

I Play Yu-Gi 351

Chapter 351: This Is Your HERO?

Duel! x2

Yuei Vu, LP4000

Siegfried, LP4000

Under the noisy onlookers of passers-by and players, the duel between Yuei Vu and Siegfried kicked off.

In the relatively relaxed KC Grand Prix arc of the Yu-Gi-Oh!, Siegfried could be considered the final BOSS.

Although it may be a bit arrogant for him to think that he could challenge Kaiba in a duel, since he dared to think so, he must at least have the corresponding capital.

Among other things, in the animation, at least this guy won against Jonouchi during the promotion duel (although its due to our God of Gamblers having a brick starting hand and didnt have any monsters that could be summoned), which was enough to show that his strength was the real deal.

In addition, his Valkyrie deck was one of the few decks in the DM era with a complete archetype. It took many years for this deck to become real cards, and it seemed to have a good swarming ability in this era.

Of course, many players mostly recognized this series through a video made by a well-known female player. It was said that halfway through the duel, her Valkyrie was sent directly to a different dimension by the opponent player, and her mentality exploded

Its me who goes first, draw ! Yuei Vu took the initiative.

Just as Yuei Vu was recalling Siegfrieds Valkyrie deck construction, Siegfried was also trying to retrieve information about Yuei Vus deck from his memory.

Yuei Vu, a user of HERO deck, which is good at launching a strong attack through Fusion Summon. His trump card are Masked HEROes who can switch forms according to the situation

Siegfried chuckled.

Come on, Duel King. I want to see if your HERO can withstand the attack of my Valkyrie!

Then he saw Yuei Vu draw out a card in his hand: I summon

Berry Magician Girl in attack position!

Siegfried looked at the small magic circle that appeared on the Yuei Vus field, looked at a magical young girl with small arms and legs, butterfly-like wings behind her, and even a pacifier in her mouth, and she was stunned.

[Berry Magician Girl, ATK 400]

Siegfried: ?

This is your HERO?

Why does it seem Its not the same as the rumors!

A group of card players next to him jumped up immediately.

Magician Girl!

Yuei Vu-san, admit it. You are a KONAMI card seller, arent you? Otherwise, where did you get so many decks?

Its over, Im ready to chop my hands again. Start saving money for my wives

Yuei Vu said that of course, he couldnt play this duel for nothing.

It was rare that a sandbag came to the door by himself, and his strength was not bad. There was no way Yuei Vu didnt take this opportunity to advertise to prepare for the launch of the Magician Girl deck.

The effect of Berry Magician Girl. Yuei Vu said, If this card is Normal Summoned: I can add 1 Magician Girl monster from my Deck to my hand.

The card Im going to add to my hand is Chocolate Magician Girl.

Yuei Vu highlighted the card he found from the deck, added it to his hand, and then drew another card from his hand.

Set a card, I end my turn.

Siegfried frowned, his face slightly gloomy.

There is only one Magician Girl with an attack power of 400 on the field, and it is still in the attack position

No, before that he didnt even show his famous HERO deck.

Does that mean Im not worthy enough?

It seems Im really underestimated.

Siegfried sneered and slowly raised his hand.

But you will regret this attitude soon. Its my turn, draw! Siegfried drew a card from his hand, I summon Valkyrie Dritte!

The sound of horseshoes sounded, and the Valkyrie wearing armor and holding a long sword galloped down from the sky on a snow-white horse.

She held a shield in her left hand, wielded a long sword in her right hand, and a cloak fluttered behind her.

[Valkyrie Dritte, ATK 1000]

The effect of Valkyrie Dritte If this card is Normal or Special Summoned, I can add 1 Valkyrie from the deck to my hand. Siegfried chuckled, and found a card from the deck, I add Valkyrie Vierte to the hand.

The names of the monsters in the Valkyrie series were quite simple. The six Valkyries were called First, Second, Third, Fourth, Fifth and Sixth Valkyrie respectively

People couldn't help but seriously suspect that the designer tried to be lazy when designing the name of the monster.

Siegfried added the card to his hand and looked contemptuously at the set card in Yuei Vu's back row.

A monster with an attack power of 400, and a trap to defend against the counterattack. Such a perfunctory tactic makes me feel insulted. He said coldly, In this case, let me help you get a little more serious.

He took a card and inserted it into the Duel Disk.

Quick-Play Spell Card Anti-Magic Arrows!

When the Spell Card was activated, countless arrows emerged out of thin air, shooting toward Yuei Vu's backcourt in the air. Arrows poured down like raindrops, without any explanation, they nailed the set at Yuei Vu's feet to the floor.

Yuei Vu also had this card in his hand, and it was a card that he got from Pandora's novice gift bag when he just crossed.

Because it was one of the first cards he has acquired, the impression was quite deep.

For the rest of this turn after this card resolves, neither player can activate Spell/Trap Cards, or their effects. Siegfried looked at Yuei Vu's sealed card with a sneer, In this way, your only means of defense was blocked.

This simple trap can only bully those mortal duelists, it doesn't work for me at all! Pay for your slight, Duel King!

Battle! Valkyrie Dritte, attack Berry Magician Girl!

With a clear whistle, the Valkyrie charged forward while riding a horse and swinging a sword. The steed neighed high-pitched, the Valkyrie yelled crisply, and the sword light flashed across the air, heading straight for the cute magician girl with a pacifier in her mouth.

Sure enough, he was fooled.

The sword light swung, and the sharp sword light fell down, but suddenly a transparent and complicated magic circle suddenly appeared in front of the petite Magician Girl. The Valkyrie's unstoppable sword was shaken away with a clang, and the white horse retreated half a step with a cry of surprise.

[Berry Magician Girl, ATK 400 DEF 400]

Siegfried was surprised: The Magician Girl turned into defense position?

Because at the moment you attacked, I activated the effect of Berry Magician Girl! Yuei Vu waved his hand, When Berry Magician Girl becomes the target of an attack, I can change this card's battle position, and Special Summon 1 Magician Girl monster from my Deck!

At this time, Yuei Vu had found the card he was looking for from the deck and directly slapped it on the duel board.

Come on, Lemon Magician Girl!

A hexagonal magic circle unfolded in the center of the field, and the girl flew out of it with a golden glow. She was dressed in golden and gorgeous magic attire and held a small and lovely staff in her hand. She blinked her small eyes mischievously when she appeared on the stage and flapped her butterfly-like snow-white wings lightly behind her.

[Lemon Magician Girl, ATK 800]

Siegfried frowned: But her attack power is still lower than my Valkyrie. The battle rolls back! Go, Valkyrie, attack the lemon Magician Girl!

The steed under the seat of Valkyrie raised its head and neighed. It changed its trajectory, turned around and charged toward the new Magician Girl. The light of the sword in Goddess Wars hand flashed, and the sword wiped away at the lemon girls white neck.

However, at this moment, another magic circle emerged out of thin air! The lemon-colored light formed a brand new magic circle in front of the Magician Girl, like an indestructible shield.

Lemon Magician Girls effect is activated! Yuei Vu said, When she becomes the target of the attack, I can Special Summon 1 Spellcaster-Type monster from my hand.

But if the level of the summoned monster is higher than that of Lemon Magician Girl, its effect will be negated. (animation effect)

Yuei Vu drew another card from his hand.

Come on! I will Special Summon the Kiwi Magician Girl in my hand!

The lemon-colored magic circle switched to light blue. A Magician Girl in a kiwi-style robe with a cute red heart on her forehead flew out of the magic circle, stepped on the whirling magic circle, and spun around lightly like a dance.

[Kiwi Magician Girl, ATK 1800]

This was the first time the players saw the three-dimensional projection of Magician Girls. Kaiba Corps projection technology has fully demonstrated their figures, curves, and face which looked like a jade carving, instantly capturing the souls of the players.

Kiwi my waifu, come home with me!

All of them are my wife!

The one above, you are thinking too much!

I desire her body, but at least Im honest about it!

Siegfried frowned: Call three monsters in an instant

Not only that. Yuei Vu smiled and shook his fingers, When the Lemon Magician Girl Special Summon a monster through its own effect, the attack target of the opponents monster will be forcibly changed to the summoned monster!

And in this case, the attack power of the opponents monster will be halved!

What!?! Siegfrieds face changed suddenly.

The Lemon Magician Girl gave a coquettish Hey and waved her small staff to cast a spell. Negative magic landed on the charging Valkyrie, which only made the brave Valkyrie feel dizzy and powerless.

[Valkyrie Dritte, ARK 1000 ATK 500]

Then the lemon girl flicked her small staff, and the magic circle circled in the air immediately diverted the charging Valkyrie to another place and rushed towards the Kiwi Magician Girl.

The kiwi girl was expressionless, raised her staff, and waved lightly, and the light blue spell impact immediately overwhelmed the Valkyrie, who was blasted into pieces together with her armor and mount.

Siegfried, LP 4000 LP 2700

Siegfried gritted his teeth. Looking at the group of seemingly pure but tricky Magician Girls who suddenly popped out of the opponents field, he didnt dare to be contemptuous.

This Duel Kingis really not that easy to deal with.

Chapter 352: Valkyrie VS Magician Girl

Siegfried originally thought that Yuei Vu didnt take him seriously at all, placed a monster with a mere 400 attack power in attack position, and added a set card that was obviously a trap to seduce him.

Now he found out he was wrong.

It turned out that even the set card was a feint, and the real trap was the small and cute Magician Girl herself.

Double trap!

Sure enough, he is worthy of being the Duel King. He has experienced many battles and has a dark heart.

But Siegfrieds mentality was very stable, and he was not discouraged in the slightest.

It was just that he was careless.

Not anymore.

Set a card, I end my turn, Siegfried said.

Then its my turn, draw. Yuei Vu showed the Magician Girl retrieved in his hand last round, Summon the Chocolate Magician Girl in attack position!

The green-haired girl flapped her bat-like wings, stepped lightly on the complicated magic circle, and stuck out her little tongue slyly, like a little devil full of vitality.

[Chocolate Magician Girl, ATK 1600]

Chocolate Magician Girls effect Once per turn: I can discard 1 Spellcaster-Type monster; draw 1 card.

Yuei Vu discarded a card in his hand and then drew a card.

Battle! First, Kiwi Magician Girl, attack the player directly!

Kiwi was the oldest and most mature one among the girls present no matter her face or the size of her chest.

The eldest sister took a step forward, raised her staff, and waved her hand, and a spell blast blasted out through the air.

But Siegfried was also on guard: Open the set card! Counter Trap Card Wotans Judgment!

