

I Play Yu-Gi 371

Chapter 371: The Circuit That Leads To The Future

My turn!

It was Yusei's turn again. At this moment, Siegfried waved his hand and said: At this moment, the effect of Nibelungs Ring is activated!

After the words fell, the ring on the Junk Warriors hand lit up golden. The Junk Warrior half-kneeled on the ground, and the electric current jumped out of his body, it seemed that he was struggling more than before.

Monsters equipped with the Nibelungs Ring cannot attack, be Tributed, or change their battle position, and their effect will be negated. And as long as that monster exists on the field, you must draw 2 cards in your Draw Phase, and discard the drawn monster card to the Graveyard.

Siegfried waved his hand: Okay, let's draw cards. You can draw two cards this turn! But if you have monster cards, please show me.

Yusei remained silent, drew two cards, glanced at them, and then turned one of them over to show the other party.

Monster card. Siegfried narrowed his eyes and chuckled triumphantly, Then please throw it away to the GY.

Yusei silently sent that card to the graveyard but then waved his hand: Open the set card Reckless Greed. Draw two cards from the deck, and then skip the next two Draw Phases.

I see. Indeed, if you draw a card like this, the effect of the Nibelungs Ring will not be triggered. Siegfried shrugged indifferently, Then you'd better pray that you draw a usable card.

Yusei still ignored it and continued with the Main Phase. He took out three cards from his hand: Summon the Ghost Gardna in defense position.

Then set two more cards, and I end my turn!

A white mechanical warrior appeared on Yusei's field, taking a defensive posture. At the same time, his back row also had two more set cards, which seemed to be his last line of defense.

"

"

[Ghost Gardna, DEF 1900]

I see. Is this your last monster? Siegfried snorted and laughed, Because of the effect of Nibelungs Ring, you have no way to draw new monsters into your hand. In other words, there is nothing you can do.

Of course, being able to reach this point is already very commendable. To my surprise, you seem to be a first-rate duelist. It's just a pity that you met me, Siegfried Lloyd.

My turn, draw!

Siegfried drew the card and raised his voice: Although its short, lets let this duel end here! Valkyrie Sigrun, tear up the Junk Warrior for me!

The Valkyrie warrior received the order and charged fearlessly! A meteor-like purple trail was left in the air, and the long sword dragged a silver light and slashed at the suppressed Junk Warrior.

However, at the moment when the sword was about to strike, a white afterimage flashed out, blocking in front of the Junk Warrior.

That was Ghost Gardna!

The Valkyries sword sharply sliced through the steel body of the Ghost Gardna, and the latter was blown into countless pieces with a pop.

The effect of Ghost Gardna. Yusei said, When the opponents monster attacks, the attack target can be forcibly changed to this card.

Siegfried frowned: A meaningless move

And, Yusei interrupted him, When Ghost Gardna is destroyed by battle and sent to the graveyard, until the End Phase, the attack power of a monster on the opponents field will drop by 1000 points!

The shattered mechanical warrior released a ghostly white beam of light, wrapping around Sigruns body like a long ribbon. Sigrun was restrained in her movements, and she swung her sword angrily to try to disperse it, but her sword couldnt touch the light belt at all.

[Valkyrie Sigrun, ATK 2200 ATK 1200]

Siegfried sneered: Hmph, my Sigrun has already attacked this turn, so whats the point of reducing her attack power?

It seems that I overestimated you. After all, you are only a second-rate duelist. If you choose to lower Eldas attack power, Eldas attack power will drop to 1000, which is lower than the Junk Warrior, and I cant continue to let her attack

Before he finished taunting, Yusei waved his hand immediately: Open the set card: Trap Card Counterattack Beacon!

Activate only when an opponents monster destroys a monster I control by battle. Target a monster I control, it gains 500 ATK until the End Phase. Conduct a battle between the target monster and the monster that attacked! (animation card)

What!?! Siegfried was surprised.

I increased the attack power of the Junk Warrior by 500, and forced it to fight against the Valkyrie Sigrun!

The Junk Warrior who had been listless for a long time yelled and made a gesture of accumulating energy. His whole body was ignited with energy flames, and he looked like he was going to regain his glory.

[Junk Warrior, ATK 1300 ATK 1800]

So thats how it is! Siegfried suddenly came to his senses, The Junk Warrior who is equipped with the Nibelungs Ring cant take the initiative to attack, so you use the effect of the trap card to force the battle

No, not only that, but before that, the effect of the Ghost Gardna was used to reduce the attack power of the Valkyrie, and by the way, the attack power of the Junk Warrior was increased

Are all of these within his plan! ?

Siegfried couldn't help but take a higher look at the guy of unknown origin in front of him. At this time, he looked at the funny rabbit headgear on the other side again, and couldn't help but wondered in his heart what kind of person was hiding under the headgear

It's beautiful, Yusei! Judai praised his younger generation without hesitation, Let's fight back in one go!

But it's useless! Siegfried quickly regained his composure, Open the set card: Trap Card Ambush Shield! Tribute 1 monster. Select 1 monster on the field. It gains ATK equal to the DEF of the Tributed monster!

I took the Valkyrie Erda as a sacrifice, and added its defense power to Sigruns attack power! (animation card)

The Valkyrie in red armor disappeared under the effect of the trap, turning into a beam of light and attached to Sigruns long sword. The power of the sword surged suddenly, layers of sacred aura enveloped the whole body of the Valkyrie, and her aura was also boosted out of thin air.

[Valkyrie Sigrun, ATK 1200 ATK 3400]

But when the Valkyrie Erda leaves the field, her effect will disappear. Yusei said, The attack power of the Junk Warrior has increased by 1000 again!

[Junk Warrior, ATK 1800 ATK 2800]

It doesn't matter, Sigruns attack power is higher in the end. Siegfried chuckled gracefully, and waved his arm lightly, Go, Sigrun, and destroy that inexplicable eye-obscuring monster!

Sigrun launched the final charge, and the Junk Warrior also faced her fearlessly!

There was a flash of light in the red eyepiece of the Junk Warrior, and the tail flames spewed out from behind him, his right fist was shrouded in a burning golden light, like a flying meteor, it hit the Valkyrie fiercely!

An electric spark was knocked out in mid-air, and a shock wave visible to the naked eye erupted. The two warring parties retreated respectively, but neither side was knocked down.

[Yusei, LP 2600 LP 2000]

What? Siegfried was surprised, Why hasn't the Junk Warrior been defeated?

While speaking, he saw a phantom appearing in front of the Junk Warrior at some point. A warrior with a spear and shield loomed before him like a ghost, resisting the blow and the damage.

I banish Shield Warrior in the GY to activate its effect. It can protect my monsters from being destroyed by battle once. Yusei said calmly.

Siegfried: !?

Shield Warrior Is this the card that was thrown to the graveyard by my Nibelungs Ring last turn?

So, it turned out that I'm unintentionally helping him?

Continue to open the set card. Yusei waved his hand again, and the last set card in front of him was flipped over, Trap Card Synchro Ring!

This card can only be activated during the Battle Phase. Select 1 Synchro Monster I control that battled an opponents monster this turn, but did not destroy it by battle. Double its ATK until the End Phase. It can attack once again during the same Battle Phase! (animation card)

What!?! Siegfried was shocked.

The Junk Warrior roared, his power instantly raised a lot.

[Junk Warrior, ATK 2800 ATK 5600]

Attack power5600!?! Siegfried was shocked.

Yusei showed the last card in his hand: This is the last one! At the Battle Step, I discard the Rush Warrior from my hand to activate its effect!

When a Warrior Synchro Monster I control battles an opponents monster, I can send this card from my hand to the GY; my battling monsters ATK becomes double its current ATK during that battle only!

[Junk Warrior, ATK 5600 ATK 11200]

Attack power11,200!?!?

Siegfried had an expression of Im so stupid, and when he looked at the figure hiding in the rabbit suit on the opposite side again, his eyes were full of fear.

Use the effect of the Ghost Gardna to block the attack, reduce the attack power of the Valkyrie, and at the same time meet the trigger conditions of the trap card Counterattack Beacon, and then further predict the counterattack on Siegfrieds side, and use the effect of Shield Warrior to prevent the destruction of the fighters, and then trigger the activation condition of the trap card Synchro Ring

When looking back, the cooperation of each card formed a link in a long chain. From Siegfrieds current perspective, he only felt that this series of chain events was like a complete circuit, leading directly to this future

The future in which he lost.

Siegfried looked at the other party in horror.

This guy has everything been calculated by him a long time ago!?!?

What kind of monster is he!?!?

Even Judai couldnt help sighing: Yusei so amazing

This was indeed his emotion from the bottom of his heart.

Although it can be said that Judai was stronger at this stage, after all, he was not the kind of duelist who used his mind to make precise calculations and to win through careful consideration.

In contrast, he was more used to relying on the invincible divine draw.

Junk Warrior! Yusei waved his hand, Scrap Fist!

Flames shot out from behind the Junk Warrior, and the golden light released from the punches was unprecedentedly dazzling. With just one blow from the golden fist, Valkyrie's sword energy was smashed into pieces, and the monster was also crushed into powder, drawing the final conclusion to the duel.

[Siegfried, LP 2400 LP 0]

Chapter 372: Challenge Me To A Duel!

Siegfried, LP 0

Siegfried looked at his LP that had returned to zero, and stood there blankly, feeling bad all over.

I lost again?

The word again was emphasized

Siegfried Lloyd was the boss of the KC Grand Prix arc. Although he didn't get the chance to fight Yugi in the animation, he at least eliminated Jonouchi, and even once pushed President Kaiba to a desperate situation in the duel.

