any power that could contend with that invincible evil god.

The pressure given by the evil god caused despair and fear to spread in the endless space, and the more such emotions there were, the stronger the evil god would become in turn.

Boom!

That was the sound of the black magic bomb exploding. It once again blasted away a piece of Orichalcos monster that entered the spirit world through the crack.

Everyone, don't give up! The Dark Magician Girl floated in the air and shouted to her companions, Because Master is still fighting! He hasn't given up yet!

The duel monster spirits, who were feeling terrified under the pressure of the evil god, came back to their senses.

Yes, we haven't lost yet.

As long as there is still life left, as long as there are cards in the deck, any card draw can create miracles.

The so-called duel isn't that what it is?

All attention once again focused on Yuei Vu, the duelist who came to the spirit world just at this time to stand up against the evil god

Can miracles really appear?

The Silent Magician stood beside Yuei Vu, holding her breath not to disturb him.

But she could feel that even in such a situation, even under the pressure of the evil god, this person still did not feel hopeless at all.

As if even at this point, he still had a backhand.

The final draw!

Although Yuei Vu didn't expect that the duel would reach this point in the end, and it would become the current situation, he did have the means to fight back.

Just draw that card!

The prayers of all the spirits gathered in one body, and the power of the three Egyptian Gods invisibly blessed him at this moment. Yuei Vu could feel that his force as a duelist was unprecedentedly stimulated!

Everything about a true duelist is inevitable, even the card he draws!

My turn, he drew out the top card in the deck, Draw!

The moment the card was drawn, it drew a gorgeous trajectory of red, gold, and blue in the air.

It's coming!

Dartz's complexion changed: That power is

Activate Spell Card Soul Release! The drawn magic card appeared in front of Yuei Vu, Banish up to five cards in any graveyard!

Banish five cards from the game? Dartz frowned, Do you think that Divine Serpent Geh will disappear if the Orichalcos Shunoros in my graveyard is banished?

In that case, you will be disappointed. Shunoros is just a premise condition for Divine Serpent Geh to descend, even if you exclude it, it will be of no use

Who said I want to banish that kind of thing? Yuei Vu chuckled.

What?

Although he didnt know how Dartzs brain circuit could make up this kind of BISS, Yuei Vu didnt intend to do that. He picked up the three cards that popped up in his grave area.

The cards I want to banish are these three!

Dartz saw the three cards displayed by Yuei Vu clearly, and couldnt help being startled.

Osiris the Sky Dragon!

Obelisk the Tormentor!

The Winged Dragon of Ra!