This card can be activated only when a monster is selected as an attack target. Switch the top card of my Deck with a Spell Card in my hand, then shuffle my Deck. Negate the attack and end the Battle Phase! (animation card)

Siegfried quickly drew a card and returned a card from his hand to the deck. The magic impact blasted by the Kiwi girl bounced away before it could touch the opponents body.

Siegfried unhurriedly pulled out the deck and shuffled the cards, chuckled: Dont worry, Duel King, the duel has just begun.

On the surface, he pretended to be calm, and at the same time he was still talking hard, but in fact, Siegfried was under a lot of pressure now.

Facing the Duel King was even more stressful than he had imagined, and what was worse was that his opponent didnt even show his common deck, and didnt seem to be serious at all.

This made Siegfried have to start to reflect on whether he was too reckless to challenge the Duel King.

"

"

Then I switch the Berry Magician Girl from defense position to attack position, and end my turn. Yuei Vu said.

[Berry Magician Girl, DEF 400 ATK 400]

The Berry Magician Girl could automatically switch her battle position when being attacked, and Special Summon another Magician Girl from the deck.

If she was in Defense Position, she would automatically switch to Attack Position after the effect was activated, and Yuei Vu would take huge damage.

Then its my turn. Siegfried said, Draw!

In any case, he had no way out now.

In fact, everyone generally defaulted to Duel King Yuei Vu as a member of Kaibas camp.

Just as the tyrannical strength of President Kaiba Seto has supported the company in many ways, the title of Duel King on Yuei Vus head has also brought a lot of positive benefits to Kaiba Corp.

But benefits and risks coexist.

If he could defeat Yuei Vu here, Siegfried could also achieve the goal of breaking the Kaiba Corp. Then he could use his media team to promote this victory, which would definitely be of great benefit to the development of the Lloyd Consortium.

However, first of all, he had to go all out to defeat the Duel King and he could just take advantage of the opportunity when the opponent underestimated the enemy and used a deck of unknown meaning.

The next time, Yuei Vu may put on a real ace deck, and he wouldn't have such a good chance!

Activate Pot of Greed, and draw two more cards.

Siegfried replenished the cards in his hand, and couldn't help but smile confidently after seeing the newly drawn cards in his hand.

It seems that the goddess of victory still favors me. He held up a card in his hand, Here comes, the horn of my counterattack! Activate Spell Card Ride of the Valkyries!

This card allows me to Special Summon any number of Valkyrie monsters with different names from my hand!

The seven-color lights built a rainbow in midair, connecting the sky like a bridge.

The female warriors in armor and holding divine swords straddled steeds, their hooves sprinting across the sky, riding from the sky like riding a rainbow.

In one breath, three Valkyries were summoned!

[Valkyrie Erste, ATK 1600]

[Valkyrie Zweite, ATK 1600]

[Valkyrie Vierte, ATK 1400]

Seeing this group of Valkyrie girls with heroic spirits and delicate faces, the screwball onlookers suddenly felt that they could do it again!

You could see that these screwballs were very realistic. It didn't matter whether it was a loli or busty girl, as long as it's a female, that's fine

"

"

See the power possessed by my Valkyries. Siegfried waved his hand, Activate Valkyrie Zweites effect! If this card is Summoned: I can target 1 monster the opponent controls; destroy it!

The first thing I'm going to destroy is

Siegfried's gaze swept over the girls on the Yuei Vu's field, and then he raised his hand and pointed sharply.

First of all, that troublesome Berry Magician Girl!

After all, he had just been tricked by this Magician Girl's effect last turn.

But his actions were still completely within Yuei Vu's expectations.

Berry Magician Girl's effect is activated! Yuei Vu waved his hand, When this card becomes the target of the opponent's effect, I can change this card's battle position and Special Summon 1 Magician Girl monster from my Deck!

Siegfried was taken aback: Her effect can be activated even when she becomes the target of the effect!?

After crossing into this world, he played a lot of duels with NPCs, so now Yuei Vu also learned to be tricky.

Anyway, the card text couldn't be seen clearly during the duel, so now he only explained half of the effect, leaving the opponent a little room for the imagination

[Berry Magician Girl, ATK 400 DEF 400]

Valkyrie Zweite drew out her long sword, swiped the blade in the air, and a crescent-shaped sword light pierced through the air, splitting the berry girl into countless light spots and dissipating.

But even though she disappeared, she left behind a transparent magic circle on the field. The fiery red light and shadow flew out of it, transforming into a bright red magic coat, a lovely magic lady with beautiful curves and a snow-white complexion.

[Apple Magician Girl, ATK 1200]

Damn, one after another. Siegfried snorted, Then I activate Spell Card Valkyries Embrace! Target 1 Attack Position Valkyrie monster I control and 1 face-up monster the opponent controls; change your monster to Defense Position, and banish that opponents monster!

He waved his hand to the Valkyrie who had activated the effect just now: I changed the Valkyrie Zweite to Defense Position! The one I want to banish this time is Lemon Magician Girl!

In the last turn, Siegfried was also bloodied under the effect of this lemon girl, so it was only natural that he will target this one next.

[Valkyrie Zweite, ATK 1600 DEF 1800]

As the Valkyrie switched from offense to defense, an invisible force immediately imprisoned the lemon girl. The Magician Girl let out a cry of Ah, and soon her figure became transparent, and also disappeared from the field as a golden glow.

In this way, this troublesome Magician Girl also disappeared. Siegfried snorted, Its just a group of little girls who cant stand on the stage, and they are powerless to resist the power of my Valkyries.

Battle! Go, Valkyrie Vierte, attack the Magic Apple Girl!

The Valkyrie let out a cry, pulled the reins, flew out on her horse, and slashed at the little face of the red magician girl with her sword.

Apple Magician Girls effect is activated! Yuei Vu waved his hand, Once per turn, if this card is targeted for an attack: I can Special Summon 1 Spellcaster-Type monster from my hand whose Level is higher than this card with its effect negated, then change the attack target to it, and the attacking monsters ATK becomes half its current ATK! (anime effect)

What!?! Siegfried was shocked.

Again?

Why are these little Magician Girls all so autistic?

Valkyrie Vierte rushed to the apple girl and swiped down with a sword, but felt as if it had cut into the water.

The girl in red blinked mischievously, and the magic staff released the magic power and swept it lightly to one side, and Valkyrie's sword suddenly tilted to one side.

There were ripples in the air, and the lines of magic power were like burning black flames. A flat ball-shaped magic wand protruded from it, and a girl with a graceful figure and snow-like skin flew out of the magic circle. Under the magic hat, her golden and smooth hair fluttered unrestrainedly, and the dark magic power burst out like a wave.

Dark Magician Girl Summon!

Chapter 353: You Are My Ace Monster

According to the effect of the Apple Magician Girl, I can Special Summon 1 Spellcaster-Type monster from my hand whose Level is higher than this card with its effect negated! Yuei Vu put the card on the Duel Disk, Come on! The great disciple of the Dark Magician, who mastered the power of black magic! The most powerful Magician Girl

Dark Magician Girl!

[Dark Magician Girl, ATK 2000]

Quickly realizing that she was in position C today, the Dark Magician Girl's face was tighter than usual, and she grabbed the small staff with all her strength, without blinking her eyes.

She didn't even have time to respond to the enthusiastic crowd of screwballs cheering and waving excitedly at her.

Then because of the effect of the Apple Magician Girl, Valkyrie Vierte must forcibly attack the Dark Magician Girl, Yuei Vu continued, and her attack power will be halved!

[Valkyrie Vierte, ATK 1400 ATK 700]

Originally, the combat power of Valkyrie Vierte was not as good as the Dark Magician Girl, and after being debuffed by the Apple Girl's spell, she was no match at all.

The Valkyrie warrior tried her best to swing her sword but was easily resolved by the Dark Magician Girl's staff. The Magician Girl blast out a magic light bullet with her backhand, dragging the surging cyclone and black electric current and hitting the body of the Valkyrie head-on. The latter was instantly sent flying and was blown to pieces in mid-air with a miserable grunt.

Siegfried, LP 2700 LP 1400

Well

Siegfried gritted his teeth and raised his hand to protect his face. His flamboyant long pink hair fluttered violently under the impact of the stereo image.

completely suppressed.

Although it seemed that he was always launching a fierce attack and Yuei Vu was just defending, but the pace was completely controlled by the opponent.

Ever since he came into contact with duel monster, Siegfried rarely had a rare defeat. He have never felt so powerless in his life.

I see, this is the strength of the Duel King?

Siegfrieds eyes froze, and he snorted.

Interesting, then it seems that I have to be more serious than usual. He revealed the card that was just dismissed, The effect of Valkyrie Vierte is activated!

When this card is destroyed by battle and sent to the graveyard, I can Special Summon a Valkyrie monster from the deck!

He opened the deck and quickly picked out the card he was looking for, and said with a sneer: This is the trump card that I have never used before, the most powerful Valkyrie!

Come out, Goddess of Wisdom, Valkyrie Erda!

The exit of the Valkyrie Vierte paved the way for the appearance of a more powerful goddess.

When the aurora appeared in midair, it was really like a goddess descending from the sky. The snow-white steed was striding in the air, carrying a heroic female warrior in red armor, her cloak fluttering up and down in the rippling aurora.

[Valkyrie Erda, ATK 2000]

The Valkyrie at level 8 was completely different from other Valkyries in her imposing manner and courage.

If the others have been fighters so far, this one was likely to be the commander.

It seems that this is your trump card? Yuei Vu said.

Thats right, she is also the strongest Valkyrie holding the fruit of victory in front of me. Siegfried smiled, The effect of the Valkyrie Erda is activated!

When this card was Special Summoned by the effect of a Valkyrie card, as long as it exists on the field, the ATK of all monsters on the opponents field decreases by 1000 points!

Erda on horseback swept across with her sword. The queen-like aura swept across the audience like a wave of air, instantly covering the audience, and putting enormous pressure on the Magician Girls on Yuei Vus side.

[Apple Magician Girl, ATK 1200 ATK 200]

[Dark Magician Girl, ATK 2000 ATK 1000]

[Kiwi Magician Girl, ATK 1800 ATK 800]

[Chocolate Magician Girl, ATK 1600 ATK 600]

The onlookers exclaimed again.

The attack power of all monsters is reduced by 1000 Isnt that equivalent to having an attack power of 3000?

Hiss~ Blue-Eyes White Dragon

The Battle Phase is still going on. Siegfried smiled and looked at the Dark Magician Girl, It seems that this magic little sister is the trump card of your deck. Lets start with her.