However, now Siegfried felt like a trash fish on the side of the road as if anyone could beat him.

He began to plunge into self-doubt.

Maybe, maybe, maybe

My dueling skill is not that good?

Okay, I won the duel. Yusei stepped forward, According to the agreement, remove the virus and exit the Kaiba Land.

It didn't matter if Siegfried refused to admit defeat. Yusei could use another set of Rising Crab Fist to physically convince the opponent, and then show off his skills of future technology geeks to manually remove viruses and so on.

Strictly speaking, Yusei didn't really have to play cards with the opponent. He accepted the duel only because he's been in this era for too long and needed to vent his card addiction

Sorry, I wrote it wrong. That's because of the unwritten rule among duelists that problems should be resolved by dueling as much as possible. It was a disgrace to a duelist to avoid a challenge from another.

Well, that's right, that's it.

However, at this moment, outside the window on the side of the corridor where the few people were, a figure came in.

Clang!!!

The crisp sound sounded like a heavy hammer smashing glass. A figure directly smashed the glass on the side, and one rolled and squatted and landed on the ground full of glass shards, with a large white windbreaker fluttering like a cloak.

That's Kaiba Must-Show-Off Seto.

It may be for the convenience of movement, or it may be purely because it is more fashionable and pretentious. In short, President Kaiba has already taken off the white suit and changed back to the usual loose windbreaker.

This Batman-like superhero appearance was really handsome enough, but if Yuei Vu was here, he would definitely not be able to help to complain

All these glasses have just been installed!

Even if you are rich, money shouldn't be wasted like that!

If Yuei Vu saw this scene, he would feel pain in his flesh, his heart would bleed

President Kaiba Seto! Judais eyes lit up again.

Although he was already a big shot now, he grew up listening to the stories of legendary duelists like Yugi and Kaiba, and he had a natural longing for these legendary duelists.

Although a little slower than Yusei, Kaiba obviously found Siegfrieds position.

He stood up, glanced coldly at Siegfried and the two strangely dressed weird guys beside him, and frowned.

At this point, Siegfried knew that his scheme has failed. But he had an idea and pointed at the two weirdos: Hmph, President Seto Kaiba, you are still late.

My virus program is already bound to the Duel Disks of these two men. To get rid of the virus, your only choice is to defeat them!

The future duo was stunned and stunned for a moment.

What the hell? Why did it become tied to our Duel Disk again?

Are you really lying without burden?

However, this Siegfried was very witty. Although his lie was full of loopholes and could not be fulfilled at all, but he cleverly aimed at the biggest weakness of Kaiba

Up until now, Kaiba had no chance to play cards.

Not only could he not play cards himself, but he had to sit in the audience watching others play the whole time, which was inhumane torture for a young man addicted to dueling.

Then looking at the president, who had already put on the Duel Disk when he broke in through the window, and anyone with a discerning eye could tell that he came here with the idea of playing cards to solve problems.

And through the duel just now, Siegfried has also realized that these two people were not on the same side as Kaiba Corp. Kaiba seemed unaware of the existence of the two of them.

So Siegfried cleverly shifted his target here, and tried to see if he could get Kaiba to fight these two who were defeated by Yusei just now, and now he thought that the dueling skills of these two weirdos may still be reliable, and it was not impossible to make Kaiba come out embarrassed.

Just according to keikaku (Keikaku means plan)!

However

Do you think I look so stupid? Kaiba crossed his arms and said coldly.

Siegfried: !

He was surprised to find that President Kaiba actually seemed to be not ready to play poker?

OMG, is it true that President Kaiba has really given up his card addiction!?

At this moment, the bodyguards of Kaiba Corp also arrived under the leadership of Uncle Isonobu they were not as flamboyant as the president, and they walked up the stairs.

That's right, it's the invincible Uncle Isonobu again, and this time he was also responsible for the security work of Kaiba Park.

This showed that Kaiba Corp may be really understaffed

Unwilling to be taken away by a group of bodyguards, Siegfried glared at Kaiba viciously before leaving, and said in a deep voice, I'll be back!

The corner of Kaiba's mouth twitched, and said disdainfully: Hmph, lost dog, you can only bark wildly in the last few days.

During the KC Grand Prix, the Kaiba Corp really had no time to make other big moves. But as long as this competition ended smoothly, Kaiba immediately prepared to settle the threat of the Schroeder Corp once and for all, so as to save them from causing trouble in the future.

After finishing Siegfried, Kaiba turned his head to the side, frowned, and gave the two oddly dressed weirdos a cold look.

Yuei Vu arranged for you to come? He asked.

Oh, the president is amazing. Judai said, It was obvious at a glance You really have a tacit understanding!

The president snorted.

In fact, the president has already observed that those duelists with strange headgear such as rabbits, unicorns, elephants, and ponies on their heads seem to have something to do with Yuei Vu

Hm, what a meddling boring guy.

Kaiba glared at the two of them, flung his windbreaker, and turned his head to leave.

Judai tilted his head and whispered to Yusei: Don't worry about it. Yuei Vu-sensei said that the president's dueling skill is not bad, but he is very tsundere

The president, who was already planning to leave, paused, then turned his head suddenly, and shot over with sharp eyes like a sword.

"

"

What did you call him just now?

Judai instantly realized that he had said something wrong, and quickly shut up.

Kaiba frowned, looking bad-although he might have had this expression normally.

This guy is Yuei Vu's apprentice?

Why haven't I heard that he has an apprentice?

Kaiba couldn't help but recall that the last time Yuei Vu came to his office, he said something like "Going to teach and educate people and cultivate the future of the dueling world."

At that time, Kaiba waved his hand and said that he had more important work to do, so he refused.

Hasn't that guy given up yet?

Kaiba thought for a while, seemed to have changed his mind, turned around, and walked back.

Interesting. He crossed his arms and said, "Since he will entrust this matter to you, he must have trust in your ability and strength."

Then I will give you a special chance, challenge me to a duel!

Chapter 373: It's Really His Apprentice

Come and challenge me to a duel! Kaiba waved.

It's really unexpected. Maybe President Kaiba felt that he appeared on the stage, and the Duel Disk was also brought, but the cards were not dealt, so he felt that he was at a loss.

Yusei on the side felt that there was no need to fight the president when he heard this. After all, they were not people of this era at all, and they should avoid too much exposure.

Okay! Judai clenched his fists, "To be able to duel with a duelist like President Kaiba Seto, it is impossible to refuse such an opportunity!"

Yusei:

Is it really good? Yubel appeared behind Judai, "You know this will affect history, right?"

After a pause, she folded her arms and snorted.

But I think you won't listen even if I say that.

Judai smiled: "You really understand me."

Yubel didn't speak anymore.

To be honest, she and Judai have experienced so much together and fought against so many powerful enemies. In fact, she also kind of wanted to fight this legendary Seto Kaiba.

Even though she also knew that the current Kaiba Seto was far from reaching his peak period, and was not in his strongest state.

It's just a duel, and it's not a big move like destroying the history of dueling monsters, so the impact shouldn't be too big.

Time is not that fragile.

After a while, Yuki Judai and Kaiba Seto, two dueling experts from different generations, stood apart from each other.

Kaiba looked at Judai's weird suit and the unicorn headpiece on his forehead, and couldn't help but narrow his eyes.

Are you going to duel with me wearing this?

Ah, this? Judai pointed to the hood on his head, This it doesn't matter, it doesn't affect the duel. Because if it was not particularly necessary, he still didn't want to show his face.

Kaiba frowned and snorted.

As you like. He said coldly, chuckling mockingly, Anyway, it's an opponent who will soon be defeated by me, so it may not be worth remembering.

As expected of the president, I'm really confident. Judai inserted the shuffled deck into the duel board, Then, it's time to go, President.

Duel! x2

Yuki Judai, LP 4000

Seto Kaiba, LP 4000

I'll go first, draw! Judai was the first striker.

Summon this guy first Elemental HERO Solid Soldier!

A storm of mud rolled up on the ground, and a hero who was covered in steel armor and as strong as a diamond appeared on the field. The wide shield mounted on his forearm flew across the air, cutting the smoke screen in front of him.

[Elemental HERO Solid Soldier, ATK 1300]

The effect of Solid Soldier is activated! Judai said, When this card is Normal Summoned: I can Special Summon 1 Level 4 or lower HERO monster from my hand. Come on, Elemental HERO Blazeman!

Flames rolled up on the ground, forming a small vortex. The scorching temperature seemed to distort the air. The fiery hero in the red tights came to the field in a half-squat position.

[Elemental HERO Blazeman, DEF 1800]

The effect of Blazeman If this card is Normal or Special Summoned: I can add 1 Polymerization from my Deck to my hand.

Judai's Duel Disk has automatically executed the retrieval program, and the Polymerization Spell Card popped up automatically. After he took it away, the deck was quickly and automatically shuffled.

Kaiba looked at his Duel Disk and couldn't help frowning.

This Duel Disk who developed it?

Is there a dueling system in this world that is more technologically advanced than our Kaiba Corp?

Remembering that Judai called Yusei Fudo sensei just now, Kaiba immediately made a bolder guess.

Could it be does this have anything to do with Yusei Fudo?

Of course, he was just thinking about it but still didnt ask anything.

Kaiba was a very proud guy. Even if he wanted to ask a question, he must wait for the other party to be beaten to the ground by him and ask the question as a winner.

Before the duel was over, such details could be put aside.