Valkyrie Erda, attack the Dark Magician Girl!

Erda let out a clear howl, and steered the steed to a sprint! She charged straight in front of the girl, and the blade swung down with a silver trail, straight to the girls snow-white neck!

The Dark Magician Girl bit her thin lips and raised her staff across her chest, but with her strength weakened, she felt helpless.

How angry, its rare to be able to fight side by side with Master, but my screentime ended before I could stand firm

The sharp sword fell, and the sword light flashed, and the girls figure disappeared immediately.

Siegfried showed a smug smile: Dark Magician Girl is defeated.

But then he realized something was wrong.

Not only did Yvei Vus LP not change, but also appeared from the position where the girls figure disappeared

two pigeons!?

Erda couldnt hit the Dark Magician Girls body at all.

What her sword split was a black magic hat that popped out of nowhere. The moment the hat was split in half, two pigeons flew out of the field, flapping their wings and cooing, as if to say No update today

It felt like magic.

Quick-Play Spell Magical Pigeon. Yvei Vu said, Return 1 Dark Magician Girl on my field to the hand, and special summon 2 Pigeon Tokens in Defense Position.

At the end of the turn, all Pigeon Tokens will be destroyed, and the Dark Magician Girl will return to the field.

[Pigeon Token, DEF 0] x2

The Dark Magician Girl who returned to her hand floated beside Yvei Vu in the form of a ghost, and patted her chest: Okay so dangerous, I thought it was impossible

Yvei Vu smiled slightly: You are my ace monster, how can I let you out so easily?

The Dark Magician Girl blushed slightly: Master

She has always felt that she was clumsy. As a duel monster, her attack power was not high, and she did not have any powerful effects. It was difficult to give much help to her master in a duel.

But now, for such a useless me, Master actually said that Im his ace monster!

While the girl was moved, she also clenched her staff tightly and made up her mind.

I must not let Master down!

Hmph, stupid. Siegfried shrugged, Then a Battle Replay occurred, and I will change the target of the attack. Erda, attack Apple Magician Girl!

The Valkyrie turned around, locked onto the red Magician Girl, and charged forward. The sharp sword easily broke through the girls line of defense, and the latter left the field with a low grunt.

Yuei Vu, LP 4000 LP 2200

Hmph, even for that troublesome Magician Girl, the effect can be used only once per turn. Siegfried sneered, Then there is another effect of Valkyrie Erda.

As long as Erda exists on the field, any card destroyed by battle or card effect that would be sent to the opponents GY is banished instead!

The Apple Magician Girl who had just entered the GY was immediately ejected from the Duel Disk. Yuei Vu took the card without saying a word and put it in the card box behind him.

Next is Valkyrie Erste! Siegfried continued to order, Attack the Kiwi Magician Girl!

When the voice fell, the first of the Valkyries had already rushed to the Magician Girl on a horse.

Although Kiwi Magician Girl was originally stronger than the enemy, now she was suppressed by Erdas effect. Therefore, after trying to resist, the magic circle in front of her was finally shattered, and her whole person was sent flying backward.

Kiwi Magician Girls body burst in mid-air, turning into countless dots of blue fluorescent light, which dissipated in the air.

Yuei Vu, LP 2200 LP 1400

In this way, my Battle Phase is over. Siegfried said, But my turn is not over yet. Here I will activate the effect of Valkyrie Erste again!

Once per turn, I can banish 1 monster from the opponents GY, then this cards ATK becomes equal to the banished monsters original ATK until the end of this turn.

I removed the Berry Magician Girl in your graveyard from the game!

The GY area of Yuei Vus Duel Disk was lit up with golden lights, and the image of the berry girl emerged out of thin air. Then the Valkyrie warrior swung her sword across the air, and the sword energy instantly split the girl into an illusory golden light that dissipated.

[Valkyrie Erste, ATK 1600 ATK 400]

In this way, the Magician Girls in your GY will also be cleared. Siegfried chuckled, Set two cards, I end my turn.

Then at the end of the turn, all the monsters that are Special Summoned by the effect of Ride of the Valkyries will return to my deck. (animation effect)

On the field, Valkyrie Erste and Valkyrie Zweite turned into golden light and shot into his deck one after another. Only Erda, who was Special Summoned by the effect of Valkyrie Vierte, remained on the field.

Siegfried took back two cards, pulled out the deck and shuffled the cards, and inserted them back into the Duel Disk.

At the same time, the two pigeons in Yuei Vu's field also cooed twice, and popped into a cloud of white smoke. The smoke dissipated, and the Dark Magician Girl returned to the field.

[Dark Magician Girl, ATK 2000 ATK 1000]

Hmph, a cute little Magician Girl can't beat my Valkyrie. Siegfried crossed his waist and sneered, How about it, does this make you a little more serious, Duel King?

Chapter 354: You Said... How Many Cards!?

Siegfried seemed very satisfied with his counterattack this turn: How about it, does this make you a little more serious, Duel King?

Yuei Vu shrugged indifferently: I've always been serious.

Hearing this light and casual tone, Siegfried couldn't help but frown uncomfortably.

This guy doesn't feel any sense of crisis up to this point?

My turn, draw. Yuei Vu immediately played a monster card after drawing a card, Here I want to summon the second Berry Magician Girl, also in attack position!

A transparent magic circle emerged, and the petite young female mage flew out flapping her butterfly-like wings, and the magic staff waved lightly in curves of magical power in her hand.

Siegfried frowned: It's this troublesome Magician Girl again but her attack power is also affected by Erda's effect.

[Berry Magician Girl, ATK 400 ATK 0]

Of course, for the berry girl who didn't rely on attack power to be effective, this attack reduction didn't matter at all.

Yuei Vu continued: The effect of the Berry Magician Girl when If this card is Normal Summoned: I can add 1 Magician Girl monster from my Deck to my hand. I chose the second Kiwi Magician Girl.

Then enter the Battle Phase! Dark Magician Girl, attack Valkyrie Erda!

The Dark Magician Girl was taken aback and immediately thought she had heard wrong. After all, the enemy's attack power was relatively high now.

"

"

But since her Master said so, it must be right to be obedient!

So the Dark Magician Girl straightened her face and flew straight towards Erda.

Did you forget? Siegfried frowned, The attack power of the Dark Magician Girl has dropped by 1000 due to the effect of Erda!

I know, so at this moment, I activate the effect of Kiwi Magician Girl in my hand! Yuei Vu quickly sent a card in his hand to the graveyard, Discard this card, and Magician Girl monsters I currently control gain 300 ATK and DEF for each Magician Girl monster with different names on the field and in the Graveyards, until the end of this turn!

The Berry Magician Girl, the Dark Magician Girl, the Chocolate Magician Girl on the field, and the Kiwi girl who had just been sent to the GY and appeared as a phantom joined their hands.

There are a total of four Magician Girls in my graveyard and on the field, so the attack power of the Dark Magician Girl has increased by 1200.

So that's how it is. In this way, the attack power of the Dark Magician Girl can reach 2200, which will in turn surpass my Valkyrie Erda

Siegfried gritted his teeth.

Then open the set card, Quick-Play Spell Pyramid Energy! This card can increase the ATK or DEF of all monsters on my field by 200!

I chose to increase the attack power of Valkyrie Erda by 200!

[Valkyrie Erda, ATK 2000 ATK 2200]

Hmph! Siegfried glared at the Dark Magician Girl opposite, At least this unsightly Magician Girl will be buried along with my Erda!

Yuei Vu smiled: That can't be done.

[Dark Magician Girl, ATK 2500]

Siegfried was shocked: Attack power 2500!? Why?

He squinted his eyes and took a closer look, and vaguely found an illusory image floating behind the Dark Magician Girl, a mage in a red robe and a green wand

Dark Magician!

Dark Magician Girl's effect She gains 300 ATK for every Dark Magician or Magician of Black Chaos in the GY, Yuei Vu said.

Only then did Siegfried remember that in the previous turn, Yuei Vu used the effect of Chocolate Magician Girl, discarding 1 Spellcaster-Type monster and then drawing a card

Was Dark Magician the card that was discarded at that time?

Waitwait a minute! Siegfried remembered something,

But you said before that the effect of the monster that is Special Summoned by the effect of Apple Magician Girl will be negated. So Dark Magician Girl

still has her effect. Yuei Vu shook his finger, Have you forgotten? The Dark Magician Girl that exists on my field is not Special Summoned by the effect of Apple Magician Girl.

Siegfried suddenly remembered. The Spell Card that Yuei Vu played in the last turn, Magical Pigeon, briefly returned the Dark Magician Girl to the hand, and then special summoned her back to the field at the end of the turn

That's right, because my Dark Magician Girl was Special Summoned back to the field through the effect of Magical Pigeon, so the status has also been reset. Yuei Vu said, According to the effect of the Dark Magician Girl, there is 1 Dark Magician in my GY, so her attack power increases by another 300!

[Dark Magician Girl, ATK 1000 ATK 2200 ATK 2500]

Siegfrieds expression changed suddenly.

With so many details and so many factors superimposed, the attack power of the Dark Magician Girl happened to be 300 points higher than his Valkyrie.

This guy is he so thoughtful?

The strength was reversed, and the spell of the Dark Magician Girl broke through the defense line of the Valkyrie in an instant. Erda was bombarded by the magic shell and flew upside down from the white horse, and was hit on the chest by the black magic and flew all the way far away. With a miserable cry, she exploded in mid-air like fireworks.

Siegfried, LP 1400 LP 1100

He gritted his teeth: Just playing dirty tricks

Elda is defeated, and her suppression effect will disappear! Yuei Vu shouted.

[Dark Magician Girl, ATK 2500 ATK 3500]

[Berry Magician Girl, ATK 1600]

[Chocolate Magician Girl, ATK 2800]

Berry Magician Girl! Yuei Vu waved, Attack directly!

The girl with a pacifier seemed to be very excited about her one day, but she was very excited about it. She flew up lightly with her small wings. As soon as the small staff dumped, the magic splashed toward Siegfrieds face.

The onlookers and screwball players have already begun to cheer, and they couldnt wait to announce the winner in advance!

Siegfried gritted his teeth: Open the set card: Trap Card Counter Gate! When an opponents monster declares a direct attack: Negate the attack, and I draw 1 card, then if it is a monster, immediately after this effect resolves, I can Normal Summon it in face-up Attack Position!

The spell bombardment of the berry girl was completely blocked by the transparent door transformed by the trap card. The girl withdrew her staff resentfully and flew back flapping her butterfly-like wings, her little mouth with a pacifier pouted, as if a little unhappy.

But this was also the draw that determined the fate of Siegfried. If he couldnt draw a monster, the next attack by the Chocolate Magician Girl would also make him lose.

But of course, as an opponent who could win against Jonouchi in the original work, and could be regarded as an opponent who has fought back and forth with President Kaiba, his Rank as a duelist must not be low.

So Yuei Vu could roughly guess the result here

Draw!

Siegfrieds eyes lit up, as if in a trance.

The card I drew is a monster card Noble Knight Joan!

[Noble Knight Joan, ATK 1900]

"

"

It was also a female monster, with blond hair and blue eyes, and white armor. The art style was somewhat similar to that of the Valkyrie, but she belonged to the Noble Knight series.

Yuei Vu automatically ignored the fact that a Joan of Arc was mixed into the Pure Valkyrie Deck and continued to wave.

Then the Chocolate Magician Girl, attack Noble Knight Joan!

The chocolate girl flapped her devilish wings and flew up, her long boots stepped on the black magic circle in mid-air, and with a wave of her arm, a dark spell surged out of the staff!

With the attack power increased to 2800, the Noble Knight Joan was naturally no match for the current chocolate girl. With just one blow, she was blasted to pieces by the girls spell.

Siegfried, LP 1100 LP 200

Did you actually survive? Yuei Vu drew out a card in his hand, Then set another card, and I end my turn. At the End Phase, the effect of the Kiwi Magician Girl disappears, and the attack power of the Magician Girls returns to the original.

Seeing his completely indifferent attitude, Siegfried couldnt help but get even more angry.

My turn!

Siegfried pulled out the next card vigorously, glanced at the cards in his hand, and then started laughing.

Yuei Vu: ?

Whats wrong with this kid? Does he go mad?

Or does he think that a wave of cosplaying President Kaiba here can improve his fashion value?

Yuei Vu! You are indeed very strong. I may have underestimated the weight of the word Duel KingBut! Your contempt for me will directly lead to irreparable destruction!

Siegfried looked confident, and sneered, showing the cards he had just drawn.

I activate Spell Card Nibelungs Treasure! Activate 1 Nibelungs Ring from my Deck on the opponents side of the field, equipping it to a monster they control. Then, draw 5 cards! (anime card)

Yuei Vu: 0.o

You said how many cards!?

I equip the Nibelungs Ring from the deck to the Dark Magician Girl, and then I draw five cards from the deck!

After the words fell, the equipment magic card had already appeared in Siegfried's field area. A silver ring flew out of it and involuntarily slipped onto the slender and soft fingers of the Dark Magician Girl.

The Dark Magician Girl let out an ah, as if feeling very uncomfortable, and tried hard to take off the ring, but it was so tight that she couldn't get it off.

[Dark Magician Girl, ATK 2300 ATK 2000]

Monsters equipped with the Nibelungs Ring cannot attack, be Tributed, or change their battle position, and their effect will be negated. Siegfried smiled, And as long as the Dark Magician Girl is on the field, you must draw 2 cards in your Draw Phase, and discard the drawn monster card to the Graveyard.

In other words, from now on you won't be able to draw new monster cards.

Chapter 355: Goddesses of Time

From now on, you will no longer be able to draw new monster cards. Siegfried smiled confidently, and his tone changed, However, considering that the opponent is you who has the title of Duel King, the more cautious I am, the better.

First, I use the Spell Card Pot of Greed, and I can draw two more cards from the deck. After drawing the card, Siegfried smiled slightly, Then these are the three cards that control time and space and determine your destiny!

He drew three cards in one breath, and quickly inserted them into the Duel Disk.

I want to activate these three Continuous Spell Cards! Come to my field, the three Norn goddesses who manipulate time!

Three Continuous Spell Cards appeared on his field at the same time, and holy light fell from the sky like a curtain. Three beautiful and energetic goddesses hold staffs inlaid with gemstones, slowly lowering them like fairies in a sacred and inviolable posture.

First of all, the effect of the Continuous Spell Goddess Skuld's Oracle is activated!

While Siegfried was speaking, a goddess with long blue twin-tails stepped forward, winking mischievously.

Once per turn, I can look at the top 3 cards of the opponent's Deck and return them to the top of the Deck in any order. (Animation Effect)

He held out his hand and made a please gesture.

Come on, let me see what's on top of your deck.

Yuei Vu calmly drew out the top three cards, and showed them to the other party with his back turned to himself.

Hey, this is really dangerous. Siegfried looked surprised, I will be in trouble if you draw this card next turn

He smiled.

Then right here, let me get rid of this threat first.

Siegfried adjusted the order of the three cards. Yuei Vu put the three cards back to the top of the deck in the order he instructed.

Next is the Continuous Spell Goddess Verdandes Guidance! Siegfried smiled, Skuld is the goddess of the future, while Verandi is the goddess of the present.

Once per turn, I can declare 1 type of card (Monster, Spell, or Trap); reveal the top card of the opponents Deck and if it was the declared type, they Set it to their field.

Siegfried raised his finger to point at the deck in Yuei Vus Duel Disk.

I declare that the top card in your deck is a Trap Card! And its the Mirror Force!

The onlookers were in an uproar.

Even passer-by NPCs discovered the mystery of this combo: The top card of the Duel King deck was just placed according to his intention! Of course, it will be the card he declared!

Yuei Vu silently pulled out the card at the top of the deck, turned it over, and saw that it was indeed Mirror Force.

Okay, put it on the field for me. Siegfried smiled.

Yuei Vu inserted the Trap Card into the Duel Disk, and there was an extra set card at his feet.

The last is the Continuous Spell Goddess Urds Verdict! Siegfried shouted, Once per turn, I can declare 1 card name, then target 1 Set card the opponent controls; reveal the Set card, and if it was the declared card, banish it.!

Having said that, he smiled slyly.

The card I want to declare, of course is that card! He pointed to the card that had just been set at Yuei Vus feet, That is the Mirror Force!

The set card was flipped, and of course, it was Mirror Force.

Hanois holy power didnt even have a chance to appear on the stage, as its fate was arranged by the opponent, and directly turned into a golden light and dissipated away from the field under the ruling of the three goddesses of time.

Its really dangerous. Siegfried said, If I dont activate the power of three goddesses of time this turn, you will draw the Mirror Force in the next turn, and all my monsters will be destroyed.

After a pause, he then showed a card in his hand.

Then the effect of Valkyrie Sigrun in the hand is activated! Siegfried shouted, This card can be Special Summoned directly from the hand by sending 1 face-up Spell/Trap I control to the graveyard!

I send the Goddess Verdandes Guidance to the GY, and special summon Valkyrie Sigrun!

A Continuous Spell in Siegfrieds back row disappeared, and the pink-haired goddess who was in charge of the present immediately turned into golden powder and dissipated.

The powder gathered together as if attracted, forming a vortex in the field area in front of Siegfried. A rainbow-like beam of light rose from it as if a bridge connected to the sky.

Holding a sharp gun and wearing purple armor, the Valkyrie warrior landed on a steed, majestic and majestic, and her flowing long hair seemed to be integrated with the black cloak.

[Valkyrie Sigrun, ATK 2200]

Sigruns effect! Siegfried waved his hand, If this card is Normal or Special Summoned: I can Special Summon 1 Level 8 or lower Valkyrie monster from my hand or GY.

Im going to choose this one.

Siegfried snorted, and a card popped out from the GY.

Resurrect from the depths of the underworld, and bring the fruits of victory to me again! Valkyrie Erda!

The red-armored Valkyrie, who just left the field in the last turn, returned to the battlefield on a steed. The defeat at the hands of the Magician Girl last time did not seem to dampen her spirit. The Valkyrie warrior had firm eyes and is full of energy, still like a sharp arrow ready to go.

[Valkyrie Erda, ATK 2000]

And of course, because of Erdas effect, Siegfried smiled, all your cute magical girls attack power must be reduced.

[Chocolate Magician Girl, ATK 1600 ATK 600]

[Dark Magician Girl, ATK 2000 ATK 1000]

[Berry Magician Girl, ATK 400 ATK 0]

Then its time to fight. Siegfried waved his hand and ordered, Valkyrie Sigrun, attack the Dark Magician Girl!

Siegfried was indeed very cautious here.

There were three Magician Girls on the Yuei Vu field, but he chose the Dark Magician Girl with the highest attack power to fight. Obviously, he was scared by the effects of other Magician Girls he had never seen before.

Now Siegfrieds LP was only 200, and he had no capital to continue stepping on the pit.

Its not unreasonable for him to be so cautious.

If attacking the Berry Magician Girl, she would automatically switch to Defense Position and special summon a new Magician Girl from the deck.

If attacking the Chocolate Magician Girl, she would special summon a Magician Girl from the graveyard and make the opponents monster forcefully attack the summoned monster with only half of its ATK.

If Siegfried rashly attacked the Chocolate Magician Girl at this time, he would lose at that moment.

Valkyrie Sigrun charged, dragging the howling wind, the white steed ran straight to the girl. The Valkyrie warrior raised the sword in her hand, the blade drew a white flash in the air, and pierced straight through the air!

The Dark Magician Girl took two steps back subconsciously and put the small staff across her chest, but she also knew clearly that it was impossible for her to defend against this blow in her weakened state

Open the set card! Yuei Vu said, Trap Card Half Unbreak! Target 1 monster on the field; this turn, that monster cannot be destroyed by battle, also any battle damage I take from attacks involving that monster is halved!

What I want to protect is the Dark Magician Girl!

A layer of milky white transparent bubbles protected the Dark Magician Girl in the middle. Sigruns aggressive sword slashed at the protective cover. Although the aftermath of the impact caused damage, it still failed to penetrate the defense line constructed by the trap card.

Yuei Vu, LP 1400 LP 800

Then I use Valkyrie Erda to continue to attack! Siegfried said, The target of the attack is still the Dark Magician Girl!

The second Valkyrie charged. The white steed galloped in front of the Magician Girl, and the sharp sword slammed down on the shield. Although it still failed to hurt the girl protected within, it still caused a certain amount of combat damage.

Yuei Vu, LP 800 LP 300

And with that, my Battle Phase is over.

Siegfried took out the remaining three cards in his hand, glanced at them, and took a deep breath as if he had seen the route leading to victory.

The next round will decide the outcome!

Siegfried waved his arm, and there were three more cards at his feet: Set three cards, I end my turn.