Activate Spell Card Polymerization! Judai has already activated the card he just got, I fuse Elemental HERO Solid Soldier and Elemental HERO Blazeman!

The fusion condition is 1 Elemental HERO monster + 1 FIRE monster.

Fusion Summon! Elemental HERO Nova Master!

As the two heroes disappeared in the fusion storm, lava erupted from the depths of the earths core. A fire hero dressed in red and gold armor came out, and his palms were churning with scorching energy.

[Elemental HERO Nova Master, ATK 2600]

Then at this moment, Elemental HERO Solid Soldiers effect is activated! Judai continued, If this card is sent from the Monster Zone to the GY by a Spell effect: I can target 1 HERO monster in my GY, except Elemental HERO Solid Soldier; Special Summon it in Defense Position.

Come back, Blazeman!

A pillar of fire shot up from the ground, and the hero who transformed into a defensive posture crouched on the ground.

[Elemental HERO Blazeman, DEF 1800]

I end my turn. Judai smiled friendly, Its your turn, President Kaiba.

Kaiba folded his arms and silently watched his series of operations. The more he looked, the more he narrowed his eyes, staring straight at the majestic and domineering Elemental HERO on Judais field.

It really is that guys apprentice!

If it was only a doubt just now, Kaiba has already believed in this matter 70% to 80%.

Its my turn, draw!

With a big wave of Kaibas hand, the moment he drew the card seemed to bring about an invisible wind, which made his own windbreaker flutter.

Spell Card Graceful Charity! Draw 3 cards, then discard 2 cards.

Kaiba discarded two cards and immediately revealed the monster card in his hand.

Summon X-Head Cannon!

Carrying two cannons on its shoulders, the metal monster with a full sense of mechanics came to the Kaibas field. The two black cannon barrels pointed directly at the flaming hero on the opposite.

[X-Head Cannon, ATK 1800]

Activate Continuous Spell Frontline Base! Once per turn, I can Special Summon 1 Level 4 or lower Union monster from my hand! Kaiba showed the second monster card, Special summon Y-Dragon Head!

A red electric current burst out, and what flew out with a sharp chirping sound was a red flying dragon with a steel body and wide metal wings.

[Y-Dragon Head, ATK 1500]

Union monster was a kind of monster that was relatively unpopular among Yu-Gi-Oh monsters. They can be used as Equip Cards to equip other monsters on the field, or they could be special summoned back to the field by disequipping them at any time.

For example, this A-to-Z series, which was very active in both Yu-Gi-Oh DM and Yu-Gi-Oh GX, was the most representative and famous series of Union monsters.

Kaiba continued: Spell Card Iron Call! It can only be activated if I control a Machine monster. Target 1 Level 4 or lower Machine monster in my GY; Special Summon that target, but its effects are negated.

Come back to the field, Z-Metal Tank!

The metal chariot with the shape of a tank was pulled from the GY to the field and stood side by side with the other two mechanical monsters as if forming an iron wall across Kaibas field.

I banish X-Head Cannon, Y-Dragon Head, and Z-Metal Tank from the field Assemble them together! Kaiba shouted loudly, Suppress all enemies with absolute firepower!

Combine! Appear, XYZ-Dragon Cannon!

Chapter 374: Neos

Appear, XYZ-Dragon Cannon!!!

The parts of the three mechanical monsters were separated, and they began to assemble and fit together. The red mechanical dragon sat on the metal tank under the guidance of two straight currents like rails, and the head cannon also landed on the top of the mechanical faucet with the two cannon barrels.

The three machines were quickly assembled together, the barrels were calibrated, and the target was locked. The steel tracks were pressed heavily on the duel field, and the dust was billowing like a curtain.

[XYZ-Dragon Cannon, ATK 2800]

Its amazing. As expected of the legendary President Seto Kaiba, Judai said, You actually called out the ace monster in the first turn

The effect of XYZ-Dragon Cannon is activated! Kaiba stuffed the remaining two cards into the graveyard, By discarding a card, destroy a card on the opponents field!

I discarded two cards in my hand and destroy Elemental HERO Blazeman and Elemental HERO Nova Master!

Go, XYZ-Dragon Cannon! Hyper Destruction!

The huge mech moved. The ammunition and energy were in place, and the blue energy was brewing in the two thick and long barrels. The central part of the mecha if it was compared to a person, it may be the crotch the red dragon head also opened its mouth, and there was a blue electric current sizzling in its mouth.

The erupting ray instantly shattered the two heroes on Judai's field and was blown into ashes along with the scorching airwaves and high winds.

XYZ-Dragon Cannon! Kaiba waved his hand and pointed forward, Attack the player directly! XYZ Hyper Cannon!

The three parts of the mech fired at the same time. The impact of the cannon, the dense Vulcan cannon, and the neighing current all hit the opposite half as if they were integrated into one.

A strong blasting sound swept through the entire empty floor, and the special effect of thick smoke shining through the fire spilled out from the broken hole in the glass. Judai crossed his arms in front of him and slid half a step back under the impact of the image.

[Judai, LP 4000 LP 1200]

Judai stepped back a few steps, lowered his head, and said nothing.

It looked as if he had been beaten.

Yusei thought to himself: As expected of a legendary duelist, this kind of strength is indeed completely different from ordinary people.

Kaiba crossed his arms and looked at Judai's deflated appearance from a distance, and couldn't help but raise his head and laugh, as happy as seeing You Yu himself deflated in front of him.

However, he smiled and laughed, only to find that

The boy on the opposite side actually laughed along with him!?

Kaiba snorted, and folded his arms: It's admirable to be able to laugh in such a situation.

Im sorry, Im sorry. Judai raised his head with excitement on his face. It's just because dueling with President Kaiba really feels different. It's really exciting to be able to fight against such a duelist.

Oh? Is there still room for excitement? Kaiba sneered.

Ah. The power of the heroes in my deck hasn't been seen by you, President Kaiba. Judai laughed.

Yusei quietly stood aside without saying a word, but he had already realized something.

Judai-senpai didn't fight seriously just now?

Are you going to get serious? Yubel appeared again, You know that, right? That's a card that shouldn't belong to this era

It's okay. Judai chuckled, And, if you don't go all out, it's not considered respect for your opponent, is it?

Yubel shrugged indifferently: Just a reminder.

Judai stood up straight again.

For some reason, Kaiba instinctively felt that the opponent's aura seemed to be different.

Obviously still wearing such a funny suit, the unicorn-shaped headgear should not look serious no matter what, but the aura of the whole person seemed to have changed, like the aura from a majestic king.

Although it was strange to say so, Kaiba suddenly felt a kind of pressure that could only be experienced when facing Yugi.

The president frowned: This guy

My turn, draw! Judai immediately played the card he had drawn, Spell Card Fusion Recovery! Add 1 Polymerization in my GY, and 1 monster in my GY that was used as material for a Fusion Summon to the hand!

I add Polymerization and Elemental HERO Blazeman back to my hand!

Seeing Shidai return the two cards to his hand, Kaiba sneered: Fusion isn't this still heroes usual method?

That's right, but it may be slightly different from your previous impression, President.

Judai smiled and put the cards into the Duel Disk.

Activate Spell Card Polymerization! I fuse Elemental HERO Neos and Neo-Spacian Flare Scarab in my hand!

A hero with a white body, red stripes, and a blue round crystal on his chest appeared on the field. Next to him was a Neo-Spacian surrounded by flames and wearing beetle-shaped armor.

The moment he saw these two monsters especially the hero with a white body, Kaiba realized that this monster was different.

Although the president was superstitious about science and scoffs at those so-called supernatural phenomena, he couldn't deny that he was actually more sensitive than ordinary people to things that could not be explained by science, such as Shadow Game and Duel Monster spirit.

For example, he could feel that the Elemental HERO with a white body in front of him contained a mysterious and powerful force, and it may even be comparable to his Blue-Eyes White Dragon.

The fusion condition is Elemental HERO Neos + 1 Level 4 or lower Effect Monster.

Fusion Summon! Elemental HERO Brave Neos!

Neos and the flame beetle merged into one under the magic power of fusion and shot into the vortex in mid-air together.

The beam of light hangs down from the sky like a waterfall, carrying the body of a brand-new hero down from the sky. The white body gradually emerged from the strong and scorching light, and it still has the same posture as Neos, but it has been replaced with a wider shoulder armor, and the color and stripes of the body have been changed.

"

"

It felt like switching a form.

[Elemental HERO Brave Neos, ATK 2500]

This was also a new form of Neos that has not appeared in the entire Yu-Gi-Oh! GX animation. Obviously, it was also a new vest printed by Judai.

Kaiba was surprised by the power fluctuations he felt from this monster it should be only a three-dimensional image, but he seemed to be able to perceive extraordinary energy from this unknown Elemental HERO.

Impossible, it must be an illusion, it's just a three-dimensional image.

Kaiba said to himself inwardly.

And his attack power is only 2500, so there is nothing to be afraid of.

But as if he had seen through the president's inner thoughts, Judai smiled and explained: The attack power of Brave Neos will increase by 100 points for each Neo-Spacial and HERO monster in your GY.

There are Elemental HERO Solid Soldier, Elemental HERO Nova Master, Neo-Spacial Flare Scarab, and Elemental HERO Neos in my graveyard, so the attack power of Brave Neos has increased by 400.

[Elemental HERO Brave Neos, ATK 2500 ATK 2900]

Tch, the attack power has surpassed the XYZ-Dragon Cannon

Then I normally summon Elemental HERO Blazeman!