Then its my turn

At this moment! The effect of the Nibelungs Ring equipped on the Dark Magician Girl is activated! Siegfried sneered, You can draw two cards during the Draw Phase, but if there is a monster card among them, you have to discard it.

Siegfried gently closed his eyes, with a coquettish and awkward expression, pretending to be in control.

Of course, I put back the two cards you will draw next. So I can tell you in advance that there is indeed a monster card among them.

Yuei Vu drew two cards, picked them up, and as expected, one of them was Apple Magician Girl.

Okay. Siegfried folded his arms, Discard that card.

Without saying a word, Yuei Vu silently discarded the Apple Magician Girl to the GY of the Duel Disk.

The NPCs among the onlookers started to chat.

This is too shameless!

In this way, wont he be able to draw monster cards?

Not only that, but the cards drawn are all arranged in advance, how can he continue to play?

This person is not so strong! Look like the situation of the Duel King is a little bad

Seeming to be flattered by the passers-by, Siegfried couldnt help laughing out loud, as if he already felt that he had a chance to win.

However

Yuei Vu sent Apple Magician Girl to the GY, added the remaining card to his hand, and said lightly: Its almost over. Ill finish you in this turn.

Siegfried: !?

"

"

Chapter 356: Everything Is Useless

Yuei Vu waved his hand after drawing the card and first pointed at the chocolate girl on his field.

First, the effect of Chocolate Magician Girl is activated! Once per turn, I can discard 1 Spellcaster-Type monster; draw 1 card!

Seeing Yuei Vu discarding the card in his hand and drawing a new card from the deck, Siegfried couldnt help but frown.

If the card was drawn through the monster effect, it was indeed possible to avoid the blockade of his Continuous Spell Card.

In the last turn, the three cards that Siegfried checked through the effect of Goddess Skulds Oracle were Mirror Force which was removed from the game, Apple Magician Girl which was discarded just now and a third card which was added to Yuei Vus hand.

In other words, the fourth card that Yuei Vu drew through the chocolate girls effect was beyond his control from this moment on.

Siegfried didnt like this feeling.

Then its time to go! I will sacrifice the Berry Magician Girl on the field! Yuei Vu raised a card in his hand, Summon the silent mage who is proficient in the magic of light

Silent Magician!

The snow-like white magic circle is so holy that it is almost impossible to look directly at the holy light. A petite girl in a large robe slowly stepped out of the circle, holding a staff in her white-gloved hands, which were embedded with kind blue diamonds.

[Silent Magician, ATK 1000]

All the players exploded on the spot, and a series of AWSL shouts came and went.

Honey Im here!

Go eat sh*t! Didnt you just say that the Dark Magician Girl is your only true love?

Only children will choose. An adult will take them all.

The screwballs were noisily shoving and shoving, trying to gain a sense of presence in front of the Silent Magician.

The silent girl in loli form tilted her head, looked at the group of people in confusion, and might be thinking in her mind

Do we know each other?

However, she didnt expect that she just tilted her head like this, and all the screwballs reacted more violently one by one, and there was a sour smell of lemon in the air

Siegfried frowned: I dont know what I want to do, but this kind of underdeveloped kid cant beat my Valkyrie. Moreover, her attack power will also be reduced due to the effect of Valkyrie Erda !

[Silent Magician, ATK 1000 ATK 0]

The Silent Magician blinked her big eyes expressionlessly as if she was not at all angry at the other party calling her an underdeveloped kid .

But Silent Magician gains 500 ATK for each card in the hand. I have two cards in my hand, so the attack power will increase by 1000 points.

[Silent Magician, ATK 0 ATK 1000]

"

"

Siegfried snorted coldly: Even with this kind of attack power

Battle! Yuei Vu raised his hand, Silent Magician, attack Valkyrie Erda!

Siegfrieds face changed suddenly: Are you crazy!?! Erdas attack power is 2000, you are looking for death!

But the battle had already happened, and the silver-haired magician rushed straight out after receiving the command from her master without any hesitation, and went toward the direction of the Valkyrie!

Siegfried felt that his breathing became short, and cold sweat fell down his cheeks. But he was still stubborn: Hmph, then I will fulfill your death wish! Erda, counterattack!

The steed under the seat of Valkyrie neighed. Then Valkyrie Erda fought back fearlessly, and the sword light pierced through the air, cutting straight to the silver-haired girls face!

At this moment, I activate Quick-Play Spell Silent Burning! Yuei Vu waved his hand, and a Spell Card happened to appear at the position behind Silent Magician.

This card can only be activated if there is a Silent Magician on the field, and it can be activated during the Battle Phase when I have more cards in the hand than the opponent! Yuei Vu said, Both players draw until they have 6 cards in their hand!

Draw until have 6 cards Siegfrieds eyelids twitched, and he instantly realized something was wrong, Oops, the effect of this little girl is

That's right, the attack power of the Silent Magician will increase by 500 for each card in the player's hand! Yuei Vu said, With six cards in my hand, the attack power of the Silent Magician will increase by 3000!

3000 ATK If the battle is established, I will be defeated instantly. I see, is this your plan? But it's not that easy!

Siegfried raised his voice and waved his arm: Counter Trap Magic Drain! It can only be activated when the opponent activates a Spell Card. Negate the activation and destroy that card!

However, the opponent can also negate this effect by discarding a Spell Card in their hand.

Siegfried narrowed his eyes and looked directly at the last card left in Yuei Vu's hand.

The last card in Yuei Vu's hand was really not a Spell Card.

However

The Magic Drain that had just been flipped on Siegfried's field suddenly encountered some great resistance. The card surface was surrounded by a powerful magic halo, and with a crackling electric current, it exploded into pieces with a bang.

What!?! Siegfried was astonished, You obviously didn't discard any Spell Card, why

Silent Burning is the strongest stunt of a Silent Magician, and belongs to the highest level of high-level magic. Yuei Vu said, This card's activation and effect cannot be negated!

So both of us will draw!

With the replenishment of cards in the hand, the posture of the Silent Magician on the field also began to change rapidly. She began to develop at a speed visible to everyone's naked eyes, her height rose rapidly, and the chest part of the robe swelled up exaggeratedly. A pair of white and slender legs loomed under the wide and flowing robe, which unzipped thousands of pants

[Silent Magician, ATK 1000 ATK 3000]

The strength was reversed, and the magician who evolved into the busty posture immediately suppressed the Valkyrie!

A storm of light was brewing on the white staff, and just one blow was enough to destroy the Valkyrie Erda, and directly pronounced the defeat of Siegfried!

But Siegfried hasn't surrendered yet!

Then I activate my set card: Quick-Play Spell Offerings to the Doomed! Siegfried shouted, Destroy a monster on the opponent's field, then I have to skip my next Draw Phase!

What I want to destroy, of course, is the Silent Magician!

The card appeared, and the evil magic power suddenly broke into the decisive battle between the magician and the Valkyrie, and surrounded the silver-haired magician without any explanation!

Siegfried sneered softly: Goodbye, short-lived Miss Magician.

Yuei Vu waved: It's useless!

The silver-haired magician didn't panic in the face of the erosion of the pitch-black power, her expression was still as cold as usual, and she didn't say a word. She just swiped the wand in the air, and the holy magic power surged out, twisting the evil power in the blink of an eye.

Siegfried couldn't help being even more astonished: Why!?

As I said, the Silent Magician is the top magician, and her attainments in magic have reached the pinnacle. In some fields, even Dark Magicians can't match. Yuei Vu smiled, Magic is useless to her.

Hearing this, the Dark Magician Girl on the side pouted her lips.

Our line of black magic is actually very powerful

The effect of the Silent Magician! Yuei Vu said, Once per turn, during either player's turn, when a Spell Card is activated, it can negate the activation of that card!

After clearing away the obstacles of intrusion, the battle continued. The Silent Magician turned her head and re-prepared to deal with the enemy in front of her. The Valkyrie warrior was facing the enemy, with a horizontal sword in her chest, ready to use all her life's knowledge to take the coming blow

At this time, Siegfried looked at the Silent Magician with no contempt anymore.

It seems that this girl is indeed a powerful magician. You are a quite terrifying opponent, Duel King! Siegfried's eyes narrowed, and his voice suddenly raised, But I will still be the one who wins!

He presses the button on the Duel Disk, and with a flick of his arm, the final set card flipped.

Open the set card! Trap Card Ambush Shield! Siegfried shouted, Tribute 1 monster. Select 1 monster on the field. It gains ATK equal to the DEF of the Tributed monster! (animation card)

He pointed at the Valkyrie Sigrun, who was staying behind.

Sigrun! Dedicate your soul to victory and become the sword of Erda!

The Valkyrie warrior let out a clear whistle, then Sigrun and her horse dissipated into blue light spots under the effect of the trap. The light spots all over the sky gathered around Erda and landed on the silver long sword. Under its blessing, the strength was immediately increased!

[Valkyrie Erda, ATK 2000 ATK 4400]

The NPC onlookers were stunned.

Attack power 4400!?

What is the background of this person? Is there still a way to fight back at this point?

Siegfried laughed.

Is it finally regretting that you underestimated me, Siegfried? But even if you want to be serious now, it's too late, Duel King!

Siegfried's eyes widened, his face almost distorted.

This is the end!

He won!

He defeated the Duel King the Kaiba Corps Duel King, in public!

At this moment, Siegfried seemed to have seen the scene where the reputation of Kaiba Corp continued to decline, while their Schroeder Corp rose to the top.

Next, he only needed to defeat Seto Kaiba in the KC Grand Prix he thought it should be an easy task for himself who defeated the Duel King and then use that opportunity to hack the main computer of the Kaiba Corp. If he could take this opportunity to overthrow the Kaiba Corp in one fell swoop, there was no doubt that his company could take advantage of it to become the new trend in the world of dueling monsters!

However, at this moment of excitement, the moment when the Valkyries sword and the magicians magic circle were about to collide, Siegfried actually seemed to see Yuei Vu laughing?

Thats not necessarily true. Yuei Vu said calmly.

Siegfried: !?

I pay half of my LP. Yuei Vu played a card in his hand, Activate a trap card from the hand! Counter Trap Red Reboot!

Yuei Vu, LP 300 LP 150

Siegfried and all the onlookers NPC were shocked: Activate a trap card from the hand!?

This time, even the players were so shocked that they almost jumped up.

Red Reboot! The fucking Red Reboot!

Im so shocked that Yuei Vu-san even has a Red Reboot!

Red Reboot can only be activated when the opponent activates a Trap Card. Moreover, I can activate this card from my hand by paying half my LP. Yuei Vu said, Negate the activation of your Trap Card, and Set that card face-down, then you can Set 1 other Trap directly from your Deck.

However, for the rest of this turn, you cannot activate Trap Cards!

Siegfried: What!?!??

[Valkyrie Erda, ATK 4400 ATK 2000]

His last resort, his final counterattack, was also resolved. The activation of the trap was invalidated, and Erdas attack power returned to its original state. The Valkyries sword bounced off the magic circle with a crisp sound, and the blade was thrown out of the hand under the counter-shock force.

The Silent Magician knocked the opponents weapon away with one blow and raised her wand to counterattack. A storm of light rolled up on the diamond inlaid on the staff, and the whirlwind blasted out with howling beams of light, flooding and tearing the body of the Valkyrie like a rushing frenzy

Ughhhhhh!!!

Siegfried, LP 200 LP 0

Chapter 357: Have We Met?

Siegfried, LP 0

Siegfried stared blankly at the Valkyrie who fell in front of him, and watched the cold white-robed mage retract her staff expressionlessly, turn around and walk away with a flick of her robe, and couldn't help being dumbfounded for a while.

Did I lose?

Such a perfect arrangement, with so many lines of defense, and so many counterattacks I prepared

Why are all of them useless in front of the other party!?

No, if it's really just a defeat, then that's fine. After all, the opponent is the Duel King, and I didn't have the confidence of 100% win from the beginning.

But the key question is

He didn't even show his real deck!

Is there a problem with my performance?

Thinking about it, Siegfried found that may be not the case.

If he had to say it, Siegfried felt that he had already performed beyond his level today. His tactics today were obviously better than before, and his luck today was better than ever before!

But he still lost.

Even until the duel was over and the LP was zero, the feeling of being slighted still lingered.

He was sweating profusely and exhausted, but he didn't respond at all and even looked like he wanted to yawn a little.

Is my dueling skill really that bad!?

This made Siegfried, who has always been full of confidence and thought that Yugi and Kaiba are nothing more than this, a little bit mentally exploded

At this time, passers-by NPCs and onlookers also lost interest in this opponent to foil the Duel King.

Passers-by were excitedly discussing Yuei Vu's operation and counterattack just now, discussing the characteristics and tactical style of this cute girl deck with the theme of Magician Girl.

And the players

The players were discussing the size of the Silent Magician

A group of screwballs was as excited as chicken blood at the moment. It seems that their wallets are already hungry and thirsty.

Well, that's right, it's the wives. They didn't want to leave any magical girl behind

Yuei Vu also heard that the screwball had already started targeting his silent sister.

Yuei Vu glanced at the Silent Magician in ghost form and chuckled inwardly.

"

"

Continue to dream, folks.

Even if you break your head, there will be no such card in the store.

The Silent Magician, who finished her work, has now returned to his loli form. She didnt seem to care about others talking about herself, she just stood quietly by the side and rubbed Kuriboh.

It might be that she was really good at massaging. The Kuriboh narrowed its eyes and couldnt help but let out a comfortable cry:

Ku~ri~

On the roof at the side, Kaiba and Mokuba had also received the news at some point and watched the whole process here.

Yuei Vu is really strong! Mokuba praised without hesitation, He didnt even use the HERO deck, yet still beat that pink-haired guy!

Kaiba turned his nostrils to the sky: Hmph! Thats nonsense!

After all, he hasnt been able to take that mans first blood yet!

This unscrupulous pink-haired coquettish slut, what could he possibly do?

Lets go, Mokuba. Kaiba turned around and flicked the white windbreaker.

Mokuba was stunned: Eh? Go back?

Go down. Kaiba said concisely, Go meet that guy.

oh oh.

So after a while, Kaiba brought Mokuba to the street and appeared in front of Siegfried with the posture of a superior.

Siegfried couldnt help frowning the moment he saw him, and his already bad mood couldnt help but get worse.

This was completely different from the reunion scene he expected.

According to his plan, he should stand in front of Kaiba as a victor. In the worst case, he should have been a competitor that threatened the survival of Kaiba Corp, be considered as Kaibas equal.

Being defeated by Yuei Vu under the watchful eyes of the public, the reunion in this situation would make him feel as if he has become a loser, a clown who has nothing to do.

Of course, its a pity that Yuei Vu couldnt guess his inner thoughts.

In any case, as a competitor, the mentality must still be calm.

"

"

At this time, if he lost momentum, he really lost.

So Siegfried straightened his waist, pretending not to care about the duel just now, put his right hand into the pocket of the flamboyant pink suit, and snorted softly: Laugh if you want to, President Kaiba Seto.

Kaiba squinted his eyes, gave him a contemptuous glance, and then

Hahahahaha!!!!!!

The president folded his arms, raised his head to the sky, and laughed in a standard three-stage manner, with a loud voice, wishing that players passing by a street would know that the president himself had arrived in person.

Moreover, President Kaiba's lung capacity was also extraordinary by visual inspection. He doesn't take a breath after a series of laughs. It seemed that the longer he laughs, the happier he is

Siegfried's face was darkened.

You are laughing for real?

Don't you feel ashamed?

But with the president's smile, Siegfried's already vain aura suddenly collapsed.

It could be seen from this that the president's signature stunt sometimes works really well-provided. As an old saying: As long as I don't feel awkward, the awkward ones are the others.

Siegfried tried his best to pull himself together, and still forced himself to show a calm smile: I haven't seen you for many years, President Kaiba, but your style is still energetic as usual. No, it seems that you are more energetic than before.

Huh, it's a matter of course. Single-handedly planned the transformation of a behemoth like Kaiba Company, and climbed to its current position by relying on strength. You are no longer the same as you were back then, Kaiba.

Unexpectedly, after hearing his words, Kaiba frowned for a moment, thought for a while then turned to Mokuba beside him.

Mokuba, have we met this person?

Mokuba also had a blank face, and shook his head: I have no impression.

The image that Siegfried worked so hard to maintain almost collapsed, almost spurring out a mouthful of blood.

It turns out that this guy doesn't even remember who I am!?

Yuei Vu on the side almost didn't laugh out loud.

You couldn't blame the president, Yuei Vu never mentioned Siegfried to him.

President Kaiba may have come here to watch the play simply because he heard that Yuei Vu was playing cards with a well-known guy on the street.

In fact, he had no idea where this pink-haired guy came from, what he wanted to do.

Siegfried finally couldn't maintain a calm image, he said with a gloomy face, Schroeder Corp, does this name impress you a little bit?

You took everything from me, Kaiba! The prestige of our family, our estate, and my father!

Kaiba crossed his arms and snorted, Another barking dog? I dont have the time to remember the names of all the losers.

Yes, the president really couldnt remember who this guy was, but this did not prevent the president from mocking

Siegfried gritted his teeth: You

Ah, I seem to have an impression. Mokuba said, The Schroeder Corpis a consortium that used to compete with Kaiba Corp in producing weapons. But it seems that because it was suppressed by Kaiba Corp, has withdrawn from the arms industry under the hands of a new leader.

I remember seeing it in a magazine, saying that their new leader is a young genius, a famous European aristocratic beauty

Hearing this, Siegfried immediately felt a little more face, and unconsciously straightened his back, showing an elegant and confident smile, and even couldnt help but want to take out the rose in his pocket and pretend to be aggressive. ..

At this time, he heard the screwballs next to me start talking.

A famous European aristocratic beauty? This guy?

No matter how I look, this is a girl, right?

Not even a tenth of Yuei Vu-sans!

Dont be too demanding, after all, there is no one who is more good-looking than Yuei Vu-san

Damn, you are too cunning to take the opportunity to lick Yuei Vus boot again! Get out of the way and see how eloquent I am!

Then Ill be double-tongued!

Siegfried:#

He wanted to complain a long time ago, whats the situation with this bunch of screwballs?

Are they clowns who are invited to make fun of me?

Oh? Its you? The president seemed to have finally remembered the other party.

Its me. Siegfried smiled, Long time no see, President Kaiba.

Although the name Schroeder Corp has disappeared for a while, it did have disputes with Kaiba Corp in the past.

Knowing the identity of the other party, with the IQ of President Kaiba, he naturally figured out the ins and outs of the matter in an instant and even guessed why Yuei Vu and the other party played this game here.

He couldnt help squinting at Yuei Vu.

Hmph, mind your own business! Only do some redundant things for our company!

[Favourability +1, +1, +1]

Yuei Vu:

Chapter 358: Perfectly Mixed In

When a person came back to seek revenge after decades of planning and hard-working, the cruelest thing you could do was not to beat him up to let him know that his efforts were futile, but to beat him up then asked blankly: Who are you? Have we met?

This was what Siegfried was facing now.

He regards Seto Kaiba as his greatest enemy in life, his nemesis, the biggest obstacle to the rise of his family and company, and has been doing his best to bring down Kaiba for so many years.

As a result, now he found out that everything was just his own wishful thinking, and the other party had no impression of him

Its a pity that Siegfried at that time was not a good card player, otherwise, even if Kaiba only met him once when he was very young, the president would definitely not be able to forget any player who played cards well.

Take Yuei Vu for example. Not to mention that they havent seen each other for a few years, even if Yuei Vu turned into ashes, the president might still be able to recognize him

Finally, the president remembered, and Siegfried put his pose in order to save his face, but he didnt expect Kaiba to raise his head and burst out laughing hahahaha, which made Siegfried dumbfounded.

Who did I think it was? It turned out to be you, a lost dog. Kaiba continued to mock, The loser who has been completely suppressed by the Kaiba Corp from the arms to the game industry, the name of such a small character is not qualified for me to remember.

Siegfried (almost spat another mouthful of blood): You

The words were not speculative, and Siegfried, who had been defeated in the duel and was in a disadvantaged position, lost his temper at the moment. He snorted heavily, turned his head, and left after saying a few unnutritious harsh words.

Not only did he fail to get into the KC Grand Prix competition, but his intentions and whereabouts were also exposed. In this way, all his plans so far will be in vain, and he must find another way.

After the other party left, President Kaiba turned his head and said to his younger brother: Mokuba, go back and pay attention to the movements of the Schroeder Corp. Let this guy, and everyone who is secretly planning Kaiba Corp know what will happen to them !

Yes, brother. Mokuba nodded.

After this adjustment, the threat of Siegfried is much smaller than in the original work.

In the animation, as the boss of the KC Grand Prix arc, he can cause so much trouble to the Kaiba Corp, mainly because of the element of surprise. Kaiba didnt even know who his opponent was.