Following a burst of flames, the flame hero who had just left the field not long ago returned to the field.

I'm going to use another effect of Blazeman this turn! Judai said, Send 1 Elemental HERO monster from my Deck to the GY, except Elemental HERO Blazeman, then this card's Attribute and ATK/DEF become the same as the monster sent to the GY, until the end of this turn.

Judai revealed the card he found from the deck.

Send Elemental HERO Blazeman from the deck to the GY. Until the end of the round, Blazeman's attack power will become 2600!

[Elemental HERO Blazeman, ATK 1200 ATK 2600]

Battle! Judai waved his hands and shouted, First, Brave Neos, attack the XYZ-Dragon Cannon!

Neos flew into the air, drew a perfect arc in the sky, and swooped toward the mech as if dragging two white lines behind him!

The heavy mecha fought back with all its strength. The two cannons and the dragon head in the middle fired a salvo of ammunition from top to bottom, facing the white body in mid-air with full firepower.

But neither the energy nor the rain of bullets could block the trajectory of the opponent's sprint. Neos turned into an afterimage, his whole body seemed to be shrouded in golden light, and when he cut it with a hand knife, it seemed to transform into a long light knife when he cut it down. The Dragon Cannon was cut from the center and was blown into burning parts and metal wreckage with the sound of an explosion.

[Kaiba, LP 4000 LP 3900]

The effect of Brave Neos. Judai said, When this card destroys an opponents monster by battle, I can add 1 Spell/Trap from my Deck to my hand that specifically lists the card Elemental HERO Neos in its text.

Kaiba narrowed his eyes.

To be able to accurately add Spell/Trap to the hand? Does it have such a powerful ability?

I add NEXT to my hand.

Judais Duel Disk performed an automatic search again and popped out the card he wanted.

My attack is still going on. Judai said, Next is the Elemental HERO Blazeman, directly attack President Kaiba!

Blazemans whole body burned, turning into flaming projectiles and flying toward him. The air wave mixed with flames made Kaiba take a half step back and almost bit his tongue.

[Kaiba, LP 3900 LP 1300]

Set a card, I end my turn. There was an extra set card beside Judai, and he continued, At the End Phase, the effect of Blazeman ends, and the attack power returns to its original state.

[Elemental HERO Blazeman, ATK 2600 ATK 1200]

Chapter 375: Blue-Eyes Chaos Dragon

At this time, Kaiba had completely lost the slightest bit of contempt for the strangely dressed opponent in front of him.

He could feel that the strength of the opponent under this unicorn suit might not be inferior to his own. Kaiba relied on his instinct as a duelist, judged from his courage, and even felt that this person might be the strongest among all the duelists he had fought.

It even gave him the illusion that he was facing Yuei Vu himself!

Kaiba couldnt help being stunned.

Yuei Vu even his apprentice has such astonishing strength?

Kaibas expression changed, and he asked lightly, Whats your name?

Ah, me? Judai was taken aback for a moment, Uh, this is a little hard to describe

Hmph, dont want to say? Or did that guy forbid it?

Kaiba snorted, thinking he understood the situation.

After all, the other party appeared wearing such a strange unicorn headdress, obviously, he didnt want others to know who he was. Kaiba automatically understood this as being instructed by Yuei Vu.

But Kaiba didnt continue to follow up with the question.

He felt like it had been a long time since he met this kind of opponent who was worthy of his dedication in a duel and could arouse his fighting spirit to the maximum.

So here he will go all out!

Its my turn, draw!

The card drawn by the president once again drew a gorgeous arc as if driving an invisible wave.

Spell Card Card of Demise! I can draw cards until I have 5 cards in my hand. During my 5th Standby Phase after activation, send all cards in my hand to the Graveyard.

The president raised his hand and drew, and just drew the top five cards of the deck in one move. He unfolded the five cards for a look, and immediately raised his head and let out a hahahaha laugh.

Then he pointed at Judai: Its a great honor for you! I originally prepared this for that guy, but your strength caught my attention. I will let you experience this brand-new power!

He held up a card in his hand high. The moment the card was lifted, a chaotic vortex seemed to roll around, and a dark and invisible cyclone loomed.

Activate Ritual Spell Chaos Form!!!

Kaiba inserted the card into the Duel Disk and shouted: I use Level 8 Blue-Eyes White Dragon in the hand as a Tribute!

The dragon of light obtains the power of chaos from the ultimate abyss, and comes to the world in an invincible posture! Ritual Summon

Blue-Eyes Chaos Dragon! ! !

Endless light was released, and the dreamlike body of the Blue-Eyes White Dragon appeared on the field. It flapped its wings and flew into the chaotic vortex, as if falling into the depths of a dark abyss, and finally reappeared with lightning, thunder, and dark blue light.

The metal-like wings appeared first, shining with a crystal-clear blue light. The dragons sharp claws transformed from the blue glow, followed by a huge body, a long tail, and a noble dragon head.

The blue dragon seemed to be wearing high-tech armor and came to the field fully armed. The moment it roared, it was accompanied by lightning from the depths of the abyss.

[Blue-Eyes Chaos Dragon, ATK 3000]

It looked like Kaiba used black technology to put a layer of high-tech armor on his Blue-Eyes White Dragon.

Oh oh oh, its amazing! Judai raised his arms to block in front of him, This is the legendary Blue-Eyes Chaos Dragon of Seto Kaiba

Hahahahaha!!!

After summoning his wives new vest, Kaiba first laughed as usual, and then waved his hand: Blue-Eyes Chaos Dragon, attack!

At this moment, the effect of Blue-Eyes Chaos Dragon is activated! If this card was Ritual Summoned using a Blue-Eyes White Dragon, when it declares an attack: I can change the battle

positions of as many monsters the opponent controls as possible, and the ATK/DEF of those changed monsters becomes 0!

After that, when Blue-Eyes Chaos Dragon attacks a Defense Position monster this turn, inflict piercing battle damage!

Yusei, who was watching the battle, couldn't help being surprised: Such a powerful effect!?

The chaotic white dragon opened its mouth, and at the same time, the armor on its body activated, releasing invisible waves. All the indicator lights on its body lit up with a dazzling blue light, and the shock wave that erupted instantly suppressed the two heroes on Judai's field, intending to forcibly change them into a defensive posture.

What a terrible effect, can it kill any enemy in an instant? Yubel said lightly, If you take this blow, you will be finished.

Even though she said so, her tone was very light, as if the one who was about to be OTKed was not her most beloved Judai.

I know. Judai waved his hand, Open the set card: Trap Card Altar for Tribute! Send 1 monster I control to GY, and I gain LP equal to the original ATK of the monster!

The Neos on his field turned his head and gave Judai a look as if to indicate to the master Don't worry, just use my body.

Judai also nodded in response, and said, I will send the Elemental HERO Brave Neos to GY to restore LP equal to his original attack power, which is 2500 points!

Judai, LP 1200 LP 3700

Hm, useless struggle. But your remaining monster will still surrender under the pressure of Blue-Eyes! Kaiba shouted.

[Elemental HERO Blazeman, ATK 1200 DEF 0]

Go, Blue-Eyes Chaos Dragon! Smash that hero for me! Burst of Chaos!!!

As if breathing from the depths of the abyss, the armor roared like an engine was running, and the majestic energy surged in the mouth of the white dragon, turned into a spiral blast and blasted out!

The absolute power comparable to that of the gods annihilated the body of the flame hero in an instant. The aftermath of the shock almost knocked Judai to the ground. The domineering airwave and the overflowing energy really made one wonder if it had surpassed the level of a three-dimensional image simulation shock.

Judai, LP 3700 LP 700

Kaiba folded his arms and continued to fart: Hmph, do you realize it the absolute power of Blue-Eyes now?

so handsome!

Kaiba: ?

Judai stood firm and smiled.

Being able to fight such a handsome and powerful monster Judai chuckled, It's really exciting.

Oh? Is there still room for excitement? Kaiba was a little surprised.

It's not surprising that an ordinary duelist would be so overwhelmed by the aura brought by his white dragon that he couldn't move. Even for some powerful duelists, even if they could keep calm, they still felt a lot of pressure.

But the opponent in front of me, not only didn't feel the slightest sense of nervousness, on the contrary, he seemed to be enjoying?

What a strange guy.

But Kaiba didn't find it annoying, or rather, he began to like this weird duelist hidden in the unicorn suit in front of him.

Of course, this was not only related to the extraordinary strength and courage displayed by the other party but also has something to do with Judai sparing no effort to praise his white dragon.

Men are all vain beings.

The president looked very stoic, but from the architectural style of white dragons everywhere in his Kaiba Land, it could be seen how deeply he is obsessed with Blue-Eyes White Dragons.

The other party praised his White Bride from the bottom of his heart. Of course, the president was happy.

Hmph, look like Yuei Vu choose the right apprentice after all!

President Kaiba has already silently acknowledged Yuei Vu's apprentice.

Set two cards, I end my turn. Kaiba said, with a hook on the corner of his mouth, Don't be so happy. Blue-Eyes Chaos Dragon can neither be targeted nor destroyed by card effects.

And any defensive monsters are useless in front of it! In the next turn, you will face defeat under the absolute power of the Chaos Dragon.

Unable to be targeted or be destroyed by card effects, that was quite a terrible resistance.

It could even rival the Red-Eyes Dark Dragoon that made the real-card players' faces turn pale when mentioned.

That might be the case, President Kaiba. Judai smiled, But no one knows what will happen until the last moment. Isn't this the charm of dueling?

Kaiba snorted, but didn't deny it: If that's the case, then let me see your possibility!