But if Kaiba was on guard now, although Siegfried would certainly cause trouble, the threat was not that great anymore.

After the KC Grand Prix, it must not be difficult for Kaiba Corp to acquire the fallen Schroeder Corp.

Yuei Vu could be regarded as pulling out a small nail for Kaiba Corp. Siegfried was proficient in dueling and hacking techniques. If this guy was really allowed to do things in the dark, the Kaiba Corp in this stall may really capsize.

However, President Kaiba not only said nothing about this but also turned his head and glared at Yuei Vu.

But Yuei Vu was already used to this. After all, the president is such a person. When he owed you favors, he was so embarrassed that he didnt say a word, but in fact, he would never forget

However, Kaiba had only taken two steps before he paused and suddenly remembered something.

The deck that Siegfried developed independently, the Valkyrie series. Kaiba said to Mokuba coldly, When we solve their Schroeder Corp, get a set and keep it in the companys card inventory.

A certain Duel King, who was secretly thinking about how to get Siegfrieds Valkyrie deck, looked up in surprise.

!

He was thinking just now that the current strength of the Valkyrie deck seems to be passable, and there are a few animation cards in it that are as strong as fake cards. Whats more important was that the Valkyrie girls were all well-dressed and had good figures, which must be a good market for screwball players.

Yuei Vu was still thinking about how to find an opportunity to mention it, but President Kaiba actually solved this problem for him with one sentence.

Things that entered the Kaiba Corps card library, doesnt that mean they belong to me?

President is awesome!

In just half a day, Yuei Vu saw a video made by the well-known streamer in the player forum, and the content was the duel between Yuei Vu and Siegfried.

With her excellent editing and soundtrack as always, and more importantly, the magical commentary, the number of views of the video has been rising all the way, and it has broken through six figures in less than an hour after it was released.

The bottom of the post was full of comments and comments from players who couldnt wait to chop their hands to be.

Damned designers, shut up and take my money!

When will the wives card pool be opened?

My roommate wanted to open a Chocolate Magician Girl before he died

Yuei Vu was satisfied with the effect of this advertisement, very satisfied.

Of course, even so, he didnt intend to rush to release the Magician Girl pack for a while.

One was because he has just gotten this series, and the number of cards in inventory was not very sufficient.

The second was because, not long ago, he just released the Six Samurai pack, and the sales were still rising.

After all, it took time for players to earn crystals.

Thinking of this, Yuei Vu suddenly felt that Siegfried is actually a good tool man.

In fact, the dueling level of this guy was not bad, and it was not easy to find an opponent like this who was durable enough to fight and has a show effect.

It would be great if he could come here often. Yuei Vu sighed in his heart.

Truly successful people should be indomitable and stand up wherever they fall.

How could you stop fighting after losing once?

If he was not convinced, come to challenge a few more times, Yuei Vu could change a few more decks and abuse him a few more times, and advertise a few more series by the way.

Alas, that's all, what an ineffective villain.

Yuei Vu shook his head, expressing regret.

Get rid of the obstacle of Siegfried, and the KC Grand Prix would officially begin.

First of all, in order to decide the players who can go to Kaiba Land to participate in the rematch, two-day qualifiers have started all over the world.

Only those duelists who have been recognized by Kaiba Corp and have a certain level of strength were eligible to participate.

Siegfried, who wanted to make trouble, was naturally disqualified by the organizer.

To Yuei Vu's surprise, he had already told President Kaiba that Siegfried had a younger brother named Leon von Schroeder who might also participate in this competition under the alias of Leon Wilson, so it was recommended to reject that guy directly.

But President Kaiba didn't listen.

The president has seen Siegfried's younger brother's resume and his experience in attending various dueling conferences, and seems to think that this kid is different from his brother who liked to play tricks, and was a real duelist, so he waved his hand and allowed him to enter the competition.

Conspiracy? If he dares to come, just come! The president turned his nostrils up when he spoke, if he does that, he will only realize his own stupidity!

Yuei Vu:

Well, since the president has said so, then Yuei Vu naturally has nothing to say.

When Judai heard that there was a card game, he immediately became fascinated.

Eh? KC Grand Prix, I seem to have heard of it when I was in Duel Academy. Judai sighed, That's great, if only I could participate.

For a card player, the cruelest thing was that everyone was playing cards in full swing, and he could only watch.

To appear in such a large-scale competition, wouldn't it be a rewrite of the past? Yubel in the spirit state said behind him.

Yusei remained silent as usual, but he also agreed.

He came back to this era precisely because Paradox modified the past and the timeline he was in began to collapse.

Precisely because they didnt want this trip to have too much impact on the past history, geniuses such as Judai and Yusei didnt go out much.

On this point, the opinions of the two of them were basically the same.

However, if you wanted Yuei vu to say

Actually, he felt that compared with the original story of Yu-Gi-Oh, the history has already been ruined, so as long as it was not grand scale things like erasing duel monsters from history, it didnt matter if the timeline was modified a bit

But Yuei Vu had a bold idea.

If you want to go to the Grand Prix, its not impossible.

Ah? Judais eyes lit up, Is there a way, Yuei Vu-sensei?

Yuei Vu silently opened the contribution point exchange mall for the faction battle.

One million contribution points were exchanged for The Eye of Timaeus, and most of the rest were exchanged for occasionally used cards or crystals, but even so, he still had a lot to spare.

So heres where his remaining contribution points come into play.

After a while, Judai and Yusei, two Duel Kings, two protagonists from different eras, held a rabbit headgear in one hand and a unicorn headgear in the other, and couldnt help being a little dazed.

Judai expressed doubts: Isnt it strange to wear this?

No, no. Yuei Vu waved his hand, The venue for the final is in Kaiba Land, an amusement park. Whats the problem with dressing casually?

And theres still half a sentence he hasnt said yet.

In fact, even if you usually wear these things to go out, its no big deal.

After all, there are many people wearing this thing on the street now

The KC Grand Prix was about to open, and it was certainly impossible for Judai and Yusei to stay here forever.

After all, he knew Paradox was lurking somewhere and ready to make trouble at any time. With these two, the safety factor of the competition would be much higher.

If there was any other problem in the middle of the game, the two big shots might help to settle it.

Now that Yuei Vu-sensei has said so, as his student, Judai naturally had no objection.

He didnt care if he dressed a little weirdly, as long as he could join in the fun.

As for Yusei, he had no opinion.

Yusei said: You were all bosses, you had the final say, and I was just a newbie

Obey the seniors arrangement. JPG.

Chapter 359: Gimmick HERO VS Autistic

The qualifiers for the KC Grand Prix have been in full swing for the past two days.

Players from all over the world actively signed up and participated in the pre-selection process. For a while, the forums in the game were full of enthusiasm.

All regions were fiercely competing, and the scope was too wide, so it was impossible for Yuei Vu to have the time to pay attention to all of them.

However, he still paid attention to the situation of Dominos local qualifier when he had free time.

Because of the advantages of creating the account earlier and having experienced more main storylines, the players in the Domino area certainly have greater advantages than the players who entered later.

In contrast, players in the outer areas may still be stuck with only a few fixed early-stage builds, while Dominos high-end players have begun to explore their own unique decks with limited combinations.

Yuei Vu took the time to look at the qualifiers and indeed saw some fresh constructions.

Sure enough, the imagination of card players was endless. Some of the players own constructions were sometimes eye-opening-especially for NPCs native to the game world.

Some NPCs who were used to honestly summon high-level monsters by Tributes were immediately stunned by the unheard-of routines of the players.

What? Can you still play cards like this?

Sometimes seeing some extremely unreasonable (in their opinion) operations of the players, yet achieving unexpected results, the NPCs all frown, and they just wanted to say that it was wrong for you to play cards like this, but they couldn't say where was wrong

Of course, the top players may not get many advantages from the top local NPCs.

First of all, the biggest and most unavoidable problem for players when building a deck was the dead draw.

Perhaps the high-ranking meta decks in the real world can resolve this problem to the greatest extent by relying on their excellent card earning and searching capabilities, but now that the card pool was severely limited, the primary problem with any deck that players created was the high chance of a brick hand.

Once such an accident happened, none of the six cards in the starting hand could be used, they could even be defeated by a miscellaneous fish NPC on the side of the road.

In addition, when fighting against strong players among NPCs, one of the biggest disadvantages of players is that they can draw

Players only had one chance to legally perform a divine draw per game, and that was the Destiny Draw. However, this magical draw not only needed to meet the disadvantageous conditions to trigger it, but it was also very rigid.

After all, the only thing that could be drawn was the pre-set card, but no one could guarantee that it would give them the chance to make a comeback.

But high-level NPCs were different.

Not only was the divine draw not a fixed card, but they also didnt even know what it was before it was drawn. However, as long as there was one breath left, they could always find a way to turn things around.

As the little leek who licked the hardest by his side, Yuei Vu still paid attention to Snow Waves promotion.

With Snow Waves upgrade speed and resources, in fact, he could have produced several decks long ago.

But he didnt, he was still loyal to the HERO series.

This guy was relying on his high luck, and the occasional help of Yei Vu behind the scenes intentionally or unintentionally, to collect a gimmick HERO deck. Otherwise, HERO was simply not affordable for players at this stage.

But Snow Wave didnt think so. Snow Wave thinks the most important thing was that among all the players who played the HERO deck, only he has the most complete one. It was the proof of his identity as the head of Yuei Vus fan club, and it was his pride!

He had already made a silent decision in his heart.

Even if I, Snow Wave, starved to death, and couldnt afford food or housing, I still wanted to be a hero!

Yuei Vu observed for a while and found that although the tool man next to him usually only gave him the impression of being very lucky and very good at bootlicking, his dueling skill seemed to be fine?

Snow Wave basically won the whole process of the qualifiers, and from Yuei Vus point of view, his skill was actually not bad. Its just that he liked to play gimmick decks, which gave people a very harmonious illusion

Speaking of which, to some extent, gimmick players may not necessarily be worse than meta-competitive players.

This was very realistic and normal. Its not that Yuei Vu himself has never tried join the dark side in the past. However, after playing meta decks for a while, he found that he almost couldnt do gimmicks when he came back.

For players who were spoiled by those meta decks with strong card-earning abilities and super-powerful swarming abilities, even three-for-two was a big loss.

In the last match of the qualifiers, Snow Wave unexpectedly bumped into one of his own kind Native Noragami.

This game was already considered a fight between top players.