Chapter 376: That Was A Fun Duel

The right to operate returned to Judai again.

He had only 700 LP left, and his field was empty. On the other side, there was also a Blue-Eyes Chaos Dragon with strong resistance and amazing destructive ability. All the details almost point to the same result, which was

The Winning Formula is complete!

It's my turn, draw! Activate the Spell Card Convert Contact!

This card can only be activated when there are no monsters on my field. Send 2 Neo-Spacian monsters, 1 from my hand and 1 from my Deck, to the GY, then draw 2 cards.

Judai sent the two Neo-Spacian cards to the GY. After drawing the cards, a smile appeared on the corner of his mouth.

Kaiba faintly realized something was wrong, and frowned.

This guy Could it be that he has found a way to defeat the Blue-Eyes Chaos Dragon so quickly?

Here we come, Mr. Kaiba! First, I activate the trap card NEXT from my hand!

Seeing the trap that appeared on Judai's field, Kaiba couldn't help showing surprise.

A trap card activated in the hand?

If I control no cards, I can activate this card directly from the hand! Judai said, I can Special Summon any number of monsters with different names from the hand and/or GY, in Defense Position, that are all Neo-Spacian monsters or Elemental HERO Neos, but negate their effects.

Resurrect from the GY! Elemental HERO Neos, Neo-Spacian Grand Mole, Neo-Spacian Flare Scarab!

The trap card rolled up a vortex on the ground, the Elemental HERO who received the mysterious fluctuations from the depths of the universe, and the mole and beetle heroes from Neo Space appeared one after another, blocking in front of Judai like an iron wall.

[Elemental HERO Neos, DEF 2000]

[Neo-Spacian Grand Mole, DEF 300]

[Neo-Spacian Flare Scarab, DEF 500]

Defensive monsters are useless in front of the Blue-Eyes Chaos Dragon. Kaiba said lightly, But I think you should already know this.

Yeah, I know. Judai smiled, Activate Spell Card Space Gift. Draw 1 card for each different Neo-Spacian name on the monsters I control.

I have 2 Neo-Spacian monsters on the field, so I draw two cards from the deck.

Drawing two cards and adding them to his hand, Judai clenched his fists: Mr. Kaiba, I have seen the power of your dragon, now I'll let you see the true power of my Neos!

Kaiba raised his eyebrows.

I return the three monsters on the field, Elemental HERO Neos, Neo-Spacian Flare Scarab, Neo-Spacian Grand Mole to the deck! Triple Contact Fusion!

Neos: Flare Scarab, Grand Mole, lend me your strength!

Contact Fusion!? Kaiba was surprised.

The three monsters on Judai's field flew up together, flying high into the air, as if they broke through the atmosphere, flew out of the earth, turned into shooting stars that shuttled through the starry sky, and shot into the vast and endless universe, converging into that magnificent galaxy.

The starry sky responded.

In the galaxy where the three beams of light entered, a huge fireball rolled down! The red-hot burning sphere flew straight back, broke through the atmosphere, crashed down with a roar, and exploded on the ground with a soaring explosion!

The hero emerged from the bursting flames with a burly figure, and the thick armor seemed to be burnt red by lava. He landed heavily, and white smoke rose from the ground hissing. The super high temperature seemed to refract the light, making the air around him seem to be distorted and drifting.

The Triple Contact Fusion summoned one of the most powerful forms of Neos!

[Elemental HERO Magma Neos, ATK 3000]

The attack power is the same as that of the Blue-Eyes Chaos Dragon Kaiba said.

Of course, this was only the original attack power.

Kaiba, who faced this hero in person, could clearly feel that this hero's power is not limited to this!

This monster gave him an extremely tyrannical oppressive force. The power contained in it was not at the same level as ordinary monsters, and even his Blue-Eyes White Dragon might be inferior.

Perhaps only the Blue-Eyes Ultimate Dragon could compare with it in terms of momentum!

Magma Neos effect is activated. Judai said, This card gains 400 ATK for each card on the field!

Now there were five cards on the field: Magma Neos, Blue-Eyes Chaos Dragon, Kaiba's two set cards, and the Continuous Spell Card Frontline Base activated in the first turn.

It meant a total of 2000 points of attack power increase!

[Elemental HERO Magma Neos, ATK 3000 ATK 5000]

Attack power 5000

It's not over yet. Judai smiled, and showed another card in his hand, Activate Equip Spell Card Favorite Hero!

Kaiba: !

Of course, he was very familiar with this card.

After all, it was the card used by the damned Yusei !

Equip it to Magma Neos! Judai shouted, Then I will directly enter the Battle Phase here, and the effect of Favorite Hero will be activated at the same time!

At the start of the Battle Phase: I can activate 1 Field Spell directly from my hand or Deck! I activate Neo Space!

The field card automatically popped up from the deck on the Duel Disk, and the moment it was activated, the duel field was instantly dominated by the world of light.

Colorful lights filled the entire space from the bottom of the feet to the ceiling as if the location of this battle was instantly transferred to the Kingdom of Light at the far end of the starry sky

For example, the legendary M78.

Neo Spaces effect Elemental HERO Neos and all Fusion Monsters that list Elemental HERO Neos as a Fusion Material Monster gain 500 ATK. Then, because there are two more cards on the field, the attack power of Magma Neos increases by another 800 points!!

[Elemental HERO Magma Neos, ATK 5000 ATK 6300]

Next is the effect of Favorite Hero! Judai continued to shout, If there is a card in my Field Zone, the equipped monster gains ATK equal to its original DEF, which is 2500 points!

[Elemental HERO Magma Neos, ATK 6300 ATK 8800]

Even the Kaiba couldn't help but change his expression: Attack power 8800!?

Yusei also couldn't help talking to himself: Is this the strength of Judai-senpai? It's so strong

By the way, the monster equipped by Favorite Hero cannot be targeted by card effects. Judai smiled slightly, waved his hand, and said, Battle! Magma Neos, attack the Blue-Eyes Chaos Dragon! Super Heat Meteor!

The hero's whole body burst into flames!

He raised his right hand high, and all the energy in his body was concentrated towards his palm. The light visible to the naked eye concentrated towards his palm as if turning into an air current, brewing into a huge burning energy sphere, which contained a light that could burn everything!

The majestic light was thrown out from Magma Neos' hands as if overwhelming the sky and devouring the Blue-Eyes Chaos Dragon. Even if a monster as strong as the chaotic white dragon could not resist under that supreme divine light, and could only scream helplessly

Boom!!!

The explosion that soared into the sky seemed to burn this new space. The scorching heat and light made people's retinas ache and they couldn't look directly at it.

Did Judai-senpai win?

Yusei put down the arm protecting his face, barely opening his eyes against the strong light.

No, that didn't seem to be happening.

After Magma Neos' fatal blow, the huge dragon spread its wings and scattered the smoke in space. The indicator lights on the armor showed blue light, and the chaotic white dragon raised its head and let out a high-pitched dragon chant!

[Blue-Eyes Chaos Dragon, ATK 8800]

Judai was surprised: The attack power of the Chaos Dragon also reached 8800?

Hahahahaha!!!

Kaiba folded his arms and laughed.

You are very strong, you are indeed very strong. He waved his hand, But what you are facing is the most powerful duelist on Earth!

At that moment, all my two trap cards were activated!

Trap Card Enhanced Counter! Negate any battle damage I would take, then make 1 monster I control gain ATK equal to that amount of damage that was negated, during this Battle Phase only! (animation card)

There is also a Trap Card Time Machine! When a monster is destroyed by battle and sent to the GY: Special Summon that monster to the same field it was on, in the same battle position it was in when destroyed!

As previously mentioned, in this era, the settlement of the battle steps hasn't been completely separated like later generations. The destruction of monsters and the damage calculation were carried out at the same time. Therefore, Kaiba could first use the Time Machine to resurrect the destroyed Blue-Eyes Chaos Dragon back to the field, and then use Enhanced Counter to nullify the damage he has received and increase the Chaos Dragons attack power by the way.

As expected of President Kaiba. Yusei quickly saw the reversal of the situation, Although the attack power was only increased in this turn, the attack of Judai-senpai in this turn is also over.

In the next turn, Magma Neos will be affected by the effect of the Blue-Eyes Chaos Dragon, and his attack power and defense power will all be reduced to 0. As long as he takes that blow, Judai-senpai will lose

Also, because Kaiba used up the two set cards in his back row, there were two fewer cards on the field, and the attack power of Magma Neos also dropped.

[Elemental HERO Magma Neos, ATK 8800 ATK 8000]

Obviously, even if he could attack again, he was no longer the opponent of the Blue-Eyes Chaos Dragon.

Hmph, you can be proud of being able to make up this far. Kaiba said, But now I'm stronger than ever! If you want to beat me, your strength is far from enough!

That's not necessarily true, Mr. Kaiba. Judai smiled.

What? Kaiba's eyelids twitched.

It's almost a bodily instinct. The president immediately felt bad when he heard this sentence

My attack is not over yet.

With a wave of his hand, Judai pulled out the Equip Spell from the Duel Disk and sent it to the GY.

Activate the effect of Favorite Hero! When the equipped monster attacks and destroys an opponent's monster by battle: I can send this card to the GY; the attacking monster can make a second attack in a row!

With the disappearance of the Equip Spell Card, Magma Neos gained the ability to attack again during this Battle Phase. It's just that correspondingly, he also lost the enhanced attack power, which was 2500 points. Then because there was one less card on the field, another 400 must be reduced.

[Elemental HERO Magma Neos, ATK 8000 ATK 5100]

Kaiba was surprised: Do you still want to attack after the attack power has dropped to this point!?

Although he realized that something was wrong, he had no way to stop it, so he could only grit his teeth and shout: Blue-Eyes Chaos Dragon, counterattack! Burst of Chaos!!!

Even before he ordered, Blue-Eyes Chaos Dragon had already opened her mouth. At this time, the strength of the two sides has reversed, and a chaotic gust of wind was brewing in the mouth of the dragon. A single blow with an attack power of over 8000 was enough to determine victory or defeat!

However, at this moment, Judai revealed his last card, which was also the card that would determine the outcome!

Quick-Play Spell Battle Fusion! Judai shouted, When an attack is declared involving a Fusion Monster I control and an opponents monster: That monster I control gains ATK equal to the ATK of the opponents monster!

What!!?? The president was startled.

Battle Fusion!?

"

"

He couldnt help recalling in an instant the last duel with Yuei Vu. What he was facing at that time was also an Elemental HERO deck, and it was also a fierce exchange of offense and defense between the two sides. In the end, the duel was settled by the Battle Fusion drawn by each other at the same time.

This time, in the hands of Yuei Vu s apprentice, am I going to repeat the same mistakes I made last time!?

In a daze, the president felt that the image of this guy in front of him seemed to overlap with Yuei Vu in a blur

It felt as if I had another fierce battle with Yuei Vu !

[Elemental HERO Magma Neos, ATK 5100 ATK 13900]

Kaiba was stunned to see that Magma Neos whole body seemed to be bursting with light. Brilliant golden light wrapped the heros whole body in the middle, and the lava that shot out from his palm easily tore apart the impact of the Blue-Eyes Chaos Dragon, penetrated the armor, and shattered the body of the dragon of light.

Kaiba, LP 1300 LP 0

Kaiba staggered back half a step, and the black smoke projected by the stereo image slowly dissipated.

He couldnt recover for a while.

I lost.

And it isnt even Yuei Vu himself who defeat me this time, but his apprentice.

Yuei Vu , how strong are you now!?

Of course, Kaiba has already passed the stage of depressed after losing a game when he first dueled with Yugi.

Or rather, it was because he learned to accept his defeat that he was able to overcome that hurdle and reach the height he was today.

If he couldn't accept even one failure, he would have been unable to move forward long ago.

Anyway, this was not the first time.

Losing to Yugi, losing to Yuei Vu, and then losing to Yugi again

If you lost over and over, you would get used to losing.

When he raised his head, he found that a certain unicorn contestant had come in front of him

Gotcha! Judai raised his hand heartily, That was a fun Duel, Mr. President.

Kaiba:

Chapter 377: The Art of Language

Kaiba Land.

After handing the task of dealing with Siegfried over to Judai and Yusei, the two future protagonists, Yuei Vu was quite at ease.

Although in the early period of GX, Judai was relatively simple and a bit unreliable except for playing cards, with the development of the story, he experienced a lot, and he has fully grown into a mature and reliable duelist who can stand on his own.

It was needless to say about Yusei. He has been a reliable image of a cold-faced cool guy since he appeared on the stage. He belonged to the type of people who did more and talked less.

Oh, by the way, he was also a black technology geek, and he was even very good at fighting.

This was why Yusei was so popular among the protagonists of Yu-gi-oh.

After all, everyone loves mature men who are cold on the outside and hot on the inside.

So after handing it over to them, Yuei Vu didn't ask about Siegfried anymore.

There should be no problem, right?

The first duel was over, and Yuei Vu, who has successfully advanced, was now patiently waiting for the organizer to inform him of the location of the next duel, while

Waiting for Chika-chan to go to the bathroom.

In all amusement parks especially an amusement park on the first day of opening, the most disappointing place may be the women's restroom where the line stretched as far as the eye could see

According to legend, there was once a young girl who was queuing in front of the toilet in an amusement park. After waiting for a long time, the line did not move. She couldn't help but ask the aunt in front how long she had been queuing.

But the aunt gave her a blank look and said with disdain: New here? I was as young as you when I first came.

It's scary.

However, Yuei Vu was not idle while Chika was queuing up. He found a small shop and planned to buy some drinks casually.

After all, playing cards required a lot of talking, which made it very easy to get thirsty.

Yuei Vu took two bottles of drinks in the store by the way, he also brought a bottle for Chika. As soon as the choice was made, the Dark Magician Girl came up and said, Master, master! I still want to eat that stick from last time!

Yuei Vu looked in the direction her little finger was pointing at and saw the popsicles in the refrigerator.

Yuei Vu thought about it.

Its rare for her to come out, so I should buy it for her.

After all, Im such a good master.

Yuei Vu went to the counter to check out drinks and popsicles. The aunt behind the counter raised her head and glanced at the well-behaved Dark Magician Girl following him. She seemed to understand this as some kind of cosplay.

Hearing the Dark Magician Girl calling Master intimately, I dont know if the aunt wanted to mess up something, but she just shook her head: Oh, its nice to be young. People like you have a lot of fetishes

Yuei Vus face was darkened.

Aunt, have you misunderstood something?

This is my spirit, do you understand?

The kind of partner who was used to playing cards, not to warm the bed!

Then Yuei Vu caught a glimpse of the special souvenir for the opening of Kaiba Land in the store a Blue-Eyes White Dragon key chain and unexpectedly felt that the design seemed to be pretty good, so he asked the aunt for the price and wanted to buy one as a souvenir.

Maybe its because of Charisma 95. The aunts attitude was quite good. She enthusiastically expressed that he was a lucky customer, and the key chain was given to him without charge.

That enthusiastic attitude reminded Yuei Vu of the kind cafeteria lady who always liked to give him a few extra pieces of meat when he was a student

But the design of the keychain was really beautiful in fact, all the Blue-Eyes White Dragon-related peripherals of the Kaiba Corp were pretty good.

Yuei Vu guessed that if there was any white dragon that did not look good, its designer might be directly fired by the president

While eating the big, hard, and cold popsicle, the Dark Magician Girl watched curiously as Yuei Vu fiddled with the keychain.

Whats wrong? Yuei Vu noticed her gaze.

Noits nothing. She held up her magic hat and whispered, Because Master often often pulls out the Duel Disk, I thought that Master is not interested in anything other than the Duel Disk

Yuei Vu:

Do even my own spirit partners have this impression!?

Moreover, Yuei Vu thought that he didn't always pull out other people's Duel Disks, but only occasionally did it to punish those who used duels to commit crimes

well, except for Paradox's awesome future Duel Disk. That he probably did have a little bit of a desire to

But can that be called robbing?

Yuei Vu felt that it was necessary for him to correct his spirits' improper use of words.

After all, language was a very artistic thing, and sometimes you had to learn to use appropriate and reasonable words.

For example, an eminent monk should never marry for life. However, if you asked the monk if he would occasionally satisfy his needs, the master monk may say: Amitabha Buddha, this is called releasing life.

This was the art of language.

Yuei Vu also browsed the forum to learn about the battles in other regions of the KC competition.

To his surprise, none of the top eight players seemed to be Paradox or anyone who looked like Paradox.

He originally thought that Paradox might participate in the competition as a player and prepare to make trouble just as the other villains in the 5DS animation did.

But he didn't.

Could it be that Uncle Pa saw too many seafood heads gathered at the KC Grand Prix, and he succumbed to the power of cheaters?

Yuei Vu thought it should not be the case.

Anyway, this was the ruthless man who challenged the three generations of Duel Kings alone in the original work, so he didn't give up so easily.

Looking through the player forum, it seemed that no one has seen Uncle Pa.

Instead, it seemed that some players noticed that there are two impostors among us.

Someone mentioned in the forum that they found that there were two guys in a unicorn suit and a rabbit suit in the Kaiba Land

without the ID on the head!

However, it did not attract too many people's attention. There were only a few players who first discovered this detail, and most of them just thought it was a small easter egg, maybe it was an NPC specially placed in the park by the game company to promote and sell their headgear fashion.

Some players also posted that they wanted to see if there was a hidden mission, and went up to challenge the NPC wearing the unicorn suit, and the other party readily accepted.

Then

the player was hammered into doubting his life by the other party, who only used a set of Normie cards suspected to be bought at a roadside stall

But Paradox definitely hasn't left this era. If he left, Yusei would definitely know.

So now Yuei Vu was still paying attention here and checked the forum from time to time to see the situation.

All the players in this park were his potential eyeliners. Players have always had a keen sense of hidden plots, and they should find out quickly if there are any strange signs of trouble.

Bringing Chika, who had finally gone to the toilet successfully after going through all kinds of hardships, Yuei Vu also received the address information for the next duel.

This time the battle took place outside the plant-themed stadium, and his opponent was already waiting there.

It was a little loli with rose-colored long hair and bright orange eyes. Although she was not tall and looked a little thin, she had the vibe of a lady.

For some reason, Yuei Vu felt that this loli looked a little familiar?

Chapter 378: It's Better To Open The Card Pack

Kaiba Land, on the other side.

This is amazing!

Mazaki Anzu, who was wearing a crop top and black silk on her long legs, looked at the white water jets that were sprayed into the air in layers with a look of novelty and admiration.

This was the fountain square of Kaiba Land. Many passers-by stopped by the fountain pool to watch, and many people took photos with their cameras.

Mazaki Anzu was also one of them. She enthusiastically took Yugi beside her and took pictures from various angles.