The two sides in the war were the representatives of Free To Play hardcore players and Pay To Win premium players. One side was the heroes of justice and light, and the other was the nether traps of darkness

To be reasonable, no matter how rich Native Noragami was, some specific cards could not be earned without Yuei Vus favorability.

And his upgrade speed was far from Snow Waves.

However, the resistance ability of Elemental HEROes was really mediocre. Snow Wave was pitted one after another. If it wasn't for the restrictions of the game system, he almost wanted to summon himself to beat people on the spot

Snow Waves big monsters such as Flame Wingman and Great Tornado fell down one after another. At the critical moment of life and death, he firmly believed in the bond between himself and the deck, and Heart of the Cards responded

he got a piece of Elemental HERO Wildheart!

Elemental HERO Wildheart, a low-level hero with only 1500 attack power, but had a strong resistance unaffected by the effect of trap cards, which could be called the nemesis of players!

Sure enough, when he saw this wild hero appearing on the stage, Native Noragami became stupid in an instant, pointing at Snow Wave from the air and yelling something like immoral, you know how to play cards with me, and deliberately stuffed three Wildheart in the deck, prepare to trick your old comrade, do you have a heart?, etc,

Brother Noragami did not feel so good.

So Wildheart directly ignored Brother Noragami's two set cards, flew up, and stabbed him in the forehead.

Noragami's hand was full of pits, and he couldn't draw any of the monsters. For two consecutive rounds, he received two direct hits from the wild hero, and took a total of 3000 points of damage.

In the next turn, if nothing changed, his last 1000LP would also be taken away by Wildheart!

Native Noragami prayed in his heart.

He has never regretted it as much as now. There were almost no monsters in his full-trap deck.

As long as I bring a monster, even a cannon fodder such as Sparkman, I will beat this damned Wildheart down

Chapter 360: The Last Match of The Qualifiers

The final match between Snow Wave and Native Noragami also attracted Yuei Vus interest.

This reminded him of his previous life when he followed a group of players with armless and legless decks and played in full swing. It should be called the Paralympic Games

It's just that there was no conscientious NPC like him in the game at that time, and the speed of accumulating crystals and collecting cards was ridiculously slow. When the KC Grand Prix was held back then, the decks in the hands of the players were far worse than they are now.

Sure enough, I'm a great NPC who has made great contributions to the development of dueling!

As for whether players would surpass his progress in the future that's nearly impossible.

Not to mention that the players were almost incomparable to him in terms of earning crystals. Taking a step back, even if some of them could graduate from the game and unlock the full card pool, there were still some artifacts that cannot be obtained in the end.

For example, Card of Demise, Pot of Greed, Card of Sanctity.

The only way to get these cards was through Yuei Vu, and Yuei Vu could limit the number of sales to them, or not sell to them at all.

And even if the players could invent some high-level decks from the limited card pool, Yuei Vu could also see the card list in the forum.

If both sides held similar decks, it was very difficult for players to win against him.

After all, his Duelist Rank was already 8. Not only could he perform a lot of divine draws, but he could also stuff some unknown things in the deck that ordinary players couldn't, without having to worry about dead draw

At this time, the duel between Snow Wave and Native Noragami was at its climax.

Seeing that Native Noragami was about to be slapped to death by Wildheart, the audience watching the battle in the live broadcast room started clapping and applauding, saying that it was so cool, the righteous hero would punish the autistic or something like this.

Brother Noragami, with only 1000 LP left, prayed in his heart, held his breath, twitched and then started laughing wildly!

Hahaha, Brother Snow Wave, you didn't expect this, did you? I can perform divine draw too!

So Noragami summoned one of the only monsters in his entire deck.

Amazoness Swords Woman, ATK 1500. Effect: Your opponent takes any battle damage you would have taken from battles involving this card instead.

A very nether effect, fit to one of the autistics favorite monsters.

Brother Noragami waved his hand here, and the muscular female swordsman and the shirtless wild hero fought fiercely and finally died together.

The balance of victory was reversed again!

Final turn!

Seeing the helpless Snow Wave, Noragami put his hands on his hips and was in a good mood.

He now had three set cards in the back row!

Could it be that you can take out a second Wilderness card and slap me to death?

But Snow Wave still didn't give up!

A real hero will not back down just because of a few traps in the villains lair!

It's my turn, draw! Snow Wave showed the card in his hand, Summon Elemental HERO Blazeman!

Seeing this hero in fiery red tights and golden goggles appear on the stage, Native Noragami couldn't help but gasp.

Damn it, its Blazeman!

Hiss~ How many levels of bootlicking power does this guy have to buy this latest Elemental HERO?

Thinking of this, he couldn't help but look at Snow Wave with even more admiration.

The effect of Blazeman If this card is Normal or Special Summoned: I can add 1 Polymerization from my Deck to my hand!

That can't be done! Brother Noragami said that we premium players were not vegetarians, and immediately waved his arm, Open the set card! Trap Card Spellbinding Illusion! Select 1 monster the opponent controls. It loses 500 ATK, and its effect is negated! (manga card)

As soon as this card came out, Snow Wave also took a deep breath.

Hiss~ Spellbinding Illusion!

This card was originally held by Yugi Muto. So far there was no real-life version of this card. There was no way for players to get it, so the one in Brother Noragami's hand undoubtedly came from Yuei Vus store.

But Snow Wave remembered that this card's price was ridiculously expensive!

How many levels of monetary power does this guy have to buy this divine weapon!?

But it doesn't matter!

Snow Wave then waved his hand: Open the set card! Trap Card Bad Aim! This card can only be activated when the opponent's card or effect is activated. Destroy any card on the field other than the card that activates the effect!

He pointed at the monster in front of him.

What I want to destroy is my own Elemental HERO Blazeman!

Nani!?

The surrounding NPCs were shocked.

Blow up your own monster? Is this person crazy?

However, unlike the reactions of passers-by, the players who quickly figured out the meaning worshiped him one after another.

6666!

High-end operation!

With the flipping of the trap, the Elemental HERO Blazeman on the Snow Wave field was destroyed due to the effect of the trap, turning into a golden light and dissipating. The six-pointed star magic circle that flew out of Brother Noragami's trap card only rushed into the air aggressively but failed to restrain Blazeman.

Snow Wave shouted: Because the Elemental HERO Blazeman was destroyed and sent to the graveyard, Spellbinding Illusion resolved without effects!

The popular translation was As long as I die fast enough, you will not be able to kill me.

Native Noragami gritted his teeth: Damn, then do as you like.

Anyway, I still have a lot of pitfalls. You can run now, but you cannot run forever.

By the effect of Blazeman, I add 1 Polymerization from my Deck to my hand! Snow Wave said, Then I activate Polymerization! I fuse the Elemental HERO Heat and Elemental HERO Lady Heat in my hand!

Fusion Summon! Elemental HERO Inferno!

As the two heroes disappeared in the vortex of fusion, the steel giant in huge armor and full of flames made his grand debut!

[Elemental HERO Inferno, ATK 2300]

However, before the hero had time to gain a foothold, Brother Noragami waved his hand: Open the set card! Trap card Bottomless Trap Hole! When the opponent summons a monster with an attack power of 1500 or more, destroy and banish that monster!

The poor flame giant hadn't landed yet, and a huge vortex leading to another dimension opened under his feet, releasing a huge suction force, like a bloody mouth ready to swallow him

But Snow Wave also has countermeasures: Quick-Play Spell De-Fusion! Release the fusion of Inferno, and special summon Heat and Lady Heat in the GY!

As the Spell Card took effect, Inferno's huge body quickly split into two, one on the left and one on the right avoided the pit below, and split into Heat and Lady Heat again, and returned to the field.

[Elemental HERO Heat, ATK 1600]

[Elemental HERO Lady Heat, ATK 1300]

It seemed that Brother Snow Wave has initially grasped the essence of the Elemental HERO deck exchange three for one, and then undo it by De-Fusion.

The effect of Heat This card gains 200 ATK for each Elemental HERO monster I control! So here the attack power will increase by 400 points.

[Elemental HERO Heat, ATK 1600 ATK 2000]

Native Noragami couldn't help but start to change a bit.

You even dodged this move?

Battle! Snow Wave waved his hand.

The autistic player has only 1000 blood left, victory is in sight!

Elemental HERO Heat, Elemental HERO Lady Heat, attack directly!

Seeing that the situation seemed to be bad, Native Noragami gritted his teeth and had to show the last line of defense: Open the set card! Trap Card Wall of Disruption!

When an opponent's monster declares an attack: All Attack Position monsters the opponent controls lose 800 ATK for each monster they control!

The audience was in an uproar.

Wall of Disruption!

This card was sorted at SR in Yuei Vus store, and it didnt require high favorability, but the price was very high.

Sure enough, even autism was not something common people could afford.

Did you think Brother Noragamis back row was all pitfalls?

No, those papers were all banknotes

Now you have two monsters on the field, so the attack power is reduced by 1600!

Heats attack power was 2000, and Lady Heats attack power was only 1300. After eating the Wall of Disruption, the combined output of the two heroes was only 400 points.

Elemental HERO Lady Heat had another effect, which could inflict 200 damage to the opponent for each face-up Elemental HERO monster on the field at the End Phase.

But even so, the total output was only 800, and Native Noragami still had 200 LP left.

But at this moment, Snow Wave also showed his last move!

Open the set card Ballista Squad! Snow Wave shouted, Tribute 1 monster, then target 1 card the opponent controls; destroy it!

I will Tribute the Elemental HERO Lady Heat to destroy the Wall of Disruption on your field!

W-W-What!? Brother Noragamis face turned pale.

Wall of Disruption has been activated, even if it was destroyed, its effect would still resolve.

But Snow Waves purpose was not here at all.

His real purpose was to use the Lady Heat on his field as a sacrifice!

With the Lady Heat disappearing from the field as a sacrifice, only Elemental HERO Heat was left on the Snow Waves field!

Because I only have one monster left on the field, according to the effect of the Wall of Disruption, Heats attack power only drops by 800 points! Then because the Lady Heat disappeared, his attack power dropped by another 200 points!

[Elemental HERO Heat, ATK 2000 ATK 1000]

Native Noragami, LP 1000

No more, no less!

Noragamis face changed suddenly: Grass (a kind of plant)!

The audience in the live broadcast room was swiping crazily: 666666!!!

Heat, attack directly! Snow Wave shouted excitedly.

There were no more traps, no more defensive means, and Elemental HERO Heat, whose attack power had been weakened, raised his palm and blasted out the flames, and took away Noragamis remaining LP.

Native Noragami, LP 1000 LP 0