What's interesting was that when this trip to Kaiba Land has just started, Yugi Mutou somehow got back into the Millennium Puzzle and didn't respond to outside's call. So the one who helplessly accompanies Anzu to visit the Kaiba Land here was actually Yami Yugi.

The Pharaoh from three thousand years ago was a master at all kinds of games, but he was obviously not very interested in entertainment other than games.

At this moment, he was helplessly letting Anzu put him in various poses to take pictures, and at the same time, his mind was still distracted

What is the situation of AIBO today? Does he feel uncomfortable?

There is no card to play, why did you ask me to come out

Jonouchi heard that there are professional level AI robots in the stadium built by Kaiba, so a card addict like him naturally went there to play cards. The accompanying Sister Mai and his good brother Honda (who was still working hard to become the brother-in-law) also followed him.

So there were only Yugi and Anzu left.

Anzu dragged him around the park for a long time, and the Yami Yugi lacked interest throughout the whole process, and he was basically distracted all the time.

It wasn't until they happened to pass by a Kaiba Card Store in the park that his eyes lit up and he became interested.

A few minutes later.

Very good! Another good card has been opened! Yami Yugi looked at the card drawn from the newly purchased card pack and nodded secretly.

Looking at Yami Yugi who seemed to have regained his energy in an instant, while Anzu was happy for him, she couldn't help but feel an inexplicable sense of frustration.

It's no secret that Anzu has a crush on Yami Yugi.

From Anzu's point of view, this mysterious boy was cool, had invincible card-playing skills, and was very calm and reliable. What's more, he has saved her life more than once.

The DM animation actually deleted a lot of plots. For example, in the original manga, Anzu was held hostage by gunmen when she was working in a fast-food restaurant. It was Yami Yugi who rescued Anzu at the beginning and burned the gangster to ashes.

In addition, there were a few more times she was in danger, such as when she was targeted by pervert stalkers, or when she was knocked out with chloroform by a self-proclaimed psychic, and Yami Yugi always came to the rescue in the end.

In this way, Anzu's hostage experience in the early period may not be much worse than that of Yugi's grandpa.

The girl mustered up her courage and decided to give herself another chance: By the way, I heard that there is a sculpture of a Dark Magician and a Dark Magician Girl partnering on the other side of the paradise. I heard that it is quite well done. Why don't we go and see it together? ?

Sculpture?

Yami Yugi glanced at the rows of card packs in the store with the words Kaiba Land Limited written on it, feeling a little displeased in his heart.

I have a Dark Magician myself, why should I go there to see the statue

It's better to open the card pack.

Hey, it sounds very interesting! At this time, Yugi Muto in the spirit form floated out in time, Why don't you go and have a look, another me! I am also very interested!

Okay, let's go and have a look. Yami Yugi nodded.

Anzu, who felt that her opinion was adopted, couldn't help but smile happily.

But before he took a few steps, Yami Yugi stopped, frowned suddenly, and turned his head to look in a certain direction behind him.

No one was there.

What's wrong, another me? Yugi Muto asked with his mind.

No, nothing. Yami Yugi shook his head.

Maybe its an illusion.

Not long after they left, a faint phantom appeared in the place where Yami Yugis gaze had just swept.

With long golden hair and a strong and strong body, it was Paradox who hadnt appeared for a long time.

Another Duel King, Muto Yugi it is said that the soul of the pharaoh from three thousand years ago resides in his body Paradox narrowed his eyes, what a keen intuition. It seems that none of these legendary duelists in history is a weakling.

At this time, Yuei Vu looked at the rose-haired loli in front of him, and then at the Duel Disk she was wearing, feeling a little uncertain for a moment.

This is my opponent in the next battle?

Not impossible. In fact, Yu-Gi-Oh, there were quite a few gifted kids who were good at playing cards, and this thing still depended on talent.

YouMr. Yuei Vu!? The little girl recognized him and couldnt help being surprised.

Yuei Vu greeted her with a smile, looked around, and didnt seem to see anyone else who seemed to be preparing to play cards, so he asked: So, is my next opponent going to be you?

II The little girl lowered her head, pulling her skirt as if she was too nervous to speak.

Dont be nervous, just fight like a normal duel. Whats your name?

Izayoi Sakura Izayoi.

Yuei Vu: !

Izayoi?

Only then did Yuei Vu suddenly understand why he felt a familiarity.

This hair color, this appearance

Although she looks a little young, a little immature, she does look like the heroine of Yu-Gi-Oh! 5DS Aki Izayoi.

I just dont know what kind of relationship this loli has with Aki.

From this point of view, the Izayoi family may have really good genes, and they have been beauties from generation to generation

Thinking about it this way, Yusei seems to happen to be still in this era, doesnt he?

I dont know how he will feel if he sees this loli

In short, the onlookers were all fried pots now.

Izayoi? Is that the one I thought?

Sister Aki, my goddess!

The future Aki will be entrusted to you to protect, I will take this one away first

Dont think about that! Lets duel to solve this!

The lolis announcement of her name suddenly caused such a big reaction from the screwballs, which almost scared her for life.

She looked at this group of weird people who looked at her with hungry eyes, and subconsciously retreated behind Yuei Vu.

Maybe its because she thought Big Brother Duel King made people feel more secure

Scared. JPG

At this moment, Yuei Vu suddenly remembered that Akis father in Yu-Gi-Oh! 5DS seemed to be an important member of parliament.

As we all know, passers-by who couldnt play cards in Yu-Gi-Oh had no future. Therefore, Yuei Vu could boldly guess that the future Izayoi familys development to such a high status may have something to do with their familys previous generations superb card-playing skills

The two shuffled the cards, changed positions, and came to the venues on both sides to stand still.

Are you ready? Yuei Vu said that he had always been patient with Lori.

After Sakura took a deep breath, she nodded seriously.

Okay, Mr. Yuei Vu!

Okay, then this bother is going to be serious.

Duel! x2

Yuei Vu, LP 4000

Sakura Izayoi, LP 4000

Chapter 379: Queen of Roses

Its me who goes first, draw!

Yuei Vu got the first turn here.

Activate Spell Card Polymerization, Yuei Vu directly imitated the classic starting move of Judai I fuse the Elemental HERO Avian and Elemental HERO Burstinatrix.

Fusion Summon! Elemental HERO Flame Wingman!

Avian and Burstinatrix, two model workers who first appeared in the animation, both appeared, turning into green and red lights respectively in the mid-air vortex. A beam of light crashed to the ground with a transparent storm, and the flames rushed away from the beam of light, and the hero with a single white wing and a green body appeared on the stage with a roar.

[Elemental HERO Flame Wingman, ATK 2100]

Sakura opened her mouth slightly: Fusion Summon a high-level hero on the first turn

The Flame Wingman was now a well-known hero. There was still a sculpture of the Flame Wingman at the Heroes Square in Kaiba Land. Because of his outstanding and handsome appearance, he had many fans.

Set two cards, I end my turn.

Sakura quickly restrained her mind.

Mr. Yuei Vu is serious.

This made her very happy as if she felt that she was valued.

It was the dream of any duelist to be able to fight against the all-out Duel King.

Then I have to work hard too!

Its my turn, draw! Sakura glanced at the cards in her hand and nodded with seriousness on her face.

Very good, I will activate it first from the hand the Spell Card Graceful Charity! Draw three cards, and then discard the two cards from the hand to the graveyard.

She drew three cards, then carefully picked out two and sent them to the GY.

Then the effect of the Rose Lover in the graveyard is activated!

The monster card that had just entered the GY was bounced out by the Duel Disk with a burst of golden light and returned to her hand.

Banish this card from my GY; Special Summon 1 Plant monster from my hand! Descending from the heavens

Queen Angel of Roses!

Countless bright red petals fluttered, and the awe-inspiring queen descended from the sky, wearing a snow-white mask, with flower-like bright red wings, a rose-like long skirt, and a snow-white sword in her hand, gracefully and slowly falling from the sky.

[Queen Angel of Roses, ATK 2400]

A monster with an attack power of 2400 right from the start Youre not bad either. Yuei Vu gave his approval with a smile.

Sakuras face blushed slightly after being praised.

She was indeed a little proud of being able to summon such a powerful monster in the first round, but she didnt forget the business.

Enter the Battle Phase! Im going to attack too, Mr. Yuei Vu! She said, Queen Angel of Roses, attack Elemental HERO Flame Wingman!

The queen of roses flew forward, with a long trail of flowers trailing behind her. The white sword dragged a transparent airwave and slashed toward the hero, straight for the opponents face.

Open the set card! Trap Card Wall of Disruption! Yuei Vu said, When an opponents monster declares an attack: All Attack Position monsters the opponent controls lose 800 ATK for each monster they control.

A transparent corrugated barrier emerged, forming a buffer zone between the Flame Wingman and the Rose Queen. If Queen Rose wanted to break through this line of defense, her strength would be greatly weakened

That was supposed to be the case.

However, the Rose Queen didn't care about this line of defense at all, and directly plunged in. A layer of faintly visible light red energy covered her body, protected by that energy, the wave barrier couldn't affect her at all.

It's useless, Mr. Yuei Vu. Sakura was a little proud, The monster summoned by the effect of Rose Lover is unaffected by the opponent's Trap effects this turn.

The white sword slashed out without hindrance, cutting the hero's body horizontally. The latter snorted and was blown to pieces with a bang.

Yuei Vu, LP 4000 LP 3700

Yuei Vu took the damage calmly and nodded, It's a beautiful attack.

I'll set two cards and end my turn.

After finishing a round of operations, Sakura let out a long sigh of relief.

She was very satisfied with her performance this turn. If the full score was ten, she felt that she should be able to score at least eight.

Then it's my turn. Yuei Vu said, Spell Card Pot of Greed, draw two more cards from the deck. Then I summon Elemental HERO Solid Soldier.

A hero in steel armor appeared on the field, with his arms clad in shield-like wrist guards stretched out, he let out a low and crisp cry.

[Elemental HERO Solid Soldier, ATK 1300]

The effect of Solid Soldier! When this card is Normal Summoned: I can Special Summon 1 Level 4 or lower HERO monster from my hand. Yuei Vu showed the next card in his hand, Special Summon Elemental HERO Blazeman!

Yuei Vu then waved his big hand, and the flame hero who had just appeared on the field burst into blazing flames all over his body and activated his ability.

The effect of Blazeman If this card is Normal or Special Summoned: I can add 1 Polymerization from my Deck to my hand.

Yuei Vu added the card to his hand, but he was not in a hurry to activate it, instead revealed another card first.

Continuous Spell Card of Safe Return! The Spell Card appeared beside him, surrounded by a faint golden light, and played its effect, As long as this card exists on the field, whenever a monster is revived from the graveyard, I draw three cards.

Then I activate Spell Card Polymerization! Fuse Blazeman and Solid Soldier on the field!

The fusion condition is 1 Elemental HERO monster + 1 EARTH monster!

Fusion Summon! Elemental HERO Gaia!

A huge magic vortex appeared in midair. The solid and flame heroes both flew up, turned into silver light and flames, and submerged into the vortex one after the other.

The magic vortex erupted instantly, and a beam of light fell from the sky and landed on the ground. The ground cracked and dust flew everywhere. The steel giant in pitch-black armor stood heavily on the ground, with debris splashing around him.

[Elemental HERO Gaia, ATK 2200]

The effect of Gaia When this card is Fusion Summoned: Target 1 face-up monster your opponent controls; until the End Phase, its ATK is halved and this card gains the same amount of ATK! Yuei Vu said, Gaia Shock!

The huge black hero punched the ground, and the cracks spread to the soles of the feet of Queen Angel of Roses at a speed visible to the naked eye. The Queen of Flowers immediately sank in, and her power was quickly seized and absorbed by the heroes of the earth.

[Queen Angel of Roses, ATK 2400 ATK 1200]

[Elemental HERO Gaia, ATK 2200 ATK 3400]

And then there is the effect of Elemental HERO Solid Soldier! Yuei Vu continued, If this card is sent from the Monster Zone to the GY by a Spell effect: I can target 1 HERO monster in my GY, except Elemental HERO Solid Soldier; Special Summon it in Defense Position.

I special summoned Elemental HERO Blazeman again!

A vortex opened up on the ground, and a stream of flames spewed out. The flame hero in tights and goggles returned to the field, half-squatting with his arms crossed to block the ground.

[Elemental HERO Blazeman, DEF 1800]

Then there is the effect of Card of Safe Return! While Yuei Vu waved his hand, the green Spell Card beside him burst into a brilliant golden light, Because a monster was resurrected from the graveyard, I draw three cards!

Sakura looked at Yuei Vu's series of operations and couldn't help being a little overwhelmed. Her small face was filled with amazement: Mr. Yuei Vu, it's amazing

It's very common for Yuei Vu to pretend to be calm on the surface, but in his heart, he still felt proud.

Men, in fact, are all vain and like to hear compliments from women.

Especially things like You were really good last night (referring to a duel)

Chapter 380: A Good Seedling

Battle! Yuei Vu waved his hand, Elemental HERO Gaia, attack Queen Angel of Roses!

The armored hero of the earth roared, like countless engines starting at the same time! The huge body flew towards the queen who was stuck in the crack and couldn't move, and the huge iron fist smashed down the queen of roses with force!

Open the set card! The little loli Sakura came back to her senses, not to be outdone, Trap Card Wall of Thorns! When a Plant-Type monster I control is targeted for an attack: Destroy all Attack Position monsters the opponent controls!

Countless vines covered with thorns waved like long whips, and quickly gathered together, forming a green wall to block in front of the Rose Queen.

The Plant-specific version of Mirror Force!

Sakura clenched her little fist: In this way, Mr. Yuei Vu heroes will be destroyed!

But Yuei Vu did not relax his countermeasures: Open the set card: Counter Trap Seven Tools of the Bandit. Pay 1000 LP, negate the activation of a Trap Card and destroy it.

Yuei Vu, LP 3700 LP 2700

The barrier built by thorns quickly collapsed, and along with the trap card, it shattered in front of Sakura. She let out an ah, and could only watch the dark heavy armored hero continue to rush towards her field.

The Queen of Roses was stuck in the ground and could not move. Facing the hero's heavy punch, she could only parry with her horizontal sword dully. However, due to the disparity in strength between the two sides, Gaia split her snow-white blade into two with just one punch and smashed it down mercilessly.

The queen swallowed the punch firmly and disappeared on the field with a snort.

[Sakura Izayoi, LP 4000 LP 1800]

Sakura's small body wobbled a few steps back from the shock as if she was almost not blown down by the impact of the virtual image. But after shaking, she quickly gritted her teeth and stood firm, with a wave of her little hand.

O Open the set card! Trap Card Time Machine! The cover card in front of her flipped over, When a monster is destroyed by battle and sent to the GY: Special Summon that monster to the same field it was on, in the same battle position it was in when destroyed!

I revived Queen Angel of Roses from the GY!

A black time machine appeared surrounded by a thick black fog. The device opened, and countless bright red petals flew like rain. The Queen of Rose quickly returned to the field under the influence of partial time reversal, and the horizontal sword blocked in front of the hero.

[Queen Angel of Roses, ATK 2400]

Did you keep your own monster? Yuei Vu nodded, But at this moment, the effect of the Card of Safe Return was also triggered. Because a monster was resurrected from the graveyard, I drew three more cards from the deck.

Then set a card, and I end my turn.

In the End Phase, the effect of Gaia ends, and the attack power returns to its original state.

[Elemental HERO Gaia, ATK 3400 ATK 2200]

He temporarily put down the Duel Disk: Can you still continue?

The girl's complexion was rosy, and her breathing was a little disordered. But she bit her lip stubbornly and nodded.

It was so hard to have the chance to duel with Mr. Yuei Vu, how could she give up so easily?

My turn!

Sakuras fighting spirit didnt drop in the slightest. She drew the card and pointed forward with her little hand.

The special effect of Queen Angel of Roses! During my Standby Phase: Destroy the 1 face-up monster on the field that has the lowest ATK!

Hmm Yuei Vu glanced at the hero beside him who was taking a defensive posture, The one with the lowest attack power on the field is my Blazeman

Thats right, so according to the effect of Queen Angel of Roses, Elemental HERO Blazeman will be destroyed!

The Queen of Flowers was covered with a red glow, and countless petals flew forward under her thoughts, surrounding like a storm, completely surrounding the Flame Hero.

The hero of flame was utterly unable to resist the layers of flowers, and he was swallowed in the ocean of flowers in the blink of an eye.

It seems that its a good thing that I revived Blazeman last round. Yuei Vu said, Otherwise, the one with the lowest attack power on the field that will be destroyed now is my Gaia.

(Blazeman: Boss, I have something to say)

But my attack is not over yet. Little loli drew out a card in her hand, I summon Lonfire Blossom!

An unremarkable plant-type monster emerged from the ground, with spiral vines like twisted flowers, purple leaves, and solitary flower buds. No matter how you look at it, it seemed to be a weak monster.

Lonfire Blossom, ATK 500

From the perspective of attack power, it did seem to be a very weak miscellaneous soldier.

But it would be wrong to think so!

The moment they saw this thing, the onlookers immediately started to make a noise, shouting Divine card, Forbidden card and so on, talking with words that NPCs couldnt understand.

Yuei Vu raised his eyebrows a little.

Because he couldnt be more familiar with this stuff. With the powerful effect of this thing, it was a Limited card even in todays environment!

Yuei Vu couldnt help but look at this little girl from the Izayoi family squarely.

Even in this world, this card should be a top-rare card, but this little loli actually had one in her hand.

This either meant that she was the chosen one for example, like Fudo Yusei, who could pick up a high-level deck from the trash or it may be that her family was very rich.

Could it be that Izayoi family has been noble for generations

The effect of Lonfire Blossom! Sakura said, Once per turn, I can Tribute 1 face-up Plant monster; Special Summon 1 Plant monster from my Deck!

So I used Lonefire Blossom itself as a sacrifice, and made a special summon from the deck!

The Lonefire Blossom quickly ignited the flames, targeting itself. Flames burst out from its bottom, quickly spread upwards along its root system, and gradually devoured the whole plant until it was completely burned to ashes.

The fairy who grew up among the camellias, the goddess under the moon

Tytannial, Princess of Camellias!

Surrounded by green vegetation, red flowers bloom gorgeously. With the rustling sound of the huge flowers, a goddess with snow-white skin and a beautiful face appeared in the center of the petals, and the blooming flowers were like her long skirt.

[Tytannial, Princess of Camellias, ATK 2800]

A strong wind swept across the field, and the bright red petals swirled along the whirlpool of the wind. The moment Tytannial appeared on the stage, she seemed to be in control of the whole situation, completely suppressing the hero of the opposite side.

Facing the storm of that flower, Yuei Vu curled his mouth: Its really a bit surprising that even Plant Princess series are brought out

He looked at the loli in front of him, and his mind was already active.

If cultivated properly, she will be a good seedling
